Our mission is to be the leading marketer, manufacturer and seller of organic and natural products by anticipating and exceeding consumer expectations in providing quality, innovation, value and convenience. We are committed to growing our Company while continuing to implement environmentally sound business practices and manufacturing processes.

Our operations are managed in five operating segments: United States, United Kingdom, Hain Pure Protein (which includes EK Holdings, Inc.), Canada and Europe. Our long-term business strategy is to integrate the brands in each of our segments under one management team and employ uniform marketing, sales and distribution strategies where possible. We manufacture domestically and internationally and our products are sold in more than 70 countries.

We have acquired numerous brands since our formation and our goal is to continue to grow both organically as well as through the acquisition of complementary brands. We are committed to creating and promoting A Healthier Way of Life™ for the benefit of consumers, our customers, shareholders and employees.

S-3

The global economic and political environment remains challenging. With the recent acquisitions we have made, a larger proportion of our sales take place outside of the United States. A deterioration in economic or political conditions in the areas in which we operate may have an adverse impact on our sales volumes and profitability. Our future success will depend in part on our ability to manage continued global economic or political uncertainty, particularly in our significant geographic markets. Additionally, the translation of the financial statements of our non-United States operations is impacted by fluctuations in foreign currency exchange rates. Due to the recent strengthening of the United States Dollar, our reported results, financial position and cash flows for our international operations has been adversely affected upon translating such results to our United States Dollar reporting currency. Generally, commodity prices continue to be volatile, and we have experienced increases in select input costs. We expect that higher input costs will continue to affect future periods. Our management team continues to work on our worldwide sourcing and procurement initiatives to meet the needs of our growing business, and we continue to look for opportunities to supply our growth. We have taken, and will continue to take, measures to mitigate the impact of these challenging conditions, including foreign currency risks and input cost increases, with improvements in operating efficiencies, cost savings initiatives and price increases to our customers, as well as continuing our cash flow hedging program.

As a consumer products company, we rely on continued demand for our brands and products. Our results are dependent on a number of factors impacting consumer confidence and spending, including but not limited to, general economic and business conditions and wage and employment levels. In the United States, our use of promotional allowances and programs, expanded distribution and introduction of innovative new products has helped to increase consumer consumption of our brands in recent years. In the United Kingdom, our recent acquisition of Tilda expands our worldwide product portfolio into the premium Basmati rice category along with other specialty rice products. We plan to grow the Tilda brand further using our existing distribution platform in the United States, Canada and Europe with Basmati and ready-to-heat rice product offerings. Additionally, Tilda's existing markets in the Middle East, Northern Africa and India provide us with the opportunity for expansion of our global brands into new markets.

We were incorporated in Delaware on May 19, 1993. Our worldwide headquarters office is located at 1111 Marcus Avenue, Lake Success, New York 11042 and our telephone number is (516) 587-5000. Our public website is www.hain.com. On our website, investors can find press releases, financial filings and other information about us. RISK FACTORS

Investing in shares of our Common Stock involves risk. Please see the risk factors described below and those described in our Annual Report on Form 10-K for the fiscal year ended June 30, 2014 and in our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2015, which are incorporated by reference into this prospectus supplement and the accompanying prospectus. You should consider carefully these risk factors together with all of the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus before you decide to purchase shares of our Common Stock. These risks and uncertainties are not the only ones facing us, and there may be additional matters that we are unaware of or that we currently consider immaterial. Any of these risks and uncertainties could adversely affect our business, financial condition, results of operations, liquidity or prospects and, thus, the value of an investment in shares of our Common Stock.

Risks Relating to Our Common Stock and this Offering

The price of our Common Stock may fluctuate and you could lose all or a significant part of your investment. Volatility in the market price of our Common Stock may prevent you from being able to sell your shares at or above the price you paid or the value of the shares received, as applicable. The market price of our Common Stock may also be influenced by many factors, some of which are beyond our control, including:

- announcements by us or our competitors of significant contracts, acquisitions, strategic partnerships, joint ventures or capital commitments;
- variations in quarterly operating results;
- general economic conditions;
- war, terrorist acts and epidemic disease;
- future sales of our Common Stock or securities linked to our Common Stock;
- investor perceptions of us and our industry; and
- the failure of securities analysts to cover our Common Stock, or to the extent covered, changes in financial estimates by analysts or a downgrade of our stock or sector by analysts.

In addition, the stock market in general has experienced extreme price and volume fluctuations that may be unrelated or disproportionate to the operating performance of companies like us. These broad market and industry factors may materially reduce the market price of our Common Stock, regardless of our operating performance.

Future sales of Common Stock by our existing or future stockholders may cause our stock price to fall.

The market price of our Common Stock could decline as a result of sales by our existing and future stockholders, or the perception that such sales could occur, which might also make it more difficult for us to sell equity securities at a time and price that we deem appropriate.

Our share price could decline as a result of this offering or if a large number of shares of our Common Stock or equity-related securities are sold in the future.

Sales of a substantial number of shares of our Common Stock could depress the market price of our Common Stock and impair our ability to raise capital through the sale of additional equity securities. This offering and any such future sales or issuances could dilute the ownership interests of stockholders, and we cannot predict the effect that this offering or future sales or issuances of our Common Stock or other equity-related securities would have on the market price of our Common Stock nor can we predict our future needs to fund our operations or balance sheet with future equity issuances.

