**Table of Contents****MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

- A. In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments, of a normal recurring nature, necessary to present fairly its financial position as at June 30, 2007 and the results of operations for the three months and six months ended June 30, 2007 and 2006 and cash flows for the six months ended June 30, 2007 and 2006. The condensed consolidated balance sheet at December 31, 2006 was derived from audited financial statements.

Certain prior-year amounts have been reclassified to conform to the 2007 presentation in the condensed consolidated financial statements. The results of operations related to 2007 and 2006 discontinued operations have been separately stated in the accompanying condensed consolidated statements of income for the three months and six months ended June 30, 2007 and 2006. In the Company's condensed consolidated statements of cash flows for the six months ended June 30, 2007 and 2006, cash flows of discontinued operations are not separately classified.

*Recently Issued Accounting Pronouncements.* In February 2007, the Financial Accounting Standards Board ( FASB ) issued Statement of Financial Accounting Standards ( SFAS ) No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of SFAS No. 115, ( SFAS No. 159 ). SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The adoption of SFAS No. 159 is effective January 1, 2008. The Company is currently evaluating the impact that the provisions of SFAS No. 159 will have on its consolidated financial statements.

- B. The Company's 2005 Long Term Stock Incentive Plan (the 2005 Plan ) replaced the 1991 Long Term Stock Incentive Plan (the 1991 Plan ) in May 2005 and provides for the issuance of stock-based incentives in various forms. At June 30, 2007, outstanding stock-based incentives were in the form of restricted long-term stock awards, stock options, phantom stock awards and stock appreciation rights. Additionally, the Company's 1997 Non-Employee Directors Stock Plan (the 1997 Plan ) provides for the payment of part of the compensation to non-employee Directors in Company common stock. Pre-tax compensation expense (income) and the related income tax benefit for stock-based incentives were as follows, in millions:

	<b>Three Months Ended</b>		<b>Six Months Ended</b>	
	<b>June 30,</b>		<b>June 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>

Total	\$ 32	\$ 19	\$ 52	\$ 48
Income tax benefit	\$ 12	\$ 7	\$ 19	\$ 18

**Restricted Long-Term Stock Awards**

Long-term stock awards are granted to key employees and non-employee Directors of the Company and do not cause net share dilution inasmuch as the Company continues the practice of repurchasing and retiring an equal number of shares on the open market.

**Table of Contents****MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note B continued:

The Company's long-term stock award activity was as follows, shares in millions:

	<b>Six Months Ended June 30,</b>	
	<b>2007</b>	<b>2006</b>
Unvested stock award shares, January 1	9	9
Weighted average grant date fair value	\$27	\$25

Stock award shares forfeited		
Weighted average grant date fair value	\$28	\$26
Unvested stock award shares, June 30	9	9
Weighted average grant date fair value	\$27	\$26

At June 30, 2007, there was \$193 million of unrecognized compensation expense related to unvested stock awards; such awards had a weighted average remaining vesting period of seven years.

The total market value (at the vesting date) of stock award shares which vested during the six months ended June 30, 2007 was \$32 million.

**Stock Options**

Stock options are granted to key employees and non-employee Directors of the Company. The exercise price equals the market price of the Company's common stock at the grant date. These options generally become exercisable (vest ratably) over five years beginning on the first anniversary from the date of grant and expire no later than 10 years after the grant date. The 2005 Plan does not permit the granting of restoration stock options, except for restoration options resulting from options previously granted under the 1991 Plan. Restoration stock options become exercisable six months from the date of grant.

The Company granted 4,593,000 of stock option shares, including restoration stock option shares, in the first half of 2007 with a grant date exercise price range of \$27 to \$34 per share. In the first half of 2007, 1,323,000 stock option shares were forfeited (including options that expired unexercised).

Weighted average exercise price	\$25	\$ 24
	\$46	
Aggregate intrinsic value (A)	million	\$75 million
Weighted average remaining option term (in years)	5	5

(A) Aggregate intrinsic value is calculated using the Company's stock price at each respective date, less the exercise price (grant date price) multiplied

by the number  
of shares.

