**Cautionary Statement**

This Annual Report on Form 20-F contains certain statements that are neither reported financial results nor other historical information. These statements are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the

Exchange Act). These statements include information with respect to our financial condition, our results of operations and businesses, strategy, plans and objectives. Words such as anticipates, expects, intends, plans, believes, sees, estimates, targets, may, will, continue, project and similar expressions, as well as statements in the future tense, identify forward-looking statements. These forward-looking statements are not guarantees of our future performance and are subject to assumptions, risks and uncertainties that could cause actual future results to differ materially from those expressed in or implied by such forward-looking statements. Many of these assumptions, risks and uncertainties relate to factors that are beyond our ability to control or estimate precisely, such as changes in laws or regulations and decisions by governmental bodies or regulators; breaches of, or changes in, environmental, climate change and health and safety laws or regulations; network failure or interruption, the inability to carry out critical non-network operations and damage to infrastructure; performance against regulatory targets and standards, including delivery of costs and efficiency savings; customers and counterparties failing to perform their obligations to us; and unseasonable weather affecting energy demands. Other factors that could cause actual results to differ materially from those described in this document include fluctuations in exchange rates, interest rates, commodity price indices and settlement of hedging arrangements; restrictions in our borrowing and debt arrangements; changes to credit ratings of the Company and its subsidiaries; adverse changes and volatility in the global credit markets; our ability to access capital markets and other sources of credit in a timely manner and other sources of credit on acceptable terms; deflation or inflation; the seasonality of our businesses; the future funding requirements of our pension schemes and other post-retirement benefit schemes, and the regulatory treatment of pension costs; the loss of key personnel or the ability to attract, train or retain qualified personnel, new or revised accounting standards, rules and interpretations, including changes of law and accounting standards that may affect our effective rate of tax; incorrect assumptions or conclusions underpinning business development activity and any restructuring or reorganization of the Company and its subsidiaries, and any unforeseen significant liabilities or other unanticipated or unintended effects of such activities restructuring or reorganization and the performance of the Company's subsidiaries. In addition the Company's reputation may be harmed if consumers of energy suffer a disruption to their supply. For a more detailed description of these assumptions, risks and uncertainties, together with any other risk factors, please see Items 3 and 5 of this report (and in particular Risk factors under Item 3). Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. Except as required by law, we do not undertake any obligation to revise these forward-looking statements to reflect events or circumstances after the date of this report. The effects of these factors are difficult to predict. New factors emerge from time to time and we cannot assess the potential impact of any such factor on our activities or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement.

The inclusion of our website address in this annual report does not, and is not intended to, incorporate the contents of our website into this report and such information does not constitute part of this annual report.

- 1 Since the implementation of IFRS by the Company, there have been no significant changes in accounting standards, interpretations or policies that have had a material financial impact on the selected financial data.  
  
The selected financial data incorporates businesses acquired in the period from the date of their acquisitions, principally KeySpan Corporation acquired in August 2007 and our Rhode Island gas distribution operations acquired in August 2006. Comparatives for 2008 have been restated for the finalization of the fair value exercise on the acquisition of KeySpan Corporation.
- 2 Items previously reported for 2007 - 2010 separately as other operating income have been included within revenue.
- 3 Items previously reported for 2007 - 2010 have been restated to reflect the impact of the bonus element of the rights issue and as a result of the additional shares issued as scrip dividends.
- 4 Comparative Earnings Per Share data have been restated to reflect the impact of the additional shares issued as scrip dividends

**Table of Contents****Property, plant and equipment*****United Kingdom***

Our corporate centre operates principally from offices at 1-3 Strand, London. These offices, of approximately 25,000 square feet, are held on a 15-year lease from 24 June 2002. We also have major offices in Warwick. The Company sold and leased back our Warwick offices during fiscal year 2007. The Warwick offices, of approximately 235,884 square feet, are now held on a 20-year lease from 2 February 2007 with a one-time tenant only break option (i.e. Company lease termination right) exercisable during the 15th anniversary of the lease. At present, environmental issues are not preventing the businesses from utilising any material operating assets in the course of their business.

*UK electricity and gas transmission.* We own the freehold of the majority of all sites associated with our UK electricity and gas transmission business in England and Wales. The remainder are held on long-term leaseholds, including all the transmission offtake sites in the service areas of the UK gas distribution networks sold on 1 June 2005. In Scotland, we own the majority of our gas transmission sites outright through a disposition purchase. The remainder are owned through a feudal disposition where purchase was subject to various rights retained by the previous owner, for example mineral or forestry rights. In addition, we have three principal commercial lettings, at St Fergus to Royal Dutch Shell and Exxon Mobil, and at Theddlethorpe (in England) to ConocoPhillips. The electricity transmission business does not own any sites in Scotland.

