PROPOSAL NO. 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

Appointment of Auditors

KPMG LLP audited D&P Land's annual financial statements for the fiscal year ended August 31, 2005 and its internal control over financial reporting as of August 31, 2005. Representatives of KPMG will be present at the meeting to respond to appropriate questions and to make a statement if they so desire.

The Audit Committee is solely responsible for appointing the independent registered public accounting firm to be the Company's independent outside auditors for the fiscal year ending August 31, 2006. Although the Company is not

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

legally required to seek stockholder approval of its outside auditor, the Board of Directors believes that it is in the best interest of the Company and a matter of good corporate governance to do so.

At the time of publication of this Proxy Statement, the Audit Committee has commenced a process for the selection of the Company's outside auditors for 2006, but has not yet made a selection. Therefore, at this time stockholders are being asked to ratify the appointment of KPMG LLP as such auditors. However, such ratification is subject to the right of the Audit Committee to appoint a different auditing firm of comparable stature in the accounting profession, either before or after the annual meeting (and notwithstanding the affirmative vote of a majority of shares in favor of this proposal), as the Audit Committee may determine to do in the exercise of its business judgment.

Audit Fees

Aggregate fees paid or payable to the Company's independent registered public accounting firm relating to the audit of the 2005 and 2004 consolidated financial statements and the fees for other professional services billed during the periods from September 1 to August 31, 2005 and 2004 are as follows:

Type of Fees	2005	2004
Audit Fees (1)	\$589,000	\$213,000
Audit-Related Fees (2)	49,000	88,000
Tax Fees (3)	9,000	16,000
All Other Fees (4)	25,000	47,000
Total	\$672,000	\$364,000

(1) Represents the aggregate fees paid or payable by the Company to KPMG LLP for professional services rendered for the audit of the Company's annual consolidated financial statements and internal control over financial reporting (2005 only) and for the reviews of the consolidated financial statements included in the Company's Form 10-Q filings for each fiscal quarter.

(2) Represents the aggregate fees billed to the Company by KPMG LLP for assurance and related services that are reasonably related to the performance of the audit and review of the Company's financial statements that are not already reported in Audit Fees. These services include benefit plan audits and attestation services that are required by statute or regulation.

(3) Represents the aggregate fees billed to the Company by KPMG LLP for professional services relating to tax compliance, tax advice and expatriate tax services.

(4) Includes fees paid for due diligence relating to an international project.

Auditor Independence

The Audit Committee has considered whether the provision of the above noted services is compatible with maintaining the independent auditor's independence and has determined that the provision of such services has not adversely affected the independent auditor's independence.

Policy on Audit Committee Pre-Approval

As part of its duties, the Audit Committee is required to pre-approve audit and non-audit services performed by the independent auditor in order to assure that

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

the provision of such services does not impair the independent auditor's independence. The policy generally provides for the Audit Committee to pre-approve services in the defined categories of audit services, audit-related services, tax services and all other services, up to specified amounts, and sets requirements for specific case-by-case pre-approval of discrete projects that are not otherwise pre-approved or services over the pre-approved amounts. Pre-approval may be given as part of the Audit Committee's approval of the scope of the engagement of the independent auditor or on an individual basis. The pre-approval of services may be delegated to one or more of the Audit Committee's members, but the decision must be presented to the full Audit Committee at its next scheduled meeting. The policy prohibits retention of the independent auditor to perform the prohibited non-audit functions defined in Section 201 of the Sarbanes-Oxley Act of 2002 or the rules of the Securities and Exchange Commission, and also considers whether proposed services are compatible with the independence of the independent auditor. None of the Audit Committee's pre-approval requirements were waived in fiscal 2005.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THIS RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS.

THE BOARD OF DIRECTORS AND ITS COMMITTEES

Board Meetings and Attendance of Directors

The Board of Directors had 11 meetings in fiscal 2005. All Directors attended at least 75% of the aggregate of (i) the total number of meetings of the Board of Directors held while they were members, and (ii) the total number of meetings held by all Committees of the Board on which they served as members. All members of the Board of Directors attended the Annual Meeting of Stockholders on January 11, 2005. Directors are expected to attend Board Meetings and meetings of committees on which they serve, and to spend the time needed and meet as frequently as necessary to properly discharge their responsibilities with due care.

