Explanatory Note

Aquila, Inc. (formerly known as UtiliCorp United Inc.), a Delaware corporation ("Aquila"), is filing the materials contained in this Schedule 14A with the Securities and Exchange Commission (the "SEC") on April 16, 2002 with respect to the solicitation of proxies for electing nominees to the board of directors of Quanta Services, Inc. ("Quanta") at the 2002 annual meeting of stockholders of Quanta (the "Quanta Annual Meeting").

###

Dear Fellow Quanta Stockholder:

Accompanying this letter are Aquila's proxy statement and a **GOLD** proxy card relating to the upcoming 2002 annual meeting of stockholders of Quanta Services, Inc., which has been scheduled for May 23, 2002. We are seeking your support in electing a new board of directors to help us change the direction in which we believe Quanta is headed. Our nominees are described in the accompanying proxy statement.

You also will be receiving proxy materials from Quanta's board of directors soliciting your vote for the current directors. **We do not believe it is in your best interest as a stockholder of Quanta to vote in favor of continuing the status quo. We recommend that you support our slate by returning Aquila's GOLD proxy card and ignoring Quanta's white proxy card.** As you make this important decision, consider the following:

Poor Performance: Quanta's financial results have significantly deteriorated over the past year despite new acquisitions. Since January 1, 2001, Quanta's stock price has declined 47%; it is down 54% from its 52-week high; and down 59% over the past 24 months. Quanta's share price also has underperformed its peers over the past year. **While Quanta's board has offered no concrete proposal, Aquila is committed to halting the value erosion at Quanta.**

Entrenchment and Enrichment: We believe that Quanta's board of directors is focused on "keeping their seats" rather than improving the Company. Look at what they've done since we announced our intention to nominate an opposition slate. First, they implemented a Stock Employee Compensation Trust that is harmful to the investment of all stockholders because it effectively stuffs the ballot box with 8 million new shares without making any new investment in Quanta. Next, they further enriched Quanta's management by granting change of control arrangements that allow certain employees to terminate their employment 6 months after a change of control for no reason at all and receive lucrative severance payments. We believe that these actions will discourage potential buyers from making attractive offers for Quanta. **While Quanta's current board and management seek to entrench and enrich themselves, Aquila is committed to delivering an accountable board of directors whose goal will be to maximize stockholder value for all Quanta stockholders.**

Our proxy materials spell out our plans for restoring value to Quanta. If elected, our nominees' first priority will be to conduct an auction to sell the Company. Should this process not result in a fair price, the new board will implement a significant stock buyback. In addition, Aquila will offer protections to minority stockholders. In the upcoming weeks, we will be providing you with further detailed information concerning our program. We believe that you will find our program attractive and our reasons for changing direction at Quanta compelling.

We firmly believe it is in the best interests of Quanta and its stockholders for you to vote in favor of our nominees and, accordingly, we urge you to sign and return Aquila's GOLD proxy card and NOT to sign and return Quanta's white proxy card.

On Behalf of Aquila, Inc.

Robert K. Green
President and Chief Executive Officer
