INFORMATION ABOUT OUR ANNUAL MEETING AND SOLICITATION OF PROXIES

WHO MAY VOTE

Holders of our common stock, as recorded in our stock register on March 22, 2004, may vote at the meeting. As of that date, there were 518,157,649 shares of common stock outstanding and entitled to one vote per share. A list of stockholders will be available for inspection at the principal executive offices of MMC at 1166 Avenue of the Americas, New York, New York for at least ten days prior to the meeting.

HOW TO VOTE

You may vote in person at the meeting or by proxy. We recommend you vote by proxy even if you plan to attend the meeting. You can always change your vote at the meeting.

Most stockholders have a choice of proxy voting by using a toll free telephone number, through the Internet or by completing the enclosed proxy card and mailing it in the postage-paid envelope provided. Please refer to your proxy card or the information forwarded by your bank, broker or other holder of record to see which options are available to you.

Executors, administrators, trustees, guardians, attorneys and other representatives voting on behalf of a stockholder should indicate the capacity in which they are signing and corporations should sign by an authorized officer whose title should be indicated.

HOW PROXIES WORK

MMC's board of directors is asking for your proxy. Giving us your proxy means you authorize us to vote your shares at the meeting, or at any adjournment thereof, in the manner you direct. You may vote for all, some, or none of our director nominees. You may also vote for or against the other proposal or abstain from voting.

If you sign and return the enclosed proxy card but do not specify how to vote, we will vote your shares in favor of our director nominees and in favor of

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

Item 2.

As of the date of this proxy statement, we do not know of any other business that will be presented at the meeting. If other business shall properly come before the meeting, including any proposal submitted by a stockholder that was omitted from this proxy statement in accordance with applicable federal securities laws, the persons named in the proxy will vote according to their best judgment.

REVOKING A PROXY

You may revoke your proxy before it is voted by submitting a new proxy with a later date, by voting in person at the meeting, or by sending written notification addressed to:

Marsh & McLennan Companies, Inc.
1166 Avenue of the Americas
New York, New York 10036-2774
Attn: Mr. Leon J. Lichter,
Corporate Secretary

Mere attendance at the meeting will not revoke a proxy that was previously submitted to MMC.

QUORUM AND CONDUCT OF MEETING

In order to carry on the business of the meeting, we must have a quorum. This means at least a majority of the outstanding shares eligible to vote must be represented at the meeting, either by proxy or in person.

The chairman of the annual meeting has broad authority to conduct the annual meeting so that the business of the meeting is carried out in an orderly and timely manner. In doing so, the chairman has broad discretion to establish reasonable rules for discussion, comments and questions during the meeting. The chairman also is entitled to rely upon applicable law regarding disruptions or disorderly conduct to ensure that the meeting is conducted in a manner that is fair to all participants.

ATTENDANCE AT THE MEETING

Only stockholders, their proxy holders, and MMC's guests may attend the meeting. Admission to the meeting will be on a first-come, first-served basis. Verification of ownership may be required at the admissions desk. If your shares are held in the name of your broker, bank, or other nominee, you must bring to the meeting an account statement or letter from the nominee indicating that you are the beneficial owner of the shares on March 22, 2004, the record date for voting.

3

VOTES NEEDED

Directors are elected by a plurality of the votes cast. "Plurality" means that the individuals who receive the largest number of votes cast FOR are elected as directors up to the maximum number of directors to be chosen at the meeting. Votes withheld from any director nominee will not be counted in such nominee's favor.

All other matters to be acted on at the meeting require the affirmative vote of a majority of the shares of MMC stock present or represented and

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

entitled to vote at the meeting to constitute the action of the stockholders. In accordance with Delaware law, abstentions will be treated as present and entitled to vote for purposes of the preceding sentence, while broker nonvotes will not.

A "broker nonvote" is a proxy submitted by a broker in which the broker fails to vote on behalf of a client on a particular matter for lack of instruction when such instruction is required by the rules of the New York Stock Exchange. Broker nonvotes will be counted for purposes of determining the presence of a quorum for the transaction of business.

ELECTRONIC ACCESS TO PROXY MATERIALS AND ANNUAL REPORT

This proxy statement and the 2003 Annual Report can be viewed on our website at <http://www.mmc.com/annualreport.html>. Most stockholders may elect to view future proxy statements and annual reports over the Internet instead of receiving paper copies in the mail.

If you are a stockholder of record, you may choose this option and save MMC the cost of producing and mailing these documents by following the instructions provided when you vote over the Internet. If you hold your MMC stock through a bank, broker or other holder of record, please refer to the information provided by that entity for instructions on how to elect to view our future proxy statements and annual reports over the Internet.

If you choose to view our future proxy statements and annual reports over the Internet, you will receive an e-mail message with instructions on how to access MMC's proxy statement and annual report and vote. Your choice to view these materials over the Internet will remain in effect until you tell us otherwise. You do not have to elect Internet access each year. To view, cancel or change your enrollment profile, please go to www.investordelivery.com.

SOLICITATION OF PROXIES

We pay the expenses of preparing the proxy materials and soliciting this proxy. We also reimburse brokers and other nominees for their expenses in sending these materials to you and obtaining your voting instructions.

In addition to this mailing, proxies may be solicited personally, electronically or by telephone by our directors, officers, other employees or our agents. We have retained Georgeson Shareholder Communications Inc. as our agent to assist in the proxy solicitation at a fee of approximately \$10,000, plus expenses. If any of our directors, officers and other employees assist in soliciting proxies, they will not receive additional compensation for those services.

MULTIPLE STOCKHOLDERS SHARING SAME ADDRESS

If you and other residents at your mailing address with the same last name own shares of common stock through a bank, broker or other holder of record, your bank or broker may have sent you a notice that your household will receive only one annual report and proxy statement for each company in which the members of your household hold stock through that bank or broker. This practice of sending only one copy of proxy materials to holders residing at a single address is known as "householding", and is designed to reduce printing and postage costs.