PLAN OF DISTRIBUTION

The Selling Shareholders will act independently of the Company in making their respective decisions with respect to the timing, manner and size of each and any sale. The Selling Shareholders and any of their respective pledgees, donees, transferees or other successors-in-interest may, from time to time, sell any or all of the Registrable Shares beneficially owned by them and offered hereby directly or through one or more broker-dealers or agents. Each Selling Shareholder will be responsible for their portion of commissions charged by such broker-dealers or agents. The Registrable Shares may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices.

The Selling Shareholders may use any one or more of the following methods when selling shares:

- through underwriters, brokers or dealers (who may act as agent or principal and who may receive compensation in the form of discounts, concessions or commissions from the Selling Shareholders, the purchaser or such other persons who may be effecting such sales) for resale to the public or to institutional investors at various times;
- through negotiated transactions, including, but not limited to, block trades in which the broker or dealer so engaged will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- through purchases by a broker or dealer as principal and resale by that broker or dealer for its account;
- on any national securities exchange or quotation service on which the shares may be listed or quoted at the time of sale at market prices prevailing at the time of sale, at prices related to such prevailing market prices, or at negotiated prices;
- in private transactions other than exchange or quotation service transactions;
- short sales, purchases or sales of put, call or other types of options, forward delivery contracts, swaps, offerings of structured equity-linked securities or other derivative transactions or securities;
- hedging transactions, including, but not limited to:
 - transactions with a broker-dealer or its affiliate, whereby the broker-dealer or its affiliate will engage in short sales of shares and may use shares to close out its short position;
 - options or other types of transactions that require the delivery of shares to a broker-dealer or an affiliate thereof, who will then resell or transfer the shares; or
 - loans or pledges of shares to a broker-dealer or an affiliate, who may sell the loaned shares or, in an event of default in the case of a pledge, sell the pledged shares;
- through offerings of securities exercisable, convertible or exchangeable for shares, including, without limitation, securities issued by trusts, investment companies or other entities;
- offerings directly to one or more purchasers, including institutional investors;
- through ordinary brokerage transactions and transactions in which a broker solicits purchasers;
- through distribution to the security holders of the selling shareholders;
- through a combination of any such methods of sale; or
- through any other method permitted under applicable law.

Additionally, each Selling Shareholder may resell all or a portion of its shares in open market transactions in reliance upon Rule 144 under the Securities Act provided it meets the criteria and conforms to the requirements of Rule 144.

Each Selling Shareholder may be deemed to be a statutory underwriter under the Securities Act. In addition, any broker-dealers who act in connection with the sale of the shares hereunder may be deemed to be “underwriters” within the meaning of Section 2(11) of the Securities Act, and any commissions received by them and profit on any resale of the shares as principal may be deemed to be underwriting discounts and commissions under the Securities Act. Broker-dealers engaged by the Selling Shareholders may arrange for other brokers-dealers to participate in sales. Such broker-dealers and any other participating broker-dealers may, in connection with such sales, be deemed to be underwriters within the meaning of the Securities Act. If the Selling Shareholders effect such transactions through underwriters, broker-dealers or agents, such underwriters, broker-dealers or agents may receive commissions in the form of discounts, concessions or commissions from the Selling Shareholders or commissions from purchasers of the shares of Registrable Shares for whom they may act as agent or to whom they may sell as principal, or both (which discounts, concessions or commissions as to particular underwriters, broker-dealers or agents may be less than or in excess of those customary in the types of transactions involved). Any discounts or commissions received by any such broker-dealers may be deemed to be underwriting discounts and commissions under the Securities Act.

There can be no assurance that the Selling Shareholders will sell any or all of the Registrable Shares registered pursuant to the registration statement of which this prospectus supplement and the accompanying prospectus form a part.

We are not aware of any plans, arrangements or understandings between the Selling Shareholders and any underwriter, broker-dealer or agent regarding the sale of shares of Registrable Shares by the Selling Shareholders.

We will pay all expenses incident to the filing of this registration statement. These expenses include accounting and legal fees in connection with the preparation of the registration statement of which this prospectus supplement and the accompanying prospectus form a part, legal and other fees in connection with the qualification of the sale of the shares under the laws of certain states (if any), registration and filing fees and other expenses. We have agreed to use our commercially reasonable efforts to keep the registration of the Registrable Shares offered hereby effective until the sooner to occur of the following events (i) the expiration of the twenty-four month period following the closing date of the Share Purchase transaction, or (ii) the sale of all the Registrable Shares.

RETROACTIVE PRESENTATION FOR CHANGE IN ACCOUNTING PRINCIPLE

The following is presented to reflect the retrospective application of a new accounting pronouncement with respect to the financial information contained in our Annual Report on Form 10-K for the fiscal year ended June 30, 2012. Effective July 1, 2012, we adopted Accounting Standards Update No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income, as amended by Accounting Standards Update No. 2011-12, Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income. These updates require that the components of other comprehensive income be presented in one of two formats: either (i) together with net income in a continuous statement of comprehensive income or (ii) in a second statement of comprehensive income to immediately follow the income statement. These updates do not, however, change the items that must be reported in other comprehensive income or the determination of net income. The new guidance is to be applied retrospectively. The adoption only impacted the presentation of our consolidated financial statements.

The following selected financial information revises historical information to illustrate the new presentation required by this pronouncement for the periods presented. This data should be read in conjunction with our audited consolidated financial statements and the accompanying notes for the fiscal year ended June 30, 2012 as included in our Annual Report on Form 10-K, which is incorporated by reference in the prospectus.
