(the Company or Glacier) to be held on Wednesday, April 28, 2004. In this Proxy Statement, the term we and us refers to Glacier Bancorp, Inc.

Solicitation of Proxies. The Board of Directors is soliciting shareholder proxies, and we will pay the associated costs. Solicitation may be made by our directors and officers and by our banking subsidiaries:

Glacier Bank

Glacier Bank of Whitefish

First Security Bank of Missoula

Valley Bank of Helena

Big Sky Western Bank

Mountain West Bank

Western Security Bank

In addition, we may engage an outside proxy solicitation firm to render proxy solicitation services. If we do, we will pay a fee for such services. Solicitation may be made through the mail, or by telephone, facsimile, or personal interview.

Record Date. If you were a shareholder on March 2, 2004, you are entitled to vote at the Annual Meeting. There were approximately _____ shares of common stock outstanding on the Record Date.

Quorum. At least a majority of the shares entitled to vote at the Annual Meeting constitutes a quorum. Abstentions will be counted as shares present and entitled to vote for purposes of determining the presence of a quorum. Broker non-votes will not be considered shares present and will not be included in determining whether a quorum is present.

Voting on Matters Presented. The three nominees for election as directors at the Annual Meeting with three-year terms to expire in 2007 who receive the highest number of affirmative votes will be elected. Shareholders are not permitted to cumulate their votes for the election of directors. Votes may be *cast for* or *withheld from* each nominee. Votes that are withheld and broker non-votes will have no effect on the outcome of the election. The proposal for the Company to reincorporate from Delaware to Montana (the Reincorporation) requires the affirmative FOR vote of a majority of the outstanding shares of the Company's common stock. You may vote *for*, *against* or *abstain* from approving the Reincorporation. If you *abstain*, it has the same effect as a vote *against*. Shareholders of record will be entitled to one vote per share on this proposal.

Voting of Proxies. Shares represented by properly executed proxies that are received in time and not revoked will be voted in accordance with the instructions indicated on the proxies. If no instructions are indicated, the persons named in the proxy will vote the shares represented by the proxy FOR the three nominees listed in this Proxy Statement and FOR the Reincorporation. Any proxy given by a shareholder

Table of Contents

may be revoked before its exercise by (1) giving notice to us in writing, (2) delivering to us of a subsequently dated proxy, or (3) notifying us at the Annual Meeting before the shareholder vote is taken.

Voting of Proxies by Beneficial Holder. If your shares are held by a bank, broker or other holder of record you will receive instructions from the holder of record that you must follow in order for your shares to be voted. If you want to attend the shareholder meeting and vote in person, you will need to bring an account statement or letter from the nominee indicating that you were the beneficial owner of the shares on March 2, 2004, the record date.

BUSINESS OF THE MEETING

The two matters that are being presented for consideration by our shareholders at the Annual Meeting are (i) the election of directors; and (ii) the Reincorporation of the Company from Delaware to Montana.

Proposal No. 1 Election of Directors

General

Our Certificate of Incorporation and Bylaws allow the Board to set the number of directors on the Board within a range of seven to 12. The Articles also authorize the Board to fill vacancies that occur on the Board. The Board has been advised that Ralph Holliday and Charles Mercord, each of whose term expires in 2004, will retire effective at the upcoming Annual Meeting. In anticipation of the pending retirements of Messrs. Holliday and Mercord, James M. English was appointed to the Board effective as of its February 2004 meeting. Mr. English is a current director of our subsidiary, Mountain West Bank, and was recommended by director Jon Hippler, the President of Mountain West Bank. Information regarding Mr. English's background and qualifications is set forth below under his biographical summary. Following the anticipated retirements of Messrs. Holliday and Mercord, the Board has set the number of directors at nine.

Directors are elected for terms of three years or until their successors are elected and qualified. Our Certificate of Incorporation provides for staggered terms, with approximately one-third of the directors elected each year. Delaware law and our Certificate of Incorporation require that our classes of directors be of as near-equal size as possible.

Accordingly, our Nominating/Corporate Governance Committee has recommended, and the Board has nominated, James M. English, Jon W. Hippler and John S. MacMillan for election as directors for three-year terms to expire in the year 2007. If any of the nominees should refuse or become unable to serve, your proxy will be voted for the person the Board designates to replace that nominee.

**INFORMATION WITH RESPECT TO NOMINEES
AND OTHER DIRECTORS**

The following tables set forth certain information with respect to the director nominees and the other continuing directors, including the number of shares beneficially held by each. Beneficial ownership is a technical term broadly defined by the SEC to mean more than ownership in the usual sense. In general, beneficial ownership includes any shares a director or executive officer can vote or transfer and stock options that are exercisable currently or become exercisable within 60 days. Except as noted below, each holder has sole voting and investment power for all shares shown as beneficially owned. All share amounts have been adjusted for applicable stock splits and stock dividends.

Table of Contents

the directors to attend annual shareholder meetings. Last year, all of our directors attended the annual shareholder meeting. The Board has determined that each member of the Board, except for Michael J. Blodnick, William L. Bouchee, and Jon W. Hippler, each of whom serve as an executive officer of the Company or one of its bank subsidiaries, and Ralph K. Holliday, who served as an executive officer of one of the Company's bank subsidiaries within the past three years, meets the applicable laws and listing standards regarding independence required by Nasdaq and that each such director is free of relationships that would interfere with the individual exercise of independent judgment.

The Board of Directors has established, among others, an Audit Committee and a Compensation Committee. In September 2003, the Board established a Nominating/Corporate Governance Committee. Prior to that time, the whole Board acted as the Nominating Committee.

The following table shows the membership of the various committees during the fiscal year 2003.

Audit Committee. During 2003, the Audit Committee was comprised of five directors (following Mr. MacMillan's withdrawal from the Committee in April), each of whom were considered independent as defined by the Nasdaq listing standards, with the exception of Mr. Fetscher. Due to the legal services that his wife's firm provided the Company, Mr. Fetscher was deemed not to meet the independence standards of Nasdaq, and he withdrew from the Committee at the Company's February 2004 Board meeting. The Board has determined that Mr. Sliter meets the definition of audit committee financial expert as defined by rules adopted by the Securities and Exchange Commission (SEC) under the Sarbanes-Oxley Act of 2002 (Sarbanes Act).

