**PROXY STATEMENT
FOR
ANNUAL MEETING OF STOCKHOLDERS**

JUNE 4, 2008

INFORMATION CONCERNING SOLICITATION AND VOTING

General

This proxy statement is furnished to our stockholders in connection with the solicitation of proxies for use at our annual meeting of stockholders to be held on June 4, 2008 at 11:00 a.m. EDT at 1700 K Street, NW, Fifth Floor, Washington, DC 20006, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders.

A copy of our Annual Report on Form 10-K for the year ended December 31, 2007, together with this proxy statement and accompanying proxy card and notice, will be first mailed on or about May 12, 2008 to our stockholders of record.

This solicitation is made on behalf of our board of directors, and we will pay the costs of solicitation. Our directors, officers and employees may also solicit proxies by telephone, fax or personal interview without additional consideration. We will reimburse banks, brokerage firms and other custodians, nominees and fiduciaries for reasonable expenses incurred by them in sending proxy material to our stockholders. We have retained American Stock Transfer & Trust Company to assist in the solicitation of proxies with respect to shares of our common stock held of record by brokers, nominees and institutions for a customary fee.

Our principal executive offices are located at 11465 Sunset Hills Road, Suite 200, Reston, Virginia 20190, and our telephone number is (703) 438-2000.

Shares Entitled to Vote and Quorum Requirement

Our outstanding common stock constitutes the only class of securities entitled to vote at the annual meeting. Stockholders of record of our common stock at the close of business on April 7, 2008 are entitled to notice of, and to vote at, our 2008 annual meeting of stockholders. A list of our stockholders will be available for review at our principal executive offices during regular business hours for a period of ten days prior to the annual meeting. As of April 7, 2008, 28,556,222 shares of our common stock were issued and outstanding. The presence at the meeting, in person or by proxy, of a majority of the shares of the common stock issued and outstanding on April 7, 2008 will constitute a quorum. Each share of common stock is entitled to one vote.

Voting Procedures

A proxy card is enclosed for your use. We ask that you carefully review, complete, sign, date and return the proxy card in the accompanying envelope, which is postage prepaid if you mail it in the United States.

Unless there are different instructions on the proxy, all shares represented by valid proxies (and not revoked before they are voted) will be voted at the meeting **FOR** the election of all of the director nominees listed in Proposal No. 1 and **FOR** the ratification of the appointment of our independent public registered

accounting firm in Proposal No. 2. With respect to any other business that may properly come before the annual meeting and be submitted to a vote of stockholders, proxies will be voted in accordance with the best judgment of the designated proxy holders.

The persons named as attorneys-in-fact to vote the proxies, Magid M. Abraham and John M. Green, were selected by the board of directors and are executive officers of the company. All properly executed proxies returned in time to be counted at the annual meeting will be voted.

Shares represented by proxies that reflect abstentions or broker non-votes (*i.e.*, shares held by a broker or nominee that are represented at the meeting, but with respect to which the broker or nominee is not empowered to vote on a particular proposal) will be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum. Broker non-votes are not deemed to be entitled to vote for purposes of determining whether stockholder approval of a matter has been obtained. As a result, broker non-votes are not included in the tabulation of voting results on any proposal. The director nominees listed in Proposal No. 1 will be elected by a plurality of the votes of the shares present or represented by proxy at the meeting and entitled to vote on the election of directors. The appointment of our independent registered public accounting firm listed in Proposal No. 2 will be ratified if a majority of shares present or represented by proxy at the meeting and entitled to vote thereon vote **FOR** such proposal.

Stockholders of record may vote by (i) completing and returning the enclosed proxy card prior to the meeting, (ii) voting in person at the meeting or (iii) submitting a signed proxy card at the meeting.

Your vote is important. Accordingly, please carefully review, complete, sign, date and return the accompanying proxy card whether or not you plan to attend the annual meeting in person.

You may revoke your proxy at any time before it is actually voted at the meeting either by signing and submitting a new proxy card with a later date or by attending the meeting and voting in person. However, merely attending the meeting will not revoke your submitted proxy unless you specifically request your proxy be revoked. If you hold shares through a bank or brokerage firm, you must contact that bank or firm directly to revoke any prior voting instructions.

All votes cast at the meeting will be tabulated by the persons appointed by our board of directors to act as inspectors of election for the meeting.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

General Information

Our board of directors has eight authorized seats. The board of directors is divided into three classes (Class I, Class II and Class III) with staggered three-year terms. Three Class I directors are to be elected at the 2008 annual meeting of stockholders to serve a three-year term expiring at the 2011 annual meeting of stockholders or until their respective successors have been elected and qualified. The Class II and Class III directors will continue to serve their respective terms. Proxies cannot be voted for more than the three named nominees.

Our board of directors has nominated Magid M. Abraham, William Katz and Jarl Mohn to serve as Class I directors. There are no family relationships among our directors or executive officers.

Shares represented by the accompanying proxy will be voted for the election of the nominees recommended by the board of directors unless the proxy is marked in such a manner so as to withhold authority to vote. If any nominee is unable or unexpectedly declines to serve as a director, the board of directors may designate another nominee to fill the vacancy, and the proxy will be voted for that nominee. Each person nominated for election has agreed to serve if elected, and we have no reason to believe that any nominee will be unable to serve.

Standing Committees of the Board of Directors

Our board of directors has established an audit committee, a compensation committee and a nominating and governance committee. Our board of directors and its committees meet regularly throughout the year and also hold special meetings and act by written consent from time to time as appropriate. Our board of directors has delegated various responsibilities and authority to its committees as generally described below. The committees regularly report on their activities and actions to the full board of directors. Each committee of our board of directors has a written charter approved by our board of directors.

Audit Committee

The audit committee of our board of directors recommends the appointment of our independent registered public accountant, reviews our internal accounting procedures and financial statements, and consults with and reviews the services provided by our independent registered public accountant, including the results and scope of their audit. The audit committee met twelve times (including telephonic meetings) during 2007.

