CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933. Forward-looking statements include statements regarding the goals, beliefs, plans or current expectations of First Trust Advisors L.P. ("First Trust" or the "Advisor") and/or Aberdeen Asset Management Inc. ("Aberdeen" or the "Sub-Advisor") and their respective representatives, taking into account the information currently available to them. Forward-looking statements include all statements that do not relate solely to current or historical fact. For example, forward-looking statements include the use of words such as "anticipate," "estimate," "intend," "expect," "believe," "plan," "may," "should," "would" or other words that convey uncertainty of future events or outcomes.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of First Trust/Aberdeen Emerging Opportunity Fund (the "Fund") to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. When evaluating the information included in this report, you are cautioned not to place undue reliance on these forward-looking statements, which reflect the judgment of the Advisor and Sub-Advisor and their respective representatives only as of the date hereof. We undertake no obligation to publicly revise or update these forward-looking statements to reflect events and circumstances that arise after the date hereof.

PERFORMANCE AND RISK DISCLOSURE

There is no assurance that the Fund will achieve its investment objective. The Fund is subject to market risk, which is the possibility that the market values of securities owned by the Fund will decline and that the value of the Fund shares may therefore be less than what you paid for them. Accordingly, you can lose money investing in the Fund.

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. For the most recent month-end performance figures, please visit

HOW TO READ THIS REPORT

This report contains information that may help you evaluate your investment. It includes details about the Fund and presents data and analysis that provide insight into the Fund's performance and investment approach.

By reading the letter from the Fund's President, James A. Bowen, together with the portfolio commentary by the portfolio management team of the Fund, you may obtain an understanding of how the market environment affected the Fund's performance. The statistical information that follows may help you understand the Fund's performance compared to that of relevant market benchmarks.

It is important to keep in mind that the opinions expressed by Mr. Bowen and personnel of Aberdeen are just that: informed opinions. They should not be considered to be promises or advice. The opinions, like the statistics, cover the period through the date on the cover of this report. Of course, the risks of investing in the Fund are spelled out in the prospectus.

PORTFOLIO COMMENTARY

SUB-ADVISOR

Aberdeen Asset Management Inc. ("Aberdeen" or the "Sub-Advisor"), a Securities and Exchange Commission registered investment advisor, is a wholly-owned subsidiary of Aberdeen Asset Management PLC. Aberdeen Asset Management PLC is a publicly traded international investment management group listed on the London Stock Exchange, managing assets for both institutional and retail clients from offices around the world. As of June 30, 2007, Aberdeen Asset Management PLC had total assets under management and supervision of approximately \$179 billion.

PORTFOLIO MANAGEMENT TEAM

Investment decisions for First Trust/Aberdeen Emerging Opportunity Fund (the "Fund") are made by Aberdeen using a team approach and not by any one individual. By making team decisions, Aberdeen seeks to ensure that the investment process results in consistent returns across all portfolios with similar objectives. Aberdeen does not employ separate research analysts. Instead, Aberdeen's investment managers combine the roles of analysis with portfolio management. Each member of the team has sector and portfolio responsibilities such as day-to-day monitoring of liquidity. The overall result of this matrix approach is a high degree of cross-coverage, leading to a deeper understanding of the securities in which Aberdeen invests. Included below is additional information about the members of the team with significant responsibility for the day-to-day management of the Fund's portfolio.

He is a member of the emerging market debt investment committee at Aberdeen and is also responsible for the daily implementation of the investment process.

THE FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND

The investment objective of First Trust/Aberdeen Emerging Opportunity Fund ("FEO") is to provide a high level of total return. In pursuit of this objective, the Fund invests in a diversified portfolio of equity and fixed-income securities of issuers in emerging market countries.

FUND RECAP

The Fund performed strongly on a net asset value basis with a total return of 8.5% for the six months ended June 30, 2007. This compares to 8.9% for the Fund's blended benchmark* total return over the same period. In addition to this blended benchmark the Fund is currently using for comparative purposes, the Fund also uses other comparative indexes. The total returns over the six months ended June 30, 2007 for these indexes were as follows: the Lehman Global Emerging

Edgar Filing: FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND - Form N-CSRS

Markets Index was 1.0%; and the FTSE All World Emerging Index was 16.5%. The Fund's total return based on market price for the six months ended June 30, 2007 was 3.5%.

