1. HIGHLIGHTS(2):

- Two important factors should be considered when reading the first

Edgar Filing: BANCOLOMBIA SA - Form 6-K

quarter report. First, comparisons must be made between the same quarters of different years because of the seasonality of the financial business in Colombia. Second, the unconsolidated results for the month of March, released on April 12, 2006, include dividend income(3) from the Bank's subsidiaries, which are eliminated when consolidating the financial results. As a result, during the first quarter of 2006, consolidated net income was lower than unconsolidated net income.

- Net income amounted to Ps 214,102 million, increasing 20.6% on a pro forma basis compared to Ps 177,542 million for the first quarter of 2005, but decreasing 16.6% compared to Ps 256,578 million for the last quarter of 2005.
- As of March 31, 2006, BANCOLOMBIA's net loans totaled Ps 18,365 billion, increasing 2.5% compared to Ps 17,920 billion in the previous quarter. On a year-to-year basis, this represents an increase of 10.4% from Ps 16,631 billion pro forma at March 31, 2005. On the other hand, investment debt securities amounted to Ps 8,132 billion, decreasing 1.6% over the quarter, but increasing 11.8% over the year.
- During the first quarter of 2006, net interest income amounted to Ps 458,144 million, increasing 9.8% compared to the same period of 2005 on a pro forma basis, with interest income on loans increasing 7.2% while interest income on investments decreased 9.8%, due to an almost stable Colombian bond prices during March.
- Net fees and income from services totaled Ps 206,119 million during the quarter, increasing 20.1% compared to the pro forma figure for the same period in 2005, but decreasing 3.1% from the last quarter of 2005.
- BANCOLOMBIA's ratio of past due loans to total loans at March 31, 2006 was 3.1% and the ratio of allowances to past due loans was 125%.
