SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

On one or more occasions, we may make statements in this Quarterly Report on Form 10-Q regarding our assumptions, projections, expectations, targets, intentions or beliefs about future events. All statements, other than statements of historical facts, included or incorporated by reference herein relating to management's current expectations of future financial performance, continued growth and changes in economic conditions or capital markets are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended.

Words or phrases such as "anticipates," "believes," "estimates," "expects," "intends," "plans," "predicts," "projects," "targets," "result," "hopes," "will continue" or similar expressions identify forward-looking statements. Forward-looking statements involve risks and uncertainties which could cause actual results or outcomes to differ materially from those expressed. We caution that while we make such statements in good faith and we believe such statements are based on reasonable assumptions, including without limitation, management's examination of historical operating trends, data contained in records and other data available from third parties, we cannot assure you that our projections will be achieved. Factors that may cause such differences include: economic conditions generally and in each of the markets in which we are located, the amount of sales contributed by new and existing restaurants, labor costs for our personnel, fluctuations in the cost of food products, adverse weather conditions, changes in consumer preferences and the level of competition from existing or new competitors.

We have attempted to identify, in context, certain of the factors that we believe may cause actual future experience and results to differ materially from our current expectation regarding the relevant matter or subject area. In addition to the items specifically discussed above, our business, results of operations and financial position and your investment in our common stock are subject to the risks and uncertainties described in "Item 1A Risk Factors" in Part I of our Annual Report on Form 10-K for the fiscal year ended September 27, 2014 as may be updated by the information contained under the caption "Item 1A. Risk Factors" in Part II of this Quarterly Report on Form 10-Q.

From time to time, oral or written forward-looking statements are also included in our reports on Forms 10-K, 10-K/A, 10-Q, 10-Q/A and 8-K, our Schedule 14A, our press releases and other materials released to the public. Although we believe that at the time made, the expectations reflected in all of these forward-looking statements are and will be reasonable; any or all of the forward-looking statements may prove to be incorrect. This may occur as a result of inaccurate assumptions or as a consequence of known or unknown risks and uncertainties. Many factors discussed in this Quarterly Report on Form 10-Q, certain of which are beyond our control, will be important in determining our future performance. Consequently, actual results may differ materially from those that might be anticipated from forward-looking statements. In light of these and other uncertainties, you should not regard the inclusion of a forward-looking statement in this Quarterly Report on Form 10-Q or other public communications that we might make as a representation by us that our plans and objectives will be achieved, and you should not place undue reliance on such forward-looking statements.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. However, your attention is directed to any further disclosures made on related

subjects in our subsequent periodic reports filed with the Securities and Exchange Commission on Forms 10-K, 10-K/A, 10-Q, 10-Q/A and 8-K and Schedule 14A.

Unless the context requires otherwise, references to “we,” “us,” “our,” “ARKR” and the “Company” refer specifically to Ark Restaurants Corp., and its subsidiaries, partnerships, variable interest entities and predecessor entities.

ARK RESTAURANTS CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

June 27, 2015

(Unaudited)

1. CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

The consolidated condensed balance sheet as of September 27, 2014, which has been derived from audited financial statements included in the Form 10-K, and the unaudited interim consolidated condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. All adjustments that, in the opinion of management are necessary for a fair presentation for the periods presented, have been reflected as required by Regulation S-X, Rule 10-01. Such adjustments are of a normal, recurring nature. These consolidated condensed financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s annual report on Form 10-K for the year ended September 27, 2014. The results of operations for interim periods are not necessarily indicative of the operating results to be expected for the full year or any other interim period.

During the quarter ended March 28, 2015, the Company identified an immaterial error in previously issued financial statements related to an overstatement of its gift card liability in the amount of \$224,000 (\$161,000 net of tax or \$0.05 per basic and diluted share for the 13-weeks ended March 28, 2015). The Company reviewed this accounting error utilizing SEC Staff Accounting Bulletin No. 99, “Materiality” (“SAB 99”) and SEC Staff Accounting Bulletin No. 108, “Effects of Prior Year Misstatements on Current Year Financial Statements” (“SAB 108”) and determined the impact of the error to be immaterial to any prior period’s presentation. The accompanying consolidated financial statements as of June 27, 2015 reflects the correction of the aforementioned immaterial error.