The audit committee is currently comprised of Ronald J. Korn (chair), Thomas D. Berman and Frederick R. Wilson, each of whom is independent within the meaning of the requirements of the Sarbanes-Oxley Act of 2002 and applicable SEC and NASDAQ rules. Ronald J. Korn is chairman of our audit committee as well as our audit committee financial expert, as currently defined under the SEC rules implementing the Sarbanes-Oxley Act of 2002. Messrs. Berman and Wilson are not standing for re-election following the expiration of their terms at our 2008 annual meeting. We believe that the composition and functioning of our audit committee complies with all applicable requirements of the Sarbanes-Oxley Act of 2002, The NASDAQ Global Market, and SEC rules and regulations.

The audit committee operates under a written charter adopted by the board of directors, a copy of which is available under the Investor Relations section of our website, <http://www.comscore.com>.

Compensation Committee

The compensation committee of our board of directors reviews and recommends to our board of directors the compensation and benefits for our executive officers, administers our stock plans, and establishes and reviews general policies relating to compensation and benefits for our employees. The compensation committee met one time (including telephonic meetings) during 2007.

The compensation committee is currently comprised of William J. Henderson (chair), Thomas D. Berman and Frederick R. Wilson, each of whom is independent within the meaning of applicable NASDAQ rules. Messrs. Berman and Wilson are not standing for re-election following the expiration of their terms at our 2008 annual meeting. We believe that the composition and functioning of our compensation committee complies with all applicable requirements of the Sarbanes-Oxley Act of 2002, The NASDAQ Global Market, and SEC rules and regulations.

The compensation committee operates under a written charter adopted by the board of directors, a current copy of which is available under the Investor Relations section of our website, <http://www.comscore.com>.

Nominating and Governance Committee

The nominating and governance committee of our board of directors is responsible for, among other things, reviewing the appropriate size, function and needs of the board of directors; establishing criteria for

evaluating and selecting new members of our board of directors, subject to board of directors approval thereof; identifying and recommending to our board of directors for approval individuals qualified to become members of the board of directors; and monitoring and making recommendations to the board of directors on matters relating to corporate governance. The nominating and governance committee did not meet during 2007.

The nominating and governance committee currently consists of Bruce Golden (chair), William J. Henderson and Ronald J. Korn. We believe that the composition and functioning of our nominating and governance committee complies with all applicable requirements of the Sarbanes-Oxley Act of 2002, The NASDAQ Global Market and SEC rules and regulations.

The nominating and governance committee operates under a written charter adopted by the board of directors, a current copy of which is available under the Investor Relations section of our website, <http://www.comscore.com>.

Board of Directors and Committee Meeting Attendance

Our board of directors met ten times (including telephonic meetings) during the year ended December 31, 2007. Each of our directors has attended at least 75% of the aggregate number of meetings held by the board of directors (during the period in 2007 for which he was a director) and by the committees of the board of directors on which such individual served (during the period in 2007 for which he served as a committee member). Independent members of the board of directors regularly meet in executive session without management present.

Annual Meeting Attendance

The policy of the board of directors is that all directors should attend the annual meeting of stockholders if possible.

Director Nomination Process

Our nominating and governance committee identifies director nominees by first evaluating the current members of the board of directors willing to continue in service. Current members with skills and experience that are relevant to our business and who are willing to continue in service are considered for nomination. If any member of the board of directors does not wish to continue in service, or the committee or board of directors decides not to nominate a member for re-election, the committee identifies the desired skills and experience of a new nominee. Current members of the board of directors and senior management are then polled for their recommendations. To date, we have not engaged third parties to identify or evaluate potential nominees; however, the committee may do so in the future.

The nominating and governance committee will also consider nominees recommended by stockholders, and any such recommendations should be forwarded to our Corporate Secretary in writing at our executive offices as identified in this proxy statement. In accordance with our bylaws, such recommendations should include the following information:

the name, age, business address and residence address of the proposed candidate;

the principal occupation or employment of the proposed candidate;

the class and number of shares of our stock that the proposed candidate beneficially owns;

a description of all arrangements or understandings between the stockholder making the recommendations and each director nominee and any other person or persons (naming such person or persons) pursuant to which the nominations are to be made by the stockholder; and

any other information relating to such director candidate that is required to be disclosed in solicitations of proxies for elections of directors or is otherwise required pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended (including without limitation such nominee's written consent to being named in any proxy statement as a nominee and to serve as a director if elected).

The nominating and governance committee evaluates individual director candidates based upon a number of criteria, including:

a high degree of personal and professional integrity;

commitment to promoting the long term interests of our stockholders;

broad general business experience and acumen, which may include experience in management, finance, marketing and accounting, with particular emphasis on technology companies;

adequate time to devote attention to the affairs of our company;

an ability to bring balance to our board of directors in light of our company's current and anticipated needs and in light of the skills and attributes of the other board members; and

other attributes relevant to satisfying the requirements imposed by the SEC and NASDAQ.

- (4) Mr. Ganek joined our board of directors in May 2008. Accordingly, he did not receive any compensation for 2007.
- (5) Mr. Wilson is not standing for re-election following the expiration of his term at our 2008 annual meeting.

We reimburse our non-employee directors for all reasonable out-of-pocket expenses incurred in the performance of their duties as directors. Such expense reimbursements are less than \$10,000 in the aggregate for any non-employee director during fiscal 2007 and are not included in the immediately preceding table. Employee directors are not compensated for board of director or committee service in addition to their regular employee compensation.

Retainers and Meeting Fees: During fiscal 2007, our non-employee directors were eligible to receive an annual cash retainer of \$25,000 for service on our board of directors, and the chairs of certain of the standing committees of our board of directors were eligible to receive annual cash retainers as follows: \$10,000 per year for the chair of our audit committee and \$7,500 per year for the chair of our compensation committee.