If you did not respond that you did not want to participate in householding, you were deemed to have consented to the process. If you did not receive a householding notice from your bank, broker or other holder of record, you can request householding by contacting that entity. You may revoke your consent to householding at any time by calling 1-800-542-1061.

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

If you wish to receive a separate paper copy of the annual report or proxy statement, you may telephone Corporate Development at (212) 345-5475 or write to:

ITEM 1

ELECTION OF DIRECTORS

Our board of directors is divided into three classes. Members of each class serve for a three-year term. Stockholders elect one class of directors at each annual meeting. At this annual meeting, stockholders will vote on the election of the six nominees described below for a term ending at the 2007 Annual Meeting.

The following section contains information provided by the nominees and continuing directors about their principal occupation, business experience and other matters. Mr. Lawrence J. Lasser resigned from the board in November, 2003.

Five of the nominees are current directors of MMC. Mr. Zachary W. Carter is a new nominee standing for election as a Class I director. Mr. Carter's nomination was recommended to the Directors & Governance Committee by stockholders, as well as by the chief executive officer and other executive officers.

Each nominee has indicated to MMC that he will serve if elected. We do not anticipate that any nominee will be unable or unwilling to stand for election, but if that happens, your proxy may be voted for another person nominated by the board.

The board of directors recommends a vote FOR the election of all six nominees.

INFORMATION REGARDING THE BOARD OF DIRECTORS

MMC is a global professional services company. Our business is conducted by our business units, and their employees and officers, under the direction of the chief executive officer and the oversight of the board, to enhance the long-term value of MMC for its stockholders. The board of directors, which is elected by the stockholders, is the ultimate decision-making body of MMC except with respect to those matters reserved to the stockholders. The board held ten meetings during 2003.

CORPORATE GOVERNANCE GUIDELINES

Our board of directors has adopted the MMC Guidelines for Corporate Governance. These guidelines are posted on the MMC website and a print copy is available to any stockholder upon request.

Our board includes a balance of non-executive and executive directors. Independent non-executive directors constitute a majority of our board and meet the independence requirements of both MMC and the New York Stock Exchange.

With respect to our directors:

- o a meaningful portion of the compensation for non-executive directors is paid in MMC stock;

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

- o all new directors participate in an orientation. This orientation includes background material and presentations by management on MMC's operations and strategic plans, its financial statements and its key policies and practices;
- o board members have complete access to MMC's officers and employees. Directors are encouraged to communicate directly with MMC's chief financial officer, general counsel and other members of senior management;
- o in addition to access to MMC officers, the board and its committees have the authority to obtain advice and assistance from external advisors or consultants as they may deem necessary; and
- o the non-executive directors meet at regularly scheduled executive sessions without management, at which meetings the chair of the Directors & Governance Committee presides.

DIRECTOR INDEPENDENCE

It is the policy of MMC that a majority of the members of its board of directors be independent of MMC's management. For a director to be deemed "independent", the board must affirmatively determine that the director has no direct or indirect material relationship with MMC. To assist the board in determining director independence, the board has adopted the following guidelines which include the categorical standards established by the New York Stock Exchange, as amended from time to time, and which currently are as follows:

A director will not be deemed "independent" if, within the preceding three years:

- (a) the director was employed by MMC or a member of his or her immediate family was employed by MMC as an executive officer;
- (b) the director, or a member of his or her immediate family, received more than \$100,000 per year in direct compensation from MMC (other than director and committee fees and pension or certain other forms of deferred compensation);
- (c) the director was employed by, or affiliated with, or a member of his or her immediate family was employed in a professional capacity by, MMC's independent auditor;
- (d) an MMC executive officer was on the compensation committee of a company which concurrently employed the director, or which employed an immediate family member of the director as an executive officer; or
- (e) the director was an executive officer or employee, or the director's immediate family member was an executive officer, of a company that made payments to, or received payments from, MMC for property or services in an amount which exceeds the greater of \$1 million or 2% of such company's consolidated gross revenues.

In addition, a director who satisfies the independence standards of the New York Stock Exchange as set forth above will be presumed "independent" unless, within the preceding three years:

- (f) the director served as an executive officer, director or trustee of a charitable organization to which MMC's charitable contributions (other

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

than matching contributions) exceed the greater of \$1 million or 2% of such organization's consolidated gross revenues in a particular fiscal year.

10

With respect to items (a) through (f) above, the term "MMC" includes any subsidiaries within MMC's consolidated reporting group. The term "immediate family" includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than domestic employees) who shares such person's home.

Any director who fails to meet any of the standards outlined above will be presumptively disqualified from a finding of independence.

The board has determined that the following commercial relationships do not impair a director's independence:

- o A director's ownership interest in MMC stock, Putnam mutual funds or the private equity funds managed by MMC Capital; and
- o A director's use of any of the services provided by MMC's subsidiaries in the ordinary course of the subsidiaries' business (i.e., personal insurance placements and any other services).

In accordance with these guidelines, the board has determined that the following directors are independent: Mr. Bernard; Mr. Erburu; Mr. Fanjul; Mr. Hardis; Ms. King; Lord Lang; Mr. Olsen; Mr. Schapiro and Ms. Simmons. In addition, the board has determined that Zachary W. Carter, a new director nominee, also will be an independent director if elected at the 2004 annual meeting.

COMMITTEES

Our board has established an Executive Committee, an Audit Committee, a Compensation Committee and a Directors & Governance Committee to assist the board in discharging its responsibilities. Following each committee meeting the respective committee chair reports the highlights of the meeting to the full board.

Membership on each of the Audit, Compensation, and Directors & Governance Committees is limited to independent non-executive directors. The charters for these committees can be viewed on our website at <http://www.mmc.com/corpgov.html>. In addition, MMC's Audit Committee charter is attached to this proxy statement as Appendix A.

THE EXECUTIVE COMMITTEE:

- o is empowered to act for the full board in intervals between board meetings, with the exception of certain matters that under Delaware law or MMC's by-laws may not be delegated; and
- o meets as necessary, with all actions taken by the committee reported at the next board of directors meeting.