* The Funds' Blended Benchmark consisted of the following: 32.5% JP Morgan Emerging Markets Bond Index Global Diversified; 32.5% JP Morgan Government Bond Index-Emerging Markets; and 35% MSCI (Morgan Stanley Capital International) Global Emerging Markets Index.

PORTFOLIO COMMENTARY - (CONTINUED)

FIXED-INCOME

The emerging market debt component of the Fund saw an overall return of 5.0% compared to its benchmark** of 4.2% for the six months ended June 30, 2007. The vast majority of the performance was from the local currency holdings of the portfolio which returned 13.6% compared to the JPM GBI-EM index which returned 7.6%, while the external bonds (bonds denominated in "hard" currencies such as the U.S. Dollar, Euro, etc.) in the portfolio returned less than 1.00%. The local currency bonds which had the highest return were Brazil (25.9%) and Turkey (25.9%). The local Argentinean return was the worst-performing country in the local currency markets of the Fund, returning only 1.1%. External bonds showed less impressive returns with the highest external returns coming from the Dominican Republic and Colombia with 12.1% and 8.4%, respectively.

EQUITY

Over the first six months of 2007, the equity component of the Fund underperformed its benchmark, the MSCI (Morgan Stanley Capital International) Emerging Markets Index, by 144 basis points ("bps"). Asset allocation and currency added to performance while the main detractor to performance was stock selection. By region, Europe, the Middle East and Africa (EMEA) added to performance while Latin America and Asia detracted from performance compared to the Fund's benchmark.

MARKET ANALYSIS BY REGION

MIDDLE EAST AND AFRICA. Stock selection was strong in EMEA, primarily due to strong performance in Turkey where retailer Migros Turk TAS was positively impacted by takeover rumors, and the Fund's holding in insurance company Aksigorta AS increased as it benefited from expectations of consolidation in the sector. The Fund benefited from its holdings in South African retailers, Massmart Holdings Ltd. and Edcon, due to continued strong retail spending and takeover by a private equity group, respectively.

HUNGARY. Stock selection was poor in Hungary where generic pharmaceutical company Richter Gedeon was weighed down by the introduction of punitive government legislation.

LATIN AMERICA. Stock selection was weak in Latin America due primarily to poor performance at Kimberly Clark de Mexico. Additionally, Fund holdings in beverage companies Fomento Economico Mexicano SA and Grupo Continental SA suffered from unseasonably poor weather in January, which led to lower volume growth.

Edgar Filing: FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND - Form N-CSRS

ASIA/PACIFIC. In Asia, South Korea lagged as the strong currency hurt portfolio holdings in exporters Samsung Electronics Company Ltd. and Hyundai Motor. In the Philippines, the Bank of the Philippine Islands lagged the rise in the market. In Thailand, Fund holdings in Siam Cement Public Company, Ltd. and PTT Exploration and Production Public Company, Ltd. were held back due to a lackluster earnings growth outlook. In Indonesia, where the mining and property sectors performed well, the Fund's holding in the relatively more defensive PT Unilever Indonesia Tbk hurt relative performance.

ALLOCATION ANALYSIS

Asset allocation was strong in EMEA as the portfolio was underweighted in commodity heavyweights Russia and South Africa, adding to the Fund's performance. In Latin America, the Fund benefited from the Fund's position in Brazil, where economic growth is expected to be strong on the back of ongoing interest rate cuts. Asset allocation to Mexico was positive where the outlook is favorable now that elections have passed and the new government appears to be making positive progress on reforms. The Fund's portfolio was underweight to South Korea, one of the best-performing markets, during the period. The strong performance of the Korean market was led by cyclical companies in which the Fund has no exposure. The Fund was also underweighted in China where we remain cautious given relatively high valuations.