Such fees became effective at the beginning of the third quarter of 2007, following our initial public offering, and the amounts paid were accordingly prorated for that portion of the year.

Other Equity-Based Compensation: Outside directors are also eligible to receive stock awards and option grants under our 2007 Equity Incentive Plan. Following our initial public offering, our non-employee directors became entitled to an annual grant of restricted stock having a value of \$50,000 at the time of grant. The total amount of each annual grant of restricted stock shall remain unvested until the earlier of (i) the date of the respective director's first anniversary of joining our board of directors, (ii) the date of the first annual stockholders' meeting following the date of grant or (iii) a change of control. The board of directors has discretion to accelerate or modify such vesting schedule due to special circumstances. Upon the closing of our initial public offering on July 2, 2007, each of our non-employee directors was granted restricted stock having a value of \$50,000 at the time of the grant, which resulted in grants of 2,231 shares of common stock to each of Messrs. Berman, Golden, Henderson, Korn and Wilson.

Director Independence

Our board of directors has determined that each of Messrs. Berman, Ganek, Golden, Henderson, Katz, Korn, Mohn and Wilson is independent under the rules of the Securities and Exchange Commission and the listing standards of the NASDAQ Stock Market; therefore, every member of the audit committee, compensation committee and nominating and governance committee is an independent director in accordance with those standards. There were no related person transactions considered in the last fiscal year in the determination of the independence of the directors.

Compensation Committee Interlocks and Insider Participation

During 2007, William J. Henderson, Thomas D. Berman and Frederick R. Wilson served on our compensation committee. None of the members of our compensation committee in 2007 was a present or former officer or employee of our company. In addition, during 2007, none of our officers had an interlock relationship, as that term is defined by the SEC.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all directors and employees of the company, including our principal executive officer, principal financial officer and principal accounting officer or controller. The full text of our Code of Business Conduct and Ethics is posted under the Investor Relations section on our website at <http://www.comscore.com>.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Policies and Procedures for Transactions with Related Persons

Related person transactions, which we define as all transactions involving an executive officer, director or a holder of more than five percent of our common stock, including any of their immediate family members and any entity owned or controlled by such persons, are reviewed and approved by the audit committee of our board of directors and a majority of disinterested directors on our board of directors. Prior to our initial public offering, related party transactions were not reviewed by our audit committee, however, such transactions were reviewed and approved by a majority of disinterested directors on our board of directors.

In any transaction involving a related person, our audit committee and board of directors consider all of the available material facts and circumstances of the transaction, including: the direct and indirect interests of the related persons; in the event the related person is a director (or immediate family member of a director or an entity with which a director

is affiliated), the impact that the transaction will have on a director's independence; the risks, costs and benefits of the transaction to us; and whether any alternative transactions or sources for comparable services or products are available.

After considering all such facts and circumstances, our audit committee and board of directors determine whether approval or ratification of the related person transaction is in our best interests. For example, if our audit committee determines that the proposed terms of a related person transaction are reasonable and at least as favorable as could have been obtained from unrelated third parties, it will recommend to our board of directors that such transaction be approved or ratified. In addition, if a related person transaction will compromise the independence of one of our directors, our audit committee may recommend that our board of directors reject the transaction if it could affect our ability to comply with securities laws and regulations or NASDAQ listing requirements.

Each transaction described below was entered into prior to the adoption of our audit committee charter. Accordingly, each was approved by disinterested members of our board of directors after making a determination that the transaction was executed on terms no less favorable than those we could have obtained from unrelated third parties.

The policies and procedures described above for reviewing and approving related person transactions are not in writing. However, the charter for our audit committee provides that one of the committee's responsibilities is to review and approve in advance any proposed related person transactions.

Transactions and Relationships with Directors, Officers and Five Percent Stockholders

We believe that there has not been any other transaction or series of transactions during 2007 to which we were or are to be a participant in which the amount involved exceeds \$120,000 and in which any director, executive officer or holder of more than five percent of our common stock, or members of any such person's immediate family, had or will have a direct or indirect material interest, other than compensation described in "Executive Compensation" elsewhere in this proxy statement and as described below.

Linda Abraham

Since 2006, Linda Abraham, the spouse of our President and Chief Executive Officer, Magid Abraham, has held the positions of acting Executive Vice President for Finance, Telecom and Pharmaceuticals and Executive Vice President for Product Management. Ms. Abraham remains employed as our Executive Vice President for Product Management. In this position, Ms. Abraham earned approximately \$208,000 in salary in 2007 and received an award of restricted stock with a value at the time of grant of approximately \$236,250 in 2007.

Indemnification Agreements

We have entered into an indemnification agreement with each of our directors and executive officers. The indemnification agreements and our amended and restated certificate of incorporation and bylaws require us to indemnify our directors and officers to the fullest extent permitted by Delaware law.

PROPOSAL NO. 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our audit committee has appointed Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2008. Ernst & Young LLP has served as our independent audit firm since 2000 and has audited our financial statements for fiscal years 2000 through 2007. A representative of Ernst & Young LLP is expected to be present at our 2008 annual meeting of stockholders and will have an opportunity to make a statement and respond to appropriate questions from stockholders.

Ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm is not required by our bylaws or other applicable legal requirements. However, our board of directors is submitting the appointment of Ernst & Young LLP to the stockholders for ratification as a matter of good corporate practice. If our stockholders fail to ratify the appointment, the audit committee will reconsider whether to retain the firm. Even if the appointment is ratified, the audit committee at its discretion may direct

the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in our best interests and the best interests of our stockholders.

The affirmative vote of a majority of shares of our common stock present at the 2008 annual meeting of stockholders in person or by proxy and entitled to vote is required to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2008. Abstentions will have the same effect as a vote against this proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS YOU VOTE FOR PROPOSAL NUMBER 2.

