### **Corporate Governance**

The Board has adopted Corporate Governance Guidelines to address significant corporate governance issues. The guidelines, as well as all Board committee charters, the Company's Code of Business Conduct and Ethics, and the Code of Ethics for Principal Executive Officer and Senior Financial Officers are available on the Company's website, [www.hpinc.com](http://www.hpinc.com), under Corporate Governance in the Investor Relations section. The information on the Company's website is not incorporated by reference in this proxy statement. A printed copy of the above mentioned documents will be provided without charge upon written request to the Corporate Secretary of the Company.

The Corporate Governance Guidelines provide a framework for the Company's corporate governance initiatives and cover topics such as director independence and selection and nomination of director candidates, communication with the Board (all of which are addressed below), Board committee matters and other areas of import.

#### *Director Independence.*

The Company's Corporate Governance Guidelines provide that a majority of the Board must meet the requirements for being an independent director under the listing standards of the New York Stock Exchange ( NYSE ) and applicable law, including the requirement that the Board affirmatively determine that the Director has no material relationship with the Company. To guide its determination of whether a Director is independent, the Board has adopted the following categorical standards:

A Director will not be independent if, within the preceding three years: (i) the Director was employed by the Company or any of its direct or indirect subsidiaries or affiliates; (ii) an immediate family member of the Director was employed by the Company as an executive officer; (iii) the Director was employed by or affiliated with the Company's present or former internal auditors or independent auditors; (iv) an immediate family member of the Director was affiliated with or employed in a professional capacity by the Company's present or former internal auditors or independent auditors; (v) the Director was employed, or an immediate family member of the Director was employed, as an executive officer of another company where any of the Company's present executive officers served on such other company's compensation committee; (vi) the Director, or an immediate family member of the Director, received more than \$100,000 per year in direct

compensation from the Company, other than Director and committee fees and pension or other forms of deferred compensation not contingent on continued service; or (vii) the Director of the Company was an executive officer or an employee, or an immediate family member of the Director was an executive officer, of another company that makes payments to, or receives payments from, the Company for property or services in an amount which, in any single fiscal year, exceeds the greater of (a) \$1,000,000, or (b) two percent (2%) of such other company's consolidated gross revenues.

In addition, the following commercial and charitable relationships will not be considered material relationships that would impair a director's independence: (i) the Director (or an immediate family member of the Director) is, or during the last fiscal year has been, an affiliate or executive officer of another company (including banks or financial institutions) to which the Company was indebted, or to which such other company was indebted to the Company, during the last or current fiscal year and the total amount of indebtedness did not exceed two percent (2%) of the total consolidated assets of the indebted entity at the end of such fiscal year; (ii) the Director (or an immediate family member of the Director) is, or during the last fiscal year has been, an executive officer, director or trustee of a charitable organization where the Company's annual discretionary charitable contributions to the charitable organization, in the last or current fiscal year did not exceed the greater of \$1,000,000 or two percent (2%) of that organization's consolidated gross revenues; (iii) the Director (or an immediate family member of a Director) is a member of, employed by, or of counsel to a law firm or investment banking firm that performs services for the Company, provided the payments made by the Company to the firm during a fiscal year do not exceed two percent (2%) of the firm's gross revenues for the fiscal year, and the Director's relationship with the firm is such that his or her compensation is not linked directly or indirectly to the amount of payments the firm receives from the Company; or (iv) a relationship arising solely from a Director's position as a director of another company that engages in a transaction with the Company shall not be deemed a material relationship or transaction that would cause a Director to not be independent.

Finally, a Director who is a member of the Company's Audit Committee will not be independent if such Director: (i) other than in his or her capacity as a member of the Audit Committee, the Board or any other Board committee, accepts directly or indirectly any consulting, advisory or other compensatory fee from the Company or any subsidiary (except for retirement benefits to the extent permitted by applicable SEC rules); or (ii) is an affiliated person (as defined by the SEC) of the Company or any subsidiary.