PRINCIPLES OF CONSOLIDATION — The consolidated condensed interim financial statements include the accounts of Ark Restaurants Corp. and all of its wholly-owned subsidiaries, partnerships and other entities in which it has a controlling interest, collectively herein referred to as the “Company”. Also included in the consolidated condensed interim financial statements are certain variable interest entities (“VIEs”). All significant intercompany balances and transactions have been eliminated in consolidation.

SEASONALITY — The Company has substantial fixed costs that do not decline proportionally with sales. The first and second fiscal quarters, which include the winter months, usually reflect lower customer traffic than in the third and fourth fiscal quarters. In addition, sales in the third and fourth fiscal quarters can be adversely affected by inclement weather due to the significant amount of outdoor seating at the Company’s restaurants.

FAIR VALUE OF FINANCIAL INSTRUMENTS — The carrying amount of cash and cash equivalents, receivables, accounts payable and accrued expenses approximate fair value due to the immediate or short-term maturity of these financial instruments. The fair values of notes receivable and payable are determined using current applicable rates for similar instruments as of the balance sheet date and approximate the carrying value of such debt.

CASH AND CASH EQUIVALENTS — Cash and cash equivalents include cash on hand, deposits with banks and highly liquid investments generally with original maturities of three months or less. Outstanding checks in excess of account balances, typically vendor payments, payroll and other contractual obligations disbursed after the last day of a reporting period are reported as a current liability in the accompanying consolidated condensed balance sheets.

CONCENTRATIONS OF CREDIT RISK — Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents and accounts receivable. The Company reduces credit risk by placing its cash and cash equivalents with major financial institutions with high credit ratings. At times, such amounts may exceed Federally insured limits. The concentration of credit risk with respect to accounts receivable is generally limited due to the short payment terms extended by the Company and the number of customers comprising the Company's customer base.

For the 13 and 39-week periods ended June 27, 2015, the Company did not make purchases from any one vendor that accounted for 10% or greater of total purchases for the respective period. For the 13 and 39-week periods ended June 28, 2014, the Company made purchases from one vendor that accounted for approximately 11% and 11% of total purchases, respectively.

SEGMENT REPORTING — As of June 27, 2015, the Company owned and operated 21 restaurants and bars, 19 fast food concepts and catering operations, exclusively in the United States, that have similar economic characteristics, nature of products

and service, class of customers and distribution methods. The Company believes it meets the criteria for aggregating its operating segments into a single reporting segment in accordance with applicable accounting guidance.

RECENTLY ADOPTED ACCOUNTING STANDARDS — In April 2014, the FASB issued new accounting guidance that changes the definition of a discontinued operation to include only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results. This guidance became effective for annual reporting periods beginning on or after December 15, 2014 and is to be applied prospectively. The adoption of this guidance did not have a material impact on the Company's consolidated condensed financial statements.

NEW ACCOUNTING STANDARDS NOT YET ADOPTED — In January 2015, the FASB issued guidance simplifying the income statement presentation by eliminating the concept of extraordinary items. Extraordinary items are events and transactions that are distinguished by their unusual nature and by the infrequency of their occurrence. Eliminating the extraordinary classification simplifies income statement presentation by altogether removing the concept of extraordinary items from consideration. The amendments are effective for annual reporting periods, including interim periods within those reporting periods, beginning after December 15, 2015. Early adoption is permitted provided that the guidance is applied from the beginning of the annual reporting period. The Company does not believe this guidance will have a material impact on its Consolidated Financial Statements.

In February 2015, the FASB amended the consolidation standards for reporting entities that are required to evaluate whether they should consolidate certain legal entities. Under the new guidance, all legal entities are subject to reevaluation under the revised consolidation model. Specifically, the guidance (i) modifies the evaluation of whether limited partnerships and similar legal entities are variable interest entities (VIEs) or voting interest entities; (ii) eliminates the presumption that a general partner should consolidate a limited partnership; (iii) affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships; and (iv) provides a scope exception from consolidation guidance for reporting entities with interests in legal entities that are required to comply with or operate in accordance with requirements that are similar to those in Rule 2a-7 of the Investment Company Act for registered money market funds. The amendments are effective for annual reporting periods, beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period. The Company is currently evaluating the impact of this guidance on its Consolidated Financial Statements.

