SOLICITATION AND REVOCABILITY OF PROXIES

The Board requests your proxy for use at the Annual Meeting of Stockholders to be held on Thursday, May 8, 2008, and at any adjournment or postponement thereof. By signing and returning the enclosed proxy card or granting your proxy by the Internet or by telephone, you authorize the persons named on the proxy card, or in your telephonically or electronically submitted proxy (collectively, the Proxy), to represent you and to vote your shares at the Annual Meeting. This Proxy Statement and the proxy card were first mailed to stockholders of the Company on or about April 7, 2008.

This solicitation of proxies is made by the Board and will be conducted primarily by mail. Officers, directors and employees of the Company may solicit proxies personally or by telephone, electronic mail, telegram or other forms of wire or facsimile communication. The Company may also request banking institutions, brokerage firms, custodians, nominees and fiduciaries to forward solicitation material to the beneficial owners of the Company's common stock (the Common Stock) that those companies hold of record. The costs of the solicitation, including reimbursement of such forwarding expenses, will be paid by the Company.

If you attend the Annual Meeting, you may vote in person. If you are not present at the Annual Meeting, your shares can be voted only if you have returned a properly signed proxy card, are represented by another proxy, or have granted your proxy by the Internet or by telephone. You may revoke your proxy, whether granted by the Internet or by telephone or by returning the enclosed proxy card, at any time before it is exercised at the Annual Meeting by (a) signing and submitting a later-dated proxy to the Secretary of the Company, (b) delivering written notice of revocation of the proxy to the Secretary of the Company, or (c) voting in person at the Annual Meeting. In addition, if you granted your proxy by the Internet or by telephone, you may revoke such grant by resubmitting your proxy by the Internet or by telephone at any time prior to 11:59 p.m., Eastern Daylight Time, on May 7, 2008. In the absence of any such revocation, shares represented by the persons named in the Proxies will be voted at the Annual Meeting.

VOTING AND QUORUM

The only outstanding voting securities of the Company are shares of Common Stock. As of the close of business on the Record Date, there were 50,916,895 shares of Common Stock outstanding and entitled to be voted at the Annual Meeting.

Each outstanding share of Common Stock is entitled to one vote. The presence, in person or by proxy, of a majority of the shares of Common Stock issued and outstanding and entitled to vote as of the Record Date shall constitute a quorum at the Annual Meeting. The holders of a majority of the Common Stock entitled to vote who are present or represented by proxy at the Annual Meeting have the power to adjourn the Annual Meeting from time to time without notice, other than an announcement at the Annual Meeting of the time and place of the holding of the adjourned meeting, until a quorum is present. At any such adjourned meeting at which a quorum is present, any business may be transacted that could have been transacted at the Annual Meeting had a quorum originally been present. Proxies solicited by this Proxy Statement may be used to vote in favor of any motion to adjourn the Annual Meeting. The persons named in the Proxy intend to vote in favor of any motion to adjourn the Annual Meeting to a subsequent day

if, prior to the Annual Meeting, such persons have not received sufficient proxies to approve the proposals described in this Proxy Statement. If such a motion is approved but sufficient proxies are not received by the time set for the resumption of the Annual Meeting, this process will be repeated until sufficient proxies to vote in favor of the proposals described in this Proxy Statement have been received or it appears that sufficient proxies will not be received. Abstentions and broker non-votes will count in determining if a quorum is present at the Annual Meeting. A broker non-vote occurs if a broker or other nominee attending the meeting in person or submitting a

proxy card does not have discretionary authority to vote on a particular item and has not received voting instructions with respect to that item.

PROPOSAL ONE ELECTION OF DIRECTORS

The Board has designated Buford P. Berry, Matthew P. Clifton, Marcus R. Hickerson, Thomas K. Matthews, II, Robert G. McKenzie, Jack P. Reid and Paul T. Stoffel as nominees for election as directors of the Company at the Annual Meeting (each, a Nominee). All of the Nominees currently serve as directors of the Company. If elected, each Nominee will serve until the expiration of his term at the Annual Meeting of Stockholders in 2009 and until his successor is elected and qualified or until his earlier death, resignation or removal from office. For information about each Nominee, see Directors.

The Board has no reason to believe that any of the Nominees will be unable or unwilling to serve if elected. If a Nominee becomes unable or unwilling to serve prior to the election, your proxy will be voted for the election of a substitute nominee recommended by the current Board, or the number of the Company s directors will be reduced.

Required Vote and Recommendation

The election of directors requires the affirmative vote of a plurality of the shares of Common Stock present or represented by proxy and entitled to vote at the Annual Meeting. Accordingly, under Delaware law and the Company s Restated Certificate of Incorporation and Bylaws, abstentions and broker non-votes will not have any effect on the election of a particular director. Unless otherwise instructed in the Proxy or unless authority to vote is withheld, the Proxy will be voted for the election of each of the Nominees.

The Board recommends a vote FOR the election of each of the nominees.

PROPOSAL TWO AUDITORS

In accordance with its charter, the Audit Committee has selected the firm of Ernst & Young LLP, an independent public accounting firm, to be the Company s auditor for the year 2008 and, with the endorsement of the Board of Directors, recommends to the stockholders that they ratify that appointment. Ernst & Young LLP served in this capacity in 2007. Its representative will be present at the Annual Meeting and will have an opportunity to make a statement and will be available to respond to appropriate questions.

The Audit Committee reviewed and approved in advance the audit scope, the types of non-audit services, if any, and the estimated fees for each category for the coming year. For each category of proposed services, Ernst & Young LLP is required to confirm that the provision of such services does not impair their independence. Before selecting Ernst & Young LLP, the Audit Committee carefully considered the firm s qualifications as an independent registered public accounting firm for the Company. This included a review of its performance in prior years, as well as its reputation for integrity and competence in the fields of accounting and auditing. The Audit Committee has expressed its satisfaction with Ernst & Young LLP in all of these respects. The Audit Committee s review included inquiry concerning any litigation involving Ernst & Young LLP and any proceedings by the Securities and Exchange Commission against the firm. In this respect, the Audit Committee has concluded that the ability of Ernst & Young LLP to perform the services for the Company is in no way adversely affected by any such litigation or other proceedings.

The Board and the Audit Committee recommend a vote FOR the ratification of the Board s selection of Ernst & Young LLP as the Company s auditor for 2008.

The fair value of each restricted stock unit grant is amortized over the vesting period. As of December 31, 2007, each of the directors listed above (except for Mr. Norsworthy) held 3,018 unvested restricted shares.

He ceased to be a director at the 2007 Annual Meeting. Although Mr. Norsworthy was also an employee and held the title of an executive of the Company during the first quarter of 2007, he did not perform any policy-making functions for the Company during that period and, as a result, he is treated for purposes hereof solely as a director for 2007. The Company compensated Mr. Norsworthy as an employee and, therefore, did not provide him with the compensation package available to non-employee directors.
- (4) The amount reported for Mr. Norsworthy in the Stock Awards column above reflects the dollar amount recognized by the Company in the year ended December 31, 2007, in accordance with SFAS 123(R), with respect to stock awards to Mr. Norsworthy, and includes amounts for awards granted prior to 2007. See note 5 to our Consolidated Financial Statements for the fiscal year ended December 31, 2007 included in the Company's Annual Report on Form 10-K filed with the SEC on February 29, 2008 for a discussion of the assumptions used in determining the SFAS 123(R) compensation cost of these awards. No stock awards were made to Mr. Norsworthy in 2007, and all stock awards (and/or other equity awards) granted to Mr. Norsworthy prior to 2007 were made to him in his capacity as Chief Executive Officer and/or Chairman of the Board of the Company, as applicable, and not in his capacity as a non-employee member of the Board. Mr. Norsworthy held the following awards that were outstanding as of December 31, 2007 (see footnotes 7(c) and 7(e) to the

Outstanding Equity Awards at Fiscal Year End table below for more information regarding each award):

February 2005 Performance Share Units	44,550 (these shares vested in February 2008)
February 2006 Performance Share Units	20,930

The total market value of Mr. Norsworthy's 65,480 performance share units that were unvested as of December 31, 2007 based upon the closing market price on December 31, 2007, which was \$50.89, is \$3,332,277.

