# Edgar Filing: FURRS RESTAURANT GROUP INC - Form 10-Q

(Unaudited)  
(Dollars in Thousands)

## BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by generally accepted accounting principles. These statements should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and notes thereto included in the Company's Form 10-K for the year ended January 3, 2001. In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of interim financial position and results of operations.

Interim results of operations may not be indicative of the results that may be expected for a full fiscal year.

## EARNINGS PER SHARE

The following table reconciles the denominators of basic and diluted earnings per share for the periods ended July 3, 2001 and June 27, 2000.

	Thirteen Weeks Ended		Twenty-six
	July 3, 2001	June 27, 2000	July 3, 2001
Weighted average common shares outstanding-basic	9,767,926	9,757,918	9,767,926
Options	2,140	-	1,341
Weighted average common shares outstanding-diluted	9,770,066	9,757,918	9,769,267

The following table sets forth the options and warrants that were not included in the computation of diluted earnings per share because their exercise price was greater than the average market price of the common shares and therefore, the effect would be anti-dilutive.

	Thirteen Weeks Ended		Twenty-six
	July 3, 2001	June 27, 2000	July 3, 2001
Options	758,000	699,413	758,000
Warrants	-	512,246	-

## Edgar Filing: FURRS RESTAURANT GROUP INC - Form 10-Q

### COMPREHENSIVE INCOME

The following table sets for the components of comprehensive income for the periods ended July 3, 2001 June 27, 2000:

	Thirteen Weeks Ended		Twenty-six
	July 3, 2001	June 27, 2000	July 3, 2001
Net income	\$3,924	\$2,428	\$6,255
Fair value of interest rate swap, net of tax	(217)	-	(217)
	\$3,707	\$2,428	\$6,038

### INCOME TAXES

The Company has provided income tax expense of (\$101) and \$438 for the thirteen weeks and twenty-six weeks ended July 3, 2001, respectively. The effective income tax rate is lower than the statutory Federal rate of 35% due to interest expense reported as additional debt rather than interest expense pursuant to Statement of Financial Accounting Standards No. 15, "Accounting by Debtors and Creditors for Troubled Debt Restructurings" ("SFAS 15"). There is no income tax expense associated with the extraordinary gain as this represents early disposition of remaining restructured debt interest under SFAS 15.

### DEBT REFINANCING

On April 10, 2001, the Company entered into a new \$55,000 Revolving Credit and Term Loan Agreement (Credit Agreement) with various banks and lenders. Concurrent with the execution of this new agreement the Company defeased and gave notice of redemption of its 12% Senior Secured Notes due December 31, 2001 and repaid in full the \$2,600 of 10.5% Notes due December 31, 2001. Accordingly, the balance of these notes, less the current portion of the new term loan, was classified as long term at January 2, 2001. After the redemption of the 12% Notes and the repayment in full of the 10.5% Notes, the Company had \$44,000 outstanding under the new Credit Agreement. The Credit Agreement contains covenants with regard to maintaining certain leverage ratios, achieving certain levels of EBITDA, operating cash flow and limits on capital expenditures. In addition there are certain restrictions on the payment of dividends and additional indebtedness. The Credit Agreement allows the Company to borrow at either a Federal Funds Rate plus an applicable margin or at a Eurocurrency Reserve Rate plus an applicable margin.

The Credit Agreement provides that the Company can borrow up to \$20,000 on a revolving basis until April, 2006, of which \$9,000 was drawn at closing, with the remaining \$11,000 of available borrowings to be used for working capital and capital expenditures. The Credit Agreement contains a \$30,000 Term Loan A and a \$5,000 Term Loan B. The Term Loan A and Term Loan B provide for quarterly amortization through April, 2006 and April, 2007, respectively, with the remaining amounts outstanding then due. The Company's obligations under the Credit Agreement are secured by a security interest in and liens upon substantially all of the Company's assets.

## Edgar Filing: FURRS RESTAURANT GROUP INC - Form 10-Q

As a result of retiring the 12% Senior Secured Notes, the Company has been legally released as obligors and reported an extraordinary gain of \$3,640 in the second quarter of fiscal 2001.