2. VARIABLE INTEREST ENTITIES

The Company consolidates any variable interest entities in which it holds a variable interest and is the primary beneficiary. Generally, a variable interest entity, or VIE, is an entity with one or more of the following characteristics: (a) the total equity investment at risk is not sufficient to permit the entity to finance its activities without additional subordinated financial support; (b) as a group the holders of the equity investment at risk lack (i) the ability to make decisions about an entity's activities through voting or similar rights, (ii) the obligation to absorb the expected losses of the entity, or (iii) the right to receive the expected residual returns of the entity; or (c) the equity investors have voting rights that are not proportional to their economic interests and substantially all of the entity's activities either involve, or are conducted on behalf of, an investor that has disproportionately few voting rights. The primary beneficiary of a

Edgar Filing: ARK RESTAURANTS CORP - Form 10-Q

VIE is generally the entity that has (a) the power to direct the activities of the VIE that most significantly impact the VIE's economic performance, and (b) the obligation to absorb losses or the right to receive benefits that could potentially be significant to the VIE.

The Company has determined that it is the primary beneficiary of three VIEs and, accordingly, consolidates the financial results of these entities. Following are the required disclosures associated with the Company's consolidated VIEs:

The liabilities recognized as a result of consolidating these VIEs do not represent additional claims on our general assets; rather, they represent claims against the specific assets of the consolidated VIEs. Conversely, assets recognized as a result of consolidating these VIEs do not represent additional assets that could be used to satisfy claims against our general assets.

3. RECENT RESTAURANT EXPANSION

On February 24, 2014, the Company, through a wholly-owned subsidiary, Ark Rustic Inn LLC, completed its acquisition of the assets of *The Rustic Inn Crab House* (“*The Rustic Inn*”), a restaurant and bar located in Dania Beach, Florida, for a total purchase price of approximately \$7,710,000. The acquisition is accounted for as a business combination and was financed with a bank loan in the amount of \$6,000,000 and cash from operations. The fair values of the assets acquired were allocated as follows:

Inventory	\$210,000
Land	2,000,000
Building	2,800,000
Furniture, fixtures and equipment	200,000
Trademarks	500,000
Goodwill	2,000,000
	\$7,710,000

The Consolidated Condensed Statements of Income for the 39-weeks ended June 27, 2015 include revenues and earnings of approximately \$11,919,000 and \$2,656,000, respectively, related to *The Rustic Inn*. The unaudited pro forma financial information set forth below is based upon the Company’s historical Consolidated Condensed Statements of Income for the 39-weeks ended June 28, 2014 and includes the results of operations for *The Rustic Inn* for the period prior to acquisition. The unaudited pro forma financial information is presented for informational purposes only and may not be indicative of what actual results of operations would have been had the acquisition of *The Rustic Inn* occurred on the dates indicated, nor does it purport to represent the results of operations for future periods.

In June 2015, the Company exercised its option to extend the lease through December 31, 2023. The Company has additional options to extend the lease through 2033. Renovations to the property totaled approximately \$750,000. 4. RECENT RESTAURANT DISPOSITIONS

Lease Expirations – The Company was advised by the landlord that it would have to vacate *The Sporting House* property located in New York-New York Hotel and Casino in Las Vegas, NV which was on a month-to-month lease. The closure of this property occurred in June 2014 and did not result in a material charge.

On May 31, 2014, the Company's lease at the *Rialto Deli* located at the Venetian Casino Resort in Las Vegas, NV expired. The closure of this property did not result in a material charge.

On October 31, 2014, the Company's lease at the *Towers Deli* located at the Venetian Casino Resort in Las Vegas, NV expired. The closure of this property did not result in a material charge.

On November 30, 2014, the Company's lease at the *Shake & Burger* located at the Venetian Casino Resort in Las Vegas, NV expired. The closure of this property did not result in a material charge.

5. NOTE RECEIVABLE

On June 7, 2011, the Company entered into a 10-year exclusive agreement to manage a yet to be constructed restaurant and catering service at Basketball City in New York City in exchange for a fee of \$1,000,000. Under the terms of the agreement, the owner of the property was to construct the facility at their expense and the Company was to pay the owner an annual fee based on sales, as defined in the agreement. Since the owner had not delivered the facility to the Company within the specified timeframe, the parties executed a promissory note for repayment of the \$1,000,000 exclusivity fee. The note bears interest at 4.0% per annum and the remaining principal balance is payable in 38 equal monthly installments of approximately \$9,000. The note was repaid in full in March 2015.