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion and analysis of compensation arrangements of our named executive officers should be read together with the compensation tables and related disclosures set forth elsewhere in this proxy statement. Our named executive officers for the year ended December 31, 2007 are Magid M. Abraham, John M. Green, Gian M. Fulgoni, Gregory T. Dale and Christiana L. Lin. This discussion contains forward-looking statements that are based on our current plans and expectations regarding future compensation programs. Actual compensation programs that we adopt may differ materially from currently planned programs as summarized in this discussion.

Our Philosophy

The objective of our compensation programs for employees is to attract and retain top talent. Our compensation plans are designed to motivate and reward employees for achievement of positive business results and also to promote and enforce accountability. In determining the compensation arrangement of our senior executives, we are guided by the following key principles:

Attract and Retain Top Talent. Our compensation arrangements should be sufficient to allow us to attract, retain and motivate executives with the necessary skills and talent to successfully manage our business. We recognize that the marketplace for our executives is not necessarily the same as for our business. For example, the marketplace for a chief financial officer may include all public companies, while the marketplace for a chief operating officer would be further focused on digital marketing intelligence providers. In order to attract, motivate and retain such executives, we seek to compensate our executives at levels that are consistent with or more attractive than other available opportunities in the respective executive's marketplace.

Promote Business Performance Accountability. Compensation should be tied, in part, to financial performance of our business so that executives are held accountable through their compensation for contributions to our performance as a whole through the performance of the businesses for which they are responsible.

Promote Individual Performance Accountability. Compensation should be tied, in part, to the individual executive's performance to encourage and reflect individual contributions to our performance. Our board of directors considers individual performance as well as performance of the businesses and responsibility areas that an individual oversees and weights these factors as appropriate in assessing a particular individual's performance.

Align Stockholder Interests. Compensation should be tied, in part, to our financial performance through equity awards, which help to align our executives' interests with those of our stockholders.

Maintain an Independent Process. Compensation should be assessed with independence and objectivity to protect the interests of the business and its stockholders while also providing fair compensation to our executives. An independent committee of our board of directors should be, and is, responsible for reviewing and establishing the compensation for our Chief Executive Officer and Executive Chairman, and for reviewing and approving the compensation recommendations made by our Chief Executive Officer for all of our other named executive officers.

Application of our Philosophy

Our executive compensation and benefit program aims to encourage our management team to continually pursue our strategic opportunities while effectively managing the risks and challenges inherent to our business. Specifically, we

have created an executive compensation package that we believe balances short-term and long-term components, cash and equity elements, and fixed and contingent payments, in ways that are appropriate to incentivize our senior management and reward them for achieving the following goals:

develop a culture that embodies a passion for our business, creative contribution and a drive to achieve established goals and objectives;

provide leadership to the organization in such a way as to maximize the results of our business operations;
lead us by demonstrating forward thinking in the operation, development and expansion of our business;
effectively manage organizational resources to derive the greatest value possible from each dollar invested; and
take strategic advantage of the market opportunity to expand and grow our business.

Our executive compensation structure aims not only to compensate top talent at levels that our board of directors believes are consistent with or more attractive than other opportunities in an executive's marketplace, but also to be fair relative to compensation paid to other professionals within our organization, relative to our short- and long-term performance results and relative to the value we deliver to our stockholders. We seek to maintain a performance-oriented culture with a compensation approach that rewards our executive officers when we achieve our goals and objectives, while putting at risk an appropriate portion of their compensation against the possibility that our goals and objectives may not be achieved. Overall, our approach is designed to relate the compensation of our executive officers to: the achievement of short- and long-term goals and objectives; their willingness to challenge and improve existing policies and structures; and their capability to take advantage of unique opportunities and overcome difficult challenges within our business.

Role of Our Compensation Committee

Our compensation committee approves, administers and interprets our executive compensation and benefit policies, including our 1999 Stock Plan, our 2007 Equity Incentive Plan and our short-term compensation, long-term incentives and benefits programs. Our compensation committee is appointed by our board of directors, and consists entirely of directors who are outside directors for purposes of Section 162(m) of the Internal Revenue Code and non-employee directors for purposes of Rule 16b-3 under the Exchange Act. Our compensation committee is comprised of Messrs. Berman, Henderson and Wilson, and is chaired by Mr. Henderson. Messrs. Berman and Wilson are not standing for re-election at the expiration of their terms at our 2008 annual meeting.

Our compensation committee reviews and approves our executive compensation and benefit program to ensure that it is consistent with our compensation philosophy and corporate governance guidelines. Our compensation committee also is responsible for establishing the executive compensation packages offered to our executive officers.

Prior to our initial public offering in 2007, our compensation committee had not previously conducted formal surveys or analyses of compensation levels in various marketplaces or engaged compensation consultants to do so on our behalf. However, we believe our executives' base salary, target annual bonus levels and long-term incentive award values were set at levels that compensate top talent at levels that our board of directors believed were consistent with or more attractive than other opportunities in an executive's marketplace. This belief is based on the collective experience and knowledge of our board of directors and executive management, as well as an informal review of compensation information gained through marketplace contacts and service providers.

Beginning in December 2007, in addition to utilizing the collective experience and knowledge of our board of directors and executive management and informal reviews of compensation information gained through marketplace contacts and service providers, our compensation committee also selected and directly engaged the services of an independent executive compensation consulting firm, Towers Perrin, to complement the information and guidance provided by our internal resources. No member of the compensation committee or any named executive officer has any affiliation with Towers Perrin. Towers Perrin did not perform any other work for us, and it reported directly to the chairman of the compensation committee.

The compensation committee sought input from Towers Perrin on a range of external market factors, including evolving executive compensation trends. Towers Perrin also provided general observations on our

executive compensation programs, and it provided recommendations as to the amount or form of compensation for our named executive officers.

