### ZIX CORPORATION

We are a development-stage company and currently have no significant revenues. Since January 1999, we have been developing and marketing products and services that bring privacy, security and convenience to Internet users. We were incorporated in Texas in 1988. Our executive offices are located at 2711 North Haskell Avenue, Suite 2300, LB 36, Dallas, Texas 75204-2960, and our telephone number is (214) 370-2000. Our Web site address is [www.zixcorp.com](http://www.zixcorp.com). Information contained on our Web site is not a part of this prospectus. In this prospectus, "we," "us," "our," "Zix" and "ZixCorp" refer to Zix Corporation and its subsidiaries unless the context otherwise requires.

### RISK FACTORS

Before investing in our common stock offered by this prospectus, you should carefully consider the following risks and uncertainties, in addition to the other information contained or incorporated by reference in this prospectus. Also, you should be aware that the risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties that we do not yet know of or that we currently think are immaterial may also impair our business operations. If any of those risks or uncertainties or any of the risks and uncertainties described below actually occur, our business, financial condition, prospects or results of operations could be materially and adversely affected. In that case, the trading price of the common stock offered in this prospectus could decline, and you may lose all or part of your investment.

AS A DEVELOPMENT-STAGE COMPANY, WE HAVE NO SIGNIFICANT REVENUES, AND WE CONTINUE TO USE SIGNIFICANT AMOUNTS OF CASH.

During 1998, we sold all of our operating businesses and, since 1999, we have been developing and marketing products and services that bring privacy, security and convenience to Internet users. Successful development of a development-stage enterprise, particularly Internet-related businesses, is costly and highly competitive. A development-stage enterprise involves risks and uncertainties, and there are no assurances that we will be successful in our efforts. We currently have no significant revenues and utilization of cash resources continues at a substantial level.

THE MARKET MAY NOT BROADLY ACCEPT OUR PRODUCTS AND SERVICES, WHICH WOULD PREVENT US FROM OPERATING PROFITABLY.

## Edgar Filing: ZIX CORP - Form S-3

We must be able to achieve broad market acceptance for our products and services in order to operate profitably. We have not yet been able to do this. To our knowledge, there are currently no secure Internet communications businesses similar to ours, that currently operate at the scale that we would require, at our current expenditure levels and proposed pricing, to become profitable. There is no assurance that our products and services will become generally accepted or that they will be compatible with any standards that become generally accepted, nor is there any assurance that enough paying users will ultimately be obtained to enable us to operate profitably.

1

THOUGH WE HAVE ESTABLISHED STRATEGIC AND COLLABORATIVE RELATIONSHIPS WITH SEVERAL STRATEGIC MARKETING PARTNERS, WE HAVE NOT REALIZED SIGNIFICANT REVENUES FROM THESE RELATIONSHIPS AND MAY NOT IN THE FUTURE.

One of our primary business strategies has been to enter into strategic or other similar collaborative relationships to reach a larger customer base than we can reach through our direct sales and marketing efforts. To date, these strategic and collaborative business relationships have not yielded any significant revenues.

Assuming we are successful in entering into business relationships that yield revenues, we will want to maintain these relationships and enter into additional relationships to successfully execute our business plan. If we are unable to do so, we will have to devote substantially more resources to the distribution, sale and marketing of our products and services than we would otherwise.

Furthermore, our ability to achieve future growth will also depend on our ability to continue to establish direct seller channels and to develop multiple distribution channels. Failure to enter into productive reseller arrangements could harm our business.

COMPETITION IN THE SECURE E-MESSAGING DELIVERY BUSINESS IS EXPECTED TO INCREASE, WHICH COULD CAUSE OUR BUSINESS TO FAIL.

Our solutions are targeted to the secure e-messaging delivery services market. Although there are many large, well-funded participants in the information technology (IT) security industry, none currently participate in the secure e-messaging delivery services market. Our primary competitors in this market are Tumbleweed Communications, Sigaba Corporation, Authentica, PostX and CertifiedMail.com. We believe that the secure e-messaging delivery service market is immature, and, for the most part, unpenetrated, unlike many segments of the IT security industry - which are saturated. After several years of infrastructure development and product development, we believe that we are the only provider that has made the investments necessary to successfully penetrate the relatively untapped secure e-messaging delivery services market. We do not believe that our primary competitors have made the infrastructure and development investments required to match our service offerings. Nevertheless, others may, over time, make the necessary investments in infrastructure and service offerings. These competitors may develop new technologies that are perceived as being more secure, effective or cost efficient than our own. If we are not successful in exploiting the technology advantage we believe we currently hold, these competitors could successfully garner a significant share of the market, to the exclusion of ZixCorp. Furthermore, increased competition could result in pricing pressures, reduced margins or the failure of our business to achieve or maintain market acceptance, any of which could harm our business.

