ITEM 11. EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis is designed to provide shareholders with a better understanding of our compensation philosophy, core principles, and decision making process. It explains the compensation-related actions taken with respect to the executive officers who are identified in the Summary Compensation Table (the “Named Executive Officers”). Details regarding the compensation we paid to the Named Executive Officers for fiscal 2009 are found in the tables and narrative which follows them.

Compensation Philosophy

Introduction

Since 2008 our Company has changed in several respects, including the way we view and structure executive compensation. Our executive compensation consists exclusively of a salary and a cash bonus. In 2009, our restructuring into a diversified holding company brought in further change in our compensation system. For example, at the end of fiscal 2009, our executive officers consisted of only our Chief Executive Officer, Sardar Biglari, and our Interim Chief Financial Officer, Duane Geiger.

To assist shareholders in understanding the information in this report—which covers compensation paid to executives (and former executives) during fiscal years prior to 2009 — we have included an overview of our current and future compensation structure and a brief discussion of prior management’s past compensation philosophies – from which we have departed significantly.

The Governance, Compensation, and Nominating Committee

Our program for compensation of executive officers differs from those of most public companies. The Governance, Compensation, and Nominating Committee of our Board of Directors was created in fiscal 2010. This Committee determines the amounts and elements of compensation for Mr. Biglari, who does not have an employment agreement. The Committee’s functions include oversight of our compensation policies in generally, which are more fully described in its charter and is available at www.steaknshake.com. Under the Committee’s compensation tenets, the Company does not grant stock options to executive officers.

The Committee has delegated to Mr. Biglari the responsibility of setting the compensation of other executive officers of the Company. Factors Mr. Biglari considers in setting the salary of these officers, including the Chief Financial Officer, are typically subjective, such as his perception of the merits of executive's performance and any changes in functional responsibility. Mr. Biglari will also set the compensation for the Chief Executive Officers of the operating businesses of the holding company. He may utilize different incentive arrangements, with their terms dependent upon such elements as the economic potential or capital intensity of the business. The incentives could be large and will always be tied to the operating results for which a Chief Executive Officer exercises authority.

Compensation of Named Executive Officers—Fiscal Year 2009

The base salary of Mr. Biglari was set at \$280,000 in fiscal 2008. On June 19, 2009, the Compensation Committee of the Board of Directors (prior to being merged with the Governance and Nominating Committee) voted unanimously to increase Mr. Biglari’s salary to \$900,000 per year. Mr. Biglari did not receive any stock or stock option grants. The Committee has also noted that Mr. Biglari, through related entities, has significant economic interests in the Company, which further aligns his interests with the Company’s shareholders. In determining to increase Mr. Biglari’s salary the Committee did not use a compensation consultant. Rather, the Committee relied upon its subjective judgment and

considered a variety of factors, including the Company's financial performance.

Salaries for other Named Executive Officers in 2009 were either based upon prior employment agreements or upon the decision of Mr. Biglari. Bonus payment decisions were made by Mr. Biglari, in his discretion, based upon subjective factors reflecting his perception of the executive's performance, changes in functional responsibility, and performance of the operating unit. The bonuses were influenced by operating results over which the executive had authority. The Compensation Committee was apprised of the final bonus determinations by Mr. Biglari with which it found approval.

Compensation—Fiscal 2008

All decisions relating to the compensation of the Named Executive Officers were made by the Compensation Committee in executive session, without management present. In assessing the compensation of the Chief Executive Officer, the Compensation Committee made a qualitative assessment of our performance, his contribution to that performance, his expected performance in the future, and other factors (including experience, historical compensation and the relationship of his compensation to other executives in the Company). In evaluating the performance of other executive officers, the Compensation Committee considered the evaluations provided by the Chief Executive Officer, the Company's performance, individual performance, department performance and other criteria that the Committee believed to be indicative of performance.

