ELECTION OF DIRECTORS

The Board of Directors currently consists of nine members: Floyd E. Bloom, Robert A. Breyer, John K. Clarke, Gerri Henwood, Paul J. Mitchell, Richard F. Pops, Alexander Rich, Paul Schimmel and Michael A. Wall. In April 2003, the Board of Directors, as authorized under the Company's Bylaws, increased the number of directors from seven to nine and elected Gerri Henwood and Paul J. Mitchell to the newly created vacancies. Since that time, John K. Clarke, a member of the Board since 1987, has decided not to stand for re-election. Thus, eight directors are to be elected at the Meeting to serve one-year terms until the 2004 annual meeting of shareholders and until their respective successors are elected and shall qualify. The persons named in the accompanying proxy intend to vote for the election of Floyd E. Bloom, Robert A. Breyer, Gerri Henwood, Paul J. Mitchell, Richard F. Pops, Alexander Rich, Paul Schimmel and Michael A. Wall, unless authority to vote for one or more of such nominees is specifically withheld in the proxy. The persons named in the proxy will have the right to vote cumulatively and to distribute their votes among such nominees as they consider advisable. The Board of Directors is informed that all the nominees are willing to serve as directors, but if any of them should decline to serve or become unavailable for election at the Meeting, an event which the Board of Directors does not anticipate, the persons named in the proxy will vote for such nominee or nominees as may be designated by the Board of Directors, unless the Board of Directors reduces the number of directors accordingly.

The eight nominees for directors receiving the highest number of votes cast by shareholders entitled to vote thereon will be elected to serve on the Board of Directors. Votes that are withheld will be counted in determining the presence of a quorum, but will have no effect on the vote.

In connection with his appointment as a director, the Board determined that Mr. Mitchell is qualified to be an audit committee financial expert as defined by the Securities and Exchange Commission. The Audit Committee met six times during the last fiscal year. The Audit Committee is governed by a charter, which was attached to the Proxy Statement for the 2002 annual shareholders meeting. The Charter delegates to the Audit Committee the responsibility for oversight of the quality and integrity of the accounting, auditing and reporting practices of the Company, including review of the annual and quarterly financial statements. Each of the members of the Audit Committee is independent as such term is defined in Rule 4200(a)(14) of the National Association of Securities Dealers listing standards.

The Compliance Committee, consisting of Floyd E. Bloom, John K. Clarke and Alexander Rich, met in April 2003 but not during the last fiscal year. APPROVAL OF AMENDMENT TO 1999 STOCK OPTION PLAN

The Company's 1999 Stock Option Plan (the "1999 Plan") authorizes the grant of options to officers, employees and directors of, and consultants to, the Company or any of its subsidiaries to purchase up to 11,400,000 shares of Common Stock. As of July 18, 2003, options to purchase 485,309 shares remained available for grant under the 1999 Plan. In July 2002, the Board of Directors amended the 1999 Plan to require shareholder approval for any amendment to the 1999 Plan that materially increases the benefits to any participant and to prohibit repricings of options. In June 2003, the Board of Directors amended the 1999 Plan, subject to shareholder approval, to increase the aggregate number of shares authorized for issuance upon exercise of options granted under the 1999 Plan to 14,400,000. This amendment was designed to enhance the flexibility of the Compensation Committee and the Compensation Sub-Committees of the Board of Directors in granting stock options to the Company's officers, employees, directors and consultants and to ensure that the Company can continue to grant stock options to such persons at levels determined to be appropriate by the Compensation Committee and the Compensation Sub-Committees based on comparable company and other market data. The Company believes that stock options are a critical part of the compensation package offered to new, existing and key employees and is an important tool in the Company's ability to attract and retain talented personnel. The resolution to be presented to the shareholders approving the proposed amendment to the 1999 Plan is attached as Appendix A to this Proxy Statement and is incorporated herein by reference.

The affirmative vote of a majority of the votes cast by all holders of Common Stock entitled to vote will be required to approve the proposed amendment to the 1999 Plan. Abstentions will be counted as present for purposes of determining the presence of a quorum for purposes of this proposal, but will not be counted as votes cast. Broker non-votes (shares held by a broker or nominee as to which the broker or nominee does not have the authority to vote on a particular matter) will not be counted as present for purposes of determining the presence of a quorum for purposes of this proposal and will not be voted. Accordingly, while abstentions will count towards establishing a quorum, neither abstentions nor broker non-votes will effect the outcome of the vote on this proposal.

