ITEM 9. OTHER EVENTS.

Edgar Filing: NABORS INDUSTRIES LTD - Form 8-K

On October 29, 2003, Nabors Industries Ltd. (the "Company") will post certain supplemental historical financial information in segment reporting format on its website at "<http://www.nabors.com>" under the heading "Investor Information." A copy of such supplemental historical financial information in segment reporting format is attached to this Current Report on Form 8-K as Exhibit No. 99.1.

In the supplemental historical financial information in segment reporting format to be provided on the Company's website, the Company will present its adjusted cash flow derived from operating activities and adjusted income derived from operating activities for all quarterly and annual periods presented therein. The components of adjusted cash flow derived from operating activities and adjusted income derived from operating activities are computed using amounts determined in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Adjusted cash flow derived from operating activities is computed by: subtracting direct costs and general and administrative expenses from Operating revenues and then adding Earnings from unconsolidated affiliates. Adjusted income derived from operating activities is computed by: subtracting direct costs, general and administrative expenses, and depreciation and amortization expense from Operating revenues and then adding Earnings from unconsolidated affiliates.

As part of this Current Report on Form 8-K, we have provided a reconciliation, for all quarterly and annual periods presented in the supplemental historical financial information in segment reporting format to be provided on the Company's website, of adjusted cash flow derived from operating activities and adjusted income derived from operating activities, which are "non-GAAP" financial measures under Regulation G, to net cash provided by operating activities from our consolidated statements of cash flows and consolidated income before income taxes, respectively, which are the most comparable GAAP financial measures.

The Company will include its adjusted cash flow derived from operating activities and adjusted income derived from operating activities in the supplemental historical financial information because management evaluates the performance of its business units and the consolidated Company based on several criteria, including adjusted cash flow derived from operating activities and adjusted income derived from operating activities, and because it believes these financial measures are an accurate reflection of the ongoing profitability of the Company.

The information contained or referenced to in this report, including the attached supplemental historical financial information in segment reporting format to be provided on the Company's website, is furnished or referred to by the Company pursuant to Regulation FD promulgated by the Securities and Exchange Commission (the "SEC") and pursuant to Item 9 of Current Report on Form 8-K, and shall not be deemed to be "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934 or otherwise subject to the liabilities of that Section, unless the Company specifically incorporates it by reference in a document filed under the Securities Act of 1933 or the Securities Exchange Act of 1934. By filing this Current Report on Form 8-K and furnishing or referring to this information, the Company makes no admission as to the materiality of any information in this report that is required to be disclosed solely by reason of Regulation FD or that the information includes material investor information which was not previously publicly available.

The information in this Current Report on Form 8-K, including the exhibit, includes forward-looking statements within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934.
