2. On June 30, 2003 the Company received the Environmental Positive Certificate for its Kisladag Gold Project, Turkey.

RISK FACTORS

The securities of the Company should be considered a highly speculative investment due to the nature of the Company's business. Prospective investors should carefully consider all of the information disclosed in this prospectus, including all documents incorporated by reference, and in particular the risk factors under the heading Risk Factors contained in the AIF incorporated herein by reference prior to making an investment in the Company. These risks include but are not limited to the following:

The Company's ability to generate revenue from operations, or to continue to raise funds through other sources for the further exploration and development of its properties, will be highly dependent on the price of gold, which has a history of wide fluctuation.

The Company may hedge a portion of its gold production to protect the Company against low gold prices. While protecting the Company against low gold prices, hedges may also limit the price that can be realized on gold that is subject to forward sales and call options.

Estimates of future production for the São Bento Mine and for the Company as a whole are derived from the Company's five-year mining plans. Actual production may vary from estimates for a variety of reasons, including actual ore mined varying from estimates in grade and metallurgical and other characteristics, mining dilution, pit wall failures or cave-ins, strikes and other actions by labour at unionized locations, restrictions imposed by government agencies and other factors. Estimates of production from

-9-

properties not yet in production or from operations that are to be expanded are based on similar factors but it is possible that actual cash operating costs and economic returns will differ significantly from those currently estimated.

The Company is in the business of exploring, developing, and operating natural resource properties, which by its nature involves a significant amount of risk. The proven and probable reserve figures set forth in this prospectus are estimates, and there is no certainty that the indicated levels of gold production will be realized. Certain reserve and resource estimates incorporated herein by reference were made before NI 43-101 came into force and may vary materially from estimates made in accordance with NI 43-101. Discrepancies between actual and estimated reserves, and between estimated and actual metallurgical recoveries for the Company may have significant financial impact.

Some of the Company's properties are in the exploration stage and without a known body of ore. There is no guarantee that an economically feasible ore body will be found on any of these properties. Once gold mineralization is discovered, it may take several years in the initial phases of drilling until production is possible, during which time the economic feasibility of production may change. Substantial expenditures are required to establish proven and probable reserves through drilling, to determine the optimal metallurgical process to extract the metals from the ore and, in the case of new properties, to construct mining and processing facilities. As a result of

Edgar Filing: ELDORADO GOLD CORP /FI - Form 6-K

these uncertainties, no assurance can be given that the Company's exploration programs will result in the expansion or replacement of current reserves with new reserves.

Development projects have no operating history upon which to base estimates of future cash operating costs. Particularly for development projects, estimates of proven and probable reserves and cash operating costs are, to a large extent, based upon the interpretation of geologic data obtained from drill holes and other sampling techniques, and feasibility studies which derive estimates of cash operating costs based upon anticipated tonnage and grades of ore to be mined and processed, the configuration of the ore body, expected recovery rates of gold from the ore, estimated operating costs, anticipated climatic conditions and other factors. As a result, it is possible that actual cash operating costs and economic returns could differ significantly from those currently estimated for a project prior to production.

All of the Company's mining operations and development and exploration activities are subject to extensive laws and regulations governing prospecting, development, production, exports, taxes, labour standards, occupational health, waste disposal, environmental protection and remediation, protection of endangered and protected species, mine safety, toxic substances and other matters which can make operations expensive or prohibit them altogether.

There may be challenges to the title of the Company's properties which, if successful, could impair its development and/or operations.

The Company operates in jurisdictions in which political or economic instability may affect its ability to operate. Currency fluctuations may affect the costs that the Company incurs at its operations. Gold is sold throughout the world based principally on the U.S. dollar. The appreciation of non-U.S. dollar currencies against the U.S. dollar increases the costs of gold production in U.S. dollar terms at mines located outside the United States. Conversely, a depreciation of non-U.S. dollar currencies usually decrease the cost of production in U.S. dollar terms in these countries.

Operations in which the Company has an interest will be subject to all of the hazards and risks normally incidental to exploring, developing and operating natural resources, any of which could result in work stoppages, damage to persons or property and possible environmental damage.

There are a number of outstanding securities and agreements pursuant to which Common Shares of the Company may be issued in the future. This would result in further dilution to the Company's shareholders.

The Company operates in a competitive industry and competes with other more well established companies which have greater financial resources than the Company.

The Company depends on a number of key employees, the loss of any one of whom could have an adverse effect on the Company.

-10-

The Company, where practical, maintains insurance against risks in the operations of its business. Such insurance, however, contains exclusions and limitations on coverage. There is no assurance that such insurance will continue to be available.