The Company operates under a formal written charter originally adopted by the Board of Directors in 2000 and amended in 2003. As part of its periodic review of audit committee-related matters, the Audit Committee has received updates on the relevant requirements of the Sarbanes Act, the revised rules of the SEC and the new corporate governance listing standards of Nasdaq that were adopted in 2003. The Board amended the Committee charter on February 25, 2004 to implement these new rules and standards. A copy of the revised charter is attached to this Proxy Statement as *Appendix A*.

The Audit Committee is responsible for the oversight of the quality and integrity of Glacier's financial statements, its compliance with legal and regulatory requirements, the qualifications and independence of its independent auditors, the performance of its internal audit function and independent auditors and other significant financial matters. In discharging its duties, the Audit Committee is expected to, among other things:

Table of Contents

have the sole authority to appoint, retain, compensate, oversee, evaluate and replace the independent auditors;
review and approve the engagement of Glacier's independent auditors to perform audit and non-audit services and related fees;
meet independently with Glacier's internal auditing department, independent auditors and senior management;
review the integrity of Glacier's financial reporting process;
review Glacier's financial reports and disclosures submitted to Bank regulatory authorities; and
maintain procedures for the receipt, retention and treatment of complaints regarding financial matters.

The Audit Committee held nine meetings during the year.

Compensation Committee. During 2003, the Compensation Committee was comprised of six directors, each of whom are considered independent as defined by the Nasdaq listing standards. The Compensation Committee reviews the performance of the Company's Chief Executive Officer and other key employees and determines, approves and reports to the Board on the elements of their compensation and long-term equity based incentives. In addition, the Compensation Committee:

recommends, if appropriate, new employee benefit plans to the Board of Directors;
administers all employee benefit plans;
make determinations in connection with compensation matters as may be necessary or advisable; and
recommends, if appropriate, revisions to the compensation and benefit arrangements for directors.

The Compensation Committee operates under a formal written charter approved by the Board of Directors on February 25, 2004. The Compensation Committee met three times during the year for the purposes of reviewing salary and incentive compensation for the Chief Executive Officer and certain other executive officers, and reviewing and recommending to the full Board stock option grants for executive officers.

Nominating/Corporate Governance Committee. The Nominating/Corporate Governance Committee (Nominating Committee) was formed in September 2003, and during the remainder of the year was comprised of six directors, each of whom are considered independent as defined by the Nasdaq listing standards. The Committee is responsible for nominating a slate of directors for election at Glacier's annual meeting and appointing directors to fill vacancies as they occur. It is also responsible for (i) considering management succession plans, the appropriate Board size and committee structure and appointments; and (ii) developing and reviewing corporate governance principles applicable to Glacier and its subsidiaries. The Committee operates under a formal written charter approved by the Board of directors in September 2003, and amended February 25, 2004.

Table of Contents

The Nominating Committee will consider nominees recommended by shareholders, provided that the recommendations are made in accordance with the procedures described in this Proxy Statement under Shareholder Proposals and Director Nominations. The Committee evaluates all candidates, including shareholder-proposed candidates, using generally the same methods and criteria, although those methods and criteria are not standardized and may vary from time to time. The Nominating Committee is authorized to establish guidelines for the qualification, evaluation and selection of new directors to serve on the Board. We do not anticipate that the Committee will adopt specific minimum qualifications for Committee-recommended nominees, but that the Committee will instead evaluate each nominee on a case-by-case basis, including assessment of each nominee's business experience, involvement in the communities served by the Company, and special skills. The Nominating Committee will also evaluate whether the nominee's skills are complimentary to existing Board members' skills, and the Board's need for operational, management, financial, technological or other expertise, as well as geographical representation of the Company's market areas.

The Board of Directors has approved stock ownership guidelines for its members, which are intended to help closely align the financial interests of the directors with those of Glacier's shareholders. Within two years from when they are first appointed or elected to the Board, directors are required to own shares of Glacier common stock with a market value of at least \$100,000. All of the current Glacier directors have exceeded this ownership requirement.

Corporate Governance

The Board of Directors is committed to good business practices, transparency in financial reporting and the highest level of corporate governance. Glacier operates within a comprehensive plan of corporate governance for the purpose of defining responsibilities, setting high standards of professional and personal conduct and assuring compliance with such responsibilities and standards. We regularly monitor developments in the area of corporate governance. The Sarbanes Act was signed into law in 2002 and, among other things, establishes or provides the basis for a number of new corporate governance standards and disclosure requirements. The SEC has issued additional rules to implement the Sarbanes Act. In addition, Nasdaq recently adopted changes to its corporate governance and listing standards. To that end, over the course of several months, the Board has reviewed Glacier's governance policies and practices against those suggested by various groups or authorities active in corporate governance and practices of other companies, as well as the requirements of the Sarbanes Act, related SEC rules and the new listing standards of Nasdaq. As a result, we have taken steps to implement these rules and listing standards. In particular, we have:

- established a Nominating/Corporate Governance committee;

- adopted a Corporate Governance Policy;

- adopted a Code of Ethics for our senior financial officers (including our Chief Executive Officer);

- adopted a Compensation Committee Charter; and

- commenced holding regularly scheduled meetings of the Company's non-management directors, separate from management.

You can access our current Audit, Compensation and Nominating/Corporate Governance Committee charters, Corporate Governance Policy and Code of Conduct for Senior Financial Officers by visiting the Company's Website and clicking on the *Corporate Governance* link on the Company's home

Communications may be made by writing to the Chairman of the Board, c/o the Corporate Secretary, Glacier Bancorp, Inc., 49 Commons Loop, Kalispell, Montana 59901. Compensation of Directors

Directors who are Company employees receive no fees for their services as directors. Non-employee outside directors receives annual retainers as members of the Board. Each non-employee director receives \$1,350 per month as a director of the Company. Messrs. Fetscher, Flanders, Larson and Sliter were also paid \$11,175, \$6,950, \$2,609 and \$17,258, respectively, for additional services performed as directors and committee members. Mr. MacMillan, as Chairman of the Board, earned \$2,800 per month.

A similar program for directors of the Company's subsidiary banks has been established which is commensurate with the size of the institution and the responsibilities of its peer and affiliate banks.