During the six months ended June 30, 2007, we initiated positions in Brazilian fashion retailer Lojas Renner SA, Czech Bank Komerční Banka AS and well-managed Mexican bottler Grupo Continental SA, which has a strong yield. We also initiated positions in South African fashion retailer Truworths International Ltd., Turkish hard-discount retailer Bim Birlesik Magazalar AS and Indonesian conglomerate PT Astra International Tbk, which offers the Fund exposure to consumption growth. Against this, we pared our positions in Turkish retailer Migros Turk TAS, Brazilian tobacco company Souza Cruz SA, iron and nickel giant Companhia Vale do Rio Doce, Chinese toll-road operator Zhejiang Expressway Company, Ltd. and PT Unilever Indonesia Tbk on valuation grounds. The Fund sold its position in Hyundai Motor completely.

Compared to the weightings of its benchmark, the equity portion of the portfolio is underweighted in EMEA (South Africa and Russia), slightly underweighted in Asia and overweighted in Latin America (Brazil and Mexico).

** The benchmark consists of the following: 50% JPMorgan Emerging Markets Bond Index Global Diversified and 50% JPMorgan Government Bond Index-Emerging Markets (JPM GBI-EM).

PERFORMANCE ANALYSIS

FIXED-INCOME

Spreads in external emerging market debt ranged from a high of 204 bps to a low of 162 bps over U.S. Treasuries over the period covered by this report. Countries which underperformed the index were Argentina and Venezuela due to several factors. In Argentina, rising inflation and a worsening energy crisis led to power shortages. Emerging market debt investors were overweighted in

Edgar Filing: FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND - Form N-CSRS

Argentinean debt, leading to excessive selling of the credit during the recent market correction. Over the period, the Fund sold its external Argentina holdings in favor of the short dated local currency bonds. Venezuela also underperformed the index due to investor concerns over Hugo Chavez, the Venezuelan President, who has recently stated that he is going to take Venezuela out of the International Monetary Fund ("IMF"), causing a technical default on the bonds.

Colombian external bonds outperformed over the period due to the country's high growth and decreased supply of the external bonds with the finance minister issuing local bonds and buying back the country's external debt. The central bank of Brazil has cut the Selic, the central bank rate, from 13.25% to 12.00%, with expectations for further rate cuts this year and into next year due to stable and low inflation in Brazil.

Turkey is also experiencing strong demand for its local debt which has been very strong, due to very high nominal and real yields. There was a parliamentary election in Turkey in July which resulted in a victory for the Justice and Development Party, which the Sub-Advisor believes was the preferred outcome from a market perspective.

In Ukraine, political noise has subsided following an agreement between President Yuschenko and Prime Minister Yanukovich to hold early parliamentary elections on September 30, 2007.

EQUITY

Emerging markets rose to new highs amid increasing volatility in the first half of 2007, having rebounded from the sharp sell-off at the end of February. This reflected solid corporate earnings growth, underpinned by robust economic expansion, as well as strong global liquidity. These positive factors outweighed increasing concerns about the health of the U.S. housing market and the fallout from the sub-prime mortgage debacle.

Export demand and rising consumption continued to underpin growth. In particular, the Chinese economy gained momentum. Beijing resorted to a mixture of policies, including rate hikes, a higher reserve ratio for banks and a wider trading band for the Renminbi, to prevent overheating. Elsewhere, rising inflationary pressures prompted central banks in Poland, Mexico, South Africa and Taiwan to intervene directly and raise interest rates.

In politics, uncertainty rose in Turkey, after the president called for a referendum relating to the selection of his successor. Thailand's military-appointed government froze ex-prime minister Thaksin's assets, dissolved his Thai Rak Thai party and banned party members from participating in political activities for five years. Consumer confidence sagged to a five-year low in May, although the stock market rebounded, after having been a regional laggard for some time. Elsewhere, tension between China and the U.S. rose after the latter imposed trade sanctions; Brazil's president Lula da Silva was sworn in for a second term and Mexico passed its first economic reform bill under Felipe Calderon.