## Edgar Filing: ZIX CORP - Form S-3

OUR INABILITY TO DEVELOP AND INTRODUCE NEW SECURE E-MESSAGING PRODUCTS AND RELATED SERVICES AND TO IMPLEMENT TECHNOLOGICAL CHANGES COULD HARM OUR BUSINESS.

The emerging nature of the Internet and the secure Internet e-messaging business and their rapid evolution, require us continually to develop and introduce new products and services and to improve the performance, features and reliability of our existing products and services,

2

particularly in response to competitive offerings. To date, we have achieved no significant revenues from the sale of any of our products and related services.

We also have under development new feature sets for our current product line and are considering new secure e-messaging products. The success of new or enhanced products and services depends on several factors - primarily, market acceptance. We may not succeed in developing and marketing new or enhanced products and services that respond to competitive and technological developments and changing customer needs. This could harm our business.

IF THE MARKET FOR SECURE INTERNET E-MESSAGING DOES NOT CONTINUE TO GROW, DEMAND FOR OUR PRODUCTS AND SERVICES WILL BE ADVERSELY AFFECTED.

The market for secure Internet e-messaging is at an early stage of development. Continued growth of the secure Internet e-messaging market will depend to a large extent on the public recognizing the potential threat posed by computer hackers and other unauthorized users. Failure of the secure e-messaging market to grow could reduce demand for our products and services, which would harm our business.

CAPACITY LIMITS ON OUR TECHNOLOGY AND NETWORK HARDWARE AND SOFTWARE MAY BE DIFFICULT TO PROJECT, AND WE MAY NOT BE ABLE TO EXPAND AND UPGRADE OUR SYSTEMS TO MEET INCREASED USE, WHICH WOULD RESULT IN REDUCED REVENUES.

While we have ample through-put capacity to handle our customers' requirements for the medium term, at some point we may be required to expand and upgrade our technology and network hardware and software. We may not be able to accurately project the rate of increase in usage on our network. In addition, we may not be able to expand and upgrade, in a timely manner, our systems and network hardware and software capabilities to accommodate increased traffic on our network. If we do not timely and appropriately expand and upgrade our systems and network hardware and software, we may lose customers and revenues.

SECURITY INTERRUPTIONS TO OUR SECURE DATA CENTER COULD DISRUPT OUR BUSINESS, AND ANY SECURITY BREACHES COULD EXPOSE US TO LIABILITY AND NEGATIVELY IMPACT CUSTOMER DEMAND FOR OUR PRODUCTS AND SERVICES.

Our business depends on the uninterrupted operation of our secure data center. We must protect this center from loss, damage or interruption caused by fire, power loss, telecommunications failure or other events beyond our control. Any damage or failure that causes interruptions in our secure data center operations could materially harm our business, financial condition and results of operations.

In addition, our ability to issue digitally-signed certified time-stamps and public encryption codes in connection with our products and services depends on the efficient operation of the Internet connections between

## Edgar Filing: ZIX CORP - Form S-3

customers and our data center. We depend on Internet service providers efficiently operating these connections. These providers have experienced periodic operational problems or outages in the past. Any of these problems or outages could adversely affect customer satisfaction.

3

Furthermore, it is critical that our facilities and infrastructure remain secure and the market perceives them to be secure. Despite our implementation of network security measures, our infrastructure may be vulnerable to physical break-ins, computer viruses, attacks by hackers and similar disruptions from unauthorized tampering with our computer systems. In addition, we are vulnerable to coordinated attempts to overload our systems with data, resulting in denial or reduction of service to some or all of our users for a period of time. We do not carry insurance to compensate us for losses that may occur as a result of any of these events; therefore, it is possible that we may have to use additional resources to address these problems.

Messages sent through our ZixMail.net(TM) message portal will reside, for a user-specified period of time, in our data center facilities. Also, since we receive certain payments online for our ZixMail(TM) service, certain confidential customer information is retained in our data center facilities. Any physical or electronic break-ins or other security breaches or compromises of this information could expose us to significant liability, and customers could be reluctant to use our Internet-related products and services.

