PART III
NARRATIVE

State below in reasonable detail why Form 10-K, 11-K, 20-F, 10-Q, N-SAR, N-CSR or the transition report portion thereof could not be filed within the prescribed time period. (Attach extra sheets if needed.)

Wabash National Corporation ("Wabash") is not filing its Form 10-K for the period ended December 31, 2002, in a timely manner because it is in the process of completing documentation with its banks and senior noteholders for amending its term loan, revolving line of credit and senior notes. If the 10-K were filed on March 31, 2002, a significant amount of debt would be required to be classified as current as of December 31, 2002, because the amendment documentation had not been completed, and the opinion from its independent auditor would be qualified. If Wabash completes the lender documentation, the debt will not be classified as current and the opinion from its independent auditor would be unqualified. Wabash anticipates that completion of the amendment and related documentation will occur by April 15, 2003 at which time Wabash expects to be in a position to file its Form 10-K.

Edgar Filing: WABASH NATIONAL CORP /DE - Form NT 10-K

As noted in our February 21, 2003 press release, conditions in the U.S. trailer industry stabilized during 2002 after the industry experienced a historic decline in demand since 1999. It is believed the industry hit bottom during the first quarter of 2002 when annualized industry demand for new trailers was approximately 88,000 units, a 72% decline in demand in a little over two years. As a result, a number of the Company's competitors went out of business and/or shuttered plants. During this same period, the Company's business was similarly impacted as its production declined by 61% from its record high during 1999. As a result of these conditions the Company set about a comprehensive plan to scale its operations to meet demand and to survive, including: installing a new management team, rationalizing manufacturing and distribution capacity, reduced costs, reducing used trailer inventories and divesting international operations. These actions also began to improve the results from operations during 2002. As announced on February 21, 2003, the following are the results Wabash anticipates reporting in its annual report on Form 10-K (in millions, except per share amounts):

	Years Ended December 31,	
	2002	2001

Net Sales	\$ 819.6	\$ 863.4
