**PROPOSAL 2: AMENDMENT OF THE RESTATED ARTICLES OF INCORPORATION
TO INCREASE AUTHORIZED SHARES**

On September 27, 2005, our Board unanimously adopted a resolution declaring it advisable to amend our Restated Articles of Incorporation to increase the number of shares of Common Stock that we have authority to issue to 50,000,000 shares of Common Stock. Our Board further directed that this amendment to our Restated Articles of Incorporation be submitted for consideration by our stockholders at the Annual Meeting. In the event stockholders approve this amendment, we will amend Article Four of our Restated Articles of Incorporation to increase the number of shares of Common Stock which we are authorized to issue from 10,000,000 to 50,000,000. This amendment will become effective at the close of business on the date the amendment to the Restated Articles of Incorporation are accepted for filing by the Secretary of State of Texas. At November 25, 2005, there were 7,484,044 shares of our Common Stock outstanding and 311,000 reserved for issuance in connection with options and restricted stock awards. The Amendment to the Restated Articles of Incorporation is attached to this proxy statement as Exhibit B.

Our Board believes that it is in our best interest to increase the number of authorized but unissued shares of Common Stock in order to have additional shares available to create opportunities for future equity growth. Our Board believes the availability of these additional shares will provide us with the flexibility to issue Common Stock for a variety of purposes the Board may deem advisable without further action by shareholders, unless required by law, regulation or the rules of The Nasdaq National Market. These purposes could include, among other things, the sale of stock to obtain additional funding, the use of additional shares for various equity compensation and other employee benefit plans, the declaration of stock splits or distributions, and other bona fide corporate purposes. We have no present plans, agreements, commitments or understandings with regard to the issuance of the proposed additional shares of Common Stock. The issuance of additional shares of Common Stock could have a dilutive effect on a shareholder's voting power.

Although an increase in the authorized shares of Common Stock could, under certain circumstances, also be construed as having an anti-takeover effect (for example, by diluting the stock ownership of a person seeking to effect a change in the composition of our Board or contemplating a tender offer or other transaction for the combination of our Company with another company), we are not proposing this amendment to our Restated Articles of Incorporation in response to any effort to accumulate our stock or to obtain control of us by means of a merger, tender offer, or solicitation in opposition to management. Our Board has no knowledge of any effort by any person or group to obtain control of the Company.

Recommendation and Required Affirmative Vote

The affirmative vote of the holders of a majority of our Common Stock entitled to vote and who do vote (in person or by proxy) at the annual meeting is required for approval of the proposal to amend the Restated Articles of Incorporation to increase the number of authorized shares of Common Stock. Our Board believes the amendment of the Restated Articles of Incorporation is in the best interests of the Company and our stockholders. **Accordingly, our Board recommends that you vote FOR approval of the proposal.**

PROPOSAL 3: AMENDMENT TO THE 2004 STOCK INCENTIVE PLAN

General

The Dawson Geophysical Company 2004 Incentive Stock Plan (the Plan) was approved by our Board, with stockholder approval, in fiscal year 2004. Our Board has decided to amend the Plan, subject to stockholder approval, to increase the aggregate number of shares of Common Stock available for issuance

Table of Contents

under the Plan from 375,000 to 625,000, and to eliminate the 125,000 aggregate share limitations imposed upon restricted and unrestricted stock grants and options.

The purpose of the Plan is to encourage stock ownership by certain officers and employees of the Company so that they may acquire or increase their proprietary interest in the success of the Company and to encourage them to remain in the employ of the Company.

If approved by stockholders, the amendment will become effective as of January 24, 2006.

Proposal Regarding the Plan

Plan Amendment. As of November 25, 2005, 311,000 shares remained available for future issuance under the Plan. The amendment of the Plan would result in an additional 250,000 shares of Common Stock (the *Additional Shares*) being available for future issuance under the Plan (the *Plan Amendment*). All such additional shares authorized for issuance by the Company pursuant to the Plan may be distributed as either stock options, stock grants with restrictions (*Restricted Stock*) or stock grants without restrictions (*Unrestricted Stock*). We intend to file a registration statement on Form S-8 under the Securities Act of 1933, as amended, as soon as practicable following stockholder approval of the proposal to amend the Plan to register the additional 250,000 shares available for future issuance under the Plan.

In September 2005, our Board determined that the number of shares that remained available for additional awards under the Plan should be increased to maintain a percentage of Plan shares to the total number of shares outstanding. An equity offering of 1,800,000 shares of Common Stock in March 2005 having diluted the percentage of Plan shares to the total shares outstanding. The authorization of the *Additional Shares* pursuant to this proposal would restore the ratio of Plan shares to total shares outstanding to approximately eight percent. In addition, the Board determined that in order to simplify the administration of the Plan, the Company should eliminate the Plan share limitations imposed on the separate categories of *Restricted Stock* and *Unrestricted Stock*. After approval of the *Plan Amendment*, the Company will be able to make awards based on management's judgment of the type of award that would be most effective, rather than an arbitrary limit on the type of award. As a result of these considerations, our Board is proposing the *Plan Amendment* to our stockholders at the annual meeting. The *Plan Amendment* is attached to this proxy statement as Exhibit C.