At June 30, 2007, there was \$97 million of unrecognized compensation expense (using the Black-Scholes option pricing model) related to unvested stock options; such options had a weighted average vesting period of three years.

**Table of Contents****MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note B concluded:

The weighted average grant date fair value of option shares granted and the assumptions used to estimate those values using a Black-Scholes option pricing model, were as follows:

- C. During the first half of 2007, the Company acquired several relatively small installation service businesses (Installation and Other Services segment), as well as Erickson Construction Company and Guy Evans, Inc. (Installation and Other Services segment). Erickson Construction Company provides pre-fabricated wall panels and millwork for residential builders in Arizona, California and Nevada and is headquartered in Arizona. Guy Evans, Inc. is an installer of millwork, doors, windows and bath hardware for residential builders in California and Nevada and is headquartered in California. These two acquisitions allow the Company to expand the products and services it offers to its customers, and had combined annual sales of approximately \$200 million. The results of these acquisitions are included in the consolidated financial statements from the respective dates of acquisition. The aggregate net purchase price for all of these acquisitions was \$188 million and included cash of \$183 million and debt of \$5 million.
- D. During the second quarter of 2007, the Company determined that a European business unit in the Decorative Architectural Products segment was not core to the Company's long-term growth strategy, and, accordingly, embarked on a plan of disposition. In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the Company has accounted for this business unit, as well as a business unit which was sold in 2006, as discontinued operations.

Selected financial information for the discontinued operations during the period owned by the Company, and the gains reflecting the receipt of final purchase price payments, net of additional expenses related to discontinued operations in prior years (net gain of \$2 million and \$3 million, respectively, for the three months and six months ended June 30, 2007), was as follows, in millions:

**Table of Contents****MASCO CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note D concluded:

In April 2007, the Company completed the sale of a small business unit for cash proceeds of \$3 million, and in July 2007, the Company completed the sale of another small business unit for cash proceeds of \$8 million. These small business units in the Plumbing Products segment had combined net sales and operating profit of \$33 million and \$3 million, respectively, for the year ended December 31, 2006 and were included in continuing operations through their respective dates of sale. The Company recognized a net loss of \$6 million in the second quarter of 2007, included in other, net, in continuing operations, related to the sale of these business units.

The assets (\$73 million) and liabilities (\$20 million) of the 2007 discontinued operation and the small business unit sold in July 2007 have been included in assets and liabilities held for sale included in other assets and deferred income taxes and other, respectively, in the Company's condensed consolidated balance sheet at June 30, 2007.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (continued)**

Note G concluded:

On January 11, 2007, the acquisition of Metaldyne by Asahi Tec Corporation ( Asahi Tec ), a Japanese automotive supplier, was finalized. The combined fair value of the Asahi Tec common and preferred stock, as well as the derivative related to the conversion feature on the preferred stock, received in exchange for the Company's investment in Metaldyne, was \$72 million. The Asahi Tec common and preferred stock are restricted from sale for up to 24 months from the transaction date. The preferred stock accrues dividends at an annual rate of 3.75% pay-in-kind or 1.75% cash at the discretion of Asahi Tec; the Company has elected to record such dividends when cash proceeds are received. As a result of the transaction, the Company recognized a gain of \$14 million, net of transaction fees, included in the Company's consolidated statement of income for the six months ended June 30, 2007, in income from other investments, net. Any unrealized gains or losses related to the change in fair value of the Asahi Tec common and preferred stock at June 30, 2007 have been recognized, net of tax, through shareholders' equity, as a component of other comprehensive income in the Company's consolidated balance sheet. For the six months ended June 30, 2007, the unrealized loss of \$11 million, related to the fair value of the derivative related to the conversion feature on the preferred stock, has been included in the Company's consolidated statement of income, in income from other investments, net. At June 30, 2007, the Company had a net investment in Asahi Tec of \$58 million, including \$51 million of common and preferred stock and \$7 million, included in other investments, related to the conversion derivative.

