Chairman's Statement

Dear Stockholders,

In the six months since I last wrote to you, Taiwan's equity market has continued to prosper with the Taiwan Stock Exchange Index (the TAIEX or Index), returning 21.7%* in U.S. dollar terms. This time, however, The Taiwan Fund, Inc.'s (the Fund) performance has come in slightly behind that of the Index, gaining 20.5%* in the review period.

The manager has maintained the Fund's underweight position in electronics, preferring to concentrate on those companies which will benefit the most from the increasing spending power enjoyed by Taiwanese citizens and from the strengthening economic relationship between the island and its giant neighbor.

The latter of these themes is dealt with in some detail in the manager's report, but to his comments I would add that tourism from China continues to boom in Taiwan; Chinese visitors rose to 1.6 million in 2010, up from 972,000 in 2009. With the daily limit of Chinese visitors allowed into Taiwan recently raised to 4,000, this total is set to grow to the great benefit of the island's economy, and, one hopes, to our Fund, which the manager believes he has positioned to take advantage of this influx.

Staying with the theme of cross-strait rapprochement, it is heartening to see strategic alliances being forged between Chinese and Taiwanese companies, exemplified by the partnership recently struck up between the company that controls Taiwan Life Insurance and Golden Meditech, a Chinese medical services provider.

The Taiwanese economy is thriving: gross domestic product (GDP) beat expectations in the third and fourth quarters, and for 2010 as a whole the revised growth rate of 10.8% was the highest annual figure since 1987. Growth is predicted to slow in 2011, but 4.8% is not to be sneezed at. And inflation, which has been plaguing other markets in the region, is the lowest in Asia (outside Japan).

Presented with these considerations and those set out in the manager's report, I am optimistic about the Fund's prospects in the coming months and years. On behalf of the Board of Directors, I would like to thank you for your continuing support of the Fund.

Table of Contents

Sincerely,
Harvey Chang
Chairman

- * Returns for the Fund are historical total returns that reflect changes in net asset value per share during each period and assume that dividends and capital gains, if any, were reinvested. Returns for the TAIEX are not total returns and reflect only changes in share price but do not assume that cash dividends, if any, were reinvested, and thus are not strictly comparable to the Fund returns. Past performance is not indicative of future results of the Fund.

Report of the Investment Manager

Review

This was a strong period for the Taiwanese market, which rose 21.7% in the six months ended February 28, 2011. Most of the market's gains came in the first three months (+15.6%), but the TAIEX continued to rally in December and January before slumping in February, on a combination of factors. Investors took profits on the appreciation on the NT dollar by selling large-cap positions; China concept shares sold off on alarmist media reports about the threat of a jasmine revolution on the mainland; and the proposal of a luxury tax hurt property developers.

The Fund lagged the Index slightly in this review period, rising 20.5%. The shortfall came in the last three months, when the Fund's overweights in the building and food sectors hampered relative returns. Since Martin Currie's tenure as manager began last May, however, the Fund has outperformed, returning 28.5% against the TAIEX's gain of 25.6%.

In the strong markets, the largest detractor from relative performance was not holding Index heavyweight HTC Corp. Formosa Chemicals & Fibre Corp. and Formosa Plastics Group were also detrimental to relative returns, performing well after the Fund had sold them. Among the portfolio stocks which lagged the Index, the main negative contributors were Syncmold Enterprise Corp., which manufactures molds and hinges for the electronics industry, and WPG Holdings Co. Ltd., a distributor of electronic components.

On the positive side, China Petrochemical Development Corp. was the largest contributor, while Wistron NeWeb Corp. (smartphones) and Far Eastern Department Stores, Ltd. also did well. And the Fund's relative performance was given a boost from the avoidance of tech giants MediaTek, Inc. and Hon Hai Precision Industry Co., Ltd., both of which underperformed the broader market.

During the review period, we continued to find attractive investment ideas for the portfolio. New positions we established include the following stocks: Chinatrust Financial Holding Co., Ltd. (a consumer bank); Taiwan Surface Mounting Technology Corp. (a tech firm which is benefiting from LED TV growth); MPI Corp. (testing equipment); Taiwan High Speed Rail Corp. (which is enjoying good growth in both customer numbers and average ticket prices, and is likely to benefit from the extension of its 30-year build/operate/transfer contract); Union Bank of Taiwan (an improving operator in Taiwan's

Table of Contents

recovering banking sector); Good Friend International Holdings, Inc. (computer-numerical-control tools, strong in China); Advantech Co., Ltd. (industrial PCs); King's Town Construction Co., Ltd. (Kaohsiung property); CHIPBOND Technology Corp. (IC packaging); and Wistron NeWeb Corp. (which started making Lenovo's smartphones in the fourth quarter of 2010)

On the sales side, we reduced or closed positions in Soft-World International Corp., Cathay Financial Holding Co., Ltd., Hon Hai Precision Industry Co., Ltd., Chicony Electronics Co., Ltd., Formosa Plastics Group, Formosa Chemicals & Fibre Corp., Jih Sun Financial Holdings Co., Ltd., Avermedia Technologies, Inc., TPK Holding Co., Ltd., and Syncmold Enterprise Corp.

Outlook

Enterprise investment and domestic consumption in Taiwan are picking up. Some manufacturers are now increasing their production base in Taiwan, instead of China, given the greater convenience and declining mainland labor-cost and tax advantages. This should continue to improve demand for land, labor, capital equipment and local financial services.

Meanwhile, the incentives for Chinese companies to invest in Taiwan have been enhanced by the Taiwanese government's agreement to open several more sectors to Chinese investment, albeit with a ceiling. Chinese companies can now own up to 10% of Taiwanese IC foundries, DRAM manufacturers, semiconductor packagers and testers, and panel-makers, and can own up to 20% of pharmaceutical companies.

Another positive development is the recovery in exports, not just to emerging markets like the Middle East and Africa, but also to developed markets. Thanks to the revival in exports and the increase in enterprise investment, the unemployment rate is falling (4.67% for December), salaries are rising once more, consumption is booming (retail numbers for December hit a record high and new-car sales in January grew by 105% year on year), consumer confidence is climbing (86.7 in January, a 10-year high), foreign-exchange reserves are expanding (to U.S. \$387 billion in January, another record high), and the NT dollar is appreciating.

The most notable recent development in policy is the luxury tax, through which the government hopes to restrain speculation on

Table of Contents

property. If luxury property is sold within two years, it attracts a 15% tax, which seems reasonable given the recent strength of the property market. We are less comfortable with the 10% tax on luxury goods like cars, yachts, club-membership cards and private jets (although we can see that it would be electorally popular see below).

The media has reported that the presidential election, originally planned for March 2012, might be moved earlier to coincide with legislative elections in January 2012. We expect the ruling party to announce further economy-boosting policies in order to stay in power.

Finally, unlike some other developing economies, the rate of inflation in Taiwan fell in January, to 1.10% (from 1.24% in December 2010), helped by currency strength. Given all these positive developments and with the island's GDP forecast to grow by 4.8% in 2011, we remain upbeat about the prospects for investment in Taiwan in general and for this portfolio in particular over the coming year.

Sincerely,

Chris Ruffle

About the Portfolio Manager *(unaudited)*

Mr. Chris Ruffle serves as the portfolio manager for the Fund's portfolio. Mr. Ruffle joined Martin Currie in 1994. He is a Chinese and Taiwanese equity specialist with over 15 years investment experience in Asia. Fluent in Mandarin, Mr. Ruffle has worked in the Far East since 1983. He worked originally in Beijing and Shanghai and then in Australia for a metal trading company. He then moved to Warburg Securities in 1987 as an analyst in Tokyo, before establishing Warburg's office in Taiwan. Mr. Ruffle also manages The Martin Currie China Hedge Fund, The China Fund, Inc. and the China A Share Fund.

(a) Based on average shares outstanding during the period.

(b) Expense ratio includes 20% tax paid on stock dividends received by the Fund.

(c) Ratio includes reduction of the management fees; see Note 3. Without this reduction the ratios would be 1.98%, 1.82% and -0.04%, respectively.

(d) Annualized.