SUB-ADVISOR Q&A

WHAT IS YOUR OUTLOOK FOR VARIOUS CURRENCIES/DEBT FOR DIFFERENT REGIONS?

It is the Sub-Advisor's view that Venezuela will not be out of the IMF and, therefore, Venezuelan bonds appear attractive due to the high yields on offer.

The Brazilian Real also appears strong as Brazilian real Gross Domestic Product has continued to increase over the period, leading to increased foreign currency reserves which support the external debt of the country.

Edgar Filing: FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND - Form N-CSRS

Turkey's debt has remained strong with no signs of weakness. The Turkish Lira has also strengthened against the U.S. Dollar as investors have been attracted by the high interest rates on offer.

The Ukraine continues to benefit from a robust growth outlook and very limited indebtedness.

WHAT IS YOUR OVERALL OUTLOOK FOR FEO?

Looking ahead, emerging markets are likely to stay volatile. Risks include the impact of rising real global interest rates, tighter credit spreads and the underlying state of the U.S. housing market. With markets trading at or near record highs, a shift in risk aversion may trigger another sudden flight to quality similar to that in February. Despite the uncertain global investment climate, macro-economic fundamentals remain solid, providing ample investment opportunities for bottom-up stock pickers who take a long term view. Valuations, while well-supported by earnings, are becoming stretched and there is clearly a danger of overpaying for growth. The Fund has kept turnover low, with core stocks largely unchanged.

As for emerging market debt, Aberdeen anticipates that emerging markets will continue to perform well and any weakness is likely to come from an external shock to the global market causing a reduction in global liquidity.

NOTES TO FINANCIAL STATEMENTS

FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND
JUNE 30, 2007 (UNAUDITED)

1. FUND DESCRIPTION

First Trust/Aberdeen Emerging Opportunity Fund (the "Fund") is a diversified, closed-end management investment company organized as a Massachusetts business trust on May 16, 2006 and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FEO on the New York Stock Exchange ("NYSE").

The Fund's investment objective is to seek a high level of total return. The Fund pursues its objective by investing at least 80% of its Managed Assets in a diversified portfolio of equity and fixed-income securities of issuers in emerging market countries. "Managed Assets" means the average daily gross asset value of the Fund (including assets attributable to the Fund's Preferred Shares, if any, and the principal amount of any borrowings) minus the sum of the Fund's accrued and unpaid dividends on any outstanding Preferred Shares and accrued liabilities (other than the principal amount of any borrowings incurred, commercial paper or notes issued by the Fund). There can be no assurance that the Fund's investment objective will be achieved.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

A. PORTFOLIO VALUATION:

The Fund determines the net asset value ("NAV") of its Common Shares daily, as of the close of regular session trading on the NYSE, normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. Domestic debt securities and foreign securities are priced using data reflecting the earlier closing of the principal markets for those securities. The Fund calculates NAV per Common Share by subtracting the Fund's liabilities (including accrued expenses, dividends payable and any borrowings of the Fund) and the liquidation value of any outstanding Preferred Shares, if any, from the Fund's Total Assets (the value of the securities and other investments the Fund holds plus cash or other assets, including interest accrued but not yet received) and dividing the result by the total number of Common Shares outstanding.

The Fund's investments are valued daily at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. A majority of the Fund's

assets are valued using market information supplied by third parties. In addition, structured products, including currency-linked notes, and credit-linked notes, as well as interest rate swaps and credit default swaps, are valued using a pricing service or quotes provided by the selling dealer or financial institution. In the event that market quotations are not readily available, the pricing service does not provide a valuation for a particular asset, or the valuations are deemed unreliable, or if events occurring after the close of the principal markets for particular securities (e.g., domestic debt and foreign securities), but before the Fund values its assets, would materially affect NAV, First Trust Advisors L.P. ("First Trust") may use a fair value method to value the Fund's securities and investments. The use of fair value pricing by the Fund is governed by valuation procedures adopted by the Fund's Board of Trustees, and in accordance with the provisions of the 1940 Act.