The current members of the Executive Committee are Messrs. Bernard, Greenberg (Chair), Hardis, Smith, Lord Lang and Ms. Simmons. The committee held three meetings during 2003.

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

THE AUDIT COMMITTEE:

The Audit Committee is charged with assisting the board in fulfilling its oversight responsibilities with respect to:

- o the integrity of MMC's financial statements;
- o the qualifications, independence and performance of MMC's independent auditors;
- o the performance of MMC's internal audit function; and
- o compliance by MMC with legal and regulatory requirements.

The Audit Committee selects and oversees MMC's independent auditors, and pre-approves all services to be performed by the independent auditors pursuant to the Audit Committee pre-approval policy. The current members of the Audit Committee are Messrs. Fanjul, Hardis (Chair), Olsen, Schapiro, Ms. King and Ms. Simmons. All members of the Audit Committee are independent as required by MMC and the listing standards of the New York Stock Exchange.

The board of directors has determined that Stephen R. Hardis, an independent director and the chair of the Audit Committee, has the requisite qualifications to satisfy the SEC definition of "audit committee financial expert". Though Mr. Hardis currently serves on the audit committees of four public companies including MMC, the board has determined that Mr. Hardis is able to serve effectively on our Audit Committee.

The Audit Committee held ten meetings during 2003.

THE COMPENSATION COMMITTEE:

- o evaluates the performance and determines the compensation of MMC's chief executive officer;

11

- o reviews and approves the compensation of other senior executives; and
- o makes recommendations to the board with respect to MMC's incentive compensation plans and equity-based plans and discharges the responsibilities of the committee set forth in these plans.

The current members of the Compensation Committee are Messrs. Bernard, Erburu, Fanjul and Lord Lang. All members of the Compensation Committee are independent as required by MMC and the listing standards of the New York Stock Exchange. The Compensation Committee held eight meetings during 2003.

THE DIRECTORS & GOVERNANCE COMMITTEE:

- o develops, reviews and periodically reassesses MMC's corporate governance principles and recommends proposed changes to the board;
- o identifies, considers and recommends qualified candidates to the board for election as directors, including the slate of directors that the board proposes for election at the annual meeting;
- o in consultation with the MMC chairman and other committee chairs, recommends committee assignments to the board; and

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

o develops processes for and oversees annual assessments of the board's performance and effectiveness.

The current members of the Directors & Governance Committee are Mr. Erburu, Lord Lang, Ms. King and Mr. Schapiro. All members of the committee are independent as required by MMC and the listing standards of the New York Stock Exchange. The Directors & Governance Committee held six meetings in 2003.

POLICY ON STOCKHOLDER NOMINATIONS OF DIRECTORS

The Directors & Governance Committee gives equal consideration to all director nominees whether recommended by our stockholders, management or current directors (both executive and non-executive).

The board has determined that 15 to 19 directors is the appropriate size for the board and that this range is flexible enough to accommodate the availability of any outstanding candidate at any time. The quality of the individuals serving and the overall balance of executive and non-executive members of the board are more important than the precise number of members, and these considerations could lead to a Board outside this range from time to time. All directors represent the interests of all stockholders, not just the interests of any particular stockholder, stockholder group or other constituency. Candidates for the board of directors must be experienced, dedicated, and meet the highest standards of ethics and integrity. The Directors & Governance Committee, with the active involvement of the board chairman, periodically reviews with the board the requisite skills and characteristics for new directors as well as the composition of the board as a whole, taking into account, among other things, the mix and diversity of skills, backgrounds and experience. A majority of our directors must satisfy the independence requirements of both MMC and the New York Stock Exchange. Each member of the Audit Committee must be financially literate and at least one member must possess the requisite qualifications to satisfy the SEC definition of "audit committee financial expert".

Once a candidate is identified, the Directors & Governance Committee will consider the candidate's mix of skills and experience with businesses and other organizations of comparable size, as well as his or her reputation, background and time availability (in light of anticipated needs). The committee will also consider the interplay of the candidate's experience with the experience of other board members, the extent to which the candidate would be a desirable addition to the board and any committees of the board and any other factors it deems appropriate.

Stockholders may propose director nominees for consideration by submitting a recommendation in writing to:

Marsh & McLennan Companies, Inc.
1166 Avenue of the Americas
New York, New York 10036-2774
Attn: Directors & Governance Committee
c/o Mr. Leon J. Lichter,
Corporate Secretary

The Directors & Governance Committee may ask any proposed nominee to provide such information as is reasonably necessary to determine his or her eligibility and qualifications to serve as a director of MMC, including information that relates to a candidate's independence and financial literacy.

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

Depending on the needs of the Board, the Directors & Governance Committee may consider director nominees proposed by stockholders at anytime throughout the year, but in no event will a nominee be considered later than the next annual meeting of stockholders for which a recommendation was timely received. To be timely received in connection with an annual meeting of stockholders, a recommendation on a proposed director candidate should be sent to us at the above address no later than the December 31st preceding that annual meeting.

ATTENDANCE

The average attendance by directors at meetings of the board and committees thereof was approximately 95%. All current directors attended at least 75% of the meetings of the board and committees on which they served. All directors are expected to attend our annual meeting of stockholders. In 2003, all of our directors attended the annual stockholders' meeting.

TENURE

Non-executive directors retire at the annual meeting following their 72nd birthday, unless the person has been a non-executive director for less than ten years. In such cases, non-executive directors retire at the annual meeting following the earlier of ten years of service or attaining age 75. Executive directors other than the chief executive officer resign from the board upon their retirement. Currently a former MMC chief executive officer serves on the board.

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

DIRECTORS' COMPENSATION

Directors who are also employees receive no specific compensation for their services as directors.