Director's Compensation

Each Director receives an annual fee of \$40,000 and an attendance fee of \$1,000 for each meeting of the Board of Directors attended. Directors are reimbursed for actual expenses incurred in connection with attending Board or Committee meetings. In addition, each non-employee member of the Audit Committee, Nominating and Corporate Governance Committee, Technology Committee, and Compensation Committee receives \$10,000 for serving on each committee of the Board of Directors, up to a maximum of \$20,000 per year. Under the 1995 Long-Term Incentive Plan, as amended, each new director of the Company is granted options for 62,222 shares. In addition, each director is granted options for an additional 2,666 shares in each of the second through sixth year each director serves as such. In May 2005, each non-employee Director was granted options for 12,000 shares and 4,000 restricted stock units under the 2005 Omnibus Stock Plan.

Director Independence

As permitted by the rules of the NYSE, the Board has adopted categorical standards to assist it in making determinations of director independence. These standards incorporate, and are consistent with, the definition of "independent" contained in the NYSE listing rules.

At least a majority of the Board shall consist of Independent Directors (as

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

defined below). No director may contemporaneously serve as a consultant or service provider to the Company. To find that a director is "Independent," the Board must affirmatively determine, after considering all relevant facts and circumstances, that the director has no material relationship with the Company either directly or as a partner, shareholder or officer of an organization (whether or not for-profit) that has a relationship with the Company. When assessing the materiality of a director's relationship with the Company, the Board should consider the issue not merely from the standpoint of the director, but also from that of persons or organizations with which the director has an affiliation. Material relationships can include commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships, among others. However, because the concern is independence from management, ownership of even a significant amount of stock, by itself, is not a bar to independence. A director who the Board affirmatively determines has no material relationship with the Company that may impact the director's independence from management is considered an "Independent Director." In addition:

(i) A director who is an employee, or whose immediate family member is an executive officer, of the Company is not independent until three years after the end of the employment relationship. However, employment as an interim Chairman or interim Chief Executive Officer shall not disqualify a director from being considered independent following that employment.

(ii) A director who receives, or whose immediate family member receives, more than \$100,000 per year in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service that is not contingent in any way on continued service, and other than compensation received by a director for former service as interim Chairman or interim Chief Executive Officer, is not independent until three years after the person ceases to receive more than \$100,000 per year in such compensation; provided, however, that compensation received by a director for former service as an interim Chairman or interim Chief Executive Officer, and compensation received by an immediate family member for

service as a non-executive employee of the Company, need not be considered in determining independence under this test.

(iii) A director who is affiliated with or employed by, or whose immediate family member is affiliated with or employed in a professional capacity by a present or former internal or external auditor of the Company, is not independent until three years after the end of either the affiliation or the employment or auditing relationship.

(iv) A director who is employed, or whose immediate family member is employed, as an executive officer of another company where any of the Company's present executives serves on the other company's compensation committee is not independent until three years after the end of such service or the employment relationship.

(v) A director who is an executive officer or an employee, or whose immediate family member is an executive officer, of another company that makes payments to, or receives payments from, the Company for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1 million, or 2% of the other company's consolidated gross revenues, is not independent until three years after falling below such threshold. Any relationship below such threshold shall not preclude the director's independence. In applying this standard, both the payments and the consolidated gross revenues to be measured shall be those reported in the last completed fiscal year. The three-year look-back provision for this standard applies solely to the financial relationship between the Company

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

and the director or immediate family member's current employer, and former employment of the director or immediate family member need not be considered. In addition, while charitable organizations are not considered companies for purposes of this standard, the Company must disclose in the annual proxy statement any charitable contributions made by the Company to any charitable organization in which a director serves as an executive officer if, within the preceding three years, contributions in any single fiscal year exceeded the greater of \$1 million, or 2% of the charity's consolidated gross revenues. Any Company donations to any charitable organization in which a director serves as an executive officer or director shall not preclude the director's independence if the aggregate amount of contributions in any single fiscal year does not exceed the lesser of \$100,000 or 2% of the charitable organization's consolidated gross revenues.

