The information in this prospectus supplement replaces and supercedes the information set forth under the heading Selling Security Holders in the prospectus dated August 20, 2007.

SELLING SECURITY HOLDERS

We initially issued and sold a total of \$175,000,000 aggregate principal amount of the notes in private placements to certain initial purchasers on December 6, 2006 and December 8, 2006. The initial purchasers have advised us that they resold the notes in transactions exempt from the registration requirements of the Securities Act of 1933, as amended, to qualified institutional buyers (as defined in Rule 144A under the Securities Act) in compliance with Rule 144A. The selling security holders, which term includes their transferees, pledgees, donees and successors, may from time to time offer and sell pursuant to this prospectus any and all of the notes and the Shares of common stock issuable upon exchange of the notes.

The notes and the shares of common stock to be issued upon exchange of the notes are being registered pursuant to a registration rights agreement between us and the initial purchasers. In that agreement, we undertook to file a registration statement with regard to the notes and the shares of common stock issuable upon exchange of the notes and, subject to certain exceptions, to keep that registration statement effective until the date there are no longer any registrable securities. See Registration Rights. The registration statement to which this prospectus relates is intended to satisfy our obligations under that agreement.

The selling security holders named below have advised us that they currently intend to sell the notes and the shares of common stock set forth below pursuant to this prospectus. Additional selling security holders may choose to sell notes and the shares of common stock from time to time upon notice to us. None of the selling security holders named below has, within the past three years, held any position, office or other material relationship with us or any of our predecessors or affiliates.

Unless the securities were purchased pursuant to this registration statement, before a security holder not named below may use this prospectus in connection with an offering of securities, this prospectus will be amended or supplemented to include the name and amount of notes and common shares beneficially owned by the selling security holder and the amount of notes and common shares to be offered. Any amended or supplemented prospectus will also disclose whether any selling security holder selling in connection with that amended or supplemented prospectus has held any position, office or other material relationship with us or any of our predecessors or affiliates during the three years prior to the date of the amended or supplemented prospectus.

The following table is based solely on information provided by the selling security holders. This information represents the most current information provided to us by selling security holders.

Because a selling security holder may sell all or a portion of the notes and common shares issuable upon exchange of the notes pursuant to this prospectus, an estimate cannot be given as to the number or percentage of notes and common shares that the selling security holder will hold upon termination of any sales. The information presented assumes that all of the selling security holders will fully exchange the notes for cash and Shares of common stock and that the selling security holders will sell all Shares of common stock that they received pursuant to such exchange.

- (2) Includes shares of common stock issuable upon exchange of the notes and open short positions in the shares of common stock.

Does not include share of our common stock underlying shares of our Series B Preferred Convertible Stock.

- (3) The number of shares of our common stock issuable upon conversion of the notes is calculated assuming
- (i) that the notes are worth \$350,000,000 at the time of conversion, with the \$175,000,000 principal amount paid in cash and the remaining \$175,000,000 paid in shares of our common stock and
 - (ii) the conversion of the full amount of notes held by such holder at the initial conversion rate of 15.1653 per \$1,000 principal amount of the notes, which equals an initial conversion price of \$65.94. This conversion rate is subject to adjustment as described under