As a general matter, over 50% of targeted annual compensation to executive officers took the form of performance-dependent, incentive cash and equity programs. The Compensation Committee set base salaries at market median levels for positions that are unique to the restaurant industry, and between the 50th and 75th percentile in the restaurant industry for other executive positions. In setting base salaries for fiscal 2008, the Compensation Committee considered the following factors:

- Internal analysis. This is the relative pay difference for different job levels within the Company.
- Individual performance. Increases to base salaries resulted from individual performance assessments as well as an evaluation of the market and the mix among various components of compensation. In setting Mr. Biglari's salary, the Committee considered his recent involvement with the Company and his significant equity stake in the Company. In fiscal 2008 Mr. Biglari's base salary was below the 50th percentile for chief executive officers of similarly sized companies in the restaurant industry and generally based on information available to the Committee. The Compensation Committee also reviewed the performance of the other Named Executive Officers. The Committee believed that equity compensation would provide an appropriate incentive to these executives to improve our performance and reward them for success in their roles. A discussion of the mix between the two components of equity compensation is in the "Long-Term Incentives" section below.
- Market data. While the Compensation Committee used industry and general market data to test for the reasonableness and competitiveness of base salaries, Committee members exercise subjective judgment within the ranges in this data in view of our compensation objectives and individual performance and circumstances.

For fiscal 2008 the Compensation Committee intentionally allocated a greater portion of targeted total compensation to the performance-dependent elements. One way in which it did this was to set what it believed to be aggressive, but reachable, targets for fiscal 2008 under our Incentive Bonus Plan. The Compensation Committee established a target incentive opportunity for each participant, expressed as a percent of base salary. The Named Executive Officers had target bonus opportunities set at 30% - 70% of their base salaries. Mr. Biglari did not participate in the Company's Incentive Bonus Plan in fiscal 2008.

To arrive at a payout number under the Incentive Bonus Plan, the target bonus opportunity for each participant was multiplied by a formula based on our performance as determined by targets for objective performance and measures and individual performance goals. In fiscal 2008 the corporate performance measures were growth in earnings before interest and taxes (“EBIT”) and same store sales over the prior year. Individual performance was based on the successful completion of defined projects during the fiscal year. In fiscal 2008, we did not achieve the targets at the threshold level for either the same store sales or EBIT performance measures. Consequently, we made no payments under the Incentive Bonus Plan to any participant in fiscal 2008.

Equity-based incentives were a significant element of total executive officer compensation. These equity-based incentives consisted of stock options and restricted stock.

The size of stock option grants for executive officers was based primarily on the target dollar value of the award, translated into a number of option shares based on the estimated economic value of the award, as determined using the Black-Scholes option pricing formula. As a result, the number of shares underlying stock option awards has typically varied from year to year, as it was dependent on the price of our stock. Subject to limits imposed by Section 422 of the Internal Revenue Code, options granted to all employees were incentive stock options.

Table of Contents

In April 2008, the Compensation Committee approved annual grants of stock options to each of the Named Executive Officers (except Mr. Biglari). These options had an exercise price equal to the market value of our stock on the date of grant. They were granted under the 2008 Equity Incentive Plan, which was approved by our shareholders in March 2008. These options vest over four years, at a rate of 25% per year, beginning on the first anniversary of the grant. They expire ten years from the date of grant. See “Grants of Plan-Based Awards.”

We do not backdate options or grant options or other equity awards retroactively. In addition, we do not purposely schedule option awards or other equity grants prior to the disclosure of favorable information or after the announcement of unfavorable information. In general, equity-based incentive awards were made during the Board meeting held in conjunction with the annual meeting, with mid-year grants limited to newly hired or promoted employees.

Restricted stock awards provide the recipient with shares of our stock, which the recipient may vote and for which he may receive dividends during the vesting period. The recipient may not transfer or assign the restricted shares for a period after the date of grant, however, and if the recipient ceases to be our employee for any reason other than death, disability or retirement during that period the shares will be forfeited. The restriction on transfer is generally three (3) years, although some new hires have received shares with a shorter period of restriction. If the recipient ceases being our employee during the vesting period as a result of retirement, death or disability then the recipient (or his/her estate) will receive a pro rata amount of shares reflective of the percent of the vesting period during which the recipient was employed.

Perquisites

In fiscal 2009, perquisites provided to executive officers were dramatically reduced, and are limited to: (i) amounts we pay to group life insurance premiums for coverage in excess of \$50,000, (ii) personal use of a company car, and (iii) business-related travel expenses deemed commuting. During 2009 the company car program was discontinued. Leases on company cars were allowed to expire and in place of a vehicle certain executives received cash stipends of \$500 per month. See footnote (c) to the Summary Compensation Table below for the perquisites provided to each Named Executive Officer in fiscal 2009.