Generally, types of relationships not addressed by the NYSE rules or otherwise described above will not cause an otherwise independent Director to be considered not independent. For relationships that do not fall within the categories delineated above, the Directors who are otherwise independent under the guidelines will determine whether a relationship is material and, therefore, whether the Director would be independent.

After applying the standards set forth above in the Company's Corporate Governance Guidelines, the Board determined that Ms. Marshall-Chapman and Messrs. Zeglis, Rust, Rooney, Cox and Armstrong had no material relationship with the Company and that each is independent under the categorical standards and the applicable requirements of the NYSE and applicable law.

*Director Identification, Evaluation and Nomination.*

*General Principles and Procedures.* The Company is of the view that the continuing service of qualified incumbents promotes stability and continuity in the boardroom, contributing to the Board's ability to work as a

collective body, while giving the Company the benefit of familiarity and insight into the Company's affairs that its Directors have accumulated during their tenure. Accordingly, the process for identifying nominees shall reflect the Company's practice of re-nominating incumbent Directors who continue to satisfy the Nominating and Corporate Governance Committee's (Committee) criteria for membership on the Board, whom the Committee believes continue to make important contributions to the Board and who consent to continue their service on the Board.

In general, and as more fully outlined in the Corporate Governance Guidelines, in considering candidates for election at annual meetings of stockholders, the Committee will (i) consider if the Director continues to satisfy the minimum qualifications for director candidates as set forth in the Corporate Governance Guidelines, (ii) assess the performance of the Director during the preceding term, and (iii) determine whether there exist any special, countervailing considerations against re-nomination of the Director.

If the Committee determines that (i) an incumbent Director consenting to re-nomination continues to be qualified and has satisfactorily performed his or her duties as Director during the preceding term, and (ii) there exist no reasons, including considerations relating to the composition and functional needs of the Board as a whole, why in the Committee's view the incumbent should not be re-nominated, then the Committee will, absent special circumstances, propose the incumbent Director for re-election.

The Committee will identify and evaluate new candidates for election to the Board where there is no qualified and available incumbent, including for the purpose of filling vacancies or a decision of the Directors to expand the size of the Board. The Committee will solicit recommendations for nominees from persons that the Committee believes are likely to be familiar with qualified candidates. The Committee may also determine to engage a professional search firm to assist in identifying qualified candidates.

As to each recommended candidate that the Committee believes merits consideration, the Committee will (i) cause to be assembled information concerning the background and qualifications of the candidate, (ii) determine if the candidate satisfies the minimum qualifications required by the Company's Corporate Governance Guidelines, (iii) determine if the candidate possesses any of the specific qualities or skills that the Committee believes must be possessed by one or more members of the Board, (iv) consider the contribution that the candidate can be expected to make to the overall functioning of the Board, and (v) consider the extent to which the membership of the candidate on the Board will promote diversity among the Directors.

Based on all available information and relevant considerations, the Committee will select and recommend to the Board a candidate who, in the view of the Committee, is most suited for membership on the Board.

*Stockholder Recommendations.* The Committee shall consider recommendations for the nomination of qualified Directors submitted by holders of the Company's shares entitled to vote generally in the election of Directors. The Committee will give consideration to these recommendations for positions on the Board where the Committee has determined not to re-nominate a qualified incumbent Director.

For each annual meeting of stockholders, the Committee will accept for consideration only one recommendation from any stockholder or affiliated group of stockholders. The Committee will only consider recommendations of nominees for Director who satisfy the minimum qualifications prescribed by the Company's Corporate Governance Guidelines.

Only those recommendations whose submission complies with the following procedural requirements will be considered by the Committee: (1) *Stockholder Nominations to the Committee.* The Committee will