As was previously announced, we determined in June 2001 that credit card databases at our independently operated subsidiary, Anacom Communications, Inc. (we refer to it as "Anacom"), had been improperly accessed. As a result of this improper access, we shut down the Anacom operations and Anacom ceased doing business. The ZixMail and ZixMail.net systems and our secure data center operations were entirely separate from the systems operated by Anacom. No ZixCorp technologies or operations were involved in the incident, nor are the Anacom technologies involved being used in our "Zix" family of secure e-messaging products and services. Accordingly, we do not anticipate that this breach will have any effect on the development and deployment of our secure e-messaging products and related services. Although no claims have been asserted against us with respect to this incident to date, claims could be asserted in the future. We are unable to assess the amount of the liability, if any, to Anacom or us, which may result from any claims that may be asserted.

WE MAY HAVE TO DEFEND OUR RIGHTS IN INTELLECTUAL PROPERTY THAT WE USE IN OUR PRODUCTS AND SERVICES, WHICH COULD BE DISRUPTIVE AND EXPENSIVE TO OUR BUSINESS.

We may have to defend our intellectual property rights or defend against claims that we are infringing the rights of others. Intellectual property litigation and controversies are disruptive and expensive. Infringement claims could require us to develop non-infringing products or enter into royalty or licensing arrangements. Royalty or licensing arrangements, if required, may not be obtainable on terms acceptable to us. Our business could be significantly harmed if we are not able to develop or license the necessary technology. Furthermore, it is possible that others may independently develop substantially equivalent intellectual property, thus enabling them to effectively compete against us.

OUR PRODUCTS AND SERVICES COULD CONTAIN UNKNOWN DEFECTS OR ERRORS.

We subject our products and services to quality assurance testing prior to product release. To date, we have not become aware after product release of

## Edgar Filing: ZIX CORP - Form S-3

any defect or error that materially affects their functionality. Nevertheless, our products and services could contain undetected defects or errors. This could result in loss of or delay in revenues, failure to achieve market acceptance, diversion of development resources, injury to our reputation, litigation claims,

4

increased insurance costs or increased service and warranty costs. Any of these could prevent us from implementing our business model and achieving the revenues we need to operate profitably.

### PUBLIC KEY CRYPTOGRAPHY TECHNOLOGY IS SUBJECT TO RISKS.

Our products and services employ, and future products and services may employ, public key cryptography technology. With public key cryptography technology, a user has a public key and a private key, which are used to encrypt and decrypt messages. The security afforded by this technology depends, in large measure, on the integrity of a user's private key, which is dependent, in part, on the application of certain mathematical principles. The integrity of a user's private key is predicated on the assumption that it is difficult to mathematically derive a user's private key from the user's related public key. Should methods be developed that make it easier to derive a user's private key, the security of encryption products using public key cryptography technology would be reduced or eliminated and such products could become unmarketable. This could require us to make significant changes to our products, which could damage our reputation and otherwise hurt our business. Moreover, there have been public reports of the successful decryption of certain encrypted messages. This, or related, publicity could adversely affect public perception of the security afforded by public key cryptography technology, which could harm our business.

### WE DEPEND ON KEY PERSONNEL.

We depend on the performance of our senior management team - including our chairman, president and chief executive officer, John A. Ryan, and his direct reports and other key employees, particularly highly skilled technical personnel. Our success also depends on our ability to attract, retain and motivate these individuals. There is competition for these personnel, and we face a tight employment market for the particular individuals we need to attract. Other than Mr. Ryan, none of our employees have employment contracts with us nor are there any agreements with members of our senior management team or other key employees that prevent them from leaving ZixCorp at any time. In addition, we do not maintain key person life insurance for any of our personnel. The loss of the services of any of our key employees or our failure to attract, retain and motivate key employees could harm our business.

### WE COULD BE AFFECTED BY GOVERNMENT REGULATIONS.

Exports of software products using encryption technology are generally restricted by the United States (we refer to it as the "U.S.") government. Although we have obtained U.S. government approval to export our ZixMail product to almost all countries in the world, the list of countries to which ZixMail cannot be exported could be revised in the future. Furthermore, some foreign countries impose restrictions on the use of encryption products, such as the ZixMail product. Failure to obtain the required governmental approvals would preclude the sale or use of the ZixMail product in international markets.

### OUR STOCK PRICE MAY BE VOLATILE.

The market price of our common stock has fluctuated significantly in the past and is likely to fluctuate in the future. Also, the market prices of

## Edgar Filing: ZIX CORP - Form S-3

securities of other Internet-related

5

companies have been highly volatile and, as is well known, have generally declined substantially and broadly.

FURTHER ISSUANCES OF EQUITY SECURITIES MAY BE DILUTIVE TO CURRENT SHAREHOLDERS.