The Board of Directors recommends that you vote **FOR** the approval of the amendment to the 1999 Plan.

Principal Features of the 1999 Plan

The purpose of the 1999 Plan is to enable the Company to offer to certain officers, employees and directors of, and consultants to, the Company or any of its subsidiaries options to acquire equity interests in the Company, thereby helping to attract, retain and reward such persons and strengthen the mutuality of interests between such persons and the Company's shareholders.

Administration

The 1999 Plan is administered by the Compensation Committee by delegation from the Board of Directors. The Compensation Committee has further delegated administration of the 1999 Plan with respect to options granted to directors and executive officers of the Company ("Reporting Persons") to the Compensation Sub-Committee. Additionally, the Compensation Committee has delegated to the Limited Compensation Sub-Committee the authority to make individual grants of options to purchase no more than 5,000 shares of Common Stock to employees who are not Reporting Persons. The total number of options to be granted in any year under the 1999 Plan to participants, the selection and number of participants to receive options, the type and number of options granted to each participant and the other terms and provisions of such options are wholly within the discretion of the Compensation Committee and the Compensation Sub-Committees, subject to the limitations set forth in the 1999 Plan. Therefore,

Table of Contents

the benefits and amounts that will be received by participants under the 1999 Plan are not currently determinable.

Amendment and Repricings

The 1999 Plan may not be amended without the approval of the Company's shareholders if (a) such amendment would materially increase the benefits to participants under the 1999 Plan or (b) shareholder approval is necessary to comply with the Internal Revenue Code of 1986, as amended (the Code), Federal or state securities laws, the rules and regulations of any stock exchange or stock market on which the Common Stock is listed or traded or any other applicable rules or regulations. Additionally, no option previously granted under the plan may be repriced, except for an adjustment to the exercise prices as a result of a merger, reorganization, consolidation, recapitalization, dividend, stock split or other change in corporate structure affecting the Common Stock.

Eligible Participants

The Company's, and any of its subsidiaries', officers, employees, directors and consultants are eligible to be granted options under the 1999 Plan. The Company estimates that there are currently approximately 450 persons who are eligible to receive options under the 1999 Plan.

Number of Shares Subject to the 1999 Plan

Up to 11,400,000 shares of Common Stock may be issued under the 1999 Plan. The proposed amendment, which has been adopted by the Board of Directors, increases the number of shares that may be issued upon exercise of options which may be granted under the 1999 Plan to 14,400,000. Such options may either be incentive stock options as defined in Section 422 of the Code, or may be non-qualified stock options. The 1999 Plan will terminate on June 2, 2009 unless sooner terminated by the Board of Directors.

Stock Options

Under the terms of the 1999 Plan, the option exercise price may not be less than 100% (or, with respect to incentive stock options, 110% if the optionee owns more than 10% of the total combined voting power of all classes of stock of the Company) of the fair market value of the underlying stock at the time the option is granted. Options granted under the 1999 Plan are generally nontransferable, unless otherwise determined by the Compensation Committee, and expire upon the earlier of an expiration date fixed by the Compensation Committee and set forth in each individual option award certificate, ten years (or with respect to incentive stock options, five years, if the optionee owns more than 10% of the total combined voting power of all classes of stock of the Company) from the date of grant, and either three months after the date the optionee ceases to be an officer, employee or director of, or consultant to, the Company or its subsidiaries or one year after the optionee dies or becomes disabled. Options which have expired or which have been canceled unexercised will be available for future grant under the 1999 Plan.

Under the 1999 Plan, the price payable upon exercise of options may be paid in cash, or in shares of stock of the Company duly owned by the participant or by reduction in the number of shares of Common Stock issuable upon such exercise, based, in each case, on the fair market value of the Common Stock on the date of exercise.

Table of Contents

Options Outstanding, Exercisable and Available for Future Grant

As of July 18, 2003, options to purchase 10,798,060 shares were outstanding under the 1999 Plan, of which 3,804,820 were exercisable. The exercise prices for the outstanding options ranged from \$4.02 to \$48.03 per share. On July 18, 2003, the average of the high and low sales prices of a share of Common Stock as reported on the Nasdaq National Market was \$12.06. As of July 18, 2003, of all options outstanding under the 1999 Plan, options to purchase 4,325,596 shares had an exercise price of \$12.06 or below, of which 272,113 were exercisable. As of July 18, 2003, options to purchase 485,309 shares (plus any options that expire unexercised or are cancelled in the future) were available for future grant, exclusive of the additional shares covered by the proposed amendment.

