FORM 8-K

CURRENT REPORT
PURSUANT TO SECTION 13 OR 15(D) OF
THE SECURITIES EXCHANGE ACT OF 1934

Date of Report: April 1, 2002

MACATAWA BANK CORPORATION

(Exact name of Registrant as specified in its charter)

Michigan
(State or other Jurisdiction
of incorporation)

000-25927
(Commission File No.)

(Address of principal Executive Offices including Zip Code)

Registrant's telephone number, including area code: (616) 820-1444

Item 2. Acquisition or Disposition of Assets.

Pursuant to an Agreement and Plan of Merger dated as of November 20, 2001 (the "Merger Agreement"), Grand Bank Financial Corporation, a Michigan corporation located in Grand Rapids, Michigan ("Grand"), was merged with and into Macatawa Bank Corporation ("Macatawa"), effective as of 12:01 a.m. on April 1, 2002 (the "Merger"). As a result of the Merger, Macatawa owns Grand Bank and all of the other assets of Grand.

Pursuant to the Merger Agreement, each share of Grand common stock, no par value per share ("Grand Common Stock"), that was outstanding immediately before the effective time of the Merger was converted into shares of Macatawa common stock, no par value per share ("Macatawa Common Stock"), at the rate of 17.5979 shares of Macatawa Common Stock for each share of Grand Common Stock, subject to payment in cash for fractional shares.

Each share of Macatawa Common Stock that was outstanding immediately before the effective time of the Merger remains outstanding after the Merger.

The total consideration paid by Macatawa to the shareholders of Grand consisted of an aggregate of approximately 2,377,140 shares of Macatawa common stock plus cash in lieu of fractional shares. In addition, Macatawa agreed to assume Grand's outstanding stock options. The transaction was accounted for as a purchase.

The consideration paid by Macatawa and the stock exchange ratio of 17.5979 shares of Macatawa Common Stock for each share of Grand Common Stock was determined by the boards of directors of the parties through arms-length negotiations.

Macatawa will not issue fractional shares of Macatawa Common Stock in the Merger. A Grand shareholder who would otherwise have been entitled to receive a fraction of a share of Macatawa Common Stock in the Merger will receive instead an amount of cash determined by multiplying that fraction by \$19.69.

EXHIBIT 99.1

Independent Auditors Report

Board of Directors and Stockholders

Grand Bank Financial Corporation

Grand Rapids, Michigan

We have audited the accompanying consolidated balance sheets of Grand Bank Financial Corporation and subsidiaries as of December 31, 2001 and 2000, and the related consolidated statements of income, changes in stockholders' equity and cash flows for each of the three years in the period ended December 31, 2001. These consolidated financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Grand Bank Financial Corporation and subsidiaries as of December 31, 2001 and 2000, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2001, in conformity with accounting principles generally accepted in the United States of America.

GRAND BANK FINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The consolidated financial statements include the accounts of Grand Bank Financial Corporation (Corporation), its wholly-owned subsidiaries, Grand Bank (Bank) and Grand Financial Associates, Inc. (an inactive corporation), and the Bank's wholly-owned subsidiary, Grand Bank Mortgage Company, after elimination of significant intercompany transactions and accounts.

The accounting and reporting policies and practices of the Corporation and its wholly-owned subsidiaries conform with generally accepted accounting principles and prevailing practices within the banking industry.

Nature of Operations: The Corporation provides a broad range of banking and trust services. The Bank operates predominately in Western Michigan as a commercial bank. The Bank's primary services include accepting deposits, making commercial, mortgage and consumer loans, engaging in mortgage banking activities, and providing trust services.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the consolidated financial statements and the disclosures provided. Actual results could differ from those estimates.

Cash and Cash Equivalents: Cash and cash equivalents consist of cash on hand, amounts due from banks, federal funds sold and money market funds. The Corporation is required by the Federal Reserve to maintain a minimum cash balance of \$300,000 at December 31, 2001.