Directors' Stock Option Plan. In 1994, the Board of Directors and shareholders of the Company adopted the 1994 Directors' Stock Option Plan (DSOP) for outside directors. Under the DSOP, 50,000 shares of common stock were reserved for issuance upon the exercise of nonqualified stock options granted to non-employee directors of the Company and each of the Company's subsidiary banks, subject to adjustment for any future stock split, stock dividend or other change in the capitalization of the Company. At the 1999 Annual Meeting, the shareholders approved amendments to the DSOP, increasing the number of shares available under the DSOP by 100,000, to a total of 277,516 (as adjusted for subsequent stock splits and stock dividends), and extending the term of the DSOP to 15 years. At the 2002 Annual Meeting, Shareholders approved amending the DSOP to increase the number of shares available under the DSOP by 500,000. As of December 31, 2003, an aggregate of 539,798 shares remain available for further grant.

From time to time, Glacier authorizes the grant of nonqualified options to its directors of the Company and its subsidiary banks. These options allow the director to purchase shares of common stock at a price equal to the fair market value of the common stock on the date of grant. Each option granted under the DSOP vests six months following the date of grant and expires upon the earlier of five years following the date of grant or three years following the date the optionee ceases to be a director, except in the event of death, in which case the period is one year from the date of death. In January 2003, each non-management director received an option to acquire 1,650 shares (as adjusted for a May 2003 stock dividend) of Glacier common stock.

These numbers are calculated based on the requirements of the Securities and Exchange Commission (SEC) and do not reflect the Company's estimate of future stock price performance.

Deferred Compensation Plan

In December 1995, the Board of Directors adopted a Deferred Compensation Plan (DCP) for directors and certain officers and key employees, as designated by resolution of the Board of Directors. The DCP generally provides for the deferral of certain taxable income earned by participants in the DCP. Non-employee directors may elect to have any portion of his or her director s fees deferred. Designated officers or key employees may elect to defer annually under the DCP up to 25% of his or her salary to be earned in the calendar year, and up to 100% of any cash bonuses.

Supplemental Executive Retirement Plan

In December 1995, the Board of Directors adopted a nonqualified and nonfunded Supplemental Executive Retirement Plan (SERP) for senior executive officers. The SERP is intended to supplement payments due to participants upon retirement under the Company s other qualified plans. The SERP generally provides that the Company will credit a qualified participant s account on an annual basis, an amount equal to employer contributions that would have otherwise been allocated to the executive s accounts under the tax-qualified plans were it not for limitations imposed by the Internal Revenue Service, or participation in the deferred compensation plan. Messrs. Blodnick, Bouchee, Hippler and Strosahl are all participants in the SERP and received an allocation under the plan in the amounts of \$25,276, \$127, \$2,603 and \$9,411, respectively, for the fiscal year 2003.

1995 Employee Stock Option Plan

At the 1995 Annual Meeting, the shareholders adopted the 1995 Employee Stock Option Plan, which supplemented the plan previously adopted in 1989. The Board of Directors (or a Committee appointed by the Board) administers the 1995 Plan. It allows stock options to be granted to key employees of the Company in any combination up to an aggregate of [507,779] shares of Company Common Stock, as adjusted for stock splits, stock dividends, or other changes in the capitalization of the Company. The 1995 Plan, which has a term of ten years, provides for the issuance of options that qualify as incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, and nonqualified stock options.

At the 1999 Annual Meeting, the shareholders approved amendments to the 1995 Plan, increasing the number of shares available under the 1995 Plan by 600,000, to an aggregate of [1,340,413] shares (as adjusted for stock splits and stock dividends) and allowing for the cashless exercise of stock options, subject to the Company s approval. At the 2002 Annual Meeting, the shareholders approved an amendment to the 1995 Plan to increase the number of shares available under the 1995 Plan by 1,000,000 (as adjusted for stock splits and stock dividends). As of December 31, 2003, options to purchase an aggregate of 1,500,421 shares have been granted and 1,205,640 remain available for further grant.

These consist of the 1994 Director Stock Option Plan, amended, and the 1995 Employee Stock Option Plan, as amended, each of which have been approved by shareholders. The following table sets forth information regarding

Report of Audit Committee

[DRAFT]

The Audit Committee of the Board of Directors makes the following report, which notwithstanding anything to the contrary set forth in any of the Company's filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, will not be incorporated by reference into any such filings and will not otherwise be deemed to be proxy soliciting materials or to be filed under such Acts.

The Audit Committee consists of the directors listed below. The Board of Directors has determined that (i) the current membership of the Audit Committee (following Allen Fetscher's departure from the Committee) meets the independence requirements as defined under the Nasdaq listing standards; and (ii) Everit Sliter meets the audit committee financial expert qualifications. During 2002 and early 2003, the SEC issued rules under the Sarbanes Act governing the role and membership standards of Audit Committees. A copy of the revised Audit committee charter as adopted by the Board of Directors is attached as *Appendix A*.

Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. The Audit Committee is responsible for overseeing Glacier's financial reporting processes on behalf of the Board of Directors.

The Audit Committee has met and held discussions with management and the Company's independent auditors. Management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, and the Committee has reviewed and discussed the audited consolidated financial statements with management and the independent auditors. The Committee discussed with the independent auditors matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

Our independent auditors also provided to the Committee the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Committee discussed with the independent auditors that firm's independence.

Based on the Committee's review of the audited consolidated financial statements and the various discussions with management and the independent auditors noted above, the Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2003 filed with the SEC.

Report of Compensation Committee

Below is our report of the Compensation Committee of the Board. The Board has determined that each member of the Committee is independent as defined by applicable Nasdaq listing standards. The Compensation Committee is responsible for establishing and administering the Company's executive compensation program and general compensation policies and incentive plans. This report is specific to compensation during the fiscal year 2003; however, the Compensation Committee does not intend to dramatically alter its basic philosophies and objectives in the near future.

The Company, acting through the Compensation Committee, believes compensation of its executives and other key personnel should reflect and support the goals and strategies of the Company.

Compensation Philosophy, Objectives and Structure.