consider qualified nominees recommended by stockholders who may submit recommendations to the Corporate Secretary at the principal executive offices of the Company. To be considered by the Committee, stockholder nominations must be submitted before the Company's fiscal year-end and must include the information listed in subpoints 2(i) and (ii)(a) and (c) below, together with a statement of the number of shares of Company stock beneficially owned by the stockholder making the nomination and by any other supporting stockholders. (2) *Stockholder Nominations at the Annual Meeting.* The By-laws of the Company provide that any stockholder who is entitled to vote for the election of Directors at a meeting called for such purpose may nominate persons for election to the Board. A stockholder desiring to nominate a person or persons for election to the Board must send a timely (see Stockholder Proposals on page 23) written notice to the Corporate Secretary setting forth in reasonable detail the following: (i) as to each person whom the stockholder proposes to nominate for election all information relating to such person that is required to be included in a proxy statement filed pursuant to the proxy rules of the SEC (including such person's written consent to being named in the proxy statement as a nominee and to serving as a Director if elected); and (ii) as to the stockholder giving notice (a) the name and address of the stockholder making the nomination, (b) a representation that the stockholder is a holder of record of stock of the Company entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to present the nomination, and (c) a description of all arrangements or understandings between the stockholder and any other person or persons (naming such person or persons) pursuant to which the nomination is to be made by the stockholder.

Candidates for Director who are properly recommended by the Company's stockholders will be evaluated in the same manner as any other candidate for Director. The Committee may require the candidate to furnish other information as the Committee may reasonably request to assist the Committee in determining the eligibility of the candidate to serve as a Director. The Committee (or the presiding officer at any meeting of the stockholders) may disregard the purported nomination of any person not made in compliance with these procedures.

*Director Qualification Standards.*

All persons nominated to serve as a Director of the Company should possess the following minimum qualifications more fully discussed in the Company's Corporate Governance Guidelines: all candidates (i) must be individuals of personal integrity and ethical character; (ii) should be free of conflicts of interest that would materially impair his or her judgment; (iii) must be able to represent fairly and equally all stockholders of the Company; (iv) must have demonstrated achievement in business, professionally, or the like; (v) must have sound judgment; (vi) must have a general appreciation regarding major issues facing public companies of a size and operational scope similar to the Company; (vii) must have, and be prepared to devote, adequate time to the Board and its committees; and (viii) must not conflict with any Company term or age limits for Directors. Also, as part of the nomination process, the Committee will consider diversity in professional background, experience, expertise, perspective, age, gender, and ethnicity with respect to Board composition as a whole, and the Committee will also ensure that: (i) at least a majority of the Directors serving at any time on the Board are independent, as defined under the rules of the NYSE and applicable law; (ii) at least three of the Directors satisfy the financial literacy requirements required for service on the Audit Committee under the rules of the NYSE; and (iii) at least some of the independent Directors have experience as senior executives of a public or substantial private company.

These are only threshold criteria, however, and the Committee will also consider the contributions that a candidate can be expected to make to the collective functioning of the Board based upon the totality of the candidate's credentials, experience and expertise, the composition of the Board at the time, and other relevant circumstances.

*Communication with the Board.*

The Board has implemented a procedure for stockholders of the Company to send communications to the Board. Any stockholder desiring to communicate with the Board, a specific Committee or individual Directors may do so by writing to the Corporate Secretary who has been instructed by the Board to promptly forward all such communications to the addressee indicated thereon. In addition, any issue or concern may be addressed in a confidential or anonymous manner by submitting the same to the Company through its Ethics Hotline. (1) The amounts specified in this column represent payments of estimated tax liability with respect to Company- provided health and retirement benefits. The aggregate amount of perquisites and other personal benefits was less than either \$50,000 or 10% of the total annual salary and bonus reported for each of the named executive officers.

(2) The number of shares underlying options granted and reflected in the table for fiscal year 2002 include the adjustment made after September 30, 2002, to reflect the change in value of the Company's stock as a result of the spin-off of the Company's former wholly-owned subsidiary, Cimarex Energy Co. The number of shares underlying such options were increased by a factor of 1.314 by reason of such adjustment.

(3) With respect to each of the named executive officers, the amounts specified in this column represent the Company's matching contributions to its 401(k) Plan and Non-qualified Supplemental Savings Plan on behalf of each such executive officer.

**Stock Option Grants**

The following table provides information with respect to stock options granted to the named executive officers during fiscal year 2004.