Federal Income Tax Consequences

The Federal income tax discussion set forth below is intended for general information only and does not address the rates of taxation applicable to specific categories of taxpayers or classes of income or the tax consequences to persons who would be subject to liability under Section 16(b) of the Exchange Act with respect to a sale of the shares of Alkermes Common Stock acquired upon exercise of an option. State and local income tax consequences are not discussed and may vary from locality to locality.

Under present Treasury regulations, a participant who is granted a non-qualified option will not realize taxable income at the time the option is granted. In general, a participant will be subject to tax for the year of exercise on an amount of ordinary income equal to the excess of the fair market value of the shares on the date of exercise over the option exercise price, and the Company will generally be able to receive a deduction for a corresponding amount. In the case of a participant who is an employee, withholding and employment taxes will be imposed on the amount of ordinary income recognized. The participant's basis in the shares so acquired will be equal to the option exercise price plus the amount of ordinary income upon which he is taxed. Upon subsequent disposition of the shares, the participant will realize capital gain or loss, long-term or short-term, depending upon the length of time the shares are held after the option is exercised.

A participant is not taxed at the time an incentive option is granted. The tax consequences upon exercise and later disposition depend upon whether the participant was an employee of the Company or one of its subsidiaries at all times from the date of grant until three months preceding exercise (one year in the case of death or permanent and total disability) and on whether the participant holds the shares for more than one year after exercising the option and two years after the date of grant of the option.

If the participant satisfies both the employment rule and the holding rule, for regular tax purposes the participant will not realize income upon exercise of an incentive option and the Company will not be allowed an income tax deduction at any time. The difference between the option exercise price and the amount realized upon disposition of the shares by the participant will generally constitute a long-term capital gain or a long-term capital loss, as the case may be.

If the participant meets the employment rule but disposes of the shares before satisfying the holding rule (a disqualifying disposition), the participant generally recognizes as ordinary income, in the year of the disqualifying disposition, the excess of the fair market value of the shares at the date of exercise over the option price. In the case of a sale, any excess of the sales price over the fair market value at the date of exercise will be recognized by the participant as capital gain (long-term or short-term depending on the length of time the stock was held after the option was exercised). If, however, the sales price is less than the fair market value at the date of exercise, then the ordinary income recognized by the

Table of Contents

participant generally is limited to the excess of the sales price over the option price. In the case of any disqualifying disposition, the Company's tax deduction is limited to the amount of ordinary income recognized by the participant.

Currently, the exercise of incentive options is not subject to income, FICA or FUTA tax withholding. Proposed regulations issued by the Internal Revenue Service would subject incentive options to FICA or FUTA tax withholding at the time of exercise, but the effective date of these regulations has been postponed indefinitely. Any change to the current exemption from FICA and FUTA tax withholding will not take effect until January 1 of the year following the second anniversary of the publication of final regulations or other guidance. It is the current position of the IRS that no tax withholding is required in the event of a disqualifying disposition, but that employers are nevertheless generally required to report any income from a disqualifying disposition on Form W-2.

Different consequences will apply to participants that are subject to the alternative minimum tax.

**APPROVAL OF AMENDMENT TO STOCK OPTION PLAN
FOR NON-EMPLOYEE DIRECTORS**

The Stock Option Plan for Non-Employee Directors (the Director Plan) authorizes the grant of options to purchase up to 500,000 shares of Common Stock to non-employee directors. As of July 18, 2003, there were 60,000 shares available for grant under the Director Plan. In June 2003, the Board of Directors amended the Director Plan, subject to shareholder approval, to increase to 1,000,000 the aggregate number of shares authorized for issuance upon exercise of options granted under the Director Plan. The purpose of the Director Plan is to assist the Company in attracting and retaining independent directors and to strengthen the mutuality of interests between such directors and the Company's shareholders. The proposed 500,000 share increase in the number of shares available for grant will provide sufficient shares under the Director Plan for automatic grant to the seven current non-employee directors at the annual rate of 20,000 shares each for three years. The resolution to be presented to the shareholders approving the proposed amendment to the Director Plan is attached as Appendix B to this Proxy Statement and is incorporated herein by reference.