In addition, immediately prior to its sale, Metaldyne Corporation distributed shares of TriMas Corporation common stock as a dividend to the holders of Metaldyne common stock; the Company recognized \$4 million included in the Company's consolidated statement of income, in dividend income from other investments. In May 2007, TriMas Corporation made an initial public offering; subsequent to the offering, any unrealized gains or losses related to the change in fair value of the TriMas Corporation common stock have been recognized, net of tax, through shareholders' equity, as a component of other comprehensive income in the Company's consolidated balance sheet.

In the second quarter of 2007, the Company determined that the decline in the estimated value of a certain private equity fund investment, with a carrying value of \$11 million prior to the impairment, was other-than-temporary. Accordingly, in the second quarter of 2007, the Company recognized a non-cash, pre-tax impairment charge of \$4 million.

The remaining private equity fund investments at June 30, 2007 and December 31, 2006, with an aggregate carrying value of \$182 million and \$211 million, respectively, were not evaluated for impairment, as there were no indicators of impairment or identified events or changes in circumstances that would have a significant adverse effect on the fair value of the investments.

For its investments in marketable securities, the Company reviews industry analyst reports, key ratios and statistics, market analyses and other factors for each investment to determine if an unrealized loss is other-than-temporary. Based upon this review, in the second quarter of 2007, the Company recognized a non-cash, pre-tax impairment charge of \$6 million related to its investment in Furniture Brands International (NYSE: FBN) common stock.

H. On January 20, 2007, holders of \$1.8 billion (94 percent) principal amount at maturity of the Zero Coupon Convertible Senior Notes ( Notes ) required the Company to repurchase their Notes at a cash value of \$825 million. As a result of this repurchase, a \$93 million deferred income tax liability is payable in 2007. Subsequent to the repurchase, there were outstanding \$108 million principal amount at maturity of such Notes, with an accreted value of \$51 million, which has been included in long-term debt at June 30, 2007, as the next put option date is July 20, 2011. The Company may at any time redeem all or part of the Notes at their then accreted value.

In the first half of 2007, the Company also retired \$300 million of floating-rate notes due March 9, 2007. On March 14, 2007, the Company issued \$300 million of floating-rate notes due 2010; the interest rate is determined based upon the three-month LIBOR plus 30 basis points. On March 14, 2007, the Company also issued \$300 million of fixed-rate 5.85% notes due 2017. These debt issuances provided net proceeds of \$596 million and were in consideration of the March 2007 and upcoming August 2007 debt maturities.

I. At June 30, 2007 and December 31, 2006, the Company did not have a balance in paid-in capital due to the repurchases of Company common stock. The Company's activity in retained earnings and paid-in capital was as follows, in millions:

The unrecognized prior service cost and net loss, net, is reported net of income tax benefit of \$64 million and \$66 million at June 30, 2007 and December 31, 2006, respectively.

J. As part of the December 2002 agreement relating to the Company's acquisition of an additional 37 percent equity ownership of Hansgrohe AG, in May 2007, certain minority shareholders (representing four percent of Hansgrohe outstanding shares) required the Company to purchase such shares of Hansgrohe with Company common stock. In May 2007, the Company issued two million shares of Company common stock with a value of \$56 million for the additional ownership in Hansgrohe, resulting in a majority ownership of approximately 68 percent. The aggregate minority interest, net of dividends, of \$97 million and \$108 million at June 30, 2007 and December 31, 2006, respectively, was recorded in the caption deferred income taxes and other liabilities on the Company's condensed consolidated balance sheets.

For both the three months and six months ended June 30, 2007 and 2006, the Company did not include any common shares related to the Zero Coupon Convertible Senior Notes ( Notes ) in the calculation of diluted earnings per common share, as the price of the Company's common stock at June 30, 2007 and 2006 did not exceed the equivalent accreted value of the Notes.

Note N concluded:

Additionally, 20 million common shares and 19 million common shares for the three months and six months ended June 30, 2007, respectively, and 12 million common shares for both the three months and six months ended June 30, 2006, related to stock options were excluded from the computation of diluted earnings per common share due to their antidilutive effect.

Common shares outstanding included on the Company's consolidated balance sheet and for the calculation of earnings per common share do not include unvested stock awards (nine million common shares at June 30, 2007); shares outstanding for legal requirements include all common shares that have voting rights (including unvested stock awards).