**OPTION GRANTS IN LAST FISCAL YEAR**

Name	Individual Grants			Grant Date Value
	Number of Securities Underlying Options Granted (#) <sup>(1)</sup>	Percent of Total Options Granted to Employees in Fiscal Year	Exercise or Base Price (\$/Sh) <sup>(2)</sup>	Expiration Date
Hans Helmerich	90,000	19.7%	24.16	12/3/13
George S. Dotson	60,000	13.1%	24.16	12/3/13
Douglas E. Fears	30,000	6.6%	24.16	12/3/13
Steven R. Mackey	25,000	5.5%	24.16	12/3/13

(1) These options were granted pursuant to the Helmerich & Payne, Inc. 2000 Stock Incentive Plan and are nonqualified stock options which vest annually in 25% increments, beginning one year from the date of grant.

(2) The exercise price is the fair market value of the Company's stock on the grant date.

(3) The hypothetical present values on grant date were calculated under a modified Black-Scholes model, which is a mathematical formula used to value options. This formula considers a number of factors in hypothesizing an option's present value. Factors used to value the options include the stock's expected annual volatility rate (42.97%), risk free rate of return (4.27%), dividend yield (1.32%), term (10 years), and discounts for forfeiture of unvested shares (21.21%) and reduced term on vested shares (19.83%).

The ultimate values of these options will depend on the future market price of the Company's stock, which cannot be forecast with reasonable accuracy. The Company does not believe that the Black-Scholes model, whether modified or not modified, or any other valuation model, is a reliable method of computing the present value of the Company's employee stock options. The actual value, if any, the optionee will realize will depend on the excess of the market value of the Company's stock over the exercise price on the date of exercise.

**Option Exercises and Holdings**

The following chart sets forth information with respect to the named executive officers concerning the exercise of options during the last fiscal year and unexercised options held as of the end of the fiscal year.

**Summary of All Existing Equity Compensation Plans**

The following chart sets forth information concerning the equity compensation plans of the Company as of September 30, 2004.

**EQUITY COMPENSATION PLAN INFORMATION**

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))

Total	4,456,665	\$ 22.028	1,157,805

(1) Includes the 1990 Stock Option Plan, the 1996 Stock Incentive Plan and the 2000 Stock Incentive Plan of the Company.

(2) The Company does not maintain any equity compensation plans that have not been approved by the stockholders.

**Long-term Incentive Plans**

The Company has no long-term incentive plans.

**Pension Plans**

During fiscal 2003, the Company revised its pension plan to close the pension plan to new participants effective October 1, 2003, and reduced benefit accruals for current participants through September 30, 2006, at which time benefit accruals will be discontinued and the plan frozen.

The pension benefit under the Company's pension plan for time periods prior to October 1, 2003, is calculated pursuant to the following formula:

$$\text{Compensation} \times 1.5\% = \text{Annual Pension Benefit.}$$

The pension benefit for the period commencing October 1, 2003 through September 30, 2006, is calculated as follows:

$$\text{Compensation} \times 0.75\% = \text{Annual Pension Benefit.}$$

Pension benefits, which are accrued annually, are determined based on compensation received throughout a participant's career. Compensation includes salary, bonus, vacation pay, sick pay, Section 401(k) elective

deferrals, and Section 125 cafeteria plan deferrals. Therefore, the pension benefit is not determined primarily by final compensation and years of service.

Based upon these formulas, an assumed annual salary and bonus growth rate of 6% and an age 65 retirement date, the estimated annual benefits payable to each named executive officer at retirement are:

Name	Current Age	Annual Retirement Benefit <sup>(1)</sup>
Hans Helmerich	46	\$ 150,481.68
George S. Dotson	64	\$ 163,317.84
Douglas E. Fears	55	\$ 62,820.00
Steven R. Mackey	54	\$ 57,474.00

(1) The annual retirement benefit has not been reduced for statutory compensation and benefit limits, as amounts over these limits would be payable pursuant to the Supplemental Retirement Income Plan for Salaried Employees of Helmerich & Payne, Inc. The benefits listed above are computed as a straight single life annuity and do not contemplate any reduction for Social Security or other offset amounts.

