COMMENTS FROM CEO, SUREYYA CILIV

“In the third quarter of the year Turkcell Group revenue rose by 8% to TRY3.0 billion year-on-year. Together with this, consolidated EBITDA grew 11% to TRY1.0 billion, EBIT rose 10% to TRY631 million, and net income climbed 22% to TRY699 million.

The recent regulatory decisions effective as of July impacted our financial and operational performance. Yet, we have achieved strong results once again with our continued focus on innovation and operational excellence, investments in our infrastructure, and the increasing contribution of subsidiaries. While Turkcell Turkey revenue grew by 3% through 39% growth in mobile broadband, the revenues of our subsidiaries rose by 36%.

In order to ensure the sustainability of strong growth, we continue to invest in our superior network with TRY1.0 billion investment in the first nine months and provide solutions that will put Turkcell ahead of the competition through technology and innovation. In this quarter, our “Technology at Work” offering, which provides new product

suites, brought our corporate customers solutions to increase their competitiveness and efficiency. In addition, with our vision of widening access to mobile broadband, we have introduced Turkey's first domestically designed smart phone, the "T40", providing outstanding features at half the average market price of a smart phone.

We take this opportunity to thank all of our customers, employees, business partners and shareholders who made our success possible."

(2) Voice revenues include outgoing, incoming, roaming and other (comprising almost 1% of Turkcell Turkey) revenues.

(3) Including eliminations.

Third Quarter 2013 Results

OVERVIEW OF TURKCELL TURKEY

The Turkish mobile market remained highly competitive in the first nine months of the year. Following a particularly aggressive Q1, we observed some upward price adjustments in late Q2 and Q3, although no major improvement was seen year-on-year. There are still a number of aggressive offers in the market, indicating a fragile pricing environment.

In this environment, Turkcell Turkey remained focused on service quality and providing the best customer experience through innovation. As a result of this, plus the seasonality effect, we increased our subscriber base by 322 thousand net additions during the quarter. Additionally, our blended ARPU rose by 3.2% to TRY22.7 with the 2.9pp increase in the share of postpaid in our subscriber mix, and a 39% rise in our mobile broadband revenues on a year-on-year basis.

On the terminal front, the smartphone market continued its growth momentum and our wide product portfolio and diverse offers sustained our leadership. In accordance with our strategy, we recorded the historically highest quarterly smartphone net additions of 882 thousand, reaching 8.4 million on our network, and a penetration rate of 26%. We continued to introduce the mobile broadband experience to more of our subscribers by offering affordable smartphones and tablets. In this respect, we launched Turkey's first domestically designed smartphone, namely the T40 in late September. The T40 provides high-tech features at half the average smartphone retail price in the Turkish market. It offers HD quality sound, Near Field Communication (NFC), advanced camera features, a new generation dual-core processor and a 4-inch display. Moreover, the "Tablet Festival" launched in July aimed to increase the number of 3G enabled tablets on our network.

On the regulatory front, the Information and Communication Technologies Authority (ICTA) decisions on minimum on-net voice and on-net SMS tariffs(*), together with the voice and SMS MTR cuts came into effect as of July 1st, 2013. For this quarter, due to MTR cuts Turkcell Turkey revenue growth was 3% which would have been 7% without the MTR cuts based on our estimate. Decreased MTR rates may trigger lower retail pricing in the market which in turn could potentially increase the negative impact on our growth going forward.

For the full year, assuming that current market conditions continue, we maintain our Group guidance and believe that we could post results around the high end of our revenue and EBITDA target ranges (**). This is mainly due to our strong first half Group performance and the increased contribution of our subsidiaries.

(*)Minimum onnet voice and SMS prices apply only for Turkcell.

(**)Please note that this is a forward looking statement based on our current estimates and expectations. Actual results may differ. For a discussion of factors that may affect our results, see our Annual Report on Form 20-F for 2012 filed with U.S. Securities and Exchange Commission, and in particular the risk factor section therein.

(*)Please note that selected financial information presented in this press release for the third quarter of 2012, and the second and third quarters of 2013, both in TRY and US\$ is based on IFRS figures.

Revenue grew by 8% (12% excl. MTR cut impact) to TRY2,980.7 million (TRY2,752.8 million) year-on-year driven by Turkcell Turkey and subsidiaries.

- Turkcell Turkey grew by 3% (7% excl. MTR cut impact).
 - o Voice revenues declined by 3% to TRY1,664 million (TRY1,709 million) due to the MTR cut impact
 - o Mobile broadband and services revenues rose 19% to TRY701 million (TRY591 million), comprising 30% (26%) of Turkcell Turkey revenues
- The revenues of subsidiaries rose by 36% reaching 21% (16%) of Group revenues. In particular, Turkcell Superonline revenues rose by 27% to TRY237 million (TRY187 million), while Astelit's revenues grew by 12% to US\$124 million (US\$111 million).

On a quarter-on-quarter basis, Group revenues rose by 4%, driven similarly by increased revenues from group companies, as well as the higher mobile broadband and services revenues of Turkcell Turkey.

Third Quarter 2013 Results

Direct cost of revenues climbed 5.4% to TRY1,754.0 million (TRY1,663.6 million) year-on-year, while as a percentage of revenues declined to 58.8% (60.4%) on a consolidated basis. This was due to the lower voice and other revenues due to MTR cuts along with lower interconnect costs. Meanwhile there was an increase in depreciation and amortization expenses and other cost items as a percentage of revenues.

Quarter-on-quarter, direct costs as a percentage of revenues declined 3.2pp, driven mainly by the decrease in interconnect costs and other cost items.

The table below presents the interconnect revenues and costs of Turkcell Turkey:

Million TRY	2012	Q312	Q213	Q313	y/y %	q/q %
Interconnect revenues	1,098.1	308.3	345.8	266.7	(13.5%)	(22.9%)
as a % of revenues	12.6%	13.4%	14.9%	11.3%	(2.1pp)	(3.6pp)
Interconnect costs	(1,125.5)	(308.4)	(330.9)	(249.4)	(19.1%)	(24.6%)
as a % of revenues	(12.9%)	(13.4%)	(14.3%)	(10.5%)	2.9pp	3.8pp

Administrative expenses as a percentage of revenues increased 0.4pp to 4.7% (4.3%) year-on year. This was due to the increase in bad debt expenses (0.3pp) and other cost items (0.1pp). On a quarter-on-quarter basis, administrative expenses as a percentage of revenues rose by 0.2pp driven by the increase in bad debt expenses (0.2pp).

Selling and marketing expenses as a percentage of revenues grew by 0.8pp to 15.3% (14.5%) year-on-year due to the rise in selling expenses (0.9pp), and other cost items (0.3pp) as opposed to the decrease in marketing expenses (0.4pp). Compared to the previous quarter, selling and marketing expenses as a percentage of revenues fell by 0.5pp driven by the decrease in marketing expenses (0.3pp) and other cost items (0.2pp).

EBITDA* rose by 11.4% to TRY1,016.2 million (TRY912.0 million) in Q313 due mainly to strong topline growth, while the EBITDA margin improved by 1.0pp to 34.1% (33.1%). This was due to the 2.2pp decrease in the direct cost of revenues (excl. depreciation and amortization) as a percentage of revenues, as opposed to the rise in selling and marketing expenses by 0.8pp and general administrative expenses by 0.4pp.

The EBITDA margin increased 3.7pp quarter-on-quarter to 34.1%. This was mainly due to the 3.4pp decrease in direct cost of revenues (excl. depreciation and amortization), and the 0.5pp fall in selling and marketing expenses, in contrast to the 0.2pp rise in general administrative expenses.

The EBITDA of subsidiaries improved by 55% to TRY199 million (TRY128 million), while their contribution to Group EBITDA increased to 20% (14%) driven mainly by the improved EBITDA of Turkcell Superonline and Astelit year-on-year. On a quarter-on-quarter basis, the EBITDA of subsidiaries rose by 17%.

Net finance income increased to TRY137.5 million (TRY121.3 million) in Q313 driven mainly by the increased interest income earned on time deposits and contracted receivables.

Compared to the previous quarter, net finance income stayed broadly flat. The increase in interest earned on bank deposits was offset by the translation loss of TRY28 million in Q313 as opposed to the translation gain of TRY12 million in Q213. The translation loss was mainly related to BeST which recorded a TRY40 million loss in Q313 stemming from a 3.3% devaluation of BYR against US\$ during the quarter.

(*EBITDA is a non-GAAP financial measure. See page 12 for the reconciliation of EBITDA to net cash from operating activities.

Third Quarter 2013 Results

Share of profit of equity accounted investees comprising our share in the net income of unconsolidated investees Fintur and A-Tel, rose by 52.5% year-on-year to TRY92.9 million (TRY60.9 million) due mainly to the increase in net income of Fintur, as well as the lower negative contribution from A-Tel. Quarter-on-quarter, our share in the net income of unconsolidated investees grew by 54.8% to TRY92.9 million from TRY60.0 million in Q213 due to the increased net income of Fintur.

Net income rose by 25.7% quarter-on-quarter. This was driven by higher EBITDA, income from equity accounted investees, monetary gain and improvement in the other expense item, the latter including a TRY25.4 million impairment recognized on Aks TV and T-Medya in Q213.

Total debt as of September 30, 2013 was TRY3,205 million (US\$1,576 million) in consolidated terms. The debt balance of Ukraine was TRY1,327 million (US\$652 million), Belarus was TRY1,112 million (US\$547 million) and Turkcell Superonline was TRY639 million (US\$314 million).

Subscribers of Turkcell Turkey increased to 35.0 million with 322 thousand net additions during the quarter, mainly through sustained focus on providing superior customer service and innovative services. We expanded our prepaid subscriber base by 266 thousand, mainly with the seasonality effect, while increasing our postpaid subscriber base by 56 thousand. Accordingly, our postpaid subscriber base as a percentage of our total subscribers has further improved to 39.5% (36.6%).

Churn Rate refers to voluntarily and involuntarily disconnected subscribers. According to the ICTA decision discussed in our Q113 and Q213 press releases, each mobile line registered has to be recorded as a churn and also as an acquisition in operators' records. This practice had an increasing impact on our actual churn rate, which stood at 6.9% (6.9%) year-on-year. Excluding the impact of this decision, our churn rate would have been 6.7%.

MoU increased 5.6% to 271.6 minutes year-on-year driven by higher incentives and higher package utilization.

ARPU (blended) rose 3.2% to TRY22.7 year-on-year driven by the rise in the share of postpaid subscribers along with higher mobile data usage while the MTR cuts did limit the growth. Postpaid ARPU increased to TRY38.5 (TRY38.4), and prepaid ARPU declined by 2.4% to 12.3 (TRY12.6) year-on-year.

