**Ivanhoe Australia successfully completes
A\$251 million institutional equity raising
Strong global institutional equity demand will enable
Cloncurry Project production by late 2011
Underwritten retail offer to raise a further A\$18 million; option
exercise may increase total raising size to A\$427 million
over 12 months**

MELBOURNE, AUSTRALIA Robert Friedland, Chairman, and Peter Reeve, Chief Executive Officer of Ivanhoe Australia Limited (IAL) (IVA-ASX), announced today that Ivanhoe Australia Limited has successfully completed a \$251 million equity raising, being the institutional component of its accelerated, non-renounceable, pro rata entitlement offer and an institutional placement. Ivanhoe Mines currently owns 81% of Ivanhoe Australia Ltd. As a result of the strong demand received for the institutional entitlement offer, additional subscriptions of A\$38 million were accepted under an institutional placement, taking the total amount raised from institutional investors to A\$251 million.

The equity raising, which (with the exception of the already completed placement) is fully underwritten by UBS AG, Australia Branch, and Morgan Stanley Australia Securities Limited, provides Ivanhoe Australia with a very strong platform to move forward on the funding of its large development project program and extensive exploration portfolio.

The funds raised under the institutional entitlement offer and placement support the following initiatives and commitments:

Funding the acquisition of the Osborne Mine, processing plant and tenements adjacent to Ivanhoe Australia's Cloncurry Project, in northwestern Queensland.

Development of the Merlin Project at Cloncurry.

Partial repayment of approximately A\$53 million of debt owed to Ivanhoe Mines.

Ongoing exploration, development studies and associated corporate costs.

In addition to the approximately A\$251 million raised under the institutional entitlement offer and placement, Ivanhoe Australia will raise approximately A\$18 million in equity through the retail entitlement offer and potentially up to a further approximately A\$158 million through the future exercise of the options issued as part of the equity raising.

The total proceeds of the entitlement offer, placement and exercise of options may therefore be up to A\$427 million.

We are very pleased with the extraordinary level of support from our institutional shareholders for this entitlement offer and placement, and from the wide range of new and high-quality institutional investors who participated. With a large percentage of the issue taken up by significant Australian institutions complementing the strong offshore shareholding from the IPO, the company's share register is now very broad and well balanced, Mr. Reeve said.

Ivanhoe Australia has a strong development pipeline with significant exploration opportunities to pursue. The funds raised are an important step in the development of the Cloncurry and Osborne fields. We expect to have both fields producing cash flow in what will have been a little over two and a half years since we declared Mineral Resources for the Merlin Project.

Ivanhoe Australia's major shareholder, Ivanhoe Mines Ltd. considers the increased liquidity as a result of the issue to be an important step in Ivanhoe Australia's growth and a reflection of the inherent value of the company's assets. Ivanhoe Mines previously agreed it would not take-up its entitlement under the institutional entitlement offer, but has reiterated that it remains committed to its investment in Ivanhoe Australia. The offer securities that correspond to Ivanhoe Mines' entitlement were sold to a range of institutional investors. This is expected to increase the liquidity and free float of Ivanhoe Australia's shares. Following completion of the entitlement offer, Ivanhoe Mines will hold approximately 63% of Ivanhoe Australia.

Shares in Ivanhoe Australia will resume normal trading today with trading of the new shares to be issued to institutional investors commencing on 25 August 2010.

Details of Institutional Entitlement Offer

Under the Institutional Entitlement Offer, existing eligible institutional shareholders were entitled to participate on a pro rata basis to subscribe for one new Ivanhoe Australia share for every four existing Ivanhoe Australia shares at an offer price of A\$2.88 per new share. Investors offered new shares under the institutional entitlement offer or the placement were also offered one free attaching option for every two new shares acquired. The institutional entitlement offer and placement received strong support from eligible institutional shareholders and a range of new institutional investors.

Commencement of the Retail Entitlement Offer

Eligible retail shareholders will be invited to participate in the retail entitlement offer under a prospectus lodged with the Australian Securities and Investments Commission (ASIC) today and on the same terms as the institutional entitlement offer. The retail entitlement offer will raise an additional approximately A\$18 million and has been underwritten by UBS AG Australia Branch and Morgan Stanley Australia Securities Limited. The retail entitlement offer will open on 16 August 2010 and close at 5:00 pm (Melbourne time) on 1 September 2010.

Eligible retail shareholders can choose to take up their entitlements in whole, in part, or not at all. Eligible retail shareholders who take up their entitlement in full can also apply for new shares in excess of their entitlement.

However, eligible retail shareholders are not assured of being allocated any new shares in excess of their entitlements. Eligible retail shareholders who do not take up their entitlements will receive no value for them.

Eligible retail shareholders will also receive one free attaching option for every two new shares acquired under the retail entitlement offer. Each option will be exercisable into one fully paid ordinary share at A\$3.38 any time before 5.00 pm (Melbourne time), 20 September 2011.

A copy of the prospectus and a personalised entitlement and acceptance form will be mailed to eligible retail shareholders on 17 August 2010. The retail entitlement offer closes on 1 September 2010 at 5.00 pm (Melbourne time). Offers of shares and options under the retail entitlement offer to eligible retail shareholders will be made in, or accompanied by, a copy of the prospectus. In deciding whether to take up the offer of new shares and free attaching options, eligible retail shareholders should read the prospectus carefully (including the risk factors outlined in section 6).