For purposes of subsections (i) through (v) above, "immediate family member" shall have the meaning as set forth from time to time in the NYSE Listed Company Manual. In applying the three-year look-back provisions, the Company need not consider individuals who are no longer immediate family members as a result of legal separation or divorce, or those who have died or become incapacitated.

In addition, a director's beneficial ownership of less than 5% of the Company's outstanding common stock shall be deemed immaterial and shall not be deemed to impair the director's independence. No relationship between a director and a beneficial owner of less than 10% of the Company's outstanding common stock shall be deemed material or to impair the director's independence.

Information pursuant to which the analysis and determination of director independence shall be made will be derived from the following sources:

1. Director and Officer Questionnaires;
2. Interviews with nominees (oral or written);
3. Summaries of relevant information about the nominees prepared by management based on information generally available; and
4. Other information properly available to the Board of Directors.

The Board has determined that each of the non-employee directors of the Company, Jon E. M. Jacoby, F. Murray Robinson, Stanley P. Roth, Joseph M. Murphy, Rudi E. Scheidt and Nam-Hai Chua, meets these standards and is independent. In addition, all non-employee Board committee members meet the applicable independence requirements of the NYSE and applicable law.

Executive Sessions of Non-Management Directors

The Company's independent Directors meet separately in executive session without the employee Director or representatives of management at least twice each fiscal year in accordance with the Company's Corporate Governance Guidelines. At each meeting of the Board, the Board determines which Director shall preside over the executive session without management to take place at the next scheduled meeting of the Board. At such time, the Board also designates an alternate Director to preside over such executive session. Any Director designated to preside over an executive session without management is one who is deemed an "Independent Director" under the Company's Categorical Standards for Determining Director Independence.

The D&PL Board of Directors has adopted a written charter for the Audit Committee which is attached as Appendix A. The Audit Committee hereby reports that the Audit Committee and the Company have complied with the Audit Committee Charter with respect to the fiscal year ended August 31, 2005.

The Board of Directors has determined that in its judgment, Joseph M. Murphy qualifies as an audit committee financial expert in accordance with the applicable rules and regulations of the SEC. Mr. Murphy is "independent" as defined by the NYSE Listing Standards.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee has met and held discussions with management and the Company's independent registered public accountants and has reviewed and discussed the Company's audited consolidated financial statements with management and the Company's independent registered public accountants.

The Audit Committee has also discussed with the Company's independent registered public accountants the matters required to be discussed by Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards), which includes, among other items, matters related to the conduct of the audit of the Company's financial statements.

The Company's independent registered public accountants have also provided the Audit Committee with the written disclosures required by Independence Standards Board Standard No. 1 (which relates to the auditors' independence from the Company) and the Audit Committee has discussed with the Company's independent registered public accountants that firm's independence.

Compensation Committee (Compensation Committee Interlocks and Insider Participation)

The members of the Compensation Committee are Messrs. Jacoby and Murphy. The Company is not aware of any information which would be required to be disclosed as compensation committee interlocks or insider participation in compensation decisions. The Compensation Committee met three times during 2005. The

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

Compensation Committee reviews and approves annual compensation, including bonuses, for senior management of the Company and administers the Company's 1993 Stock Option Plan, as amended, the 1995 Long-Term Incentive Plan, as amended, and the 2005 Omnibus Stock Plan, including the grant of options and restricted stock under each plan.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The Compensation Committee is composed entirely of independent directors. The Compensation Committee is responsible for reviewing and approving the compensation of the Chief Executive Officer and the other executive officers of the Company and reviewing and approving stock-based awards when recommended, including stock options, for each executive officer.

The Company's policy is to pay cash compensation (salary and bonus) in sufficient amounts so that the Company's officers receive compensation that is competitive with that paid by other companies of similar size within the seed industry, after considering cost-of-living factors such as location, as well as providing long-term incentives based on the performance of the Company. The long-term incentives are designed to attract and retain key executives by providing rewards for outstanding performance relative to peer companies. The Company has followed this policy since 1989.

Salary and Bonus

Salary ranges of executive officers are based on a written job responsibility measurement system created by an independent, outside salary consultant. This system is adjusted periodically. This system applies to all employees of the Company, and not just to the executive officers. Each position within the Company has an established salary range based on skill level and experience required to perform the duties, along with the position's level of importance to overall Company operations. Individual salary ranges are established at levels that provide internal equity, as well as competitiveness with similar positions in other companies with similar businesses. Merit salary increases are determined annually based on job performance and current salary level within the salary range set for that position. Each executive officer's performance review includes achievement against an established set of management responsibilities, as well as specific individual objectives. Objectives relate to the business function of that respective officer and may include financial performance objectives (i.e., achievement of budget goals), as well as other objectives relating to the individual's particular role in the Company (i.e., market share goals, unit cost management, plant safety record, new product introductions, etc.). The objectives of each executive officer are set by the Chief Executive Officer. Each executive officer's performance is rated by the Chief Executive Officer. Non-merit increases are a function of inflation and, as a result, in recent years have been modest.

The method of salary measurement described above also applies to the Chief Executive Officer. Objectives for the Chief Executive Officer are set by the Board of Directors. The salary of the Chief Executive Officer is discussed by the Chief Executive Officer with the Compensation Committee. Based on such discussions and the salary ranges and objectives discussed above, the Compensation Committee determines the Chief Executive Officer's compensation.

A bonus pool is created annually based on a specified percentage of pre-tax, pre-bonus, and pre-pension earnings. Under the Company's incentive bonus program, the total of bonuses paid in any year is limited to the lower of two limitations: (1) the bonus pool reduced by pension costs and (2) the sum of all performance-based maximum individual awards. The Chief Executive Officer can reduce, but may not increase, the overall bonus pool from the amount calculated using the pre-established formula. The Compensation Committee, upon the

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

recommendation of the Chief Executive Officer, may also adjust the size of the bonus pool. All positions eligible for bonus are placed in one of five categories that govern the maximum bonus available as a percentage of the mid-point of the position's salary range. These five categories include: (1) Chief Executive Officer and Senior Vice President, (2) other executive officers, (3) senior managers, (4) middle managers and (5) all other bonus-eligible positions. This maximum is based on the potential impact on the Company's profit of the job's responsibilities.

Each executive officer's bonus is based on his performance and achievement against individual goals as described for merit salary increase review. Performance is expressed as a percentage which, when multiplied by the maximum bonus available for that job, results in an adjusted performance-based maximum individual award for that year. All bonus awards to eligible employees are calculated in this manner, and actual awards are effectively the pro rata share of the available bonus pool or the performance-based maximum. Thus, the bonus of each executive officer is dependent on the achievement of the Company's earnings and the level of performance of each officer against established performance criteria and personal objectives.

The bonus for the Chief Executive Officer is similarly set based on the individual's job performance. The Chief Executive Officer recommends his bonus to the Compensation Committee. The Compensation Committee reviews, adjusts as appropriate and approves the bonus amounts for the Chief Executive Officer and the other executive officers.

Stock Awards

Awards of stock options and restricted stock for each executive officer and other key employees are recommended by the Chief Executive Officer and must be approved by the Compensation Committee and are granted at the sole discretion of the Committee. Based on an assessment of competitive factors, the Compensation Committee determines a suitable award that provides an incentive for both performance and employee retention purposes.

Chief Executive Officer's Compensation

During the Company's fiscal year ended August 31, 2005, W. Thomas Jagodinski was employed by D&PL as President, Chief Executive Officer and Director. Mr. Jagodinski's salary was based on his contribution to the Company. He was entitled to merit salary increases. These merit increases were determined in accordance with the procedures and guidelines described above. For fiscal 2005, Mr. Jagodinski's base salary was \$348,000 with a bonus of \$420,000. The Compensation Committee approved Mr. Jagodinski's bonus based on his achievement with respect to the earnings goal and related financial targets for the Company. Other factors in the Compensation Committee's decision were Mr. Jagodinski's leadership in developing corporate growth strategies, developing international business opportunities, his contribution made in developing the market for biotechnology-enhanced seed, the launch of new products and the execution of certain strategic transactions.