With regard to compensation for the services of our non-executive directors, we paid the following compensation to Messrs. Bernard, Erburu, Fanjul, Hardis, Olsen, Schapiro, Smith, Lord Lang, Ms. King and Ms. Simmons:

- o a basic retainer of \$40,000 per year and an annual stock grant as determined by the Directors & Governance Committee, which was 1,800 shares in 2003 (the "Annual Stock Grant");
- o a fee of \$1,000 and reimbursement of related expenses for each meeting of the board or a committee they attend;
- o an additional retainer of \$5,000 per year to the chair of each committee (other than Mr. Greenberg as chair of the Executive Committee); and
- o an additional retainer of \$2,000 per year to other members of committees.

We also offer travel accident insurance benefits to non-executive directors in connection with MMC-related business travel. Non-executive directors are included in MMC's matching-gift program

13

for certain charitable gifts by employees up to a maximum of \$5,000 per year.

Under the terms of MMC's Directors Stock Compensation Plan, the non-executive directors receive twenty-five percent of their basic retainer in shares of stock at the fair market value thereof, as well as their Annual Stock Grant, on each June 1. The balance of their compensation (including attendance fees and committee retainers) is paid in either shares of stock or cash, as the director elects. The non-executive directors may defer receipt of all or a portion of their compensation to be paid in shares until the year following either their retirement from the board or a specified earlier date.

Mr. Fanjul serves on MMC's International Advisory Board and is a director of Marsh, S.A., a Spanish subsidiary of MMC, but receives no additional compensation for such service.

Certain directors are investors in a fund that is a limited partner of Trident II, L.P. ("Trident II"), a \$1.4 billion private equity fund managed by MMC Capital, Inc., a subsidiary of MMC. Neither the directors nor the fund are required to pay management or carried interest performance fees in connection with their investments in Trident II.

Since June 1, 2000, MMC has had an annual agreement with A.J.C. Smith, pursuant to which Mr. Smith provides certain advisory and consultative services for MMC or its affiliates, serves as chairman of MMC's International Advisory Board and is a trustee of various Putnam Funds. In November 2003 Mr. Smith was appointed chairman of Putnam Investments, a subsidiary of MMC. He also serves as a director of Marsh & McLennan Risk Capital Holdings, Ltd. and MMC Capital. For these services MMC pays Mr. Smith \$2 million per year and provides support and other services and business expense reimbursement. On May 16, 2003 the term of this agreement was extended through May 31, 2004. For services rendered in 2003, Mr. Smith received an additional incentive payment of \$500,000.

(1) The bonus amounts shown in the table include both cash and (except as noted below with respect to Mr. Haldeman) the value of restricted stock units of MMC, respectively, for the years 2003, 2002 and 2001, as follows: Mr. Greenberg \$2,000,000 and \$1,500,042 in 2003, \$3,000,000 and \$1,500,040 in 2002 and \$2,500,000 and \$1,250,037 in 2001; Mr. Davis \$1,000,000 and \$1,350,042 in 2003, \$900,000 and \$1,100,000 in 2002 and \$875,000 and \$875,046 in 2001; Mr. Cabiallavetta \$1,000,000 and \$1,200,043 in 2003, \$950,000 and \$950,040 in 2002 and \$875,000 and \$875,046 in 2001; Mr. Groves \$1,200,000 and \$800,013 in 2003, \$950,000 and \$750,044 in 2002 and \$250,000 and \$150,059 in 2001; and Mr. Coster \$850,000 and \$800,013 in 2003, \$750,000 and \$800,031 in 2002 and \$750,000 and \$900,039 in 2001. The restricted stock units of MMC vest three years from the date of grant. Other features of the restricted stock units are described in footnote 2, below. For Mr. Haldeman, the bonus amounts shown in the table include: for 2003, \$6,500,000 of cash and \$2,100,006 of Class B common shares of Putnam ("Putnam Class B Shares") (as described further in footnote 8, below); and for 2002, \$6,600,000 of cash and \$2,000,008 of MMC stock. These bonus amounts were guaranteed to Mr. Haldeman in his employment letter upon joining Putnam in 2002. (Bonus amounts shown in this column for 2002 and 2001 have been revised from the amounts shown in last year's proxy statement to include restricted stock units awarded in 2003 and 2002 as a component of each officer's bonus for 2002 and 2001 performance, respectively.)

(2) Amounts shown in the table for 2003 include the value of restricted stock of MMC granted in March 2003. The restricted stock vests in the year

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

following completion of ten (10) years of service from the date of grant. The amounts shown in 2003 for Messrs. Greenberg, Davis, Cabiallavetta and Groves also include the value of restricted stock units of MMC granted under MMC's voluntary deferral programs. These restricted stock units vest no earlier than three years from the date of grant. The amount shown in 2003 for Mr. Haldeman represents restricted stock units of MMC granted to Mr. Haldeman in 2004 for 2003 performance, one-half of which vest after three years and one-half of which vest after five years. During the applicable vesting and restricted periods, holders of shares of restricted stock receive the same dividend payments as those paid on the outstanding shares of stock, and holders of restricted stock units receive dividend equivalent payments that are equal in amount to dividends paid on shares of common stock. Vesting of restricted stock and restricted stock units may be accelerated upon a change in control. "Change in Control" of MMC means generally any of the following: any person or group becoming the owner of securities with 50% or more of the voting power of MMC; within a two-year period (with certain exceptions) a change in directors constituting a majority of the board; stockholder approval of a merger or consolidation of MMC resulting in MMC stockholders not owning securities with 50% or more of the voting power of the surviving entity; and stockholder approval of a plan of complete liquidation or an agreement for the sale or disposition of all or substantially all of MMC's assets. Under the MMC Special Severance Pay Plan, certain holders of restricted stock or awards in lieu of restricted stock with at least ten years of service will receive payment in shares of stock upon forfeiture of their awards if their employment with MMC or one of its subsidiaries terminates. The amount of such payment is based on years of service, with the individual receiving up to a maximum of 90% of the value of the restricted shares after 25 years of service, subject to execution of a non-solicitation agreement. (Amounts shown in this column for 2002 and 2001 have been revised from the amounts shown in last year's proxy statement to move the value of bonus-related restricted stock units from this column to the "Bonus" column.)