The Compensation Committee's principal objectives in determining compensation are to attract, reward and retain key executive officers, to motivate executive officers to perform to the best of their abilities, and to achieve short-term and long-term corporate objectives that will contribute to the overall goal of enhancing shareholder value. To further these objectives, the Compensation Committee has adopted the following policies:

We will compensate competitively with our peer groups and similarly performing financial companies.

Our performance at the corporate, subsidiary and individual executive officer level will determine a significant portion of compensation, with due regard to financial performance relative to peer groups.

Attaining realizable but challenging objectives will determine performance-based compensation.

We will encourage executive officers to hold substantial long-term equity stakes in the Company, so that their interests will coincide with the interest of our shareholders; accordingly, stock options will constitute a portion of compensation.

Elements of our compensation of executive officers are:

Base salary and bonuses;

Incentive compensation in the form of stock options;

Our Deferred Compensation Plan; and

Other compensation and benefits generally available to all employees, such as health, life and disability insurance and Company contributions under our 401(k) and pension plans.

The Compensation Committee believes that our goals are best supported by attracting and retaining well-qualified executive officers and other employees through competitive compensation arrangements, with emphasis on rewards for outstanding contributions to our success, and with a special emphasis on aligning the interests of our executive officers and other employees with those of our shareholders.

Table of Contents

Compensation of Chief Executive Officer

The Chief Executive Officer’s compensation is based on an evaluation of several performance factors. Where possible, objective measurements are used with heavy emphasis on the Company’s financial results. In addition, a number of subjective evaluations of performance are used. The Committee does not base its decisions on any set profitability table or formulas. We review the levels of compensation for Chief Executive Officers of companies we feel are comparable in size (assets). We primarily use data from publicly traded companies. Our universe of comparable companies includes publicly traded financial institutions located throughout the United States. We contracted with SNL Financial L.C. to provide us with a list of companies \$2 billion to \$3 billion in size.

This study produced a total of 38 holding companies located throughout the country. We purposely expanded this list from last year’s number. A review of all 38 companies indicates the following:

		<u>Rank</u>
GBCI	Total Assets	23 of 38
GBCI	Return on Assets	10 of 38
GBCI	Return on Equity	13 of 38
GBCI	CEO Salary	33 of 38

Our CEO compensation is in the bottom quartile, our performance is at the high end of the second quartile, and our asset size is in the third quartile. The above indicates that we are below our peer group on all measures of CEO pay. To bring our CEO pay to the mid-point of our peer group would require an increase of \$211,623. This increase would put our CEO compensation more in line with our performance figures, which are above the mid-point, and our asset size, which is below the mid-point.

The Compensation Committee also takes into consideration the structure of our Company. Because we have stand-alone banks under a holding company and not branch banks, our structure is substantially different than most of our peers.

In addition to financial performance, company size and geographical location, the Committee has developed additional standards for performance review. The Committee considers the following criteria:

Credit Quality. Although financial performance is very important in determining a company’s results for the year, it is also important that short-term performance does not come with a sacrifice of credit quality. Credit quality is important to the long-term performance of the company. The quality of the loan portfolios maintained by the Company’s subsidiary banks remains high in comparison to other institutions in our peer group.

Management. Effective communication of our overall corporate and subsidiary banks’ goals and objectives to the Company’s employees was considered. The CEO’s communication of these goals was considered excellent.

Merger and Acquisition. The integrations of previously acquired banks and the anticipation of future acquisitions and the effective integration of banks into our Company while retaining all customers of the acquired bank is a primary goal of the Company. Additional acquisitions that fit into our strategic plan are an important element of growth along with increasing the market share of our existing banks. Although

Table of Contents

our growth through acquisition has slowed from prior years, the Committee felt that our CEO's performance was in line with our corporate goals for the year.

Shareholder Relations. Effective communication with our shareholders, brokers and analysts is important. We considered whether the Chief Executive Officer is effectively communicating our Company's goals, allowing our shareholders, brokers and analysts to effectively judge our performance. We felt all of these goals were met or exceeded during 2003.

After consideration all the above factors, the Compensation Committee recommended an increase in compensation for our CEO. In keeping with our practice of paying for performance, the majority was proposed as additional bonus.

The Compensation Committee approved the increase of the CEO's base salary of \$10,000 for 2004 and an increase in bonus of \$50,000 for 2003. These were the maximum levels of increase that were acceptable to our CEO.

STOCK PERFORMANCE GRAPH

The following graphs compare the yearly cumulative total return of the common stock over both a five-year and ten-year measurement period with the yearly cumulative total return on the stocks included in the (i) Standard & Poor's (S&P) 500 Composite Index, (ii) the Russell 2000 Index, and (iii) the SNL Bank Index comprised of banks or bank holding companies with total assets between \$1 billion and \$5 billion. All of these cumulative returns are computed assuming the reinvestment of dividends at the frequency with which dividends were paid during the applicable years.

The Company believes that the issuers who comprise the Russell 2000 Index have asset sizes, market capitalizations and industry focuses that are more comparable to the Company's than those issuers in the S&P 500 Composite Index. Accordingly, the Company has determined to use the Russell 2000 Index, rather than the S&P Composite Index, as its broad equity market index for fiscal year 2003 and future years.

TRANSACTIONS WITH MANAGEMENT

Certain Transactions

During 2003 certain directors and executive officers of Glacier and its subsidiaries, and their associates, were customers of one or more of Glacier's subsidiary banks, and it is anticipated that such individuals will continue to be customers in the future. Except as disclosed in the following section, all transactions between Glacier's subsidiary banks and Glacier's executive officers and directors, and their associates, were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons, and, in the opinion of management, did not involve more than the normal risk of collectability or present other unfavorable features.

Employee Loan Program

Federal regulations require that all loans or extensions of credit to executive officers and directors of the Company and the Subsidiaries must be made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other nonaffiliated persons and must not involve more than the normal risk of repayment or present other unfavorable features. The regulations authorize that a bank may make extensions of credit pursuant to a benefit or compensation program that (i) is available to all employees of the bank or its affiliates; and (ii) does not give preference to any insider over other employees of the bank or its affiliates. The regulations govern the amount of credit that a bank may extend to an insider, and, in those instances where the loan exceeds the allowed limit, requires that (i) the loan be approved by a majority of the board of directors; and (ii) the insider abstain from participating directly or indirectly in the voting.