The Company has options to acquire interests in, or is party to joint ventures in respect of, certain of its properties. None of these properties are core assets of the Company. However, the Company may require additional financing to meet its obligations under these agreements and there is no guarantee that such funds will be available.

If the Company should require additional funds for exploration and development of its properties, it may have to seek equity and/or debt financing which may not be available.

These business risks, including those incorporated by reference, should be considered in the context of the Company's business which is described under "General Development of the Business" and "Narrative Description of Business" in the AIF.

If any of the foregoing events, or other risk factor events as described in the AIF and incorporated by reference herein occur, the Company's business, financial condition or results of operations could likely suffer. In that event, the market price of the securities of the Company could decline and an investor could lose all or part of their investment.

PLAN OF DISTRIBUTION

Under an agreement (the Underwriting Agreement) dated as of August 6, 2003 between the Company and Orion Securities Inc., National Bank Financial Inc., Sprott Securities Inc., TD Securities Inc., BMO Nesbitt Burns Inc., CIBC World Markets Inc., Salman Partners Inc., Westwind Partners Inc., and Research Capital Corporation (collectively, the Underwriters) as underwriters, the Company has agreed to sell, and the Underwriters have agreed to purchase on the Closing Date, 20,000,000 Units at the Offering Price (Cdn\$3.10 per Unit) payable in cash (net of Underwriters' fees) to the Company against delivery of the Common Shares and Warrants comprising the Units. Each Unit consists of one Common Share and one-half of one Warrant. Each Warrant entitles the holder thereof to acquire one Common Share at a price of Cdn\$4.10 for a period of 12 months from the Closing Date of this offering. The Company has granted to the Underwriters an option to purchase up to an additional 5,000,000 Units (the Underwriters' Option) at the Offering Price, exercisable until 24 hours prior to the Closing Date. This prospectus qualifies the distribution of the additional Units (Common Shares and Warrants) issuable upon the exercise of the Underwriters' Option.

The obligations of the Underwriters under the Underwriting Agreement may be terminated at their discretion on the basis of their assessment of the state of the financial markets and may also be terminated upon the occurrence of certain stated events. The Underwriters are, however, obligated to take up and pay for all of the securities if any of the securities are purchased under the Underwriting Agreement, subject to certain exceptions. The Offering Price of the Units has been determined by negotiation between the Company and the Underwriters.

Pursuant to the Underwriting Agreement, the Company agreed to pay to the Underwriters a fee equal to 4.0% of the gross proceeds from the issue and sale of the Units and to reimburse the Underwriters for certain expenses relating to this offering and the Company agreed to indemnify the Underwriters against certain liabilities.

The Company further agreed that it will not, for a period of 90 days from the Closing Date without prior written consent of the Underwriters, authorize, issue or sell any Common Shares or securities convertible into Common Shares, subject to certain exceptions.

The Company has applied to list the Common Shares comprised in the Units distributed under this prospectus and the Common Shares issuable upon the exercise of the Warrants, on the TSX and the AMEX. Listing will be subject to the Company fulfilling all the listing requirements of the TSX and the AMEX. **There is no market through which the Warrants may be sold and purchasers may not be able to resell the Warrants purchased under the prospectus.**

Pursuant to the policies of the Ontario Securities Commission and the Commission des valeurs mobilières du Québec, the Underwriters may not, throughout the period of distribution under this prospectus, bid for or purchase Common Shares. The foregoing restriction is subject to certain exceptions. The Underwriters may rely on such exceptions on the condition that the bid or purchase is not engaged in for the purpose of creating actual or apparent active trading in or raising the price of the Common Shares. These exceptions include a bid or purchase permitted under the by-laws and rules of the TSX relating to market stabilization and passive market making activities. Subject to the foregoing, the Underwriters may over-allot or effect transactions in connection with this offering intended to stabilize or maintain the market price of the Common Shares at levels above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

Offering in the United States

The Units, the Common Shares and Warrants comprised in the Units and the Common Shares acquirable upon exercise of the Warrants have not been and will not be registered under the 1933 Act, or the securities laws of any state, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons; except that the Underwriters may, through certain of their qualified U.S. broker-dealer affiliates, offer Units in transactions that comply with exemptions from registration under the 1933 Act.

This prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, any of the Units in the United States. The Underwriters have agreed that, except in certain transactions exempt from the registration requirements of the 1933 Act, they will not offer or sell within the United States or to, or for the account or benefit of, U.S. persons, the Units as part of their distribution. The Underwriters have further agreed that all offers and sales of the Units will be made in compliance with Rule 903 or 904 of Regulation S under the 1933 Act, or in compliance with an exemption from registration thereunder, and that they will have sent to each dealer, or other person who is receiving a selling concession, fee or other remuneration in respect of the Units to which they sell, a confirmation or other notice setting forth the restrictions on offers and sales of the

-12-

Units within the United States or to, or for the account or benefit of, U.S. persons. Common Shares comprised in the Units and Common Shares acquired upon exercise of the Warrants may be resold on the TSX pursuant to Rule 904 of Regulation S under the 1933 Act, which requires among other things, that neither the seller of the Common Shares nor any person acting on its behalf is aware of the fact that: (i) the offeree or the buyer is a U.S. person; or (ii) the transaction has been pre-arranged with a buyer in the United States. Terms used in this paragraph have the meanings ascribed to them by Regulation S under the 1933 Act.

In addition, until 40 days after the commencement of this offering, an offer or sale of the Common Shares or Warrants comprised in the Units within the United States by any dealer, whether or not participating in this offering, may violate the registration requirements of the 1933 Act if such offer or sale is made otherwise than in accordance with an available exemption under the 1933 Act.

Certificates representing any securities which are sold in the United States or to or for the account or benefit of a U.S. person will bear a legend to the effect that the securities represented thereby are not registered under the 1933 Act and may only be offered pursuant to certain exemptions from the registration requirements of the 1933 Act.

CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Fasken Martineau DuMoulin LLP, counsel to the Company, and Cassels Brock & Blackwell LLP, counsel to the Underwriters, the following is a general summary of the principal Canadian federal income tax considerations relevant to an investment in Common Shares and Warrants comprising the Units by purchasers who are resident in Canada, deal at arm's length with the Company and who will acquire and hold such Common Shares and Warrants as capital property, all within the meaning of the Tax Act. This summary does not address provincial tax considerations and does not apply to purchasers who are financial institutions within the meaning of that term in the Tax Act.

This summary is based upon the current provisions of the Tax Act and the regulations thereunder, specific proposals to amend the Tax Act which have been announced by the Minister of Finance prior to the date hereof, and counsel's understanding of the current administrative practices of the Canada Customs and Revenue Agency ("Revenue Canada"). This summary assumes that all of the proposed amendments to the Tax Act will be enacted into law as proposed and that legislative, judicial or administrative changes will not modify or change the statements expressed herein.

This summary is of a general nature only and is not intended to constitute income tax advice to any particular purchaser. Purchasers are urged to consult their own income tax advisors with respect to the tax consequences applicable to them based on their own particular circumstances.

Units

Allocation of Purchase Price

Purchasers of Units will be required to allocate the purchase price of each Unit between the Common Share and the one-half of a Warrant on a reasonable basis in order to determine their respective costs for purposes of the Tax Act. The Company will also be required to allocate the amount received for each Unit between the Common Share and the one-half of a Warrant on a reasonable basis for the purposes of the Tax Act. Counsel have been advised that the Company, for its purposes, will allocate, Cdn\$3.04 of the full purchase price of Cdn\$3.10 for each Unit to the one Common Share and Cdn\$0.06 to the one-half of one Warrant comprised in each Unit. The Company believes that such allocation is reasonable; however, such allocation will not be binding on Revenue Canada.

Exercise or Expiry of Warrants

Edgar Filing: ELDORADO GOLD CORP /FI - Form 6-K

No gain or loss will be realized by a Warrant holder upon the exercise of a Warrant. The holder's cost of Common Shares acquired by exercising Warrants will be equal to the aggregate of the adjusted cost base of the Warrants exercised plus the exercise price paid for the Common Shares. In the event of the expiry of an unexercised Warrant, the Warrant holder will realize a capital loss equal to the adjusted cost base of the Warrant to the Warrant holder.

Disposition of Common Shares and Warrants

A purchaser who disposes of or is deemed to have disposed of a Common Share (acquired as part of a Unit or upon the exercise of a Warrant) or a Warrant (other than a disposition arising on the exercise of a Warrant) will realize a capital gain,

-13-

or incur a capital loss, as the case may be, equal to the amount by which the proceeds of disposition in respect of the Common Share or the Warrant exceeds or is exceeded by the aggregate of the adjusted cost base of such Common Share or Warrant, respectively, and any expenses associated with the disposition. One-half of any capital gain (a taxable capital gain) must be included in income and one-half of any capital loss may be used to offset taxable capital gains incurred in the year, in any of the three prior years or in any subsequent year in the circumstances and to the extent provided in the Tax Act. A capital loss realized on a disposition or deemed disposition of a Common Share (acquired as part of a Unit or upon the exercise of a Warrant) may in certain circumstances be reduced by the amount of certain dividends, including deemed dividends, which have been received by the holder on such shares.