Though not reflected in the above table, Mr. Norsworthy exercised the following stock options during 2007 on the indicated dates and with the indicated exercise price:

Number of Options	Date Exercised	Exercise Price	Average Actual Price for Shares
505,800	October 26, 2007	\$1.75	\$66.56
113,100	October 29, 2007	\$1.75	\$64.25
100,000	October 30, 2007	\$1.75	\$62.15
81,100	October 31, 2007	\$1.75	\$62.07
96,000	October 31, 2007	\$2.975	\$62.07

In May 2004, Mr. Norsworthy was granted 99,800 performance share units (as adjusted for the August 2004 and June 2006 stock splits). Those performance share units were paid at 200% following the Compensation Committee's determination that the total stockholder return of the Company's Common Stock as compared to and ranked with the total stockholder return of the peer group identified in the agreement evidencing the performance share unit grants was above the 76th percentile. Mr. Norsworthy received a cash payment of \$8,463,588.00 for those performance share units in 2007. In addition, pursuant to the early termination provisions of the Holly Corporation Executive Restricted Stock Agreements to which Mr. Norsworthy is a party, the Compensation Committee vested, effective April 5, 2007:

- (a) 53,200 restricted shares with a performance standard (as adjusted for the August 2004 and June 2006 stock splits) granted in May 2004,
- (b) 44,550 restricted shares with a performance standard (as adjusted for the June 2006 stock split) granted in February 2005, and
- (c) 13,953 restricted shares with a performance standard (as adjusted for the June 2006 stock split) granted in February 2006.

In 2007, the total value realized by Mr. Norsworthy (a) upon the exercise of stock options was \$55,947,304 (value realized from the exercise of stock options is equal to the closing price of our Common Stock on the date of exercise less the exercise price multiplied by the number of options exercised (calculated before payment of any applicable withholding or other income taxes)); and (b) upon the vesting of restricted shares, was \$6,787,074 (calculated as the closing price per common share on the date of vesting multiplied by the number of shares that became vested, with no deduction for any applicable withholding or other taxes); and (c) upon the vesting of performance share units was \$8,463,588 (calculated based upon the average price per share for the 30 days of trading prior to the end of the performance period).

Also not reflected in the table above, Mr. Norsworthy was eligible to elect early retirement as of December 31, 2007, under the Company's Retirement Plan (which is a tax-qualified defined benefit plan) and the Company's Retirement Restoration Plan (which is a non-qualified defined benefit plan) (collectively, the pension plans), since he is over age 50 and has more than 10 years of service. As of December 31, 2007, Mr. Norsworthy had 36 years of credited service under the pension plans and the present value, as computed for financial reporting purposes, of his accumulated benefits in the pension plans was \$1,349,168 (more detail regarding our calculation is located in the section titled "Pension Benefits" below). Mr. Norsworthy has not begun receiving benefits under the pension plans; however, Mr. Norsworthy's early retirement benefits payable beginning January 1, 2008, are estimated to be \$9,228 per month payable for his lifetime or \$1,472,300 payable as a lump

sum from the Company's Retirement Plan, and \$19,222 per month payable for his lifetime or \$3,066,880 payable as a lump sum from the Company's Retirement Restoration Plan. Additional information about the pension plans may be found in the section of this proxy entitled Pension Benefits. Mr. Norsworthy's participation in the pension plans was based on his status as Chief Executive Officer and/or Chairman of the Board of the Company, as applicable, and not on his status as a director of the Company.

Guidelines for Stock Ownership for Outside Directors

Under the Company's stock ownership guidelines approved by the Board in 2006, each director is expected to retain fifty percent of his restricted shares until the market value of the Company shares held by the director is equal to \$105,000.

MEETINGS AND COMMITTEES OF DIRECTORS

The Board is comprised of a majority of independent directors as defined in Section 303A.02 of the New York Stock Exchange listing standards. The directors determined by the Board to be independent under this standard are Buford P. Berry, William J. Gray, Thomas K. Matthews, II, Robert G. McKenzie, Paul T. Stoffel, Jack P. Reid and Marcus R. Hickerson.

In determining that Mr. Hickerson is an independent director, the Board considered the fact that Mr. Hickerson's 54-year-old son, M. Neale Hickerson, is employed as a Vice President of the Company and certain subsidiaries, including Holly Logistic Services, L.L.C. From January 2004 to February 2005, M. Neale Hickerson's title as an officer of the Company was Vice President, Treasury and Investor Relations, and his current title is Vice President, Investor Relations. The Board's determination that the employment of M. Neale Hickerson would not interfere with Marcus R. Hickerson's ability to act independently from the management of the Company was based particularly on the fact that Marcus R. Hickerson satisfies all of the independence requirements of Section 303A.02(b) of the New York Stock Exchange (NYSE) rules and of Rule 10A-3 under the Exchange Act. Additionally, the Board based its determination on the role played in the Company by M. Neale Hickerson and the fact that he is not an Executive Officer of the Company.

In determining that Mr. Gray is an independent director, the Board considered the fact that William J. Gray was elected to the New Mexico House of Representatives in November 2006 and that the Company has refining operations in New Mexico. The Board's determination that Mr. Gray's duties as a member of the New Mexico state legislature would not interfere with his ability to act as an independent fiduciary to the Company was based particularly on the fact that Mr. Gray satisfies all of the independence requirements of Section 303A.02(b) of the NYSE and of Rule 10A-3 under the Exchange Act. The Board also considered the conflicts of interest provisions of the Company's Code of Business Conduct and Ethics, discussed such provisions with Mr. Gray and determined that Mr. Gray's duties as a New Mexico state representative do not interfere with the interests of the Company as a whole.

In determining that Mr. Reid is an independent director, the Board considered the fact that Mr. Reid's 47 year old son, Willie D. Reid, is employed as a Manager of Applications Infrastructure Support of the Company. From May 1986 to present, Willie D. Reid has maintained various IT positions, and his current title is Manager, Applications Infrastructure Support of the Company. The Board's determination that the employment of Willie D. Reid would not interfere with Jack P. Reid's ability to act independently from the management of the Company was based particularly on the fact that Jack P. Reid satisfies all of the independence requirements of Section 303A.02(b) of the New York Stock Exchange (NYSE) rules and of Rule 10A-3 under the Exchange Act. Additionally, the Board based its determination on the role played in the Company by Willie D. Reid and the fact that he is not an Executive Officer of the Company.

The Board held eight meetings during 2007. The Board has five principal standing committees: the Executive Committee, the Audit Committee, the Compensation Committee, the Nominating/Corporate Governance Committee, and the Public Policy Committee. Each of the committees is appointed by the Board. During 2007, each director, with the exception of Mr. Norsworthy, attended at least 75% of the total number of meetings of the Board. As a result of Mr. Norsworthy's illness beginning in October 2006, he missed all of the 2007 Board meetings held prior to his ceasing to be a director on May 24, 2007. During 2007, each director except Mr. Norsworthy attended at least 75% of

each of the meetings of the committees of the Board on which that director served. The Company does not have a policy requiring the Chairman of the Board or other directors to attend the Company's Annual Meeting. All of the Company's directors except Mr. Norsworthy attended the 2007 Annual Meeting of Stockholders.