In fiscal 2008 we also provided a medical reimbursement plan which provided officers with up to \$3,500 in reimbursement for otherwise unreimbursed medical costs each year, and a Company non-discretionary matching contribution of 50% of up to 6% of the officer’s compensation contributed into the 401(k) Plan and deferred into the Deferred Compensation Plan. The medical reimbursement plan was discontinued in fiscal 2009.

Other Benefits

Our executive officers also receive the benefits provided to all employees, subject to satisfying the requirements for participation. These benefits include: participation in the 401(k) Plan, life insurance equal to their annual salary, group medical & dental plans, short- and long-term disability insurance, and a lunch discount of 40% at Steak n Shake restaurants on work days. The executive officers are also entitled to participate in the Company's Deferred Compensation Plan, a plan which is only open to those who are “highly compensated” under IRS regulations.

Employment Agreements, Severance, and Change-in-Control Arrangements

Current Structure

Mr. Biglari does not have an employment agreement with the Company. On January 26, 2010, the Company and Mr. Geiger terminated any prior agreement concerning employment, severance, or change in control. Instead the

Company and Mr. Geiger and entered into a new, simpler agreement. The new contractual obligation stipulates that, only in the event Mr. Biglari ceases to be Chairman and Chief Executive Officer of the Company, shall Mr. Geiger have the option of terminating his employment with the Company and receiving a lump sum severance payment equal to one year of his then current base compensation. The new accord, unlike the prior one, does not contemplate or contractually bind the Company to severance payment in the event of termination without cause.

Employment Agreements - 2009

During fiscal 2009, we had employment agreements with two of the Named Executive Officers, Messrs. Geiger and Janjua. Only Mr. Geiger was still employed as an executive officer at the end of fiscal year 2009. Mr. Janjua did not receive any benefits under his agreement upon his departure. These agreements (the "Employment Agreements") provide for the payment of benefits in the event the executive's employment is terminated without cause or in the event he terminates his employment with good reason at any time. In establishing the benefits to be provided under the Employment Agreements, the Compensation Committee obtained benchmarking information from its compensation consultant, considered which individuals were vital to retain and evaluated the potential costs and benefits of the Employment Agreement.

The primary terms of the Employment Agreements are provided below:

- **Stay Payment.** If a Change in Control (as defined in the Employment Agreement) had occurred prior to November 7, 2008, the employee would have received a payment in an amount equal to 30% of his base salary.
- **Termination Following Change in Control.** In the event that employment is terminated within one year of a Change in Control by us without "cause" (as defined in the Employment Agreements) or by the employee for the reasons set forth in Section 4 of the Employment Agreements ("good reason"), he will receive: (a) a lump-sum severance payment equal to one year of his base salary, (b) coverage under the group medical plan for one year, (c) use of his Company-provided car for up to 60 days, (d) a lump-sum payment of a pro rata amount of the annual incentive bonus to which he would have been entitled had he been employed through the applicable bonus computation period, and (e) reimbursement of up to \$15,000 for outplacement services.
- **Termination Without Cause or Separation with Good Reason.** Should we terminate the employee without cause, or should he decide to separate with good reason at any time then he will receive: (a) his normal gross salary, payable for one year; this amount will be reduced by the amount of the compensation earned in any subsequent employment; (b) a lump-sum payment equal to the pro rata portion of the annual incentive bonus reflective of the number of days in the year the individual was employed; (c) continued use of his Company owned automobile for up to 60 days following separation or until provided with an automobile by a subsequent employer; (d) continued participation in any Company-provided group medical insurance plan for up to one year, or until provided benefits by a subsequent employer; and (e) up to \$15,000 for outplacement services.
- **Executive's Obligations.** Prior to obtaining any benefits under the Employment Agreements, the employee must waive any claims against us and agree to keep confidential our confidential information and business secrets. He also must agree not to solicit any of our employees for one year following termination. We may recover any benefits paid under the Employment Agreements if he breaches any of his obligations under the Employment Agreements.

Effect of a Change in Control, Death, Disability or Retirement on Equity Grants - 2009

In the event of the death of an option recipient, then his/her estate may exercise the option in full at any time prior to its expiration. In the event of an option recipient's retirement, he/she may exercise any vested options within three months from the date of retirement. Should an option recipient's employment end as a result of a disability, then

he/she would be able to exercise the options as if the recipient had remained with the Company through (i) cessation of payments under a disability pay plan of the Company, (ii) the recipient's death, or (iii) the recipient's 65th birthday.