We recently completed a capital funding for \$16,000,000 through the issuance of \$8,000,000 of notes and associated warrants, \$3,250,000 of Series A Convertible Preferred Stock and associated warrants and \$4,750,000 of Series B Convertible Preferred Stock and associated warrants. At the current conversion rates, these securities are convertible and exercisable, in the aggregate, into 5,235,168 shares of our common stock (excluding accrued interest and dividends). Furthermore, at some point in the foreseeable future we may determine to seek additional capital funding. This capital funding could involve one or more types of equity securities, including convertible debt, common or convertible preferred stock and warrants to acquire common or preferred stock. Such equity securities could be issued at or below the then-prevailing market price for our common stock. In addition, we incentivize employees and attract new employees by issuing options to purchase our shares of common stock. The interest of our existing shareholders could be diluted by stock option issuances to employees and any equity securities issued in a capital funding financing. Moreover, we currently have on file registration statements covering the resale of securities held by existing holders of our common stock, holders of warrants or options to purchase shares of our common stock and the resale of the common stock underlying the Series A Convertible Preferred Stock, Series B Convertible Preferred Stock, secured convertible notes and associated warrants.

TERRORIST ATTACKS HAVE CONTRIBUTED TO ECONOMIC INSTABILITY IN THE U.S.; CONTINUED TERRORIST ATTACKS, WAR OR OTHER CIVIL DISTURBANCES COULD LEAD TO FURTHER ECONOMIC INSTABILITY AND DEPRESS OUR STOCK PRICE.

On September 11, 2001, the U.S. was the target of terrorist attacks of unprecedented scope. These attacks caused instability in the global financial markets and contributed to volatility in the stock prices of U.S. publicly-traded companies. These attacks may lead to armed hostilities or to further acts of terrorism and civil disturbances in the U.S. or elsewhere, which may further contribute to economic instability in the U.S. and could harm our business.

WE MAY HAVE LIABILITY FOR INDEMNIFICATION CLAIMS ARISING FROM THE SALE OF OUR PREVIOUS BUSINESSES IN 1998 AND 1997.

We disposed of our previous operating businesses in 1998 and 1997. In selling those businesses, we agreed to provide customary indemnification to the purchasers of those businesses for breaches of representations and warranties, covenants and other specified matters. Although we believe that we have adequately provided for future costs associated with these indemnification obligations, indemnifiable claims could exceed our estimates.

OUR DIRECTORS AND EXECUTIVE OFFICERS OWN A SUBSTANTIAL PERCENTAGE OF OUR SECURITIES. THEIR OWNERSHIP COULD ALLOW THEM TO EXERCISE SIGNIFICANT CONTROL OVER CORPORATE DECISIONS AND TO IMPLEMENT CORPORATE ACTS THAT ARE NOT IN THE BEST INTERESTS OF OUR SHAREHOLDERS AS A GROUP.

Our directors and executive officers beneficially own shares of our

## Edgar Filing: ZIX CORP - Form S-3

securities that represent approximately 19.9% of the combined voting power eligible to vote on matters brought

6

before our shareholders, including the Series A Convertible Preferred Stock and associated warrants acquired by Antonio R. Sanchez, Jr., a director and current beneficial owner of 12.3% of our outstanding common stock and John A. Ryan, our chairman, president and chief executive officer. The Series A Convertible Preferred Stock requires us to obtain the consent of the holders of the Series A Convertible Preferred Stock, voting separately as a class, before we may enter into mergers or other business combination transactions. Therefore, our directors and executive officers, if they acted together, could exert substantial influence over matters requiring approval by our shareholders. These matters would include the election of directors and, as noted above, the approval of mergers or other business combination transactions. This concentration of ownership and voting power may discourage or prevent someone from acquiring our business.

A PRIVATE INVESTOR OWNS A LARGE PERCENTAGE OF OUR OUTSTANDING STOCK AND COULD SIGNIFICANTLY INFLUENCE THE OUTCOME OF ACTIONS.

George W. Haywood, a private investor, beneficially owns approximately 25.4% of our outstanding common stock. Furthermore, it is important to note that Mr. Haywood acquired shares of our Series B Convertible Preferred Stock. Mr. Haywood's Series B Convertible Preferred Stock shares are only currently convertible into 388,366 shares of our common stock. This limitation was required in order for us to comply with certain Nasdaq Marketplace Rules (see below under "We must comply with the listing requirements of Nasdaq or our common stock and liquidity will decline."). In the absence of this Nasdaq limitation, Mr. Haywood's Series B Convertible Preferred Stock would be convertible into 902,579 shares of our common stock, and assuming our shareholders vote to remove this limitation, his preferred stock will be convertible into this amount of our shares of common stock. Furthermore, Mr. Haywood holds warrants, which are convertible, beginning March 18, 2003, into 305,986 shares of our common stock. Under applicable state law, the consent of the holders of the Series B Convertible Preferred Stock, voting separately as a class, is required before we may enter into mergers or other business combination transactions. Because of his large percentage ownership, Mr. Haywood could significantly influence all matters requiring approval by our shareholders, including the election of directors and, as noted above, the approval of mergers or other business combination transactions. Mr. Haywood's interests may not be aligned with the interests of our other shareholders.