Investment Securities: Securities classified as held to maturity are carried at amortized cost when management has the positive intent and the ability to hold them to maturity. Securities classified as available for sale are reported at their fair value and the related unrealized gain or loss is included in accumulated other comprehensive income, net of tax, until realized. Such securities might be sold prior to maturity due to changes in interest rates, prepayment risks, yield, availability of alternative investments, liquidity needs or other factors. Other securities consist of Federal Home Loan Bank stock.

Premiums and discounts on securities are recognized in interest income using the level yield method over the period to maturity. Gains and losses on the sale of securities available for sale are determined using the specific identification method.

Loans and Interest and Fees on Loans: Portfolio loans are stated at their principal amount outstanding, net of deferred loan fees and costs and an allowance for loan losses. Interest on loans is accrued on the interest method and includes the amortization of net deferred fees and costs over the term of the loan. The accrual of interest is discontinued if the collectibility of principal or interest is considered doubtful or whenever payment of principal or interest is 90 days or more past due, unless the loan is both well secured and in the process of collection. For impaired loans that are on nonaccrual status, cash payments received are generally applied to reduce the outstanding principal balance. However, all or a portion of a cash payment received on a nonaccrual loan may be recognized as interest income to the extent allowed by the loan contract, assuming management expects to fully collect the remaining principal balance of the loan.

Allowance for Loan Losses: Because some loans may not be repaid in full, an allowance for loan losses is recorded. Increases to the allowance are recorded by a provision for loan losses charged to expense. Estimating the risk of the loss and the amount of loss on any loan is necessarily subjective. Accordingly, the allowance is maintained by management at a level considered adequate to cover losses that are currently anticipated based on past loss experience, general economic conditions, information about specific borrower situations including their financial position and collateral values, and other factors and estimates which are subject to change over time. While management may periodically allocate portions of the allowance for specific problem loan situations, the entire allowance is available for any loan charge-offs that occur. A loan is charged against the allowance by management as a loss when deemed uncollectible, although collection efforts may continue and future recoveries may occur.

GRAND BANK FINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Loan impairment is reported when full payment under the loan terms is not expected. Smaller-balance homogenous loans, including residential first mortgage loans secured by one-to-four family residences, residential construction loans, automobile, home equity and second mortgage loans are collectively evaluated for impairment. Commercial loans and first mortgage loans secured by other properties are evaluated individually for impairment. The allowance for loan losses related to loans identified as impaired is principally based on the excess of the loan's current outstanding principal balance over the estimated fair market value of the related collateral. For impaired loans that are not collateral dependent, the allowance for loan losses is recorded at the amount by which the outstanding recorded

principal balance exceeds the current best estimate of the future cash flows on the loan, discounted at the loan's effective interest rate.

Sale of Mortgage Loans: Certain mortgage loans are originated for sale to the secondary market. All such loans are sold with servicing released. Mortgage loans held for sale are valued at the lower of cost or market, calculated on the aggregate loan balance.

Premises and Equipment: Premises and equipment are stated at cost less accumulated depreciation. Depreciation is computed using both straight-line and accelerated methods over the estimated useful lives of the respective assets. Maintenance, repairs and minor alterations are charged to current operations as expenditures occur and major improvements are capitalized.

Other Real Estate and Partnership Interest From Defaulted Loans: Other real estate consists of properties acquired through loan foreclosure. Both other real estate and the partnership interest from defaulted loans are carried at the lower of cost or fair value less estimated costs of disposal. Any reduction to cost at the time of acquisition from a related loan is accounted for as a charge to the allowance for loan losses. Any subsequent reduction in cost or fair value is charged to loss on other real estate or the partnership interest in the period incurred, while improvements made to the asset during the holding period are capitalized.

Mortgage Origination Fees: A fee is received for originating loans for other financial entities and is recognized in income when the services are performed.

Stock-Based Compensation: Expense for employee compensation under stock option plans is based on Accounting Principles Board Opinion 25, *Accounting for Stock Issued to Employees*, and related interpretations, with expense reported only if options are granted below market price at grant date. To date, none have been issued below market price.

Advertising Costs: All advertising costs, amounting to \$114,101, \$127,710, and \$71,825 in 2001, 2000 and 1999, respectively, are expensed in the period in which they are incurred.