All prior restricted stock plans, the 2006 Steak n Shake Employee Stock Option Plan and the 2008 Equity Incentive Plan contain provisions that accelerate the vesting of the awards upon a change in control. Options granted under prior stock option plans may be accelerated upon a change in control at the discretion of the Board of Directors.

The number of unvested shares that would vest on a change in control, and the value of those shares as of the end of the fiscal year, is set forth in the table below entitled "Outstanding Equity Awards at Fiscal Year End" under the column entitled "Number of Shares or Units of Stock that Have Not Vested."

As discussed under Employment Agreements - Current Structure, the preceding discussion related only to agreements in place during fiscal 2009 and Mr. Geiger's agreement has been superceded by a new severance agreement as of January 26, 2010.

Deductibility Cap on Executive Compensation

Section 162(m) of the Internal Revenue Code prohibits publicly-held companies from taking a tax deduction for certain compensation paid in excess of \$1 million to the Chief Executive Officer and each of the three other most highly compensated executive officers (other than the Chief Financial Officer). Performance-based compensation remains deductible. To qualify as performance-based compensation, the program under which it is provided must be approved by shareholders and meet other requirements. In fiscal 2009 we did not pay compensation that was not deductible under Section 162(m).

- All restricted stock grants have a three year cliff-vesting period. Those granted prior to April 2008 were granted with an equal amount of book units. See "Compensation Discussion and Analysis -- Components of Total Compensation -- Long-Term Incentives -- Restricted Stock" for additional information regarding these shares.
- Market value is computed based on a price of \$235.40, which was the closing price of our common stock on the last day of fiscal 2009 adjusted for the 1-for-20 reverse split effective end of business December 18, 2009.
- These options vest at a rate of 25% per year beginning on the first anniversary of the date of grant and expire ten years from the date of grant; they do not contain a reload feature.
-

These options vest at a rate of 20% per year beginning on the date of grant and expire five years from the date of grant; they also contain a reload feature.

- e. These are "reload" options which were granted pursuant to the 1997 Employee Stock Option Plan. Reload options are granted in an amount equal to the number of shares used to pay the exercise price on the underlying stock options. They are vested immediately and expire five years from date of grant. Beginning in February 2006 we ceased issuing options with a reload feature.

Award Exercise and Vesting

The following table sets forth the number of options exercised in fiscal 2009, along with the value received as a result of the exercise. It also shows the number of shares of restricted stock that vested during the year, with concurrent vesting of book units, and the resulting value realized by the Named Executive Officer. The information provided in this table reflects the 1-for-20 reverse stock split effective as of the end of business December 18, 2009.

	Number of Shares Acquired on Vesting	Value Realized on Vestinga
Mr. Geiger	220	\$31,240
Mr. Roberts	843	\$127,560

- a. Mr. Geiger had stock vest on February 8, 2009. Mr. Roberts had stock vest March 29, 2009. The amount in this column includes the value of the restricted stock on the date of vesting, based on the closing price of our common stock on the date of vesting, or immediately prior thereto if the vesting date was not a trading day (\$135.40 for the February 8, 2009 vesting as adjusted for the 1-for-20 reverse split), and the value of book units which vested in conjunction with the shares of restricted stock. The book units associated with the February 8, 2009 vesting were \$0.33. The March 29, 2009 vesting price was \$151.20 as adjusted for the 1-for-20 reverse stock split and did not have book units associated with it. Mr. Roberts' grant contained what would be fractional shares had the 1-for-20 reverse split occurred prior to its vesting.

Retirement Benefits

We maintain two plans that provide retirement income to all eligible employees, including the Named Executive Officers:

401(k) Plan

The Steak n Shake Company 401(k) Savings Plan (the “Plan”) is a defined contribution plan covering substantially all employees, including the Named Executive Officers, after they have attained age 21 and completed six months of service and allows employees to defer up to 20% of their salaries. The Company made non-discretionary matching contributions through October 14, 2008. The matching contributions during fiscal years 2008 and 2007 were equal to 50% of participants’ pretax contributions and subject to a maximum of 6% of participants’ eligible compensation contributed to the Plan. During October 2008, the Plan was amended to eliminate the non-discretionary contributions and allow for discretionary matching contributions. No discretionary matching contributions were made in fiscal year 2009. However, subsequent to year end, discretionary matching contributions have been resumed in fiscal year 2010. Going forward, discretionary contributions will be based on the profitability of the Company and subject to quarterly revision. The Named Executive Officers and other “highly compensated employees” (as that term is defined by IRS regulations) are limited to contributing 1% of their cash compensation to the 401(k) Plan.