(e) Total investment return at net asset value (NAV) is based on changes in the NAV of Fund shares and assumes reinvestment of dividends and distributions, if any. Total investment return at market value is based on changes in the market price at which the Fund s shares traded on the stock exchange during the period and assumes reinvestment of dividends and distributions, if any, at actual prices pursuant to the Fund s dividend reinvestment program. Because the Fund s shares trade in the stock market based on investor demand, the Fund may trade at a price higher or lower than its NAV. Therefore, returns are calculated based on share price and NAV.

* Amount represents less than \$0.005 per share.

^ As of May 8, 2010, Martin Currie succeeded HSBC Global Asset Management (Taiwan) Limited (HSBC) as the Fund s investment adviser.

Not annualized.

Table of Contents**Notes to Financial Statements (unaudited)****1. Significant Accounting Policies**

The Taiwan Fund, Inc. (the Fund), a Delaware corporation, is registered under the Investment Company Act of 1940, as amended (the Act), as a diversified closed-end management investment fund.

The Fund concentrates its investments in the securities listed on the Taiwan Stock Exchange. Because of this concentration, the Fund may be subject to additional risks resulting from future political or economic conditions in Taiwan and the possible imposition of adverse governmental laws of currency exchange restrictions affecting Taiwan.

Events or transactions occurring after year end through the date the financial statements were issued, have been evaluated by management in the preparation of the financial statements. The following summarizes the significant accounting policies followed by the Fund in the preparation of its financial statements in conformity with U.S. generally accepted accounting principles.

Security Valuation. All securities, including those traded over-the-counter, for which market quotations are readily available are valued at the last sales price prior to the time of determination of the Fund's net asset value per share or, if there were no sales on such date, at the closing price quoted for such securities (but if bid and asked quotations are available, at the mean between the last current bid and asked prices, rather than such quoted closing price). In certain instances where the price determined above may not represent fair market value, the value is determined in such manner as the Board of Directors (the Board) may prescribe. Foreign securities may be valued at fair value according to procedures approved by the Board if the closing price is not reflective of current market values due to trading or events occurring in the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. Short-term investments, having a maturity of 60 days or less are valued at amortized cost, which approximates market value, with accrued interest or discount earned included in interest receivable.

The Fund has adopted fair valuation accounting standards which establish a definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 quoted unadjusted prices for identical instruments in active markets to which the Fund has access at the date of measurement.

Level 2 quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers.

Level 3 model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price the asset or liability based on the best available information.

Investments in Securities	Level 1	Level 2	Level 3	Total
----------------------------------	----------------	----------------	----------------	--------------

Common Stocks^	\$	343,700,663	\$	\$	\$	343,700,663
Total	\$	343,700,663	\$	\$	\$	343,700,663

^ See schedule of investments for industry breakout.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update No. 2010-06, Fair Value

Table of Contents**Notes to Financial Statements (unaudited) (continued)****1. Significant Accounting Policies** *continued*

Measurements and Disclosures (ASU 2010-06). ASU 2010-06 requires disclosures regarding transfers in and out of Levels 1 and 2 effective for interim and annual reporting periods beginning after December 15, 2009. The Fund discloses significant transfers between levels based on valuations at the end of the reporting period. For the period ended February 28, 2011, there were no transfers between Levels 1 and 2. ASU 2010-06 also requires additional details regarding Level 3 transaction activity effective for interim and annual periods beginning after December 15, 2010. Management is currently evaluating the effect that this additional requirement will have on the Fund's financial statements.

Repurchase Agreements. In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

Foreign Currency Translation. The financial accounting records of the Fund are maintained in U.S. dollars. Investment securities, other assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the current exchange rate. Purchases and sales of securities, income receipts and expense payments are translated into U.S. dollars at the exchange rate on the dates of the transactions.

Reported net realized gains and losses on foreign currency transactions represent net gains and losses from disposition of foreign currencies, currency gains and losses realized between the trade dates and settlement dates of security transactions, and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received. The effects of changes in foreign currency exchange rates on investments in securities are not segregated in the Statement of Operations from the effects of changes in market prices of those securities, but are included in realized and unrealized gain or loss on investments in securities.