The affirmative vote of a majority of the votes cast by all holders of Common Stock entitled to vote will be required to approve the proposed amendments to the Director Plan. Abstentions will be counted as present for purposes of determining the presence of a quorum for purposes of this proposal, but will not be counted as votes cast. Broker non-votes (shares held by a broker or nominee as to which the broker or nominee does not have the authority to vote on a particular matter) will not be counted as present for purposes of determining the presence of a quorum for purposes of this proposal and will not be voted. Accordingly, while abstentions will count towards establishing a quorum, neither abstentions nor broker non-votes will effect the outcome of the vote on this proposal.

The Board of Directors recommends that you vote FOR the approval of the amendments to the Director Plan.

Principal Features of the Director Plan

Administration

The Director Plan is administered and interpreted by the Board of Directors. The Board of Directors, subject to the provisions of the Director Plan, has the authority to (i) adopt, alter and repeal such rules, guidelines and practices as it deems advisable, (ii) interpret the terms and provisions of the Director Plan and any option granted under the Director Plan and (iii) otherwise administer the Director Plan. In addition, the Board of Directors may correct any defect, supply any omission or reconcile any inconsistency in the Director Plan or in any option granted in the manner and to the extent it shall deem necessary to carry the Director Plan into effect. Any decision, interpretation or other action of the Board of Directors will be final, binding and conclusive upon all persons in interest.

Eligible Participants

Members of the Board of Directors who are not officers or employees of the Company or any of its subsidiaries (Eligible Directors) are eligible to be granted options under the Director Plan. Seven directors of the Company will be eligible to participate in the Director Plan on the date of the Meeting.

Table of Contents

Number of Shares Subject to the Director Plan

Up to 500,000 shares of Common Stock may be issued upon exercise of the options granted under the Director Plan. The proposed amendment, which has been adopted by the Board, increases the number of shares which may be so issued to 1,000,000. The shares of Common Stock that may be issued under the Director Plan may be either authorized and unissued shares or issued shares that have been reacquired by the Company. The aggregate number of shares of Common Stock issuable under the Director Plan and the number of shares subject to grants made under the Director Plan are subject to adjustment in the event of a merger, reorganization, consolidation, recapitalization, dividend (other than a regular cash dividend), stock split, or other change in corporate structure affecting the Common Stock. If any option granted under the Director Plan expires, terminates or is cancelled for any reason without having been exercised in full, the number of unpurchased shares will again be available for the purposes of the Director Plan.

Granting of Options Under the Director Plan

On the date of each annual meeting of the Company's shareholders, for as long as the Director Plan remains in effect, each Eligible Director will automatically be granted an option to purchase 20,000 shares of Common Stock.

Stock Options

The exercise price of each option granted under the Director Plan will be equal to the fair market value of the Common Stock on the date of grant. Therefore, while it is known that non-employee directors will receive all grants under the Director Plan, the actual value of the benefits and amounts that will be received by such non-employee directors is not currently determinable. Options will be exercisable in full six months after the date of the grant. The term of each option will be ten years from the date of grant. The option price due upon exercise of any option may be paid to the Company in full in cash. Unless determined otherwise by the Board of Directors in its discretion, payment of the exercise price may also be made by tendering previously acquired shares of Common Stock or reducing the number of shares issuable upon such exercise, in each case based on the fair market value of the Common Stock on the last trading date preceding payment.

Options are not transferable (other than by will or the laws of descent and distribution) and during the participant's lifetime are exercisable only by the participant. If a participant ceases to be a member of the Board of Directors because of death or disability, any then exercisable option held by the participant may be exercised by the participant, or in the case of death, by his legal representative, for one year after ceasing to be a member of the Board of Directors or until the earlier expiration of the option term, and all other options are canceled. If a participant ceases to be a member of the Board of Directors for any reason other than death or disability, any then exercisable stock option held by the participant may be exercised by the participant for the lesser of three months after ceasing to be a member of the Board of Directors or until the expiration of the option term, and all other options are canceled. Options which have expired or which have been canceled unexercised will be available for future grant under the Director Plan.

Options Outstanding, Exercisable and Available for Future Grant

As of July 18, 2003, options to purchase 440,000 shares were outstanding under the Director Plan, all of which were exercisable. The exercise prices for the outstanding options ranged from \$4.25 to \$39.81 per share. On July 18, 2003, the average of the high and low sales prices of a share of Common Stock as reported on the Nasdaq National Market was \$12.06. As of July 18, 2003, of all options

Table of Contents

outstanding under the Director Plan, options to purchase 215,000 shares had an exercise price of \$12.06 or below and were exercisable. At July 18, 2003, options to purchase 60,000 shares (plus any options that expire unexercised or are cancelled in the future) were available for future grant, exclusive of the additional shares covered by the proposed amendment.

