Van Kampen High Income Trust II

(Exact name of registrant as specified in charter)

1221 Avenue of the Americas, New York, New York 10020

(Address of principal executive offices) (Zip code)

Ronald Robison
1221 Avenue of the Americas, New York, New York 10020

(Name and address of agent for service)

Registrant's telephone number, including area code: 212-762-4000

Date of fiscal year end: 12/31

Date of reporting period: 6/30/04

Item 1. Reports to Shareholders.

The Trust's semi-annual report transmitted to shareholders pursuant to Rule 30e-1 under the Investment Company Act of 1940 is as follows:

Welcome, Shareholder

In this report, you'll learn about how your investment in Van Kampen High Income Trust II performed during the semiannual period. The portfolio management team will provide an overview of the market conditions and discuss some of the factors that affected investment performance during the reporting period. In addition, this report includes the trust's financial statements and a list of trust investments as of June 30, 2004.

Market forecasts provided in this report may not necessarily come to pass. There is no assurance that the trust will achieve its investment objective. Trusts are subject to market risk, which is the possibility that the market values of securities owned by the trust will decline and that the value of trust shares may therefore be less than what you paid for them. Accordingly, you can lose money investing in this trust.

Performance Summary as of 6/30/04

HIGH INCOME TRUST II
SYMBOL: VLT

AVERAGE ANNUAL TOTAL RETURNS	BASED ON NAV	BASED ON MARKET PRICE
Since Inception (04/28/89)	5.24%	5.16%
10-year	5.04	3.02
5-year	1.92	-1.49
1-year	11.45	-1.98
6-month	1.34	-9.86

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH IS NO GUARANTEE OF FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. FOR THE MOST RECENT MONTH-END PERFORMANCE FIGURES, PLEASE VISIT VANKAMPEN.COM OR SPEAK WITH YOUR FINANCIAL ADVISOR. INVESTMENT RETURNS, NET ASSET VALUE (NAV) AND COMMON SHARE MARKET PRICE WILL FLUCTUATE AND TRUST SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The J.P. Morgan Global High Yield Index is generally representative of high-yield securities. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

1

Trust Report

FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2004

Van Kampen High Income Trust II is managed by the Adviser's High Yield team.

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

Current team members include Gordon Loery, Executive Director of the Adviser; Josh Givelber and Chad Liu, Vice Presidents of the Adviser; and Sheila Finnerty, Managing Director of the Adviser. (1)

MARKET CONDITIONS

Coming off a banner year in 2003, high-yield bonds continued their strong performance through the end of January 2004, endured a difficult period from February through May, then staged a rally during June. The CSFB High Yield Index, a broad benchmark for the high-yield market, returned 2.47 percent for the first six months of 2004.

Over the past 18 months, whether the market was rallying or giving back some gains, high-yield bonds have had strong fundamental factors in their favor. These factors included an improving U.S. economic environment, better corporate earnings overall and a low default rate for high-yield issuers. In 2003, and continuing through January 2004, technical factors, such as supply and demand within the high-yield bond market, were also very positive. Though high-yield companies were bringing a tremendous volume of new issues to market--made up mostly of refinanced high-yield bonds or refinanced bank debt--through January 2004 new-issue supply was easily taken up by strong demand from mutual funds, institutional investors and individuals. Beginning this past February, however, demand slackened and money flowed out of high-yield funds as interest rates began to rise and some investors took profits, while others shifted their portfolio allocation out of high yield. Typically, high-yield and Treasury-bond performance are not strongly correlated, but during the first half of 2004 there was more correlation than usual because of narrow high-yield interest-rate spreads compared with Treasuries. As Treasuries reacted negatively to interest-rate fears, high-yield bonds followed, but to a lesser extent.

In addition, from February to May, financial markets experienced significantly increased volatility--rarely helpful to high-yield performance. The rise in volatility was attributable to terrorism fears, higher oil prices and higher interest rates. Attitudes concerning the direction of interest rates underwent a dramatic shift at that time. Investors went from thinking that interest rates would remain relatively low for a long period to acknowledging that the Fed could change direction in order to fight inflation, and push the federal funds rate up--perhaps as much as 3 percent over the next 12 to 24 months.

Beginning in May, the market began to acclimate itself to the new interest-rate environment and to settle down somewhat. As a result, the high-yield market posted gains during June as some new money came into this market. Perhaps

(1) Team members may change without notice at any time.

2

more importantly, there were no significant outflows from most high-yield mutual funds in June.

PERFORMANCE ANALYSIS

A closed-end fund's return can be calculated upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ significantly. On an NAV basis, the trust outperformed its benchmark, the J.P. Morgan Global High Yield Index. (See table below.)

The trust's performance was helped by its lack of exposure to the airline industry as well as favorable security selection within the utilities sector. In

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

addition, though the overall default rate with the high-yield bond asset class was low, there were some defaults among high-yield companies during the period; the fact that the trust did not hold these problem credits contributed to the trust's performance. When selecting high-yield issues for the trust's portfolio, we have historically avoided most start-up companies and attempt to look for seasoned issuers with positive cash flow--companies that we believe will prosper in good or bad economic times.