OUR ISSUANCE OF THE PREFERRED STOCK, NOTES AND ASSOCIATED WARRANTS COULD DILUTE THE INTERESTS OF OUR SHAREHOLDERS.

One-ninth of the shares of Series A Convertible Preferred Stock and Series B Convertible Preferred Stock are to be redeemed at two-month intervals beginning eight months after issuance. The redemption amounts payable to the holders of Series A Convertible Preferred Stock and Series B Convertible Preferred Stock are paid in shares of our common stock.

If the approval of our common shareholders is obtained, the value of the common stock used to determine the number of shares of common stock to be issued upon redemption of shares of Series A Convertible Preferred Stock at the final redemption date (that is, two years after issuance) will be the lesser of \$3.92 per share and the market value of the common stock at the time of redemption, based on a closing bid price average formula. If the market price of

## Edgar Filing: ZIX CORP - Form S-3

the common stock declines, the number of shares of common stock issuable to the holders of Series

7

A Convertible Preferred Stock upon such final redemption will increase, perhaps substantially. There is no "floor" on the market value calculation and, therefore, there is no "ceiling" on the number of shares of common stock that may be issuable by us upon the final Series A Convertible Preferred Stock redemption. A substantial decline in the market price of the common stock would result in significant dilution to the existing holders of common stock if the Series A Convertible Preferred Stock shares are redeemed at a substantially lower price. This effect will be magnified if one or more interim redemption amounts is deferred to the final redemption date.

The value of the common stock used to determine the number of shares of common stock to be issued upon redemption of shares of Series B Convertible Preferred Stock will be the lesser of the Series B Conversion Price and 90% of the market value of the common stock at the time of redemption, based on a volume-weighted average formula. If the market price of the common stock declines, the number of shares of common stock issuable to the holders of Series B Convertible Preferred Stock upon such automatic redemptions will increase, perhaps substantially. There is no "floor" on the market value calculation and, therefore, there is no "ceiling" on the number of shares of common stock that may be issuable by us upon a Series B Convertible Preferred Stock redemption. A substantial decline in the market price of the common stock would result in significant dilution to the existing holders of common stock if the Series B Convertible Preferred Stock shares are redeemed at a substantially lower price.

The Series A Convertible Preferred Stock, the Series B Convertible Preferred Stock and the notes are convertible by the holders into shares of common stock at any time. The Series A Conversion Price is initially \$4.12 per share, the Series B Conversion Price is initially \$3.78 per share and the Note Conversion Price is initially \$3.78 per share. The conversion prices could be lowered, perhaps substantially, in a variety of circumstances. In the event we issue, or are deemed to have issued, shares of common stock at a price per share that is less than the conversion prices then in effect (other than certain specified exempt issuances), the conversion prices and the number of shares issuable upon conversion of the Series A Convertible Preferred Stock and the Series B Convertible Preferred Stock are subject to weighted average anti-dilution adjustment, and the conversion prices and number of shares issuable upon conversion of the notes are subject to full anti-dilution adjustment. The anti-dilution adjustments applicable to the shares of Series B Convertible Preferred Stock, the notes and, following the approval of our common shareholders, the shares of Series A Convertible Preferred Stock do (or would) not have a "floor" that would limit reductions in the conversion price of such shares and notes that may occur under certain circumstances. Correspondingly, there is no "ceiling" on the number of shares of common stock that may be issuable, under certain circumstances, following such anti-dilution adjustments.

We issued four-year warrants (first exercisable six months after issue) to the purchasers of Series A Convertible Preferred Stock and Series B Convertible Preferred Stock entitling the warrant holders to purchase an aggregate of 709,528 shares of common stock at an exercise price of \$4.51 per share. The exercise price of these warrants is subject to weighted average anti-dilution adjustment in the event we issue, or are deemed to have issued, shares of common stock at a price per share that is less than the exercise price then in effect (other than certain specified exempt issuances). The "floor" on such anti-dilution adjustments is set at \$3.92 per share.