The current members of the Executive Committee are Messrs. Clifton (Chairman), Glancy, Reid and McKenzie. Mr. Norsworthy ceased to be a member and Chairman of the Executive Committee in April 2007

at which time the Board appointed Mr. McKenzie as a member and Mr. Clifton as Chairman. The Executive Committee of the Board has the authority of the Board, to the extent permitted by law and subject to any limitations that may be specified from time to time by the Board, for the management of the business and affairs of the Company between meetings of the Board. During 2007, the committee met three times.

The current members of the Audit Committee are Messrs. McKenzie (Chairman), Berry, Matthews, and Stoffel. The Audit Committee of the Board is responsible for monitoring the Company's internal accounting controls, selecting and engaging independent auditors, subject to ratification by the stockholders, reviewing quarterly and annual reports filed with the SEC, and reviewing certain activities of the independent auditors and their reports and conclusions. In addition, the committee selects persons to conduct internal audits of certain Company transactions and related financial controls and reviews the reports developed from such internal audits. During 2007, the committee met nine times. The Board has adopted a written charter for the Audit Committee, which is available on the Company's website at www.hollycorp.com and is available in print to any stockholder who requests it. As described above, all members of the Audit Committee have been determined to be independent as independence is defined in Section 303A.02 of the New York Stock Exchange's listing standards. The Board has determined that Mr. McKenzie satisfies the requirements of the SEC regulations for an audit committee financial expert and has designated Mr. McKenzie as the Company's audit committee financial expert.

The current members of the Compensation Committee are Messrs. Berry (Chairman), Matthews and McKenzie. The Compensation Committee of the Board is responsible for the oversight of compensation programs and plans for the executive officers of the Company. The Compensation Committee determines the level of compensation, paid to the Company's Chief Executive Officer and all other executive officers. The Compensation Committee is also responsible for establishing and overseeing the compensation program for non-employee directors who serve on the Board. As described above, all members of the Compensation Committee have been determined to be independent as independence is defined in Section 303A.02 of the New York Stock Exchange's listing standards. During 2007, the Compensation Committee met eleven times. The Board has adopted a written charter for the Compensation Committee, which is available on the Company's website at www.hollycorp.com and is available in print to any stockholder who requests it.

The current members of the Nominating/Corporate Governance Committee are Messrs. Matthews (Chairman), Berry, McKenzie and Stoffel. The Nominating/Corporate Governance Committee of the Board is responsible for advising the Board concerning the appropriate composition of the Board and its committees (including identifying individuals qualified to serve on the Board and its committees), the selection of director nominees for each annual meeting of the Company's stockholders, the selection of Executive Officers and officers of the Company, and appropriate corporate governance practices. As described above, all members of the Nominating/Corporate Governance Committee have been determined to be independent as independence is defined in Section 303A.02 of the New York Stock Exchange's listing standards. During 2007, the committee met five times. The Board has adopted a written charter for the Nominating/Corporate Governance Committee, which is available on the Company's website at www.hollycorp.com and is available in print to any stockholder who requests it.

The current members of the Public Policy Committee are Messrs. Hickerson (Chairman), Gray, and Reid. The Public Policy Committee of the Board is responsible for reviewing the Company's policies and procedures on matters of public and governmental concern that significantly affect the Company, including but not limited to environmental, occupational health and safety, and equal employment opportunity matters. The committee is also responsible for recommending to management and the Board the formulation or modification of policies and procedures concerning such matters. During 2007, the committee met four times. As described above, all members of the Public Policy Committee have been determined to be independent as independence is defined in Section 303A.02 of the New York Stock Exchange's listing standards.

DIRECTOR NOMINATION PROCEDURES

All of the Company's directors are elected each year by its stockholders at the annual meeting of stockholders. The Board has specified the number of directors to be seven as of May 8, 2008. The Board is responsible for filling vacancies on the Board at any time during the year, and for nominating director nominees to stand for election at the annual meeting of stockholders. The Nominating/Corporate Governance Committee reviews all potential director

candidates, and recommends potential director candidates to the full Board. Director candidates may be identified by current directors of the Company, employees of the Company or through other sources, including stockholders as described below under Nomination of Directors by Stockholders. The Nominating/Corporate Governance Committee occasionally utilizes the services of search firms or consultants to assist in identifying and screening potential candidates. The Nominating/Corporate Governance Committee has an extensive diligence process for reviewing potential candidates, including an assessment of each candidate's independence under Section 303A.02 of the New York Stock Exchange's listing standards and Rule 10A-3 under the Exchange Act, a candidate's relevant educational, business and financial experience, ability to read and understand financial statements, and other relevant factors, as described under Selection of Directors Criteria in the Company's Corporate Governance Guidelines, which can be found on the Company's web site at www.hollycorp.com. The full Board reviews and has final approval authority on all potential director candidates being recommended to the stockholders for election.

NOMINATION OF DIRECTORS BY STOCKHOLDERS

The Company does not have a formal policy by which its stockholders may recommend director candidates, but the Nominating/Corporate Governance Committee will consider candidates recommended by stockholders. A stockholder wishing to submit such a recommendation should send a letter to the Secretary of the Company at 100 Crescent Court, Suite 1600, Dallas, Texas 75201-6915. The mailing envelope must contain a clear notation indicating that the enclosed letter is a Director Nominee Recommendation. The letter must identify the author as a stockholder and provide a brief summary of the candidate's qualifications based on the criteria described above under Director Nomination Procedures and in the Company's Corporate Governance Guidelines, as well as contact information for both the candidate and the stockholder. Candidates recommended by stockholders will be evaluated by the Nominating/Corporate Governance Committee in the same manner as other candidates submitted by directors, employees or obtained through other sources, although the members of the Nominating/Corporate Governance Committee may prefer candidates who are personally known to the existing directors and whose reputations are highly regarded. In evaluating proposed candidates, the Nominating/Corporate Governance Committee will consider all relevant qualifications as well as the needs of the Company in terms of compliance with the New York Stock Exchange's listing standards and SEC rules.

PRESIDING DIRECTOR AND COMMUNICATIONS WITH THE BOARD

William J. Gray was selected to preside at regularly scheduled meetings of non-management directors. Since Mr. Gray has not been nominated for reelection, a new Presiding Director will be selected at the May 8, 2008 board meeting following the Annual Meeting. Persons wishing to communicate with the non-management directors are invited to email the Presiding Director at presiding.director@hollycorp.com or write to: William J. Gray, Presiding Director, c/o Secretary, Holly Corporation, 100 Crescent Court, Dallas, Texas 75201-6915. Although the Company has not to date developed formal processes by which stockholders may otherwise communicate directly with directors, the Company believes that its process with regard to communicating with non-management directors, and its informal process under which any communication sent to the Board in care of the Chief Executive Officer or Secretary of the Company is forwarded to the Board for consideration, serves the Board's and the stockholders' needs. There is no screening process, and all stockholder communications that are received by officers for the Board's attention are forwarded to the Board.

COMPENSATION DISCUSSION AND ANALYSIS

This compensation discussion and analysis ("CD&A") provides information about the Company's compensation objectives and policies for its principal executive officer, principal financial officer and other most highly compensated executive officers and is intended to place in perspective the information contained in the executive compensation tables that follow this discussion. We provide a general description of the Company's compensation program and specific information about its various components. Immediately following the CD&A is the Compensation Committee Report (the "Committee Report"). Following the Committee Report are compensation tables describing compensation paid in 2006 and 2007 and outstanding equity awards held by executives as of December 31, 2007. At the end of the CD&A is information concerning pension benefits and change in control agreements.

Throughout this discussion, the individuals included in the Summary Compensation Table below and referred to as our "Named Executive Officers" are:

Matthew P. Clifton, Chief Executive Officer and Chairman of the Board

W. John Glancy, Senior Vice President, General Counsel and Secretary

David L. Lamp, President

Stephen J. McDonnell, Vice President and Chief Financial Officer

P. Dean Ridenour, Vice President and Chief Accounting Officer

Objectives of Compensation Program

The Company's compensation program is designed to attract and retain talented and productive executives who are motivated to protect and enhance the long-term value of the Company for its stockholders. The Company's objective is to tie compensation to business and individual performance and to provide competitive total compensation that encourages high levels of performance. The Company's compensation levels are reviewed in light of publicly available information on compensation paid by comparable companies.