**Report on Repricing of Options**

There were no adjustments or amendments to the exercise price of stock options previously awarded to any of the named executive officers during the last fiscal year.

**Compensation Committee Interlocks and Insider Participation**

During fiscal 2004, the members of the Company's Human Resources Committee were Ms. Marshall-Chapman and Messrs. Armstrong and Zeglis. No executive officer or Director of the Company has any relationship covered by the Compensation Committee Interlock and Insider Participation regulations.

**Employment Contracts and Termination of Employment and Change-of-Control Arrangements**

Each of the named executive officers has entered into a Change of Control Agreement with the Company. If the Company terminates a named executive officer's employment within 24 months after a change of control other than for cause, disability, death or the occurrence of a substantial downturn, or if any of the named executive officers terminates his employment for good reason within 24 months after a change of control (as such terms are defined in the Change of Control Agreement), any options or restricted stock granted to any of the named executive officers will vest in full and the Company will be required to pay or provide (i) a lump sum payment equal to two and one-half (2 1/2) times the base salary and annual bonus of Mr. Hans Helmerich and two (2) times the base salary and annual bonus of the other named executive officers, (ii) 24 months of benefit continuation, (iii) a prorated annual bonus, and (iv) up to \$5,000 for out-placement counseling services; provided that the payments and benefits shall be provided only if a named executive officer executes and does not revoke a release of claims in the form attached to the Change of Control Agreement. The Change of Control Agreement is automatically renewed for successive two-year periods unless terminated by the Company.

The Helmerich & Payne, Inc. 1990 Stock Option Plan, the Helmerich & Payne, Inc. 1996 Stock Incentive Plan and the Helmerich & Payne, Inc. 2000 Stock Incentive Plan contain a provision whereby all stock options and restricted stock will automatically become fully vested and immediately exercisable in the event of a change of control of the Company, as defined in such plans.

If a named executive officer dies prior to age 65 while employed by the Company or after having retired under the Company's pension plan, then pursuant to an agreement with each named executive officer, the surviving spouse of such deceased executive will be paid \$2,250 per month for 120 consecutive months, commencing upon the date of death. Alternatively, if the named executive officer remains in the employment of the Company until age 65 or has retired under the provisions of the Company's pension plan, then commencing on his 65th birthday such executive officer shall be paid \$225 per month for 120 consecutive months.

### **Human Resources Committee Report**

All decisions regarding the compensation of the Company's executive officers are made by the Human Resources Committee of the Board (Committee) and approved by the independent Directors as a group. Generally, the Committee meets in December following the end of a particular fiscal year to consider prospective calendar year salary adjustments and equity-based compensation, as well as to consider bonus compensation for executive officers for the prior fiscal year. The Committee also meets at other times during the year to review the structure of incentive compensation for executive officers, trends in executive compensation, the positioning of the Company's executive compensation relative to competitor peer groups, and other factors relevant to establishing appropriate compensation.

#### *Executive Officer Compensation Policies*

The Company's executive compensation policies are designed to provide competitive levels of compensation that integrate pay with the Company's performance, recognize individual initiative and achievements, and assist the Company in attracting and retaining qualified executives. The Committee relies in large part on compensation studies for the determination of competitive compensation. These studies include salary and bonus compensation data from several competitor companies including certain of those companies contained within the S&P 500 Oil & Gas Drilling Index. Also, when the Committee contemplates the awarding of stock options or restricted stock to its executives, it considers, among other things, the nature and value of stock awards made by competitor companies to their executive officers. In order to implement these objectives, the Company has developed a straightforward compensation package consisting of salary, annual bonus, and annual awards of stock options and/or restricted stock. Salary and bonus are primarily designed to reward current and past performance. Base salaries are set to recognize individual performance while attempting to generally approximate the median level of base salaries among the Company's competitors. Annual bonuses to executive officers are awarded based upon the performance criteria and other factors contained within the bonus plan described below. Awards of stock options and/or restricted stock are primarily designed to tie a portion of each executive's compensation to long-term future performance of the Company. The Committee believes that stock ownership by management through stock-based compensation arrangements is beneficial in aligning management's and stockholders' interests. The value of these awards will increase or decrease based upon the future price of the Company's stock.

During fiscal 2004, the Committee, with the assistance of its independent compensation consulting firm, reviewed the Company's executive compensation practices. As a result of such review, the Committee significantly revised the annual bonus plan applicable to the executive officers. Such revisions emphasized quantifiable objective factors with regard to annual bonuses, modified corporate performance criteria and introduced relative shareholder return as an adjustment factor in the annual bonus calculation.

At the outset of each fiscal year, each of the executive officers is assigned a target bonus award opportunity expressed as a percentage of base salary. Pursuant to the revised bonus plan, an executive officer's bonus opportunity is based upon three weighted corporate performance criteria. These performance criteria and their weighting are: earnings per share (35%); return on invested capital (35%); and operating earnings before interest, taxes, depreciation and amortization (30%). Each performance criterion is assigned a threshold, target, as well as a higher reach target based upon the operating and capital budget approved by the Board. Actual fiscal year financial results are compared to plan targets in order to determine the amount of any executive officer bonus. The bonus, if any, is then subject to being increased or decreased by up to 30% based on the Committee's overall assessment of the Company's operational success and the Company's relative shareholder return.

Within this framework, the Committee determined that of the three performance criteria only the operating earnings before interest, taxes, depreciation and amortization (operating EBITDA) performance target was met in fiscal 2004, and only that component of the annual bonus would be awarded, adjusted downward by 15% to account for the Company's performance on certain strategic objectives and its performance on total shareholder return relative to its competitors.

During fiscal 2004, stock options were awarded to the executive officers and other key employees. In making these stock option awards, the Committee considered both individual performance and the value of stock option awards made by competitors.

Section 162(m) of the Internal Revenue Code provides that certain compensation to certain executive officers in excess of \$1 million annually will not be deductible for federal income tax purposes. The current compensation levels of the Company's executive officers are well below the \$1 million threshold. The Committee generally prefers to optimize the deductibility of compensation paid to the Company's executive officers. However, if future compliance with Section 162(m) conflicts with the Company's compensation policy or what is believed to be in the best interests of the Company or its stockholders, then future compensation arrangements may not be fully deductible under Section 162(m).

*Compensation Paid to the Chief Executive Officer*

Mr. Helmerich's compensation is determined in the same manner as described for the other executive officers. For fiscal 2004, Mr. Helmerich was paid a \$158,000 bonus and was granted a 3% salary increase for calendar 2005. Mr. Helmerich's bonus was paid as a result of the operating EBITDA target performance criterion being exceeded and the Committee's 15% downward adjustment of such bonus in light of the Company's performance on certain strategic objectives as well as its total shareholder return relative to certain components in fiscal 2004.

The Committee awarded Mr. Helmerich stock options to purchase 90,000 shares of stock. The Committee based this award on its subjective assessment of Mr. Helmerich's performance as CEO and the value of stock options awarded to competitor CEOs.

The following performance graph reflects the yearly percentage change in the Company's cumulative total stockholder return on common stock as compared with the cumulative total return of the S&P 500 Index and the S&P 500 Oil & Gas Drilling Index. All cumulative returns assume reinvestment of dividends and are calculated on a fiscal year basis ending on September 30 of each year.

**Director Compensation**

During fiscal 2004, the Board revised the standard arrangements for non-employee Director compensation. Effective July 1, 2004, each non-employee Director receives a quarterly retainer of \$7,500. The Audit Committee chair receives a quarterly retainer of \$2,500 and the Human Resources Committee and Nominating and Corporate Governance Committee chairs each receive a quarterly retainer of \$1,250. In addition, each member of the Audit Committee receives a quarterly retainer of \$1,250. Also, each non-employee Director receives an annual option to purchase shares of common stock of the Company pursuant to the Helmerich & Payne, Inc. 2000 Stock Incentive Plan which have a value of \$30,000 on the date of grant. All non-employee Directors are reimbursed for expenses incurred in connection with the attending of Board or Committee meetings. Mr. W. H. Helmerich, III receives no compensation from the Company for serving as its Chairman of the Board, nor do the employee Directors receive compensation for serving on the Board.