Based on the collective inputs from these sources, our compensation committee set our executives' base salary, target annual bonus levels and long-term incentive award values at levels for our 2008 fiscal year that we believe will be consistent with or more attractive than other opportunities in an executive's marketplace. As part of their December 2007 study, our compensation committee worked with management to refine our compensation philosophy so that it would target compensation to fall within the 50th percentile range of an identified peer group each of the following compensation categories: executive base salary, target annual bonus levels and long-term incentive awards. The refined compensation philosophy also retains the flexibility of allowing potential cash compensation to fall within the 75th percentile range of the identified peer group for superior performance. In addition, the compensation philosophy employs a long-term incentive program that has as its goal the retention of key employees, the alignment of employee interests with those of stockholders, and adequate simplicity of both comprehension and administration.

The December 2007 study referenced both published compensation survey data of comparably-sized companies and a valuation peer group determined based on inputs from investment banks as well as management input as to companies with whom we compete for executive talent, with median annual revenues of \$100 million. Specifically, the peer group consisted of the following companies: Arbitron Inc., Forrester Research, Inc., Greenfield Online, Inc., Harris Interactive Inc., Ipsos Group S.A., MIVA, Inc., Marchex, Inc., Morningstar, Inc., Omniture, Inc., National Research Corporation, Rainmaker Systems, Inc., Taylor Nelson Sofres plc, Think Partnership Inc., Traffix, Inc., ValueClick, Inc. and Website Pros, Inc.

Our compensation committee has taken the following steps to ensure that our executive compensation and benefit program is consistent with both our compensation philosophy and our corporate governance guidelines:

- regularly reviewed the performance of and the total compensation earned by or awarded to our Chief Executive Officer and Executive Chairman independent of input from them;

- examined on an annual basis the performance of our other named executive officers and other key employees with assistance from our Chief Executive Officer and Executive Chairman, and approved compensation packages that are believed to be consistent with or more attractive than those generally found in the executive's marketplace;

- regularly held executive sessions of compensation committee meetings without management present; and

- engaged an outside compensation consultant beginning in mid-2007 to review our executive compensation practices and provide comparison to other opportunities in the marketplaces for our executives in connection with setting compensation for our 2007 bonus target levels and 2008 fiscal year base salaries and equity-award levels.

Components of our Executive Compensation Program.

Our executive compensation program consists of three components: short-term compensation (including base salary and annual performance bonuses), long-term incentives (including equity awards in the form of stock options, restricted stock units and/or restricted stock awards) and benefits.

Our compensation committee evaluates executive compensation and strives to apply the mix of these components in a manner that implements our philosophy while meeting our objectives to attract and retain top talent using compensation that is consistent with or more attractive than other opportunities while also adjusting for individual

relative performance and responsibilities as well as our business goals. Our compensation committee has no formal policy or target for allocating compensation among the compensation components described above. However, the compensation committee generally assigns a portion of our executives' total compensation to performance-based bonuses and equity compensation, in order to focus our executives on achievements that will enhance stockholder value and based on the results of its December 2007 study.

Short-term Compensation

We utilize short-term compensation, including base salary, annual adjustments to base salary and annual performance bonuses, to motivate and reward our key executives in accordance with our performance-based program. Each individual's short-term compensation components are tied to an annual assessment of his or her progress against established objectives.

Base Salary

Base salary is used to recognize the experience, skills, knowledge and responsibilities required of each executive officer, as well as to reflect market conditions as indicated by reference to the company's peer group. As we considered our executives' compensation for 2007, base salary determinations were guided primarily by our objective to provide compensation at levels to attract and retain top talent. In establishing the 2007 base salaries of the executive officers, our compensation committee and management took into account a number of factors, including the executive's seniority, position and functional role, level of responsibility and, to the extent such individual was employed by us for at least the prior six months, his or her accomplishments against personal and group objectives. In 2007, none of our named executive officers were newly hired. In addition, we consider the market for corresponding positions within comparable geographic areas and industries as well as the state of our business and our cash flows. For newly hired executives, we have historically considered the base salary of the individual at his or her prior employment, any unique personal circumstances that motivated the executive to leave that prior position to join us and the particular role being filled.

The base salary of our executive officer group is reviewed on an annual basis, and adjustments are made to reflect performance-based factors, as well as marketplace conditions and the overall performance of our business. Increases are considered within the context of our overall annual merit increase structure as well as individual and marketplace factors. We do not apply specific formulas to determine increases. Generally, executive officer salaries are adjusted effective the first quarter of each year based on a review of:

their achievement of specific objectives established during the prior review;

an assessment of their professional effectiveness, consisting of a portfolio of competencies that include leadership, commitment, creativity and organizational accomplishment; and

their knowledge, skills and attitude, focusing on capabilities, capacity and the ability to drive results.

Magid M. Abraham, our Chief Executive Officer, periodically reviews the performance of our executive officers on the bases noted above and recommends to the compensation committee any base salary changes or bonuses deemed appropriate.

In late 2007, based on its December 2007 study, our compensation committee approved an increase of the base salaries of our executive officers beginning in our 2008 fiscal year in order to be in line with our company's compensation philosophy of providing executive base salaries at the 50th percentile range of our company's peer group. The changes in base salary for each named executive officer were as follows:

Name and Principal Position	2007 Base Salary	2008 Base Salary(1)	Percentage Increase
Magid M. Abraham, Ph.D.	\$ 325,000	\$ 425,000	30.8%

John M. Green	270,000	302,400	12.0

Gian M. Fulgoni	300,000	375,000	25.0
<i>Executive Chairman of the Board of Directors</i>			
Gregory T. Dale	260,000	275,600	6.0

Christiana L. Lin	200,000	250,000	25.0

Annual Performance Bonuses

Annual performance bonuses for our executive officers are tied to the achievement of our annual company goals and objectives, functional area goals, and/or individual performance objectives. Annual performance bonuses are primarily guided by our objectives of accountability for individual and business performance. We set clearly defined goals for each executive officer, with an emphasis on quantifiable and achievable targets. A portion of each executive officer's bonus is clearly tied to the achievement of specific targets relative to the performance of the particular business segment or functional area for which they are responsible, with the remainder tied to similar targets relative to our overall financial performance. Individual awards under the program are based on a thorough review of the applicable performance results of our company, business, function or individual as compared to the applicable goals.