The quarter-on-quarter increase in ARPU of both segments was driven mainly by seasonality.

OTHER DOMESTIC AND INTERNATIONAL OPERATIONS

Astelit maintained its strong financial and operational performance in Q313 posting double digit revenue and EBITDA growth. Revenues grew by 11.7% to US\$124.0 million (US\$111.0 million), mainly driven by subscriber growth along with increased usage of mobile data and other value-added services. EBITDA rose to US\$38.2 million (US\$31.7 million) by 20.5%, while the EBITDA margin rose by 2.2pp to 30.8% (28.6%) with the continuing focus on business efficiency and operational profitability. On a quarter-on-quarter basis, revenues increased by 10.2%, while EBITDA rose by 6.7%, due mainly to seasonality.

Astelit's registered subscribers reached 12.2 million (10.7 million) through the targeted regional growth strategy, where its three month active subscribers were at 9.4 million (8.2 million).

ARPU declined by 2.1% year-on-year, mainly due to new subscriber acquisitions with lower ARPU. On a quarter-on-quarter basis, ARPU climbed by 2.2% to US\$4.6, mainly due to seasonality and higher usage of mobile data. Meanwhile, lower usage by new subscribers led to lower MoU of 174.0 minutes (184.4 minutes) in Q313.

(1) We may occasionally offer campaigns and tariff schemes that have an active subscriber life differing from the one that we normally use to deactivate subscribers and calculate churn.

(2) Active subscribers are those who in the past three months made a transaction which brought revenue to the Company.

(3) EBITDA is a non-GAAP financial measurement. See page 12 for the reconciliation of Euroasia's EBITDA to net cash from operating activities. Euroasia holds a 100% stake in Astelit.

Turkcell Superonline sustained its solid performance, posting revenue growth of 27.0% and an EBITDA rise of 44.5% year-on-year. EBITDA margin continued to improve with a 3.0pp year-on-year increase reaching 25.3%, mainly on the rising share of more profitable residential and corporate business segments. The share of residential and corporate segment revenues in total revenues increased to 63% (54%).

Residential segment revenues rose by 56.5% with the increased FTTH subscriber base in Q313. Corporate segment revenues grew by 37.0% with the contribution of the increasing synergies achieved at the Group level and integrated solutions offered.

In Q313, Turkcell Superonline grew its home passes to approximately 1.6 million with continued investment in the fiber network, while expanding its fiber subscriber base to around 521 thousand. Turkcell Superonline will maintain its focus on increasing in city coverage and take-up rate.

The share of non-group revenues increased to 74% (71%) as Turkcell's share in Turkcell Superonline's business continued to decline.

Fintur total subscriber base grew by approximately 1.1 million year-on-year, driven mainly by the 12.6% growth in Kazakhstan. Fintur's consolidated revenue increased to US\$527 million (US\$514 million) in Q313, while rising 3.7% quarter-on-quarter, mainly due to the seasonality effect.

We account for our investment in Fintur using the equity method. Fintur's contribution to net income increased to US\$48 million (US\$42 million) in Q313.

Turkcell Group Subscribers amounted to approximately 70.7 million as of September 30, 2013. This figure is calculated by taking the number of subscribers of Turkcell and each of our subsidiaries and unconsolidated investees. It includes the total number of mobile subscribers of Turkcell Turkey, Astelit and BeST, as well as of our operations in the Turkish Republic of Northern Cyprus (“Northern Cyprus”), Fintur and Turkcell Europe. Turkcell Group subscribers rose by 2.6 million year-on-year, due to Astelit’s increased subscriber base, and the contribution of Fintur and BeST.

*BeST’s churn policy was revised in Q313 as a management decision. With this change, the lifecycle methodology has become in line with the market practice of “180 days after any refill plus 90 days quarantine period”, previously exercised as “180 days after any refill plus 15 days quarantine period”. We estimate that BeST’s total subscribers would have been approximately 85K less should the churn policy have remained unchanged.

RECONCILIATION OF NON-GAAP FINANCIAL MEASUREMENTS: We believe that EBITDA is a measurement commonly used by companies, analysts and investors in the telecommunications industry that enhances the understanding of our cash generation ability and liquidity position, and assists in the evaluation of our capacity to meet our financial obligations. We also use EBITDA as an internal measurement tool, and accordingly, we believe that its presentation provides useful and relevant information to analysts and investors. Our EBITDA definition includes Revenue, Direct Cost of Revenue excluding depreciation and amortization, Selling and Marketing expenses and Administrative expenses, but excludes translation gain/(loss), finance income, share of profit of equity accounted investees, gain on sale of investments, income/(loss) from related parties, minority interest and other income/(expense). EBITDA is not a measure of financial performance under IFRS, and should not be construed as a substitute for net earnings (loss) as a measure of performance, or cash flow from operations as a measure of liquidity. The following table provides a reconciliation of EBITDA, which is a non-GAAP financial measurement, to net cash from operating activities, which we believe is the most directly comparable financial measurement calculated and presented in accordance with IFRS.

Turkcell Iletisim Hizmetleri Anonim Sirketi (the "Company") was incorporated in Turkey on 5 October 1993 and commenced its operations in 1994. The Company primarily is involved in establishing and operating a Global System for Mobile Communications ("GSM") network in Turkey and regional states.

The condensed interim consolidated financial statements of the Company as at and for the nine months ended 30 September 2013 comprise the Company and its subsidiaries (together referred to as the "Group") and the Group's interest in one associate and one joint venture.

The consolidated financial statements of the Company as at and for the year ended 31 December 2012 are available upon request from the Company's registered office at Turkcell Plaza, Mesrutiyet Caddesi No: 71, 34430 Tepebasi / Istanbul or at www.turkcell.com.tr.

2. Basis of preparation

(a) Statement of compliance

The condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards and in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting". They do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2012.

The Group's audited consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 were approved by the Audit Committee and the Board of Directors (Board Resolution dated 23 February 2011 and numbered 797, dated 22 February 2012 and numbered 908 and dated 21 February 2013 and numbered 1019, respectively). However, consolidated financial statements prepared as at and for the year ended 31 December 2010 were not approved by the General Assemblies on 21 April 2011, 11 August 2011 and 12 October 2011. Assemblies on 29 June 2012, 22 May 2013 and 24 June 2013 could not convene since the quorum required had not been reached and the consolidated financial statements prepared as at and for the year ended 31 December 2010, 2011 and 2012 could not be presented for approval.

The Group's condensed interim consolidated financial statements as at and for the period ended 30 September 2013 were approved by the Board of Directors on 24 October 2013.

(b) Basis of measurement

The accompanying consolidated financial statements are based on the statutory records, with adjustments and reclassifications for the purpose of fair presentation in accordance with IFRSs as issued by the International Accounting Standards Board ("IASB"). They are prepared on the historical cost basis adjusted for the effects of inflation during the hyperinflationary periods in accordance with International Accounting Standard No. 29. ("Financial Reporting in Hyperinflationary Economies") ("IAS 29"), where applicable, except that the following assets and liabilities are stated at their fair value: put option liability, derivative financial instruments and financial instruments classified as available-for-sale. Hyperinflationary period lasted by 31 December 2005 in Turkey and commenced on 1 January 2011 in Belarus. In the financial statements of subsidiaries operating in Belarus, restatement adjustments have been made to compensate the effect of changes in the general purchasing power of the Belarusian Ruble in accordance with IAS 29. IAS 29 requires that financial statements prepared in the currency of a hyperinflationary economy be stated in terms of the measuring unit current at the balance sheet date.

(b) Basis of measurement (continued)

The comparative amounts relating to the subsidiaries operating in Belarus in the consolidated financial statements of 2011 and 2012 are not restated. The translation effect of Belarusian Ruble ("BYR") denominated equity accounts determined upon the application of inflation accounting to USD is accounted under translation reserve in the condensed interim consolidated financial statements as at 30 September 2013.

3. Significant accounting policies

The same accounting policies, presentation and methods of computation have been followed in these condensed interim consolidated financial statements as were applied in the preparation of the Group's consolidated financial statements as at and for the year ended 31 December 2012 other than the adoption of the following new standards or amendments to the standards which are effective for the annual periods on or after 1 January 2013.

The effects of the new standards or amendments to the standards adopted are explained in Note 3b.

a) Comparative information and revision of prior period financial statements

The condensed interim consolidated financial statements of the Group have been prepared with the prior periods on a comparable basis in order to give consistent information about the financial position and performance. If the presentation or classification of the financial statements is changed, in order to maintain consistency, the financial statements of the prior periods are also reclassified in line with the related changes.

The Group early adopted the 2011 amendment for International Accounting Standard No. 19 ("IAS 19") "Employee Benefits" which basically requires all actuarial gains and losses to be recognized immediately through other comprehensive income in order to reflect any change in the liability recognized in the consolidated statement of financial position starting from 31 December 2012. As the amendments to IAS 19 require retrospective application, the Group management evaluated the monetary impact of this accounting policy change on the condensed interim consolidated financial statements as at 30 September 2012, and concluded that the net after tax impact is not significant. In this context, the condensed interim consolidated financial statements as at 30 September 2012 are not recast.

b) New and Revised International Financial Reporting Standards

(i) Amendments to IFRSs affecting amounts reported in the condensed interim consolidated financial statements

Amendments to IAS 1 Presentation of Items of Other Comprehensive Income

The amendments to IAS 1 “Presentation of Items of Other Comprehensive Income” are effective for the annual periods beginning on or after 1 July 2012. The amendments introduce new terminology for the statement of comprehensive income and income statement. Under the amendments to IAS 1, the “statement of comprehensive income” is renamed as the “statement of profit or loss and other comprehensive income” and the “statement of income” is renamed as the “statement of profit or loss”. The amendments to IAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to IAS 1 require items of other comprehensive income to be grouped into two categories in the other comprehensive income section: (a) items that will not be reclassified subsequently to profit or loss and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other

comprehensive income is required to be allocated on the same basis. The amendments do not change the option to present items of other comprehensive income either before tax or net of tax. The amendments can be applied retrospectively. Other than the above mentioned presentation changes, the application of the amendments to IAS 1 does not result in any impact on profit or loss, other comprehensive income and total comprehensive income.

Amendments to IAS 1 Clarification of the Requirements for Comparative Information
(as part of the Annual Improvements to IFRSs 2009/2011 Cycle issued in May 2012)

The amendments to IAS 1 as part of the Annual Improvements to IFRSs 2009/2011 Cycle are effective for the annual periods beginning on or after 1 January 2013. IAS 1 requires an entity that changes accounting policies retrospectively, or makes a retrospective restatement or reclassification to present a statement of financial position as at the beginning of the preceding period (third statement of financial position). The amendments to IAS 1 clarify that an entity is required to present a third statement of financial position only when the retrospective application, restatement or reclassification has a material effect on the information in the third statement of financial position and that related notes are not required to accompany the third statement of financial position.