We own and operate the gas National Transmission System (NTS) in the UK which is a gas transmission network comprised of high pressure transmission pipelines connecting to eight gas distribution networks and to third party independent systems for onward transportation of gas to end consumers. Agreements with landowners or occupiers are only required for those pipes that cross private land. These agreements largely comprise perpetual easements in England and Wales and deeds of servitude in Scotland. Any land issues impacting on normal agricultural activity local to pipelines and their associated easement or servitude are covered by national agreements with the National Farmers Union, the Country Land and Business Association of England and Wales and the Scottish Landowners Association.

We own and operate the national electricity transmission system for England and Wales consisting of overhead transmission lines and underground cable. Agreements with landowners or occupiers are required for the overhead lines and underground cables, which make up our electricity network in England and Wales. The majority of agreements are in the form of terminable wayleaves. The remainder are in the form of perpetual easements under which rights have been granted in perpetuity in return for a lump sum payment. The sites at which we have electricity substations are split between freehold and leasehold. Of the leasehold sites, the large majority are substations located on the premises of generators and are held on long-term leases for nominal rental payments. Of the remaining sites, most are held as ground rents (market price payable for land only) from the respective landlords. We own the freehold of our electricity control centre in Berkshire.

*UK gas distribution.* We own and operate four of the eight regional gas distribution networks in the UK. Agreements with landowners or occupiers are only required for those pipes that cross private land. These agreements largely comprise perpetual easements. Any land issues impacting on normal agricultural activity local to pipelines and their associated easement are covered by national agreements with the National Farmers Union and the Country Land and Business Association of England and Wales.

We own the freeholds of the substantial majority of the operational sites where there are larger operational plant and gas storage facilities used in our UK gas distribution business. The vast majority of office buildings, depots and stores used by UK gas distribution are leased from another company within National Grid.

***United States***

We either own in fee (i.e. freehold) or lease the office buildings that comprise our principal US business premises located in New York and New England. We own in fee the office buildings located in Westborough and Northborough, Massachusetts and in Syracuse, Albany, Buffalo and Hicksville, New York. We lease approximately 254,000 square feet of office space in the MetroTech Building in Brooklyn, New York, pursuant to a lease that expires on 28 February 2025. We also lease approximately 312,000 square feet of office space in the Reservoir Woods Office Park in Waltham, Massachusetts, pursuant to a twenty year, five month lease that commenced on 15 May 2009. In addition to our principal US offices, we maintain other offices and facilities in various locations throughout our US service territory in New York and New England. In addition, we lease office equipment, vehicles and power operated

equipment necessary to meet our current and expected business requirements and operational needs.

In addition to the US property described above, with respect to our US electric distribution, transmission and gas distribution businesses located in northeastern US (more fully described below), we either own property in fee or hold necessary property rights pursuant to municipal consents, easements, or long-term leases and licenses. The Company has recently retired a number of its legacy company mortgage indentures; however, mortgage indentures remain with respect to the following legacy companies: Niagara Mohawk Power Corporation (upstate New York); Colonial Gas Company (eastern Massachusetts); and The Narragansett Electric Company (only with respect to assets related to its gas business in Rhode Island). Each of the referenced indentures constitute a direct lien on substantially all current and after-acquired gas and electric properties (as applicable) presently owned by each of the respective companies and used or useful in the operation of that company's properties as an integrated system. At present, environmental issues are not preventing our US businesses from utilising any material operating assets in the course of their business. We continually

**Table of Contents**

examine our real property and other property for contribution and relevance to our US businesses and when it is determined that such properties are no longer productive or necessary for the operation of our business, they are disposed of as promptly as possible. With respect to leased office space, we anticipate no significant difficulty in leasing alternative space at reasonable rates in the event of the expiration, cancellation or termination of a lease.

*US electricity transmission.* We own and operate a US electricity transmission network spanning upstate New York, Massachusetts, Rhode Island, New Hampshire and Vermont consisting of transmission and sub-transmission lines located within right-of-way corridors that traverse both public and private property. Statutory authority, legislative charters, tariff provisions and municipal franchise grants and agreements generally provide our US companies with the rights required to locate transmission and sub-transmission facilities within and across public ways. Right-of-way corridors that cross privately owned land have generally been acquired in fee or pursuant to grants of perpetual easements. Transmission and sub-transmission substation facilities are principally located on properties that are owned in fee.

*US electricity and gas distribution.* We own and operate a US electricity and gas distribution systems located on rights-of-way in Massachusetts, New York, New Hampshire and Rhode Island and a gas distribution pipelines located on rights-of-way in New York, Massachusetts, New Hampshire and Rhode Island. Statutory authority, legislative charters, tariff provisions and municipal franchise grants and agreements generally provide our US distribution operations with the rights required to locate facilities within and across public ways. Right-of-way corridors that cross privately owned land have principally been acquired in fee or pursuant to grants of perpetual easements. Electric distribution substations and gas distribution regulator stations are principally located on properties owned in fee, or pursuant to grants of perpetual easements, or pursuant to legislative charters and municipal franchise grants.