6. INVESTMENT IN NEW MEADOWLANDS RACETRACK

On March 12, 2013, the Company made a \$4,200,000 investment in the New Meadowlands Racetrack LLC ("NMR") through its purchase of a membership interest in Meadowlands Newmark, LLC, an existing member of NMR. On November 19, 2013, the Company invested an additional \$464,000 in NMR through a purchase of an additional membership interest in Meadowlands Newmark, LLC resulting in a total ownership of 11.6% of Meadowlands Newmark, LLC. In June 2015, the Company invested an additional \$111,000 as a result of a capital call bringing its total investment to \$4,775,000.

In addition to the Company's ownership interest in NMR through Meadowlands Newmark, LLC, if casino gaming is approved at the Meadowlands and NMR is granted the right to conduct said gaming, neither of which can be assured,

the Company shall be granted the exclusive right to operate the food and beverage concessions in the gaming facility with the exception of one restaurant. This investment has been accounted for based on the cost method and is included in Other Assets in the accompanying Consolidated Condensed Balance Sheets at June 27, 2015 and September 27, 2014. The Company periodically reviews its investments for impairment. If the Company determines that an other-than-temporary impairment has occurred, it will write-down the investment to its fair value. No indication of impairment was noted as of June 27, 2015.

In conjunction with this investment, the Company, through a 97% owned subsidiary, Ark Meadowlands LLC (“AM VIE”), also entered into a long-term agreement with NMR for the exclusive right to operate food and beverage concessions serving the new raceway facilities (the “Racing F&B Concessions”) located in the new raceway grandstand constructed at the Meadowlands Racetrack in northern New Jersey. Under the agreement, NMR is responsible to pay for the costs and expenses incurred in the operation of the Racing F&B Concessions, and all revenues and profits thereof inure to the benefit of NMR. AM VIE receives an annual fee equal to 5% of the net profits received by NMR from the Racing F&B Concessions during each calendar year. At June 27, 2015, it was determined that AM VIE is a variable interest entity. However, based on qualitative consideration of the contracts with AM VIE, the operating structure of AM VIE, the Company’s role with AM VIE, and that the Company is not obligated to absorb any expected losses of AM VIE, the Company has concluded that it is not the primary beneficiary and not required to consolidate the operations of AM VIE.

The Company’s maximum exposure to loss as a result of its involvement with AM VIE is limited to a receivable from AM VIE’s primary beneficiary (NMR, a related party) which aggregated approximately \$267,000 and \$266,000 at June 27, 2015 and September 27, 2014, respectively, and are included in Prepaid Expenses and Other Current Assets in the Consolidated Condensed Balance Sheets.

On April 25, 2014, the Company loaned \$1,500,000 to Meadowlands Newmark, LLC. The note bears interest at 3%, compounded monthly and added to the principal, and is due in its entirety on January 31, 2024. The note may be prepaid, in whole or in part, at any time without penalty or premium. The principal and accrued interest related to this note in the amounts of \$1,555,303 and \$1,522,954 are included in Other Assets in the Consolidated Condensed Balance Sheets at June 27, 2015 and September 27, 2014, respectively.

7. NOTES PAYABLE

Upon the closing of the purchase, the Company paid the seller \$1,000,000 in cash and issued an unsecured promissory note to the seller for \$2,125,000. The note, which was repaid in full in November 2014, bore interest at 0.19% per annum, and was payable in 24 equal monthly installments of \$88,541, commencing on December 1, 2012.

Bank – On February 25, 2013, the Company issued a promissory note, secured by all assets of the Company, to a bank for \$3,000,000. The note bore interest at LIBOR plus 3.5% per annum, and was payable in 36 equal monthly installments of \$83,333, commencing on March 25, 2013. On February 24, 2014, in connection with the acquisition of The Rustic Inn, the Company borrowed an additional \$6,000,000 from this bank under the same terms and conditions as the original loan which was consolidated with the remaining principal balance from the original borrowing at that date. The new loan is payable in 60 equal monthly installments of \$134,722, which commenced on March 25, 2014. As of June 27, 2015, the outstanding balance of this note payable was approximately \$5,928,000.

The loan agreement provides, among other things, that the Company meet minimum quarterly tangible net worth amounts, as defined, and minimum annual net income amounts, and contains customary representations, warranties and affirmative covenants. The agreement also contains customary negative covenants, subject to negotiated exceptions, on liens, relating to other indebtedness, capital expenditures, liens, affiliate transactions, disposal of assets and certain changes in ownership. The Company was in compliance with all debt covenants as of June 27, 2015.

