infoUSA SENDS LETTER TO SHAREHOLDERS
Urges Shareholders to Vote FOR *infoUSA* Directors
and AGAINST Shareholder Proposal Number 2

OMAHA, Neb. May 4, 2006 *infoUSA* (Nasdaq:IUSA) today sent the following letter to all *infoUSA* stockholders recommending that they vote FOR *infoUSA*'s incumbent directors and AGAINST shareholder proposal number 2:

IMPORTANT: VOTE THE ENCLOSED WHITE PROXY CARD TODAY

May 4, 2006

Dear Fellow *infoUSA* Shareholder,

With your Company's May 26 Annual Meeting of Stockholders rapidly approaching, we strongly urge you to support the re-election of *infoUSA* directors Vinod Gupta, Dr. George Haddix and Dr. Vasant Raval **by signing, dating and returning the WHITE proxy card TODAY. Your Board also urges you to vote AGAINST shareholder proposal number 2.**

***infoUSA*'s BOARD OF DIRECTORS HAS A PROVEN RECORD OF ENHANCING VALUE FOR ALL *infoUSA* STOCKHOLDERS THROUGH SUCCESSFUL AND ACCRETIVE ACQUISITIONS**

Acquisitions have been one of the cornerstones of our strategic plan and have contributed significantly to *infoUSA*'s revenues and profits. Acquisitions are one of the foundations for the Company's future organic growth. *infoUSA* has completed 26 acquisitions since 1996 and we are confident that these transactions have enhanced value for our shareholders and positioned the Company to generate strong returns going forward. Through the successful execution of this acquisition strategy, *infoUSA* has grown from solely a database company with \$86 million in revenue in 1995 to an industry leading solutions provider with more than \$383 million in revenue in 2005. Acquisitions have enhanced content, opened new distribution channels and provided entry into new vertical segments. ***infoUSA* generated 4.3% organic**

revenue growth in the first quarter of 2006 and we believe that *infoUSA* has the customers, content and distribution to continue to grow organically and enhance shareholder value.

***infoUSA* IS WELL-POSITIONED FOR ORGANIC GROWTH
DUE TO SUCCESSFUL ACQUISITIONS**

infoUSA's successful track-record of acquiring and integrating companies has created value for stockholders and has established a platform for future organic growth.

An important part of this value creation is due to *infoUSA*'s ability to rapidly integrate the acquired company and aggressively reduce costs. *infoUSA*'s databases are leveraged across businesses, allowing *infoUSA* to provide data and related services at a significantly lower cost.

In addition, *infoUSA* has created Centers of Excellence to provide shared services across businesses, eliminating unnecessary redundancy. By reducing administrative costs and leveraging *infoUSA*'s infrastructure to eliminate other overhead, such as the expense of running several publicly traded companies, *infoUSA* has been able to realize considerable cost synergies.

infoUSA's successful track-record of acquisitions has also created new and highly profitable opportunities for the Company. For example, we are reaping the benefits of the compelling cross-selling opportunities to be realized by offering *infoUSA*'s full suite of products to customers who currently use only one of *infoUSA*'s services.

By providing bundled, value-added solutions, *infoUSA* can now serve as a one stop shop for marketing and sales solutions. This multi-channel approach combines data, data processing, database marketing and e-mail solutions. This is an important competitive advantage as it allows *infoUSA* to realize superior margins as compared to simply selling lists. *infoUSA*'s ability to provide integrated solutions is a direct result of the successful acquisition strategy supervised by this Board.

Due to the Board's foresight and disciplined execution, *infoUSA* now has the customers, content and distribution to drive organic growth and create additional value for stockholders.