As of December 31, 2003, each individual in the table had outstanding restricted stock and restricted stock units of MMC with an aggregate value (using the closing price of common stock on the Consolidated Transaction Reporting System on December 31, 2003 of \$47.89) as follows: Mr. Greenberg, 356,800 shares (including the shares described in footnote 6, below) and 98,808 units worth \$17,087,152 and \$4,731,915, respectively; Mr. Haldeman, 41,700 units worth \$1,997,013; Mr. Davis, 73,559 shares and 102,712 units worth \$3,522,741 and \$4,918,878, respectively; Mr. Cabiallavetta, 68,500 shares and 87,634 units worth \$3,280,465 and \$4,196,793, respectively; Mr. Groves, 11,568 shares and 63,587 units worth \$553,992 and \$3,045,182, respectively; and Mr. Coster, 171,700 shares and 119,201 units worth \$8,222,713 and \$5,708,536, respectively.

- (3) Amounts shown in the table for 2003 represent options to purchase shares of MMC (and, as noted in footnote 9, below, with respect to Mr. Haldeman, options to purchase Putnam Class B Shares) granted in March 2003.
- (4) MMC Capital's Long Term Incentive Plan ("LTIP") operates as an incentive compensation pool that varies in amount based on the extent of investment return and fees from originating, structuring and managing certain insurance and related industry investments in which MMC has direct or indirect interests. Vesting schedules under the LTIP will accelerate upon a change in control of MMC (as described in footnote 2 above), a change in control of MMC Capital (defined to mean that MMC no longer owns more than 50% of MMC Capital), or upon the retirement, death or disability of the participating executive.

In addition, in 1999, Mr. Greenberg purchased partnership interests in the general partner of Trident II, and in 1999, 2000 and 2003, Mr. Davis

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

purchased partnership interests in the general partners of five private equity funds managed by MMC Capital, including Trident II and Trident III. These purchases were on an after-tax, out-of-pocket basis. In connection with these partnership interests, Mr. Greenberg and Mr. Davis received participations in carried interests in these funds. Based on the carrying values contained in the financial statements of these private equity funds as of December 31, 2003, the estimated value of Mr. Greenberg's and Mr. Davis' interest in future payouts in respect of these participations aggregated approximately \$2.8 million and \$4.9 million, respectively, in each case based on a liquidation value as of that date and subject to realization of estimated returns. The carried interests are subject to reduction or forfeiture in connection with termination of employment under certain circumstances. However, in the event of a change in control of MMC or MMC Capital prior to a termination of employment other than for cause, the carried interests cannot be so reduced or forfeited, even with respect to subsequent investments. From time to time, Mr. Greenberg and Mr. Davis may be excused from participating in a particular investment in order to avoid the appearance of any inappropriate remuneration or as otherwise deemed advisable. In 2003, Mr. Davis purchased, on an after-tax, out-of-pocket basis, a limited partnership interest in a fund that invests alongside a private equity fund managed by a subsidiary of MMC. Neither he nor the fund is required to pay any fees, except in some cases an administrative fee, in connection with these investments.

17

- (5) Amounts shown in the table for 2003 consist of the following: (a) MMC matching contributions under the Stock Investment Plan of \$8,600 for Mr. Greenberg, \$3,763 for Mr. Davis, \$12,000 for Mr. Cabiallavetta, \$5,250 for Mr. Groves and \$12,000 for Mr. Coster, and under the Stock Investment Supplemental Plan of \$43,002 for Mr. Greenberg, \$37,489 for Mr. Davis, \$42,000 for Mr. Cabiallavetta, \$48,750 for Mr. Groves and \$45,000 for Mr. Coster and (b) contributions by Putnam of \$15,000 to the Putnam Profit Sharing Retirement Plan for Mr. Haldeman. The 2002 amount shown for Mr. Haldeman of \$4 million was paid to him to offset the value of amounts forfeited from his prior employer in connection with his joining Putnam in 2002.
- (6) This amount represents the value of a special 10-year restricted stock grant to Mr. Greenberg of 187,500 restricted shares, as described in the Compensation Committee Report on page 25 of this proxy statement. The restricted stock vests in the year following completion of ten (10) years of service from the date of grant and, except as noted below, is subject to the same conditions as the restricted stock described in footnote 2, above. After the ten (10) year vesting period, Mr. Greenberg must retain at least 50% of the after-tax shares until at least one year following his termination as an officer and/or director of MMC. This grant is also subject to non-competition and non-solicitation restrictions that apply both during and after employment.
- (7) Mr. Haldeman joined Putnam in 2002. Mr. Haldeman's compensation for 2002 and 2003 was based in part on commitments made to him in connection with his joining Putnam in 2002.
- (8) This amount represents the value of restricted Putnam Class B Shares. At December 31, 2003, Mr. Haldeman had 14,400 restricted Putnam Class B Shares with an estimated aggregate value of \$484,128 based on a specified valuation methodology for determining fair market value which at December 31, 2003 was \$33.62 per share. All grants of restricted Putnam Class B Shares include the right to dividend payments equal in amount to dividends

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

paid on the outstanding Class A Shares of Putnam. The restricted Putnam Class B Shares vest at a rate of 25% a year beginning with the first anniversary of the date of the grant. Upon certain corporate events affecting Putnam or MMC, vesting of shares of restricted Putnam Class B Shares may be accelerated.

- (9) Represents options to purchase Putnam Class B shares.
- (10) Mr. Cabiallavetta's US dollar-denominated salary and cash bonus for 2003 were paid approximately 66% in Swiss Francs. The Swiss Franc amounts for 2003 were determined using an average exchange rate for 2002 (1.53 CHF to 1 US\$). Were fluctuating exchange rates to have been applied, Mr. Cabiallavetta's 2003 salary and cash bonus amounts would have been \$982,848 and \$1,125,695, respectively.