Target bonuses are set at a percentage of actual full-year salary. Our compensation committee approves these percentages for our executive officers based on a determination of the appropriate portion of total compensation that should be at risk for a particular executive officer. Generally, target bonuses for our most senior executive officers are set at a higher percentage of salary than for our other executive officers, so as to recognize their broader responsibility for company-wide results and to place a greater portion of their total compensation at risk against the achievement of overall goals and objectives. The 2007 target bonus and actual bonus award levels for our executive officers were as follows:

Name and Principal Position	2007 Actual Bonus Level as a % of 2007 Full-Year Salary(1)	2007 Bonus Target Level as a % of 2007 Full-Year Salary
Magid M. Abraham, Ph.D. <i>President, Chief Executive Officer and Director</i>	29%	45%
John M. Green <i>Chief Financial Officer</i>	23	35
Gian M. Fulgoni <i>Executive Chairman of the Board of Directors</i>	29	45
Gregory T. Dale <i>Chief Technology Officer</i>	23	35
Christiana L. Lin <i>General Counsel and Chief Privacy Officer</i>	21	30

(1) Payments were made on February 25, 2008.

In order to further improve our company's retention objectives and alignment of executive compensation with stockholder interests, a portion of each named executive officer's bonus was issued in shares of restricted common stock. The stock-based portion of each named executive officer's bonus represented 25% of each executive's target bonus for 2007. The restricted common stock includes a right of repurchase by the Company that lapses following the one (1) year anniversary of the grant. The grants were based on the dollar amount of the stock-based portion of the bonuses plus a premium of 25% of the stock-based portion of the bonus, made in recognition of delay in receipt of payment and constraints on liquidity due to inherent and regulatory restrictions on trading by insiders. The number of

shares underlying the grants was calculated using the closing price of our common stock as reported on the NASDAQ Global Market on February 25, 2008, the date we paid 2007 bonuses to our named executive officers.

Magid M. Abraham, our Chief Executive Officer, and Gian M. Fulgoni, our Executive Chairman of the Board of Directors, were our only named executive officers that earned annual performance bonuses for the 2007 fiscal year that were tied solely to quantitative factors. Both Dr. Abraham and Mr. Fulgoni's respective bonuses for the 2007 fiscal year, paid in the first quarter of 2008, were based on a combination of total revenue and EBITDA achieved by the Company in 2007. Dr. Abraham earned \$95,317 in bonus for the year ended December 31, 2007, which amount represented 65% of his target bonus of \$146,985. Mr. Fulgoni earned \$88,931 for the year ended December 31, 2007, which amount also represented 65% of his target

bonus of \$136,350. We established these revenue and EBITDA targets such that, if the Company and the officer performed as expected, he will have achieved 50% to 75% of the target bonus.

The annual performance bonuses established for the 2007 fiscal year were based on a mix of quantitative and qualitative factors several of which were the satisfactory completion of specific projects or initiatives. At the end of each fiscal year, each executive officer completes a self-assessment of his or her performance in the context of their bonus criteria. Dr. Abraham reviews these self-assessments and makes a recommendation to our compensation committee on the achievement of the target bonus amounts. Messrs. Green and Dale and Ms. Lin earned 66%, 66% and 69% of their respective target bonus amounts for fiscal year 2007, which amounts were \$62,819, \$59,879 and \$32,775, respectively, and were paid in the first quarter of 2008. Twenty-five percent of the bonus payments made to Messrs. Green and Dale and Ms. Lin were based on our EBITDA achievement in 2007. The remaining 75% of the bonus payments made to Messrs. Green and Dale and Ms. Lin, were not driven by formulas. Instead, targets were based on qualitative factors, such as preparation for our initial public offering, development of new technology or expansion into new markets.

Based on its review of its December 2007 study, our compensation committee also approved a change to bonus targets for 2008 fiscal year bonuses so that the target bonus in conjunction with the salary compensation would be in line with our compensation philosophy of falling within the 50th percentile range of our company's peer group. The bonus targets for each executive for the 2008 fiscal year bonuses were as follows:

Name and Principal Position	2008 Bonus Target Level as a % of 2008 Full-Year Salary
Magid M. Abraham, Ph.D. <i>President, Chief Executive Officer and Director</i>	80%
John M. Green <i>Chief Financial Officer</i>	50
Gian M. Fulgoni <i>Executive Chairman of the Board of Directors</i>	80
Gregory T. Dale <i>Chief Technology Officer</i>	35
Christiana L. Lin <i>General Counsel and Chief Privacy Officer</i>	35

Long-term Compensation

Long-term equity based incentives are primarily guided by our objective of aligning executive compensation with the interests of our stockholders. Grants of stock options, restricted stock units and restricted stock made to executive officers are designed to provide them with incentive to execute their responsibilities in such a way as to generate long-term benefit to us and our stockholders. Through possession of stock options, restricted stock units and shares of restricted stock, our executives participate in the long-term results of their efforts, whether by appreciation of our company's value or the impact of business setbacks, either company-specific or industry based. Additionally, stock options, restricted stock units and shares of restricted stock provide a means of ensuring the retention of key executives, in that they are in almost all cases subject to vesting over an extended period of time.

Stock options, restricted stock units and shares of restricted stock are granted periodically, and are typically subject to vesting based on the executive's continued employment. Most of these grants vest evenly over four years, beginning on the date of the grant. In addition to time-based vesting, a portion of certain options granted to Dr. Abraham and Mr. Fulgoni in December 2003 vested according to defined EBITDA, Net Income and Revenue performance milestones, rather than based solely on length of service. However, all such performance milestones have been achieved as of December 31, 2007, with the final milestones having been met during 2007. Other than the granting of these options in December 2003, we have not used performance milestone-based vesting for any of our employees.