**WE BELIEVE HISTORY DEMONSTRATES THAT THE EXPERTISE AND INSIGHT OF
THE CURRENT *infoUSA* BOARD IS CRITICAL TO THE COMPANY'S SUCCESS**

infoUSA has remained an industry leader by anticipating and adapting to changing market conditions:

The Company's Board recognized the potential of the online segment and secured a leadership position in e-mail marketing. Following industry slowdown in 2001, *infoUSA* built an email and online marketing business to continue profitably growing the Company. Beginning in March of 2002, we have acquired five underperforming e-mail marketing companies DoubleClick, ClickAction, Yesmail, Markado and @Once. Today, we have a robust \$26 million-plus e-mail business and these acquisitions have more than paid for themselves.

The Board has also been instrumental in *infoUSA*'s entry into new, fast growing markets. For example, by leveraging *infoUSA*'s existing databases, the Company now has a presence in new markets such as government and politics, GPS navigation, tax compliance and Homeland Security.

In 2005 the Board once again took decisive action to enhance value for shareholders by reengineering *infoUSA*'s low-margin local directory sales business. The Company prudently established a telemarketing center and eliminated a costly field sales force. Although this decision resulted in a short-term revenue decrease of approximately \$2 million in the first quarter of 2006, it positioned the Company for improved long-term performance.

Similarly, *infoUSA* has stayed ahead of the curve by changing its pricing structure. The new structure reduces reseller competition with *infoUSA*'s retail sales divisions. While this initiative also caused a short-term revenue decrease in the first quarter of 2006 of approximately \$3 million, this strategic repositioning is expected to enhance *infoUSA*'s revenue and margins over the long-term.

By being highly flexible, we have been able to take advantage of a changing marketplace as demonstrated by our move to subscription offerings. For the first quarter of 2006 subscription revenue, which includes SalesGenie.com, SalesLeadsUSA.com and Credit.net, led to revenue growth in the Company's small business group, despite the anticipated drop in revenue from the Reseller Group and Polk Directories. *infoUSA*'s Board of Directors has quickly adjusted to changing industry dynamics, implementing new ideas and seizing upon market opportunities. The Board has made the right decisions to enhance the Company's competitive position and facilitate organic growth.

**ELECT THE INCUMBENT DIRECTORS TO ENSURE
THAT YOUR BOARD CAN CONTINUE ITS SUCCESSFUL STRATEGY
TO DRIVE ORGANIC GROWTH AND ENHANCE VALUE FOR ALL STOCKHOLDERS**

Your Board has overseen the effective implementation of *infoUSA*'s strategic plan and we believe that your Board's nominees are critical to its continued successful execution. **We believe that the election of the dissident nominees would be disruptive and could impair the implementation of the Company's strategic plan.**

infoUSA's organic growth strategy includes:

Expanding existing customer relationships by providing complete market solutions including proprietary data, data processing services and e-mail marketing.

Converting customers to *infoUSA*'s subscription products including SalesGenie.com, SalesLeadsUSA.com and Credit.net.

Leveraging new distribution channels.

Increasing branding to become the small business brand of choice. The Board expects that continued investment in advertising and branding will further expand the customer base and increase future revenue.

Providing greater access to customers to facilitate increased use of databases and data processing services.

Providing additional compelling applications, such as SalesGenie, to small business and SOHO marketplaces.

Targeting high growth markets for the license of databases. *infoUSA* is actively pursuing opportunities to further expand in political, non-profit, charitable and governmental markets, where there is a tremendous opportunity to leverage the Company's existing databases. The

Company already has several blue-chip customers in this marketplace.

Continuing international expansion by developing the Company's international sales force and increasing *infoUSA*'s presence in international markets. Among other international growth opportunities, the Company is developing a small business database in the UK.

**THE SUCCESS OF THE SUBSCRIPTION MODEL DEMONSTRATES
THAT THE BOARD'S STRATEGIC PLAN FOR *infoUSA* IS WORKING**

Successful acquisitions and the Board's continued execution on its strategy gave *infoUSA* the right platform to launch strong and sustainable subscription-based businesses. The Company's continuing success in adding new subscribers builds *infoUSA*'s recurring revenue base and enhances value for all stockholders. The success of the subscription model is demonstrated by *infoUSA*'s recent accomplishments:

The *infoUSA* Group added 6,000 new subscribers in the first quarter of 2006 **an 18% increase in just three months.**

infoUSA's subscription customer base for services such as SalesGenie.com, SalesLeadsUSA.com, Credit.net and others now exceeds 35,000.