New and revised Standards on consolidation, joint arrangements, associates and disclosures

In May 2011, a package of five Standards on consolidation, joint arrangements, associates and disclosures was issued, including IFRS 10, IFRS 11, IFRS 12, IAS 27 (as revised in 2011) and IAS 28 (as revised in 2011).

Key requirements of these five Standards are described below.

IFRS 10 replaces the parts of IAS 27 Consolidated and Separate Financial Statements that deal with consolidated financial statements. SIC - 12 Consolidation - Special Purpose Entities will be withdrawn upon the effective date of IFRS 10. Under IFRS 10, there is only one basis for consolidation that is control. In addition, IFRS 10 includes a new definition of control that contains three elements: (a) power over an investee, (b) exposure, or rights, to variable returns from its involvement with the investee, and (c) the ability to use its power over the investee to affect the amount of the investor's return. Extensive guidance has been added in IFRS 10 to deal with complex scenarios.

IFRS 11 replaces IAS 31 Interests in Joint Ventures. IFRS 11 deals with how a joint arrangement of which two or more parties have joint control should be classified. SIC - 13 Jointly Controlled Entities - Non-monetary Contributions by Venturers will be withdrawn upon the effective date of IFRS 11. Under IFRS 11, joint arrangements are classified as joint operations or joint ventures, depending on the rights and obligations of the parties to the arrangements. In contrast, under IAS 31, there are three types of joint arrangements: jointly controlled entities, jointly controlled assets and jointly controlled operations. In addition, joint ventures under IFRS 11 are required to be accounted for using the equity method of accounting, whereas jointly controlled entities under IAS 31 can be accounted for using the equity method of accounting or proportional consolidation.

IFRS 12 is a disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in IFRS 12 are more extensive than those in the current standards.

New and revised Standards on consolidation, joint arrangements, associates and disclosures (continued)

In June 2012, the amendments to IFRS 10, IFRS 11 and IFRS 12 were issued to clarify certain transitional guidance on the application of these IFRSs for the first time.

The application of these five standards did not have significant impact on amounts reported in the condensed interim consolidated financial statements.

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The Standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The scope of IFRS 13 is broad; it applies to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. In general, the disclosure requirements in IFRS 13 are more extensive than those required in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only under IFRS 7 Financial Instruments: Disclosures will be extended by IFRS 13 to cover all assets and liabilities within its scope.

The application of the new Standard did not have significant impact on the condensed interim consolidated financial statements.

Amendments to IFRS 7 Financial Instruments: Disclosures – Offsetting Financial Assets and Financial Liabilities

The amendments to IFRS 7 require entities to disclose information about rights of offset and related arrangements (such as collateral posting requirements) for financial instruments under an enforceable master netting agreement or

similar arrangement.

Amendments to IFRS 7 are effective for annual periods beginning on or after 1 January 2013. These amendments should be applied retrospectively to the all financial statements presented.

Annual Improvements to IFRSs 2009/2011 Cycle issued in May 2012

The Annual Improvements to IFRSs 2009/2011 Cycle include a number of amendments to various IFRSs. The amendments are effective for annual periods beginning on or after 1 January 2013. The Amendments to IFRSs include:

- Amendments to IAS 16 Property, Plant and Equipment
- Amendments to IAS 32 Financial Instruments: Presentation
- Amendments to IAS 34 Interim Financial Reporting.

Amendments to IAS 16

The amendments to IAS 16 clarify that spare parts, stand-by equipment and servicing equipment should be classified as property, plant and equipment when they meet the definition of property, plant and equipment in IAS 16 and as inventory otherwise. The amendments to IAS 16 did not have a significant effect on the Group's consolidated financial statements.

Amendments to IAS 32

The amendments to IAS 32 clarify that income tax relating to distributions to holders of an equity instrument and to transaction costs of an equity transaction should be accounted for in accordance with IAS 12 Income Taxes. The amendments to IAS 32 did not have a significant effect on the Group's condensed interim consolidated financial statements.

Amendments to IAS 34

The amendments to IAS 34 clarify that disclosure of the total assets and total liabilities for a particular reportable segment is only required if a measure of total assets or total liabilities (or both) is regularly provided to the chief operating decision maker and there has been a material change in those measures since the last annual financial statements. The amendments to IAS 34 did not have an effect on the Group's consolidated financial statements.

IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine

IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine applies to waste removal costs that are incurred in surface mining activity during the production phase of the mine (production stripping costs). Under the Interpretation, the costs from this waste removal activity (stripping) which provide improved access to ore is recognized as a non-current asset (stripping activity asset) when certain criteria are met, whereas the costs of normal on-going operational stripping activities are accounted for in accordance with IAS 2 Inventories. The stripping activity asset is accounted for as an addition to, or as an enhancement of, an existing asset and classified as tangible or intangible according to the nature of the existing asset of which it forms part.

IFRIC 20 is effective for annual periods beginning on or after 1 January 2013. Specific transitional provisions are provided to entities that apply IFRIC 20 for the first time. However, IFRIC 20 must be applied to production stripping costs incurred on or after the beginning of the earliest period presented. The Group management anticipates that IFRIC 20 will have no effect to the Group's financial statements as the Group does not engage in such activities.

IFRS 9 Financial Instruments

IFRS 9, issued in November 2009, introduces new requirements for the classification and measurement of financial assets. IFRS 9 was amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition.

Key requirements of IFRS 9:

- All recognized financial assets that are within the scope of IAS 39 Financial Instruments: Recognition and Measurement to be subsequently measured at amortized cost or fair value. Specifically, debt investments that are

held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost at the end of subsequent accounting periods. In addition, under IFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognized in profit or loss.

- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, IFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability, is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Previously, under IAS 39, the entire amount of the change in the fair value of the financial liability designated as at fair value through profit or loss was presented in profit or loss.

(iii) New and revised IFRSs in issue but not yet effective (continued)

IFRS 9 Financial Instruments (continued)

IFRS 9 was amended to defer the mandatory effective date of both the 2009 and 2010 versions of IFRS 9 to annual periods beginning on or after 1 January 2015. Prior to the amendments, application of IFRS 9 was mandatory for annual periods beginning on or after 1 January 2013. The amendments continue to permit early application. The amendments modify the existing comparative transition disclosures in IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" and IFRS 7 "Financial Instruments: Disclosures". Instead of requiring restatement of comparative financial statements, entities are either permitted or required to provide modified disclosures on transition from IAS 39 "Financial Instruments: Recognition and Measurement" to IFRS 9 depending on the entity's date of adoption and whether the entity chooses to restate prior periods.

The Group management anticipates that the application of IFRS 9 in the future may have significant impact on amounts reported in respect of the Group's financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

Amendments to IFRS 10, 11, IAS 27 Investment Entities

The IASB has published "Investment Entities (Amendments to IFRS 10, IFRS 12 and IAS 27)", providing an exemption from consolidation of subsidiaries under IFRS 10 'Consolidated Financial Statements' for entities which meet the definition of an "investment entity", such as certain investment funds. Instead, such entities would measure their investment in particular subsidiaries at fair value through profit or loss in accordance with IFRS 9 "Financial Instruments" or IAS 39 "Financial Instruments: Recognition and Measurement".

Amendments to IAS 32 Offsetting Financial Assets and Financial Liabilities

The amendments to IAS 32 clarify existing application issues relating to the offset of financial assets and financial liabilities requirements. Specifically, the amendments clarify the meaning of "currently has a legally enforceable right

of set-off” and “simultaneous realization and settlement”.

The Group management anticipates that the application of these amendments to IAS 32 may result in more disclosures being made with regard to offsetting financial assets and financial liabilities in the future.

Amendments to IAS 39 Novation of Derivatives and Continuation of Hedge Accounting

IASB has issued “Novation of Derivatives and Continuation of Hedge Accounting” (Amendments to IAS 39 “Financial Instruments: Recognition and Measurement”). Under the amendments there would be no need to discontinue hedge accounting if a hedging derivative was novated, provided certain criteria are met. The amendments are effective for annual periods beginning on or after 1 January 2014, with earlier application being permitted.

Amendments to IAS 36 Recoverable Amount Disclosures for Non-Financial Assets

The International Accounting Standards Board, as a consequential amendment to IFRS 13 "Fair Value Measurement", modified some of the disclosure requirements in IAS 36 "Impairment of Assets" regarding measurement of the recoverable amount of impaired assets. However, one of the amendments potentially resulted in the disclosure requirements being broader than originally intended. The IASB has rectified this through the issue of "Recoverable Amount Disclosures for Non-Financial Assets (Amendments to IAS 36)".

IFRIC 21 Levies

IFRIC 21 provides guidance on when to recognise a liability for a levy imposed by a government, both for levies that are accounted for in accordance with IAS 37 "Provisions, Contingent Liabilities and Contingent Assets" and those where the timing and amount of the levy is certain.

4. Critical accounting judgments and key sources of estimation uncertainty

Key sources of estimation uncertainty

Belarus

Following severe balance of payments crisis in 2011, the economic data indicates that the Belarusian economy stabilized. This reflected the authorities' tightening of economic policies in late 2011 that was successful in reducing inflation and stabilizing the foreign exchange market. However, Belarusian economy grew only 1.5% in 2012 as the authorities failed to capitalize on improved competitiveness after the sharp currency depreciation in 2011. On the positive side, inflation fell sharply from over 100% at the end of 2011 to almost 22% in 2012. During 2012, National Bank of the Republic Belarus ("NBRB") has been gradually decreased the refinance rate by 15 percentage points during 2012, from 45% to 30% per annum.

As of September 2013, the inflation rate stood at 15.4% for the last twelve months. NBRB cut the refinancing rate 1.5 percentage points to 23.5% in June. This was the fourth and last rate cut this year, bringing the total amount of easing to 6.5 percentage points in 2013. Despite the slowdown in inflation, the National Bank decided to leave the refinancing rate unchanged again at 23.5% due to concerns about external imbalances and currency stability.

NBRB has stabilized foreign exchange market with the help of a “managed float” exchange policy. As the cumulative inflation in the last three years exceeded 100%, Belarus was considered a hyperinflationary economy. In this context, IAS 29 “Reporting in Hyperinflationary Economies” is applied by subsidiaries operating in Belarus in financial statements starting from their annual financial statements for the year ending 31 December 2011.