(1) All MMC stock options become exercisable 25% a year beginning one year from the date of grant. The option exercise price may be paid in cash or in shares of common stock. In the event of a change in control of MMC (as described in footnote 2 to the Summary Compensation Table above), all stock options will become fully exercisable and vested, and any restrictions contained in the terms and conditions of the option grants shall lapse. If any payments made in connection with a change in control are subject to the excise tax imposed under the federal tax laws, MMC will increase the option holder's payment as necessary to restore such option holder to the same after-tax position had the excise tax not been imposed.

(2) The dollar amounts are the result of calculations at the 5% and 10% growth rates set by the SEC; the rates are not intended to be a forecast of future stock price appreciation. A zero percent stock price growth rate will

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

result in a zero gain for all option holders.

- (3) Mr. Haldeman was granted an option to acquire Putnam Class B Shares which becomes exercisable 25% a year beginning on March 15, 2004. The fair market value of each Putnam Class B Share on the date of grant was \$39.57.
- (4) The dollar amounts are included for comparative purposes to show the aggregate gain that would be achieved by all holders of the outstanding stock of MMC at the assumed stock price appreciation rates at the end of the 10-year term of the MMC options granted on March 20, 2003 at an exercise price of \$42.99.

Fair Market Value with respect to MMC stock is based on the closing price on the Consolidated Transaction Reporting System on December 31, 2003 of \$47.89 and, with respect to the Putnam Class B Shares, is based on a specified valuation methodology for determining fair market value which at December 31, 2003 was \$33.62 per share. The actual amount, if any, realized upon exercise of stock options will depend upon the market price of the stock relative to the exercise price per share at the time the stock option is exercised. There is no assurance that the values of unexercised in-the-money stock options reflected in this table will be realized.

COMPENSATION COMMITTEE REPORT

This report is submitted to the stockholders of Marsh & McLennan Companies, Inc. ("MMC") by the Compensation Committee (the "Committee") of the board of directors. The Compensation Committee consists solely of non-executive directors who are independent, as determined by the board in accordance with MMC guidelines and New York Stock Exchange listing standards. The Committee met eight times in 2003.

By its charter, the Committee is charged with reviewing and approving MMC's compensation philosophies and overseeing the development and implementation of compensation programs for the CEO and other senior executives. The Committee determines the compensation of MMC's chief executive officer ("CEO"), approves the compensation of other senior executives and makes recommendations to the board of directors with respect to incentive compensation plans and equity-based plans. This report reflects the Committee's executive compensation policies, plans and actions.

EXECUTIVE COMPENSATION PRINCIPLES

MMC is a professional services organization comprising businesses with

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

distinct economic characteristics, marketplaces and operating conditions. In its consideration of the level, composition, and terms and conditions of compensation for executive officers of MMC and its subsidiaries, the Committee seeks to enable MMC to attract, retain and motivate the most highly qualified and capable professionals available to lead the organization's businesses. To that end, MMC's executive compensation program is designed to support business strategies, to enhance the achievement of financial objectives and to reflect marketplace practices and dynamics. The Committee also wants to ensure that a substantial portion of executive officers' long-term compensation is tied to the long-term performance of MMC and MMC's stock price. These principles are reflected in the actions discussed below relating to salaries, annual incentive awards and long-term compensation.

Federal tax law limits the ability of publicly-traded companies to secure an income tax deduction for compensation paid to certain highly compensated individuals. The Committee's policy is to take actions deemed to be in the best interests of MMC and its stockholders, recognizing, however, that achieving the desired flexibility in the design and delivery of compensation may result in compensation that is not in all instances deductible for federal income tax purposes because of the restrictions set forth in Section 162(m) of the Internal Revenue Code.

MAJOR COMPENSATION COMPONENTS

The compensation program for executive officers comprises base salary, annual performance-based incentive compensation and long-term incentive compensation. The Committee reviews periodically the levels and components of executive compensation and utilizes an independent compensation consulting firm to provide data, to offer professional observations regarding the compensation practices of comparable companies and to advise the Committee on specific executive compensation subjects that arise. Survey data is developed from a group of selected major corporations (16 in 2003) in the diversified financial, banking and insurance sectors that are representative of the size and type of company with which MMC competes in the marketplace for executive talent. This grouping is broader than the peer group in the Stock Performance Graph set forth below in order to obtain a meaningful understanding of competitive compensation practices and levels for senior executive positions in comparable companies and industry segments. The compensation components and levels among the comparator companies are considered by the Committee in determining base salary, incentive compensation awards and equity-based compensation for the CEO and in approving the recommendations of the CEO for executive officers of MMC and its subsidiaries, as described below. In addition, in 2002 and 2003 the Committee utilized an independent compensation consulting firm to evaluate MMC CEO compensation and MMC's equity compensation practices with respect to executive officers, as discussed more fully below.

Members of Putnam's senior management group (including Mr. Haldeman) participate in a compensation program designed over time to complement Putnam's business needs and reflect its marketplace. Mr. Haldeman's compensation for 2003 was based in part on commitments made to him in connection with his joining Putnam in 2002 and also reflects his increased responsibilities in connection with becoming president and chief

executive officer of Putnam in November 2003. Annual incentive awards for Putnam executives are made under plans that are funded based on the level of Putnam's earnings, earnings growth, annual plan funding agreements with MMC or predetermined plan formulae. Long-term incentive compensation for Putnam executives is in the form of restricted stock and stock options with respect to

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

Class B shares of Putnam. Putnam employees may also be considered for grants of MMC restricted stock and/or options from time to time. Because employees of Putnam participate in a compensation program specific to Putnam, the discussion provided in the following sections of this report relating to the compensation of MMC's executive officers excludes Putnam.

BASE SALARY

Base salaries of executive officers are intended to reflect their roles and responsibilities and be competitive with respect to the relevant marketplace as to the availability of talent and compensation levels. In general, an executive officer's base salary is adjusted when such an adjustment is necessary to reflect a change in the individual's responsibilities, growth in their job role or when market or internal equity conditions may warrant. Salaries for Messrs. Cabiallavetta, Davis and Groves were increased in 2003 based on a combination of these factors. In 2003, salaries accounted for 21% of total compensation (excluding stock options) for MMC's executive officers.