The Company approved during fiscal 2004 the Director Deferred Compensation Plan ( Plan ). Effective October 1, 2004, the Plan permits each Director to defer into a separate account maintained by the Company all or a portion of such Director's cash compensation paid by the Company for services as a Director. A Director may select between two deemed investment alternatives, being an interest investment alternative and a stock unit investment alternative. The interest investment alternative provides for the payment of interest on deferred amounts in the Director's account at a rate equal to prime plus one percent. The stock unit investment alternative provides that the Company shall credit the Director's account with the number of stock units determined by dividing the Director's deferred compensation amount by the fair market value of a share of the Company's common stock on the compensation deferral date. The Director's account shall also be credited with any dividends that would have been paid by the Company had the Director held actual shares of the Company's common stock. The account balance attributable to the stock unit investment alternative may increase or decrease depending upon fluctuations in the value of the Company's common stock and the distribution of dividends. The stock units credited to a Director's account is used solely as a device for the determination of the amount of cash payment to be distributed to the Director under the Plan. No Director would be entitled to a distribution of actual shares of the Company's common stock or to any other stockholder rights with respect to the stock units credited under the Plan. Except for emergency withdrawals and a change of control event (as defined in the Plan), the deferred cash amounts in a Director's account would not be paid until he or she ceases to be a Director. The Plan does not create a trust and the participating Directors would be general unsecured creditors of the Company. Since employee Directors do not receive compensation for serving on the Board, only non-employee Directors shall be able to participate in the Plan. The Plan is to be interpreted and administered by the Human Resources Committee of the Board.

It is anticipated that there will be four regularly scheduled meetings of the Board during fiscal 2005.

#### **Transactions with Management and Others**

Mr. W. H. Helmerich, III, Chairman of the Board, retired from the Company in December of 1989. Pursuant to a consulting agreement with the Company, he receives \$154,800 per calendar year, plus reimbursement of reasonable business, travel, and other expenses in consideration of his agreement to provide advisory and consulting services (exclusive of services rendered by Mr. Helmerich as Chairman of the Board) to the Company. The consulting agreement is automatically renewed for successive one-year terms unless terminated by the Company or Mr. W. H. Helmerich, III.

Mr. Rik Helmerich is a son of Mr. W. H. Helmerich, III and the brother of Mr. Hans Helmerich. The Company owns an outdoor shopping mall and leases space, at competitive rates, to one restaurant which is partially owned by Mr. Rik Helmerich. The restaurant also leases warehouse space, at competitive rates, from the Company. The annual rental paid by such restaurant to the Company in fiscal 2004 totaled \$90,946.83.

#### **Section 16(a) Beneficial Ownership Reporting Compliance**

For the fiscal year ended September 30, 2004, all reports were filed on a timely basis with the SEC, except Douglas E. Fears, Vice President, Finance and CFO of the Company, filed one Form 4 on February 24, 2004, rather than the due date of February 23, 2004. This report related, in part, to the sale of 10,000 shares of the Company's common stock. In making this disclosure, the Company has relied solely upon the written representations of its Directors and executive officers, and copies of the reports they have filed with the SEC.

**Independent Accountants**

The Audit Committee reviews and pre-approves audit and non-audit services performed by the Company's independent public accountant as well as the fee charged for such services. Pre-approval is generally provided for up to one year, is detailed as to the particular service or category of service and is subject to a specific budget. The Audit Committee may also pre-approve particular services on a case-by-case basis. The Audit Committee may delegate pre-approval authority for such services to one or more of its members, whose decisions are then presented to the full Audit Committee at its next scheduled meeting. For fiscal 2004, all of the audit and non-audit services provided by the Company's independent public accountant were pre-approved by the Audit Committee in accordance with the Audit Committee Charter. In its review of all non-audit service fees, the Audit Committee considers among other things, the possible effect of such services on the auditor's independence.