In the first half of 2007, the Company repurchased and retired 22 million shares of Company common stock for cash aggregating \$640 million. At June 30, 2007, the Company had 14 million shares of its common stock remaining under the 2006 authorization. In July 2007, the Company's Board of Directors authorized the repurchase of up to 50 million shares for retirement of the Company's common stock in open-market transactions or otherwise, replacing the previous Board of Directors' authorization established in May 2006.

O. The Company is subject to lawsuits and pending or asserted claims with respect to matters generally arising in the ordinary course of business.

As previously disclosed, a lawsuit has been brought against the Company and a number of its insulation installation companies in the federal court in Atlanta, Georgia alleging that certain practices violate provisions of the federal antitrust laws; the complaint requests class action certification. Consistent with its position regarding several similar lawsuits that have been dismissed, the Company is vigorously defending this lawsuit as well as several other similar lawsuits that were recently filed. The Company believes that the conduct of the Company and its insulation installation companies, which have been the subject of these lawsuits, has not violated any antitrust laws. The Company is unable at this time to reliably estimate any potential liability which might occur from an adverse judgment but does not believe that any adverse judgment would have a material adverse effect on its businesses or the methods used by its insulation installation companies in doing business.

As previously disclosed, a lawsuit has been brought against the Company's Milgard Manufacturing subsidiary, in the Solano County, California Superior Court, alleging design defects in certain Milgard aluminum windows. Plaintiffs are appealing the trial court's August 2006 denial of their motion for class certification. The Company is vigorously defending the case and believes that its window products have not been manufactured with the alleged design defects. The Company believes that it will not incur material liability as a result of this lawsuit.

As previously disclosed, European governmental authorities are investigating possible anticompetitive business practices relating to the plumbing and heating industries in Europe. The investigations involve a number of European companies, including certain of the Company's European manufacturing divisions and a number of other large businesses. The Company believes that it will not incur material liability as a result of the matters that are subject to these investigations.

Q. In July 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement 109, ( FIN No. 48 ). FIN No. 48 allows the recognition of only those tax benefits that the Company estimates have a greater than 50 percent likelihood of being sustained upon examination by the taxing authorities. FIN No. 48 also provides guidance on financial statement classification and disclosure, and the accounting for interest, penalties, interim periods and transition.

Historically, the Company has established reserves for tax contingencies in accordance with SFAS No. 5, Accounting for Contingencies, ( SFAS No. 5 ). Under this standard, accounting reserves for tax contingencies are established when it is probable that an additional tax may be owed and the amount can be reasonably estimated. FIN No. 48 establishes a threshold for recognizing accounting reserves for income tax contingencies on uncertain tax positions lower than the threshold under SFAS No. 5. Therefore, as a result of adopting FIN No. 48, the Company has increased its accounting reserves for income tax contingencies (referred to by FIN No. 48 as unrecognized tax benefits ) to approximately \$91 million as of January 1, 2007, the date of adoption. If recognized, approximately \$62 million, net of any federal tax benefit, would affect the Company's effective tax rate. The cumulative effect of adopting FIN No. 48 resulted in a reduction to beginning retained earnings of approximately \$26 million, net of any federal tax benefit, as of January 1, 2007, and the majority of the Company's unrecognized tax benefits were reclassified from current to non-current liabilities in accordance with the provisions of FIN No. 48.

The Company files income tax returns in the U.S. Federal jurisdiction, and various local, state and foreign jurisdictions. The Internal Revenue Service ( IRS ) has completed their examination of the Company's consolidated U.S. Federal tax returns through 2005. The proposed adjustments by the IRS are not material. Beginning with the 2006 consolidated U.S. Federal income tax return, the Company has been selected by the IRS to participate in the Compliance Assurance Program ( CAP ). CAP, a pilot program of the IRS, is a real-time audit of the Federal income tax return that allows the IRS, working in conjunction with the Company, to determine tax return compliance with the Federal tax law prior to filing the return. This program provides the Company with greater certainty about its tax liability for a given year within months, rather than years, of filing its annual tax return and greatly reduces the need for recording Federal unrecognized tax benefits. With few exceptions, the Company is no longer subject to state or foreign income tax examinations on filed returns for years before 2002.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (concluded)**

Note Q concluded:

The Company records interest and penalties on its unrecognized tax benefits in income tax expense. As of January 1, 2007, the Company had accrued approximately \$19 million for interest and penalties.