The Compensation Committee, comprised entirely of independent directors, administers the compensation program. The Compensation Committee determines and approves the compensation to be paid to the Named Executive Officers.

The Compensation Committee has not adopted any formal policies for allocating compensation among salaries, bonuses and equity compensation. The Compensation Committee, with the assistance of management, has sought to designate an appropriate mix of cash and long-term equity incentive compensation with the goal to provide sufficient current compensation to retain the Named Executive Officers, while at the same time providing incentives to the Named Executive Officers to exert their best efforts to maximize long-term value for the Company and its stockholders. The Compensation Committee considers recommendations by management and many other factors in deciding on the final compensation factors for which it has responsibility for each Named Executive Officer. Except with respect to his own compensation, the Committee solicited the recommendations of our Chairman of the Board and Chief Executive Officer, which the Committee considers in making its determinations.

The Compensation Committee reviewed the total compensation provided to each of the Named Executive Officers in the previous year in determining compensation to be paid in 2007. The Compensation Committee, with the assistance of management, annually reviews each of the Named Executive Officers' proposed long-term incentive compensation to determine whether the executives are being provided with equity awards that are effective in motivating the Named Executive Officers to create long-term value for the Company. The Compensation Committee also takes into consideration the compensation of comparable executives in similarly situated businesses. The Compensation Committee has engaged Frederic W. Cook & Co., an outside consulting firm specializing in executive compensation, to advise the Compensation Committee on matters related to executive and non-employee director compensation. Frederic W. Cook & Co. provides the Committee with relevant market data, updates on related trends and developments, advice on program design, and input on compensation decisions for executive officers and non-employee directors. The consultant is independent, retained directly by the Committee, and provides no other services directly to the Company, however, Frederic W. Cook & Co. also provides independent compensation consulting services to HEP's Compensation Committee.

After reviewing both the internal evaluations of the Named Executive Officers and the market data provided by Frederic W. Cook & Co., the Compensation Committee believes that the 2007 compensation for the Named Executive Officers reflects an appropriate allocation of compensation to salary, bonuses and equity compensation.

Overview of 2007 Executive Compensation Components

The components of compensation for the Named Executive Officers in 2007 were:

- base salary;
- annual incentive cash bonus compensation;
- long-term incentive equity compensation;
- retirement and benefit plans; and
- Change in Control Agreements;

Base Salary

Base salary for the Named Executive Officers for 2007 was approved in February 2007 by the Compensation Committee based on each executive's position, level of responsibility and individual performance, the Company's salary range for individuals at such executive's level, and market practices. The Compensation Committee also reviewed competitive market data relevant to each position provided by Frederic W. Cook & Co. This market data analysis is discussed in detail below under the paragraph titled "Review of Market Data."

The 2007 salary amounts are set forth in the Summary Compensation Table.

Annual Incentive Cash Bonus Compensation

Payment with respect to annual cash bonuses to Named Executive Officers is contingent upon the satisfaction of pre-established objective and subjective performance criteria as they apply to each individual Named Executive Officer. The amounts are disclosed in the Summary Compensation Table and described in greater detail in the narrative following the 2007 Grants of Plan-Based Awards table. Generally, payment with respect to any cash bonus is contingent upon the satisfaction of the following criteria:

A portion of the Named Executive Officer's bonus will equal a pre-established percentage of that executive's base salary, and is earned only if we achieve a pre-tax net income (PTNI) goal (for 2007, this number was \$256,000,000). This component of the bonus will be subject to a minimum and maximum adjustment percentage, as individually set for each Named Executive Officer. If the PTNI goal is met, the Committee uses discretion in determining the percentage paid. Subject to the requirement that the PTNI goal is met, the adjustment of up to the multiple indicated in the section below titled Annual Incentive Cash Bonus Compensation times the employee's pre-established percentage may vary from year to year in the Committee's discretion.

A portion of the bonus is equal to a pre-established percentage of the employee's base salary, and is earned only if our performance for the year outperforms that of our peers. This peer performance review includes factors such as earnings per share, return on investment and return on assets. This component is subject to being adjusted to a minimum amount of 0% and a maximum amount of the multiple indicated in the section below titled "Annual Incentive Cash Bonus Compensation" times the employee's pre-established percentage. If the goal is met, the Committee retains discretion to reduce the percentage paid. Subject to the requirement that this goal is met, any reduction to the indicated multiple times the employee's pre-established percentage may vary from year to year in the Committee's discretion.

The Compensation Committee may also require that a portion of the Named Executive Officer's bonus will equal a pre-established percentage of base salary, based upon the executive's individual performance over the year. This component of the bonus will also be subject to a minimum and maximum adjustment percentage, as individually set for each Named Executive Officer. In 2007, Messrs. Glancy, McDonnell and Ridenour were subject to the individual performance requirement, and each of the executives were evaluated through an annual performance review completed in February 2008, which review considered how well the individuals performed various goals for 2007 and considered and evaluated each individual's performance for the year.

The total bonus pool for all executives and non-bargaining unit employees of the Company is typically determined by the Compensation Committee after the end of each year or designated performance period, calculated pursuant to the achievement of the objective pre-established criteria described above. In determining the total bonus pool, the Compensation Committee reviews the performance of the Company during the previous year and the recommendation of management. Awards for a given year are paid in cash in the first quarter of the following year. See the narrative following the Grants of Plan Based Awards Table below for a more detailed description of the bonuses awarded to the Named Executive Officers and earned in 2007.

Before the end of the first calendar quarter of each year, the Compensation Committee approves the individual awards, performance measures and targets to be used for the upcoming calendar year in determining the cash bonus amounts to be paid. Performance targets may be based on any factors as the Compensation Committee may determine. In setting performance targets, the Compensation Committee reviews recommendations from management. The 2008 performance goals are the same as those used in 2007 except that the PTNI goal is measured against the Company's 2008 PTNI goal.

In addition to the pre-defined performance criteria, the Compensation Committee has discretion to approve a decrease in a Named Executive Officer's bonus by using the same performance objectives for determining a bonus award, but noting that the objectives were not met or did not reach acceptable levels. In the case where the Compensation Committee believes that additional compensation is warranted to reward an executive for outstanding performance in a particular situation, the Compensation Committee may award additional bonuses in its discretion. In making the determination as to whether to exercise the discretion to either decrease an award or provide additional discretionary bonuses, the Compensation Committee reviews recommendations from management, except in the case of compensation for Mr. Clifton, for whom the Compensation Committee makes its determinations without management recommendations. For 2007, as in 2006, the Committee approved a discretionary increase in some bonuses as shown in the Summary Compensation Table. All bonuses were paid in March 2008.

The Compensation Committee also reviewed an analysis of competitive market data prepared by the Committee's independent compensation consultant comparing compensation of our Named Executive Officers, including the bonus payments, to our peers and market practices (see the paragraph below titled "Review of Market Data" for further discussion). The annual incentive targets were assessed on the basis of total cash, including base salary and annual incentive payments.

The targets and actual annual incentive cash bonus compensation awarded, and subsequently earned and payable, for each of the Named Executive Officers is described in the narrative following the 2007 Grants of Plan-Based Awards table.

Long-Term Incentive Equity Compensation

Long-term equity compensation is the cornerstone of the total compensation program for our Named Executive Officers, and receives the heaviest weighting of all elements. It is intended to be a key element in driving the creation of value for investors and in attracting and retaining executives capable of effectively executing our business strategies. Equity awards are provided under the Long-Term Incentive Compensation Plan (the Plan) that was adopted by the Board in October 2002 and approved by the Company's stockholders at the December 2002 Annual Meeting and as amended and restated and approved by the Company's stockholders at the May 2007 Annual Meeting. The Plan is administered by the Compensation Committee.

While the Plan permits multiple types of awards, our long-term equity incentive program currently consists of restricted stock and performance share unit awards to the Company's Named Executive Officers as described in more detail below. In 2007, the total long-term incentive award for our Named Executive Officers was equally split 50% in restricted stock and 50% in performance share units.

In determining the appropriate amount and type of long-term incentive awards to be made, the Compensation Committee considers the Named Executive Officer's position, scope of responsibility, base salary, performance and market compensation information for executives in similar positions in similar companies, prior year awards, and recommendation of the Chief Executive Officer (except in regard to his own award). The awards are granted annually during the first quarter of the year. Our goal is to reward the creation of value and high performance with variable compensation dependent on that performance, thus the market data is used subjectively (and not as an objective factor) to confirm that our executives are paid appropriately relative to other similar companies. The peer data allows the Committee to verify that the compensation paid to executives is appropriate. The total compensation may be adjusted if the Committee observes material variation of the market data (no specific formula is used to benchmark this data).

Messrs. Clifton, McDonnell and Ridenour also receive long-term incentive compensation from HEP, in which the Company owns a 46% interest (including the general partner interest). Please refer to Item 11 of HEP's Form 10-K for the fiscal year ended December 31, 2007 for further information concerning the compensation provided by HEP to Messrs. Clifton, McDonnell and Ridenour.

Restricted Stock Awards

A restricted stock award is an award of shares of Common Stock which is subject to forfeiture upon termination of employment prior to the vesting of the award. The Compensation Committee may approve grants on the terms that it determines, including the period during which the award will vest. Under the Plan, the Compensation Committee may condition vesting upon the achievement of specified financial objectives. The restricted stock will vest upon a change of control of the Company, unless provided otherwise by the Compensation Committee in the agreement granting the award. Named Executive Officers holding restricted stock have all the rights of a stockholder with respect to such restricted stock, including the right to receive all dividends paid with respect to such restricted stock and the right to vote with respect to the restricted stock, subject to limitations on transfer and disposition of the restricted stock during the restricted period. Restricted stock is subject to forfeiture in the event that the executive's employment or service relationship terminates, unless and to the extent that the Compensation Committee provides otherwise.

In 2007, Messrs. Clifton, Glancy and Lamp were granted awards of restricted stock vesting in three equal annual installments. The awards for Messrs. Clifton, Glancy and Lamp also included performance requirements, one effect of which is to preserve the tax deductibility of the awards. Other specific terms for each Named Executive Officer are described in the narrative following the Grant of Plan Based Awards Table.

Performance Share Unit Awards

A performance share unit is a notional unit that entitles the executive to receive, as may be provided in the applicable agreement governing the award, Common Stock or a cash amount equal to the value of the stock upon the vesting of the performance share units. A performance share unit will be earned depending upon our performance versus that of the group of peer companies listed below in the section titled [Review of Market Data](#). The terms of

an award are determined by the Compensation Committee at the time of the award, including the number of units in each grant, the performance targets, the method of determining the amounts payable for different levels of performance, and the nature and timing of payment. The specific goals for these awards are specified below in the footnotes to the tables titled "2007 Grants of Plan-Based Awards" and "Outstanding Equity Awards at Fiscal Year End." As with restricted stock awards, performance share units will vest upon a change of control of the Company, unless provided otherwise by the Compensation Committee. Performance share units are also subject to forfeiture in the event that the executive's employment or service relationship terminates, unless and to the extent that the Compensation Committee provides otherwise.

In 2007, all of our Named Executive Officers were granted awards of performance share units. The performance period for such awards will be from January 1, 2007 through September 30, 2009 with an additional service period ending on December 31, 2009. Other specific terms of the awards, including the performance criteria and goals, are described in the narrative following the 2007 Grants of Plan Based Awards table.

Review of Market Data

Market pay practices are one of many factors considered by the Compensation Committee in setting compensation for the Named Executive Officers. We regularly compare our compensation program with market information regarding salary and annual incentive levels, long-term incentive award levels, and short and long term incentive programs. The purpose of this analysis is to provide a frame of reference in evaluating the reasonableness and competitiveness of compensation with the energy industry and to ensure that our compensation is generally comparable to companies of similar size and scope of operations. Market pay levels are obtained from various sources including published compensation surveys and information taken from the SEC filings of a number of similarly situated companies as compiled by our independent consultant. The Compensation Committee reviews and discusses market data and recommendations provided by an established, independent consulting firm specializing in executive compensation issues. The benchmark group that the Compensation Committee reviewed in the fall of 2006 in order to set 2007 compensation was comprised of Cameron International Corporation, Crosstex Energy, El Paso Corporation, FMC Technologies, Frontier Oil Corporation, Giant Industries, Hanover Compressor Company, Maverick Tube Corporation, Murphy Oil Corporation, Tesoro Petroleum Corporation, Western Gas Resources and Williams Companies. The Company's objective is to position pay levels at approximately the middle range of market compensation. As noted, however, market pay levels are only one factor considered, with pay decisions ultimately reflecting an evaluation of individual contribution and value to the Company.

The consultant does not have approval authority for the ultimate compensation that is provided to employees. Instead, the consultant provides information and recommendations to the Committee and identifies the areas that do not appear to be consistent with the general practice of our peer group of companies (without setting specific benchmarks and using a discretionary standard). The consultant provided information and recommendations regarding compensation to management and to the Compensation Committee prior to the meetings when salaries were approved, bonuses were awarded and equity compensation was established.

Role of Named Executive Officers in Determining Executive Compensation

In making executive compensation decisions, the Compensation Committee solicits the recommendations of the Company's Chief Executive Officer (except with respect to his own compensation) and various other members of management. Management facilitates the Compensation Committee's consideration of compensation for Named Executive Officers by providing data for the Compensation Committee's review. This data includes, but is not limited to the Company's annual budget as approved by the Board, the Company's financial performance over the course of the year versus that of the Company's peers, performance evaluations of the Named Executive Officers (other than for the Chief Executive Officer and Chairman of the Board, who is evaluated by the Compensation Committee),

compensation provided to the Named Executive Officers in previous years, and tax and accounting related considerations. Management provides the Compensation Committee with guidance as to how such data impacts pre-determined performance goals set by the Compensation Committee. When management considers a discretionary bonus to be appropriate for a Named Executive Officer (other than for the Chief Executive Officer and Chairman of the Board), it will suggest an amount and provide the Compensation Committee with management's rationale for such bonus. Given the day-to-day familiarity that management has with the work performed by the

Named Executive Officers, the Compensation Committee values management's recommendations. However, the Compensation Committee makes all final decisions as to the compensation of the Named Executive Officers. For 2007, after consideration of management's recommendations regarding discretionary increases in the bonuses, and discussion regarding such increases, the Compensation Committee approved discretionary increases in some bonuses as shown in footnote 2 to the Summary Compensation Table.

Guidelines for Stock Ownership for Executives

Under the Company's stock ownership guidelines approved by the Board in 2006, each Named Executive Officer is expected to retain fifty percent of the after-tax shares received from restricted share and performance share units awards made in 2006 and subsequent years until his ownership equals the following levels:

Matthew P. Clifton	120,000 Shares
W. John Glancy	20,000 Shares
David L. Lamp	40,000 Shares
Stephen J. McDonnell	20,000 Shares
P. Dean Ridenour	20,000 Shares

Shares owned from any source count toward meeting the guideline, but shares relating to unexercised stock options and unvested restricted shares and/or performance share units do not count.

Tax and Accounting Implications

We account for the equity compensation expense for our employees and executive officers, including our Named Executive Officers, under the rules of SFAS 123(R) which require the Company to estimate and record an expense for each award of long-term incentive compensation over the vesting period of the award.

