NOTE A. SUMMARY OF ACCOUNTING POLICIES

The summary of the Issuer's significant accounting policies are incorporated by reference to the Company's annual report on Form 10KSB, at March 31, 2001.

The accompanying unaudited condensed financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the results of operations, financial position and cash flows. The results of the interim period are not necessarily indicative of the results for the full year.

NOTE B. GOODWILL

In June 2001 The Financial Accounting Standards Board issued Financial Accounting Standards No. 141, "Business Combinations" and No. 142, "Goodwill and Other Intangible Assets." These Statements establish accounting and reporting standards for business combinations and goodwill and other intangible assets, respectively. The Company has adopted these statements as of April 1, 2001. As allowed under FASB No. 141, the Company has elected to reclassify to goodwill certain recognized intangible assets that do not meet the criteria for recognition apart from goodwill. The company has also adopted FASB No. 142, which no longer allows for amortization of goodwill. Goodwill will be tested for impairment at the time of adoption and on an annual basis.

The changes in the carrying amount of goodwill as of December 31, 2001, are as follows:

	Automata Instruments	Other Acquisitions	Total
	-----	-----	-----
Balance March 31, 2001	\$3,588,121	\$619,821	\$4,207,942
Goodwill acquired during the year	-	-	-
Impairment losses	-	-	-
Balance December 31, 2001	\$3,588,121	\$619,821	\$4,207,942

### RESULTS OF OPERATIONS

#### REVENUE

Net sales for the nine months ended December 31, 2001 increased \$334,116 or 5% to \$6,951,018 from the \$6,616,902 net sales level achieved for the same nine month period last year. Net sales for the quarter increased \$211,984 or 11% to \$2,222,370 from the \$2,010,386 net sales level achieved in the same quarter last year. Sales for the quarter were led by a 24% increase in medical products. The Company's dialysis meters produced an 18% gain for the quarter compared to last year, while the Echo Dialyzer Reprocessor shipments increased more than 50% compared to last year. Datatrace loggers showed a small decline for the quarter decreasing three percent from the same quarter a year ago. Sales for the first nine months were led by a 16% increase in medical products with double digit percentage increases on a year to year basis for both reprocessor and meter products. Datatrace products continued to produce a small year to year decrease in sales of four percent.

#### COST OF GOODS SOLD

Cost of goods sold for the first nine months as a percent of net sales was 40% which represents a 3% increase from the 37% level for the same nine month period last year. Cost of goods sold for the current quarter as a percent of net sales was 41%, representing a 5% increase compared to the 36% level in the same quarter last year. The increase realized during the second quarter and first nine months of fiscal 2002 was attributable to changing mix of products sold due to an increase in sales of medical products in comparison to sales of the Company's logging products.

#### SELLING, GENERAL AND ADMINISTRATIVE

Selling, general and administrative expenses for the first nine months decreased 11% or \$209,448 to \$1,671,455 from \$1,880,903 in the same period last year. For the current quarter, selling, general and administrative expenses totaled \$508,814, which was down 17% or \$102,683 from \$611,497 expended in the same quarter last year. Marketing expenses accounted for an overall 7% increase with Medical marketing expenses gaining over 16% from the prior year while Datatrace marketing expenses increased 6%. The increase in marketing expenses for medical products was due chiefly to increased compensation and bad debt levels. Datatrace costs increased compared to last year due to higher compensation and bad debt costs. Administration costs for the first nine months decreased 29% due to decreased amortization expense due to the application of newly adopted accounting standards.

#### RESEARCH AND DEVELOPMENT

Research and development for the first nine months increased to \$230,859 from \$203,430 which represents a 13% increase from the same period last year. Research and development for the quarter was \$74,212, which represents a decrease of \$3,471 or 4% from the \$77,683 level expensed in the same quarter

## Edgar Filing: MESA LABORATORIES INC /CO - Form 10QSB

last year. Research and development costs for the nine month period increased due to higher consulting costs for two on-going software upgrade projects and higher material costs for prototype development of the next generation of Datatrace logging instruments.

### NET INCOME

Net income for the nine months ended December 31, 2001 increased 10% to \$1,587,219 or \$.46 per diluted share from \$1,437,256 or \$.38 per diluted share last year. Net income for the quarter was \$483,510 or \$.14 per diluted share compared to net income of \$408,600 or \$.11 per diluted share last year. The increase in net income compared to last year was due chiefly to increased sales and elimination of goodwill amortization due to the application of newly adopted accounting standards.