9. COMMITMENTS AND CONTINGENCIES

Leases — The Company leases its restaurants, bar facilities, and administrative headquarters through its subsidiaries under terms expiring at various dates through 2032. Most of the leases provide for the payment of base rents plus real estate taxes, insurance and other expenses and, in certain instances, for the payment of a percentage of the restaurants sales in excess of stipulated amounts at such facility and in one instance based on profits.

Legal Proceedings — In the ordinary course of its business, the Company is a party to various lawsuits arising from accidents at its restaurants and worker’s compensation claims, which are generally handled by the Company’s insurance carriers. The employment by the Company of management personnel, waiters, waitresses and kitchen staff at a number of different restaurants has resulted in the institution, from time to time, of litigation alleging violation by the Company of employment discrimination laws. Management believes, based in part on the advice of counsel, that the ultimate resolution of these matters will not have a material adverse effect on the Company’s consolidated financial position, results of operations or cash flows.

10. STOCK OPTIONS

The Company has options outstanding under two stock option plans, the 2004 Stock Option Plan (the “2004 Plan”) and the 2010 Stock Option Plan (the “2010 Plan”), which was approved by shareholders in the second quarter of 2010. Effective with this approval, the Company terminated the 2004 Plan. This action terminated the 400 authorized but unissued options under the 2004 Plan, but it did not affect any of the options previously issued under the 2004 Plan. Options granted under the 2004 Plan are exercisable at prices at least equal to the fair market value of such stock on the dates the options were granted. The options expire ten years after the date of grant.

- 11 -

The 2010 Stock Option Plan is the Company's only equity compensation plan currently in effect. Under the 2010 Stock Option Plan, 500,000 options were authorized for future grant. Options granted under the 2010 Plan are exercisable at prices at least equal to the fair market value of such stock on the dates the options were granted. The options expire ten years after the date of grant.

During the 39-week period ended June 27, 2015, options to purchase 136,500 shares of common stock at an exercise price of \$29.60 per share expired unexercised.

A summary of stock option activity is presented below:

11. INCOME TAXES

The Company's provision for income taxes consists of Federal, state and local taxes in amounts necessary to align the Company's year-to-date provision for income taxes with the effective tax rate that the Company expects to achieve for the full year. The income tax provision on income from continuing operations for the 39-week periods ended June 27, 2015 and June 28, 2014 reflect effective tax rates of approximately 23% and 28%, respectively. The provision for income taxes for the 13 and 39-weeks ended June 27, 2015 includes a discrete benefit of approximately \$130,000

relating primarily to the impact of various state tax law changes. The Company expects its effective tax rate for its current fiscal year to be significantly lower than the statutory rate as a result of the of tax credits and operating income attributable to the non-controlling interests of the VIEs that is not taxable to the Company. The final annual tax rate cannot be determined until the end of the fiscal year; therefore, the actual tax rate could differ from current estimates.

The Company's overall effective tax rate in the future will be affected by factors such as the utilization of state and local net operating loss carryforwards, the utilization of FICA tax credits and the mix of earnings by state taxing jurisdiction as Nevada does not impose a state income tax, as compared to the other major state and local jurisdictions in which the Company has operations.

12. INCOME PER SHARE OF COMMON STOCK

Net income per share is calculated on the basis of the weighted average number of common shares outstanding during each period plus, for diluted net income per share, the additional dilutive effect of potential common stock. Potential common stock using the treasury stock method consists of dilutive stock options.

For the 13 and 39-week periods ended June 27, 2015, options to purchase 74,000 shares of common stock at an exercise price of \$12.04 per share, options to purchase 169,800 shares of common stock at an exercise price of \$14.40 per share and options to purchase 205,500 shares of common stock at an exercise price of \$22.50 per share were included in diluted earnings per share. Options to purchase 90,000 shares of common stock at an exercise price of \$32.15 were not included in diluted earnings per share as their impact was anti-dilutive.

For the 13 and 39-week periods ended June 28, 2014, options to purchase 97,761 shares of common stock at an exercise price of \$12.04 per share and options to purchase 188,476 shares of common stock at an exercise price of \$14.40 per share were included in diluted earnings per share. Options to purchase 136,500 shares of common stock at an exercise price of \$29.60 per share, options to purchase 90,000 shares of common stock at an exercise price of \$32.15 per share and options to purchase 205,500 shares of common stock at an exercise price of \$22.50 per share were not included in diluted earnings per share as their impact was anti-dilutive.

