SunGard Announces Third Quarter 2010 Results

Wayne, PA October 28, 2010 SunGard, one of the world's leading software and technology services companies, today reported results for the third quarter ended September 30, 2010. For the quarter, revenue was \$1.24 billion, down 7% year over year. Adjusted EBITDA was \$338 million, down 10%, and adjusted income from operations was \$251 million, down 16%. Excluding the results of one of our trading systems businesses, a broker/dealer, revenue was down 2%. Adjusted EBITDA and adjusted income from operations are defined in Notes 1 and 2 in the Notes attached to this release.

For the third quarter, the Company reported a loss from operations of \$219 million, including a \$328 million noncash write-down of goodwill which represents approximately 5% of our total goodwill balance, compared to reported income from operations of \$132 million in the third quarter of 2009 which had no such write-down of goodwill. Reported results in both periods include amortization of acquired intangible assets, stock-based compensation, purchase accounting adjustments, and other expenses which are excluded from adjusted income from operations. Organic revenue (defined as revenue from businesses owned for at least one year and adjusted for both businesses sold in the previous twelve months and the impact of currency exchange rates) was down 6% in the third quarter. Excluding the results of the broker/dealer business mentioned above, organic revenue was flat year over year. This broker/dealer revenue was down 67% compared to the prior year due primarily to the industry-wide dynamic by which active trading firms are opting to become broker/dealers and trade on their own behalf. See Note 3 in the Notes attached to this release.

Cristóbal Conde, president and chief executive officer, commented, "In the quarter, we continued to see solid organic revenue growth in our FS business excluding one of our broker/dealer businesses. While the business outlook showed signs of improvement in the first half of the year, our customers are still cautious about the outlook and are focused on reducing the costs of their core platforms and capturing more value from their existing systems. Our industry knowledge, services-led approach to creating value for our customers, and mission-critical software are helping to differentiate us in a very challenging environment."

For the nine months ended September 30, 2010, revenue decreased 6% to \$3.79 billion. Adjusted EBITDA was \$994 million and adjusted income from operations was \$737 million. The Company reported a loss from operations of \$19 million, including the \$328 million noncash write-down of goodwill, compared to reported income from operations of \$366 million for the prior period which had no such write-down of goodwill. Excluding the broker/dealer business mentioned above, revenue was up 2% compared to the first nine months of 2009.

Financial Systems revenue decreased 9% to \$659 million in the third quarter. Organic revenue decreased 8%. Excluding the broker/dealer business mentioned above, revenue was up 2% and organic revenue was up 3%. License fees were \$33 million, a decrease of \$5 million compared to the third quarter of 2009.

Notable deals in the quarter included the following:

- A global capital markets firm selected SunGard's solutions for securities processing including Clearvision, Fame, GMI, Phase3 and Stream.

- One of the world's largest equipment rental companies selected SunGard's AvantGard to help automate its order-to-cash operations.

- A leading global financial services firm selected SunGard's WealthStation to help it meet new regulatory and reporting requirements.

Higher Education revenue decreased 3% to \$121 million in the third quarter. License fees were \$7 million, a decrease of \$1 million compared to the third quarter of 2009.

Notable deals in the quarter included the following:

- A public doctoral/research university in Indiana selected SunGard's Banner Digital Campus and hosting services.

- A community and technical college system in Louisiana selected SunGard's Banner Digital Campus and technology outsourcing.

- A private university in Maine extended its relationship with SunGard to manage its information technology.

Public Sector revenue decreased 7% to \$96 million in the third quarter. License fees were \$4 million, a decrease of \$2 million compared to the third quarter of 2009.

Notable deals in the quarter included the following:

- A school district in Ohio selected SunGard's student information management system as well as finance and human resources solutions.

- A public body in the UK that provides national services to support frontline policing renewed a support contract with SunGard for case preparation and custody services.

- A borough council in the UK extended a contract with SunGard to provide managed services for information and communications technology.

Availability Services revenue decreased 5% to \$366 million in the third quarter.

Notable deals in the quarter included the following:

A leading provider of integrated payment solutions, marketing services and security selected SunGard for advanced recovery services.

A biopharmaceutical company selected SunGard for co-location and recovery services.

A Canadian financial services organization extended its relationship with SunGard to include managed recovery services.

Financial Position

At September 30, 2010, total debt was \$8.3 billion and cash balances were \$787 million. During the nine months ended September 30, 2010, the Company generated \$433 million in cash flow from operations, invested \$223 million in capital expenditures, and spent \$62 million on acquisitions net of acquired cash.

Conference Call & Webcast

A conference call to review the results is scheduled for today at 9:00 a.m. (Eastern Time). The dial-in number for the conference call is 706-902-1370, and the conference ID number is 19022558. You may also listen to the call at www.investorcalendar.com by clicking on the audio icon for SunGard. An audio replay will be available two hours after the call ends through midnight on November 11, 2010. To listen to the replay, please dial 1-800-642-1687 or 706-645-9291 and enter the conference ID number 19022558. A replay will also be available two hours after the call ends through midnight on November 11, 2010 at www.investorcalendar.com.

About SunGard

SunGard is one of the world's leading software and technology services companies. SunGard has more than 20,000 employees and serves 25,000 customers in 70 countries. SunGard provides software and processing solutions for financial services, higher education and the public sector. SunGard also provides disaster recovery services, managed IT services, information availability consulting services and business continuity management software. With annual revenue exceeding \$5 billion, SunGard is ranked 380 on the Fortune 500 and is the largest privately held business software and IT services company. For more information, please visit www.sungard.com.