Compensation Committee

Technology Committee

The members of the Technology Committee are Messrs. Chua, Robinson and Jagodinski. Mr. Robinson was named a member of the Committee in October 2005. This Committee met four times during 2005. The Technology Committee reviews and monitors the Company's research and scientific initiatives in areas such as technological programs, molecular biology, and agricultural biotechnology. The Technology Committee also investigates significant emerging plant science and technology issues.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee (the "Nominating Committee") recommends nominees for election to the Board by the stockholders at the annual meeting and makes recommendations to the Board of Directors regarding corporate governance matters and practices. The Nominating Committee operates in accordance with its charter and is composed of Messrs. Jacoby, Murphy, and Robinson, each of whom meets the independence requirements of the NYSE. Mr. Robinson was named a member of the Committee in October 2005. The Nominating and Corporate Governance Committee met once during 2005.

The Nominating Committee identifies candidates for nominees based upon both its criteria for evaluation and the candidate's previous service on the Board. Additionally, the Nominating Committee may use the services of a search company in identifying nominees. Although the Nominating Committee has not determined specific minimum qualifications for its nominees, it evaluates candidates that it has identified based upon:

- o character, personal and professional ethics, integrity and values;
- o executive level business experience and acumen;
- o relevant business experience or knowledge (although preference may be shown for experience in or knowledge of the cotton industry, agribusiness, molecular biology or plant sciences, it is not a prerequisite);
- o skills and expertise necessary to make significant contributions to the Company, its Board and its stockholders;
- o business judgment;
- o availability and willingness to serve on the Board;
- o independence requirements of the NYSE;
- o potential conflicts of interest with the Company or its stockholders taken as a whole; and
- o accomplishment within the candidate's own field.

The Nominating Committee has adopted a policy with regard to considering a stockholder's nominee. To submit a nominee for consideration, a stockholder must provide the Nominating Committee:

- o proof of the stockholder's eligibility to submit proposals in accordance with Rule 14a-8(b) of the Exchange Act of 1934, as amended;
- o a complete description of the candidate's qualifications, experience and background; and
- o the candidate's signed consent to serve on the Board.

In general, the Nominating Committee will evaluate a candidate identified by a stockholder using the same standards as it uses for candidates it identifies. Before recommending a stockholder's candidate, the Nominating Committee may

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

also:

- o consider whether the stockholder candidate will significantly add to the range of talents, skills and expertise of the Board;
- o conduct appropriate verifications of the background of the candidate; and
- o interview the candidate or ask the candidate for additional information.

The Nominating Committee has full discretion not to include a stockholder's candidate in its recommendation of nominees to the Board. If the Nominating Committee does not recommend a stockholder's candidate to the Board, it will not make public the reason or reasons for its decision.

All options granted prior to 2005 under the 1993 Plan and 1995 Plan vest 20% per annum commencing on the first day of the second and each succeeding year following each grant and expire ten years from the date of grant. The options that were granted during 2005 under the 1995 Plan and 2005 Plan vested 45 days after grant date and expire seven years from the date of grant. The majority of stock options granted in 2005 were granted at prices in excess of the fair market value of the Company's common stock at the time of grant.

Compensation Pursuant to Plans

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

Pension Plan

The Company maintains a noncontributory defined benefit plan (the "Pension Plan") that covers substantially all full-time employees, including the Named Officers. All employees of the Company and its domestic subsidiaries, who have both attained age 21 and completed one year of eligible service, are eligible to participate in the Pension Plan. The Pension Plan provides a normal retirement benefit (if employment terminates on or after age 65) equal to the sum of: (i) 22.75% of average compensation (the average of the participant's five highest consecutive calendar years of earnings, including overtime but excluding bonuses) reduced by 1/25th for each year of credited service less than 25 at normal retirement; and (ii) 22.75% of average compensation exceeding the greater of one-half of average social security covered compensation and \$10,000, reduced by 1/35th for each year of credited service less than 35 at normal retirement.

The following table shows the estimated benefits payable in the form of a single-life annuity upon retirement in specified average compensation and years of credited service classifications:

Defined Contribution Plan

The Company maintains a defined contribution plan under the rules of Internal Revenue Code Section 401(k) (the "401(k) Plan"). The 401(k) Plan covers substantially all full-time employees. Eligible employees of the Company and its domestic subsidiaries, who have both attained age 21 and completed one year of service, may participate in the 401(k) Plan. A participant may elect to contribute up to 80% of his or her eligible earnings to the 401(k) Plan, subject to certain limitations under the Internal Revenue Code. The 401(k) Plan allows the Company to match a maximum of six percent of eligible employee contributions. As of August 31, 2005, the Company has elected not to match such contributions.

