This press release contains "forward-looking statements," within the meaning of the U.S. federal securities laws, that represent our expectations or beliefs regarding future events, based on currently available information, including statements concerning our anticipated performance. These statements by their nature involve substantial risks and uncertainties, many of which are beyond our control. Our actual results could differ materially from those expressed in the forward-looking statements due to a variety of important factors, including our substantial debt obligations and restrictive covenants; susceptibility to regional economic downturns, currency fluctuations, large customer order slowdowns and other risks related to our U.S., U.K. and foreign operations; our ability to realize cost savings from our cost reduction program; keen competition in our fragmented and consolidating industry; and the other risk factors and more complete descriptions of these factors found under "Risk Factors" in our Form F-4 registration statement, as amended and filed with the SEC on August 27, 2002.