**Item 10. Additional Information****Articles of Association**

The following description is a summary of the material terms of our Articles of Association (the Articles) and applicable English law. The following description is a summary only and is qualified in its entirety by reference to the Articles, which are provided as an exhibit to this report and the Companies Act 2006 (the Companies Act).

At the Annual General Meeting on 27 July 2009, the Company adopted new Articles, primarily to take account of changes in English company law brought about by the Companies Act. At that same meeting, the Company adopted additional amendments to the Articles that took effect 1 October 2009, addressing changes to the Companies Act that came into force on that date. The Articles are incorporated by reference as Exhibit 1.1.

**General**

National Grid is incorporated under the name National Grid plc and is registered in England and Wales with registered number 4031152. The Articles set out the Company's corporate regulations. The Company's objects are unlimited.

**Directors**

Under the Articles, a Director must disclose any personal interest in a matter and may not vote in respect of that matter, subject to certain limited exceptions. As permitted under the Companies Act, the Articles provide that the non-conflicted Directors of the Company may authorise a conflict or potential conflict for a particular matter. In doing so, the non-conflicted Directors must act in a way they consider, in good faith, will be most likely to promote the success of the Company for the benefit of the shareholders as a whole.

The Directors (other than a Director acting in an executive capacity) are paid a fee for their services, which must not exceed £2,000,000 a year or any higher sum as decided by an ordinary resolution at a general meeting of shareholders. In addition, special pay may be awarded to a Director who acts in an executive capacity, serves on a committee, performs services which the Directors consider to extend beyond the ordinary duties of a Director, devotes special attention to the business of National Grid or goes or lives abroad on the Company's behalf. Directors may also receive reimbursement for all expenses properly incurred, pensions and other benefits. The compensation awarded to the Executive Directors is determined by the Remuneration Committee, which consists entirely of independent Non-executive Directors. The fees of the Non-executive Directors are determined by the Executive Directors with the guidance of the Chairman and after taking appropriate external advice.

The Directors are empowered to exercise all the powers of National Grid to borrow money, subject to the limitation that the aggregate principal amount outstanding of all borrowings shall not exceed £35 billion or any other amount as approved by shareholders by an ordinary resolution at a general meeting.

Directors must stand for reappointment at the first Annual General Meeting following their appointment to the Board. Each Director must retire at least every three years but will be eligible for re-election. In accordance with best practice introduced by the UK Corporate Governance Code, it is proposed that all Directors wishing to continue in office should offer themselves for re-election annually. This new requirement will be presented for consideration at the 2011 Annual General Meeting.

No person is disqualified from being a Director or is required to vacate that office by reason of attaining a maximum age.

A Director is not required to hold shares of National Grid in order to qualify as a Director.

**Table of Contents**

***Rights, Preferences and Restrictions***

***(i) Dividend rights***

National Grid may not pay any dividend otherwise than out of profits available for distribution under the Companies Act and the other applicable provisions of English law. In addition, as a public company, National Grid may make a distribution only if and to the extent that, at the time of the distribution, the amount of its net assets is not less than the aggregate of its called-up share capital and undistributable reserves (as defined in the Companies Act). Subject to the foregoing, shareholders may, by ordinary resolution, declare dividends in accordance with the respective rights of the shareholders but not exceeding the amount recommended by the Board of Directors. The Board of Directors may pay interim dividends if the Board of Directors considers that National Grid's financial position justifies the payment.

Except insofar as the rights attaching to any share otherwise provide, all dividends will be apportioned and paid proportionately to the amounts paid up (otherwise than in advance of calls) on the shares.

All dividends unclaimed for one year after having been declared or provided for by the Board of Directors (whichever is later) may be invested or otherwise made use of by the Board of Directors for the benefit of National Grid until claimed. Any dividend or interest unclaimed for 12 years from the date when it was declared or became due for payment may be forfeited and revert to National Grid.

***(ii) Voting rights***

Subject to any rights or restrictions attached to any shares and to any other provisions of the Articles, at any general meeting on a show of hands, every shareholder who is present in person will have one vote and on a poll, every shareholder will have one vote for every share which he holds. On a show of hands or poll, shareholders may cast votes either personally or by proxy and a proxy need not be a shareholder. Under the Articles, all substantive resolutions at a General Meeting must be decided on a poll, other than those of a procedural nature, unless a poll is demanded in accordance with the Articles.

***(iii) Liquidation rights***

In a winding-up, a liquidator may, with the sanction of a special resolution passed by the shareholders and any other sanction required under English law, (a) divide among the shareholders the whole or any part of National Grid's assets (whether the assets are of the same kind or not) and may, for this purpose, value any assets and determine how the division should be carried out as between shareholders or different classes of shareholders, or (b) vest the whole or any part of the assets to trustees on trust for the benefit of the shareholders as the liquidator, with the sanction of a special resolution, determines, but in neither case will a shareholder be compelled to accept assets upon which there is a liability.