Although downside economic risks have been reduced, macroeconomic stability is still fragile. Given Belarus’ limited currency reserves coupled with the high debt repayments due this year and the negative current account balance, these factors create inflationary pressure. The softer monetary policy may be premature and may result in deterioration of Belarus’ macroeconomic stability. Lower rates stimulate credit and economic activity, but they also stimulate imports and make BYR deposits less attractive, which may result in a higher demand for currency.

4. Critical accounting judgments and key sources of estimation uncertainty (continued)

Key sources of estimation uncertainty (continued)

Ukraine

The broader economy of Ukraine remains in a recession and Ukraine's credit rating was downgraded in September 2013. This negative indicators highlighted concerns about Ukraine's external liquidity position, increased downside risk related to future negotiations with the International Monetary Fund ("IMF") and increased political and economic risks due to deteriorating relations with Russia. In this respect, Ukraine's economy is vulnerable to tighter external financing conditions and foreign reserves have fallen by 43% over the last two years to USD 21.7 million (to less than three months import cover) as the Central Bank has sought to defend its exchange rate peg. A lower level of foreign currency reserves implies a higher vulnerability to shocks and greater risks to market expectations. On the current policy of holding the Ukrainian Hryvnia ("HRV"), Ukraine risks stagnation, as it keeps policy tight, and a crisis, if it runs out of reserves and there is an uncontrolled weakening in HRV. The challenging reserve situation may trigger a change of foreign currency policy, leading to an IMF deal, a weaker and flexible HRV currency and a return to growth.

Therefore, economic uncertainties are likely to continue in the foreseeable future for these countries. Current and potential future political and economic changes in Belarus and Ukraine could have an adverse effect on the subsidiaries operating in these countries. The economic stability of Belarus and Ukraine depends on the economic measures that will be taken by the governments and the outcomes of the legal, administrative and political processes in these countries. These processes are beyond the control of the subsidiaries established in these countries.

Consequently, the subsidiaries operating within Belarus and Ukraine may subject to the risks, i.e. foreign currency and interest rate risks related to borrowings and the subscriber's purchasing power and liquidity and increase in corporate and personal insolvencies, that may not necessarily be observable in other markets. The accompanying condensed interim consolidated financial statements contain the Group management's estimations on the economic and financial positions of its subsidiaries operating in Belarus and Ukraine. The future economic situation of Belarus and Ukraine might differ from the Group's expectations. As of 30 September 2013, the Group's management believes that their approach is appropriate in taking all the necessary measures to support the sustainability of these subsidiaries' businesses in the current circumstances.

5. Operating Segments

The Group has three reportable segments, as described below, which are based on the dominant source and nature of the Group's risk and returns as well as the Group's internal reporting structure. These strategic segments offer the same types of services, however they are managed separately because they operate in different geographical locations and are affected by different economic conditions.

The Group comprises the following main operating segments: Turkcell, Euroasia and Belarusian Telecom, all of which are GSM operators in their countries.

Other operations mainly include companies operating in telecommunication and betting businesses and companies provide internet and broadband services, call center and value added services.

Information regarding the operations of each reportable segment is included below. Adjusted EBITDA is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Adjusted EBITDA definition includes revenue, direct cost of revenues excluding depreciation and amortization, selling and marketing expenses and administrative expenses. Adjusted EBITDA is not a financial measure defined by IFRS as a measurement of financial performance and may not be comparable to other similarly-titled indicators used by other companies.

The accounting policies of operating segments are the same as those described in the summary of significant accounting policies.

6. Seasonality of operations

The Turkish mobile communications market is affected by seasonal peaks and troughs. Historically, the effects of seasonality on mobile communications usage had positively influenced the Company's results in the second and third quarters of the fiscal year and negatively influenced the results in the first and fourth quarters of the fiscal year. Recently, however, due to changing market dynamics, such as the ICTA's intervention in tariffs and increasing competition in the Turkish telecommunications market, the effects of seasonality on the Company's subscribers' mobile communications usage has decreased. Local and religious holidays in Turkey also affect the Company's operational results.

7. Finance income and costs

Net finance income or cost amounts to \$221,722, \$216,266, \$72,081 and \$67,006 for the nine and three months ended 30 September 2013 and 2012, respectively. Net finance income for the nine and three months ended 30 September 2013 and 2012 is mainly attributable to the interest income on bank deposits.

8. Income tax expense

Effective tax rates are 21%, 19%, 21%, 22% for the nine and three months ended 30 September 2013 and 2012, respectively.

9. Acquisition of subsidiaries

Acquisition of Deksarnet Telekomunikasyon AS

On 7 March 2013, Superonline Iletisim Hizmetleri AS ("Turkcell Superonline") signed a Share Purchase Agreement ("SPA") to acquire 100% stake in Deksarnet Telekomunikasyon AS ("Deksarnet"), which is specialized in rendering of telecommunications services. On 1 July 2013, the control over Deksarnet is acquired from Vestel Elektronik San. ve Tic. AS for a nominal consideration of \$1,750 and the payment will be made through 12 equal monthly installments.

Subsequent to the acquisition, Deksarnet reported revenue of \$1,141 and profit of \$328. Since Deksarnet's statement of profit or loss prepared in accordance with IFRS for the year ended 31 December 2012 is not available, the estimated revenue and profit or loss for the current reporting period if the acquisition had occurred on 1 January 2013 could not

be disclosed.

11.Intangible assets

Impairment testing for long-lived assets

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Long-lived assets were tested for impairment as at 31 December 2012. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets, cash generating units. As at 31 December 2012, impairment test for long-lived assets of Astelit is made on the assumption that Astelit is the cash generating unit.

As the recoverable amounts based on the value in use of cash generating units was higher than the carrying amount of cash-generating units of Astelit, no impairment was recognized. The assumptions used in value in use calculation of Astelit were:

A 14.9% post-tax WACC rate for 2013 to 2017, a 14.8% post-tax WACC rate for after 2017 and 2.5% terminal growth rate were used to extrapolate cash flows beyond the 5-year forecasts based on the business plans. Independent appraisal was obtained for fair value to determine recoverable amounts for Astelit. The pre-tax rate for disclosure purposes was 14.90%.

Impairment testing for cash-generating unit containing goodwill

Goodwill allocated to cash generating units and carrying values of all cash generating units are annually tested for impairment. The recoverable amounts (that is, higher of value in use and fair value less cost to sell) are normally determined on the basis of value in use, applying discounted cash flow calculation. Independent appraisals were obtained for fair values to determine recoverable amounts for Belarusian Telecom and Turkcell Superonline as at 31 December 2012.

In calculating the net present value of the future cash flows, certain assumptions are required to be made in respect of highly uncertain matters including management's expectations of growth in EBITDA, calculated as results from operating activities before depreciation and amortization and other income /(expenses), timing and quantum of future capital expenditure, long term growth rates, and the selection of discount rates to reflect the risks involved.

Belarusian Telecom

As at 31 December 2012, impairment test was performed for Belarusian Telecom and after tax impairment at the amount of \$5,075 was calculated for the cash-generating unit, allocated to the fixed assets of the cash-generating unit on a pro-rata basis based on the carrying amount of each asset in the cash-generating unit and included in depreciation expense. Tax effect of the long-lived asset impairment of \$1,720 is included in deferred taxation benefit.

Value in use was determined by discounting the expected future cash flows to be generated by the cash-generating unit and the terminal value. The calculation of the value in use was based on the following key assumptions:

The projection period for the purposes of impairment testing was taken as 5 years between 1 January 2013 and 31 December 2017. Cash flows for further periods (perpetuity) were extrapolated using a constant growth rate of 3.0% which does not exceed the estimated average growth rate for Belarus.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

11.Intangible assets (continued)

Impairment testing for cash-generating unit containing goodwill (continued)

Belarusian Telecom (continued)

A 16.7% post-tax WACC rate for 2013 to 2017, a 16.5% post-tax WACC rate for after 2017 were applied in determining the recoverable amount of the cash-generating unit. The post-tax rate was adjusted considering the tax cash outflows and other future tax cash flows and discrepancies between the cost of the assets and their tax bases. The pre-tax rate for disclosure purposes was 18.32%.

Turkcell Superonline

As at 31 December 2012, the aggregate carrying amount of goodwill allocated to Turkcell Superonline is \$18,419 including \$80 goodwill as a result of Global Iletisim acquisition and merger. As the recoverable value based on the value in use of the cash generating units was estimated to be higher than carrying amount, no impairment was required for goodwill arising from the acquisition of Superonline as at 31 December 2012. The calculation of the value in use was based on the following key assumptions:

Values assigned to EBITDA for the periods forecasted include the expected synergies to be achieved from operating as a part of the Group. Values assigned to this key assumption reflect past experience except for efficiency improvements and synergies. Management believes that any reasonably possible change in the key assumptions on which Superonline recoverable amount is based would not cause Superonline's carrying amount to exceed its recoverable amount.

The projection period for the purposes of goodwill impairment testing was taken as 7 years between 1 January 2013 and 31 December 2019.

Cash flows for further periods (perpetuity) were extrapolated using a constant growth rate of 3.1%. This growth rate does not exceed the long-term average growth rate for the market in which Superonline operates.

A 14.6% post-tax WACC rate for 2013 to 2016, a 14.3% post-tax WACC rate for after 2016 were applied in determining the recoverable amount of the cash-generating unit. Discounting post-tax cash flows at a post-tax

discount rate and discounting pre-tax cash flows at pre-tax discount rate gave same results, since the pre-tax discount rate is the post-tax discount rate adjusted to reflect the specific amount and timing of the future tax cash flows. For disclosure purposes pre-tax discount rate is 16.1%.

19. Loans and borrowings (continued)

As of 1 February 2012, Astelit had debt repayments related to Euroasia Loan in the amount of \$150,165 and to Financell Loans in the amount of \$172,799. Since June 2011, Astelit has not met the payment obligations, which were waived until 1 February 2012. Since that date, the Board of Directors of the Company has not acted to approve or reached a consensus for the extension of repayment dates. As a result, Astelit was unable to meet its repayment obligations in relation to Euroasia and Financell Loans totaling \$322,964 and defaulted on its loan agreements (As of 30 September 2013, due to Astelit executing partial payments, Astelit's accrued obligations under its loans to Financell and Euroasia Telecommunications Holding BV ("ETH") has decreased to a total of \$598,309). As a consequence of Astelit's default, cross default clauses have been triggered on five loan agreements totaling \$553,886 (currently decreased to \$204,718 on three loan agreements following the Company's \$150,000 guarantee payment and other principle payments) and waivers were obtained for the aforementioned loans before 30 September 2013. In the context of guarantees, Financell has pledges on shares and all assets of Astelit including bank accounts. Additionally, Financell has a second priority pledge on Euroasia shares held by System Capital Management Limited together with a guarantee and indemnity given by System Capital Management Limited. Financell has rights to initiate legal proceedings arising out of pledges and guarantee under certain conditions.