SunGard's Safe Harbor Statement under Private Securities Litigation Reform Act of 1995

Statements in this release other than historical facts constitute forward-looking statements. You can identify forward-looking statements because they contain words such as believes, expects, may, will, would, should, approximately, intends, plans, estimates, or anticipates or similar expressions which concern our strategy, plans and intentions. All statements we make relating to estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. All of these forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those we expected. We derive most of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results. Some of the factors that we believe could affect our results include: our high degree of leverage; general economic and market conditions; the overall condition of the financial services industry, including the effect of any further consolidation among financial services firms; the integration of acquired businesses, the performance of acquired businesses, and the prospects for future acquisitions; the effect of war, terrorism, natural disasters or catastrophic events; the effect of disruptions to our systems and infrastructure; the timing and magnitude of software sales; the timing and scope of technological advances; customers taking their information availability solutions in-house; the trend in information availability toward solutions utilizing more dedicated resources; the market and credit risks associated with clearing broker operations; the ability to retain and attract customers and key personnel; risks relating to the foreign countries where we transact business; the ability to obtain patent protection and avoid patent-related liabilities in the context of a rapidly developing legal framework for software and business-method patents; and a material weakness in our internal controls. The factors described in this paragraph and other factors that may affect our business or future financial results are discussed in our periodic filings with the Securities and Exchange Commission, copies of which may be obtained from us without charge. We assume no obligation to update any written or oral forward-looking statement made by us or on our behalf as a result of new information, future events or other factors.

SunGard Data Systems Inc.**Notes to Consolidated Condensed Financial Information (Unaudited)****Note 1. Reconciliation of Net Income (Loss) to EBITDA and Reconciliation of EBITDA to Adjusted EBITDA**

EBITDA represents net income (loss) before interest expense, income taxes, depreciation and amortization and goodwill impairment. Adjusted EBITDA is defined as EBITDA further adjusted to give effect to certain items that are required in calculating covenant compliance under our senior and senior subordinated notes as well as under our senior secured credit facilities, which were entered into in August 2005 and our senior notes entered into in September 2008. Adjusted EBITDA is calculated by subtracting from or adding to EBITDA items of income or expense described below. EBITDA and Adjusted EBITDA are not recognized terms under generally accepted accounting principles (GAAP). EBITDA and Adjusted EBITDA do not represent net income (loss), as that term is defined under GAAP, and should not be considered as an alternative to net income (loss) as an indicator of our operating performance. Additionally, EBITDA and Adjusted EBITDA are not intended to be measures of free cash flow available for management or discretionary use as such measures do not consider certain cash requirements such as capital expenditures (including capitalized software expense), tax payments and debt service requirements. SunGard considers EBITDA and Adjusted EBITDA to be key indicators of our ability to pay our debt. EBITDA and Adjusted EBITDA as presented herein are not necessarily comparable to similarly titled measures. The following is a reconciliation of EBITDA and Adjusted EBITDA to net income (loss), the GAAP measure we believe to be most directly comparable to EBITDA and Adjusted EBITDA. Further information regarding this reconciliation is included in our periodic filings with the U.S. Securities and Exchange Commission.

SunGard Data Systems Inc.**Notes to Consolidated Condensed Financial Information (Unaudited)****Note 2. Reconciliation of Income from Operations to Adjusted Income from Operations**

Adjusted income from operations represents income from operations adjusted for goodwill impairment charges, amortization of acquisition-related intangible assets, merger costs, purchase accounting adjustments for deferred revenue, stock-based compensation expense and management fee expense. Adjusted income from operations is not a recognized term under generally accepted accounting principles (GAAP). Adjusted income from operations does not represent income from operations, as that term is defined under GAAP, and should not be considered as an alternative to income from operations as an indicator of our operating performance. We have included information concerning adjusted income from operations because we use such information when evaluating income from operations to better evaluate the underlying performance of the Company. Adjusted income from operations as presented herein is not necessarily comparable to similarly titled measures. Beginning in 2007, the Company began to experience significant revenue growth in one of our trading systems businesses, a broker/dealer business with inherently lower margins than the rest of the financial systems business, and whose revenue is a function of market volatility and customer mix. The following is a reconciliation between adjusted income from operations and income from operations, the GAAP measure we believe to be most directly comparable to adjusted income from operations, both including and excluding the broker/dealer business.

SunGard Data Systems Inc.**Notes to Consolidated Condensed Financial Information (Unaudited)****Note 3. Impact of Broker/Dealer on Organic Revenue Growth**

The Company defines organic revenue as revenue from businesses owned for at least one year and excluding revenue from businesses sold in the previous twelve months further adjusted to remove the impact of changes in currency exchange rates. When assessing its financial results, the Company focuses on organic revenue because reported revenue is affected by the timing and magnitude of acquisitions, dispositions and currency. Beginning in 2007, the Company began to experience significant revenue growth in one of our trading systems businesses, a broker/dealer business with inherently lower margins than the rest of the financial systems business, and whose revenue is a function of market volatility and customer mix. Reported revenue and organic revenue growth with and without the broker/dealer business for the total Company and Financial Systems for 2008, 2009 and 2010 follows:
