Item 7.01 Regulation FD Disclosure.

Southwest Airlines Co. (the "Company") is providing guidance regarding its financial and operational trends in conjunction with the presentation by Tammy Romo, Executive Vice President and Chief Financial Officer of the Company, at the Deutsche Bank 8th Annual Global Industrials and Materials Summit on June 7, 2017.

Based on current bookings and revenue trends, the Company continues to expect its second quarter 2017 operating revenue per available seat mile (RASM) to increase in the one to two percent range, as compared with second quarter 2016.

Based on current cost trends and excluding fuel and oil expense, special items, and profitsharing expense, the Company continues to expect its second quarter 2017 unit costs to increase approximately six percent¹ and its annual 2017 unit costs to increase approximately three percent¹, both year-over-year. The Company continues to expect its cost inflation to abate dramatically in second half 2017 to end this year with fourth quarter unit costs in line with year-ago levels, excluding fuel and oil expense, special items, and profitsharing expense¹.

Based on the Company's fuel derivative contracts and market prices as of June 5, 2017, second quarter 2017 economic fuel costs are still estimated to be in the \$1.95 to \$2.00 per gallon range².

The Company continues to expect its full year 2017 available seat miles (capacity) to increase approximately 3.5 percent, year-over-year, with approximately 2.5 points of the increase relating to its domestic growth. While the Company has not finalized its 2018 capacity plans, it continues to expect year-over-year available seat mile (ASM) growth in first half 2018 to be less than four percent, and its full year 2018 year-over-year ASM growth to be less than its 2016 year-over-year ASM growth of 5.7 percent.

The Company continues to estimate its 2017 capital expenditures will be approximately \$2.3 billion.

An audio webcast of Ms. Romo's remarks is available on the Company's website at www.southwestairlinesinvestorrelations.com, in the Events & Presentations section under Past Events and Related Presentations.

The information furnished in this Item 7.01 shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section, nor shall such information be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, regardless of any general incorporation language in such filing, except as shall be expressly set forth by specific reference in such filing.

¹Year-over-year projections do not reflect the potential impact of fuel and oil expense, profitsharing expense, and special items in both years because the Company cannot reliably predict or estimate those items or expenses or their impact to its financial statements in future periods, especially considering the significant volatility of the Fuel and oil expense line item. Accordingly, the Company believes a reconciliation of non-GAAP financial measures to the equivalent GAAP financial measures for projected results is not meaningful or available without unreasonable effort.

²Economic fuel cost projections do not reflect the potential impact of special items because the Company cannot reliably predict or estimate the hedge accounting impact associated with the volatility of the energy markets or the impact to its financial statements in future periods. Accordingly, the Company believes a reconciliation of non-GAAP financial measures to the equivalent GAAP financial measures for projected results is not meaningful or available without unreasonable effort.

Cautionary Statement Regarding Forward-Looking Statements

This Current Report on Form 8-K contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Specific forward-looking statements include, without limitation, statements related to (i) the Company's financial outlook, expectations, goals, and projected results of operations, including specific factors expected to impact the Company's results of operations; (ii) the Company's expectations with respect to fuel costs; (iii) the Company's capacity plans and expectations; and (iv) the Company's expectations with respect to capital expenditures. Forward-looking statements involve risks, uncertainties, assumptions, and other factors that are difficult to predict and that could cause actual results to vary materially from those expressed in or indicated by them. Factors include, among others, (i) changes in demand for the Company's services and other changes in consumer behavior; (ii) the impact of economic conditions, fuel prices, actions of competitors (including, without limitation, pricing, scheduling, capacity, and network decisions, and consolidation and alliance activities), governmental actions, and other factors beyond the Company's control, on the Company's business decisions, plans, and strategies; (iii) changes in aircraft fuel prices, the impact of hedge accounting, and any changes to the Company's fuel hedging strategies and positions; (iv) the Company's ability to timely and effectively implement, transition, and maintain the necessary information technology systems and infrastructure to support its operations and initiatives; (v) the Company's dependence on third parties; (vi) the impact of labor matters on the Company's business decisions, plans, strategies, and costs; and (vii) other factors, as described in the Company's filings with the Securities and Exchange Commission, including the detailed factors discussed under the heading "Risk Factors" in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016. Caution should be taken not to place undue reliance on the Company's forward-looking statements, which represent the Company's views only as of the date this report is filed. The Company undertakes no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.