Nonqualified Deferred Compensation Plan

The Nonqualified Deferred Compensation Plan (“Deferred Compensation Plan”) is available to all highly compensated employees, including the Named Executive Officers. Investment options offered under the Deferred Compensation Plan are identical to those offered in the 401(k) Plan. Before a participant may make contributions under the Deferred Compensation Plan, the participant must first contribute 1% of their earnings to the 401(k) Plan. Until November 2008 we matched participant contributions in the amount of 50% of the aggregate deferrals into both plans, up to 6% of the participant’s cash compensation. Matching contributions were suspended in November 2008 until such time as the Company becomes profitable again. Total deferrals under both the Deferred Compensation Plan and 401(k) Plan are limited to 20% of the aggregate of a participant’s salary and annual incentive bonus, which means that as a result of the 1% of compensation deferred to the 401(k) Plan, the most a participant may defer to the Deferred Compensation Plan is 19% of their total cash compensation. Matching contributions under the Deferred Compensation Plan vest over the first six years of employment, at a rate of 20% per year beginning on the second anniversary of employment. A participant’s account balance will be distributed at a time directed by the participant. Participants may elect that distributions be made in a lump sum or in equal annual installments over a period of up to ten (10) years. Withdrawals from the Deferred Compensation Plan are limited to the withdrawal of participant contributions in cases of financial hardship.

The following table describes the contributions, earnings, and balance at the end of fiscal 2009 for each of the Named Executive Officers who participated in the Deferred Compensation Plan.

Potential Payments Upon Termination of Employment

As discussed above in “Compensation Discussion and Analysis – Employment Agreements, Severance and Change-in-Control Arrangements– Effect of a Change in Control, Death, Disability or Retirement on Equity Grants,” some of our equity awards accelerate upon a change in control or upon the retirement, death or disability of the holder. Also, one of the Named Executive Officers, Mr. Geiger, had an agreement in fiscal 2009 that would have provided him with benefits upon the occurrence of one or more of these events. The following table sets forth for Mr. Geiger, the aggregate value that he would receive as a result of any of the foregoing events if they had occurred on September 30, 2009. No amounts would be payable to Mr. Biglari upon his termination.

- Amounts in this column include payments made upon termination by us without cause or by the employee with good reason, but exclude payments made upon or following a change in control.
- Amounts in this column reflect payments or acceleration of benefits that would occur upon a change in control without termination of employment.
- Amounts in this column are payable only if the employment of the Named Executive Officer is terminated by us without cause or if the Named Executive Officer leaves for good reason within one year following a change in control.
- Reflects the excess of the closing price of \$235.40 for our stock on the last day of fiscal 2009 (as adjusted for the 1-for-20 reverse stock split), over the exercise price of outstanding options currently vested and any unvested stock options, the vesting of which would accelerate as a result of the Named Executive Officer's termination of employment on September 24, 2008 as a result of the specified termination event, multiplied by the number of shares of our stock underlying the stock options.
- Reflects the closing price of \$235.40 for our stock on the last day of fiscal 2009 (as adjusted for the 1-for-20 reverse stock split), multiplied by the number of shares of restricted stock that would vest as a result of the Named Executive Officer's termination of employment on September 30, 2009 as a result of the specified termination event, plus the value of accrued book units through September 30, 2009.
-

Reflects the payment of 30% of the Named Executive Officer's salary immediately upon a change in control.

- g. Amounts represent one year of salary payable to the Named Executive Officer.
- h. Amounts represent one year of coverage under our group medical plans at the level currently elected by the individual.
- i. Amounts represent the use of the Named Executive Officer's company car for up to 60 days after termination of employment.
- j. Reflects the maximum amount of outplacement services for which the Named Executive Officer may be reimbursed by us.

For a description of the terms of the employment agreements for Mr. Geiger, see “Compensation Discussion and Analysis – Employment Agreements, Severance and Change-in-Control Arrangements – Employment Agreements.”