During the second quarter of 2007, the Company recognized \$5 million of income tax expense on various tax positions, including \$1 million of interest and penalties. As a result of tax audit closings, settlements and the expiration of applicable statutes of limitations in various jurisdictions within the next 12 months, the Company anticipates that it is reasonably possible the unrecognized tax benefits could be reduced by approximately \$14 million.

**Table of Contents****MASCO CORPORATION****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The Company reports its financial results in accordance with generally accepted accounting principles ( GAAP ) in the United States. However, the Company believes that certain non-GAAP performance measures and ratios, used in managing the business, may provide users of this financial information with additional meaningful comparisons between current results and results in prior periods. Non-GAAP performance measures and ratios should be viewed in addition to, and not as an alternative for, the Company's reported results.

**NET SALES**

Net sales decreased for both the three-month and six-month periods ended June 30, 2007 from the comparable periods of 2006. Excluding results from acquisitions and the effect of currency translation, net sales decreased nine percent and ten percent for the three-month and six-month periods ended June 30, 2007, respectively. The following table reconciles reported net sales to net sales, excluding acquisitions and the effect of currency translation, in millions:

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>

Currency translation	(43)		(96)	
Net sales, excluding acquisitions and the effect of currency translation	\$ 3,053	\$ 3,354	\$ 5,847	\$ 6,508

Net sales from North American operations for the three-month and six-month periods ended June 30, 2007 decreased compared with the same periods of 2006, primarily due to the continued decline in the new home construction market and a moderation in consumer spending for certain big ticket home improvement items, such as cabinets. North American sales were negatively affected by lower sales volume of installation and other services, assembled cabinets and windows and doors in the new home construction market. In addition, net sales were negatively affected by lower retail sales volume of certain products, including cabinets, partially offset by increased retail sales volume of paints and stains and plumbing products.

Net sales from International operations for the three-month and six-month periods ended June 30, 2007 increased compared with the same periods of 2006. For the first half of 2007, International sales were positively affected by a weaker U.S. dollar, principally against the Euro, which increased International net sales by eight percent and nine percent for the three-month and six-month periods ended June 30, 2007, respectively. In local currencies, net sales from International operations increased six percent and eight percent for the three-month and six-month periods ended June 30, 2007, respectively, and were positively affected by increased sales of plumbing products.

**MASCO CORPORATION**

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Net sales of Cabinets and Related Products decreased for the three-month and six-month periods ended June 30, 2007 compared with the same periods of 2006, primarily due to lower sales volume of assembled cabinets in the new home construction market and lower sales volume of cabinets in the North American retail market. These results were partially offset by a weaker U.S. dollar which had a positive effect on the translation of local currencies of European operations included in this segment.

Net sales of Plumbing Products increased for the three-month and six-month periods ended June 30, 2007 compared with the same periods of 2006, primarily due to increased sales volume of certain European operations, and increased selling prices, which offset lower sales volume in the wholesale distribution channel. A weaker U.S. dollar also had a positive effect on the translation of local currencies of European operations included in this segment.

Net sales of Installation and Other Services decreased for both the three-month and six-month periods ended June 30, 2007 compared with the same periods of 2006, due to lower sales volume related to the continued slowdown in the new home construction market and declines in selling prices, partially offset by acquisitions.

Net sales of Decorative Architectural Products increased for the three-month and six-month periods ended June 30, 2007 compared with the same periods of 2006, primarily due to higher retail sales volume of paints and stains.

Net sales of Other Specialty Products decreased for the three-month and six-month periods ended June 30, 2007 compared with the same periods of 2006, primarily due to lower sales volume of windows and doors related to the continued slowdown in the new home construction market, particularly in the western United States, offset in part by a weaker U.S. dollar which had a positive effect on the translation of local currencies of European operations included in this segment.