***Variation of Rights***

Subject to applicable provisions of English law, the Articles and the rights attached to any specific class of shares, the rights attached to any class of shares of National Grid may be varied or cancelled with the written consent of the holders of three-fourths in nominal value of the issued shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of the shares of that class.

***General Meetings***

Annual General Meetings must be convened each year within six months of the Company's accounting reference date upon advance written notice of 21 clear days. Any other General Meeting must be convened upon advance written notice of at least 14 clear days, subject to annual approval of shareholders. In certain limited circumstances, the Company can convene a General Meeting by shorter notice. The notice must specify, among other things, the nature of the business to be transacted, the place, the date and the time of the meeting.

***Rights of Non-Residents***

There are no restrictions under National Grid's Articles that would limit the rights of persons not resident in the UK, as such, to vote ordinary shares.

**Table of Contents**

***Disclosure of Interests***

The Companies Act provides that a public company may send a written notice to a person whom the company knows or has reasonable cause to believe to be, or to have been at any time during the three years immediately preceding the date on which the notice is issued, interested in the company's shares. The notice may require that person to state whether he has an interest in the shares, and in case that person holds or had held an interest in those shares, to give additional information relating to that interest and any other interest in the shares of which that person is aware. A shareholder may lose the right to vote his shares or to exercise any other right in relation to shareholders' meetings if he or any other person appearing to be interested in those shares fails to comply within a prescribed period of time with such a request by National Grid under the Companies Act. In the case of holders of 0.25% or more in nominal amount of any class of the share capital of National Grid, in addition to disenfranchisement, the sanctions that may be applied by National Grid include withholding of the right to receive payment of dividends and other monies payable on shares, and restrictions on transfers of the shares.

Under the Companies Act, where a person fails to give the company any information required by such notice within the time specified in the notice, National Grid may also apply to an English court for an order directing that the shares in question be subject to restrictions prohibiting, among other things, any transfer of those shares, the taking up of rights in respect of those shares and, other than in a liquidation, payments in respect of those shares.

A person who fails to fulfill the obligations imposed by those provisions of the Companies Act described above is subject to criminal penalties.

For purposes of the notification obligation, the interest of a person in shares means any kind of interest in shares including interests in any shares (a) in which a spouse or civil partner, or child or stepchild under the age of 18 is interested, (b) in which a corporate body is interested and either (i) that corporate body or its directors generally act in accordance with that person's directions or instructions or (ii) that person is entitled to exercise or controls one-third or more of the voting power at a general meeting of that corporate body or (c) pursuant to an agreement between the person and one or more other party that includes provision for the acquisition by any one or more of them of interests in shares of a particular public company.

Under the Disclosure and Transparency Rules (the "DTRs"), a person acquiring or disposing of shares that are admitted to trading on a regulated market and carrying voting rights must provide written notification to the Company, including certain details as set out in DTR5, where the percentage of the person's voting rights which he holds as shareholder or through his direct or indirect holding of financial instruments reaches or exceeds 3% and reaches, exceeds or falls below each 1% threshold thereafter. DTR 3 deals with the disclosure by persons discharging managerial responsibility and their connected persons of the occurrence of all transactions conducted on their account in the shares of the Company.

Part 28 of the Companies Act sets out the statutory functions of the Panel on Takeovers & Mergers (the "Panel"). The Panel is responsible for issuing and administering the Code on Takeovers & Mergers which includes disclosure requirements on all parties to a takeover with regard to dealings in the securities of an offeror or offeree company and also on their respective associates during the course of an offer period.

**Material contracts**

As described in Item 6, each of our Executive Directors has a Service Agreement and each Non-executive Director has a Letter of Appointment.

In addition, the Company entered into the following contract in May 2010, which it considered to be material:

***Underwriting Agreement***

On 20 May 2010, in connection with our rights issue, we entered into an underwriting agreement with several underwriting banks, pursuant to which, the underwriting banks have severally agreed, subject to certain conditions, to use reasonable endeavours to procure acquirers for, or failing which, acquire any ordinary shares not taken up under our rights issue (in each case at the issue price of 335 pence per ordinary share). In the underwriting agreement, we have agreed to pay the underwriting banks a commission and have given certain customary representations and warranties to the underwriting banks and customary indemnities to them and certain indemnified persons connected with each of them. Our liabilities under the underwriting agreement are unlimited as to time and amount. If any of the conditions of the underwriting agreement are not satisfied (or waived) or shall have become incapable of being

satisfied by the required time and date therefore, the obligations of the underwriting banks under the underwriting agreement shall cease and determine. Additionally, certain of the underwriting banks (acting in good faith and following consultation with us) may cause the underwriting agreement to terminate in its entirety in certain circumstances, but only prior to admission of our securities for trading on the London Stock Exchange. The securities offered pursuant to the rights issue have not been and will not be registered

## **Table of Contents**

under the Securities Act of 1933 and may not be offered or sold in the United States unless in a transaction that is registered thereunder or exempt from the registration requirements thereof. No public offer has been or will be made in or into the United States.