Federal Income Tax Consequences

The Federal income tax discussion set forth below is intended for general information only and does not address the rates of taxation applicable to specific categories of taxpayers or classes of income. State and local income tax consequences are not discussed and may vary from locality to locality.

Under present Treasury regulations, an optionee who is granted a non-qualified option will not realize taxable income at the time the option is granted. In general, an optionee will be subject to tax for the year of exercise on an amount of ordinary income equal to the excess of the fair market value of the shares on the date of exercise over the option price, and the Company will receive a corresponding deduction. The optionee's basis in the shares so acquired will be equal to the option price plus the amount of ordinary income upon which he is taxed. Upon subsequent disposition of the shares, the optionee will realize capital gain or loss, long-term or short-term, depending upon the length of time the shares are held after the option is exercised.

Employment Contracts and Termination of Employment and Change-in-Control Agreements

Under agreements between the Company and Messrs. Pops, Broecker and Frates in the event their employment with the Company is terminated for any reason other than as a result of their taking certain actions against, or that have a significant deleterious effect on, the Company, Mr. Pops shall be entitled to receive a payment equal to two-thirds of his then-current annual base salary and Messrs. Broecker and Frates shall each be entitled to receive payments at the monthly rate of his then current annual base salary for up to nine months or until he finds other employment, whichever occurs first. Under an agreement between the Company and Mr. Landine, in the event his employment with the Company is terminated for any reason other than as a result of his taking certain actions against, or that have a significant deleterious effect on, the Company, Mr. Landine shall be entitled to receive a payment equal to his then-current base salary for a period of six months.

Mr. Pops has been granted LSARs in connection with a portion of the stock options previously granted to him. Each LSAR provides that after the occurrence of one of several triggering events, including a reorganization or merger of the Company, a sale of the assets of the Company or the acquisition by a person or group of more than 51% of the common stock, Mr. Pops will receive an amount in cash equal to the amount by which the fair market value per share of Common Stock issuable upon exercise of the option on the date such a triggering event occurs exceeds the exercise price per share of the option to which the LSAR relates. A triggering event shall be deemed to have occurred only when the fair market value of the shares subject to the underlying option exceeds the exercise price of such option. When a triggering event occurs, the related option will cease to be exercisable.

The Company has entered into change-in-control agreements with each of Messrs. Pops, Broecker, Frates and Landine. Under the terms of these agreements, each of the aforementioned executives are entitled to receive certain compensation and benefits in the event of a change-in-control of the Company, which, in summary, is defined as: the acquisition by a person, entity or group (with certain exceptions) of beneficial ownership of 50% or more of the Common Stock; a change in a majority of the incumbent directors on the Board of Directors; a reorganization, merger or consolidation of the Company; or a liquidation, dissolution or sale of all or substantially all of the assets of the Company.

In the event of a change-in-control, each of Messrs. Pops, Broecker, Frates and Landine will be entitled to continue their employment with the Company for a period of two years following the change-in-control at a monthly base salary at least equal to the highest monthly base salary paid to him by the Company in the twelve-month period immediately preceding the change-in-control, an annual cash bonus at least equal to the annual bonus paid to him for the last calendar year prior to the change-in-control and continued participation in the Company's welfare and benefit plans.

In the event the Company terminates any of these executives without cause during such two-year period or if any of these executives terminates his employment for good reason (e.g., material diminution in the executive's responsibilities, assignment to the executive of responsibilities not consistent with his position or transfer of the executive to a location more than 40 miles from his then current place of employment) each is entitled to receive a prorated bonus (based upon the prior year's annual bonus) for the year in which the date of termination occurs. Additionally, each of Messrs. Broecker, Frates and Landine will receive a lump sum payment equal to the executive's base salary plus his annual bonus for the last calendar year before the date of termination and continued participation in the Alkermes' welfare and benefit plans (or reimbursement therefor) for one year following the date of termination; Mr. Pops will receive a lump sum payment equal to two times his base salary plus his annual bonus for the last calendar year before the date of termination and continued participation in the Alkermes' welfare and benefit plans (or reimbursement therefor) for two years following the date of

termination. Each executive is also entitled to a gross-up payment equal to the excise tax imposed upon the severance payments under the change-in-control agreement in the event any payment or benefit to the executive, whether pursuant to the change-in-control agreement or otherwise, is considered an excess parachute payment and subject to an excise tax under the Internal Revenue Code. The Company and Dr. Wright had a similar change-in-control agreement which terminated when he left the Company on April 30, 2003.