## Edgar Filing: ZIX CORP - Form S-3

We issued three-year warrants to the holders of the notes entitling the warrant holders to purchase an aggregate of 386,473 shares of common stock at an exercise price of \$4.14 per

8

share. The number of shares of common stock for which these warrants are exercisable and the exercise price of these warrants are subject to full anti-dilution adjustment in the event we issue, or are deemed to have issued, shares of common stock at a price per share that is less than the exercise price then in effect (other than certain specified exempt issuances). The anti-dilution adjustments applicable to these warrants do not have a "floor" that would limit reductions in the exercise price of such shares that may occur under certain circumstances, and there is no "ceiling" on the number of shares of common stock that may be issuable, under certain circumstances, following such anti-dilution adjustments.

The number of shares of common stock that may be issued by us upon the conversion or redemption of the shares of Series A Convertible Preferred Stock and Series B Convertible Preferred Stock, the conversion of the notes and the exercise of the warrants issued to the purchasers of the notes may not exceed 3,623,856 prior to the approval of our common shareholders. Assuming we receive the approval of our common shareholders, there will be no limitation on the aggregate number of shares of common stock that may be issuable upon the conversion, redemption or exercise of these securities. Based on the initial conversion and exercise prices, which are, as described above, subject to adjustment, the shares of Series A Convertible Preferred Stock and Series B Convertible Preferred Stock, the notes and all of the warrants issued in the transactions are convertible, redeemable and/or exercisable for an aggregate of 5,235,168 shares of common stock (28.7% of our current outstanding common stock as of September 30, 2002). Notwithstanding the foregoing, no holder of the notes or the associated warrants is entitled to convert the notes or exercise the associated warrants to the extent that such conversion or exercise would result in such person and its affiliates being the holders of more than 4.99% of the shares of common stock outstanding after giving effect to the conversion or exercise. This restriction does not prohibit a holder from converting or exercising up to 4.99% of the shares then outstanding, then selling those shares and later converting or exercising up to 4.99% again. Upon the effectiveness of this registration statement and the registration statements relating to the Series A Convertible Preferred Stock, Series B Convertible Preferred Stock, notes and associated warrants, the underlying shares of common stock will be eligible for immediate resale in the public market. The market price of our securities could fall as a result of these resales.

### STOCK SALES AND HEDGING ACTIVITIES COULD AFFECT OUR STOCK PRICE.

To the extent the holders convert, redeem and exercise, as applicable, the Series A Convertible Preferred Stock, the Series B Convertible Preferred Stock and/or the notes and then sell the shares of our common stock they receive, our stock price may decrease due to the additional amount of shares available in the market. The subsequent sales of these shares could encourage short sales by our other shareholders and others that could place further downward pressure on our stock price. This could lead to further increases in the already large short position in our common stock (6,266,215 shares as of September 13, 2002). Moreover, subject to applicable law and limitations as set forth in the documents governing the transactions, the holders of the Series A Convertible Preferred Stock, the Series B Convertible Preferred Stock and the notes may hedge their positions in our stock by shorting our stock, which could

### Edgar Filing: ZIX CORP - Form S-3

further adversely affect the stock price. Furthermore, the perception that the holders of the Series A Convertible Preferred Stock, the Series B Convertible Preferred Stock and/or the notes may sell our common stock "short" may cause others to sell their shares as well. An increase in the volume of sales of our common stock, whether short sales or not and whether the sales are by the

9

holders of Series A Convertible Preferred Stock, the Series B Convertible Preferred Stock and the notes or others, could cause the market price of our common stock to decline. The effect of these activities on our stock price could increase the number of shares required to be issued on the next applicable conversion, redemption or exercise of the Series A Convertible Preferred Stock and the Series B Convertible Preferred Stock.

OUR FAILURE TO SATISFY OUR REGISTRATION AND LISTING OBLIGATIONS WITH RESPECT TO OUR COMMON STOCK COULD RESULT IN ADVERSE CONSEQUENCES, INCLUDING THE IMPOSITION OF CASH DAMAGES AND THE EARLY REDEMPTION OF THE NOTES AT A SUBSTANTIAL PREMIUM.

We are required to maintain the effectiveness of the registration statement covering the resale of the common stock underlying the Series A Convertible Preferred Stock, Series B Convertible Preferred Stock, the notes and the associated warrants, until the earlier of the date the underlying common stock may be resold pursuant to Rule 144(k) under the Securities Act or the date on which the sale of all the underlying common stock is completed, subject to certain exceptions. We will be subject to various penalties for failing to meet our registration obligations and the related listing obligations for the underlying common stock, which include cash damages and the right of the note holders to require us to redeem all or any portion of the outstanding principal and accrued interest under the notes.

WE ARE OBLIGATED TO MAKE SIGNIFICANT PERIODIC PAYMENTS OF PRINCIPAL AND INTEREST UNDER THE NOTES. WE MAY BE OBLIGATED TO ISSUE ADDITIONAL NOTES OR MAKE CASH PAYMENTS UPON THE MANDATORY REDEMPTION OF OUR PREFERRED STOCK.

We are required to make six monthly principal payments of \$500,000 each (plus accrued and unpaid interest) beginning in January 2003 with a final payment of \$5,000,000 (plus accrued and unpaid interest) on October 1, 2003. In addition, without the approval of our common shareholders, we will not be able to effect the redemption of all shares of Series A Convertible Preferred Stock and Series B Convertible Preferred Stock through the issuance of shares of common stock and, consequently, we will be required to pay the balance of the redemption amount in either cash or by the issuance of a note. Any notes issued in payment of the redemption amount will have a one-year term and accrue interest. As a development-stage company, we currently have no significant revenues and utilization of cash resources continues at a substantial level. Furthermore, if we default on any of our payment obligations under any financing instrument, the holders of the applicable instruments will have all rights available under the instruments, including acceleration, termination and, with respect to the notes, enforcement of security interests. Under such circumstances, our cash position, liquidity and ability to operate would be severally impacted, and it is possible we would not be able to pay our debts as they come due.

WE MUST COMPLY WITH THE LISTING REQUIREMENTS OF NASDAQ OR OUR COMMON STOCK AND LIQUIDITY WILL DECLINE.

To remain listed for trading on Nasdaq, we must abide by the Nasdaq Marketplace Rules regarding the issuance of "future priced securities." Nasdaq

## Edgar Filing: ZIX CORP - Form S-3

rules, including its rules regarding future priced securities, prohibit an issuer of listed securities from issuing 20% or more of its outstanding capital stock at less than the greater of book value or then-current market value without obtaining prior shareholder consent.

10

These rules apply to the Series A Convertible Preferred Stock because, following the approval of our common shareholders, the "floor" on the anti-dilution adjustment may be removed and the final redemption payment may be made in shares of common stock based on a future market price of the common stock. These rules also apply to the Series B Convertible Preferred Stock because additional shares of our common stock are issuable upon redemption based on a future price of the common stock and because the anti-dilution provisions in the Series B Convertible Preferred Stock could result in conversion below the current market price. These rules also apply to the notes and the warrants issued to the note purchasers because the anti-dilution provisions in such securities could result in conversion or exercise prices below the current market price.

The number of shares of common stock issuable upon the conversion, redemption or exercise of such securities exceeds 20% of the number of our outstanding shares immediately prior to our sale of the Series A Convertible Preferred Stock, Series B Convertible Preferred Stock, the notes and associated warrants. We did not obtain shareholder consent prior to such sales, nor, based on our interpretation of the Nasdaq Marketplace Rules and discussions with Nasdaq staff members, did we believe that shareholder consent was required prior to the closing of such sales. The documents relating to the sales contain provisions that prohibit us from issuing a number of shares of common stock that would equal or exceed 20% of our outstanding shares unless we obtain shareholder approval prior to the issuance of shares above the 20% limit. However, if Nasdaq disagrees with our interpretation of its rules, or if we fail to comply with Nasdaq's other listing requirements, Nasdaq could delist our common stock from Nasdaq.

If Nasdaq delisted our common stock, we would likely seek to list our common stock for quotation on a regional stock exchange. However, if we are unable to obtain listing or quotation on such market or exchange, trading of our common stock would occur in the over-the-counter market on an electronic bulletin board for unlisted securities or in what are commonly known as the "pink sheet." As a result, an investor would find it more difficult to dispose of, or to obtain accurate quotations for the price of, our common stock. Consequently, broker-dealers may be less willing or able to sell and/or make a market in our common stock. Finally, it may become more difficult for us to raise funds through the sale of our securities.

WE MAY NOT BE ABLE TO OBTAIN ADDITIONAL FUNDING WHEN NEEDED, WHICH COULD REDUCE OUR ABILITY TO FUND OR EXPAND OPERATIONS.

Our obligations under the Series A Convertible Preferred Stock, the Series B Convertible Preferred Stock and the notes and the resale of the common stock underlying the Series A Convertible Preferred Stock, the Series B Convertible Preferred Stock, the notes or the warrants may negatively affect our ability to obtain financing. Some potential investors may either refuse to offer us any financing or will offer financing at unacceptable rates or unfavorable terms. In addition to substantially all of our assets being pledged to secure the notes, for so long as the notes are outstanding, in the event we incur any new debt (including any notes issuable upon the redemption of Series A

## Edgar Filing: ZIX CORP - Form S-3

Convertible Preferred Stock or Series B Convertible Preferred Stock), the lender must first enter into a subordination agreement with the holders of the notes under which the indebtedness owed to such lenders will be subordinated in full to the notes. The subordination and prior lien position of the notes may prohibit us from obtaining any future debt financing. If we are unable to obtain financing on favorable terms, we may be unable to fund or expand our operations or we may only be able to fund or expand our operations on terms that

11

adversely affect our financial condition. If we are unable to obtain financing necessary to fund our operations, we may have to sell or liquidate all or a portion of our business or significantly reduce our expenses, or a combination. This could adversely affect our ability to effectively execute our business plan.