Forward Foreign Currency Transactions. A forward foreign currency contract (Forward) is an agreement between two parties to buy or sell currency at a set price on a future date. The Fund may enter into Forwards in order to hedge foreign currency risk or for other risk management purposes. Realized gains or losses on Forwards include net gains or losses on contracts that have matured or which the Fund has terminated by entering into an offsetting closing transaction. Unrealized appreciation or depreciation of Forwards is included in the Statement of Assets and Liabilities and is carried on a net basis. The portfolio could be exposed to risk of loss if the counterparty is unable to meet the terms of the contract or if the value of the currency changes unfavorably. As of February 28, 2011 the Fund had no open Forwards.

Indemnification Obligations. Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

Taxes. As a qualified regulated investment Fund under Subchapter M of the Internal Revenue Code, the Fund is not subject to income taxes to the extent that it distributes all of its investment Fund taxable income and net realized capital gains for its fiscal year. In addition to federal income tax for which the Fund is liable on undistributed amounts, the Fund is subject to federal excise tax on undistributed investment company taxable income and net realized capital gains. The Fund is organized in Delaware and as such is required to pay Delaware an annual franchise

tax. Also, the Fund is currently subject to a Taiwan security transaction tax of 0.3% on sales of equities and 0.1% on sales of mutual fund shares based on the transaction amount.

The Fund's functional currency for tax reporting purposes is the New Taiwan dollar.

Table of Contents

Notes to Financial Statements *(unaudited) (continued)*

1. Significant Accounting Policies *continued*

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more likely than not to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax year (2007-2009), or expected to be taken in the Fund's 2010 tax returns. The Fund identifies its major tax jurisdictions as U.S. Federal, Delaware and foreign jurisdictions where the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

Investment Income. Dividend income is recorded on the ex-dividend date; except, where the ex-dividend date may have passed, certain dividends from foreign securities are recorded as soon as the Fund is informed of the ex-dividend date.

Taiwanese companies typically declare dividends in the Fund's third fiscal quarter of each year. As a result, the Fund receives substantially less dividend income in the first half of its year. Interest income, which includes accretion of original discount, is accrued as earned.

Dividend and interest income generated in Taiwan is subject to a 20% withholding tax. Stock dividends received (except those which have resulted from capitalization of capital surplus) are taxable at 20% of the par value of the stock dividends received.

Distributions to Shareholders. The Fund distributes to shareholders at least annually, substantially all of its taxable ordinary income and expects to distribute its taxable net realized gains. Certain foreign currency gains (losses) are taxable as ordinary income and, therefore, increase (decrease) taxable ordinary income available for distribution. Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the Plan), stockholders may elect to have all cash distributions automatically reinvested in Fund shares. (See the summary of the Plan.) Unless the Board elects to make a distribution in shares of the Fund's common stock, stockholders who do not participate in the Plan will receive all distributions in cash paid by check in U.S. dollars. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. generally accepted accounting principles. No capital gain distributions shall be made until any capital loss carryforwards have been fully utilized or expired.

These differences are primarily due to differing treatments for foreign currency transactions, losses deferred due to wash sales, post October loss deferrals and capital loss carryforwards. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to paid in capital.

Security Transactions. Security transactions are accounted as of the trade date. Gains and losses on securities sold are determined on the basis of identified cost.

Use of Estimates. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

2. Purchases and Sales of Securities

For the six months ended February 28, 2011, purchases and sales of securities, other than short-term securities, aggregated \$81,768,711 and \$89,253,399, respectively.

3. Management Fees and Other Service Providers

Management Fee. As the Fund's investment adviser, Martin Currie, Inc., receives a fee for its services, computed daily and payable monthly in U.S. dollars, at the annual rate of 0.90% on the first \$150 million in total net assets under management, 0.80% on the next \$150 million in total net assets under management and 0.70% on total net assets under management over \$300 million.

Table of Contents**Notes to Financial Statements** *(unaudited) (continued)***3. Management Fees and Other Service Providers** *continued*

For the period ended February 28, 2011, the management fee was equivalent to an annual rate of 0.83% of average net assets.