COMPENSATION OF DIRECTORS

During fiscal 2009 we compensated non-employee directors with cash annual retainers, cash meeting attendance fees and grants of stock options and restricted stock. The amount of the annual cash retainer payment is \$22,000. The annual retainers for the Chairman of the Audit Committee, Lead Outside Director and Chairman of the Compensation Committee is \$37,000 and the annual retainer for the Chairman of the Nominating/Corporate Governance Committee is \$32,000.

From November 2008 to March 2009 we paid all annual retainers in Company stock. We have discontinued that practice so as to minimize equity dilution. Effective April 1, 2009, all annual retainers will be paid in cash only. Because directors who are employees are not paid for their services on the Board, Mr. Biglari does not receive compensation for his Board service.

Meeting attendance fees for non-employee directors are as follows:

- \$3,500 for each in-person Board meeting attended;
- \$1,250 for each Committee meeting attended that was not held in conjunction with a Board meeting;
- \$1,000 for meetings, travel and interviews with candidates for Board positions;
- \$500 for each Committee meeting attended that was held in conjunction with a Board of Directors' meeting; and
- \$500 for any meeting (Board or Committee) in which the Director participated telephonically.

In addition, we reimburse the ordinary expenses the members of the Board of Directors incur in attending board and committee meetings. In fiscal 2008 all non-employee directors were also eligible to participate in our medical reimbursement plan, which provided reimbursement for unreimbursed medical bills in an amount of up to \$3,500 per calendar year, which amount is increased or "grossed up" in an amount equal to the estimated taxes payable by the directors for this benefit. They were also entitled to obtain reimbursement for 75% of their tax preparation fees up to \$1,250. The Board decided to discontinue these benefits for fiscal year 2009 and thereafter.

In addition to the foregoing payments, directors may participate in the Nonqualified Deferred Compensation Plan. There are no matching payments made to directors under the Nonqualified Deferred Compensation Plan and no guaranteed return is offered. Instead, it provides directors with an opportunity to defer the receipt of retainer and/or meeting fees and obtain them at a later date, together with the gains or losses associated with investments against which they choose to track their accounts.

The chart below shows the compensation received by our directors during fiscal year 2009. Mr. Biglari did not receive director compensation in fiscal 2009.

See Note 15 of Notes to Consolidated Financial Statements included in Part II, Item 8 of the Original Filing for a description of the assumptions made in the valuation. The information in the table reflects the 1-for-20 reverse split effective as of the end of business December 18, 2009.

The preceding table sets forth the shares of our stock underlying unexercised stock options held by each of our non-employee directors as of September 30, 2009. In the aggregate that number is 5,274. No stock options were awarded to our non-employee directors in fiscal year 2009.

- c. This column includes the medical reimbursement plan, which had a value of up to \$3,500 per year, tax gross up for the medical reimbursement plan. The plan was discontinued by the Board during fiscal 2009.

In the past we have compensated our non-employee directors with equity-based awards, the value of which are tied to increases in the value of our common stock. We have had director stock option plans in place since 1990. These plans provide for grants of nonqualified stock options to our non-employee directors at a price equal to the fair market value of our common stock on the date of grant. Options granted prior to November 7, 2005 are exercisable at a rate of 20% on the date of grant and on each anniversary thereof until fully exercisable and expire five years from the date of grant. Options granted after November 7, 2005 are exercisable at a rate of 25% on the first anniversary of the grant and each year thereafter until fully vested. Finally, some newly appointed or elected directors received a grant of 50 shares of restricted stock. Dr. Cooley received such a grant in fiscal 2008. At his request, Mr. Biglari declined to receive a grant. These shares have a three year restriction on transfer, and if a recipient ceases serving as a director for any reason other than death, disability or retirement during this period he/she will forfeit the stock. We do not anticipate compensating directors with equity-based awards in fiscal 2009 or thereafter. We expect that director compensation will consist solely of the cash payments outline above.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

Policy Regarding Related Person Transactions

The policy of the Board is for it, or one of its committees, to review each related person transaction (as defined below) and determine whether it will approve or ratify that transaction. Any Board member who has any interest (actual or perceived) will not be involved in the consideration.

