- o Product Strategy Overview
- o Customer & Partner Success
- o Summary

04

Market Strategy

05

What We Are Announcing

- o Oracle has agreed to acquire Hyperion
 - o Cash tender offer of \$52.00 per share
 - o Approximately \$3.3 billion in the aggregate
 - o Transaction expected to close in April 2007, subject to regulatory and other approvals

- o About Hyperion
 - o Leading provider of Performance Management solutions, OLAP, Financial Planning and Consolidation
 - o Public company with trailing twelve month revenues in excess of \$830 million (12/31/06)
 - o HQ Santa Clara; 2,900 Employees; 12,000+ Customers
 - o Accelerates Oracle's product strategy
 - o Business Intelligence & Performance Management Converging Rapidly
 - o Hyperion brings best-of-breed, heterogeneous Performance Management and complementary BI products to Oracle's offering
 - o Combination offers industry's only complete and integrated Performance Management System - combining EPM & Operational BI

06

Hyperion Strategic Importance to Oracle

- o Performance Management rapidly growing software segment
- o Estimated to reach \$7.0 billion in 2009; 11%+ CAGR growth
- o Top priority for executives and Boards of Directors
- o Financial planning extending to full enterprise business planning

- o Complements Oracle's existing product strengths
- o Adds leading open enterprise planning system
- o Adds high-growth, leading financial consolidation products
- o Adds powerful multi-source OLAP server
- o Extends Oracle's global distribution channels with domain expertise

- o Why now?
- o Performance Management & Business Intelligence converging rapidly
- o First integrated, end-to-end Performance Management System - combining EPM & Operational BI
- o Enables "closed loop" decision making - from Strategy to Planning to Consolidation to Operational Analytics to Actionable Insight
- o Together offer industry's most complete and best product line
- o Differentiates Oracle from other Business Intelligence vendors

07

Why Hyperion?

- o Category leader in Performance Management Software
 - o Rated as a Leader in Corporate Performance Management and Business Intelligence Platforms
 - o Leader in OLAP, Planning, and Financial Consolidation
 - o Complimentary Products enable rapid integration of Suites
 - o Successfully implemented at over 12,000 global customers
- o Strong reputation and established relationships with CFOs
 - o Strong domain expertise in financial and performance management
 - o Helps Oracle sell complementary products into the CFO office
 - o Strengthens Oracle's expansion into SAP base
- o Experienced global organization
 - o Highly skilled and experienced product development team
 - o Global sales expertise, strong services and support capability
 - o Excellent support and adoption by global system integrators
- o Oracle and Hyperion are already partners
 - o Hyperion is a member of Oracle Partner Network (OPN)
 - o Hyperion is an Oracle customer - runs e-Business Suite and Siebel

08

Select Hyperion & Oracle Joint Customers

09

Organizational Model

- o Hyperion Development Organization
 - o Will be part of Oracle's Business Intelligence Development Team
 - o Will be retaining all US & multi-shore development locations
 - o Will be retained intact - focus on accelerating investments
- o Hyperion Support & Consulting Organizations
 - o Will be integrated with Oracle Support & Consulting
- o Hyperion Sales Organization
 - o Will be retained intact in each geography - US, EMEA, APAC, LAD
 - o Will also sell some Oracle Analytic Applications - eg. Financial Analytics - Complete EPM & Operational Analytic Applications
- o Oracle Business Intelligence Sales
 - o Will be retained intact in each geography - US, EMEA, APAC, LAD
 - o Will also sell Hyperion's Business Intelligence Tools
- o Focused on accelerating growth and capturing share
 - o Oracle will double sales organization for these products globally

Hyperion Already Integrates with Oracle
Customers Can Get Value Immediately

- o Hyperion integrates with Oracle Database
 - o Supports Oracle RAC as a data source
- o Hyperion integrates with Oracle Fusion Middleware
 - o Application Server
 - o Enterprise Portal: integrate analytics into a common portal
 - o Identity Management: provide enterprise single sign-on
 - o Business Intelligence Server as a Data Source for Essbase
- o Hyperion integrates with Oracle Applications
 - o All of Oracle's Enterprise Applications product lines
 - o Over 4,000 Hyperion customers use Oracle Applications
- o Oracle Business Intelligence integrates with Hyperion
 - o ESSBASE and Interactive Reporting are Data Sources
- o Well-defined product integration roadmap
 - o Critical enablers for product integration complete (e.g., data source)
 - o Other key design elements have been well defined
 - o Oracle & Hyperion will provide clear product roadmap to customers

Oracle Performance Management System
Benefits SAP R/3 & mySAP Customers Today

BI & Performance Management Applications

Reporting Scorecarding Analytic Apps Planning

Common Enterprise Information Model
Oracle BI Foundation

SAP BW SAP R/3 Heterogeneous

Oracle provides the ideal
Performance Management
System for SAP Customers and
Heterogeneous Environments

- o BI Applications integrate with R/3
- o Planning, Budgeting and Consolidations work with SAP
- o BI Foundation supports optimized access to SAP BW