Description of the Plan

The material features of the Plan, giving effect to the *Plan Amendment*, are as described below.

General. As amended, the Plan provides for the award of *Restricted Stock*, the award of *Unrestricted Stock* and the award of stock options (collectively *Awards*) to purchase up to 625,000 shares of the Company's Common Stock. *Awards* may be granted by the Compensation Committee (as hereinafter defined), in its sole discretion, to officers, directors and employees of the Company, with or without payment therefor, and will reduce the total number of shares available for the issuance of other *Awards* under the Plan.

Stock options issued under the Plan have an option price that is equal to the market value of the Company's Common Stock at date of grant, except that the option price shall be 110% of the market value if the option is granted to a stockholder who owns more than a 10% interest in the Company. Generally, options are exercisable 25% annually from the date of the grant and the options expire five years from date of grant. During the fiscal year ended 2005, options to purchase an aggregate of 45,000 shares of Common Stock were granted to employees of the Company under the Plan. As of November 25, 2005, the total number of outstanding options under the Company's Plan was 45,000 and the total number of shares available for issuance was 311,000.

Administration. The Plan is administered by the compensation committee of the Board (the *Compensation Committee*). The *Compensation Committee* is authorized to interpret the Plan, make recommendations to the Board with respect to officers, directors and employees of the Company who shall

Table of Contents

be granted Awards, recommendations to the Board regarding the terms and restrictions attributable to Awards, and make all other determinations concerning the Plan.

Eligibility. Executives and other employees of the Company (including officers, whether or not they are directors) may receive stock options from the Company. Restricted Stock and Unrestricted Stock awards may be granted to officers, directors and employees of the Company with or without payment at the discretion of the Compensation Committee.

Term, Amendment and Termination of the Plan. To the extent permitted by law, our Board may at any time suspend, terminate, amend or modify the Plan. However, no amendment or modification may become effective without the approval of such amendment or modification by stockholders of the Company if the amendment changes the number of shares subject to the Plan, changes the designation of the class of employees eligible to receive Awards, decreases the price at which options may be granted, removes the administration of the Plan from the Compensation Committee, renders a member of the Compensation Committee eligible to receive an Award under the Plan while still on the Compensation Committee or amends the Plan in any manner that will cause any stock options issued under it that were otherwise intended to qualify as incentive stock options at the time of grant to fail to meet the requirements of incentive stock options as defined in Section 422 of the Code. The term of the 2004 Plan is five years from the date of its adoption, such that the 2004 Plan expires January 27, 2009.

Recommendation and Required Affirmative Vote

The affirmative vote of the holders of a majority of our Common Stock entitled to vote and who do vote (in person or by proxy) at the annual meeting is required for approval of the proposal to amend the Plan in accordance with the Plan Amendment. Our Board believes that the Plan Amendment is in the best interests of the Company and our stockholders. **Accordingly, our Board recommends that you vote FOR approval of the proposal.**

REPORT OF THE AUDIT COMMITTEE

To the Stockholders of Dawson Geophysical Company:

It is the responsibility of the members of the Audit Committee to contribute to the reliability of the Company s Financial Statements. In keeping with this goal, the Board of Directors adopted a written charter (attached to this Proxy Statement as Exhibit A) to govern the Audit Committee. The Audit Committee is satisfied with the adequacy of the charter based upon its evaluation of the charter during fiscal 2005. The Audit Committee met ten times during fiscal 2005. The members of the Audit Committee are independent directors.

The audit committee oversees the Company s financial reporting process on behalf of the entire Board. Management has the primary responsibility for the Company s financial statements and the reporting process, including the systems of internal controls. The primary responsibilities of the Audit Committee are to select and retain the Company s auditors (including review and approval of the terms of engagement and fees), to review with the auditors the Company s financial reports (and other financial information) provided to the SEC and the investing public, to prepare and publish this report, and to assist the Board with oversight of the following:

integrity of the Company s financial statements,

compliance by the Company with standards of business ethics and legal and regulatory requirements,

qualifications and independence of the Company s independent auditors and

performance of the Company s independent auditors and internal auditors.

The Audit Committee has reviewed and discussed the Company s audited financial statements with management. It has also discussed with the independent auditors the matters required to be discussed by Statement on Accounting Standards No. 61, Communication with Audit Committees, as amended, by the Auditing Standards Board of the American Institute of Certified Public Accountants. Additionally, the Audit Committee has received the written disclosures and the letter from the independent accountants at KPMG LLP, as required by Independent Standards Board Standard No. 1, Independence Discussions with Audit Committees, and has discussed with the independent accountants that firm s independence from the Company and its management. The Audit Committee has concluded that non-audit services provided by KPMG LLP do not result in conflict in maintaining that firm s independence.

Audit fees billed to the Company by KPMG LLP during the Company s 2005 fiscal year for the audit of the Company s annual financial statements and the review of those financial statements included in the Company s quarterly reports of Form 10-Q totaled approximately \$170,667. The Company was billed approximately \$12,060 by KPMG LLP for tax related services. In addition, the Company was billed approximately \$99,023 by KPMG LLP for audit related services related to the Company s March 2005 common stock offering and shelf registration statement.

Table of Contents

Based on reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the financial statements for fiscal 2005 be included in the Company's Annual Report on Form 10-K.