With respect to Section 162(m) of the Internal Revenue Code ("Tax Code") and underlying regulations pertaining to the deductibility of compensation to named executive officers, the Company has adopted a policy to comply with such limitations to the extent practicable. The Plan has been approved by the Company's stockholders. As a result, certain elements of the Plan are designed to provide performance-based incentive compensation which would be fully deductible under Section 162(m). Restricted stock and performance share unit grants made to Named Executive Officers in 2007 are intended to be fully deductible under Section 162(m). Prior to 2007, some Named Executive Officers received restricted stock awards prior to becoming Named Executive Officers that do not contain performance-based incentives and may not comply with Section 162(m). Annual incentives are also generally intended to be compliant with Section 162(m). However, the Compensation Committee has determined that some flexibility is required, notwithstanding the statutory and regulatory provisions, in negotiating and implementing the Company's incentive compensation programs. It has, therefore, retained the discretion to award some bonus payments based on non-quantitative performance measurements and other criteria that it may determine, in its discretion, from time to time.

In addition, Section 280G of the Tax Code prohibits the deduction of any excess parachute payment. Benefits payable under the Change in Control Agreements entered into with certain of our executives as well as accelerated vesting under restricted stock and performance share awards could result in excess parachute payments that are not deductible by the Company. Amounts payable and benefits available upon the occurrence of certain change in control transactions are described below in the section title "Potential Payments Upon Termination or Change in Control."

Retirement and Benefit Plans

The Holly Retirement Plan

The Company's tax-qualified defined benefit retirement plan is described below in the narrative accompanying the Pension Benefits Table. As of January 1, 2007, this plan was no longer made available to newly hired employees who were not represented under a collective bargaining agreement. Instead, as of January 1, 2007, new employees who were not represented under a collective bargaining agreement were automatically enrolled in the Thrift Plan to

which the Company makes an automatic contribution of 5% of the employee's base compensation on an annual basis, in addition to making matching contributions as described below. Most employees who are not represented by a collective bargaining agreement and were hired prior to January 1, 2007, were provided with a one-time choice to either continue earning benefits in the Holly Retirement Plan or to freeze benefits in the Holly Retirement Plan and begin receiving a 5% Automatic Thrift Plan Contribution. Regardless of their choice, these employees are eligible for matching contributions under the Thrift Plan.

Retirement Restoration Plan

We have an unfunded Retirement Restoration Plan that provides for additional payments from us so that total retirement plan benefits for certain executives are not limited to the maximums set in the Tax Codes. This Plan is more particularly described below in the section titled Pension Benefits.

Thrift Plan for Employees of Holly Corporation, its Affiliates and Subsidiaries

The Company's Thrift Plan, which is a tax-qualified defined contribution plan, is offered to all employees of the Company. In 2006, employees had the option to participate in both the Company's Retirement Plan and the Thrift Plan. Employees were permitted to make contributions to the Thrift Plan of 0% up to a maximum of 50% of their compensation. In 2007, for employees not covered by a collective bargaining agreement with labor unions, the Company matched employee contributions to the Thrift Plan up to 6% of their compensation (increased from 4% in 2006). These employees were also allowed to participate in the Automatic Thrift Plan Contribution feature, where up to 5% of base pay, subject to the applicable IRS limits, is contributed in addition to the employee deferrals and employer matching contributions for that employee. Employee contributions that were made on a tax-deferred basis were generally limited to \$15,500 per year, with employees over 50 years of age able to make additional tax-deferred contributions of \$5,000. Employees may direct Company contributions to be invested in Common Stock. Prior to 2007, the Company's contributions in the Thrift Plan did not vest until the earlier of three years of credited service or termination of employment due to retirement, disability or death. Beginning in 2007, matching contributions to noncollective bargaining unit employees vest immediately. The Automatic Thrift Plan Contribution vests after three years of credited service.

In 2007, each of the Named Executive Officers participated in the Thrift Plan and received matching contributions from us. These amounts are further described in the Summary Compensation Table.

Employee Stock Ownership Plan

Many employees of the Company and eligible affiliates with at least one year of service, other than employees covered by collective bargaining agreements, participated in an Employee Stock Ownership Plan (ESOP) established in 1985. For the 1987 through the 1996 fiscal years, shares of Common Stock held by the ESOP were allocated to the accounts of participants for each fiscal year on the basis of payments of principal on the ESOP's ten-year installment note issued to the Company in connection with the ESOP's purchase of Common Stock from the Company. Shares were allocated to participants based on their eligible compensation. Participants' shares vested upon the earlier of five years' credited service or termination of employment due to retirement, disability or death. Effective August 1, 1999, the ESOP was merged into the Thrift Plan and each participant's ESOP account became a Company Stock ESOP Account in the Thrift Plan. Over the twelve months ending October 2002, shares in the Company Stock ESOP Account for each participant were gradually shifted to each participant's regular Thrift Plan account and consequently became subject to the participant's directions as to holding or selling such shares.

ESOP Restoration Plan

The Company adopted an ESOP restoration plan to provide additional benefits to executives whose allocations of shares of Common Stock from the ESOP for the 1995 and 1996 fiscal years were reduced because of the application of limitations of the Tax Code. The Plan provides for the grant to participants after the end of the 1995 and 1996 fiscal years of phantom shares equal in number to the number of shares not allocated to participants because of the limitations of the Tax Code. The phantom shares under the plan are unsecured rights to cash payments based on dividends paid on shares of Common Stock and on the market value of such shares at future

dates. Payments based on market value of Common Stock are generally due 40 days after termination of employment or the date of final distribution to the officer under the ESOP unless the officer elects to defer payments to future dates that may not be later than 60 days after the officer's death or permanent disability.

A total of 61,880 phantom shares were granted to participants for the 1995 and 1996 fiscal years. As of December 31, 2007, Mr. Clifton was the only Named Executive Officer to hold phantom shares, and he held 10,720 phantom shares.

Change in Control Agreements

The Company has entered into Change in Control Agreements with our Named Executive Officers to provide for management continuity in the event of a change in control, and to assist in the recruitment and retention of executives. The material terms and a quantification of the potential amount payable under the Change in Control Agreements with the Named Executive Officers are set forth below in the section titled Potential Payments Upon Termination or Change in Control. The Company has not entered into any employment agreements with any of the Named Executive Officers, other than these Change in Control agreements and other than the Consulting Agreement with Mr. Ridenour described below in footnote 12 to the Outstanding Equity Awards at Fiscal Year End Table.

(1) Salaries were adjusted by the Compensation Committee in February 2007 but were inadvertently not made retroactively effective to January 1, 2007 as intended for Messrs. Clifton, Glancy and Lamp. This retroactive adjustment will be made, without interest, in 2008 for Messrs. Clifton, Glancy and Lamp.

(2) Annual bonuses for services performed in 2007 were paid in March 2008. Amounts in this column reflect the discretionary bonus that is in excess of the pre-established maximum amount potentially payable pursuant to our annual incentive bonus arrangement reported in the Non-Equity Incentive Plan Compensation column.

(3)

Represents the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with SFAS No. 123(R). The amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. See note 5 to our consolidated financial statements for the fiscal year ended December 31, 2007 included in the Company's Annual Report on Form 10-K filed with the SEC on February 29, 2008 for a discussion of the assumptions used in determining the SFAS 123(R) compensation cost of these awards. With respect to performance share units awarded in 2007, the amount was based on an estimated payment of 150% of the award. The terms of the 2007 performance share unit awards and the 2007 restricted stock awards are provided below in the narrative following the 2007 Grants of Plan-Based Awards table.

- (4) The annual bonus amounts for services performed in 2007 (paid in March 2008) reflect the pre-defined target percentages that were allocated to the components which are described below in greater detail in the narrative following the 2007 Grants of Plan-Based Awards table.