Future Product Directions
Some Initiative Areas

- o Enterprise Performance Management
 - o Integrated Planning, Consolidation, & Operational Analytics
 - o For all Lines of Business - Finance, HRMS, Sales, SCM, Verticals
- o Enterprise Semantic Model
 - o Comprehensive Model spanning EPM & Operational Analytics
 - o Integrated Data Quality, Profiling, Cleansing, and Data Lineage
- o Pervasive Business Insight
 - o Search-based Access with Ubiquitous Multi-channel Access
 - o Information Transparency with Enhanced Visualization & Exploration
- o Real Time Predictive Analysis & Forecasting
 - o Real Time Activity Monitoring, Predictive Analytics and Forecasting
 - o Near Real time Integration across Operational & Management Systems
- o Insight Driven Actions
 - o From Guided Analytics to Analytic Workflow to Operational Systems
 - o Integrated with Web 2.0 & Real Time Collaboration Systems

Product Strategy
Key Differentiators

- o Enterprise Semantic Model
 - o Model Centric vs. Report Centric Analytics
- o Pervasive Business Insight
 - o Empower Business Users with Embedded Insight
- o Real Time Predictive Insight
 - o Activity Monitoring and Predictive Analytics
- o Insight Driven Actions
 - o Contextual Visualization with Guided Decisions
- o Business Process Optimization
 - o Sense & Respond with Intelligent Business Processes
- o Fastest Time to Value
 - o Pre-Packaged Analytic Applications
- o Enterprise Performance Management System
 - o First integrated, end-to-end Performance Management System - combining EPM & Operational BI

Customer and
Partner Success

39

Expected Customer & Partner Benefits

Continued Commitment to Heterogeneous Environments

- o Hyperion Customers
 - o Oracle will protect, extend and evolve customers' investments
 - o Increased R&D investment in Hyperion products
 - o Extends products with operational analytic applications and BI tools
 - o Access to Oracle's global support and services organizations
- o Oracle Customers
 - o Best-of-breed Enterprise Performance Management System
 - o Enhanced and complete suite of Business Intelligence tools
 - o Complements Oracle Database, Middleware, Applications
 - o Access to Hyperion domain expertise in financial management
- o Oracle & Hyperion Partners
 - o ISVs: Broader opportunities to embed technology
 - o SIs: Strategic partner for best and most complete BI and Performance Management applications and technology; Joint advisory to CFOs
 - o VARs: Expanded opportunities for value-added solutions

BT

Joint Customer Example

- o Heterogeneous environment
 - o Oracle e-Business Suite
 - o Oracle's Siebel CRM
 - o Thousands of operational systems
- o Oracle BI is enterprise BI standard, in use in multiple organizations
- o Hyperion System 9 selected by finance organization for financial reporting and operational metrics
- o Using Oracle BI and Hyperion System 9 for better strategic, operational and tactical decisions
- o Would benefit from integration

41

Cisco Systems
Joint Customer Example

- o Over 15,000 worldwide users of Oracle BI
 - o Every manager worldwide uses HR dashboards
 - o Top 500 executives get real-time business view
 - o Sales, Marketing, and engineering
 - o Enterprise standard
- o Approx. 2,000 users for Finance expense tracking
 - o Budget vs Actual, headcount and capital data reporting
 - o 40% of users outside finance organization
- o Customer has requested Oracle BI EE interoperate with Essbase

42

Oracle & Hyperion Together
Broadest Set of Business Intelligence Partners

43

Summary

44

The New, Extended Oracle BI
A System for Enterprise Performance Management

- o Leading and most comprehensive BI tools and technology
- o Leading and most comprehensive BI and performance management applications
- o Driving the evolution of Performance Management and BI
- o Broadest sales and distribution capability
- o Immediate benefit to Hyperion and Oracle customers and partners

45

Leadership Product Strategy

Integrating Enterprise Performance Management and BI

- o Provides industry's first end-to-end Enterprise Performance Management System
 - o Align operational intelligence with strategy: Better insight
 - o Align operational decisions with strategy: Better decisions
 - o From Insight to Action: Drives better results more quickly
- o Built on integrated and modern foundation
 - o Most complete and integrated BI tools and BI applications
 - o With a unified and consistent view of enterprise intelligence
- o Fundamentally differentiated from other BI Vendors
 - o First integrated, end-to-end Performance Management System - combining EPM & Operational BI
 - o Most Complete, best-of-breed Tools & Analytic Applications
- o Fundamentally differentiated from other Applications Vendors
 - o Other Applications Vendors EPM & BI Solutions not best-of-breed
 - o Other Vendors - Not open to heterogeneous data & applications

Next Steps

- o Public Announcement
 - o March 1, 2007
- o Communicate with all Stakeholders
 - o Press & Analyst Briefings: Week of March 5, 2007
 - o Customer Briefings: Week of March 5, 2007
- o Complete Transaction
 - o Obtain required approvals and satisfy conditions to closing
 - o Expect to close in April 2007
- o More information can be found at:
