**Item 12: Results of Operations and Financial Condition.**

On July 22, 2004, we issued a press release announcing earnings for the quarter ended June 27, 2004. A copy of the press release is furnished as Exhibit 99.1 to this report.

To supplement our consolidated financial statements presented in accordance with generally accepted accounting principles, or GAAP, we use pro forma operating results. Our management believes that the presentation of pro forma results provides useful information to investors regarding certain additional financial and business trends relating to our financial condition and results of operations. Pro forma operating results are not based on any standardized methodology prescribed by GAAP and are not necessarily comparable to similar measures presented by other companies. Pro forma operating results should not be considered in isolation or as a substitute for operating results prepared in accordance with GAAP.

Pursuant to the requirements of Regulation G, we have provided a reconciliation of the non-GAAP financial measures to the most directly comparable GAAP financial measures. In addition, we have provided a reconciliation of reportable segment revenues and income (loss) from operations to consolidated revenues and income (loss) from operations in Schedule 1.

The information in this report, including the exhibit hereto, shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liability of that section. The information contained herein and in the accompanying exhibit shall not be incorporated by reference into any filing with the U.S. Securities and Exchange Commission made by us, whether made before or after the date hereof, regardless of any general incorporation language in such filing.