Administration Fees. State Street Bank and Trust Company (State Street) provides, or arranges for the provision of certain administrative and accounting services for the Fund, including maintaining the books and records of the Fund, and preparing certain reports and other documents required by federal and/or state laws and regulations. The Fund pays State Street a fee at the annual rate of 0.11% of the Fund's average daily net assets up to \$150 million, 0.08% of the next \$150 million, and 0.05% of those assets in excess of \$300 million, subject to certain minimum requirements. The Fund also pays State Street \$130,000 per year for certain legal administrative services, including corporate secretarial services and preparing regulatory filings. As of August 31, 2010 State Street succeeded Mega Bank as custodian for the Fund's Taiwan assets and now serves as custodian for all the Fund's assets.

Directors' Fees and Expenses. The Fund pays each of its directors who is not a director, officer or employee of the investment adviser an annual fee of \$20,000 plus \$2,500 for each Board meeting or Committee meeting attended, and \$2,500 for each meeting attended by telephone. In addition, the Fund will reimburse each of the directors for travel and out-of-pocket expenses incurred in connection with Board meetings.

Other Service Providers. Foreside Compliance Services, LLC (FCS) provides the Fund with a Chief Compliance Officer. Foreside Management Services, LLC (FMS) provides the Fund with a Treasurer. Martin Currie pays FMS customary fees for its services pursuant to the Treasury Services Agreement between the Fund and FMS. Neither FCS nor FMS have a role in determining the investment policies or which securities are purchased or sold by the Fund.

General. Certain directors and officers of the Fund may also be directors or employees of the aforementioned companies that provide services to the Fund, and during their terms of office, receive no compensation from the Fund.

4. Fund Shares

At February 28, 2011, there were 100,000,000 shares of \$0.01 par value capital stock authorized, of which 18,575,214 were issued and outstanding. On January 6, 2011, the Fund issued 102 shares of its common stock, valued at \$2,010, to shareholders participating in the Fund's Dividend Reinvestment and Cash Purchase Plan.

5. Federal Tax Information

The tax character of distributions made by the Fund during the year ended August 31, 2010 is as follows:

		Year Ended August 31, 2010
Ordinary Income	\$	1,312,691
Total	\$	1,312,691

On December 28, 2010, the Fund distributed \$1,513,500 from ordinary income to shareholders of record.

Net unrealized appreciation of the Fund's investment securities was \$84,550,301 of which \$87,116,767 related to appreciated investment securities and \$2,566,466 related to depreciated investment securities. In addition, as of August 31, 2010, the Fund had available for federal income tax purposes a capital loss carryover of \$(43,053,037) of which \$(34,329,861) and \$(8,723,176) expire on August 31, 2017 and August 31, 2018, respectively, which can be used to offset certain future realized capital gains.

Table of Contents

Other Information *(unaudited)*

Federal Tax Information. The Fund has made an election under Internal Revenue Code Section 853 to pass through foreign taxes paid by the Fund to its shareholders. For the year ended August 31, 2010, the total amount of foreign taxes paid that will be passed through to its shareholders and foreign source income for information reporting purposes will be \$1,032,263 (representing taxes withheld plus taxes on stock dividends) and \$9,108,721, respectively.

Share Repurchase Program

The Fund's Board, at a meeting held on April 23, 2001, authorized the Fund to repurchase up to 15% of the Fund's outstanding shares of common stock. The Fund will purchase such shares in the open market at times and prices determined by management of the Fund to be in the best interest of stockholders of the Fund. As of February 28, 2011 no shares have been repurchased by the Fund.

Privacy Policy

Privacy Notice

The Taiwan Fund, Inc. collects nonpublic personal information about its shareholders from the following sources:

- o Information it receives from shareholders on applications or other forms;
- o Information about shareholder transactions with the Fund, its affiliates, or others; and
- o Information it receives from a consumer reporting agency.

The Fund's policy is to not disclose nonpublic personal information about its shareholders to nonaffiliated third parties (other than disclosures permitted by law).

The Fund restricts access to nonpublic personal information about its shareholders to those agents of the Fund who need to know that information to provide products or services to shareholders. The Fund maintains physical, electronic, and procedural safeguards that comply with federal standards to guard its shareholders' nonpublic personal information.

Proxy Voting Policies and Procedures

A description of the policies and procedures that are used by the Fund's investment adviser to vote proxies relating to the Fund's portfolio securities is available (1) without charge, upon request, by calling 1-877-864-5056; and (2) as an exhibit to the Fund's annual report on Form N-CSR which is available on the website of the Securities and Exchange Commission (the Commission) at <http://www.sec.gov>. Information regarding how the investment adviser voted these proxies during the most recent 12-month period ended June 30 is available without charge, upon request, by calling the same number or by accessing the Commission's website.

Quarterly Portfolio of Investments

The Fund files with the Securities and Exchange Commission its complete schedule of portfolio holdings on Form N-Q for the first and third quarters of each fiscal year. The Fund's Form N-Q's are available on the Commission's website at <http://www.sec.gov>. Additionally, the Portfolio of Investments may be reviewed and copied at the Commission's Public Reference Room in

Table of Contents

Other Information *(unaudited) (continued)*

Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The most recent Form N-Q is available without charge, upon request, by calling 1-877-864-5056.

Certifications

The Fund's chief executive officer has certified to the New York Stock Exchange that, as of April 29, 2010, he was not aware of any violation by the Fund of applicable New York Stock Exchange corporate governance listing standards. The Fund also has included the certifications of the Fund's chief executive officer and chief financial officer required by Section 302 and Section 906 of the Sarbanes-Oxley Act of 2002 in the Fund's Form N-CSR filed with the Securities and Exchange Commission, for the period of this report.

Table of Contents

Summary of Dividend Reinvestment and Cash Purchase Plan

What is the Dividend Reinvestment and Cash Purchase Plan?

The Dividend Reinvestment and Cash Purchase Plan (the Plan) offers shareholders of the Fund, a prompt and simple way to reinvest their dividends and capital gains distributions in shares of the Fund. The Fund will distribute to shareholders, at least annually, substantially all of its net income and expects to distribute annually its net realized capital gains. Computershare Trust Company, N.A. (the Plan Administrator), acts as Plan Administrator for shareholders in administering the Plan. The Plan also allows you to make optional cash investments in Fund shares through the Plan Administrator.

Who Can Participate in the Plan?

If you own shares in your own name, you can elect to participate directly in the Plan. If you own shares that are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to arrange for them to participate on your behalf.

What Does the Plan Offer?

The Plan has two components; reinvestment of dividends and capital gains distributions, and a voluntary cash purchase feature.

Reinvestment of dividends and capital gains distributions

If you choose to participate in the Plan, your dividends and capital gains distributions will be promptly invested for you, automatically increasing your holdings in the Fund. If the Fund declares a dividend or capital gains distribution payable in cash, you will automatically receive shares purchased by the Plan Administrator on the open market. You will be charged a per share fee (currently \$0.05) incurred with respect to the Plan Administrator's open market purchases.

If a distribution is declared which is payable in shares or cash at the option of the shareholder and if on the valuation date (generally the payable date) the market price of shares is equal to or exceeds their net asset value, the Fund will issue new shares to you at the greater of the following: (a) net asset value per share or (b) 95% of the market price per share. If the market price per share on the valuation date is less than the net asset value per share, the Fund will issue new shares to you at the market price per share on the valuation date.

All reinvestments are in full and fractional shares, carried to three decimal places. In the case of foreign (non-U.S.) shareholders, reinvestment will be made net of applicable withholding tax.

The Plan will not operate if a distribution is declared in shares only, subject to an election by the shareholders to receive cash.

Voluntary cash purchase option

Plan participants have the option of making investments in Fund shares through the Plan Administrator. You may invest any amount from \$100 to \$3,000 semi-annually. The Plan Administrator will purchase shares for you on the New York Stock Exchange or otherwise on the open market on or about February 15 and August 15. If you hold shares in your own name, you should deal directly with the Plan Administrator. Checks in U.S. dollars and drawn in

Edgar Filing: TAIWAN FUND INC - Form N-CSRS

U.S. banks should be made payable to Computershare . The Plan Administrator will not accept cash, traveler s checks, money orders, or third party checks. We suggest you send your check, along with a completed transaction form which is attached to each statement you receive, to the following address to be received at least two business days before the investment date: Computershare, c/o The Taiwan Fund, Inc. at P.O. Box 43078,

Table of Contents

Summary of Dividend Reinvestment and Cash Purchase Plan *(continued)*

Providence, RI 02940-3078. The Plan Administrator will return any cash payments received more than thirty days prior to February 15 or August 15, and you will not receive interest on uninvested cash payments. If you own shares that are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to arrange for them to participate in the cash purchase option on your behalf.