ANNUAL INCENTIVE COMPENSATION

For 2003, annual incentive compensation for executive officers was comprised of cash and restricted stock units. The size of the annual cash incentive award pool is based on earnings and reflects MMC's net operating income growth. However, the Committee may approve awards that, in the aggregate, may be less than the pool. For 2003, the Committee approved an annual incentive award pool based on MMC's pre-tax income for 2003 and pre-tax income growth over 2002.

With respect to individual annual incentive awards, the Committee exercises its judgment, weighing the CEO's recommendation and evaluation of the executive officer's managerial and professional role within the organization, relative contribution (compared with the internal peer group) to the individual business segment, the firm's overall operations and earnings growth, any special circumstances and marketplace factors. Awards reflect judgments reached in weighing these considerations and are not formulaic.

The restricted stock unit component of the annual incentive for executive officers is distributable in shares and vests after three years of service from the date of grant with no annual incremental vesting. These grants reflect annual performance and are intended to serve as both a retention and longer-term performance-linked component of the annual incentives for executive officers. The proportion of restricted stock units relative to cash bonus is approved by the Committee using the factors outlined in the preceding paragraph. For 2003, the value of restricted stock units granted to executive officers ranged from approximately 25% to 60% of the executive officer's total annual bonus. The value of restricted stock units awarded to the named executive officers is included in the Summary Compensation Table under the "Bonus" column for the year earned.

In 2003, cash bonuses and restricted stock units constituted 27% and 21%, respectively, of total compensation (excluding stock options) for MMC's executive officers.

LONG-TERM COMPENSATION

The Committee believes that retaining and motivating the executive officers of MMC by fostering stock ownership is essential to continuing success. The Committee has relied historically on various forms of stock-based grants as incentives and rewards for executive officers to reinforce a longer-term perspective and to link executive officers' financial interests over time with those of stockholders. The professional services businesses of MMC compete also with privately-held firms that offer attractive equity ownership opportunities.

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

Relative to this market segment, MMC's ability to recruit, reward and retain executives is heavily dependent on offering opportunities for long-term stock accumulation. In 2003, long-term incentive grants to MMC executive officers were made in the form of 10-year restricted stock and stock options that vest over time. In addition, under voluntary deferral programs, a supplemental restricted stock unit award with vesting requirements may be granted as an additional inducement for long-term stock ownership.

23

The long-term restricted stock granted to executive officers vests in the year following completion of ten (10) years of service from the date of grant with no annual incremental vesting. This restriction period is longer than the restriction period applied to similar restricted stock grants by companies in the comparator group described above. The Committee believes restricted stock is an effective retention tool because of the length of the restriction period and is an appropriate reward for contributions over time. The long restriction period can foster executive officers' accumulation of substantial MMC stock ownership positions, linking their long-term capital accumulation opportunity to shareholder return.

Stock options are another element of executive long-term compensation. Executive officers are eligible for option grants on an annual basis. Individual grants reflect factors discussed earlier including organization role, performance, potential for future contributions to the long-term success of MMC and marketplace factors. Stock options granted to executives have an exercise price equal to the fair market value of MMC stock on the trading day prior to the date of the grant and vest ratably over four (4) years of service from the date of grant.

Within this framework, the mix and value of long-term incentive grants for executive officers (other than the CEO) are approved by the Committee based on the recommendations of the CEO. As noted earlier in this report, the Committee utilized an independent compensation consulting firm to evaluate MMC's equity compensation practices for executives and to compare the practices and resultant equity holding levels with multiple groupings of comparator companies. As a result of that study, long-term incentive grants made to certain executive officers in 2003 include a special grant of 10-year restricted stock. The special 10-year restricted stock award was made to executive officers who recently joined MMC and is intended to enhance their share holdings for long-term incentive and retention.

In 2003, 10-year restricted stock awards accounted for 31% of total compensation (excluding stock options) for MMC's executive officers.

CEO COMPENSATION

Mr. Greenberg's compensation is composed of base salary, annual performance-based incentive compensation and long-term compensation. Mr. Greenberg has no employment agreement, nor does he have any special retirement or severance arrangement with MMC.

The Committee evaluates Mr. Greenberg's performance and determines his compensation by applying both the quantitative and qualitative criteria described earlier for executive officers. In doing so, the Committee considers MMC's current and long-term financial performance. The Committee also considers Mr. Greenberg's influence on the strategic direction and long-term strength and performance of MMC in the context of his broader leadership responsibilities, including his role in developing talent, enabling value-creating collaboration among MMC's businesses and leading corporate development.

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

Mr. Greenberg's base salary for 2003 was \$1,200,000, unchanged since January 1, 2000.

Mr. Greenberg participates in the same MMC annual incentive plan as MMC's other executive officers. For 2003, the Committee's evaluation of Mr. Greenberg's performance considered MMC's strong financial results measured by net operating income increasing 10% and earnings per share increasing 15%. The Committee also recognized Mr. Greenberg's outstanding leadership and his ongoing role in guiding MMC and Putnam in the context of the regulatory and business issues resulting from the revelations of inappropriate market timing in certain Putnam mutual funds by a number of investment professionals who have now left the firm.

Notwithstanding MMC's and Mr. Greenberg's positive performance in 2003, the Committee considered the effects of the events at Putnam and made an annual incentive award to Mr. Greenberg of \$1,000,000 less than in 2002 (i.e., cash of \$3,000,000 in 2002 and \$2,000,000 in 2003, and restricted stock units with a value at grant of \$1,500,000 in each year).

In 2003, Mr. Greenberg received long-term incentive grants of 21,000 shares of 10-year restricted stock and 500,000 stock options. Mr. Greenberg also received a supplemental grant of 3,285 restricted stock units under a voluntary

24

deferral program in connection with his deferral of previously granted restricted stock units.