Apart from these, no contract (other than contracts entered into in the ordinary course of business) has been entered into by us within the two years immediately preceding the date of this report which is, or may be, material; or which contains any provision under which any member of National Grid has any obligation or entitlement which is material to us at the date of this report.

### **Exchange controls**

There are currently no UK laws, decrees or regulations that restrict the export or import of capital, including, but not limited to, foreign exchange control restrictions, or that affect the remittance of dividends, interest or other payments to non-UK resident holders of ordinary shares except as otherwise set out in **Taxation** below and except in respect of the governments of and/or certain citizens, residents or bodies of certain countries (described in applicable Bank of England Notices or European Union Council Regulations in force as at the date of this document).

### **Taxation**

This section discusses certain US federal income tax and UK tax consequences of the ownership of ADSs and ordinary shares by certain beneficial holders thereof. This discussion applies to you only if you qualify for benefits under the income tax convention between the US and the UK (the **Tax Convention**) and are a resident of the US for the purposes of the Tax Convention and are not resident or ordinarily resident in the UK for UK tax purposes at any material time (a **US Holder**).

You generally will be entitled to benefits under the Tax Convention if you are:

the beneficial owner of the ADSs or ordinary shares, as applicable, and of any dividends that you receive;

an individual resident or citizen of the US, a US corporation, or a US partnership, estate, or trust (but only to the extent the income of the partnership, estate, or trust is subject to US taxation in the hands of a US resident person); and

not also a resident of the UK for UK tax purposes.

If a US Holder holds ADSs or ordinary shares in connection with the conduct of business or the performance of personal services in the UK or otherwise in connection with a branch, agency or permanent establishment in the UK, then you will not be entitled to benefits under the Treaty. Special rules, including a limitation of benefits provision, apply in limited circumstances to ADSs or ordinary shares owned by an investment or holding company. This section does not discuss the treatment of holders described in the preceding two sentences.

This section does not purport to be a comprehensive description of all of the tax considerations that may be relevant to any particular investor. National Grid has assumed that you are familiar with the tax rules applicable to investments in securities generally and with any special rules to which you may be subject. In particular, the discussion deals only with investors that will beneficially hold ADSs or ordinary shares as capital assets and does not address the tax treatment of investors that are subject to special rules, such as banks, insurance companies, dealers in securities or currencies, partnerships or other entities classified as partnerships for US federal income tax purposes, persons that control (directly or indirectly) 10 percent or more of our voting stock, persons that elect mark-to-market treatment, persons that hold ADSs or ordinary shares as a position in a straddle, conversion transaction, synthetic security, or other integrated financial transaction, persons who are liable for the alternative minimum tax, and persons whose functional currency is not the US dollar.

The statements regarding US and UK tax laws and administrative practices set forth below are based on laws, treaties, judicial decisions and regulatory interpretations in effect on the date of this prospectus. These laws and practices are subject to change without notice, possibly with retrospective effect. In addition, the US statements set forth below are based on the representations of The Bank of New York Mellon as depositary (the **Depositary**). These statements assume that each obligation provided for in or otherwise contemplated by the deposit agreement entered into by and among National Grid Transco plc (now National Grid plc), the Depositary and the registered holders of ADRs pursuant to which ADSs have been issued dated as of 21 November 1995 and amended and restated as of 1

August 2005 and any related agreement will be performed in accordance with its terms. Beneficial owners of ADSs who are residents or citizens of the US will be treated as the owners of the underlying ordinary shares for the purposes of the US Internal Revenue Code.

*A US Holder should consult its own adviser as to the tax consequences of the purchase, ownership and disposition of ADSs or ordinary shares in light of its particular circumstances, including the effect of any state, local or other national laws.*

**Table of Contents*****Taxation of Dividends***

Under the Tax Convention the UK is allowed to impose a 15% withholding tax on dividends paid to US shareholders controlling less than 10% of the voting capital of National Grid. The UK does not, however, currently impose a withholding tax on such dividends. If it were to impose such a tax, the treaty provides for an exemption from withholding taxes for dividends paid on shares held through a tax exempt pension fund, 401(k) plan or similar pension scheme as defined in the Tax Convention. The Tax Convention does not provide for refunds to be paid in respect of tax credits arising on dividends paid by UK resident companies. To obtain benefits under the Tax Convention, a US Holder must otherwise satisfy the requirements of the limitations on benefits article of the Tax Convention.