13.DIVIDENDS

On June 9, 2015, the Board of Directors declared a quarterly dividend of \$0.25 per share on the Company's common stock to be paid on July 3, 2015 to shareholders of record at the close of business on June 19, 2015. The Company intends to continue to pay such quarterly cash dividends for the foreseeable future, however, the payment of future dividends is at the discretion of the Company's Board of Directors and is based on future earnings, cash flow, financial condition, capital requirements, changes in U.S. taxation and other relevant factors.

14.SUBSEQUENT EVENTS

On August 6, 2015, the Company, through a wholly-owned subsidiary, paid \$543,550 (including a \$143,550 security deposit) to assume the lease for an event space located in New York, NY. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

As of June 27, 2015, the Company owned and operated 21 restaurants and bars, 19 fast food concepts and catering operations, exclusively in the United States, that have similar economic characteristics, nature of products and service, class of customer and distribution methods. The Company believes it meets the criteria for aggregating its operating segments into a single reporting segment in accordance with applicable accounting guidance. The Consolidated Condensed Statements of Income for the 39-weeks ended June 27, 2015 include revenues and earnings of approximately \$11,919,000 and \$2,656,000, respectively, related to *The Rustic Inn* in Dania, FL.

Accounting Period

Our fiscal year ends on the Saturday nearest September 30. We report fiscal years under a 52/53-week format. This reporting method is used by many companies in the hospitality industry and is meant to improve year-to-year comparisons of operating results. Under this method, certain years will contain 53 weeks. The periods ended June 27, 2015 and June 28, 2014 included 13 weeks, respectively.

Seasonality

The Company has substantial fixed costs that do not decline proportionately with sales. The first and second fiscal quarters, which include the winter months, usually reflect lower customer traffic than in the third and fourth fiscal quarters. In addition, sales in the third and fourth fiscal quarters can be adversely affected by inclement weather due to the significant amount of outdoor seating at the Company's restaurants.

Results of Operations

The Company's operating income for the 13 weeks ended June 27, 2015 was \$4,701,000 as compared to \$3,374,000 for the 13 weeks ended June 28, 2014. This increase resulted primarily from an improvement in operating income of \$432,000 at *The Rustic Inn* in Dania Beach, FL, combined with strong performance across our other properties as a result of good weather conditions and strong catering revenues partially offset by operating losses in the amount of approximately \$175,000 at our new restaurant, *The Rustic Inn* in Jupiter, FL.

Revenues

This increase resulted primarily from: (i) revenues related to *The Rustic Inn* in Dania Beach, FL (which was acquired on February 24, 2014), (ii) revenues relate to *The Rustic Inn* in Jupiter Florida ("*RI Jupiter*", which opened on January 28, 2015), and (ii) strong catering revenues in New York, partially offset by increased competition and a decrease in the usage of complimentary by the ownership of the casinos at our Florida properties combined with the closure of four properties in Las Vegas during the 39-weeks ended June 28, 2014 as a result of lease expirations (*The Sporting House*, *Rialto Deli*, *Shake & Burger* and *Towers Deli*).

Food and Beverage Same-Store Sales

On a Company-wide basis, same-store sales increased 2.2% during the third fiscal quarter of 2015 as compared to the same period last year as follows:

Food and beverage sales	\$ 40,016	\$ 38,746		

Same-store sales in Las Vegas (which exclude *The Sporting House*, *Rialto Deli*, *Shake & Burger* and *Towers Deli* properties as they were closed prior to June 27, 2015) decreased 0.8% as compared to prior quarters. Same-store sales in New York increased 6.7%, primarily as a result of good weather conditions and strong catering revenues. Same-store sales in Washington, DC increased 1.3% as a result of good weather conditions. Same-store sales in Atlantic City increased 9.2%, primarily due to increased traffic at properties in which we operate our restaurants. Same-store sales in Boston and Connecticut were relatively flat. Same-store sales in Florida increased 0.5% reflecting an increase of \$485,000 at *The Rustic Inn* in Dania, FL offset by a decrease in the usage of complimentary by the ownership of the casinos where our food court properties are located and increased competition at one of our food court properties. Other food and beverage sales consist of sales related to new restaurants opened during the applicable period (*RI Jupiter*) and sales related to properties that were closed due to lease expiration and other closures.

