MICROTUNE, INC.

We are a radio frequency silicon and systems company, providing high-performance radio frequency tuners, upstream amplifiers and transceivers to the broadband communications markets. Using proprietary technologies and advanced design methodologies, we have designed and developed radio frequency integrated circuits and radio frequency systems, called modules, for a variety of broadband communications access devices, including cable modems, PC/TVs (which are multimedia personal computers with broadband reception capabilities), set-top boxes, digital TVs and other consumer electronic devices. Our radio frequency products are the gateway devices for reception of video, audio, data and/or voice over existing broadband communications infrastructures, such as cable and terrestrial. Our tuners receive and tune radio frequency signals, transferring a selected signal (or channel) to the rest of the system's electronics for further operation. Our upstream amplifiers transmit radio frequency data from the user through the broadband system, amplifying the signal to levels required by the network. Our transceivers, consisting of both tuners and upstream amplifiers, enable interactivity by permitting two-way, or bi-directional, communications. Our latest radio frequency integrated circuit products offer a high level of integration, resulting in significant cost, performance, size, reliability and manufacturability benefits. Our radio frequency module products provide a complete, manufacturing-ready radio frequency system, eliminating a customer's need for radio frequency design and manufacturing expertise.

We are a Delaware corporation with our principal executive offices located

SELLING STOCKHOLDERS

On November 28, 2001, we acquired Transilica Inc. pursuant to the terms of an Agreement and Plan of Merger and Reorganization. In this merger, the selling stockholders received shares of our common stock and cash in exchange for their outstanding shares of Transilica common and preferred stock. In connection with this merger, we agreed to register the resale by the selling stockholders of the shares issued to the selling stockholders in this merger.

The following table sets forth the number of shares beneficially owned by each of the selling stockholders. None of the selling stockholders has had a material relationship with us within the past three years other than as a result of the ownership of our common stock or other securities of ours or as a result of their employment with us as of the date of the closing of the acquisition of Transilica. No estimate can be given as to the amount of our common stock that will be beneficially owned by the selling stockholders after completion of this offering because the selling stockholders may offer all, some or none of the shares of our common stock beneficially owned by them. The shares offered by this prospectus may be offered from time to time by the selling stockholders named below.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission. Except as set forth below, the persons named in this table have sole voting and investment power with respect to all shares of common stock shown as beneficially owned by them. The number of outstanding shares of our common stock as of December 28, 2001 was 52,735,640 (including 5,000,000 shares of our common stock sold in our public offering which closed on December 19, 2001).

USE OF PROCEEDS

We will not receive any proceeds from the sale of the shares by the selling stockholders.

PLAN OF DISTRIBUTION

We are registering 7,206,125 shares of our common stock on behalf of the selling stockholders. As used herein, "selling stockholders" includes the selling stockholders (including the former President and Chief Executive Officer of Transilica who is, as of the date of this prospectus, our Executive Vice President and General Manager, Wireless Connectivity Division) named in the table above and pledgees, donees, transferees or other successors-in-interest selling shares received from a named selling stockholder as a gift, partnership distribution or other non-sale-related transfer after the date of this prospectus. The selling stockholders may sell the shares from time to time and may also decide not to sell all the shares they are allowed to sell under this prospectus. The selling stockholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. The sales may be made on one or more exchanges or in the over-the-counter market or otherwise, at prices and at terms then prevailing or at prices related to the then current market prices, or in negotiated transactions. The selling stockholders may effect such transactions by selling the shares to or through broker-dealers. The shares may be sold by one or more of, or a combination of, the following:

- . a block trade in which the broker-dealer so engaged will attempt to sell shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- . purchases by a broker-dealer as principal and resale by such broker-dealer for its account pursuant to this prospectus;
- . an exchange distribution in accordance with the rules of such exchange;
- . ordinary brokerage transactions and transactions in which the broker solicits purchasers; and
- . privately negotiated transactions.

To the extent required, this prospectus may be amended or supplemented from time to time to describe a specific plan of distribution. In effecting sales, broker-dealers engaged by the selling stockholders may arrange for other broker-dealers to participate in the resales.

The selling stockholders may enter into hedging transactions with broker-dealers in connection with distributions of shares or otherwise. In such transactions, broker-dealers may engage in short sales of shares in the course of hedging the positions they assume with selling stockholders. The selling stockholders also may sell shares short and redeliver shares to close out such short positions. The selling stockholders may enter into option or other transactions with broker-dealers which require the delivery of shares to the broker-dealer. The broker-dealer may then resell or otherwise transfer such shares pursuant to this prospectus. The selling stockholders also may loan or pledge shares to a broker-dealer. The broker-dealer may sell the shares so loaned, or upon a default the broker-dealer may sell the shares so pledged, pursuant to this prospectus.

Broker-dealers or agents may receive compensation in the form of commissions, discounts or concessions from selling stockholders. Broker-dealers or agents may also receive compensation from the purchasers of shares for whom they act as agents or to whom they sell as principals, or both. Compensation as

Edgar Filing: MICROTUNE INC - Form 424B3

to a particular broker-dealer might be in excess of customary commissions and will be in amounts to be negotiated in connection with transactions involving shares. Broker-dealers or agents and any other participating broker-dealers or the selling stockholders may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act of 1933 in connection with sales of shares. Accordingly, any such commission, discount or concession received by them and any profit on the resale of shares purchased by them may be deemed to be underwriting discounts or commissions under the Securities Act of 1933. Because selling stockholders may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act of 1933, the selling stockholders will be subject to the prospectus delivery requirements of the Securities Act of 1933. In addition, any shares of a selling stockholder covered by this prospectus which qualify for sale pursuant to Rule 144 promulgated under the Securities Act of 1933 may be sold under Rule 144 rather than pursuant to this prospectus. The selling stockholders have advised us that they have not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of their shares.

The shares may be sold by selling stockholders only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states the shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and such sale complies with such exemption.

6

Under applicable rules and regulations under the Securities Exchange Act of 1934, any person engaged in the distribution of shares may not simultaneously engage in market making activities with respect to our common stock for a period of two business days prior to the commencement of such distribution. In addition, each selling stockholder will be subject to applicable provisions of the Securities Exchange Act of 1934 and the associated rules and regulations under the Securities Exchange Act of 1934, including Regulation M, which provisions may limit the timing of purchases and sales of shares of our common stock by the selling stockholders. We will make copies of this prospectus available to the selling stockholders, and we have informed them of the need for delivery of copies of this prospectus to purchasers at or prior to the time of any sale of the shares.

We will file a supplement to this prospectus, if required, pursuant to Rule 424(b) under the Securities Act of 1933 upon being notified by a selling stockholder that any material arrangement has been entered into with a broker-dealer for the sale of shares through a block trade, special offering, exchange distribution or secondary distribution or a purchase by a broker or dealer. Such supplement will disclose:

- . the name of each such selling stockholder and of the participating broker-dealer(s);
- . the number of shares involved;
- . the price at which such shares were sold;
- . the commissions paid or discounts or concessions allowed to such broker-dealer(s), where applicable;
- . that such broker-dealer(s) did not conduct any investigation to verify the information set out or incorporated by reference in this prospectus; and

Edgar Filing: MICROTUNE INC - Form 424B3

. other facts material to the transaction.

We will bear all costs, expenses and fees in connection with the registration of the shares. The selling stockholders will bear all commissions and discounts, if any, attributable to the sales of the shares. The selling stockholders may agree to indemnify any broker-dealer or agent that participates in transactions involving sales of the shares against certain liabilities, including liabilities arising under the Securities Act of 1933.
