-

ITEM 2.05. COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES.

On September 22, 2009, Tenneco Inc. announced that it will close its original equipment ride control plant in Cozad, Nebraska as part of its global restructuring program announced in October 2008. The company had originally announced plans to close one of its original equipment ride control plants in the United States as part of its October 2008 restructuring announcement, but postponed this action in January 2009 in order to preserve cash during the height of the global economic crisis.

Tenneco currently employs 460 hourly and 40 salaried workers at the plant. The company estimates the closing will generate \$8 million in annualized cost savings once completed, incremental savings to the \$58 million restructuring program announced in October 2008. Tenneco expects to record up to \$20 million in restructuring and restructuring related charges, approximately \$14 million in cash, in connection with the closure. This amount includes an estimated \$10 million of charges for the payment of termination benefits and other termination-related costs, up to \$6 million for asset write-offs and \$4 million for other expenses (primarily moving equipment). The company expects to complete the closure in the fourth quarter 2010.

A copy of the company's press release announcing this information and certain other information is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

ITEM 9.01. FINANCIAL STATEMENTS AND EXHIBITS.