The Company delivered strong organic revenue growth of 4.3% in the first quarter of 2006.

The Company's strategic plan is working. Your Board and management have been steadfast in their commitment to pursuing opportunities that are in the best interests of all our stockholders. Through their extensive market knowledge and industry experience, *infoUSA*'s Board and management team have made *infoUSA* an industry leader with customers and operations worldwide.

**YOUR BOARD AND MANAGEMENT ARE DEDICATED TO SOUND CORPORATE
GOVERNANCE AND HAVE THE EXPERTISE AND EXPERIENCE TO CONTINUE TO BUILD
VALUE FOR ALL STOCKHOLDERS**

Despite the dissident's inflammatory rhetoric, *infoUSA* is committed to sound corporate governance. *infoUSA* has continually added highly-qualified members to the Board, and today 8 of *infoUSA*'s 9 directors are independent by NASDAQ's Corporate Governance Standards. All of the members of the Board's committees are independent and most of them have experience at companies whose businesses are similar or complementary to *infoUSA*'s business. In addition, all of *infoUSA*'s directors, including the three nominees up for reelection, have relevant public company board experience. *infoUSA*'s nominees are respected and proven business leaders with extensive knowledge and experience. They are highly-qualified and committed to enhancing shareholder value.

In stark contrast, we believe that **Dolphin's nominees have:**

NO working knowledge of *infoUSA*, its business or the industry

NO business plan or strategy for *infoUSA*

NO relevant industry experience

We do not believe that Dolphin's nominees share our vision for the growth and strategic direction of the Company. In contrast to your Board and management, Dolphin has not offered any ideas

for improving operations, growing the Company or creating shareholder value. We believe that election of the dissident's slate could interrupt the implementation of our strategic plan. Furthermore, we believe Dolphin is misleading you when it pretends to have uncovered hidden related party transactions at *infoUSA*.

In fact, all of *infoUSA*'s past related party transactions were fully and properly disclosed in the Company's regulatory filings.

We believe that as a professional investor Dolphin was aware of these properly documented transactions, both when they made their initial investment last June **and as they increased their investment in *infoUSA* substantially since last August.**

DON'T BE MISLED BY DOLPHIN AND ITS PRINCIPAL, DONALD T. NETTER

The *infoUSA* management team has the expertise to continue successfully implementing the Company's strategic plan. We urge you to disregard the dissident's materials and the blue proxy card. We believe that the best way to preserve and enhance the value of your *infoUSA* investment is to **support our three highly qualified nominees – Vinod Gupta, Dr. George Haddix and Dr. Vasant Raval, by signing, dating and returning the enclosed WHITE PROXY CARD today!**

WITH YOUR SUPPORT, *infoUSA*'s BOARD AND MANAGEMENT CAN CONTINUE TO BUILD VALUE FOR ALL SHAREHOLDERS

VOTE *infoUSA*'s WHITE PROXY CARD TODAY

Your Board asks that you support your Board and management team by voting **FOR *infoUSA*'s incumbent directors and AGAINST proposal number 2** on the enclosed WHITE proxy card **today. Your vote is extremely important, no matter how many or how few shares you own.** If you have any questions or need any assistance in voting your shares, please do not hesitate to contact our proxy solicitor, MacKenzie Partners, the firm assisting us in the solicitation of proxies, toll free at (800) 322-2885.

**PRESERVE AND ENHANCE THE VALUE OF YOUR *infoUSA* INVESTMENT
VOTE FOR YOUR BOARD'S NOMINEES AND AGAINST PROPOSAL NUMBER 2
ON THE WHITE PROXY CARD**

Thank you very much for your continued support.

Sincerely,

Vinod Gupta