10

### BUSINESS SEGMENTS

Following is a summary of segment information of the Company for the thirteen weeks ended July 3, 2001 and June 27, 2000:

	CAFETERIAS	DYNAMIC FOODS	TOTAL
2001:			
External revenues	\$ 47,134	\$ 421	\$ 47,555
Intersegment revenues	-	15,531	15,531
Depreciation and amortization	2,787	261	3,048

Thirteen Weeks Ended		Twenty-six Weeks Ended
July 3, 2001	June 27, 2000	July 3, 2001

## Edgar Filing: FURRS RESTAURANT GROUP INC - Form 10-Q

Revenues			
Total revenues of reportable segments	\$ 62,906	\$ 63,226	\$124,817
Elimination of inter-segment revenue	(15,351)	(15,038)	(29,775)
	-----	-----	-----
Total consolidated revenues	\$ 47,555	\$ 48,188	\$ 95,042

### INTEREST RATE RISK MANAGEMENT

The Company uses variable-rate debt to finance its operations. In particular, it has borrowed money under a Credit Agreement providing for variable-rate interest to retire the bonds and notes due December 31, 2001. This debt obligation exposes the Company to variability in interest payments due to

11

changes in interest rates. If interest rates increase, interest expense increases and conversely, if interest rates decrease, interest expense also decreases.

Management believes it is prudent to limit the variability of a portion of its interest payments. It is the Company's objective to hedge between 50 and 70 percent of its variable-rate long-term note interest payments. The Company's Credit Agreement also requires that the Company hedge at least \$20,000 for a period of two years.

To meet this requirement, the Company has entered into a derivative instrument, in the form of an interest rate swap, to manage fluctuations in cash flows resulting from interest rate risk. The interest rate swap changes the variable-rate cash flow exposure to fixed-rate cash flows by entering into a receive-variable, pay-fixed interest rate swap. Under the interest rate swap, which has a notional amount of \$20,000 and a two-year term, the Company receives variable interest rate payments based on LIBOR and makes fixed interest rate payments at 4.99%. The Company accounts for the interest rate swap in accordance with the provisions of Statement of Financial Accounting Standards (SFAS) No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended. SFAS No. 133 requires that all derivative instruments be recorded in the balance sheet at fair value. The interest rate swap is a cash flow hedge under SFAS No. 133 and, accordingly, changes in fair value are reported in other comprehensive income and such amounts are reclassified into interest expense as a yield adjustment in the same period in which the related expense on the variable rate debt affects operations.

The Company does not enter into derivative instruments for any purpose other than cash flow hedging purposes. That is, the Company does not speculate using derivative instruments.

The Company assesses interest rate cash flow risk by identifying and monitoring changes in interest rate exposures that may adversely impact expected future cash flows and by evaluating hedging opportunities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### RESULTS OF OPERATIONS

THIRTEEN WEEKS ENDED JULY 3, 2001 COMPARED TO THIRTEEN WEEKS ENDED JUNE 27,

## Edgar Filing: FURRS RESTAURANT GROUP INC - Form 10-Q

2000:

Sales for the second fiscal quarter of 2001 were \$47.6 million, a decrease of \$.6 million from the same quarter of 2000. Operating income for the second quarter of 2001 was \$1.4 million compared to \$2.6 million in the comparable period in the prior year. Net income for the second quarter of 2001 was \$3.9 million compared to \$2.4 million in the second quarter 2000 and includes an extraordinary gain of \$3.6 million realized as a result of early retirement of debt and the associated interest that had been classified as additional debt pursuant to SFAS 15.

SALES. Restaurant sales in comparable units increased \$.7 million, or 1.6%, in the second quarter of 2001 over the same quarter of 2000 due to two units opened during the second quarter of 2000 now included in the comparable unit category. Second quarter 2001 sales for the new units opened since second quarter 2000 were \$394 thousand, while the second quarter 2000 sales of the units that were closed after second quarter 2000 were \$1.7 million, resulting in a net decrease of \$1.3 million in second quarter 2001 sales. Sales by Dynamic Foods to third parties were \$421 thousand in the second quarter of 2001, \$4 thousand higher than second quarter of 2000.

COST OF SALES. Excluding depreciation, cost of sales was 29.4% of sales for the both second quarter of 2001 and 2000. Cost of sales in second quarter 2001 was negatively impacted by the increased cost associated with the six week "All you can eat steak" promotion run during the quarter.

12

SELLING, GENERAL AND ADMINISTRATIVE. Selling, general and administrative ("SG&A") expense was higher in the aggregate by \$.4 million in the second quarter of 2001 as compared to 2000. The change in SG&A expense included an increase of \$441 thousand in utility expense, \$97 thousand in marketing expense and \$123 thousand in other store expense. We had decreases of \$101 thousand in repairs and maintenance and \$151 thousand in supplies expense.