Prior to 2007, our long-term compensation equity grants consisted solely of stock options granted by our board of directors based upon the recommendations of our compensation committee. Prior to the pricing of our initial public offering on June 26, 2007, the exercise price of options was determined by our board of directors after taking into account a variety of factors, including the quality and growth of our management team and specific and general market comparables within our industry. In addition, our board of directors took into account the valuation opinion of an outside consultant, who provided valuations of our common stock at periodic intervals, and often at times when significant grants were expected to be made. Beginning in 2007, we began to use shares of restricted common stock as a form of long-term compensation. Such grants have been made by our board of directors upon the recommendations of our compensation committee. Prior to the pricing of our initial public offering on June 26, 2007, the value of our restricted stock was determined by our board of directors after taking into account a variety of factors, including the quality and growth of our management team and specific and general market comparables within our industry. We expect to continue to predominantly use restricted stock awards in favor of stock options as a form of long-term, stock-based compensation in the foreseeable future. Following our initial public offering on June 26, 2007, the value of restricted stock has been based on the closing price of our common stock as reported by the NASDAQ Global Market on the date of the grant.

Historically, upon joining us, each executive was granted an initial option award that was primarily based on competitive conditions applicable to the executive's specific position. After our initial public offering, upon joining us, each executive is granted an initial restricted stock award that is primarily based on competitive conditions applicable to the executive's specific position. In addition, the compensation committee considers the number of shares subject to options or shares of restricted stock owned by other executives in comparable positions within our company when determining the number of shares to grant to each executive, as well as the number of shares that remain unvested. Based upon the findings of the December 2007 study conducted by our compensation committee, we believe this strategy is consistent with the approach of our peer group and, in our compensation committee's view, is appropriate for aligning the interests of our executives with those of our stockholders over the long term.

Periodic awards to executive officers are made based on an assessment of their sustained performance over time, their ability to impact results that drive value to our stockholders and their organization level. Equity awards are not granted automatically to our executives on an annual basis. Magid M. Abraham, our Chief Executive Officer, periodically reviews the performance of our executive officers on the basis noted above and recommends to the compensation committee any equity awards deemed appropriate. The compensation committee reviews any such recommendations and presents them to our board of directors for approval, if appropriate.

Based upon the recommendations of our compensation committee our board of directors granted 242,000 shares of restricted common stock to our named executive officers during 2007. These grants were generally made during regularly scheduled board meetings. Additionally, in connection with its December 2007 study, our compensation committee approved guidelines for restricted stock awards to be granted in the first quarter of 2008 based on each executive's respective 2007 base salary as well as the number of shares that remain unvested. The target percentages for each executive are as follows:

Name and Principal Position	Restricted Stock Award Value as a % of Base Salary
Magid M. Abraham, Ph.D. <i>President, Chief Executive Officer and Director</i>	200%
John M. Green <i>Chief Financial Officer</i>	100

Gian M. Fulgoni	150
<i>Executive Chairman of the Board of Directors</i>	
Gregory T. Dale	60
<i>Chief Technology Officer</i>	
Christiana L. Lin	50
<i>General Counsel and Chief Privacy Officer</i>	

On February 18, 2008, our compensation committee approved specific restricted common stock awards for our executives using the targets established as part of its December 2007 study, as well as factors such as the number of unvested shares remaining from option grants previously awarded to the executive and the amount of restricted common stock awarded to an executive that remains subject to a right of repurchase. The 2008 restricted common stock awards made to our executive officers are as follows:

Name and Principal Position	2008 Restricted Stock Award(1)
Magid M. Abraham, Ph.D. <i>President, Chief Executive Officer and Director</i>	37,594
John M. Green <i>Chief Financial Officer</i>	26,749
Gian M. Fulgoni <i>Executive Chairman of the Board of Directors</i>	24,878
Gregory T. Dale <i>Chief Technology Officer</i>	8,846
Christiana L. Lin <i>General Counsel and Chief Privacy Officer</i>	8,846

Benefits and Perquisites

We provide the following benefits to our executive officers on the same basis as the benefits provided to all our employees:

health and dental insurance;

life insurance;

short-and long-term disability; and

401(k) plan.

These benefits are consistent with those offered by other companies and specifically with those companies with which we compete for employees.

In general, we do not view perquisites as a significant component of our executive compensation structure. However, the compensation committee has the authority to approve perquisites, primarily for retention purposes or to accommodate specific, and usually temporary, circumstances of executives who do not reside near their work locations.

Total Compensation

We intend to continue our strategy of compensating our named executive officers at levels consistent with or more attractive than other opportunities for each type of executive, with the opportunity to impact their total annual compensation through performance-based incentive programs that include both cash and equity elements. Our approach to total executive compensation is designed to drive results that maximize our financial performance and deliver value to our stockholders. In light of our compensation philosophy, we believe that the total compensation package for our executives should continue to consist of base salary, annual cash performance bonus and long-term equity-based incentives, reflecting our key compensation principles of compensation to attract and retain top talent, accountability for individual and business performance, and alignment with stockholder interests, respectively. We do not consider benefits to be a key element in attracting executive officers, and we typically offer largely the same benefits to our executive officers as to our other employees. Historically, we have typically offered a combination of short-term and long-term compensation to suit our executives' preferences. Certain of our executives who joined us earlier in our history preferred to accept more long-term compensation in the form of stock options, as the potential return was

higher at that stage and our ability to fund short-term cash compensation was more limited. At the same time, certain of our executives have preferred greater short-term compensation and reduced long-term compensation. As we have become more profitable and our common stock has become publicly traded, our ability to attract executives through short-term compensation has increased. Accordingly, we expect that our decisions regarding the relationship among our elements of compensation will become less dependent upon our stage as a growing company and more dependent upon our key compensation principles.