A holder that is, throughout the relevant taxation year, a Canadian-controlled private corporation (as defined in the Tax Act) may be liable to pay an additional refundable tax of 6 2/3% on its aggregate investment income for the year, which is defined to include an amount in respect of taxable capital gains.

The adjusted cost base to a purchaser of a Warrant acquired as part of a Unit will be determined by averaging the cost of the Warrant with the adjusted cost base of all identical Warrants held at that time by the purchaser. Similarly, the adjusted cost base to a purchaser of a Common Share acquired either as part of a Unit or pursuant to the exercise of a Warrant will be determined by averaging the cost of that Common Share with the adjusted cost base of all Common Shares held at the time by the purchaser.

Taxation of Dividends Received by Holders of Common Shares

A holder of Common Shares (acquired as part of a Unit or upon the exercise of a Warrant) will receive the normal treatment under the Tax Act applicable to dividends received from a corporation resident in Canada. That is, a holder who is an individual will be subject to the usual gross-up and dividend tax credit rules under the Tax Act. A holder that is a corporation will include such dividends in computing its income and generally will be entitled to deduct the amount of such dividends when calculating its taxable income under the Tax Act. A holder that is a private corporation or a subject corporation, as defined in the Tax Act, may be liable under Part IV of the Tax Act to pay a refundable tax of 33 1/3% on dividends received or deemed to be received on the Common Shares (acquired as part of a Unit or upon the exercise of a Warrant) to the extent that such dividends are deductible in computing the corporate holder's taxable income.

USE OF PROCEEDS

The estimated net proceeds to the Company from the sale of the 20,000,000 Units will be Cdn\$59,520,000, after deducting the underwriting fees. The estimated net proceeds are expected to be used as follows:

Net Proceeds from the offering	Cdn\$ \$ 59,520,000
Less: Expenses of offering	\$ 350,000
	<hr/>
Equals: Current funds available	\$ 59,170,000
Less: Funds for Working Capital Purposes	\$ 3,200,000
	<hr/>
Equals: Funds available to fund construction at the Kisladag Project in Turkey	\$ 55,970,000
	<hr/>

In the event that the Underwriters' Option is exercised, the additional estimated net proceeds of Cdn.\$15,500,000 will be allocated to the Kisladag Project.

The Company intends to spend the funds available to it as stated in this prospectus, however there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary.

DESCRIPTION OF SECURITIES BEING OFFERED

Common Shares

All of the Common Shares rank equally as to voting rights, participation in a distribution of the assets of the Company on a liquidation, dissolution or winding-up of the Company and the entitlement to dividends. The holders of the Common Shares

-14-

are entitled to receive notice of all meetings of shareholders and to attend and vote the shares at the meetings. Each Common Share carries with it the right to one vote.

In the event of the liquidation, dissolution or winding-up of the Company or other distribution of its assets, the holders of the Common Shares will be entitled to receive, on a pro rata basis, all of the assets remaining after the Company has paid out its liabilities. Distributions in the form of dividends, if any, will be set by the Board of Directors. For particulars on the Company's dividend policy, see "Dividend Policy" in the AIF incorporated herein by reference.

Provisions as to the modification, amendment or variation of the rights attached to the Common Shares are contained in the Company's articles of incorporation and the *Canada Business Corporations Act*. Generally speaking, substantive changes to the share capital require the approval of the shareholders by special resolution (at least 2/3 of the votes cast).

The following represents the Company's share capital both before and after the issuance of the 20,000,000 Units offered hereunder:

Designation of Shares	Number of Shares Authorized	Outstanding on December 31, 2002	Outstanding on July 31, 2003 ⁽¹⁾	As at July 31, 2003 after giving effect to this Offering ⁽²⁾
Common	Unlimited	206,204,010	213,122,251	233,122,251

(1) As at July 31, 2003, the Company has a number of securities outstanding and is party to a number of agreements which could result in the issuance of up to 21,368,509 additional Common Shares of the Company. See the Annual Financial Statements and Interim Financial Statements incorporated herein by reference.

(2) If the Underwriters' Option is exercised in full, this figure will be increased by an additional 5,000,000 Common Shares, for a total of 238,122,251 Common Shares.

Warrants

The Warrants will be issued in registered form under, and be governed by, an indenture to be dated as of the closing date of this Offering (the "Warrant Indenture") between the Company and Computershare Trust Company of Canada (the "Warrant Trustee"), as trustee thereunder. The Company has appointed the principal transfer office of the Warrant Trustee in Vancouver as the location at which Warrants may be surrendered for exercise or transfer. The following summary of certain provisions of the Warrant Indenture does not purport to be complete and is qualified in its entirety by reference to the provisions of the Warrant Indenture.