As noted earlier in this report, in 2002 and 2003 the Committee utilized an independent compensation consulting firm to assist in evaluating Mr. Greenberg's compensation, including components and amounts, relative to MMC's performance against the 16-company comparator group as previously described on page 22. The study compared Mr. Greenberg's compensation and MMC performance (measured by, among other time frames, three-year total shareholder return) with the compensation of CEOs of the comparator group. The study concluded that MMC's performance was in the top quartile of the comparator group for the period analyzed but that Mr. Greenberg's total compensation was below the average and median of the group. The study also concluded that Mr. Greenberg's total MMC equity holdings were significantly below the average and median of the comparator group, primarily because Mr. Greenberg joined MMC in mid-career and did not receive a large MMC stock grant upon joining MMC or upon becoming CEO. The study found Mr. Greenberg's total equity holdings to be at the 34th percentile of the comparator group.

The Committee believes it is important for Mr. Greenberg to have a substantial ownership interest in MMC and that Mr. Greenberg's long-term equity awards recognize his leadership and capacity to contribute to the long-term growth and success of the company. Since Mr. Greenberg has no employment agreement or special retirement or severance arrangement, his long-term remuneration opportunities are based on MMC stock ownership. The Committee believes that this emphasis on MMC stock serves as an incentive to build stockholder value over the long-term. At the same time, the Committee believes that Mr. Greenberg's equity grants should also serve as a retention tool. To accomplish these objectives, the Committee established a program in March 2003 for a series of special 10-year restricted stock grants to Mr. Greenberg. The restricted stock granted pursuant to this program vests in the year following completion of ten (10) years of service from the date of grant. In addition, after the ten (10) year vesting period, Mr. Greenberg must retain at least 50% of the after-tax shares until at least one year following his termination as an

Edgar Filing: MARSH & MCLENNAN COMPANIES INC - Form DEF 14A

officer and/or director of MMC. This special grant is also subject to non-competition and non-solicitation restrictions that apply both during and after employment, the breach of which will require return of a portion of the shares under certain circumstances. In 2003, Mr. Greenberg was granted 187,500 shares of 10-year restricted stock pursuant to this program. The value of this special grant is included in the Summary Compensation Table under the column captioned "Restricted Stock Awards."

Based on a review of CEO compensation for 2002 (latest data available), Mr. Greenberg's total compensation for 2003, which includes base salary, annual incentive compensation and long-term compensation (except the special restricted stock award), was at approximately the 50th percentile of the reported 2002 data for the comparator companies. His long-term compensation (including any long-term incentive plan payouts and stock options, but excluding the special restricted stock award) was at approximately the 55th percentile of the comparator companies.

CONCLUSION

The Committee believes that MMC's executive compensation program is designed and administered to attract exceptional talent and to motivate executives to remain with MMC and to perform in an exceptional manner. By ensuring that such persons are leading MMC's business units and operations, the long-term interests of stockholders will be served. The Committee believes that its actions in 2003 were consistent with this intent and faithful to the compensation principles outlined above.

TRANSACTIONS WITH MANAGEMENT AND OTHERS; OTHER INFORMATION

From time to time, in the ordinary course of business and on commercial terms, MMC and its subsidiaries may provide services to, or in connection with transactions involving, investment funds and their portfolio companies managed or advised by MMC Capital, in which various executive officers and directors of MMC have direct or indirect interests. Such services include:

- o acting as an insurance or reinsurance broker;
- o consulting;
- o transaction advisory services; or
- o investment management.

A portion of the fees received by MMC Capital or its subsidiaries from portfolio companies for transaction, management or other advisory services is dedicated to the LTIP pool described in footnote 4 to "Compensation of Executive Officers --Summary Compensation Table".

The aggregate amount received for all such services rendered in 2003 by MMC and its subsidiaries was approximately \$38.5 million. This amount predominantly consists of insurance brokerage and related payments made by portfolio companies to MMC subsidiaries relating to insurance and reinsurance placements with such insurers in the normal course of business.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires MMC's directors and executive officers, and persons who own more than ten percent of the common stock of MMC, to file with the SEC and the New York Stock Exchange initial reports of beneficial ownership and reports of changes in beneficial ownership of MMC stock. Such persons are also required by SEC regulation to furnish MMC with copies of all Section 16(a) forms they file. To MMC's knowledge, based solely on a review of the copies of such reports furnished to MMC and written representations that no other reports were required, during 2003 all Section 16(a) filing requirements applicable to such individuals were complied with except for one report covering one transaction filed late by each of Mr. Cabiallavetta and Ms. Simmons. In addition, for prior years, one transaction was filed late by each of Mr. Olsen (1999) and Ms. Simmons (2001) and two transactions were filed late by Mr. Smith (2001 and 2002).

financial statements and expressing an opinion as to the conformity of the annual financial statements with generally accepted accounting principles.

In the performance of its oversight function, the Committee has reviewed and discussed the audited financial statements as of and for the year ended December 31, 2003 with management and the independent auditors. The Committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, COMMUNICATION WITH AUDIT COMMITTEES. Finally, the Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1, INDEPENDENCE DISCUSSIONS WITH AUDIT COMMITTEES, has considered whether the provision of other non-audit services by the independent auditors to the Company is compatible with maintaining the auditor's independence and has discussed with the auditors the auditors' independence.

NOVEMBER 19, 2003

POLICY

The Audit Committee of Marsh & McLennan Companies, Inc. and its subsidiaries (the "Company") and management of the Company have always recognized the importance of maintaining the independence of the public accountant (the "Auditor"). Requests should be supported by detailed documentation including an explanation of the business purpose of the proposed engagement, the cost and an explanation of the vendor selection process.

The Auditor and management must ensure that all Audit, Audit-Related, Tax and Other Services are permissible under applicable legal requirements and are pre-approved by the Audit Committee.

When an engagement approval is required prior to the next scheduled meeting of the Audit Committee, the Audit Committee chair may grant such approval.