DEPRECIATION AND AMORTIZATION. Depreciation and amortization expense was higher by \$381 thousand in the first quarter of 2001. Included in depreciation for the second quarter of 2001 is a \$583 thousand write down of impaired assets.

INCOME TAXES. Income tax (benefit) expense of (\$101) thousand and \$523 thousand was provided in the second quarter of 2001 and 2000, respectively. Our effective tax rate is lower than the statutory Federal rate of 35% due to interest expense on restructured debt, which is reported as additional debt rather than interest expense pursuant to SFAS 15.

TWENTY-SIX WEEKS ENDED JULY 3, 2001 COMPARED TO TWENTY-SIX WEEKS ENDED JUNE 27, 2000:

Sales for the first twenty-six weeks of 2001 were \$95.0 million, a decrease of \$1.0 million from the same period of 2000. Operating income for the first twenty-six weeks of 2001 was \$3.9 million compared to \$5.2 million in the comparable period in the prior year. Net income for the first twenty-six weeks of 2001 was \$6.3 million compared to \$4.5 million in the same period of 2000 and includes an extraordinary gain of \$3.6 million realized as a result of early retirement of debt and the associated interest that had been classified as additional debt pursuant to SFAS 15.

SALES. Restaurant sales in comparable units increased \$1.2 million, or 1.3%, in the first twenty-six weeks of 2001 over the same period of 2000

## Edgar Filing: FURRS RESTAURANT GROUP INC - Form 10-Q

due to two units opened during the second quarter of 2000 now included in the comparable unit category. Year to date sales for the new units opened since second quarter 2000 was \$.9 million, while the year to date 2000 sales of the units that were closed after second quarter 2000 were \$3.6 million, resulting in a net decrease of \$2.7 million in year to date 2001 sales. Sales by Dynamic Foods to third parties were \$87 thousand higher in the first twenty-six weeks of 2001 than that of the comparable period of 2000.

**COST OF SALES.** Excluding depreciation, cost of sales was 28.7% of sales for the first twenty-six weeks of 2001 as compared to 29.4% for the same period of 2000. The decrease in the percentage of sales was the result of lower product costs.

**SELLING, GENERAL AND ADMINISTRATIVE.** Selling, general and administrative ("SG&A") expense was higher in the aggregate by \$1.0 million in the first twenty-six weeks of 2001 as compared to 2000. The change in SG&A expense included an increase of \$953 thousand in utility expense, \$392 thousand in marketing expense and \$202 thousand in other store expense. We had decreases of \$171 thousand in repairs and maintenance and \$306 thousand in supplies expense.

**DEPRECIATION AND AMORTIZATION.** Depreciation and amortization expense was higher by \$335 thousand in the first twenty-six weeks of 2000. Included in depreciation for the first twenty-six weeks of 2001 is a \$583 thousand write down of impaired assets.

**INCOME TAXES.** Income tax expense of \$438 thousand and \$965 thousand was provided in the twenty-six weeks of 2001 and 2000, respectively. Our effective tax rate is lower than the statutory Federal rate of 35% due to interest expense on restructured debt, which is reported as additional debt rather than interest expense pursuant to SFAS 15.

13

### LIQUIDITY AND CAPITAL RESOURCES

During the twenty-six weeks ended July 3, 2001, cash provided by operating activities was \$6.2 million compared to \$7.5 million in the same period of 2000. We made capital expenditures of \$1.2 million during the first twenty-six weeks of 2001 compared to \$8.2 million during the same period of 2000. The \$8.2 million spent in 2000 included capital expenditures on three new units and expenditures on the final phase of our re-imaging program. Due to the cash management provision under our new revolving credit facility, cash and temporary investments were \$0 and cash overdraft (included in accounts payable) was (\$.5) million at July 3, 2001 compared to cash and temporary investments of \$2.3 million at June 27, 2000 and \$5.7 million at January 3, 2001. Our current ratio was .42:1 at July 3, 2001 compared to .48:1 at June 27, 2000 and .57:1 at January 2, 2001. Total assets at July 3, 2001 aggregated \$81.1 million, compared to \$90.3 million at June 27, 2000 and \$89.4 million at January 2, 2001.

Our restaurants are a cash business. Funds available from cash sales are not needed to finance receivables and are not generally needed immediately to pay for food, supplies and certain other expenses of the restaurants. Therefore, the business and operations of the Company have not historically required proportionately large amounts of working capital, which is generally common among similar restaurant companies.