Evolution of our Compensation Approach

Our compensation approach is necessarily tied to our stage of development as a company. Accordingly, the specific direction, emphasis and components of our executive compensation program will continue to evolve as our company and its underlying business strategy continue to grow and develop. For example, we have reduced our executive compensation program's emphasis on stock options as a long-term incentive component in favor of other forms of equity compensation such as restricted stock awards. Similarly, we continue to revise how we measure senior executive performance to take into account the unique requirements of being a public company, including, but not limited to, strict compliance with the standards of the Sarbanes Oxley Act. In addition, we undertook the study in December 2007, to assist our compensation committee in continuing to evolve our executive compensation program, and we may look to programs implemented by comparable public companies in refining our compensation approach.

Employment Agreements and Potential Payments upon Termination or Change-In-Control

We currently do not have an employment agreement with any of our named executive officers. We have offer letter agreements with Gregory T. Dale, our Chief Technology Officer, Christiana L. Lin, our General Counsel and Chief Privacy Officer, and John M. Green, our Chief Financial Officer. We do not have offer letter agreements or employment agreements with Magid M. Abraham, our President and Chief Executive Officer, or Gian M. Fulgoni, our Executive Chairman of the Board of Directors.

In September 1999, we entered into an offer letter agreement with Gregory T. Dale. The letter agreement set forth Mr. Dale's base salary of \$105,000 per year, an annual performance bonus of up to 15% of Mr. Dale's base salary and a grant of options for the purchase of 50,000 shares of our common stock. Mr. Dale's current annual base salary is \$275,600. Mr. Dale is entitled to receive all normal benefits provided to our employees including health insurance and three weeks paid vacation. In December 1999, Mr. Dale was granted a stock option to purchase an aggregate of 55,000 shares of our common stock at an exercise price of \$0.50 per share pursuant to this agreement. The shares subject to the options vested over the next four years in equal monthly installments.

In December 2003, we entered into an offer letter agreement with Christiana L. Lin. The letter agreement set forth Ms. Lin's base salary of \$106,000 per year. Ms. Lin's current annual base salary is \$250,000. Ms. Lin is entitled to receive all normal benefits provided to our employees including health insurance and twelve days paid vacation. The offer letter agreement provides that our employment relationship with Ms. Lin's employment is at will, and we or Ms. Lin may terminate the relationship at anytime.

In May 2006, we entered into an offer letter agreement with John M. Green. The letter agreement set forth Mr. Green's base salary of \$250,000 per year, an annual performance bonus of up to 30% of Mr. Green's base salary and a grant of options for the purchase of 130,000 shares of our common stock. Mr. Green's current annual base salary is \$302,400. In May 2006, Mr. Green was granted a stock option to purchase an aggregate of 130,000 shares of our common stock at an exercise price of \$7.50 per share pursuant to this agreement. The shares subject to the options vest over the four years following the start of Mr. Green's employment in equal monthly installments. Upon a change of control, if Mr. Green loses his position as Chief Financial Officer or is not provided an equivalent position, any remaining unvested shares under this option shall fully vest. Also, upon a change of control, if Mr. Green is provided with an alternative but diminished position, the lesser of either (i) any remaining unvested shares under this option or (ii) 32,500 shares under

this option shall fully vest. The offer letter agreement provides that we may terminate Mr. Green's employment at any time with or without cause. In the event we terminate Mr. Green without cause, Mr. Green is entitled to severance for six pay periods. If we terminate his employment or he resigns, he is entitled to receive any unpaid prorated base salary along with all benefits and expense reimbursements to which he is entitled by virtue of his past employment with us.

If Mr. Green is terminated by us without cause, he will receive a severance payment of \$57,692.40. Other than the severance payment to Mr. Green, our named executive officers are not otherwise entitled to additional payments or benefits upon a change in control or termination of their respective employment.

Upon a change of control, the options held by Mr. Green at December 31, 2007 would immediately vest as indicated in the table below. Furthermore, assuming a fair market value of our common stock of \$32.63 per share, which represents the closing market price of our common stock as reported on the Nasdaq Global Market on December 31, 2007, Mr. Green would obtain an immediate increase in the value of his option holdings as indicated in the table below.

Name	Stock Option Shares Vesting Upon a Change of Control if Mr. Green Loses His Position as Chief Financial Officer or is Not Provided an Equivalent Position	Exercise Price	Increase in Fair Value
John M. Green <i>Chief Financial Officer</i>	97,500	\$ 7.50	\$ 2,450,175

Name	Stock Option Shares Vesting Upon a Change of Control and Mr. Green is Provided with an Alternative but Diminished Position	Exercise Price	Increase in Fair Value
John M. Green <i>Chief Financial Officer</i>	32,500	\$ 7.50	\$ 816,725

Additionally, certain shares of the restricted common stock held by Dr. Abraham, Mr. Fulgoni and Mr. Green at December 31, 2007 for which the Company has a right of repurchase are subject to single trigger acceleration, which results in the repurchase right fully lapsing upon the occurrence of a change of control event. In general terms, the restricted stock agreements for Dr. Abraham, Mr. Fulgoni and Mr. Green define a change of control event as an acquisition of at least 50% of the voting control of the Company, a sale or merger of the Company or the sale of substantially all the assets of the Company.

Name	Restricted Common Stock Shares Vesting Upon a Change of Control
Magid M. Abraham, Ph.D. <i>President, Chief Executive Officer and Director</i>	100,000
John M. Green <i>Chief Financial Officer</i>	30,000
Gian M. Fulgoni <i>Executive Chairman of the Board of Directors</i>	75,000

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires that certain of our executive officers and directors, and persons who own more than 10% of a registered class of our equity securities, file reports of ownership and changes in ownership (Forms 3, 4 and 5) with the Securities and Exchange Commission. Such executive officers, directors and greater than 10% holders are required to furnish us with copies of all of these forms that they file. Certain executives of our company hold a power of attorney to enable such individuals to file ownership and change in ownership forms on behalf of the reporting persons.

Based solely on our review of these reports or written representations from certain reporting persons, we believe that during 2007, all filing requirements applicable to our officers, directors, greater-than-10% beneficial owners and other persons subject to Section 16(a) of the Exchange Act were met.