Income Taxes: Income tax expense is the sum of the current year income tax due and the change in the deferred income tax assets and liabilities. Deferred income tax assets and liabilities are computed based on temporary differences between the financial statement and tax bases of assets and liabilities, computed using enacted rates. A valuation allowance is established, when necessary, to reduce deferred income tax assets to the amount expected to be realized.

GRAND BANK FINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Fair Values of Financial Instruments: Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in Note 14. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect the estimates.

Earnings Per Share: Basic earnings per share is based on the weighted average number of shares of common stock outstanding during each period. Dilutive earnings per share is based on the weighted average number of shares outstanding plus the number of additional common shares that would have been outstanding if the dilutive shares, under the Corporation's stock option program, had been issued.

Comprehensive Income: Total comprehensive income is reported in the consolidated statements of changes in stockholders' equity and includes net income and unrealized security holding gains and losses, net of income taxes.

GRAND BANK FINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Corporation has entered into three operating leases for property to be used as a main office. Two leases have an initial term of ten years from January 1, 1994, with two five-year renewal options. The annual lease payments are subject to an annual adjustment equal to 60% of any increase in the consumer price index (CPI). The Corporation has no obligation for any operating expenses, taxes or insurance. The lessor of a portion of the leased properties is a corporation owned by a stockholder of the Corporation. The third lease commenced February 1, 1998, with an initial term of five years with one five-year renewal option. The payments for this lease are to be adjusted annually to the CPI in an amount not to exceed 6%. The Corporation has an obligation for operating expenses, taxes and insurance under this lease. On July 1, 2000 and on January 1, 2002, the third lease was amended to include additional space at the same premise. Other than an increased lease payment, the terms of the original lease apply to the amendments.

The future minimum rental commitments for these noncancelable leases as of December 31, 2001 are as follows:

<i>Year ending December 31,</i>	
2002	\$ 307,
2003	165,
	\$ 473,

Total lease expense was \$284,392 (\$153,149 related party), \$271,044 (\$149,740 related party) and \$243,265 (\$147,373 related party) for 2001, 2000 and 1999, respectively.

NOTE 6 - DEPOSITS

Time deposits issued in denominations of \$100,000 or more were \$74,510,558 and \$41,295,305 at December 31, 2001 and 2000, respectively.

At December 31, 2001, the scheduled maturities of time deposits were as follows:

<i>Year ending December 31,</i>	
2002	\$ 10,927,
2003	35,729,
2004	19,072,
2005	977,

The advances are collateralized by mortgage loans and certain securities with outstanding balances not less than 145% of advances outstanding. The Corporation had \$26,721,588 and \$18,062,554 of collateral pledged to the FHLB as of December 31, 2001 and 2000, respectively.

The advances are subject to a prepayment penalty based on the greater of .25% of the principal amount prepaid or the present value of the lost cash flow to the FHLB.

GRAND BANK FINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 - NOTE PAYABLE

The Corporation has entered into a revolving credit agreement with a bank which provides for unsecured borrowings of up to \$5,000,000 through April 30, 2002. The outstanding balance on April 29, 2002 can, at the Corporation's option, be paid or converted to a term loan payable in 11 quarterly installments (based on a 10-year payment amortization) through April 30, 2004, at which time the remaining balance is due. Interest is based on three different pricing options: a negotiated rate, a eurodollar rate (LIBOR plus a factor) and a floating rate (greater of the prime rate or the federal funds rate plus .5%). As of December 31, 2001, available borrowings amounted to \$500,000. The weighted average interest rate on outstanding borrowings of \$4,500,000 was 3.75%. Restrictive covenants apply to, among other things, tangible net worth, return on average assets, indebtedness to tangible net worth and the percentage of nonperforming loans to average assets.

NOTE 9 - FEDERAL INCOME TAXES

Federal income tax expense consists of:

<u>Year ended December 31,</u>	<u>2001</u>	<u>2000</u>	<u>1999</u>
Current	\$ 1,535,300	\$ 1,555,500	\$ 1,204,000

GRAND BANK FINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Federal income tax expense differed from expense at statutory rates primarily due to various miscellaneous nondeductible expenses and adjustments having a tax effect of \$(108,900), \$67,300 and \$44,000 in 2001, 2000 and 1999, respectively, and tax-exempt interest income having a tax effect of \$33,000 and \$29,200 in 2001 and 2000, respectively.