Compensation of Directors

Each year on the date of the Company's annual meeting of shareholders, each non-employee director, consisting of Floyd E. Bloom, Gerri Henwood, Paul J. Mitchell, Alexander Rich, Paul Schimmel and Michael A. Wall, as well as Mr. Breyer, a part-time employee of the Company, receives:

an annual retainer fee of \$15,000;

an option to purchase 20,000 shares of Common Stock;

an attendance fee of \$1,500 per Board of Directors meeting and \$750 for each telephonic Board of Directors meeting;

an attendance fee of \$500 for each committee meeting, if such meeting is held on a date other than a date on which a Board of Directors meeting is held and \$250 for each telephonic committee meeting; and

reimbursement for all reasonable travel expenses incurred in connection with Board of Directors meetings and meetings of committees of the Board of Directors.

The 20,000 share option is granted automatically under the Alkermes Stock Option Plan for Non-Employee Directors each year on the date of the Company's annual meeting of shareholders. Such options are exercisable at the fair market value of the Common Stock on the date such options are granted and vest in full six (6) months following their grant. Non-employee directors do not receive any options to purchase shares of Common Stock except for the yearly grant of options to purchase 20,000 shares of the Company's Common Stock and a one-time grant of an option to purchase 20,000 shares of the Company's Common Stock upon joining the Board of Directors. During the fiscal year ended March 31, 2003, Alkermes paid consulting fees to Mr. Wall aggregating \$80,000. Mr. Wall will continue to receive \$6,667 per month for work that he performs for the Company outside of his capacity as a director. Alkermes believes that the terms of this consulting arrangement are no less favorable to Alkermes than those they could have received from an independent third party. Since Mr. Breyer's retirement as President, he has received and will continue to receive compensation of \$13,000 per year as a part-time employee of the Company. Upon their initial election to the Board of Directors in April 2003, Ms. Henwood and Mr. Mitchell each received \$6,016 as the pro-rated portion of the cash compensation for non-employee directors outlined above and were granted options to purchase 28,000 shares of Common Stock, consisting of an initial grant of an option to purchase 20,000 shares of Common Stock and a pro-rated portion of the annual grant for non-employee directors outlined above.

Compensation Committee Interlocks and Insider Participation

During the last fiscal year, the Compensation Committee consisted of John K. Clarke, Paul Schimmel and Michael A. Wall. The Compensation Sub-Committee consisted of John K. Clarke and Paul Schimmel. Mr. Wall is a consultant to Alkermes.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The Compensation Committee (the Committee) is responsible for reviewing and establishing the cash compensation of, and the Compensation Sub-Committee (the Sub-Committee) is responsible for reviewing and establishing compensation in the form of stock options and restricted common stock awards to, the Company's executive officers.

Executive Compensation Policies

The Company's executive compensation program is designed to attract, retain and motivate experienced and well-qualified executive officers who will promote the Company's research and product development and commercialization efforts. In establishing executive compensation levels, the Committee is guided by a number of considerations. Because the Company is still in the process of developing its portfolio of product candidates, and because of the volatile nature of biotechnology stocks, the Committee believes that traditional performance criteria, such as revenue growth, net income, profit margins and share price are inappropriate for evaluating and rewarding the efforts of the Company's executive officers. Rather, the Committee bases executive compensation on the achievement of certain product development, corporate partnering, financial, strategic planning and other goals of the Company and the executive officers. In establishing compensation levels, the Committee also evaluates each officer's individual performance using certain subjective criteria, including an evaluation of each officer's initiative, contribution to overall corporate performance and managerial ability. No specific numerical weight is given to any of the above-noted subjective or objective performance criteria. In making its evaluations, the Committee consults on an informal basis with other members of the Board of Directors and, with respect to officers other than the Chief Executive Officer, reviews the recommendations of the Chief Executive Officer.

Another consideration which affects the Committee's decisions regarding executive compensation is the high demand for well-qualified personnel. Given such demand, the Committee strives to maintain compensation levels which are competitive with the compensation of other executives in the industry. To that end, the Committee reviews data obtained from a generally available outside survey of compensation and benefits in the biotechnology industry, an internally prepared survey based on peer biotechnology companies' proxy statements and personal knowledge regarding executive compensation at comparable companies.