For purposes of the policy, a “related person transaction” is any transaction, arrangement or relationship in which we are a participant, the related person (defined below) had, has or will have a direct or indirect material interest and the aggregate amount involved is expected to exceed \$120,000 in any calendar year. “Related person” includes (a) any person who is or was (at any time during the last fiscal year) an officer, director or nominee for election as a director; (b) any person or group who is a beneficial owner of more than 5% of our voting securities; (c) any immediate family member of a person described in provisions (a) or (b) of this sentence; or (d) any entity in which any of the foregoing persons is employed, is a partner or has a greater than 5% beneficial ownership interest.

In determining whether a related person transaction will be approved or ratified, the Board, or committee, may consider factors such as (a) the extent of the related person’s interest in the transaction; (b) the availability of other sources of comparable products or services; (c) whether the terms are competitive with terms generally available in similar transactions with persons that are not related persons; (d) the benefit to us; and (e) the aggregate value of the transaction.

Western Sizzlin Corporation Acquisition Costs

On October 22, 2009, the Company jointly announced with Western Sizzlin Corporation (“Western”) that they had executed an agreement for Western to merge into a wholly-owned subsidiary of the Company. If completed, the merger agreement currently provides for Steak n Shake to issue and deliver to Western stockholders subordinated debentures of Steak n Shake with a principal amount of \$22,959,000, subject to adjustment as provided in the merger agreement. We have filed the appropriate documentation with the Securities and Exchange Commission related to this business combination. The Company recorded approximately \$632,000 of acquisition related costs. Mr. Biglari serves as the Chairman and Chief Executive Officer of Western and his investment fund is a shareholder. Dr. Cooley is Vice Chairman of the Boards and shareholder of both companies. Mr. Biglari and Dr. Cooley were not members of the special committee appointed to conduct the negotiations surrounding the merger of the two companies.

Director Independence

The Board has determined that all of its members, other than Mr. Biglari, are “independent” within the meaning of the listing standards of the New York Stock Exchange because none of them has, directly or indirectly, any material relationship with the Company. The Board has made these determinations after considering the following:

- 1) None of the independent directors is our officer or employee or an officer or employee of our subsidiaries or affiliates, nor has been such an officer or employee within the prior three years; further, no immediate family member of the independent directors is, or has been in the past three years, an executive officer of the Company.
- 2) None of the independent directors has received, nor has an immediate family member of such directors received, during any twelve month period in the last three years, more than \$120,000 in direct compensation from us, other than director and committee fees and pension or other forms of deferred compensation for prior service.

- 3) None of the independent directors or any member of their immediate family is or within the past five years has been affiliated with Deloitte & Touche LLP (“Deloitte”).
- 4) None of the independent directors or any member of their immediate families have within the last three years been employed as an executive officer of another company on whose compensation committee one of our present executive officers served.
- 5) None of the independent directors is a current employee or has an immediate family member who is a current executive officer of a company that in any of the last three fiscal years has done business with us in an amount in excess of \$1 million or 2% of such other company’s consolidated gross revenues.
- 6) None of the independent directors serves as a director, trustee, executive officer or similar position of a charitable or non-profit organization to which, in any of the last three fiscal years, we or our subsidiaries made charitable contributions or payments in any single fiscal year in excess of \$1 million or 2% of the organization’s consolidated gross revenues.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Independent Auditors’ Fees

Deloitte has advised us that they have billed or will bill us the following amounts for services for each of the last two fiscal years.

- (1) Audit fees include fees for services performed for the audit of our annual financial statements including services related to Section 404 of the Sarbanes-Oxley Act and review of financial statements included in our Form 10-Q filings, Form 10-K filing and Form S-8 Registration statements, comment letters and services that are normally provided in connection with statutory or regulatory filings or engagements.
- (2) Audit-Related Fees include fees for assurance and related services performed that are reasonably related to the performance of the audit or review of our financial statements. This includes services provided related to the Western Sizzlin transaction.
- (3) Tax Fees are fees for services performed with respect to tax compliance, tax advice and other tax review.

Pre-approval Policy

The Audit Committee's policy is to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is generally provided for up to one year and any pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent auditor and management are required to report periodically to the Audit Committee regarding the extent of services provided by the independent auditor in accordance with this pre-approval, and the fees for the services performed to date. The Audit Committee may also pre-approve particular services on a case-by-case basis. In fiscal 2009, the Audit Committee pre-approved the services reported above as audit-related services and tax fees and Deloitte did not provide any non-audit services during such year.