**OPERATING MARGINS**

The Company's gross profit margins were 28.8 percent and 27.6 percent, respectively, for the three-month and six-month periods ended June 30, 2007 compared with 29.1 percent and 28.4 percent, respectively, for the comparable periods of 2006. Selling, general and administrative expenses as a percentage of sales were 17.2 percent for both the three-month and six-month periods ended June 30, 2007 compared with 15.7 percent and 16.0 percent, respectively, for the comparable periods of the prior year. Selling, general and administrative expenses increased in 2007 due to increased advertising costs, severance costs and stock-based compensation expense. Results in 2007 were adversely affected by lower sales volume of installation and other services, assembled cabinets and windows and doors in the new home construction market, lower retail sales volume of certain products, including cabinets, and a less favorable product mix, partially offset by increased sales volume of paints and stains and increased sales from acquisitions and International operations, particularly plumbing products, as well as the favorable impact of currency translation.

As part of its profit improvement programs, the Company has been focused on the rationalization of its businesses, including sourcing programs, business consolidations, plant closures, headcount reductions and other initiatives. For the three-month and six-month periods ended June 30, 2007, the Company incurred costs and charges of \$23 million and \$48 million, respectively, related to profit improvement programs. For the three months and six months ended June 30, 2006, the Company incurred costs and charges of \$26 million and \$43 million, respectively, related to profit improvement programs.

**Table of Contents**

**MASCO CORPORATION**

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Operating profit margins in the Cabinets and Related Products segment were adversely affected by costs and charges of \$15 million for both the three-month and six-month periods ended June 30, 2006 related to the closure of a relatively small ready-to-assemble cabinet manufacturing facility; excluding these costs and charges, operating profit margins were 16.0 percent and 15.1 percent for the three-month and six-month periods ended June 30, 2006, respectively. The decline in operating profit margins in this segment for both the three-month and six-month periods ended June 30, 2007 reflects lower sales volume in the new home construction and retail markets, as well as plant start-up and severance costs.

Operating profit margins in the Plumbing Products segment were adversely affected by costs and charges of \$11 million and \$28 million for the three-month and six-month periods ended June 30, 2006, respectively, related to profit improvement programs; excluding these costs and charges, operating profit margins were 12.0 percent and 11.2 percent for the three-month and six-month periods ended June 30, 2006, respectively. The decline in operating profit margins in this segment for both the three-month and six-month periods ended June 30, 2007 was primarily due to commodity cost increases, as well as a less favorable product mix and severance costs, offset in part by selling price increases.

The decline in operating profit margins for the Installation and Other Services segment for both the three-month and six-month periods ended June 30, 2007 was primarily due to lower sales volume related to the continued slowdown in the new home construction market and lower selling prices, as well as costs related to systems implementation and severance. Partially offsetting these declines were reductions in material costs and benefits associated with the profit improvement programs.

The decline in operating profit margins for the Decorative Architectural Products segment for the three-month period ended June 30, 2007 was primarily due to increased advertising costs related to sales of paints and stains.

The decline in operating profit margins for the Other Specialty Products segment for both the three-month and six-month periods ended June 30, 2007 was primarily due to lower sales volume of windows and doors in the new home construction market, partially offset by a more favorable product mix.

**OTHER INCOME (EXPENSE), NET**

Other, net, for the three-month and six-month periods ended June 30, 2007 included \$(2) million and \$5 million, respectively, of realized (losses) gains, net, from the sale of marketable securities, \$1 million and \$6 million, respectively, of dividend income and \$8 million and \$23 million, respectively, of income from other investments, net. Other items, net, for both the three-month and six-month periods ended June 30, 2007 included \$3 million of currency transaction gains.

In the second quarter of 2007, the Company recognized a non-cash, pre-tax impairment charge of \$4 million related to a private equity fund and a non-cash, pre-tax impairment charge of \$6 million related to its investment in a marketable security.

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Other, net, for the three-month and six-month periods ended June 30, 2006 included \$(1) million and \$4 million, respectively, of realized (losses) gains, net, from the sale of marketable securities, \$1 million and \$7 million, respectively, of dividend income and \$12 million and \$13 million, respectively, of income from other investments, net. Other items, net, for the three-month and six-month periods ended June 30, 2006 included \$7 million and \$11 million, respectively, of currency transaction gains.