Costs and Expenses

Costs and expenses from continuing operations for the 13 and 39-weeks ended June 27, 2015 and June 28, 2014 were as follows (in thousands):

	13 Weeks Ended June 27, 2015	% to Total Revenue	13 Weeks Ended June 28, 2014	% to Total Revenue	Increase (Decrease)		39 Weeks Ended June 27, 2015	% to Total Revenue	39 Weeks Ended June 28, 2014	% to Total Revenue	Increase (Decrease)

	\$ 35,674		\$ 35,736		\$ (62)		\$ 99,997		\$ 97,561		\$ 2,436	2.5 %

The decrease in food and beverage costs as a percentage of total revenues for the 13-weeks ended June 27, 2015 compared to the same period of last year is primarily the result of price increases. The increase in food and beverage costs as a percentage of total revenues for the 39-weeks ended June 27, 2015 compared to the same period of last year is the result of higher food costs as a

percentage of sales related to *The Rustic Inn* and *RI Jupiter*, seafood restaurants which, consistent with the industry, operate at higher food cost structures partially offset by the factors discussed above. Excluding the impact of the increased costs associated with *The Rustic Inn* and *RI Jupiter*, food and beverage costs as a percentage of total revenues in 2015 were consistent with the same periods of last year.

Payroll expenses as a percentage of total revenues for the 13-weeks ended June 27, 2015 decreased primarily as a result of payroll incurred at closed properties in the same period of the prior year. Payroll expenses as a percentage of total revenues for the 39-weeks ended June 27, 2015 were consistent with the same period of the prior year as a result of decrease associated with closed properties offset by payroll at our new restaurant *RI Jupiter*, which opened in January 2015.

Occupancy expenses as a percentage of total revenues for the 13 and 39-weeks ended June 27, 2015 decreased as compared to the same periods of last year as a result of higher sales at properties where rents are relatively fixed or where the Company owns the premises at which the property operates (*The Rustic Inn* in Dania, FL). Excluding the impact of *The Rustic Inn*, occupancy expenses as a percentage of total revenues were consistent with the same periods of last year.

Other operating costs and expenses as a percentage of total revenues for the 13 and 39-weeks ended June 27, 2015 decreased as compared to the same period of fiscal 2014 as a result of fixed costs at properties where sales improved.

General and administrative expenses (which relate solely to the corporate office in New York City) as a percentage of total revenues for the 13 and 39-weeks ended June 27, 2015 were consistent, as expected, as compared to the same period of last year.

Income Taxes

The Company's provision for income taxes consists of Federal, state and local taxes in amounts necessary to align the Company's year-to-date provision for income taxes with the effective tax rate that the Company expects to achieve for the full year. The income tax provision on income from continuing operations for the 39-week periods ended June 27, 2015 and June 28, 2014 reflect effective tax rates of approximately 23% and 28%, respectively. The provision for income taxes for the 13 and 39-weeks ended June 27, 2015 includes a discrete benefit of approximately \$130,000 relating primarily to the impact of various state tax law changes. The Company expects its effective tax rate for its current fiscal year to be significantly lower than the statutory rate as a result of the of tax credits and operating income attributable to the non-controlling interests of the VIEs that is not taxable to the Company. The final annual tax rate cannot be determined until the end of the fiscal year; therefore, the actual tax rate could differ from current estimates.

The Company's overall effective tax rate in the future will be affected by factors such as the utilization of state and local net operating loss carryforwards, the utilization of FICA tax credits and the mix of earnings by state taxing jurisdiction as Nevada does not impose a state income tax, as compared to the other major state and local jurisdictions in which the Company has operations.

Liquidity and Capital Resources

Our primary source of capital has been cash provided by operations. We utilize cash generated from operations to fund the cost of developing and opening new restaurants, acquiring existing restaurants owned by others and remodeling existing restaurants we own; however, in recent years, we have utilized bank and other borrowings to finance specific transactions.

Net cash flow provided by operating activities for the 39-weeks ended June 27, 2015 was \$6,533,000, compared to \$7,804,000 for the same period of last year. This decrease was primarily attributable to changes in net working capital partially offset by an increase in operating income as discussed above.

Net cash used in investing activities for the 39-week period ended June 27, 2015 was \$2,456,000 and resulted primarily from purchases of fixed assets at existing restaurants and improvements made at our new property, *The Rustic Inn* in Jupiter, FL, which was opened in the last week of January 2015.

Net cash used in investing activities for the 39-week period ended June 28, 2014 was \$5,874,000 and resulted primarily from purchases of fixed assets at existing restaurants, an additional \$464,000 investment in New Meadowlands Racetrack LLC, a \$1,500,000 loan made to Meadowlands Newmark LLC and the cash portion of the purchase of *The Rustic Inn* in the amount of \$1,710,000.