B. FORWARD FOREIGN CURRENCY CONTRACTS:

Forward foreign currency contracts are agreements to exchange one currency for another at a future date and at a specified price. The Fund may use forward foreign currency contracts to facilitate transactions in foreign securities and to manage the Fund's foreign currency exposure. These contracts are valued daily, and the Fund's net equity therein, representing unrealized gain or loss on the contracts as measured by the difference between the forward foreign exchange rates at the dates of entry into the contracts and the forward rates at the reporting date, is included in the Statement of Assets and Liabilities. Realized and unrealized gains and losses are included in the Statement of Operations. Risks arise from the possible inability of counterparties to meet the terms of their contracts and from movement in currency and securities values and interest rates. Due to the risks, the Fund could incur losses up to the entire contract amount, which may exceed the net unrealized value shown in the Schedule of Forward Foreign Currency Contracts.

C. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis, including amortization of premiums and accretion of discounts.

Page 19

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND
JUNE 30, 2007 (UNAUDITED)

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income on such securities is not accrued until settlement date. The Fund maintains liquid assets with a current value at least equal to the amount of its when-issued or delayed-delivery purchase commitments. At June 30, 2007, the Fund had no when-issued or delayed-delivery purchase commitments.

D. FOREIGN CURRENCY:

The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into

Edgar Filing: FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND - Form N-CSRS

U.S. dollars at the exchange rates prevailing at the end of the period. Purchases and sales of investment securities and items of income and expense are translated on the respective dates of such transactions. Unrealized gains and losses which result from changes in foreign currency exchange rates have been included in "Net change in unrealized appreciation (depreciation) on foreign currency translation" on the Statement of Operations. Net realized foreign currency gains and losses include the effect of changes in exchange rates between trade date and settlement date on investment security transactions, foreign currency transactions and interest and dividends received. The portion of foreign currency gains and losses related to fluctuations in exchange rates between the initial purchase trade date and subsequent sale trade date is included in "Net realized gain (loss) on foreign currency transactions" on the Statement of Operations.

E. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

The Fund will distribute to holders of its Common Shares level quarterly dividends/distributions after payment of interest and dividends in connection with leverage. The level dividend rate may be modified by the Board of Trustees from time to time. If, for any quarterly distribution, net investment company taxable income, if any (which term includes net short-term capital gain), is less than the amount of the distribution, the difference will generally be a tax-free return of capital distributed from the Fund's Assets. However, the ultimate determination of the character of the distributions will be made after the 2007 calendar year end. The Fund's final distribution for each calendar year will include any remaining net investment company taxable income undistributed during the year, as well as net capital gains realized during the year. If the Fund recognizes a long-term capital gain, it will be required to allocate such gain between the Common Shares and Preferred Shares, if any, issued by the Fund in proportion to the total dividends paid for the year. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund.

The tax character of distributions paid during the period ended December 31, 2006, was as follows:

Distributions paid from:

Ordinary Income	\$ 1,857,306
Return of Capital	209,527

As of December 31, 2006, the components of distributable earnings on a tax basis were as follows:

Net Unrealized Appreciation	\$ 9,175,054
-----------------------------------	--------------

F. INCOME TAXES:

The Fund intends to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and to distribute substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

Edgar Filing: FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND - Form N-CSRS

In June 2006, Financial Accounting Standards Board Interpretation No. 48, Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement 109 ("FIN 48") was issued and is effective for fiscal years beginning after December 15, 2006. This Interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. As of June 30, 2007, management has evaluated the application of FIN 48 to the Fund, and has determined that there is no material impact resulting from the adoption of this Interpretation on the Fund's financial statements.

FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND JUNE 30, 2007 (UNAUDITED)

G. EXPENSES:

The Fund pays all expenses directly related to its operations.

H. ORGANIZATION AND OFFERING COSTS:

Organization costs consisted of costs incurred to establish the Fund and enable it to legally conduct business. These costs included filing fees, listing fees, legal services pertaining to the organization of the business and audit fees relating to the initial registration and auditing the initial statement of assets and liabilities, among other fees. Offering costs consisted of legal fees pertaining to the Fund's shares offered for sale, registration fees, underwriting fees, and printing of the initial prospectus, among other fees. First Trust and Aberdeen Asset Management Inc. have paid all organization expenses and all offering costs of the Fund (other than sales load) that exceeded \$0.04 per Common Share. The Fund's share of Common Share offering costs of \$236,210 during the period ended December 31, 2006, was recorded as a reduction of the proceeds from the sale of Common Shares.