Long Term Incentive Plans

The Company maintains three long term incentive plans, all of which compensate key employees and directors through the grant of options to buy shares of Common Stock. In addition, the 2005 Plan allows the Company to award restricted stock and restricted stock units to participants. In 1993, the Company adopted the 1993 Plan, but no more options were granted under the plan effective with the adoption of the 1995 Plan. In 1995, the Company's Board of Directors adopted the 1995 Plan which the stockholders ratified at the 1996 Annual Meeting. In 2000, the 1995 Plan was amended and restated eliminating the ability of the Board of Directors to award stock appreciation rights, restricted Shares of Common Stock and performance unit credits. Pursuant to the amended and restated 1995 Plan, the Board of Directors may award stock options to officers, key employees and directors. Under the amended and restated 1995 Plan, 5,120,000 Shares are authorized for grant, which is an increase from the original 2,560,000 Shares. As of August 31, 2005, options for 6,289,868 Shares have been granted under the 1995 Plan, of which 1,313,248 have been forfeited and in some cases reissued pursuant to the Plan provisions leaving available for grant 143,380 shares.

In November 2004, the Company's Board of Director's adopted the 2005 Plan which the stockholders ratified at the 2005 Annual Meeting. Pursuant to the 2005 Plan, the Board of Directors may award a total of 2,400,000 stock options and a maximum of 2,100,000 shares of restricted stock and/or restricted stock units. As of August 31, 2005, options for 145,704 shares have been granted under the 2005 Plan, leaving available for grant 2,254,296. In addition, 167,748 shares of restricted stock and restricted stock units had been awarded, leaving 1,932,252 shares available for awards.

Under the 1993 and 1995 Plans, all stock options granted prior to the May 18, 2005 grant vest at a rate of 20% per annum commencing on the first day of the second and each succeeding year following each grant and expire ten years from the date of grant. On May 18, 2005, 1,105,213, stock options were granted under the 1995 and 2005 Plans which fully vested 45 days after grant date (July 2, 2005) and which have a seven year expiration. A portion of the May 18, 2005 grant included options granted with an exercise price equal to the fair market value of the Company's common stock at the time of grant. However, the majority of options granted at this time were issued with exercise prices of \$27.56, \$28.81, and \$30.06, which was in excess of the fair market value of the Company's common stock on the date of the grant.

The awards of restricted shares and restricted stock units under the 2005 Plan made during 2005 vest at a rate of 40% on the day following the one year anniversary from the date of grant and 30% on the second and third anniversaries of the grant date. Shares subject to grants and awards under the 2005 Plan which have expired, been cancelled, forfeited or terminated may again be made

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

available for grant under the 2005 Plan.

Such transactions will also be subjected to approval by a majority of the independent directors of the Company. The Board of Directors has adopted resolutions prohibiting advances without its approval, except for ordinary business and travel advances in accordance with the Company's policy.

SOLICITATION OF PROXIES AND COST THEREOF

In addition to the use of mails, certain directors, officers or employees of the Company and its subsidiaries, who receive no compensation for their services other than their regular salaries, may solicit proxies. The Company will reimburse brokerage firms, nominees, custodians and fiduciaries for their reasonable out-of-pocket expenses for forwarding proxy materials to beneficial owners and seeking instruction with respect thereto.

STOCKHOLDER PROPOSALS

Stockholder proposals intended to be included in the proxy statement and presented at the 2007 Annual Meeting should be received by the Company no later than August 1, 2006. With regard to stockholder proposals not included in the Company's proxy statement but which a stockholder wishes to be brought before the 2006 Annual Meeting, the Company's bylaws establish an advance notice procedure which requires that the Company receive notice of such a proposal by not less than 60 days nor more than 90 days prior to the date of the Annual Meeting; provided, however, that in the event that less than 70 days notice or prior public disclosure of the date of the meeting is given or made to stockholders, notice by the stockholder to be timely must be received not later than the close of business on the 10th day following the day on which such notice of the date of the Annual Meeting was mailed or such public disclosure was made. DELTA AND PINE LAND COMPANY

AUDIT COMMITTEE CHARTER

Purpose

The Audit Committee (the "Committee") shall provide assistance to the Board of Directors (the "Board") of Delta and Pine Land Company (the "Company") in fulfilling their oversight responsibilities to the shareholders, potential shareholders, the investment community, and others relating to the Company's financial statements and the financial reporting process, the systems of internal control, the internal audit function, the qualifications, independence, and performance of the Company's independent auditor, the annual independent audit of the Company's financial statements, and the legal compliance and ethical business conduct programs as established by management and the Board. In doing so, it is the responsibility of the Committee to see that free and open communications are maintained between the Committee and the independent auditors, the internal audit function, and management of the Company.

Composition and Qualifications

The Committee shall consist of at least three members. The members and the chairperson of the Committee shall be appointed by the Board, upon the recommendation of the Nominating and Corporate Governance Committee, and may be replaced by the Board. Committee members shall not simultaneously serve on the audit committees of more than two other public companies, unless the Board determines that such simultaneous service would not impair the ability of such member to effectively serve on the Committee, and such determination is disclosed as required by law.

The members of the Committee shall meet the independence, experience, and any other requirements of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the rules and regulations of the Securities and Exchange Commission (the "Commission"), and the rules and regulations of the New York Stock Exchange. If one member of the Committee is not an "audit committee financial expert" as defined by the Commission, then that fact shall be disclosed as required by the Commission.

Meetings

The Committee shall meet in person or via teleconference as often as it determines is necessary, but at least four (4) times per year. The Committee shall meet with the independent auditor at least quarterly. The Committee shall meet periodically with management, the independent auditor, and the head of the internal audit function in separate executive sessions. The Committee may request any officer or employee of the Company or the Company's independent auditor or outside counsel to attend any meeting of the Committee or to meet with any of its members or advisors. The Committee shall prepare each year an annual calendar for meetings of the Committee, setting forth the number of meetings, meeting dates and duration, and the anticipated meeting agenda. The Committee chairperson will entertain modifications to the anticipated agenda from members of the Committee, management and the independent auditors, and cause the revised agenda to be disseminated prior to each meeting. The Committee shall keep minutes of each of its meetings to properly document the discharge of its responsibilities and shall provide the Board with a report of each Committee meeting at the Board's next regularly scheduled meeting, especially of items of concern to the Committee.

Authority and Responsibilities

The Committee shall have the sole authority to appoint or replace the independent auditor. The independent auditor shall report directly to, and be

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

accountable to, the Committee. The Committee shall be directly responsible for the compensation and oversight of the work of the independent auditor (including the resolution of disagreements between management and the independent auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or related work.

The Committee shall pre-approve all audit services and permitted non-audit services (including the fees and terms thereof) to be performed for the Company by its independent auditor, subject to the de minimis exceptions for non-audit services described in Section 10A(i)(1)(B) of the Exchange Act which are approved by the Committee prior to the completion of the audit, pursuant to the Company's Pre-Approval Policy.

The Committee shall have the authority, to the extent that it deems necessary or appropriate to carry out its duties, to retain independent legal, accounting or other advisors. The Company shall provide for appropriate funding, as determined by the Committee, for the payment of compensation to any accounting firm engaged for the purpose of performing audit, review or other attest services for the Company, to any advisors employed by the Committee, and for the ordinary administrative expenses of the Committee that are necessary or appropriate in carrying out its duties.

In addition, the Committee, to the extent that it deems necessary or appropriate, shall:

4. Prior to the filing of the Company's annual report on Form 10-K (or the dissemination of its annual report to stockholders containing the Company's audited annual financial statements, whichever is earlier):

(b) recommend to the Board whether the audited annual financial statements should be included in the annual report; and (c) review and discuss with management (including the senior individual responsible for the Company's internal audit function) and the independent auditor the Company's internal controls report and the independent auditor's attestation of the report.

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

5. As required by the rules of the Commission, prepare the report of the Committee to be included in the Company's annual proxy statement, including disclosures of pre-approval policies and auditors' fees, and cause this Charter to be included in the proxy statement periodically.

6. 7. Review and consider with management and the independent auditor the significant financial reporting issues and judgments made in connection with the preparation of the Company's financial statements, including any significant changes in the Company's selection or application of accounting principles, any major issues as to the adequacy of the Company's internal controls, and any special steps adopted in light of material internal control deficiencies or weaknesses.

8. Review and consider with management and the independent auditor the reports from the independent auditor covering:

(a) critical accounting policies and practices to be used;

(b) alternative treatments of financial information within generally accepted accounting principles ("GAAP") for policies and practices related to material items that have been discussed with management, including the ramifications of the use of such alternative disclosures and treatments and the treatment preferred by the independent auditor; and

(c) other material written communications between the independent auditor, the Committee, and management, including any engagement letter, independence letter, management representation letter, schedule of unadjusted audit differences, listing of adjustments and reclassifications not recorded, management letter, or report on observations and recommendations on internal controls, and the Company's response to any such letter or report.

9. Review with the independent auditor and the internal audit function any problems or difficulties encountered in the course of their audit work, including any restrictions on the scope of activities or access to requested information, any changes required in the planned scope of the internal or external audit, any attempt by management to improperly influence the independent auditor, and any significant disagreements with management over the application of accounting principles, the basis for management's accounting estimates and the disclosures in the financial statements.

10. Review and consider with the independent auditor any material communications between the audit engagement team and the independent auditor's national office regarding auditing or accounting issues presented by the engagement.

11. Review and consider with management and the independent auditors the Company's disclosure controls and procedures and its internal controls and procedures for financial reporting, including the conclusions of the Company's chief executive officer and chief financial officer regarding the effectiveness of both sets of controls and procedures reached as part of their certification process for the quarterly report on Form 10-Q and the annual report on Form 10-K, and their evaluation process.

12. Review and consider with management and the independent auditors (a) any

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

significant deficiencies and material weaknesses in the design or operation of the Company's internal controls and procedures for financial reporting and (b) any fraud (whether or not material) that involves management or other employees who have a significant role in the Company's internal controls and procedures for financial reporting, in each case as disclosed to the Committee by the Company's chief executive officer and chief financial officer as part of their certification process for the quarterly report on Form 10-Q and the annual report on Form 10-K.

13. Review and consider with management and the independent auditors in advance of the Company's earnings press releases.

14. Review and consider with management and the independent auditors the Company's disclosure or release of non-GAAP financial measures commonly referred to as "pro forma" or "adjusted" financial information. The Committee need not discuss in advance each instance in which the Company discloses or releases non-GAAP financial measures; rather, the discussion may take the form of a general discussion of the Company's use of non-GAAP financial measures in its disclosures and releases.

15. Review and consider with management and the independent auditor the effect of material off-balance sheet arrangements on the Company's financial statements.

16. Review and consider with management and the independent auditor any accounting or other regulatory initiatives, correspondence with governmental or other regulatory agencies, and published reports that raise issues that may have a material effect on the Company's financial statements.

20. Evaluate the qualifications, performance, and independence of the independent auditor, including considering whether the provision of permitted non-audit services is compatible with maintaining the auditor's independence. In making this evaluation, the Committee shall take into account the opinions of management and the internal auditing staff. The Committee shall present its conclusions with respect to the independent auditor to the Board.

Edgar Filing: DELTA & PINE LAND CO - Form DEF 14A

21. Review and evaluate the lead partner and other members of the independent auditor's audit engagement team.

Consider rotating the independent auditor on a regular basis in order to assure continuing auditor independence.

Establish procedures for (a) the receipt, retention, and treatment of complaints received by the Company from any source regarding accounting, internal accounting controls, or auditing matters, and (b) the confidential, anonymous submission by Company employees of their concerns regarding questionable accounting or auditing matters. 39. Investigate any other financial areas deserving of special attention by the Committee.

Limitation of Audit Committee's Role

While the Committee has the authority, powers, and responsibilities set forth in this Charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements and disclosures are complete and accurate and are in accordance with GAAP and applicable legal, accounting, and other requirements.