NOTE 10 - EMPLOYEE BENEFIT PLANS***Defined Benefit Plan***

The Corporation has a defined benefit pension plan covering substantially all of its employees under which the Corporation will pay the entire cost of providing eligible employees with a monthly retirement benefit. The Corporation's policy is to annually fund the amount recommended by the plan's actuary.

Financial information regarding the plan is as follows:

<i>Year ended December 31,</i>	2001	2000
Benefit obligation at year-end	\$ (1,443,482)	\$ (1,098,168)
Fair value of plan assets at year-end	1,147,069	1,095,509
Funded status	\$ (296,413)	\$ (2,659)
Accrued pension cost recognized in the consolidated balance sheets	\$ (151,396)	\$ (83,955)
Benefit cost	\$ 151,951	\$ 116,321
Employer contributions	84,510	107,212

Weighted average actuarial assumptions as of year-end:		
Discount rate	7.0%	7.5%
Expected return on plan assets	8.0%	8.0%
Rate of compensation increase	4.0%	4.0%

Defined Contribution Plan

The Corporation also sponsors a defined contribution 401(k) plan for the benefit of substantially all employees. Under the plan, employees may make voluntary contributions based on a percentage of their compensation, limited to 15%. Matching contributions are made in an amount equal to 25% of the first 8% of the employee's contributed compensation. Matching contributions totaled \$49,438, \$43,160 and \$43,703 during 2001, 2000 and 1999, respectively.

Phantom Stock Plan

The purpose of the Grand Bank Phantom Stock Plan is to provide key employees with the opportunity to receive deferred bonuses based upon the growth and success of the Bank. Eligible participants are determined by the Board of Directors, based on the recommendation of the Bank's Human Resources Committee. Under the plan, Phantom Stock Units may be awarded to participants, at the discretion of the Board of Directors, as of January 1 of any year. Phantom Stock Units do not grant participants any voting rights or other rights as a stockholder of the Bank or the Corporation.

GRAND BANK FINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Participants are eligible for benefits, payable in a lump sum amount, upon the occurrence of a Distributable Event. A Distributable Event occurs if the participant (a) is employed on the third anniversary of the award date, (b) dies or is disabled while employed by the Bank, (c) terminates employment after reaching normal or early retirement age under the Bank's defined benefit pension plan or (d) is employed by the Bank at the time of the sale of the Corporation. The value of the Phantom Stock Units is equal to the excess of the fair market value of the Corporation's common stock, as of the most recent valuation before the Distributable Event, over the fair market value of the common stock as of the award date.

There were 7,500, 5,000 and 2,500 Phantom Stock Units awarded effective January 1, 2001, 2000 and 1999, respectively. Expense of \$187,500, \$150,000 and \$50,000 was recorded during 2001, 2000 and 1999, respectively, based on the increase in the fair market value of the Corporation's common stock and the issuance of additional Phantom Stock Units. As discussed in Note 17, an additional expense of \$291,666 was recorded at December 31, 2001 associated with the estimated increase in the fair value of the Corporation's common stock at December 31, 2001 resulting from the Macatawa Bank Corporation merger announcement. This additional expense is included in Merger related expenses in the accompanying 2001 consolidated statement of income.

NOTE 11 - STOCK OPTION PLAN

The Corporation's 1997 and 1988 stock option plans grant corporate officers and other key employees options to purchase shares of common stock. The plans provide for stock options to be granted at exercise prices that approximate the fair value of the stock at the respective dates of grant. Some options become vested and may be exercised 20% per year from the date of grant and begin to expire ten years subsequent to the date of grant. Certain other options are immediately exercisable.