In the same vein, Euroasia, a Group company that is a 100% shareholder of Astelit, which had previously borrowed \$150,000 to finance Astelit, also defaulted on its loan on 30 March 2012. As a guarantor, the Company paid \$150,000 to related banks on 6 April 2012. In relation to the guarantee agreement, a first priority pledge on Euroasia shares held by System Capital Management Limited has been established in favor of the Company. Upon payment of the guaranteed amount, the Company has the right to initiate legal proceedings arising out of this pledge on the Euroasia shares under certain conditions. As a consequence of Euroasia's default, cross default clauses have been triggered on four loan agreements (the same ones referenced above, currently decreased to three loan agreements) currently totaling \$204,718. Since waivers for these defaults including any future non-payments of Astelit were received on 25 July 2012, these borrowings have been classified according to the maturities of their respective borrowing agreements in the statement of financial positions as of 30 September 2013 and 31 December 2012.

With respect to the amounts due to Financell, the Board of Directors of the Company decided to extend a guarantee to Financell in order to perform its obligations with respect to the loans granted by the banks for providing Group financing. The guarantee will be limited to \$410,650 principal amount plus interest and any other costs, expenses and fees that may accrue. This guarantee includes currently unmet debt repayments under the loan agreements signed between Astelit and Financell, and of the loans that Financell granted to Astelit which have not yet fallen due.

22. Commitments and Contingencies

Onerous contracts

The Company won the tender regarding the construction and operation of mobile communication infrastructure in rural areas ("Evrensel Project") with Ministry of Transport, Maritime Affairs and Communications on 13 January 2013. The Company is liable to complete the construction for a predetermined amount in TL while the most of the expenditures are in foreign currencies. The appreciation in the foreign exchange rates in 2013 caused the unavoidable costs of meeting the obligations to exceed the economic benefits expected to be received from this contract. Therefore; the Company accrued a provision before tax effect amounting to \$20,284 for the difference between unavoidable costs and benefits expected to be received for this onerous contract. However, the Company also increased the foreign currency denominated bank deposits position within the period of undertaking the project in order to hedge against the currency risk associated with the contract and additionally recognized foreign exchange gains over these deposits as a result of the appreciation in the foreign exchange rates in the condensed interim consolidated financial statements for the nine months period ended 30 September 2013.

Legal Proceedings

The Group is involved in various claims and legal actions arising in the ordinary course of business described below.

Dispute with Turk Telekom with respect to call termination fees

Upon application of Turk Telekom, the ICTA has set temporary (and after final) call termination fees for calls to be applied between Turk Telekom and the Company starting from 10 August 2005. However, Turk Telekom did not apply these termination fees for the international calls.

Therefore, on 22 December 2005, the Company filed a lawsuit against Turk Telekom to cease this practice and requested collection of its damages amounting to TL 11,274 (equivalent to \$5,542 as at 30 September 2013) with overdue interest amounting TL 521 (equivalent to \$256 as at 30 September 2013) and late payment fee amounting TL 175 (equivalent to \$86 as at 30 September 2013) totaling to TL 11,970 (equivalent to \$5,884 as at 30 September 2013) covering the period from August 2005 until October 2005. Expert reports and supplementary expert reports which are obtained for the lawsuit, affirm justification of the Company.

On 19 December 2006, the Company initiated another lawsuit against Turk Telekom claiming that Turk Telekom has not applied call termination tariffs for international calls set by ICTA for the period between November 2005 and October 2006 amounting to TL 23,726 (equivalent to \$11,664 as at 30 September 2013) including principal, interest and penalty on late payment. The Court decided to consolidate this lawsuit with the first lawsuit dated 22 December 2005.

On 2 November 2007, the Company initiated another lawsuit against Turk Telekom claiming that Turk Telekom has not applied call termination tariffs for international calls set by ICTA for the period between November 2006 and February 2007 amounting to TL 6,836 (equivalent to \$3,361 as at 30 September 2013) including principal, interest and penalty on late payment. The Court also decided to consolidate this lawsuit with the first lawsuit dated 22 December 2005.

Dispute with Turk Telekom with respect to call termination fees (continued)

On 28 September 2011, the Court decided in favor of the Company for all consolidated cases. The Court decided that Turk Telekom should pay to the Company in total TL 42,597 (equivalent to \$20,940 as at 30 September 2013) plus VAT and Special Communication Tax ("SCT") composed of principle amounting to TL 36,502 (equivalent to \$17,944 as at 30 September 2013), interest and penalty amounting to TL 6,095 (equivalent to \$2,996 as at 30 September 2013). The Court also decided that Turk Telekom should pay interest, penalty, VAT and SCT calculated for the principal from date of case to the payment date. Turk Telekom appealed the decision. The Company replied this appeal request. Appeal process is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2013 (31 December 2012: None).

Dispute on Turk Telekom transmission lines leases

Effective from 1 July 2000, Turk Telekom annulled the discount of 60% that it provided to the Company based on its regular ratio, which had been provided for several years, and, at the same time, Turk Telekom started to provide a discount of 25% being subject to certain conditions. The Company filed a lawsuit against Turk Telekom for the application of the agreed 60% discount. However, on 30 July 2001, the Company had been notified that the court of appeal upheld the decision made by the commercial court allowing Turk Telekom to terminate the 60% discount. Differences in the total nominal rent for the concerned period amounting to TL 29,125 (equivalent to \$14,318 as at 30 September 2013) have been accrued by Turk Telekom and deducted from the receivables of the Company. Accordingly, the Company paid and continues to pay transmission fees to Turk Telekom based on the 25% discount. Although Turk Telekom did not charge any interest on late payments at the time of such payments, the Company recorded an accrual amounting to a nominal amount of TL 3,023 (equivalent to \$1,486 as at 30 September 2013) for possible interest charges as at 31 December 2000. On 9 May 2002, Turk Telekom requested an interest amounting to a nominal amount of TL 30,068 (equivalent to \$14,781 as at 30 September 2013).

The Company did not agree with Turk Telekom's interest calculation and, accordingly, obtained an injunction from the commercial court to prevent Turk Telekom from collecting any amounts relating to this interest charge. Also, the Company initiated a lawsuit against Turk Telekom on the legality of such interest. On 25 December 2008, the Court rejected the case. The Company appealed the decision. The Supreme Court rejected the appeal. The Company applied for the correction of the decision. The Supreme Court rejected the correction of the decision request and the decision is finalized.

Based on the management opinion, the Company accrued provision of TL 91,864 (equivalent to \$45,160 as at 30 September 2013) and the Company netted off the whole amount from the receivables from Turk Telekom as at 30 September 2013.

Legal Proceedings (continued)

Dispute on Turk Telekom transmission lines leases (continued)

Additionally, a lawsuit was commenced against Turk Telekom on 28 October 2010 to collect the receivable amounting to principal of TL 23,378 (equivalent to \$11,492 as at 30 September 2013), overdue interest of TL 3,092 (equivalent to \$1,520 as at 30 September 2013) and delay fee of TL 1,925 (equivalent to \$946 as at 30 September 2013), with the contractual default interest until payment date on the ground that the above mentioned exercise is contrary to the term of the contract which is effective for the year 2000, Turk Telekom has already collected the whole amount which is subjected to the related court decision as of 31 October 2009 and Turk Telekom collected additional receivable. The Court decided to obtain an expert report. The expert committee submitted their report to the Court. The expert report is in favor of the Company. The Company increased its claim from Turk Telekom by TL 2,100 (equivalent to \$1,032 as at 30 September 2013). The Court decided to obtain a supplementary expert report from the same expert committee. The supplementary expert report supports the Company's arguments. The Court decided to obtain another supplementary expert report from the same expert committee. The second supplementary expert report is delivered to the Company and this report is also in favor of the Company. The lawsuit is still pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2013 (31 December 2012: None).

Dispute regarding the fine applied by the Competition Board

The Competition Board commenced an investigation of business dealings between the Company and the mobile phone distributors in October 1999. The Competition Board decided that the Company disrupted the competitive environment through an abuse of a dominant position in the Turkish mobile market and infringements of certain provisions of the Law on the Protection of Competition. As a result, the Company was fined a nominal amount of approximately TL 6,973 (equivalent to \$3,428 as at 30 September 2013) and was enjoined to cease these infringements. The Company initiated a lawsuit before Council of State for the injunction and cancellation of the decision. On 15 November 2005, the Court cancelled the Competition Board's decision.

After the cancellation of the Competition Board's decision, the Competition Board has given the same decision again on 29 December 2005. On 10 March 2006, the Company initiated a lawsuit before Council of State for the injunction and cancellation of the Competition Board's decision dated 29 December 2005. On 13 May 2008, Council of State dismissed the lawsuit. The Company appealed the decision. The Plenary Session of Administrative Law Divisions of the Council of State rejected the Company's request for appeal. The Company applied for the correction of the decision.

Based on the decision of Competition Board, Ankara Tax Office requested the Company to pay TL 6,973 (equivalent to \$3,428 as at 30 September 2013) through the payment order dated 4 August 2006. On 25 September 2006, the Company made the related payment and initiated a lawsuit for the cancellation of this payment order. The Court dismissed the lawsuit. Thereupon the Company appealed this decision. On 17 March 2009, Council of State reversed the judgment of the Local Court. Local Court decided in line with the decision of Council of State. On 18 December 2009, the Court rejected the case and the Company also appealed this decision. Council of State reversed the judgment of the Instance Court. Local Court decided in line with the decision of Council of State. On 15 June 2011, the Court rejected the case again.

Dispute regarding the fine applied by the Competition Board (continued)

The Company also appealed this decision. Council of State accepted the Company's stay of order requests at appeal phase. Council of State reversed the judgment of the Instance Court again. The Inheritance and Charges Tax Office applied for the correction of the decision. The Company replied this request.

Since it is not virtually certain that an inflow of economic benefits will arise, no asset or related income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2013 (31 December 2012: None).

Dispute regarding the fine applied by the Competition Board regarding mobile marketing activities

The Competition Board decided to initiate an investigation in order to identify whether the Company maintains exclusive activities on mobile marketing and their appropriateness with respect to competition rules. On 23 December 2009, Competition Board decided that the Company violates competition rules in GSM and mobile marketing services and fined the Company amounting to TL 36,072 (equivalent to \$17,733 as at 30 September 2013). The payment was made within 1 month following the notification of the decision of the Competition Board. Therefore, 25% discount was applied and TL 27,054 (equivalent to \$13,300 as at 30 September 2013) is paid as the monetary fine on 25 May 2010. The Company filed a legal case on 25 June 2010 for the stay of execution and cancellation of the aforementioned decision. The Court rejected the Company's stay of execution request. The Company objected to the decision. The objection was rejected. The lawsuit is still pending.