A third factor which affects compensation levels is the Committee's belief that stock ownership by management is beneficial in aligning management's and shareholders' interests in the enhancement of shareholder value. In accordance with such belief, the Sub-Committee seeks to provide a significant portion of executive compensation in the form of stock options. The Sub-Committee has not, however, targeted a range or specific number of options for each executive position. Rather, it makes its decisions based on the above-mentioned surveys and the general experience of the Sub-Committee members.

Compensation Mix

The Company's executive compensation packages generally include three components: base salary; a discretionary annual cash bonus; and stock options and restricted common stock awards. The Committee generally reviews and establishes the base salary and bonus of each executive officer as of the end of each calendar year.

Table of Contents

Base Salary

The Committee seeks to establish base salaries which are competitive for each position and level of responsibility with those of executive officers at various other biotechnology companies of comparable size and stage of development.

Discretionary Cash Bonus

The Committee believes that discretionary cash bonuses are useful on a case by case basis to motivate and reward executive officers. Bonuses for executive officers are not guaranteed, but are awarded from time to time, generally annually, only in the discretion of the Committee; cash bonuses are used to bring annual cash compensation into a competitive range with comparable positions at comparable companies. Criteria for bonuses for executive officers range from success in attracting capital to success in conducting clinical trials, entering into new and expanded collaborations and establishing and expanding the Company's manufacturing capabilities.

Stock Options and Restricted Common Stock Awards

Grants of stock options and awards of restricted common stock under the Company's equity compensation plans are designed to promote the identity of the long-term interests between the Company's executives and its shareholders and to assist in the retention of executives. Since stock options granted by the Company generally become exercisable over a four-year period and forfeiture provisions with respect to restricted common stock awards lapse over a two-year period, their ultimate value is dependent upon the long-term appreciation of the Company's stock price and the executive's continued employment with the Company. In addition, grants of stock options and awards of restricted common stock may result in an increase in executive officers' equity interests in the Company, thereby providing such persons with the opportunity to share in the future value they are responsible for creating.

When granting stock options and awarding restricted common stock, the Sub-Committee considers the relative performance and contributions of each officer compared to that of other officers within the Company with similar levels of responsibility. The number of options and awards granted to each executive officer is generally determined by the Sub-Committee on the basis of data obtained from a generally available outside survey of stock option grants and restricted common stock awards in the biotechnology industry, an internally prepared survey of peer biotechnology companies' proxy statements and personal knowledge of the Sub-Committee members regarding executive stock options and restricted common stock awards at comparable companies.

Section 162(m) of the Code limits the deductibility of annual compensation over \$1 million to the Chief Executive Officer and the other Named Executive Officers unless certain conditions are met. The Company's Chief Executive Officer and the other Named Executive Officers have not received annual compensation over \$1 million, and the Company has not yet determined what measures, if any, it should take to comply with Section 162(m).

Compensation of the Chief Executive Officer

In establishing Mr. Pops' compensation package, the Committee seeks to maintain a level of total current compensation that is competitive with that of chief executives of certain other companies in the biotechnology industry at comparable stages of development. In addition, in order to align Mr. Pops' interests with the long-term interests of the Company's shareholders, the Committee and the Sub-Committee attempt to make a significant portion of the value of his total compensation dependent on the long-term appreciation of the Company's stock price.

Table of Contents

At the Company's current stage of development, the Committee believes that Mr. Pops' performance as Chief Executive Officer of the Company must be evaluated almost exclusively using subjective criteria, including the Committee's evaluation of the Company's progress in attracting and retaining senior management, identifying new product candidates, identifying and securing corporate collaborators for the development of product candidates, identifying and acquiring new proprietary product development and technology opportunities, identifying and acquiring companies with interesting technology and product candidates, advancing the Company's existing product candidates through the complex drug development and regulatory approval process, preparing for and executing on commercialization activities and raising the necessary capital to fund its research and development efforts and manufacturing capabilities.

In evaluating and establishing Mr. Pops' current compensation package, the Committee first addressed the non-approvable letter received in late June 2002 from the U.S. Food and Drug Administration (FDA) regarding Risperdal Consta, the Company's product candidate under a collaboration with Janssen Pharmaceutica, an affiliate of Johnson & Johnson (Janssen). During the discussion, it was noted that the issues raised by the FDA in the letter did not relate to the portions of the New Drug Application that were prepared by Alkermes. The Committee noted that the Alkermes team was instrumental in working with Janssen to respond to the questions and issues raised by the FDA. The Committee also reviewed the proposed merger with Reliant Pharmaceuticals, LLC which was announced in March 2002, and was mutually terminated due to market conditions in August 2002. In addition to this discussion, the Committee considered the following accomplishments of the Company during calendar 2002:

In January 2002, Eli Lilly and Company (Lilly) and the Company announced the successful completion of a Phase I clinical trial for an inhaled formulation of human growth hormone.