Cash distributions received by a US Holder with respect to its ADSs or ordinary shares generally will be treated as foreign source dividend income subject to US federal income taxation as ordinary income, to the extent paid out of National Grid's current or accumulated earnings and profits, as determined under US federal income tax principles. Subject to certain exceptions for short-term and hedged positions, the US dollar amount of dividends received by certain non-corporate US Holders with respect to ADSs or ordinary shares before January 1, 2013 will be subject to taxation at a maximum rate of 15% if the dividends are qualified dividends. Dividends received with respect to ADSs or ordinary shares will be qualified dividends if National Grid (i) is eligible for the benefits of a comprehensive income tax treaty with the US that the US Internal Revenue Service ( IRS ) has approved for purposes of the qualified dividend rules and (ii) was not, in the year prior to the year in which the dividend was paid, and is not, in the year in which the dividend is paid, a passive foreign investment company ( PFIC ). The Tax Convention has been approved for purposes of the qualified dividend rules. Based on National Grid's audited financial statements and relevant market and shareholder data, National Grid believes that it was not treated as a PFIC for US federal income tax purposes with respect to its taxable year ending March 31, 2010. In addition, based on its unaudited financial statements and its current expectations regarding the value and nature of its assets, the sources and nature of its income, and relevant market and shareholder data, National Grid does not anticipate becoming a PFIC for its taxable year ending March 31, 2011 or in the foreseeable future. Dividends paid by National Grid to corporate US Holders will not be eligible for the dividends received deduction generally allowed to corporations.

***Taxation of Capital Gains***

US Holders will not be liable for UK taxation on any capital gain realized on the disposal of ADSs or ordinary shares.

Sales or other taxable dispositions of ADSs or ordinary shares by a US Holder generally will give rise to US source capital gain or loss equal to the difference between the US dollar value of the amount realized on the disposition and the US Holder's US dollar basis in the shares or ADSs. Any such capital gain or loss generally will be long-term capital gain or loss, subject to taxation at reduced rates for non-corporate taxpayers, if the ordinary shares or ADSs were held for more than one year. The deductibility of capital losses is subject to limitations.

***UK Stamp Duty and Stamp Duty Reserve Tax ( SDRT )***

Transfers of ordinary shares SDRT at the rate of 0.5% of the amount of value of the consideration will generally be payable on any agreement to transfer ordinary shares that is not completed by the execution of a duly stamped instrument of transfer to the transferee. Where an instrument of transfer is executed and duly stamped before the expiry of the period of six years beginning with the date on which the agreement is made, the SDRT liability will be cancelled, and, if a claim is made within the specified period, any SDRT which has been paid will be refunded. SDRT is due whether or not the agreement or transfer of such chargeable securities is made or carried out in the UK and whether or not any party to that agreement or transfer is a UK resident. Purchases of ordinary shares completed by execution of a stock transfer form will generally give rise to a liability to UK stamp duty at the rate of 0.5% (rounded up to the nearest £5) of the amount or value of the consideration. Paperless transfers under the CREST paperless settlement system will generally be liable to SDRT at the rate of 0.5%, and not stamp duty. SDRT is generally the liability of the purchaser and UK stamp duty is usually paid by the purchaser or transferee.

**Table of Contents**

Transfers of ADSs No UK stamp duty will be payable on the acquisition or transfer of existing ADSs or beneficial ownership of ADSs, provided that any instrument of transfer or written agreement to transfer is executed outside the UK and remains at all times outside the UK. An agreement for the transfer of ADSs in the form of ADRs will not give rise to a liability for SDRT. A charge to stamp duty or SDRT may arise on the issue or transfer of ordinary shares to the Depository or The Bank of New York as agent of the Depository (the Custodian). The rate of stamp duty or SDRT will generally be 1.5% of either (i) in the case of an issue of ordinary shares, the issue price of the ordinary shares concerned, or (ii) in the case of a transfer of ordinary shares, the value of the consideration or, in some circumstances, the value of the ordinary shares concerned. The Depository will generally be liable for the stamp duty or SDRT. In accordance with the terms of the Depository Agreement, the Depository will charge any tax payable by the Depository or the Custodian (or their nominees) on the deposit of ordinary shares to the party to whom the ADSs are delivered against such deposits. If the stamp duty is not a multiple of £5, the duty will be rounded up to the nearest multiple of £5.

***US Information Reporting and Backup Withholding***

Dividend payments made to holders and proceeds paid from the sale, exchange, redemption or disposal of ADSs or ordinary shares may be subject to information reporting to the IRS. Such payments may be subject to backup withholding taxes unless the holder (i) is a corporation or other exempt recipient or (ii) provides a taxpayer identification number on a properly completed IRS Form W-9 and certifies that no loss of exemption from backup withholding has occurred. Holders that are not US persons generally are not subject to information reporting or backup withholding. However, such a holder may be required to provide a certification of its non-US status in connection with payments received within the US or through a US-related financial intermediary.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a holder's US federal income tax liability. A holder may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with the IRS and furnishing any required information.

