Item 2.05 Costs Associated with Exit or Disposal Activities

As of October 28, 2009, International Flavors and Fragrances Inc. (IFF or the Company) concluded its previously announced collective consultation process with employee representatives and communicated its intent to proceed with the closure of a portion of its fragrance ingredients chemical plant in Haverhill, U.K. and the closure of its fragrance manufacturing facility in Drogheda, Ireland. The Company has completed the negotiations with the Haverhill employee representatives. It is now engaged in the negotiation process with the employee representatives in Ireland to finalize applicable employee separation benefits. These actions are part of the rationalization of our European fragrance manufacturing footprint.

The Company anticipates that the plant closure process will be completed by the 4th quarter 2010. IFF expects to incur implementation costs of \$22-\$29 million, consisting primarily of \$11-\$15 million in personnel-related costs, \$8-\$10 million in plant shutdown and business transition costs and \$3-\$4 million in asset impairments and/or accelerated depreciation of fixed assets. Approximately \$11 million of these costs will be recorded in the 3rd quarter 2009 with the remainder to be recognized over the next 5 quarters, through the 4th quarter 2010. The Company now expects that approximately 140 positions will be eliminated as a result of these decisions.

While some cost savings are expected to be realized in the latter half of 2010, the annual expected benefit of \$17-\$20 million resulting from these actions will not fully be realized until 2011. The Company estimates that all but \$3-\$4 million of the implementation costs will result in future cash expenditures.