WE MAY ENCOUNTER OTHER UNANTICIPATED RISKS AND UNCERTAINTIES IN THE INTERNET MARKET OR IN DEVELOPING NEW PRODUCTS AND SERVICES, AND WE CANNOT ASSURE YOU THAT WE WILL BE SUCCESSFUL IN RESPONDING TO ANY UNANTICIPATED RISKS OR UNCERTAINTIES.

There are no assurances that we will be successful or that we will not encounter other, and even unanticipated, risks. We discuss other operating, financial or legal risks or uncertainties in our periodic filings with the Securities and Exchange Commission (we refer to it as the "SEC"). We are, of course, also subject to general economic risks.

### NOTE ON FORWARD-LOOKING STATEMENTS AND RISK FACTORS

The shares of common stock to be sold pursuant to the offering under this prospectus were acquired by the selling shareholders, as described below.

In March 2000, we issued options to acquire 37,500 shares of our common stock to The Richards Group, an advertising agency, in connection with certain advertising services they were providing us. Half of the options bear an exercise price of \$50 per share and half of the options bear an exercise price of \$80 per share. The options are fully vested and expire in March 2004. We also issued to The Richards Group 5,000 shares of our common stock.

In January 2001, we issued a warrant to acquire 22,222 shares of our common stock to Heidrick & Struggles, Inc., an executive search firm, in connection with their assistance in locating a senior executive for our company. ### PLAN OF DISTRIBUTION

The shares of common stock being offered hereby are being registered to permit public secondary trading of such shares by their holders from time-to-time after the date of this prospectus. The sale of shares of our common stock offered in this prospectus may be effected from time-to-time either directly or by one or more broker-dealers or agents, in one or more transactions (which may involve crosses or block transactions) on Nasdaq (or other national securities exchange or quotation services on which the common stock may be listed or quoted at the time of sale) or otherwise. Such common stock may also be sold in one or more negotiated transactions or through a combination of such methods of distribution, at the prevailing market prices, fixed prices (which may be changed), varying prices determined at the time of sale or at negotiated prices. The selling shareholders will act independently of us in making decisions with respect to the timing, manner

15

and size of each sale. The selling shareholders may sell all, some or none of the shares offered by this prospectus.

In the event one or more broker-dealers or agents agree to sell the shares, they may do so by purchasing the shares as principals or by selling the shares as agents for the selling shareholders. Any broker-dealer that does this may receive compensation in the form of discounts, concessions or commissions from the selling shareholders or the purchasers of the shares for which the broker-dealer may act as agent or to whom they sell as principal, or both, which compensation as to a particular broker-dealer may be in excess of customary compensation. To our knowledge, the selling shareholders have not entered into any agreement, arrangement or understanding with any particular broker-dealer or market maker with respect to the shares offered hereby, nor do we know the identity of any brokers or market makers that will participate in the offering. In managing the selling shareholders' investments in us, the selling shareholders could employ various methods involving hedging, short sales or loans of the shares covered by this prospectus.

Under applicable rules and regulations under the Exchange Act, any person engaged in a distribution of the shares may not simultaneously engage in market-making activities with respect to our common stock for the applicable period under Regulation M of the Exchange Act prior to the commencement of the distribution. In addition, the selling shareholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including, without limitation, Regulation M. These provisions may limit the timing of purchases and sales of the shares by the selling shareholders. All of the foregoing may affect the marketability of the shares.

In order to comply with certain states' securities laws, if applicable, our common stock will be sold in jurisdictions only through registered or licensed brokers or dealers. In some states, our common stock may not be sold unless it has been registered or qualified for sale in such state or an

### ITEM 16. EXHIBITS.

The Exhibits to this registration statement are listed in the Index to Exhibits on page II-5 of this registration statement, which Index is incorporated herein by reference.

### ITEM 17. UNDERTAKINGS.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a

II-1

fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i) and (a)(1)(ii) do not apply if the registration statement is on Form S-3, Form S-8 or Form F-3, and the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities

## Edgar Filing: ZIX CORP - Form S-3

offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described in Item 6 or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of

II-2

appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

### SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Dallas, State of Texas, on November 6, 2002.