Avea, depending on the Competition Board decision, initiated a lawsuit against the Company claiming a compensation from the Company for its damages amounting to TL 1,000 (equivalent to \$492 as at 30 September 2013), with reservation of further claims, on the ground that the Company violated the competition. During the judgment, Avea increased its request of material compensation to TL 5,000 (equivalent to \$2,458 as at 30 September 2013) and in addition requested TL 1,000 (equivalent to \$492 as at 30 September 2013) for non-pecuniary damages. The Court decided to separate these requests and to reject the lawsuits demanding compensation and moral damages. Avea appealed the case. The Company has submitted its response to appeal. Appeal process is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2013 (31 December 2012: None).

Dispute on National Roaming Agreement

The Company conducted roaming negotiations in 2001 with Is-Tim Telekomunikasyon Hizmetleri AS (“Is-Tim”) which was a GSM operator, performing since March 2001. On 19 October 2001, upon unsuccessful negotiations, ICTA granted time for the Company until 15 November 2001 to sign the roaming agreement with the determined conditions and requested parties to come to an agreement until 15 November 2001. The Company initiated a lawsuit on the ground that ICTA has no power of intervention; its proposals are impossible from technical aspects and unacceptable from economic reasons. Council of State gave a decision on non-necessity of a new decision on the ground that action which is subjected to the lawsuit is cancelled by another state council decision. This decision was appealed by ICTA. Council of State, Plenary Session of the Chamber for Administrative Divisions decided to approve the court decision.

Dispute on National Roaming Agreement (continued)

In a letter dated 14 March 2002, the ICTA subjected Is-Tim's request for national roaming to the condition that it is reasonable, economically proportional and technically possible. Nevertheless, the ICTA declared that the Company is under an obligation to enter a national roaming agreement with Is-Tim within a 30 day period. The Company initiated a lawsuit against ICTA. On 14 March 2006, Council of State decided to cancel the process dated 14 March 2002 but rejected the Company's request for cancellation of the regulation on procedures and policies with respect to national roaming. ICTA appealed the decision. Plenary Session of Administrative Law Divisions of the Council of State has decided to approve the decision of the Council of State.

The ICTA decided that the Company has not complied with its responsibility under Turkish regulations to provide national roaming and fined the Company by nominal amount of approximately TL 21,822 (equivalent to \$10,728 as at 30 September 2013). On 7 April 2004, the Company made the related payment with its accrued interest. On 27 May 2004, the Company filed a lawsuit. On 3 January 2005, with respect to the Council of State's injunction, ICTA paid back nominal amount of TL 21,822 (equivalent to \$10,728 as at 30 September 2013).

On 13 December 2005, Council of State decided the cancellation of the administrative fine but rejected the Company's request for cancellation of the regulation on procedures and policies with respect to national roaming. ICTA appealed the decision. Plenary Session of Administrative Law Divisions of the Council of State has decided to approve the decision of the Council of State. On 22 July 2010, the Company initiated a lawsuit against ICTA for the compensation of TL 7,111 (equivalent to \$3,496 as at 30 September 2013) and accrued interest for the total amount of the damage of the Company between the period when the Company made the payment and ICTA returned the same amount to the Company as the result of the stay of execution decision. The Court partially accepted the lawsuit and decided that ICTA should pay TL 6,505 (equivalent to \$3,198 as at 30 September 2013) to the Company with the accrued interest. On 15 April 2013, ICTA paid TL 6,505 (equivalent to \$3,198 as at 30 September 2013) with its accrued interest amounting to TL 1,596 (equivalent to \$785 as at 30 September 2013) to the Company. ICTA appealed the decision. Thereupon, the Company replied to this request and also appealed the parts of the decision that The Court rejected against the Company. The Council of State rejected ICTA's request for the stay of execution during the appeal process.

Although payment was received from ICTA, the Court decision is not finalized. Therefore, it is not virtually certain that an inflow of economic benefits will arise, and no income is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2013 (31 December 2012: None).

Dispute regarding the fine applied by ICTA on pricing applications of the Company

On 7 April 2010, ICTA decided to impose administrative fine to the Company amounting to TL 4,008 (equivalent to \$1,970 as at 30 September 2013) for misinforming the Authority and TL 374 (equivalent to \$184 as at 30 September 2013) for making some subscribers suffer. The payment was made within 1 month following the notification of the decision of the ICTA. Therefore, 25% discount was applied and TL 3,287 (equivalent to \$1,616 as at 30 September 2013) is paid in total as the administrative fine on 9 June 2010. The Company filed two lawsuits on 22 September 2010 for the stay of execution and cancellation of the aforementioned decision. The Court rejected the Company's stay of execution requests and the Company objected to the decisions but the objections are rejected. On 28 April 2011, the Court rejected the cases. The Company appealed the decisions. Council of State rejected the Company's stay of execution requests at appeal phase. Appeal processes are pending.

Dispute regarding of the fine applied by ICTA on pricing applications of the Company(continued)

Dispute regarding the fine applied by ICTA on tariffs above upper limits

On 21 April 2010, ICTA decided to impose administrative fine to the Company amounting to TL 53,467 (equivalent to \$26,284 as at 30 September 2013) by claiming that the Company applied tariffs above the upper limits of GSM-GSM in GSM Upper Limits Table approved by ICTA on 25 March 2009. The payment was made within 1 month following the notification of the decision of the ICTA. Therefore, 25% discount was applied and TL 40,100 (equivalent to \$19,713 as at 30 September 2013) is paid as the administrative fine on 3 June 2010. The Company filed a lawsuit on 28 June 2010, for the cancellation of the aforementioned decision. The Court overruled the stay of execution claim, the Company objected to the decision and the Court accepted this objection and decided for the stay of the execution. Accordingly, ICTA paid back TL 40,100 (equivalent to \$19,713 as at 30 September 2013) on 27 January 2011. On 3 May 2011, the Court rejected the case. Council of State rejected the Company's stay of order

request at appeal phase. Appeal process is pending. The Company appealed the decision and paid back TL 40,100 (equivalent to \$19,713 as at 30 September 2013) to ICTA on 6 October 2011.

Amount to be reimbursed to the subscribers was calculated as TL 46,228 (equivalent to \$22,725 as at 30 September 2013) and deducted from revenues in the consolidated financial statements as at and for the year ended 31 December 2009. Reimbursement to subscribers was made in January 2010.

ICTA notified the Company on 23 November 2011, to pay the amount of TL 13,367 (equivalent to \$6,571 as at 30 September 2013) which is the unpaid portion arising from the 25% cash discount of the administrative fine amounting to TL 53,467 (equivalent to \$26,284 as at 30 September 2013) that was imposed for applying tariffs above the upper limits. The Company filed a lawsuit on 23 December 2011 for stay of execution and for the annulment of this process. The Court accepted the request of the Company for stay of execution. ICTA objected to the decision but the objection is rejected. The Court decided in favor of the Company. ICTA appealed the decision and the Company replied this request. The Council of State rejected ICTA's request for stay of execution during the appeal process. Appeal process is still pending.

Dispute regarding the fine applied by ICTA on tariffs above upper limits (continued)

On 20 February 2012, payment order has been sent to the Company by the Tax Office. On 24 February 2012, the Company filed a lawsuit for cancellation of the payment order. The Court accepted the request of the Company for stay of execution. The Tax Office objected to the decision but the objection is rejected. The Court decided in favor of the Company. The Tax Office appealed the decision and the Company replied this request. Appeal process is still pending.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the additional request regarding unpaid portion arising from the 25% discount of the administrative fine is uncertain, thus, no provision is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2013 (31 December 2012: None).

Dispute on deposits at banks

The Company, in 2001, initiated an enforcement proceeding to collect receivables arising from deposits in a bank. The bank has been objected to the enforcement proceeding and the Company filed a lawsuit for the cancellation of the objection. The Court decided in favor of the Company on 1 March 2005. The bank appealed the decision and the Company replied the same. On 3 April 2006, Supreme Court of Appeals decided the reversal of the Court's decision in favor of the defendant. The Court abided by the decision of the Supreme Court of Appeals. The lawsuit is pending.

Since it is not virtually certain that an inflow of economic benefits will arise, no contingent asset is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2013 (31 December 2012: None).

Dispute on Special Communication Taxation regarding prepaid card sales

Tax Office imposed tax penalty, including actual tax and penalty for loss of tax, in the total amount of TL 133,617 (equivalent to \$65,685 as at 30 September 2013) and TL 139,101 (equivalent to \$68,381 as at 30 September 2013)

based on the ground that the Company had to pay special communication tax over the discounts applied to the distributors for the wholesales for the years 2005 and 2006, respectively. The Company initiated lawsuits for the cancellation of assessments and penalties mentioned above.

On 28 February 2011, Tax Amnesty Law has been approved by the President of Republic of Turkey. The Company applied to the Ministry of Finance related to the Tax Amnesty Law on 27 April 2011. According to Tax Amnesty Law, special communication tax and penalty was calculated as TL 26,723 (equivalent to \$13,137 as at 30 September 2013) and TL 27,820 (equivalent to \$13,676 as at 30 September 2013) for the years 2005 and 2006, respectively. In addition, late payment interest was calculated as TL 11,164 (equivalent to \$5,488 as at 30 September 2013) and TL 8,900 (equivalent to \$4,375 as at 30 September 2013) for the years 2005 and 2006, respectively. The aforementioned amounts were paid on 30 June 2011. The Company applied to the Tax Court to withdraw from the lawsuits according to Tax Amnesty Law due to the aforementioned payment. The courts decided that it is not necessary to declare a judgment on merits for the lawsuit.

Dispute on Special Communication Taxation regarding prepaid card sales (continued)

On 24 June 2011, Tax Office imposed tax penalty, including actual tax and penalty for loss of tax, in the total amount of TL 11,238 (equivalent to \$5,525 as at 30 September 2013) based on the ground that the Company had to pay special communication tax over the discounts applied to the distributors for the wholesales for the period of January-February 2007. The Company applied to the Ministry of Finance on 13 July 2011 in order to benefit from the Tax Amnesty. According to Tax Amnesty Law, special communication tax and interest was calculated as TL 2,248 (equivalent to \$1,105 as at 30 September 2013) and TL 842 (equivalent to \$414 as at 30 September 2013) respectively. The aforementioned amounts were paid on 29 July 2011.