On April 10, 2001, we entered into a new \$55 million Revolving Credit and Term Loan Agreement (Credit Agreement) with various banks and lenders. Concurrent with the execution of this new agreement we defeased and

## Edgar Filing: FURRS RESTAURANT GROUP INC - Form 10-Q

gave notice of redemption of our 12% Senior Secured Notes due December 31, 2001 and repaid in full the \$2.6 million of 10.5% Notes due December 31, 2001. The Credit Agreement contains covenants with regard to maintaining certain leverage ratios, achieving certain levels of EBITDA, operating cash flow and limits on capital expenditures. In addition there are certain restrictions on the payment of dividends and additional indebtedness. The Credit Agreement allows us to borrow at either a Federal Funds Rate plus an applicable margin or at a Eurocurrency Reserve Rate plus an applicable margin. Our obligations under the Credit Agreement are secured by a security interest in and liens upon substantially all of our assets.

The Credit Agreement provides that we can borrow up to \$20 million on a revolving basis until April, 2006, of which \$9 million was drawn at closing, with the remaining \$11 million of available borrowings to be used for working capital and capital expenditures. The Credit Agreement contains a \$30 million Term Loan A and a \$5 million Term Loan B. The Term Loan A and Term Loan B provide for quarterly amortization through April, 2006 and April, 2007, respectively, with the remaining amounts outstanding then due.

As a result of retiring the 12% Senior Secured Notes, we have been legally released as obligors and reported an extraordinary pre-tax gain of \$3.6 million in the second quarter of fiscal 2001.

In order to hedge exposure to cash flow risk associated with variable interest rates, we entered into an interest rate swap with a notional amount of \$20 million for a two-year term. Under the interest rate swap, we receive variable interest rate payments based on LIBOR and make fixed interest rate payments at 4.99%.

### RECENT ACCOUNTING PRONOUNCEMENTS

In July 2001 the Financial Accounting Standards Board (FASB) issued Statements of Financial Accounting Standards No. 141 "Business Combinations" and No. 142 "Goodwill and Other Intangible Assets." Statement 141 requires that all business combinations initiated after June 30, 2001 be accounted for under the purchase method, and Statement 142 requires that goodwill no longer be amortized to earnings, but instead be reviewed for impairment. As of June 30, 2001, there is no impact to the

14

Company's financial statements as we have not entered into any business combinations and have not acquired goodwill.

Also, the FASB has voted to issue Statement No. 143 "Accounting for Asset Retirement Obligations" which establishes requirements for the accounting of removal-type costs associated with asset retirements. The standard is effective for fiscal years beginning after June 15, 2002, with earlier application encouraged. The Company is currently assessing the impact on its financial statements.

### Item 3. Quantitative and Qualitative Disclosure About Market Risk

We are exposed to market risk from changes in commodity prices. We purchase certain commodities used in food preparation. These commodities are generally purchased based upon market prices established with vendors. These purchase arrangements may contain contractual features that limit the price paid by establishing certain price floors or caps. We do not use financial instruments to hedge commodity prices because these purchase arrangements help control the ultimate cost paid and any commodity price aberrations are generally short term in nature.

## Edgar Filing: FURRS RESTAURANT GROUP INC - Form 10-Q

We are exposed to market risk from changes in interest rates affecting our variable rate debt. We use an interest rate swap to manage the cash flow risk on \$20 million of our variable rate debt. The impact on our results of operations for the quarter of a one point interest rate change on the outstanding balance of our variable rate debt is approximately \$100 thousand. We do not use derivatives for trading purposes.

This market risk discussion contains forward-looking statements. Actual results may differ materially from this discussion based upon general market conditions and changes in domestic and global financial markets.

### PART II. OTHER INFORMATION

#### Item 1. Legal Proceedings

None.

Items 2 and 3 are not applicable and have been intentionally omitted.

#### Item 4. Submission of Matters to a Vote of Security Holders.

The 2001 Annual Meeting of Stockholders was held on May 22, 2001. At the meeting, Stockholders voted to elect seven directors to serve one-year terms.

Following is a summary of the votes cast for each Director nominee:

	FOR -----	AGAINST -----	WITHHELD -----
Margaret B. Hampton	8,367,895	-	12,602
Damien Kovary	8,367,889	-	10,748
Robert N. Dangremond	8,366,041	-	10,754
Max Pine	8,366,883	-	11,760
Phillip Ratner	8,366,876	-	11,767
Barry W. Ridings	8,366,866	-	11,777
Robert Sullivan	8,366,396	-	12,247

15

Item 5. is not applicable and has been intentionally omitted.

#### Item 6. Exhibits and Reports on Form 8-K

None.