***UK Inheritance Tax***

An individual who is domiciled in the US for the purposes of the convention between the US and the UK for the avoidance of double taxation with respect to estate and gift taxes (the Estate Tax Convention) and who is not a national of the UK for the purposes of the Estate Tax Convention will generally not be subject to UK inheritance tax in respect of the ADSs or ordinary shares on the individual's death or on a gift of the ADSs or ordinary shares during the individual's lifetime, unless the ADSs or ordinary shares are part of the business property of a permanent establishment of the individual in the UK or pertain to a fixed base in the UK of an individual who performs independent personal services. Special rules apply to ADSs or ordinary shares held in trust. In the exceptional case where the ADSs or shares are subject both to UK inheritance tax and to US federal gift or estate tax, the Estate Tax Convention generally provides for the tax paid in the UK to be credited against tax paid in the US.

***Documents on display***

National Grid is subject to the filing requirements of the Exchange Act, as amended. In accordance with these requirements, we file reports and other information with the U.S. Securities and Exchange Commission (SEC). These materials, including this document, may be inspected during normal business hours at our registered office 1-3 Strand, London WC2N 5EH or at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. ***Item 12. Description of Securities Other than Equity Securities Depository Fees and Charges***

The Depositary collects its fees for delivery and surrender of ADSs directly from investors depositing shares or surrendering ADSs for the purpose of withdrawal or from intermediaries acting for them. The Depositary collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of distributable property to pay the fees. The Depositary may generally refuse to provide fee-attracting services until its fees for those services are paid.

As necessary.

***Depositary Payments to the Company***

The Bank of New York Mellon, as Depositary, has agreed to reimburse the Company for expenses it incurs that are related maintenance expenses of the American Depositary Receipt program. The Depositary has also agreed to pay the standard out-of-pocket maintenance costs for the ADRs, which consist of the expenses of postage and envelopes for mailing annual and interim financial reports, printing and distributing dividend checks, electronic filing of U.S. Federal tax information, mailing required tax forms, stationery, postage, facsimile and telephone calls. It has also agreed to reimburse the Company annually for certain investor relationship programs or special investor relations promotional activities. There are limits on the amount of expenses for which the Depositary will reimburse the Company, but the amount of reimbursement available to the Company is not necessarily tied to the amount of fees the Depositary collects from investors. From 1 April 2010 through 9 June 2011, the Company received \$848,038.77 in reimbursements from the Depositary.

**PART II**

**Item 13. *Defaults, Dividend Arrearages and Delinquencies***

There has been no material default in the payment of principal, interest, a sinking or purchase fund instalment or any other material default with respect to the indebtedness for or in respect of monies borrowed or raised by whatever means of the Company or any of its significant subsidiaries. There have been no arrears in the payment of dividends on, and no material delinquency with respect to, any class of preferred stock of any significant subsidiary of the Company required to be reported under this Item 13.

**Item 14. *Material Modifications to the Rights of Security Holders and Use of Proceeds***

None.

**Item 15. *Controls and Procedures***

**A. *Disclosure controls and procedures***

We have carried out an evaluation under the supervision and with the participation of our management, including the Chief Executive and Finance Director, of the effectiveness of the design and operation of our disclosure controls and procedures as of 31 March 2011. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures provide only reasonable assurance of achieving their control objectives. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives. Based on that evaluation, the Chief Executive and Finance Director concluded that the disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed in the reports that we file and submit under the Exchange Act is recorded, processed, summarised and reported as and when required and that such information is accumulated and communicated to our management, including the Chief Executive and Finance Director, as appropriate, to allow timely decisions regarding disclosure.

**B. *Managements evaluation of the effectiveness of internal control over financial reporting***

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements.

Our management, with the participation of the Chief Executive and Finance Director, conducted an evaluation of the effectiveness of the Company's internal control over financial reporting based on the framework in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this evaluation, management concluded that our internal control over financial reporting was effective as of 31 March 2011.

**C. *Independent auditor attestation***

PricewaterhouseCoopers LLP, which has audited our consolidated financial statements for the fiscal year ended 31 March 2011, has also audited the effectiveness of our internal control over financial reporting. The attestation report of PricewaterhouseCoopers LLP is included under Item 18 of this Form 20-F.

**D. *Change in internal control over financial reporting***

During the period covered by this report, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****Item 16. [Reserved]****Item 16A. Audit Committee Financial Expert**

The Board of Directors has determined that George Rose, chairman of the Company's Audit Committee, is an audit committee financial expert within the meaning of this Item 16A. A brief listing of Mr. Rose's relevant experience is included on page 9 of the Company's Annual Report and Accounts 2010/11 (in extracted form) contained in Exhibit 15.1. Mr. Rose is also independent within the meaning of the New York Stock Exchange listing rules.

**Item 16B. Code of Ethics**

We have adopted a code of ethics that applies to our principal executive officer, principal financial officer and principal accounting officer or controller, and any person performing similar functions. This code is available on our website at [www.nationalgrid.com](http://www.nationalgrid.com), where any amendments or waivers will also be posted. There were no amendments to, or waivers under, our code of ethics in the fiscal year ended 31 March 2011.