Carrying international voice traffic

In May 2003, the Company was informed that the ICTA had initiated an investigation against the Company claiming that the Company has violated Turkish laws by carrying some of its international voice traffic through an operator other than Turk Telekom. The Company is disputing whether Turk Telekom should be the sole carrier of international voice traffic. On 5 March 2004, ICTA fined the Company a nominal amount of approximately TL 31,731 (equivalent to \$15,599 as at 30 September 2013).

The Company has initiated a lawsuit with the claim of annulment of the related processes and decisions of ICTA, however, paid the administrative fine on 9 April 2004. On 5 November 2004, Council of State gave a decision, which is served to the Company, for stay of execution. With respect to that decision, ICTA paid back TL 18,000 (equivalent to \$8,849 as at 30 September 2013) on 26 January 2005 and deduct a sum of TL 13,731 (equivalent to \$6,750 as at 30 September 2013) from the December frequency usage fee payment. On 26 December 2006, Council of State decided to accept the Company's claim and annul the decision of and the fine imposed by the ICTA. ICTA appealed the decision. The decision has been approved by the Council of State, Plenary Session of the Chamber for Administrative Divisions. ICTA applied for the correction of the decision. The correction of the decision process is still pending. On 6 June 2012, the Company initiated a lawsuit against ICTA for the amount of TL 5,783 (equivalent to \$2,843 as at 30 September 2013) for its damages occurred between the period when the Company made the payment and collected back. The lawsuit is still pending.

Turk Telekom initiated a lawsuit against the Company with respect to the same issue requesting an amount of TL 450,931 (equivalent to \$221,675 as at 30 September 2013) of which TL 219,149 (equivalent to \$107,732 as at 30 September 2013) is principal and TL 231,782 (equivalent to \$113,943 as at 30 September 2013) is interest charged until 30 June 2005 and requesting a temporary injunction.

Considering the progresses at the court case, provision is set for the principal amounting to TL 53,160 (equivalent to \$26,133 as at 30 September 2013) and accrued interest amounting to a nominal amount of TL 97,724 (equivalent to \$48,041 as at 30 September 2013) in the condensed interim consolidated financial statements as at and for the period ended 30 September 2013.

In deciding upon the amount of the provision taking, the Company has taken the Turkish law into consideration, not the amounts requested by Turk Telekom and reflected in the expert report. Specifically, under Turkish Law, a person who is alleging that he has suffered a loss cannot claim the whole of his possible revenues but only the damages may only be sought in respect of lost profit. For this reason, the provision set by the Company is calculated by taking Turk Telekom's estimated loss of profit into consideration rather than the amounts requested by Turk Telekom and amounts reflected in the expert report. Moreover, the Company obtained an independent opinion dated 23 October 2007 which supports the management opinion from an expert who is not designated by the Court.

Disputes with Spor Toto

On 9 November 2005, Spor Toto sent a notification letter to Inteltek claiming that Inteltek is obliged to pay nominal amount of TL 3,292 (equivalent to \$1,618 as at 30 September 2013) due to the difference in the reconciliation methods. Spor Toto claims that the reconciliation periods should be six-month independent periods whereas Inteltek management believes that those periods should be cumulative as stated in the agreement. Inteltek has not paid the requested amount.

Spor Toto, on behalf of GDYS, initiated a declaratory lawsuit against Inteltek. On 22 February 2007, the Court rejected the case and decided that the collection risk is with GDYS and Inteltek is not responsible for the uncollected amount of TL 1,527 (equivalent to \$751 as at 30 September 2013) and also rejected the demand that the reconciliation period should be six-month independent periods. GDYS appealed the Court's decision. Supreme Court of Appeals rejected the appeal request of GDYS. Following the Supreme Court of Appeals' decision, GDYS applied for the correction of the decision. GDYS's correction of decision request was rejected by the Supreme Court of Appeals and the decision was finalized.

Based on the decision of Supreme Court, Inteltek reversed the previously accrued principal amount of TL 3,292 (equivalent to \$1,618 as at 30 September 2013) and its overdue interest accrual amount of TL 1,894 (equivalent to \$931 as at 30 September 2013) in September 2007. Furthermore, Inteltek reclaimed TL 2,345 (equivalent to \$1,153 as at 30 September 2013) principal and TL 966 (equivalent to \$475 as at 30 September 2013) accrued interest which was

paid in the 1st and 3rd reconciliation periods. Inteltek has initiated a lawsuit on 21 February 2008 to collect this amount. On 19 March 2009, the Court decided in favor of Inteltek. Spor Toto appealed the decision. The Supreme Court of Appeals ruled to reverse the judgment of the local court. Inteltek applied for the correction of the decision. The Supreme Court of Appeals rejected the correction of the decision process and the file has been returned to the Court. The Court decided to resist on the former decision on 29 June 2011. Spor Toto appealed the decision. The General Assembly of the Civil Supreme Court of Appeals decided to accept the resistance decision of the Court of First Instance and sent the case to the 13th Civil Chamber of the Supreme Court of Appeals in order to consider Spor Toto's other appeal arguments. 13th Civil Chamber of the Supreme Court of Appeals resent the lawsuit file to the local court for completing the deficiency. The local court made up the deficiency and sent back the lawsuit file to the 13th Civil Chamber of the Supreme Court of Appeals. The Supreme Court of Appeals decided to uphold the decision of the court of first instance. Spor Toto applied for correction of decision. Inteltek requested the receivable from Spor Toto and Spor Toto paid the amount subject to the lawsuit. The reply brief against Spor Toto's correction request is submitted. The Supreme Court of Appeals rejected the correction of decision request and the decision is finalized.

Dispute on the discounts which are paid over the treasury share and ICTA fee

At the end of 2006, Tax Auditors of the Company claimed that gross revenue in the statutory accounts should include discounts granted to distributors although the Company recorded these discounts in a separate line item as sales discounts.

Starting from 1 January 2007, the Company started to deduct discounts granted to distributors from gross revenue and present them on a net basis. Accordingly, the Company decided that, it has paid excess treasury share and universal service fund for the year 2006 totaling TL 51,254 (equivalent to \$25,196 as at 30 September 2013).

Through the letter dated 23 February 2007, the Company requested treasury share amounting to TL 46,129 (equivalent to \$22,677 as at 30 September 2013) and interest accrued amounting to TL 5,020 (equivalent to \$2,468 as at 30 September 2013) from Turkish Treasury and universal service fund amounting to TL 5,125 (equivalent to \$2,519 as at 30 September 2013) and interest accrued amounting to TL 558 (equivalent to \$274 as at 30 September 2013) from Turkish Ministry to be paid in 10 days. Since Turkish Treasury and Turkish Ministry have not made any payment, the Company started to deduct these amounts from ongoing monthly payments. As at 31 December 2007, the Company deducted TL 51,254 (equivalent to \$25,196 as at 30 September 2013) from monthly treasury share and universal service fund payments.

Turkish Treasury sent a letter to the Company dated 17 July 2007 and objected the deduction of the discounts granted to the distributors from the treasury share payments. Accordingly, the Company is asked to return TL 2,960 (equivalent to \$1,455 as at 30 September 2013) that is deducted from treasury share payment for May 2007. The Company has not made the related payment and continued to deduct such discounts treasury share and universal service fee amount related to discounts granted to distributors for the year 2006.

Management believes that the Company has the legal right to make deductions with respect to this issue. Accordingly, the Company has not recorded any provisions with respect to this matter in its condensed interim consolidated financial statements as at and for the period ended 30 September 2013 (31 December 2012: None).

The Company filed two lawsuits before ICC claiming that the Company is not obliged to pay treasury share and ICTA Fee in accordance with the 8th and 9th Articles of the Concession Agreement, respectively, on discounts granted to distributors. On the both lawsuits, ICC has decided in favor of the Company. As stated in both of the Final Awards, the Company is not under obligation of paying Treasury Share and the Contribution to the expenses of Authority pursuant to Article of 8 and 9 of the Concession Agreement dated 10 March 2006. ICTA filed lawsuits for cancellation of these Final Awards. In both lawsuits, the Court decided in favor of the Company. ICTA appealed the decisions. The Company replied appeal requests. The Court of Cassation reversed the decisions of the First Instance Court. The Company has applied for the correction of the decision. The Court of Cassation rejected the request for correction of the decision of the Company. On the hearing dated 28 November 2012, the Local Court decided to accept the lawsuit in accordance with the reversal decision of The Court of Cassation. Full decisions are notified to the Company. The Company appealed the decisions. Appeal process is still pending.

Dispute on payments of additional treasury share payment for the period between 1 June 2004 and 9 March 2006

Turkish Treasury, through a letter which is based on the Report of the Treasury Controller's Board following the examinations covering the period between 1 June 2004 and 9 March 2006, requested additional treasury share payment regarding the mentioned period. The Company initiated a lawsuit before ICC on 18 December 2009 in order to obtain a declaratory judgment on the Company is not obliged to pay TL 3,320 (equivalent to \$1,632 as at 30 September 2013) of the requested amount and treasury share over the exchange differences arising from roaming revenue. The arbitral tribunal partially accepted the Company's claims and decided that the Company is not obliged to pay TL 885 (equivalent to \$435 as at 30 September 2013). The Company applied to arbitral tribunal for correction and interpretation of the award. The arbitral tribunal rejected this application. ICTA filed a lawsuit for cancellation of the in favor parts of the Final Award. Subsequently the Company filed a lawsuit for cancellation of the disadvantageous part of the Final Award. In the lawsuit initiated by the ICTA, the court decided to obtain an expert report. Both of the lawsuits are still pending.

ICTA, through a letter dated 14 May 2010 which is based on the Report of the Treasury Controller's Board following the examinations covering the period between 1 June 2004 to 9 March 2006, requested additional treasury share payment of TL 4,909 (equivalent to \$2,413 as at 30 September 2013) together with the penalty of TL 12,171 (equivalent to \$5,983 as at 30 September 2013) on the ground that the treasury share and treasury share over the exchange differences arising from roaming revenue are not paid entirely.

On 26 May 2010, the Company, in order to provide the suspension of the payment, requested a preliminary injunction from the Civil Court of First Instance based on the grounds that the payment of additional treasury share payment of TL 4,909 (equivalent to \$2,413 as at 30 September 2013) together with the penalty of TL 12,171 (equivalent to \$5,983 as at 30 September 2013) is a pending case before ICC Arbitration Court. The Civil Court of First Instance accepted the Company's request. ICTA raised an objection to the preliminary injunction and this objection has been rejected.

The Company filed a lawsuit before ICC on 27 January 2012 claiming the contradiction to law of the penalty of TL 12,171 (equivalent to \$5,983 as at 30 September 2013) calculated over allegedly unpaid TL 4,909 (equivalent to \$2,413 as at 30 September 2013) treasury share. The lawsuit is still pending.