The Company has adopted an Employee Loan Program, providing that loans be made to executive officers and directors and all other employees of the Company and its subsidiaries on equal terms. Set forth below is certain information as of December 31, 2003 relating to loans that, in the aggregate, exceed \$60,000 and which were made on preferential terms, as explained above, to executive officers and directors of the Company. All loans are secured by real estate, except as noted. The table does not include loans which have been made on the same terms, including interest rates and collateral, as those made to non-affiliated parties and which in the opinion of management do not involve more than the normal risk of repayment or present other unfavorable features.

Proposal No. 2 Reincorporation from Delaware to Montana**General**

The Board of Directors believes that the best interests of the Company and its shareholders will be served by changing the Company's state of incorporation from Delaware to Montana (the "Reincorporation"). The Board of Directors has authorized the Reincorporation and unanimously recommends that an Agreement and Plan of Merger (the "Merger Agreement") be approved, whereby the Company will be merged with and into its newly formed Montana subsidiary, Glacier Bancorp of Montana, Inc. (the "Surviving Corporation"). Pursuant to the terms of the Merger Agreement, the name of the Surviving Corporation will be changed to Glacier Bancorp, Inc.

The dominant factor in the Board of Directors' recommendation to reincorporate from Delaware to Montana is that the Company will no longer be required to pay corporate franchise fees. The Company currently pays almost \$150,000 annually in franchise fees to the State of Delaware. Other factors considered by the Board in choosing Montana for the state of reincorporation are that (i) the Company is headquartered in Montana; (ii) since the time of the Company's formation, Montana has adopted a version of the Revised Model Business Corporation Act, thereby modernizing the state's corporate statutes and making them more comparable to those of most other states; and (iii) current shareholder rights generally will not be adversely affected.

The Merger Agreement

The Company will be merged with and into the Surviving Corporation pursuant to the terms of the proposed Merger Agreement (the "Merger"), a copy of which is attached as *Appendix B* to this Proxy Statement. Upon the completion of the Merger, the owner of each outstanding share of the Company's common stock will automatically own one share of Surviving Corporation common stock. Each outstanding certificate representing a share or shares of the Company's common stock will continue to represent the same number of shares in the Surviving Corporation (i.e., a certificate representing one share of the Company's common stock will then equal one share of Surviving Corporation common stock). IT WILL NOT BE NECESSARY FOR SHAREHOLDERS OF THE COMPANY TO

Table of Contents

EXCHANGE THEIR EXISTING STOCK CERTIFICATES. The Company's common stock will continue to be traded on the Nasdaq National Market under the symbol GBCI following the merger.

The Surviving Corporation's Articles of Incorporation and Bylaws will be the Articles of Incorporation and Bylaws of the continuing corporation, except that the name of the Surviving Corporation will be changed to Glacier Bancorp, Inc. The Surviving Corporation's Articles of Incorporation are attached to this Proxy Statement as *Appendix C*. The discussion contained in this Proxy Statement is a summary only and, accordingly, is qualified in its entirety by reference to *Appendices B and C*.

Effect of Reincorporation and Merger

The Reincorporation and the Merger will effect a change in the legal domicile of the Company and other changes of a legal nature, the most significant of which are described in this Proxy Statement. The Reincorporation and the Merger will not result in any change in the business, management, location of the Company's principal executive offices, assets, liabilities, net worth or accounting practices. Moreover, as noted above, the shares of common stock will continue to be publicly traded and reported on the Nasdaq National Market. The Merger will not give rise to any appraisal or dissenters' rights.

Principal Differences in Corporate Charters

Articles/Certificate of Incorporation. The Surviving Corporation's Articles of Incorporation differ from the Company's Certificate of Incorporation in certain aspects, most of which are technical in nature. In addition, specific articles have been included so as to minimize differences in corporate governance before and after the Reincorporation.

Number of Directors. Glacier's current Certificate of Incorporation provides that the number of directors will be as provided in the Bylaws; Glacier's current Bylaws provide for a range of 7 to 12 directors, with the exact number to be set by resolution of the Board. Under the Delaware General Corporation Law (DGCL), the Board has authority to amend the range in the Bylaws. For the Surviving Corporation, the Articles of Incorporation specify a range of 7 to 17 directors, with the exact number to be determined by the Board of Directors. Under the Montana Business Corporation Act (MBCA), once a range for directors is established, shareholder approval is required to change it; therefore, the range for the number of directors (i) has been moved into the Surviving Corporation's Articles (so that the Board will retain authority to amend all provisions of the Bylaws without shareholder approval); and (ii) has been increased to a maximum number of 17 directors (from Glacier's current 12), to provide additional flexibility to the Board of the Surviving Corporation. For instance, the Board will be better able to respond to business or acquisition opportunities in which it may be desirable to add directors to the Surviving Corporation's Board, without first being required to seek shareholder approval to increase the range of directors.

Vote to Approve Merger Proposals. The Surviving Corporation's Articles of Incorporation specifically provide that a merger or share exchange requiring shareholder approval must be approved by a majority of all votes entitled to be cast. This provision is consistent with what is currently required for Glacier under the DGCL. Under the MBCA, the Surviving Corporation must provide in its Articles of Incorporation that a majority vote is sufficient to approve a merger or share exchange; otherwise, the relevant statute requires approval by two-thirds of all votes entitled to be cast.

Bylaws. Various differences also exist between Surviving Corporation's Bylaws and the Company's Bylaws, most of which are either technical in nature or intended to modernize the Bylaw

Table of Contents

provisions. Except as set forth in the following paragraph, the differences are not expected to have a material effect on the Company's corporate governance.

Shareholder Proposals/Director Nominations. Glacier's current Bylaws permit shareholders to present proposals and nominate directors, subject to certain procedural requirements, including that appropriate notice be received by the Board 60 days prior to the anniversary date of the mailing of last year's proxy statement. In order to be consistent with SEC rules regarding the inclusion of shareholder proposals in annual proxy statements, the Bylaws for the Surviving Corporation extend this mandatory notice period to 120 days prior to the anniversary date of the mailing of last year's proxy statement. If for any reason the Merger is not consummated, the Company's Bylaws will be amended to include this 120 day mandatory notice period.

Certain Differences in Corporate Laws

The DGCL currently governs the rights of the Company's shareholders. After the merger, the rights of shareholders will be governed by the MBCA. The following discussion summarizes certain significant differences between the provisions of the DGCL and the MBCA, as applicable to a public company.

Amendment of Articles/Certificate of Incorporation. The MBCA authorizes a corporation's board of directors to make various changes of an administrative nature to its articles of incorporation including increasing the number of outstanding shares in proportion to a stock split or stock dividend in the corporation's own shares. Other amendments to a corporation's articles of incorporation must be recommended to the shareholders by the board of directors, unless the board determines that because of a conflict of interest or other special circumstances, it should make no recommendation, and must be approved by a majority of all votes entitled to be cast by each voting group which has a right to vote on the amendment. Under the DGCL, all amendments to a corporation's certificate of incorporation require the approval of shareholders holding a majority of the voting power of the corporation unless a greater proportion is specified in the certificate of incorporation.

Provisions Affecting Acquisitions and Business Combinations. The MBCA does not contain any anti-takeover provisions imposing specific requirements or restrictions on transactions between a corporation and significant shareholders.

Delaware has a business combination statute, set forth in Section 203 of the DGCL, which provides that any person who acquires 15% or more of a corporation's voting stock (thereby becoming an interested shareholder) may not engage in certain business combinations with the target corporation for a period of three years following the time the person became an interested shareholder, unless (i) the board of directors of the corporation has approved, prior to the interested shareholder's acquisition of stock, either the business combination or the transaction that resulted in the person becoming an interested shareholder, (ii) upon consummation of the transaction that resulted in the person becoming an interested shareholder, that person owns at least 85% of the corporation's voting stock outstanding at the time the transaction is commenced (excluding shares owned by persons who are both directors and officers and shares owned by employee stock plans in which participants do not have the right to determine confidentially whether shares will be tendered in a tender or exchange offer), or (iii) the business combination is approved by the board of directors and authorized by the affirmative vote (at an annual or special meeting and not by written consent) of at least two-thirds of the outstanding voting stock not owned by the interested shareholder.

Table of Contents

For purposes of determining whether a person is the owner of 15% or more of a corporation's voting stock for purposes of Section 203 of the DGCL, ownership is defined broadly to include the right, directly or indirectly, to acquire the stock or to control the voting or disposition of the stock. A business combination is also defined broadly to include (i) mergers and sales or other dispositions of 10% or more of the assets of a corporation with or to an interested shareholder, (ii) certain transactions resulting in the issuance or transfer to the interested shareholder of any stock of the corporation or its subsidiaries, (iii) certain transactions which would result in increasing the proportionate share of the stock of a corporation or its subsidiaries owned by the interested shareholder, and (iv) receipt by the interested shareholder of the benefit (except proportionately as a shareholder) of any loans, advances, guarantees, pledges or other financial benefits.

These restrictions placed on interested shareholders by Section 203 of the DGCL do not apply under certain circumstances, including, but not limited to, the following: (i) if the corporation's original certificate of incorporation contains a provision expressly electing not to be governed by Section 203 or (ii) if the corporation, by action of its shareholders, adopts an amendment to its bylaws or certificate of incorporation expressly electing not to be governed by Section 203, provided that such an amendment is approved by the affirmative vote of not less than a majority of the outstanding shares entitled to vote and that such an amendment will not be effective until 12 months after its adoption (except for limited circumstances where effectiveness will occur immediately) and will not apply to any business combination with a person who became an interested shareholder at or prior to such adoption.

The Company's Certificate of Incorporation and the Surviving Corporation's Articles of Incorporation each contain a provision requiring that any transaction with an interested shareholder be approved by 80% of the voting power of the then outstanding shares unless it is (i) approved by the corporation's board of directors; or (ii) certain price and procedural requirements are satisfied. An interested shareholder is defined broadly to include the right, directly or indirectly, to acquire or to control the voting or disposition of 10% or more of the corporation's voting stock.

Mergers, Acquisitions and Other Transactions. Under the MBCA, a merger, consolidation, sale of all or substantially all of a corporation's assets, other than in the regular course of business, or dissolution of a public corporation must be approved by the affirmative vote of a majority of directors when a quorum is present, and by two-thirds of all votes entitled to be cast by each voting group entitled to vote as a separate group, unless a majority vote requirement is specified in the articles of incorporation. As discussed above in this Proxy Statement under **Principal Differences in Corporate Charter Articles/Certificate of Incorporation**, the Surviving Corporation's Articles of Incorporation provide that the corporate transactions specified above may be approved by a majority of the outstanding shares entitled to vote. Under the DGCL, a merger, consolidation, sale of all or substantially all of a corporation's assets, other than in the regular course of business, or dissolution of a corporation must be approved by a majority of the outstanding shares entitled to vote.

Action Without a Meeting. Under the MBCA, shareholder action may be taken without a meeting if written consents setting forth such action are signed by all holders of outstanding shares entitled to vote thereon. The DGCL authorizes shareholder action without a meeting if consents are received from holders of a majority of the outstanding shares. The Company's Bylaws, however, provide that all holders of the outstanding shares entitled to vote on the action must sign such consents in order for the action to be valid.

Class Voting. Under the MBCA, the articles of incorporation may authorize one or more classes of shares that have special, conditional or limited voting rights, including the right to vote on certain matters as a group. The articles of incorporation may not limit the rights of holders of a class to vote as a

Table of Contents

group with respect to certain amendments to the articles of incorporation and certain mergers that adversely affect the rights of holders of that class. The DGCL requires voting by separate classes only with respect to amendments to the certificate of incorporation that adversely affect the holders of those classes or that increase or decrease the aggregate number of authorized shares or the par value of the shares of any of those classes.

Transactions With Officers or Directors. The MBCA sets forth a safe harbor for transactions between a corporation and one or more of its directors. A conflicting interest transaction may not be enjoined, set aside or give rise to damages if: (i) it is approved by a majority of qualified directors; (ii) it is approved by the affirmative vote of a majority of all qualified shares; or (iii) at the time of commitment, the transaction was fair to the corporation. For purposes of this provision, a qualified director is one who does not have (a) a conflicting interest respecting the transaction or (b) a familial, financial, professional or employment relationship with a second director who does have such a conflict and which relationship would reasonably be expected to exert an influence on the first director's judgment when voting on the transaction. Qualified shares are defined generally as shares other than those beneficially owned, or the voting of which is controlled, by a director who has a conflicting interest respecting the transaction.

The DGCL provides that contracts or transactions between a corporation and one or more of its officers or directors or an entity in which they have an interest is not void or voidable solely because of such interest or the participation of the director or officer in a meeting of the board or a committee which authorizes the contract or transaction if: (i) the material facts as to the relationship or interest and as to the contract or transaction are disclosed or are known to the board or the committee, and the board or the committee in good faith authorizes the contract or transaction by the affirmative vote of a majority of disinterested directors; (ii) the material facts as to the relationship or interest and as to the contract or transaction are disclosed or are known to the shareholders entitled to vote thereon, and the contract or transaction is specifically approved in good faith by a vote of the shareholders; or (iii) the contract or transaction is fair as to the corporation as of the time it is authorized, approved or ratified by the board of directors, a committee thereof, or the shareholders.

Appraisal or Dissenters' Rights. Under the MBCA a shareholder is entitled to dissent from and, upon perfection of his or her appraisal right, to obtain fair value of his or her shares in the event of certain corporate actions, including certain mergers, consolidations, share exchanges, sales of substantially all assets of the corporation, and amendments to the corporation's articles of incorporation that materially and adversely affect shareholder rights.

Under the DGCL, appraisal rights are available only in connection with certain mergers or consolidations, unless otherwise provided in the corporation's certificate of incorporation. Even in the event of those mergers or consolidations, unless the certificate of incorporation otherwise provides, the DGCL does not provide appraisal rights (i) if the shares of the corporation are listed on a national securities exchange, designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc. or held of record by more than 2,000 shareholders (as long as in the merger the shareholders receive shares of the surviving corporation or any other corporation the shares of which are listed on a national securities exchange or held of record by more than 2,000 shareholders) or (ii) if the corporation is the surviving corporation and no vote of its shareholders is required for the merger. Because the Company is listed on the Nasdaq National Market, shareholders currently do not have statutory appraisal rights under the DGCL in such mergers or consolidations.

Table of Contents

Liability of Directors and Officers. The MBCA provides that a corporation's articles of incorporation may eliminate or limit personal liability for conduct as a director, except for the amount of an improper personal benefit, intentional misconduct, intentional violations of criminal law, or unlawful distributions. Under the DGCL, a corporation's certificate of incorporation may eliminate or limit personal liability for conduct as a director, except for breaches of the duty of loyalty, acts not in good faith, intentional misconduct, knowing violations of law, improper declarations of dividends or receipt of improper personal benefits. The Company's Certificate of Incorporation and the Surviving Corporation's Articles of Incorporation both eliminate directors' liability to the maximum extent provided by law.

Indemnification of Directors and Officers. Under the MBCA, indemnification of directors and officers is authorized to cover judgments, amounts paid in settlement, and expenses arising out of actions where the director or officer acted in good faith and in or not opposed to the best interests of the corporation, and, in criminal cases, where the director or officer had no reasonable cause to believe that his or her conduct was unlawful. Unless limited by the corporation's articles of incorporation, Montana law requires indemnification if the director or officer is wholly successful on the merits of the action. The Surviving Corporation's Bylaws provide that the Surviving Corporation shall indemnify its directors and officers to the fullest extent not prohibited by law, including indemnification for payments in settlement of actions brought against a director or officer in the name of the corporation, commonly referred to as a derivative action. Under the MBCA, any indemnification of a director in a derivative action must be reported to shareholders in writing prior to the next annual meeting of shareholders.

Under the DGCL, indemnification of directors and officers is authorized to cover judgments, amounts paid in settlement, and expenses arising out of non-derivative actions where the director or officer acted in good faith and in or not opposed to the best interests of the corporation, and, in criminal cases, where the director or officer had no reasonable cause to believe that his or her conduct was unlawful. Unless limited or denied by the corporation's certificate of incorporation, indemnification is required to the extent of a director's or officer's successful defense. Additionally, under the DGCL, a corporation may reimburse directors and officers for expenses incurred in a derivative action.

The Company has included undertakings in various registration statements filed with the Securities and Exchange Commission that in the event a claim for indemnification is asserted by a director or officer relating to liabilities under the Securities Act of 1933, as amended, the Company will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether indemnification would be against public policy and will be governed by any final adjudication of such issue.

Filing Fees. Delaware imposes annual franchise tax fees on all corporations incorporated in Delaware. The annual fee ranges from a nominal fee to a maximum of \$165,000, based on an equation consisting of the number of shares authorized, the number of shares outstanding and the net assets of the corporation. The Company is subject to an annual fee of approximately \$150,000. Montana charges corporations incorporated in Montana nominal annual corporate license renewal fees, and does not impose any franchise fees on corporations.

Federal Income Tax Consequences

In connection with the Reincorporation, Graham & Dunn PC, counsel to the company, will issue an opinion to the effect that, for federal income tax purposes:

1. The merger of the Company with and into the Surviving Corporation will qualify as a reorganization under Section 368(a) (1) of the Internal Revenue Code of 1986, as amended;

Table of Contents

2. The Company will recognize no gain or loss as a result of the merger;
3. A shareholder of the Company will recognize no gain or loss upon the deemed exchange of shares of Company Common Stock for shares of Surviving Corporation common stock;
4. The aggregate basis of the shares of Surviving Corporation common stock deemed received by a shareholder as a result of the merger will equal the aggregate basis of the shares of Company Common Stock deemed exchanged therefor; and
5. The holding period of the shares of Surviving Corporation common stock deemed received by a shareholder in the merger will include the holding period of the shares of Company Common Stock deemed exchanged therefor, provided that such Company Common Stock is held as a capital asset by the shareholder at the Effective Time.

The opinion of Graham & Dunn PC is subject to certain assumptions and qualifications and will be based upon the accuracy of certain representations contained in the officers' certificates delivered to Graham & Dunn PC by the parties to the Reincorporation in connection with the delivery of the tax opinion by Graham & Dunn PC. No ruling from the IRS will be applied for with respect to the federal income tax consequences of the Reincorporation. Thus, there can be no assurance that the IRS will agree with the conclusions set forth herein regarding the federal income tax consequences of the Reincorporation.