In February 2002, Lilly and the Company signed an agreement pursuant to which Lilly would provide \$10 million in funding for the new commercial-scale production facility being built for products based on AIR's inhalation technology.

In August 2002, Alkermes announced the approval of Risperdal Consta in Germany and the United Kingdom, which triggered minimum manufacturing revenues of approximately \$150 million over the next ten years. Throughout the rest of the calendar year, Risperdal Consta was approved in 10 additional countries outside of the U.S. and was launched in Austria, Germany and the United Kingdom.

In August 2002, Alkermes announced a reduction in workforce and restructuring to reduce the cost structure of the Company. The reduction and restructuring was prompted by the then current expectations of the financial impact of the delay in approval of Risperdal Consta by the FDA. The Company took the opportunity to examine and prioritize the product development programs that offer the greatest commercial potential.

In November 2002, Alkermes announced the successful completion of two Phase I clinical trials for an inhaled formulation of epinephrine, a proprietary product candidate.

In December 2002, Lilly and the Company announced an expansion of their collaboration for the development of inhaled formulations of insulin. In connection therewith, Lilly purchased \$30 million of Alkermes' newly issued convertible preferred stock. The Company agreed to use the proceeds to fund the development of the inhaled insulin and human growth hormone in 2003 and into 2004. The royalty rate payable to Alkermes based on revenues of potential inhaled insulin products was increased. Lilly has the right to exchange the preferred shares for a reduction in this royalty rate. Furthermore, the collaboration cannot be terminated without cause before January 2005.

Table of Contents

Also in December 2002 and pursuant to an agreement, Janssen paid to Alkermes approximately \$24 million as a prepayment of the first two years of minimum manufacturing revenues owed to the Company.

Also in December 2002, Alkermes consummated the exchange of \$114,589,000 principal amount of its newly issued 6.52% Convertible Senior Subordinated Notes Due December 31, 2009 (the 6.52% Notes) for substantially all of its outstanding 3.75% Convertible Subordinated Notes due 2007. In addition, the Company consummated the sale of \$60 million principal amount of the 6.52% Notes. Therefore, along with the Lilly and Janssen transactions in December and a small equipment lease financing in November, the Company added \$120 million of cash to its balance sheet, while reducing its debt.

During the year, the Company made substantial progress on its Phase III clinical trial on Vivitrex®, its lead proprietary development program. In addition, the Company also advanced the development of its product candidates (proprietary and partnered) and initiated feasibility programs with partners and on internal programs that were not disclosed publicly.

Given the significant role played by Mr. Pops in each of the above-noted accomplishments, the Committee increased Mr. Pops' annual base salary effective January 1, 2003 from \$475,000 to \$498,750 and granted Mr. Pops a cash bonus of \$100,000. As additional recognition of Mr. Pops' efforts in calendar 2002, and in furtherance of the Sub-Committee's belief that a significant portion of Mr. Pops' total compensation should be dependent on the long-term appreciation of the Company's stock price, in July and December 2002, the Sub-Committee granted Mr. Pops options to purchase 125,000 and 350,000 shares, respectively, of Common Stock and, in December 2002, the Sub-Committee awarded Mr. Pops 27,174 shares of restricted Common Stock, which award vests annually over a two-year period. The Committee and Sub-Committee believe that each of these actions was particularly appropriate given Mr. Pops' performance during calendar 2002 and in order to maintain his compensation at a competitive level compared to that of the chief executive officers of other similarly sized and positioned biotechnology companies.

Executive Officer Loans

In the calendar year 2001, Alkermes made two loans to David A. Broecker in connection with hiring him as its new Chief Operating Officer. The first loan did not bear interest and was paid in full in May 2003. The second loan, made in June 2001 in the principal amount of \$300,000, bears interest at the prime rate. Twenty percent of the principal of and accrued interest on the second loan will be forgiven annually on Mr. Broecker's employment anniversary, or in full upon a change-in-control of Alkermes, so long as he continues to be employed by Alkermes. Any balance of the second loan remaining upon the termination of Mr. Broecker's employment must be paid in full.