A summary of stock option plan activity is as follows:

<i>Year ended December 31,</i>	<u>2001</u>		<u>2000</u>		Sh

GRAND BANK FINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Net income and earnings per share would not be materially different if the Corporation accounted for its employee stock options under the fair value method as provided for under SFAS No. 123, *Accounting for Stock-Based Compensation*.

NOTE 12 - EARNINGS PER SHARE

The computations of basic and diluted earnings per share were as follows:

<u>Year ended December 31,</u>	<u>2001</u>	<u>2000</u>	
<u>Numerator - net income for the year</u>	<u>\$ 2,431,050</u>	<u>\$ 2,251,375</u>	<u>\$ 1,776</u>

<u>Diluted earnings per share</u>	<u>\$ 17.59</u>	<u>\$ 16.35</u>	<u>\$ 1</u>

NOTE 13 - COMMITMENTS AND CONTINGENCIES

Some financial instruments with off-balance sheet risk are used in the normal course of business to meet the financing needs of customers. These financial instruments consist of commitments to make loans and fund lines and letters of credit. The exposure to credit loss in the event of nonperformance by the other party to these financial instruments is represented by the contractual amount of these instruments. The same credit policies are used to make such commitments as are used for loans. Collateral (e.g., cash deposits, securities, receivables, inventory, equipment) is obtained based on management's credit assessment of the customer.

Financial instruments with off-balance sheet risk are as follows:

<u>December 31,</u>	<u>2001</u>	
Commitments to make loans	\$ 16,095,166	\$ 14,536
Unused lines of credit	93,045,012	91,244
<u>Standby letters of credit</u>	<u>3,222,143</u>	<u>1,271</u>

Since certain commitments to make loans and fund lines and letters of credit expire without being used, the amount does not necessarily represent future cash commitments. Commitment periods are generally for 90 days.

Certain legal actions arise in the ordinary course of business. In the opinion of management, after consultation of legal counsel, the ultimate disposition of these matters is not expected to have a material adverse effect on the Corporation's consolidated financial condition or results of operations.

NOTE 14 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate fair values of financial instruments for which it is practicable to estimate fair value. The carrying amount is considered to approximate fair value for cash and cash equivalents and accrued interest receivable and payable. Fair values for securities are based on quoted market prices or dealer quotes. If a quoted market price is not available, fair value is estimated using quoted market prices for similar instruments. The fair value of fixed and variable rate loans and deposits is principally estimated by discounting future cash flows using the current rates at which similar instruments would be made with similar maturities. The fair value of FHLB advances and notes payable is determined by discounting cash flows using rates currently offered for advances of similar remaining maturities. The fair values of commitments to extend credit and standby letters of credit were immaterial for this presentation.

The estimated fair values of financial instruments were as follows:

<i>December 31,</i>	2001		2000
	Carrying value	Fair value	Carrying value
Financial assets:			
Cash and cash equivalents	\$ 16,348,739	\$ 16,348,739	\$ 26,917,464

NOTE 15 - REGULATORY MATTERS

The Corporation and the Bank individually are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on the financial statements of the Corporation as a whole. Under the capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of its assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Edgar Filing: MACATAWA BANK CORP - Form 8-K

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 (as defined in the regulations) to risk-weighted assets (as defined), and of Tier 1 capital (as defined) to average assets (as defined). Management believes, as of December 31, 2001, that the Bank meets all capital adequacy requirements to which it is subject.

As of December 31, 2001 and 2000, the most recent notifications from the Federal Deposit Insurance Corporation categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum total risk-based, Tier 1 risk-based and Tier 1 leverage ratios as set forth in the table. As of December 31, 2001, there are no conditions or events since the most recent notification that management believes have changed the category under which the Bank would be classified.

The Corporation's and Bank's capital amounts and ratios are presented in the tables below.

GRAND BANK FINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 16 - REGULATORY RESTRICTIONS

State banking laws and regulations place certain restrictions on loans and advances and dividends from the Bank to the Corporation. In 2002, subject to meeting its minimum regulatory capital requirements as discussed in Note 15, the Bank may contribute to the Corporation (in addition to 2002 net income) approximately \$1,186,000 in dividends without approval from regulatory agencies.

NOTE 17 PENDING MERGER

On November 20, 2001, the Corporation entered into a definitive agreement with Macatawa Bank Corporation (Macatawa) whereby Macatawa will acquire the Corporation. Shareholders will receive 17.5979 shares of Macatawa common stock for each share of common stock of the Corporation owned. The merger, which is pending shareholder approval, is expected to be completed in the second quarter of 2002.

Through December 31, 2001, the Corporation incurred and expensed \$592,514 of merger related expenses. Of this amount, \$300,848 represented professional fees and \$291,666 represented an accrual of phantom stock plan expense (see Note 10) associated with the estimated increase in the fair value of the Corporation's common stock at December 31, 2001 resulting from the merger announcement.

Unaudited Pro Forma Condensed Combined Financial Statements

The following unaudited pro forma condensed combined balance sheet as of December 31, 2001, and the unaudited pro forma condensed combined statement of income for the year ended December 31, 2001, give effect to the Merger. This pro forma financial information is based on the historical consolidated financial statements of Macatawa and Grand and their subsidiaries under the assumptions and adjustments set forth in the accompanying notes to the unaudited pro forma condensed combined financial statements. The unaudited pro forma condensed combined balance sheet assumes the Merger was consummated on December 31, 2001. The unaudited pro forma condensed combined statement of income give effect to the Merger as if the Merger occurred at the beginning of 2001. Pro forma per share amounts are based on the Exchange Ratio of 17.5979 shares of Macatawa common stock for each share of Grand common stock.

The unaudited pro forma condensed combined financial statements do not reflect restructuring and other Merger related expenses expected to be incurred by Macatawa and Grand, or the anticipated cost savings. As a result, the pro forma combined financial condition and results of operations of Macatawa as of and after the Effective Time of the Merger may not be indicative of the results that actually would have occurred if the Merger had been in effect during the periods presented or of the results that may be attained in the future.

=====

A pro forma adjustment for \$379,000, net of taxes, has been recorded to goodwill to reflect the increased value of benefits under the Grand phantom stock plan as a result of the increased value of Grand's common shares and acceleration of benefits due to the Merger. A corresponding liability has also been recorded.

NOTE 4

Purchase accounting adjustments (PAA), other than goodwill and accelerated benefits under the phantom stock plan, and their related deferred tax assets/liabilities are as follows:

Item	PAA	Deferred Tax asset/(liability)	Amortization
Securities held to maturity	\$ 200,000	\$ (68,000)	3 year
Portfolio loans	2,636,000	(896,000)	7 year

MACATAWA BANK CORPORATION AND GRAND BANK FINANCIAL CORPORATION COMPLETE MERGER

Holland, Michigan Macatawa Bank Corporation announced today the completion effective April 1, 2002, of the merger of Grand Bank Financial Corporation into Macatawa Bank Corporation. As a result of the merger, Grand Bank became a subsidiary of Macatawa Bank Corporation.

With the completion of the merger, Macatawa Bank and Grand Bank together operate from 16 locations in Holland, Grand Rapids and other communities in West Michigan. This merger will solidify our position in

the West Michigan market, and accelerate our growth in the second largest banking market in Michigan, commented Benj. A. Smith III, Chairman and CEO of Macatawa Bank Corporation. Grand Bank shares our commitment to customers, employees and the community, continued Smith, so the integration of our organizations is progressing smoothly. Thomas J. Wesholski, President of Grand Bank, added We are excited about the completion of the merger and look forward to continuing as a community bank providing personal service to our customers. We also look forward to expanding our branch network to better serve the greater Grand Rapids community. Grand Bank will continue to conduct banking operations under the Grand Bank name at its current location, as well as future locations.

Shareholders of Grand Bank Financial Corporation received 17.5979 shares of Macatawa Bank Corporation common stock for each outstanding share of Grand common stock, for a total of approximately 2,375,000 Macatawa shares.

Macatawa Bank Corporation now has two wholly owned subsidiary banks, Macatawa Bank and Grand Bank, with pro forma as of December 31, 2001, total assets of approximately \$962 million, total deposits of approximately \$750 million and total loans of approximately \$769 million.