I. ACCOUNTING PRONOUNCEMENT:

In September 2006, Statement of Financial Accounting Standards No. 157 Fair Value Measurements ("SFAS 157") was issued by the FASB and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the impact the adoption of SFAS 157 could have on the Fund's financial statement disclosures.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For these services, First Trust is entitled to a monthly fee calculated at an annual rate of 1.00% of the Fund's Managed Assets.

Aberdeen Asset Management Inc. (the "Sub-Advisor") serves as the Fund's

Edgar Filing: FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND - Form N-CSRS

sub-advisor and manages the Fund's portfolio subject to First Trust's supervision. The Sub-Advisor receives an annual portfolio management fee calculated at an annual rate of 0.50% of Managed Assets that is paid monthly by First Trust out of its investment advisory fee.

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Administrator and Transfer Agent in accordance with certain fee arrangements. PFPC Trust Company, also an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

Effective January 1, 2007, the Trustees approved a revised compensation plan. Under the revised plan, each Trustee who is not an officer or employee of First Trust, any sub-advisor or any of their affiliates ("Independent Trustees") is paid an annual retainer of \$10,000 per investment company for the first 14 investment companies of the First Trust Fund Complex and an annual retainer of \$7,500 per investment company of each subsequent investment company added to the First Trust Fund Complex. The annual retainer is allocated equally among each of the investment companies. No additional meeting fees are paid in connection with board or committee meetings.

Additionally, Thomas R. Kadlec is paid \$10,000 annually to serve as the Lead Independent Trustee and Niel B. Nielson is paid \$5,000 annually to serve as the chairman of the Audit Committee, with such compensation paid by the funds in the First Trust Fund Complex and divided among those funds. Independent Trustees are also reimbursed by the investment companies in the First Trust Fund Complex for travel and out-of-pocket expenses in connection with all meetings. The Trustees adopted the revised plan because the increase in the number of funds in the First Trust Fund Complex had the effect of rapidly increasing their compensation under the previous arrangements. Prior to January 1, 2007, each fund paid each Independent Trustee an annual retainer of \$10,000, which included compensation for all board and committee meetings.

4. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of securities, other than U.S. government obligations and short-term obligations, for the six months ended June 30, 2007, were \$77,228,455 and \$79,326,850, respectively.

As of June 30, 2007, the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$15,309,857 and the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$966,138.

5. COMMON SHARES

As of June 30, 2007, 5,905,236 of \$0.01 par value Common Shares were issued and outstanding. An unlimited number of Common Shares has been authorized for the Fund's Dividend Reinvestment Plan.

Edgar Filing: FIRST TRUST/ABERDEEN EMERGING OPPORTUNITY FUND - Form N-CSRS

COMMON SHARE TRANSACTIONS WERE AS FOLLOWS:

	SIX MONTHS ENDED JUNE 30, 2007		PERIOD ENDED DECEMBER 31, 2006	
	SHARES	AMOUNT	SHARES	AMOUNT
Proceeds from shares sold	--	\$ --	5,905,236	\$112,790,0
Offering costs	--	--	--	(236,2
	--	\$ --	5,905,236	\$112,553,7

6. PREFERRED SHARES OF BENEFICIAL INTEREST

The Fund's Declaration of Trust authorizes the issuance of preferred shares of beneficial interest (the "Preferred Shares"), with rights as determined by the Board of Trustees without the approval of Common Shareholders. As of June 30, 2007, no Preferred Shares had been issued.