- (1) This reflects a target and maximum bonus award amount for each Named Executive Officer equal to the percentages set forth below in the section titled Annual Incentive Cash Bonus Compensation.
- (2) This reflects the Compensation Committee's grant of performance share units as described below in the section titled Performance Share Unit Agreement Terms. The amount shown in column (f) reflects the minimum

payment amount of 0%, the amount shown in column (g) reflects the target amount of 100% and, for disclosure purposes only, the amount shown in column (h) reflects the maximum payment level of 200%.

- (3) The terms of the grants are described below in the section titled Restricted Stock Agreement Terms.
- (4) This reflects the closing price of \$55.47 at the date of grant for both restricted stock and performance share units. With respect to performance share units, this reflects an assumed payment of the maximum number of shares under the performance share unit award.

Performance Share Unit Agreement Terms

Under the terms of the Performance Share Unit Agreements, dated February 28, 2007, that each of the named executive officers executed pursuant to the Plan, recipients of performance share units may earn from 0% to 200% of the number awarded. The performance share units represent an award for a designated performance and related service period. At the end of the required periods, recipients are entitled to a number of shares of Common Stock equal to a percentage of the awarded units as determined by reference to the Company's performance on three performance measures compared to the performance by the Company's defined peer group on the same three measures.

The three measures are earnings per share (EPS) growth, return on assets, and return on investment. The Company's performance comparison group consists of Alon USA Energy, Inc., Cooper Cameron Corporation, Crosstex Energy, Inc., El Paso Corp., FMC Technologies, Inc., Frontier Oil Corporation, Giant Industries, Inc., Hanover Compressor, Marathon Oil Corporation, Maverick Tube Corporation, Murphy Oil Corporation, Sunoco Inc., Tesoro Corporation, Valero Energy Corporation, Western Gas Resources, and Williams Companies Inc. If a member of the peer group ceases to be a public company during the performance period (whether by merger, consolidation, liquidation or otherwise) or it fails to file financial statements with the Securities and Exchange Commission in a timely manner, it shall be treated as if it had not been a peer group member for the entire performance period.

EPS growth means the compound annual growth rate in earnings per share before extraordinary items and discontinued operations, and after the effect of conversion of convertible preferred stock, convertible debentures, and options and warrants that have been identified as common stock equivalents. Return on assets means the net income before extraordinary items, divided by total assets (i.e., the sum of current assets, net plant, and other non-current assets). Return on investment means the net income before extraordinary items, divided by the sum of long-term debt, preferred stock and total common equity.

The number of shares of Common Stock payable is equal to the result of multiplying the number of performance share units granted by the average of the percentile ranking of the Company's performance on the performance measures over the performance period as compared to the performance comparison group's performance on such measures over the performance period, multiplied by two. The average is determined by adding the Company's percentile ranking on each performance measure and dividing the sum by three.

If any of the award recipients' employment terminates prior to December 31, 2009 other than due to a change in control event, death, disability or retirement, as those terms are defined and described in the applicable award agreements, he will forfeit his award. The change in control provisions of performance share units are described below under the section titled Potential Payments Upon Termination or Change in Control. In the event of an award recipient's death, total and permanent disability (as determined by the Compensation Committee in its sole discretion) or retirement after attaining age 62 (or retirement after attaining an earlier retirement age approved by the Compensation Committee in its sole discretion), the recipient shall forfeit a number of units equal to the percentage that the number of full months following the date of separation, death, disability or retirement to the end of the

performance period bears to 36. Any remaining units that are not vested will become vested. In its sole discretion, the Compensation Committee may make a payment assuming a performance percentage of up to 200% instead of the prorated number. The amounts shown generally in the table above in column (f) reflect the minimum payment amount of 0%, the amounts shown in column (g) reflect the target amount of 100% and the amounts shown in column (h) reflect the maximum payment level of 200%.

Restricted Stock Agreement Terms

Under the terms of the 2007 restricted stock grant agreements for the named executive officers, one third of the restricted shares vested in February, 2008 when the satisfaction of the performance standard was confirmed by the Compensation Committee. Except in the case of certain early terminations of employment, one-third of these awards will become fully vested and nonforfeitable after December 31, 2008 and the final one-third will become fully vested and nonforfeitable after December 31, 2009 in each case if the performance standard is achieved. For purposes of the 2007 restricted stock awards for the Named Executive Officers, the performance standard for any quarter is the average Quarterly Adjusted Net Income (as defined below) per diluted share of not less than \$0.68 for the period that began on October 1, 2007 and ends at the end of the quarter considered, computed as a simple average of the Quarterly Adjusted Net Income per diluted share for each quarter in such period. Quarterly Adjusted Net Income means net income for a quarter, as reported by the Company in its filings with the Securities and Exchange Commission, adjusted to exclude the effects of recoveries or liabilities resulting from litigation and administrative proceedings involving the Company and its subsidiaries. The performance standard referenced in this section applies only to Messrs. Clifton, Glancy and Lamp. Restricted stock awards granted to Messrs. McDonnell and Ridenour are not subject to performance conditions and vest in three annual installments. The first one-third of the award vested in January 2008, and the remaining two-thirds will vest on January 1, 2009 and January 1, 2010 provided the executives continue employment with (or provide services for, in the case of Mr. Ridenour) the Company.

In the event of a recipient's death, total and permanent disability (as determined by the Compensation Committee in its sole discretion) or retirement after attaining age 62 (or retirement after attaining an earlier retirement age approved by the Compensation Committee in its sole discretion), a recipient shall forfeit a number of shares equal to (i) the total award times (ii) the percentage that the period of full months beginning on the first calendar month following the date of death, disability or retirement and ending on December 31, 2009 bears to 36. Any remaining shares that are not vested will become vested. In its sole discretion, the Compensation Committee may decide to vest all of the shares in lieu of the prorated number. Recipients are stockholders with respect to all of the restricted shares and have the right to receive all distributions paid with respect to such restricted shares. The change in control provisions of this award are described below under the section titled Potential Payments Upon Termination or Change in Control. Assuming the quarterly adjusted net income standard is met as set forth in each case above, the awards, subject to performance conditions will become vested on the date that the Compensation Committee certifies that the Company has met the applicable standards.

Annual Incentive Cash Bonus Compensation

The bonuses that are available to the Named Executive Officers as annual incentive bonuses are based upon pre-set percentages of salary, achieved by reaching certain target performance levels. A description of the pre-established performance criteria utilized in 2007 can be found above in the CD&A under the section titled Annual Incentive Cash Bonus Compensation. The following chart reflects the target percentages that were set for the Named Executive Officers and the actual percentages awarded to each individual.

Name	Percent of Salary Based on PTNI	Percent of Salary Based on Peer Financial Results	Percent of Salary Based on Individual Performance	Maximum Multiplier (multiple of target)	Percent of Salary Maximum Possible Incentive Compensation ⁽¹⁾

(1) As described above, the Compensation Committee has discretion to award more or less than the maximum possible incentive compensation by either reducing the maximum percentage or by awarding additional bonus amounts in addition to the incentive cash compensation.

(a) Restricted stock awards with a performance standard (as adjusted for the August 2004 and June 2006 stock splits) were made in May 2004. Pursuant to the terms of the grant, one-third of the restricted stock became fully vested and non-forfeitable in February 2007. Except in the case of early termination, after December 31, 2007 (i) another one-third of the restricted stock (the 2008 shares) will vest if our average quarterly adjusted net income per diluted share is at least \$0.12 for the period from October 1, 2007 through any quarter ending on or before December 31, 2009, and (ii) the remaining one-third (the 2009 shares) will vest if our average quarterly adjusted net income per diluted share is at least \$0.12 for

the period from October 1, 2008 through any quarter ending on or before December 31, 2009. Assuming the quarterly adjusted net income standard is met as set forth in each case above, the 2008 shares, and/or the 2009 shares, as the case may be, will become vested on the date that our Compensation Committee certifies that we have met the applicable standard(s).