The federal income tax discussion set forth above is based upon current law. Although this discussion is intended to cover the material federal income tax consequences of the Reincorporation, it may not address issues that are material to a shareholder because of his or her particular tax situation. It does not address foreign, state or local tax consequences. Shareholders may wish to consult with a tax advisor concerning the specific tax consequences of the Reincorporation, including the applicability and effect of federal, state, local and other tax laws.

Vote Required And Board Recommendation

The affirmative vote of a majority of the outstanding shares of common stock of the Company is required to approve the Reincorporation.

The Board of Directors believes that the Reincorporation of the Company from Delaware to Montana is in the best interests of the Company and its shareholders and, consequently, unanimously recommends a vote FOR approval of the Reincorporation.

COMPLIANCE WITH SECTION 16(a) FILING REQUIREMENTS

Section 16(a) of the Securities Exchange Act of 1934 requires that all of our executive officers and directors and all persons who beneficially own more than 10 percent of our common stock file reports with the SEC regarding beneficial ownership of Company stock. We have adopted procedures to assist our directors and executive officers in complying with the Section 16(a) filings.

Based solely on our review of the copies of the filings which we received for the fiscal year ended December 31, 2003, or written representations from certain reporting persons, we believe that all reporting persons made all filings required by Section 16(a) on a timely basis, except that John MacMillan inadvertently failed to file a Form 4 or 5 for a gift of 100 shares in 1998.

Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

The services performed by KPMG LLP in 2003 were pre-approved in accordance with the pre-approval policy and procedures adopted by the Audit Committee. This policy describes the permitted audit, audit-related, tax, and other services (collectively, the Disclosure Categories) that KPMG LLP may perform. The policy requires that prior to the beginning of each fiscal year, a description of the services (the Service List) expected to be performed by KPMG LLP in each of the Disclosure Categories in the following fiscal year be presented to the Audit Committee for approval.

Services provided by KPMG LLP during the following year that are included in the Service List were pre-approved following the policies and procedures of the Audit Committee.

Table of Contents

Any requests for audit, audit-related, tax, and other services not contemplated on the Service List must be submitted to the Audit Committee for specific pre-approval and cannot commence until such approval has been granted. Normally, pre-approval is provided at regularly scheduled meetings. However, the authority to grant specific pre-approval between meetings, as necessary, has been delegated to the Chairman of the Audit Committee. The Chairman must update the Audit Committee at the next regularly scheduled meeting of any services that were granted specific pre-approval.

In addition, although not required by the rules and regulations of the SEC, the Audit Committee generally requests a range of fees associated with each proposed service on the Service List and any services that were not originally included on the Service List. Providing a range of fees for a service incorporates appropriate oversight and control of the independent auditor relationship, while permitting the Company to receive immediate assistance from KPMG LLP when time is of the essence.

The Audit Committee reviews the status of services and fees incurred year-to-date against the original Service List and the forecast of remaining services and fees for the fiscal year.

The policy contains a de minimis provision that operates to provide retroactive approval for permissible non-audit services under certain circumstances. The provision allows for the pre-approval requirement to be waived if all of the following criteria are met:

1. The service is not an audit, review or other attest service;
2. The aggregate amount of all such services provided under this provision does not exceed the lesser of \$X.X or five percent of total fees paid to the independent auditor in a given fiscal year;
3. Such services were not identified at the time of the engagement to be non-audit services;
4. Such services are promptly brought to the attention of the Audit Committee and approved by the Audit Committee or its designee;
and
5. The service and fee are specifically disclosed in the Proxy Statement as meeting the de minimis requirements.

The Board knows of no other matters to be brought before the shareholders at the Annual Meeting. If other matters are properly presented for a vote at the Annual Meeting, the proxy holders will vote shares represented by properly executed proxies in their discretion in accordance with their judgment on such matters.

(b) the Fair Market Value per share of Common Stock on the Announcement Date or on the date on which the Interested Shareholder became an Interested Shareholder (such latter date is referred to in this Article 9 as the "Determination Date"), whichever is higher.

(2) The aggregate amount of the cash and the Fair Market Value as of the date of the consummation of the Business Combination of consideration other than cash to be received per share by holders of shares of any other class of outstanding Voting Stock shall be at least equal to the highest of the following (it being intended that the requirements of this clause (2) shall be required to be met with respect to every class of outstanding Voting Stock, whether or not the Interested Shareholder has previously acquired any shares of a particular class of Voting Stock):

(a) (if applicable) the highest per share price (including any brokerage commissions, transfer taxes and soliciting dealers' fees) paid by the Interested Shareholder for any shares of such class of Voting Stock acquired by it (i) within the five-year period immediately prior to the Announcement Date or (ii) in the transaction in which it became an Interested Shareholder, whichever is higher;

(b) the Fair Market Value per share of such class of Voting Stock on the Announcement Date or on the Determination Date, whichever is higher; and

(c) (if applicable) the highest preferential amount per share to which the holders of shares of such class of Voting Stock are entitled in the event of any liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary.

(3) The consideration to be received by holders of a particular class of outstanding Voting Stock (including Common Stock) shall be in cash or in the same form as the Interested Shareholder has previously paid for shares of such class of Voting Stock. If the Interested Shareholder has paid for shares of any class of Voting Stock with varying forms of consideration, the form of consideration for such class of Voting Stock shall be either cash or the form used to acquire the largest number of shares of such class of Voting Stock previously acquired by it. The price determined in accordance with clauses (1) and (2) of this paragraph (B) shall be subject to appropriate adjustment in the event of any stock dividend, stock split, combination of shares or similar event.

(5) A proxy or information statement describing the proposed Business Combination and complying with the requirements of the Securities Exchange Act of 1934, as amended (or any subsequent provisions replacing such) (hereinafter referred to as the Act), and the rules and regulations of the Securities and Exchange Commission thereunder shall be mailed to the shareholders of the Corporation at least 30 days prior to the consummation of such Business Combination (whether or not such proxy or information statement is required to be mailed pursuant to the Act.)