7. REVOLVING LOAN AGREEMENT

The Fund has entered into a revolving loan agreement among the Fund and certain primary and secondary lenders, which provides for a credit facility to be used as leverage for the Fund. The credit facility provides for a secured line of credit for the Fund where Fund assets are pledged against advances made to the Fund. Under the requirements of the 1940 Act, the Fund, immediately after any such borrowings, must have an "asset coverage" of at least 300% (33-1/3% of the Fund's total assets after borrowings). The total commitment under the facility is up to \$28,000,000. For the six months ended June 30, 2007, the average amount outstanding was \$8,861,878. The high and low annual interest rates during the six months ended June 30, 2007, were 5.95% and 5.86%, respectively, and the weighted average interest rate was 5.92%. The Fund also pays a commitment fee of 0.325% per year, which is included in "Interest and fees on outstanding loan payable" on the Statement of Operations.

8. RISK CONSIDERATIONS

An investment in the Fund's Common Shares is subject to investment risk, including the possible loss of the entire principal invested. An investment in Common Shares represents an indirect investment in the securities owned by the Fund, which include a global bond and equity portfolio of investment grade and below-investment grade government and corporate debt securities. The value of these securities, like other market investments, may move up or down, sometimes rapidly and unpredictably. Common Shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of Fund dividends and distributions. Security prices can fluctuate for several reasons including the general condition of the bond market, or when political or economic events affecting the issuers occur.

NON-INVESTMENT GRADE SECURITIES RISK: The Fund may invest up to 80% of its Managed Assets in non-investment grade securities. Non-investment grade securities are rated below "Baa3" by Moody's Investors Service, Inc., below "BBB-" by Standard & Poor's, or comparably rated by another nationally recognized statistical rating organization or, if unrated, determined by the Sub-Advisor to be of comparable credit quality. Non-investment grade debt instruments are commonly referred to as "high-yield" or "junk" bonds and are considered speculative with respect to the issuer's capacity to pay interest and

repay principal and are susceptible to default or decline in market value due to adverse economic and business developments. The market values for high-yield securities tend to be very volatile, and these securities are less liquid than investment grade debt securities.

EMERGING MARKETS RISK: Under normal market conditions, the Fund will invest at least 80% of its Managed Assets in equity or fixed-income securities of issuers located in countries considered to be emerging markets. Investments in such securities are considered speculative. In addition to the general risks of investing in non-U.S. securities, heightened risks of investing in emerging markets securities include: smaller market capitalization of securities markets, which may suffer periods of relative illiquidity; significant price volatility; restrictions on foreign investment; and possible restrictions on repatriation of investment income and capital. Furthermore, foreign investors may be required to register the proceeds of sales, and future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization or creation of government monopolies. The currencies of emerging market countries may experience significant declines against the U.S. Dollar, and devaluation may occur subsequent to investments in these currencies by the Fund. Inflation and rapid fluctuations in inflation rates have had, and may continue to have, negative effects on the economies and securities markets of certain emerging market countries.

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect, by written notice to the Fund, to receive cash distributions, all dividends, including any capital gain distributions, on your Common Shares will be automatically reinvested by PFPC Inc. (the "Plan Agent"), in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc., as dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If Common Shares are trading at or above NAV at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the NYSE or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares

than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (800) 331-1710, in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan, and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common Shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you. Consult your financial advisor for more information.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

NYSE CERTIFICATION INFORMATION

In accordance with Section 303A-12 of the New York Stock Exchange ("NYSE") Listed Company Manual, the Fund's President has certified to the NYSE that, as of May 10, 2007, he was not aware of any violation by the Fund of NYSE corporate governance listing standards. In addition, the Fund's reports to the SEC on Forms N-CSR and N-Q contain certifications by the Fund's principal executive officer and principal financial officer that relate to the Fund's public disclosure in such reports and are required by Rule 30a-2 under the 1940 Act.

BY-LAW AMENDMENTS

On December 11, 2006, the Board of Trustees of the Fund approved certain changes to the By-Laws of the Fund that may have the effect of delaying or preventing a change of control of the Fund, including the implementation of a staggered Board of Trustees. These changes were not required to be, and were not, approved by the Fund's Shareholders. To receive a copy of the revised By-Laws, investors may call the Fund at (800) 988-5891.