Dispute on payments of additional treasury share payment for the period between 1 June 2004 and 9 March 2006 (continued)

ICTA, through a letter dated 19 October 2010 which is based on the Report of the Treasury Controller's Board following the examinations covering the period between 10 March 2006 and 31 December 2008, requested treasury share of TL 72,527 (equivalent to \$35,654 as at 30 September 2013) and conventional penalty of TL 205,594 (equivalent to \$101,069 as at 30 September 2013). The Company paid TL 1,535 (equivalent to \$755 as at 30 September 2013) of the aforementioned amount.

On 13 December 2010, the Company, in order to provide the suspension of the payment, requested a preliminary injunction from the Civil Court of First Instance based on the grounds that the payment of treasury share of TL 70,992 (equivalent to \$34,899 as at 30 September 2013) and conventional penalty of TL 205,594 (equivalent to \$101,069 as at 30 September 2013) is a pending case before ICC Arbitration Court. The Court accepted the Company's request. ICTA's objection against the decision has been rejected.

Based on the management opinion, the probability of an outflow of resources embodying economic benefits to settle the obligation is uncertain, thus, no provision is recognized in the condensed interim consolidated financial statements as at and for the period ended 30 September 2013 (31 December 2012: None).

The Company filed a lawsuit before ICC on 12 January 2011 regarding the allegedly underpaid treasury share payments over certain revenue items as discussed in the Treasury Controller's Report dated 30 May 2010, and corresponding purported penalty in amount of TL 205,594 (equivalent to \$101,069 as at 30 September 2013). The Company requested the Arbitral Tribunal to award that TL 68,365 (equivalent to \$33,608 as at 30 September 2013) of the total amount requested in the Treasury Controller's Report has either been paid or is the subject matter of other arbitration cases. The Company further requested the Tribunal to declare that the request for treasury share payment of the remaining TL 4,163 (equivalent to \$2,047 as at 30 September 2013) is unfounded, together with a declaration that the Company should not be obliged to make treasury share payment over certain revenue items as discussed in the Treasury Controller's Report. Finally, the Company requested the Tribunal to award that it is not obliged to pay the requested penalty and declare that penalty cannot be accrued where the basis of the penalty request is disputed. On 18

March 2013, the Tribunal awarded that the Company is not obliged to pay TL 1,351 (equivalent to \$664 as at 30 September 2013) of the remaining amount requested by the Treasury (the Company's relief sought for treasury share payment of TL 2,812 (equivalent to \$1,382 as at 30 September 2013) requested over SIM card and equipment sales abroad was rejected), declared that the Company is not obliged to pay penalty in amount of TL 205,594 (equivalent to \$101,069 as at 30 September 2013); but dismissed (without prejudice) the requests for declaration that the Company should not be obliged to make treasury share payment over certain revenue items as discussed in the Treasury Controller's Report, and that penalty cannot be accrued where the basis of the penalty request is disputed. ICTA, Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications filed two separate lawsuits for cancellation of the Final Award. Subsequently the Company filed a lawsuit for cancellation of the disadvantageous part of the Final Award. The lawsuit is still pending.

Dispute on treasury share amounts which are absorbed due to retrospective board decisions taken by ICTA

In consequence of collection of treasury share from the Company without considering its payments to the other operators and some subscribers due to the retrospective procedure amendments of ICTA on both interconnection fees and some tariffs; the Company commenced a lawsuit on 5 August 2010 before ICC on the ground that treasury share which collected from diminishing returns are unlawful and deductions committed by the Company between the years 2006 - 2010 from the treasury share are rightful and claimed payment of TL 1,600 (equivalent to \$787 as at 30 September 2013) and its interest to the overpayment amount which is paid under the name of treasury share, against ICTA due to its administrative act leading to this case and against Turkish Undersecretariat of Treasury and Turkish Ministry of Transport, Maritime Affairs, and Communications due to making benefit from aforementioned amount.

ICC decided partially in favor of the Company in March 2012 and ordered that deductions committed by the Company between the years 2006 - 2010 from the Treasury Share are rightful, and ICTA should refund TL 1,371 (equivalent to \$674 as at 30 September 2013) paid by the Company in this respect as Treasury Share and ICTA fee and reject the Company's claim to refund TL 273 (equivalent to \$134 as at 30 September 2013) paid as ICTA fee between 2006 - 2008. ICTA, Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications filed a lawsuit for cancellation of the Final Award. The lawsuit initiated by ICTA has been consolidated by the court with the lawsuit initiated by Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications. The court rejected both lawsuits. ICTA and Undersecretariat of Treasury and the Ministry of Transport, Maritime Affairs, and Communications appealed the decision. The Company replied the appeal request. Appeal process is still pending.

Penalty of ICTA on value added services

On 1 March 2010, ICTA decided to initiate an investigation against the Company upon administrative fine of TL 31,822 (equivalent to \$15,643 as at 30 September 2013) is revoked by the Ministry of Industry and Trade on the ground that the Company did not refund the subscribers who are unsubscribed in the period and did not demand content and this is contrary to the article 11/A of the law numbered 4077. The investigation report has been sent to the Company and the Company has submitted its written defense to ICTA.

On 13 January 2011, ICTA decided to apply administrative fine of TL 748 (equivalent to \$368 as at 30 September 2013). Since the administrative fine was paid within 1 month following the notification of the decision of ICTA, 25% discount was applied and payment amounting to TL 561 (equivalent to \$276 as at 30 September 2013) was made on 17 February 2011.

Dispute of Astelit with its distributor

Astelit and one of its distributors entered into an agreement for the sale of Astelit's inventory to third parties. Under this agreement, the sale of products had to be performed within 30 days after delivery and the proceeds that are gained from these sales, had to be transferred to Astelit after excluding distributor's commissions. However the distributor violated its obligations for indebtedness for received, due but unpaid products.

Despite this fact, the distributor filed a lawsuit against Astelit claiming a compensation in the amount HRV 106,443 (equivalent to \$13,317 as at 30 September 2013), which is allegedly the sum of advance payment for undelivered goods. In the course of court proceedings, Astelit made a counterclaim for the recovery of indebtedness in the amount

of HRV 35,292 (equivalent to \$4,415 as at 30 September 2013).

The Court of First Instance in Kyiv rejected the claim of the distributor but on the other hand accepted the counterclaim of Astelit. Subsequently, The Appeal Court of Kyiv reversed the decision of the Court of First Instance and rejected the claim of Astelit but accepted the claim of the distributor. The resolution of the High Commercial Court of Ukraine dated 20 October 2009 remained unaltered the appellate court's ruling. Thereafter, Astelit filed a lawsuit against this decision before the Supreme Court of Ukraine, which is the supreme and final degree of jurisdiction against the resolution of the High Commercial Court of Ukraine.

In December 2009 the Supreme Court of Ukraine has reversed the previous court decisions and forwarded the file to the Court of First Instance in Kyiv to other judges for new legal proceedings. New legal proceedings started in February 2010. The Court decided to obtain an expert report from an expertise by specially authorized Kyiv research institute in order to define real indebtedness. After obtaining the expert report, the Court of First Instance in Kyiv accepted the counterclaim in favor of Astelit. Distributor appealed the decision. Appeal Court of Kyiv approved the decision on 24 November 2011. Thus the decision became effective.

Dispute of Astelit with its distributor (continued)

One of the banks in Ukraine (as a third party in the case) appealed the decision before High Commercial Court of Ukraine. As former guarantor and creditor of the distributor, the bank used its right to prevent any possible negative consequences on it, by appealing the decision. On 26 March 2012, the High Commercial Court of Ukraine approved the previous court decisions. According to Ukrainian legislation, the distributor or the bank had a right to appeal the decision before Supreme Court of Ukraine within three months from the date of judgement of the High Commercial Court of Ukraine. However neither the distributor nor the Bank used their right.

Management believes that such conclusion of the courts has proper legal basis. Accordingly, the Company has not recorded any accruals with respect to this matter in its condensed interim consolidated financial statements as at and for the period ended 30 September 2013 (31 December 2012: None).

Dispute of Astelit related to withholding tax on interest expense

Dispute on treasury share in accordance with the amended license agreement (continued)

Based on the 9th article of the license agreement dated 10 March 2006, the Company has been obliged to pay 0.35% of its yearly gross revenue once a year as ICTA Fee. However, in the previous license agreement, the Company was obliged to pay 0.35% of its yearly gross revenue after deducting treasury share, universal service fund and other indirect taxes from the calculation base whereas in the new agreement, these aforementioned payments are not deducted from the base of the calculation. Therefore, on 12 April 2006, the Company has initiated a lawsuit for the cancellation of the 9th article of the new license agreement. On 10 March 2009, the Court rejected the case. The Company appealed the decision. Appeal process is still pending.

Dispute on ICTA fee payment based on the amended license agreement

On 21 June 2006, ICTA notified the Company that the ICTA fee for the year 2005 which had been already paid in April 2006 should have been calculated according to the new license agreement dated 10 March 2006 instead of the previous license agreement which was effective in the year 2005. Therefore, ICTA requested the Company to pay additional TL 4,011 (equivalent to \$1,972 as at 30 September 2013) and its accrued interest. The Company made the payment and initiated a lawsuit for the injunction and cancellation of the aforesaid decision of ICTA on 28 August 2006. On 24 July 2009, the Court decided in favor of the Company and annulled additional payment request of ICTA. The ICTA appealed the decision. The Council of State reversed the decision with the reason that the case shall be settled by arbitration. ICTA applied for the correction of the decision. The Company received the related principal amount of TL 4,011 (equivalent to \$1,972 as at 30 September 2013) on 8 February 2010 and recorded income in the consolidated financial statements as at and for the year ended 31 December 2009. Upon the reversal decision of the Council of State, ICTA re-claimed the aforementioned amount which returned to the Company in accordance with the first instance court decision. The Company paid back the aforementioned amount with its accrued interest on 24 January 2013.

On the other hand, as the interest was not paid with the payment that ICTA made on 8 February 2010, the Company initiated a lawsuit on 17 March 2010, for the accrued interest amounting to TL 3,942 (equivalent to \$1,938 as at 30

September 2013) for the time being devoid of the amount which was paid to the ICTA. The Court decided in favor of the Company for the part of TL 1,392 (equivalent to \$684 as at 30 September 2013) of the compensation request. ICTA appealed the decision. The Company also appealed the decision's rejected part. The appeal process is still pending. The Company received the aforementioned amount on 18 May 2011 and recorded as income in the consolidated financial statements as at and for the year ended 31 December 2011.