Interest expense for the three-month period ended June 30, 2007 increased \$16 million to \$69 million, compared with interest expense of \$53 million for the same period of 2006. Interest expense was \$132 million and \$117 million for the six-month periods ended June 30, 2007 and 2006, respectively. The increase in interest expense in 2007 was primarily due to increasing interest rates and the issuance of higher interest rate debt in October 2006 and March 2007. These debt issuances were in consideration of the 2007 debt repayments.

**INCOME AND EARNINGS PER COMMON SHARE FROM CONTINUING OPERATIONS**

Income from continuing operations before the cumulative effect of accounting change, net, for the three-month and six-month periods ended June 30, 2007 was \$186 million and \$328 million, respectively, compared with \$215 million and \$422 million, respectively, for the comparable periods of 2006. Diluted earnings per common share from continuing operations before the cumulative effect of accounting change, net, for the three-month and six-month periods ended June 30, 2007 were \$.50 per common share and \$.86 per common share, respectively, compared with \$.53 per common share and \$1.04 per common share, respectively, for the comparable periods of 2006. The Company's effective tax rate was 35.9 percent for both the three-month and six-month periods ended June 30, 2007, respectively, compared with 34.8 percent and 34.6 percent, respectively, for the same periods in 2006. The Company estimates that its effective tax rate should approximate 35 to 36 percent for the full-year 2007.

**OTHER FINANCIAL INFORMATION**

The Company's current ratio was 1.8 to 1 and 1.5 to 1 at June 30, 2007 and December 31, 2006, respectively. The improvement in the current ratio was primarily due to the repayment of \$825 million of Zero Coupon Convertible Notes and \$300 million of floating-rate notes in the first half of 2007.

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

For the six months ended June 30, 2007, cash of \$381 million was provided by operating activities. Cash used for financing activities was \$1,280 million, and included \$175 million for the payment of cash dividends, \$640 million for the repurchase and retirement of Company common stock in open-market transactions, \$300 million (including accrued interest) for the retirement of floating-rate notes due March 9, 2007 and \$825 million related to the Zero Coupon Convertible Senior Notes put option. Cash provided by financing activities included \$58 million from the issuance of Company common stock for the exercise of stock options and \$596 million from the issuance of notes (net of issuance costs). Net cash used for investing activities was \$217 million, and included primarily \$190 million for the acquisition of businesses, net, and \$116 million for capital expenditures, offset in part by \$74 million of net proceeds from the sale of financial investments and \$32 million of net proceeds from the disposition of property and equipment and businesses.

First half 2007 cash from operations was affected by an expected and annually recurring first half increase in accounts receivable and inventories compared with December 31, 2006.

The Company is subject to lawsuits and claims pending or asserted with respect to matters generally arising in the ordinary course of business. Note O to the Condensed Consolidated Financial Statements discusses specific claims pending against the Company.

The Company believes that its present cash balance, cash flows from operations and, to the extent necessary, bank borrowings and future financial market activities, are sufficient to fund its working capital and other investment needs.

**OUTLOOK FOR THE COMPANY**

Economic conditions remain uncertain in the Company's markets. Housing starts have declined dramatically in the last 12 months due to previous excessive speculative buying, rapidly rising home prices in recent years reducing affordability and less attractive mortgage terms. The subprime mortgage issues that have plagued the new home construction market in recent months have made it more difficult to obtain a mortgage, adding to an already difficult market for new homes. As a result, the Company has reduced its 2007 housing starts estimate to approximately 1.4 million.

The Company believes that the negative impact to its results of this reduction in estimated 2007 housing starts to approximately 1.4 million will be largely offset by a combination of the stronger-than-expected first half results, the continued favorable effect of currency translation, share repurchases, recent acquisitions, selling price increases and profit improvement programs.

The Company remains committed to its long-term growth strategy, concentrating on organic sales growth, improving return on invested capital and generating significant returns to shareholders. The Company continues to drive its growth initiatives including leveraging installation services, developing new channels of distribution, pursuing new markets in emerging economies and emphasizing new product development.