PricewaterhouseCoopers LLP, independent registered public accounting firm, served as auditors of the Company for the fiscal year ended 31 March 2011.

	<b>Year Ended March 31, 2011</b>	<b>Year Ended March 31, 2010</b>
	<b>£m</b>	
Audit fees	7.9	8.4
Audit related fees	0.0	0.2
Tax fees	0.9	1.4
All other fees	1.8	1.0
Total	£10.6	£11.0

Subject to the Company's Articles and the Companies Act, the Audit Committee is solely and directly responsible for the approval of the appointment, re-appointment, compensation and oversight of the Company's independent auditors. It is our policy that the Audit Committee must approve in advance all non-audit work to be performed by the independent auditors.

During fiscal 2010/11, all of the above services were pre-approved by the Audit Committee.

- (1) The aggregate fees billed by PricewaterhouseCoopers LLP for the audit of the Company's financial statements and regulatory reporting for the fiscal year ended 31 March 2011 and the review of interim financial statements for the six months ended 30 September 2010 were £7.9million. Fees billed by PricewaterhouseCoopers LLP for the audit of the Company's financial statements and regulatory reporting for the fiscal year ended 31 March 2010 and the review of interim financial statements for the six months ended 30 September 2009, were £8.4million.
- (2) The aggregate fees billed by PricewaterhouseCoopers LLP for assurance and related services that were reasonably related to the performance of the audit or review of the Company's financial statements and are not disclosed under "Audit Fees" above were £0.0 million in fiscal 2010/11 and £0.2million in fiscal 2009/10.
- (3) Aggregate fees billed by PricewaterhouseCoopers LLP for tax compliance, tax advice and tax planning were £0.9 million in fiscal 2010/11 and £1.4million in fiscal 2009/10.
- (4) Aggregate fees billed by PricewaterhouseCoopers LLP for all other services in fiscal 2010/11 were £1.7million. Other services include fees relating to the rights issue, assurance on various systems projects and sundry services, all of which have been subject to Audit Committee approval. Aggregate fees billed by PricewaterhouseCoopers LLP for all other services in fiscal 2009/10 were £1.0million.

Not applicable.

**Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers**

The following table provides information on Ordinary Shares purchased by the Company during fiscal 2010/11:

Periods	(a). Total Number of Shares Purchased	(b). Average Price Paid per Share	(c). Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d). Maximum Number of Shares (Rounded) that May Yet Be Purchased Under the Plans or Programs
---------	------------------------------------------	-----------------------------------------	---------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------

No securities were purchased by the Company during fiscal year 2010/11.

Note: At the Company's 2006 Annual General Meeting (AGM), held in July 2006, shareholder approval was given to purchase up to 10% of the ordinary shares in issue (up to 272 million shares), which approval was repeated at the Company's 2007 AGM, held in July 2007, to purchase 10% of the then issued share capital (up to 270 million shares), and again at the Company's 2008 AGM, held in July 2008, to purchase 10% of the then issued capital shares (up to 250 million shares), and again at the Company's 2009 AGM, held in July 2009, to purchase 10% of the then issued capital shares (up to 243 million shares) and again at the Company's 2010 AGM held in July 2010 to purchase 10% of the then issued capital shares per annum. The Board will seek shareholder approval to renew this authority at the next AGM in July 2011. As part of the interim results for the six months to 30 September 2006, a share buy-back programme was announced to return around \$1.9 billion (£1 billion) (based on cash flows from stranded assets under our US rate plans). The ordinary share buyback commenced on 20 November 2006 and continued pursuant to the Board's general authority as approved by the shareholders. In 2009, the Company announced its intention to suspend the share buy-back programme and as such is not currently returning stranded asset cash flows via share repurchases. On 3 April 2007 the Company announced the sale of its UK Wireless business and the return of £1.8 billion to shareholders via an extension of the existing share buy-back programme, which was completed in September 2008.

The report of PricewaterhouseCoopers LLP, Independent Registered Public Accounting Firm is presented below.

**Report of Independent Registered Public Accounting Firm**

To the Board of Directors and Shareholders of National Grid plc

In our opinion, the accompanying consolidated balance sheets and the related consolidated income statements, consolidated statements of cash flow, consolidated statements of comprehensive income and, consolidated statements of changes in equity, present fairly, in all material respects, the financial position of National Grid plc and its subsidiaries at 31 March 2011 and 2010 and the results of their operations and their cash flows for each of the three years in the period ended 31 March 2011, in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board and in conformity with International Financial Reporting Standards as adopted by the European Union. Also, in our opinion the Company maintained, in all material respects, effective internal control over financial reporting as of 31 March 2011, based on criteria established in Internal Control Integrated Framework issued by the COSO. The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's evaluation of the effectiveness of internal control over financial reporting under Item 15 in this Form 20-F. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States) and International Standards on Auditing. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