If your check is returned unpaid for any reason, the Plan Administrator will consider the request for investment of such funds null and void, and shall immediately remove these shares from your account. The Plan Administrator shall be entitled to sell shares to satisfy any uncollected amount plus any applicable fees. If the net proceeds of the sale are insufficient to satisfy the balance of any uncollected amounts, the Plan Administrator shall be entitled to sell such additional shares from your account as may be necessary to satisfy the uncollected balance.

Is There a Cost to Participate?

For purchases from the reinvestment of dividends and capital gains distributions, you will pay a pro rata portion of brokerage commissions payable with respect to purchases of shares by the Plan Administrator on the open market. You will also be charged a per share fee (currently \$0.05) incurred with respect to the Plan Administrator's open market purchases in connection with the reinvestment of dividends and capital gains distributions. Brokerage charges for purchasing shares through the Plan are expected to be less than the usual brokerage charges for individual transactions, because the Plan Administrator will purchase stock for all participants in blocks, resulting in lower commissions for each individual participant. The Plan Administrator's transaction fees for handling capital gains distributions or income dividends will be paid by the Fund.

For purchases from voluntary cash payments, participants are charged a service fee (currently \$0.75 per investment) and a per fee (currently \$0.05) for each voluntary cash investment. Per share fees include any brokerage commissions the Plan Administrator is required to pay.

Brokerage commissions and service fees, if any, will be deducted from amounts to be invested.

What Are the Tax Implications for Participants?

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions. For further information as to the tax consequences of participating in the Plan, you should consult with your tax advisors.

If the Fund issues shares upon reinvestment of a dividend or capital gains distribution, for U.S. federal income tax purposes, the amount reportable in respect of the reinvested amount of the dividend or distribution will be the fair market value of the shares received as of the payment date, which will be reportable as ordinary dividend income and/or long term capital gains. The shares will have a tax basis equal to such fair market value, and the holding period for the shares will begin on the day after the payment date. State, local and foreign taxes may also be applicable.

Table of Contents

**Summary of Dividend Reinvestment and
Cash Purchase Plan (continued)**

Once Enrolled in the Plan, May I Withdraw From It?

You may withdraw from the Plan without penalty at any time by calling the Plan Administrator at 1-800-426-5523, by accessing your Plan account at the Plan Administrator's web site, www.computershare.com/investor or by written notice to the Plan Administrator.

If you withdraw, you will receive, without charge, stock certificates issued in your name for all full shares, and a check for any fractional share (valued at the market value of the shares at the time of withdrawal or termination) less any applicable fees. You may also request that the Plan Administrator sell your shares and send you the proceeds, less a transaction fee of \$2.50 and a per share fee of \$0.15 for any request for withdrawal or termination. The per share fee includes any brokerage commissions the Plan Administrator is required to pay. Alternatively, you may also request that the Plan Administrator move your whole shares to the Direct Management System, which would allow you to maintain ownership of those whole shares in book entry form on the records of the Fund.

All sale requests having an anticipated market value of \$100,000.00 or more are expected to be submitted in written form. In addition, all sale requests within thirty (30) days of an address change are expected to be submitted in written form.

Whom Should I Contact for Additional Information?

If you hold shares in your own name, please address all notices, correspondence, questions, or other communications regarding the Plan to: Computershare, c/o The Taiwan Fund, Inc. at P.O. Box 43078, Providence, RI 02940-3078, by telephone at 1-800-426-5523 or through the Internet at www.computershare.com/investor. If your shares are not held in your name, you should contact your brokerage firm, bank, or other nominee for more information and to arrange for them to participate in the Plan on your behalf.

Either the Fund or the Plan Administrator may amend or terminate the Plan. Except in the case of amendments necessary or appropriate to comply with applicable law, rules or policies or a regulatory authority, participants will be mailed written notice at least 30 days before the effective date of any amendment. In the case of termination, participants will be mailed written notice at least 30 days before the record date of any dividend or capital gains distribution by the Fund.
