**Passenger Traffic**

For the second quarter of 2008, total passenger traffic increased year-over-year by 9.59%. Domestic passenger traffic increased by 8.37% and international passenger traffic rose by 10.53%.

The 10.53% rise in international passenger traffic resulted mainly from an increase of 11.74% at Cancun airport.

The 8.37% rise in domestic passenger traffic resulted mainly from increases of 9.18%, 32.42%, 12.07%, 11.55% and 18.50%, at the Cancun, Cozumel, Merida, Oaxaca and Villahermosa airports, respectively. It is worth noting that the Easter and Holy week holidays, both of which fell in the first quarter this year, fell in the second quarter in 2007.

For 1H08, total passenger traffic rose by 13.91% compared to 1H07, with international passenger traffic up 16.88% and domestic passenger traffic up 12.00%.

### Consolidated Results for 2Q08

**Total revenues** for 2Q08 increased year-over-year by 11.78% to Ps.808.5 million. This was mainly due to increases of:

7.35% in revenues from aeronautical services, principally as a result of the 9.59% rise in passenger traffic; and

21.43% in revenues from non-aeronautical services, principally as a result of the 23.19% rise in commercial revenues detailed below.

ASUR classifies commercial revenues as those derived from the following activities: duty-free services, car rental, retail, banking and currency exchange, advertising, teleservices, non-permanent ground transportation, food and beverage, and parking lots.

**Commercial revenues** rose by 23.19% year-over-year during the quarter, principally as a result of revenue increases in the following areas:

25.15% increase in duty-free stores;

32.04% increase in food and beverage;

24.85% increase in retail operations;

3.30% increase in parking lots;

33.97% increase in advertising;

3.70% increase in banking and currency exchange services;

25.18% increase in ground transportation;

6.33% increase in car rental companies;

6.54% increase in teleservices; and

20.97% increase in other revenues.

## Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

Growth in each of these areas resulted generally from the rise in passenger traffic and in particular from the opening on May 18, 2007 of Cancun Airport's new Terminal 3.

Retail revenues continued to benefit from higher concession fees from local craft and specialty shops, teleservices and tourism operators. The increase in car rental revenues reflects rate increases negotiated in October 2007 and the lease of eight new commercial parking facilities in Terminal 3. Revenues from banking and currency exchange services rose as a result of the opening of new Banco Santander branches at the Cancun, Merida and Veracruz airports.

**Total operating costs and expenses** for 2Q08 increased 4.81% year over year, primarily as a result of:

an 8.70% increase in administrative expenses resulting from the corporate reorganization involving the transfer of employees from ASUR's operating subsidiaries to wholly owned subsidiaries. During March of this year, 100% of ASUR airport employees were relocated to two organizations, Servicios Aeroportuarios del Sureste, S.A. de C.V. (non unionized) and RH Asur, S.A. de C.V. (unionized).

a 17.33% increase in depreciation and amortization, resulting from the depreciation of investments in fixed assets and improvements made to concession assets;

a 20.45% increase in the cost of technical assistance, reflecting the increase in EBITDA for the quarter (a factor in the calculation of the fee); and

an 11.65% increase in concession fees paid to the Mexican government, mainly due to higher revenues (a factor in the calculation of the fee).

These increases were partially offset by a 7.03% decline in cost of services, primarily reflecting the net effect of reversing a deferred provision for approximately Ps.34 million. The provision was cancelled because, due to the personnel reorganization, it was no longer needed.

This reversal more than offset increases of 20.17% in energy costs, 16.17% in the cost of security services, and 21.31% in maintenance and cleaning costs, resulting from the operation of Terminal 3 at Cancun Airport, beginning May 2007; as well as marketing expenses in connection with the Company's participation in promotional fairs in areas where our airports are located.

**Operating margin** for the quarter increased to 47.26% from 43.76% in 2Q07. This was mainly the result of the 11.78% increase in total revenues, which more than offset the 4.81% increase in costs during the period.

Following the changes in Mexican tax law that took effect January 1, 2008, which established a new flat rate business tax ( Impuesto Empresarial a Tasa Unica , or IETU ) and eliminated the asset tax, we evaluated and reviewed our deferred assets and liabilities position under Mexican Financial Reporting Standards. As a result of this review, we created a deferred IETU provision that resulted in a charge to income in the quarter of Ps.1.45 million.

## Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

During 2Q08 the ASUR subsidiaries that pay IETU made provisional tax payments of Ps.61.09 million. Of these payments, Ps.48.28 million was recorded as an expense and the difference was recorded as an asset, since ASUR expects to recover Ps.12.81 million as a credit against future tax payments.

During the quarter, we recorded a non-ordinary charge of Ps.8.89 million that resulted from a one-time payment made on April 2008 in connection with the reorganization at ASUR involving the transfer of employees from our operating subsidiaries to wholly-owned subsidiaries providing administrative and personnel services.

**Net income** for 2Q08 increased to Ps.255.16 million, from Ps.241.34 million in 2Q07. Earnings per common share for the quarter were Ps.0.8505, or earnings per ADS (EPADS) of US\$0.8252 (one ADS represents ten series B common shares). This compares with Ps.0.8045, or EPADS of US\$0.7805, for the same period last year.

**Consolidated Results for 1H08**

**Total revenues** for 1H08 increased year-over-year by 17.79% to Ps.1,678.4 million. This was mainly due to increases of:

11.88% in revenues from aeronautical services as a result of the 13.91% rise in passenger traffic during the period; and

32.07% in revenues from non-aeronautical services, principally as a result of the 36.03% rise in commercial revenues detailed below, which in turn was a consequence of the increase in passenger traffic.

## Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

**Commercial revenues** for 1H08 rose by 36.03% year-over-year, principally as a result of revenue increases from the following areas:

- 42.32% from duty-free revenues;
- 35.15% from retail revenues;
- 34.74% from advertising revenues;
- 33.95% from banking and currency exchange services;
- 28.38% from ground transportation services;
- 20.99% from teleservices;
- 52.82% from food and beverage;
- 11.06% from parking lot revenues;
- 40.26% from other income; and
- 8.27% from car rental companies.

**Total operating costs and expenses** for 1H08 increased by 10.06%, mainly due to the following:

- a 3.24% increase in cost of services, due mainly to increases of 27.64% in energy costs, 19.69% in security costs, and 11.92% in maintenance expenses, in each case resulting from the opening of Terminal 3 in May 2007; as well as higher marketing expenses in connection with the Company's participation in promotional fairs;
- a 2.18% increase in administrative expenses;
- a 16.30% increase in depreciation and amortization, resulting from the depreciation of investments in fixed assets and improvements made to concession assets;
- a 24.79% rise in technical assistance costs reflecting the corresponding increase in EBITDA during the period; and
- a 17.73% increase in concession fees, mainly due to higher revenues.

**Operating margin** increased to 48.62% for 1H08, up from 45.01% for 1H07. This was mainly the result of the 17.79% increase in revenues, which more than offset the 10.06% increase in costs and expenses during the period.

**Net income** for 1H08 increased by 28.92% to Ps.607.23 million. Earnings per common share for the period were Ps.2.0241, or earnings per ADS (EPADS) of US\$1.9638 (one ADS represents ten series B common shares). This compares with Ps.1.5701, or EPADS of US\$1.5233, for the same period last year.

### Tariff Regulation

The Mexican Ministry of Communications and Transportation regulates the majority of ASUR's activities by setting maximum rates, which represent the rates for the maximum possible revenues allowed per traffic unit at each airport.

ASUR's regulated revenues for the first half of 2008 were Ps.1,161.02 million, resulting in an annual average tariff per workload unit of Ps.117.61. ASUR's regulated revenues accounted for approximately 71.35% of total income for the period.

The Mexican Ministry of Communications and Transportation reviews compliance with the maximum rates on an annual basis at the close of each year.

### Balance Sheet

On June 30, 2008, Airport Facility Usage Rights and Airport Concessions represented 80.65% of the Company's total assets, with current assets representing 15.48% and other assets representing 3.87%.

On June 30, 2008, cash and marketable securities were Ps.1,632.19 million. On the same date, shareholder's equity was Ps.14,512.76 million and total liabilities were Ps.2,216.21 million, representing 86.75% and 13.25% of total assets, respectively. Total deferred liabilities represented 89.24% of the Company's total liabilities.

## Capital Expenditures

During the quarter, ASUR made investments of Ps.101.91 million as part of ASUR's ongoing plan to modernize its airports pursuant to its master development plans.
