## **Section 8 Other Events**

### **Item 8.01 Other Events.**

On September 8, 2004, VERITAS Software Corporation (the Company) entered into a pre-arranged stock trading plan to effect purchases up to an aggregate of \$250 million of the Company's common stock including commissions. The plan permits repurchases to commence on September 15, 2004 and will terminate no later than March 15, 2006. The plan is designed to follow the guidelines specified under Rules 10b5-1 and, to the extent applicable, 10b-18 of the Securities Exchange Act of 1934, as amended (the Exchange Act).

Rule 10b5-1 provides an affirmative defense that a purchase or sale by an issuer or insider pursuant to a pre-arranged plan is not on the basis of material non-public information if, at the time the plan was adopted, such issuer or insider was not aware of material non-public information and the plan otherwise satisfies the requirements of Rule 10b5-1(c). Rule 10b-18 provides issuers with a safe harbor under anti-manipulation provisions of the Exchange Act if certain conditions are satisfied regarding the manner, timing, price and volume of the repurchases.

The pre-arranged stock trading plan was entered into pursuant to authority granted by the Company's Board of Directors on July 26, 2004 to repurchase up to \$500 million of the Company's common stock. The Company previously announced on July 27, 2004 its intention to purchase up to \$500 million of its common stock over a 12 to 18 month period.