Net cash used in financing activities for the 39-week periods ended June 27, 2015 and June 28, 2014 of \$5,153,000 and \$3,940,000, respectively, resulted from the payment of dividends, principal payments on notes payable and distributions to non-controlling interests, partially offset by proceeds from the exercise of stock options.

The Company had a working capital deficiency of \$304,000 at June 27, 2015, as compared to a working capital deficiency of \$1,303,000 at September 27, 2014. We believe that our existing cash balances and cash provided by operations will be sufficient to meet our liquidity and capital spending requirements at least through the next 12 months.

On June 9, 2015, the Board of Directors declared a quarterly dividend of \$0.25 per share on the Company's common stock to be paid on July 3, 2015 to shareholders of record at the close of business on June 19, 2015. The Company intends to continue to pay such quarterly cash dividends for the foreseeable future, however, the payment of future dividends is at the discretion of the Company's Board of Directors and is based on future earnings, cash flow, financial condition, capital requirements, changes in U.S. taxation and other relevant factors.

Recent Restaurant Expansion

In June 2015, the Company exercised its option to extend the lease through December 31, 2023. The Company has additional options to extend the lease through 2033. Renovations to the property totaled approximately \$750,000. The restaurant opened in the last week of January 2015 and, as a result, the Consolidated Condensed Statements of Income for the 13 and 39-weeks ended June 27, 2015 include approximately \$175,000 and \$841,000 of pre-opening and early operating losses, respectively.

Critical Accounting Policies

The preparation of financial statements requires the application of certain accounting policies, which may require the Company to make estimates and assumptions of future events. In the process of preparing its consolidated condensed financial statements, the Company estimates the appropriate carrying value of certain assets and liabilities, which are not readily apparent from other sources. The primary estimates underlying the Company's consolidated condensed financial statements include allowances for potential bad debts on accounts and notes receivable, leases, the useful lives and recoverability of its assets, such as property and intangibles, fair values of financial instruments, the realizable value of its tax assets and other matters. Management bases its estimates on certain assumptions, which they believe are reasonable in the circumstances, and actual results could differ from those estimates. Although management does not believe that any change in those assumptions in the near term would have a material effect on the Company's consolidated financial position or the results of operations, differences in actual results could be material to the consolidated condensed financial statements.

During the quarter ended March 28, 2015, the Company identified an immaterial error in previously issued financial statements related to an overstatement of its gift card liability in the amount of \$224,000 (\$161,000 net of tax or \$0.05 per basic and diluted share for the 13-weeks ended March 28, 2015). The Company reviewed this accounting error utilizing SEC Staff Accounting Bulletin No. 99, "Materiality" ("SAB 99") and SEC Staff Accounting Bulletin No. 108, "Effects of Prior Year Misstatements on Current Year Financial Statements" ("SAB 108") and determined the impact of the error to be immaterial to any prior period's presentation. The accompanying consolidated financial statements as of June 27, 2015 reflect the correction of the aforementioned immaterial error.

The Company's critical accounting policies are described in the Company's Form 10-K for the year ended September 27, 2014. There have been no significant changes to such policies during fiscal 2015 other than those disclosed in Note 1 to the Consolidated Condensed Financial Statements.

Recently Adopted and Issued Accounting Standards

See Note 1 to the Consolidated Condensed Financial Statements for a description of recent accounting pronouncements, including those adopted in fiscal 2015 and the expected dates of adoption and the anticipated impact on the Consolidated Condensed Financial Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company purchases commodities such as chicken, beef, lobster, crabs and shrimp for the Company's restaurants. The prices of these commodities may be volatile depending upon market conditions. The Company does not purchase forward commodity contracts because the changes in prices for these items have historically been short-term in nature and, in the Company's view, the cost of the contracts is in excess of the benefits.

The Company's business is also highly seasonal and dependent on the weather. Outdoor seating capacity, such as terraces and sidewalk cafes, are available for dining only in the warm seasons and then only in clement weather.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of management, including our principal executive officer and principal financial officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this quarterly report as such term is defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, our management, including our principal executive officer and principal financial officer, concluded that our disclosure controls and procedures were effective as of June 27, 2015 to ensure that all material information required to be disclosed by us in reports that we file or submit under the Exchange Act is accumulated and communicated to them as appropriate to allow timely decisions regarding required disclosure and that all such information is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during the third quarter of fiscal 2015 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Limitations of the Effectiveness of Internal Control

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the internal control system are met. Because of the inherent limitations of any internal control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.