- (b) Restricted stock awards with a performance standard (as adjusted for the June 2006 stock split) were made in February 2005. Pursuant to the terms of the grant, except in the case of early termination, after December 31, 2007 (i) one-third of the restricted stock (the 2008 shares) will vest if our average quarterly adjusted net income per diluted share is at least \$0.12 for the period from October 1, 2007 through any quarter ending on or before December 31, 2010, (ii) one-third (the 2009 shares) will vest if our average quarterly adjusted net income per diluted share is at least \$0.12 for the period from October 1, 2008 through any quarter ending on or before December 31, 2010, and (iii) one-third (the 2010 shares) will vest if our average quarterly adjusted net income per diluted share is at least \$0.12 for the period from October 1, 2009 through any quarter ending on or before December 31, 2010. Assuming the quarterly adjusted net income standard is met as set forth in each case above, the 2008 shares, the 2009 shares and/or the 2010 shares, as the case may be, will become vested on the date that our Compensation Committee certifies that we have met the applicable standard(s).
- (c) Performance share units (as adjusted for the June 2006 stock split) were awarded in February 2005 for a designated performance period. The performance period for these awards ended on December 31, 2007. At the end of the performance period, the individual is entitled to shares of the Company's Common Stock equal to the number of performance share units subject to the award times the applicable performance percentage as described below, except that Mr. Clifton will receive that amount in a cash payment. The performance percentage is determined by reference to our total stockholder return (the TSR) compared to the TSR of a select group of peer companies (the Peer Group). TSR includes both appreciation in share price during the performance period and the assumed reinvestment of any dividends declared into additional shares at the time dividends are paid. The amount payable in cash or in stock, as applicable, at the end of the performance period is determined by multiplying the number of units subject to the award by a Performance Percentage, which may be from 0% to 200%. The number of shares disclosed in this footnote (7) represents the number of units subject to the award, before adjustment by the Performance Percentage. The Performance Percentage is determined in accordance with the following schedule:

Performance Schedule

Performance Percentage to be multiplied by units based upon our TSR versus the TSR of the Peer group

Our TSR as Compared to The Peer Group TSR Percentile Ranking	Performance Percentage (%) to be Multiplied by Units
35 th percentile or less	0 %
36 th - 45 th percentile	50 %
46 th - 55 th percentile	75 %
56 th - 65 th percentile	100 %
66 th - 75 th percentile	150 %
76 th percentile or greater	200 %

For Mr. Clifton only, after the number of units is multiplied by the applicable Performance Percentage depending upon our TSR ranking as compared to the Peer Group, that amount will be further multiplied by

our average share price for the final thirty-day trading period of the performance period (the Share Price) and Mr. Clifton will receive that amount in the form of a cash payment. Under the terms of the February 2005 performance share unit award, except in the case of early termination, the period for determining what percentage of the performance share units will be earned ended on December 31, 2007, with payment to be made as soon as reasonably practicable thereafter.

- (d) Restricted stock awards with a performance standard (as adjusted for the June 2006 stock split) were made in February 2006. Pursuant to the terms of the grant, one-third of the restricted stock was fully vested and

non-forfeitable after December 31, 2006. Except in the case of early termination of employment, after December 31, 2007 (i) another one-third of the restricted stock (the 2008 shares) will vest if our average quarterly adjusted net income per diluted share is at least \$0.23 for the period from October 1, 2007 through any quarter ending on or before December 31, 2009, and (ii) the remaining one-third (the 2009 shares) will vest if our average quarterly adjusted net income per diluted share is at least \$0.23 for the period from October 1, 2008 through any quarter ending on or before December 31, 2009. In the event of the individual's death, total and permanent disability (as determined by our Compensation Committee in its sole discretion), or retirement after attaining age 62 (or some earlier retirement age approved by our Compensation Committee in its sole discretion), the individual shall forfeit a number of shares equal to (i) the total shares originally subject to the award, times (ii) the percentage that the period of full months beginning on the first calendar month following the date of death, disability or retirement and ending on December 31, 2008, bears to 36, and any remaining shares that are not vested will become vested, except that in its sole discretion, our Compensation Committee may decide to vest all of the shares in lieu of the prorated number. The individual will be a stockholder with respect to all of the restricted shares and will have the right to receive all distributions paid with respect to such restricted shares. The change in control provisions of this award are described below in the section titled Potential Payments upon Termination or Change in Control. Assuming the quarterly adjusted net income standard is met as set forth in each case above, the 2008 shares and/or the 2009 shares, as the case may be, will become vested on the date that our Compensation Committee certifies that we have met the applicable standards.

- (e) Performance share units (as adjusted for the June 2006 stock split) were awarded in February 2006. Pursuant to the terms of the grant, the individual may earn from 0% to 200% of the performance share units for the designated performance period. The performance period for these awards ends on December 31, 2008. The number of shares disclosed in this footnote (7) represents the number of units subject to the award, rather than the number of shares potentially payable in the event the maximum performance threshold is attained. At the end of the performance period, the individual is entitled to a number of shares of Common Stock equal to a percentage of the awarded units as determined by reference to our performance on four performance measures compared to the performance by members of our defined peer group on the same four measures. The four measures are earnings per share growth, net profit margin, return on assets, and return on investment. Our peer group was the same as described above in the section titled Review of Market Data. The number of shares of our Common Stock payable is equal to the result of multiplying the number of performance share units granted by the average of the percentile ranking of our performance on the performance measures over the performance period as compared to the peer group's performance on such measures over the performance period, multiplied by two. The average is determined by adding our percentile ranking on each performance measure and dividing the sum by four. The terms regarding change in control, death and disability are the same as described for the 2007 performance share unit awards.
- (f) Restricted stock awards with a performance standard were made in February 2007. The vesting dates for these awards are described above in the narrative disclosures in the section titled Restricted Stock Agreement Terms.
- (g) Performance share units were awarded in February 2007. The number of shares disclosed in the chart located in this footnote (7) represents the number of units subject to the award, rather than the number of shares potentially payable in the event the maximum performance threshold is attained. The vesting dates for this award are described above in the narrative disclosures in the section titled Performance Share Unit Agreement Terms.
- (8) Based upon the closing market price of our Common Stock on December 31, 2007, which was \$50.89 per share.

- (9) Of the outstanding options reflected in the table for Mr. Clifton, 76,000 were granted on March 6, 1998 and 80,000 were granted on March 9, 2001 (numbers of options are adjusted for the July 2001, August 2004 and June 2006 stock splits). See footnotes (1) and (3) above for information regarding vesting and expiration of options.

- (10) The 15,000 outstanding options reflected in the table for Mr. Glancy were granted on March 9, 2001 (as adjusted for the July 2001, August 2004 and June 2006 stock splits). See footnotes (1) and (3) above for information regarding vesting and expiration of options.
- (11) Of the outstanding options reflected in the table for Mr. McDonnell, 160,000 were granted on August 14, 2000 and 80,000 were granted on March 9, 2001 (numbers of options are adjusted for the July 2001, August 2004 and June 2006 stock splits). See footnotes (1) and (3) above for information regarding vesting and expiration of options.
- (12) Mr. Ridenour was no longer the Vice President and Chief Accounting Officer of the Company as of January 7, 2008. On April 1, 2008 Mr. Ridenour ceased to be an employee of the Company but continues providing services as a non-employee consultant to the Company under a two-year consulting contract. The Compensation Committee has determined that, solely for purposes of the outstanding performance share unit and restricted share unit awards set forth in this table, Mr. Ridenour's work as a consultant under the consulting agreement will be treated as continuing employment with the Company and Mr. Ridenour's non-vested awards will not be forfeited because of the change from employee to consultant status, but will continue to vest in accordance with their terms.