Edgar Filing: ELDORADO GOLD CORP /FI - Form 6-K

The Common Shares and the Warrants comprising the Units will separate immediately upon closing of this Offering. Each whole Warrant will entitle the holder to purchase one Common Share at an exercise price of Cdn.\$4.10 per Common Share. The exercise price and the number of Common Shares issuable upon exercise are both subject to adjustment in certain circumstances as more fully described below. Warrants will be exercisable at any time prior to 5:00 p.m. (Vancouver time) on the date that is twelve months from the closing of this Offering, after which the Warrants will expire and become null and void. Under the Warrant Indenture, the Company will be entitled to purchase in the market, by private contract or otherwise, all or any of the Warrants then outstanding, and any Warrants so purchased will be cancelled.

The exercise price for the Warrants is payable in Canadian dollars.

The Warrant Indenture will provide for adjustment in the number of Common Shares issuable upon the exercise of the Warrants, including:

- (i) the issuance of Common Shares or securities exchangeable for or convertible into Common Shares to all or substantially all the holders of the Common Shares as a stock dividend or other distribution (other than a dividend paid in the ordinary course, as defined in the Warrant Indenture, or a distribution of Common Shares upon the exercise of the Warrants or pursuant to the exercise of directors, officers or employee stock options granted under the Company's stock option plan);
- (ii) the subdivision, redivision or change of the Common Shares into a greater number of shares;
- (iii) the reduction, combination or consolidation of the Common Shares into a lesser number of shares;
- (iv) the issuance to all or substantially all of the holders of the Common Shares of rights, options or warrants under which such holders are entitled, during a period expiring not more than 45 days after the record date for such

-15-

issuance, to subscribe for or purchase Common Shares, or securities exchangeable for or convertible into Common Shares, at a price per share to the holder (or at an exchange or conversion price per share) of less than 95% of the current market price, as defined in the Warrant Indenture, for the Common Shares on such record date; and

- (v) the issuance or distribution to all or substantially all of the holders of the shares of any class other than the Common Shares of evidences of indebtedness or any property or other assets.

The Warrant Indenture will also provide for adjustment in the class and/or number of securities issuable upon the exercise of the Warrants and/or exercise price per security in the event of the following additional events: (1) reclassifications of the Common Shares; (2) consolidations, amalgamations, plans of arrangement or mergers of the Corporation with or into another entity (other than consolidations, amalgamations, plans of arrangement or mergers which do not result in any reclassification of the Common Shares or a change of the Common Shares into other shares); or (3) the transfer (other than to one of the Company's subsidiaries) of the Company's undertakings or assets as an entirety or substantially as an entirety to another corporation or other entity.

No adjustment in the exercise price or the number of Common shares purchasable upon the exercise of the Warrants will be required to be made unless the cumulative effect of such adjustment or adjustments would change the exercise price by at least 1% or the number of Common Shares purchasable upon exercise by at least one one-hundredth of a Common Share.

The Company will also covenant in the Warrant Indenture that, during the period in which the Warrants are exercisable, it will give public notice of certain stated events, including events that would result in an adjustment to the exercise price for the Warrants or the number of Common Shares issuable upon exercise of the Warrants, at least 21 days prior to the record date or effective date, as the case may be, of such event.

No fractional Common Shares will be issuable upon the exercise of any Warrants, and no cash or other consideration will be paid in lieu of fractional shares. Holders of Warrants will not have any voting or pre-emptive rights or any other rights which a holder of Common Shares would have.

From time to time, the Company and the Warrant Trustee, without the consent of the holders of Warrants, may amend or supplement the Warrant Indenture for certain purposes, including curing defects or inconsistencies or making any change that does not adversely affect the rights of any holder of Warrants. Any amendment or supplement to the Warrant Indenture that adversely affects the interests of the holders of the Warrants may only be made by extraordinary resolution, which will be defined in the Warrant Indenture as a resolution either: (1) passed at a meeting of the holders of Warrants at which there are holders of Warrants present in person or represented by proxy representing at least 25% of

the aggregate number of Common Shares which may be acquired upon the exercise of all the then outstanding Warrants and passed by the affirmative vote of holders of Warrants entitled to acquire not less than 66 2/3% of the aggregate number of Common Shares which may be acquired upon the exercise of all the then outstanding Warrants represented at the meeting; or (2) instruments in writing signed by the holders of Warrants representing not less than 66 2/3% of the aggregate number of Common Shares which may be acquired upon the exercise of all the then outstanding Warrants.