Detracting from overall performance during the period was unfavorable security selection within the chemicals, forest products and gaming/leisure sectors. Other factors that detracted from the trust's performance were its relatively low-yield, higher overall-quality composition and its shorter average maturity compared with the overall market. During the period we worked to increase the trust's yield and purchased lower-grade issues at longer maturities.

The trust uses leverage on an ongoing basis to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of preferred shares. The proceeds are then invested in longer-term securities, taking advantage of the difference between short- and longer-term rates. Though short-term rates have risen since the start of 2004, using leverage through the "carry trade" continued to be beneficial for the trust during the period.

TOTAL RETURN FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2004

-----	-----	-----
BASED ON NAV	BASED ON MARKET PRICE	J.P. MORGAN GLOBAL HIGH YIELD INDEX
1.34%	-9.86%	0.68%
-----	-----	-----

Past performance is no guarantee of future results. Investment return, net asset value and common share market price will fluctuate and trust shares, when sold, may be worth more or less than their original cost. See Performance Summary for additional performance information and index definition.

3

Going forward, though we think interest rates will continue to rise as the Fed persists in tightening credit, we believe that high-yield bonds should perform reasonably well over the coming months for two reasons: First, the performance of high-yield issues should continue to be driven by favorable fundamental factors. Second, now that investors have seemingly come to terms with the necessity for higher interest rates, the relationship between supply and demand should gradually turn more favorable within the high-yield market.

TOP 5 SECTORS AS OF 6/30/04		RATINGS ALLOCATIONS AS OF 6/30/04

FOR MORE INFORMATION ABOUT PORTFOLIO HOLDINGS

Each Van Kampen fund provides a complete schedule of portfolio holdings in its semiannual and annual reports within 60 days of the end of the trust's second and fourth fiscal quarters by filing the schedule electronically with the Securities and Exchange Commission (SEC). The semiannual reports are filed on Form N-CSRS and the annual reports are filed on Form N-CSR. Van Kampen also delivers the semiannual and annual reports to trust shareholders, and makes these reports available on its public web site, www.vankampen.com. In addition to the semiannual and annual reports that Van Kampen delivers to shareholders and makes available through the Van Kampen public web site, each trust files a complete schedule of portfolio holdings with the SEC for the trust's first and third fiscal quarters on Form N-Q. Van Kampen does not deliver the reports for the first and third fiscal quarters to shareholders, nor are the reports posted to the Van Kampen public web site. You may, however, obtain the Form N-Q filings (as well as the Form N-CSR and N-CSRS filings) by accessing the SEC's web site, <http://www.sec.gov>. You may also review and copy them at the SEC's Public Reference Room in Washington, DC. Information on the operation of the SEC's Public Reference Room may be obtained by calling the SEC at 1-202-942-8090. You can also request copies of these materials, upon payment of a duplicating fee, by electronic request at the SEC's e-mail address (publicinfo@sec.gov) or by writing the Public Reference section of the SEC, Washington, DC 20549-0102.

In addition to filing a complete schedule of portfolio holdings with the SEC each fiscal quarter, each Van Kampen trust makes portfolio holdings information available by periodically providing the information on its public web site, www.vankampen.com. Each Van Kampen trust provides a complete schedule of portfolio holdings on the public web site on a calendar-quarter basis approximately 30 days after the close of the calendar quarter. Furthermore, each Van Kampen trust provides partial lists of its portfolio holdings (such as top 10 or top 15 trust holdings) to the public web site each with a delay of approximately 15 days.

You may obtain copies of a trust's fiscal quarter filings, or its monthly or calendar-quarter web site postings, by contacting Van Kampen Client Relations at 1-800-847-2424.

PROXY VOTING POLICIES AND PROCEDURES AND PROXY VOTING RECORD

The trust's policies and procedures with respect to the voting of proxies relating to the trust's portfolio securities and information on how the trust voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available without charge, upon request, by calling 1-800-847-2424 or by visiting our web site at www.vankampen.com. This information is also available on the Securities and Exchange Commission's web site at <http://www.sec.gov>.

Average Market Value Per Preferred Share..... \$25,000 \$25,000 \$ 25,000

* Amount is less than \$.01.

** Non-Annualized

(a) Total return assumes an investment at the common share market price at the beginning of the period indicated, reinvestment of all distributions for the period in accordance with the Trust's dividend reinvestment plan, and sale of all shares at the closing common share market price at the end of the period indicated.

(b) Ratios do not reflect the effect of dividend payments to preferred shareholders.

(c) As required, effective January 1, 2001, the Trust has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premium on fixed income securities. The effect of this change for the period ended December 31, 2001 was to decrease net investment income per share by \$.02, increase net realized and unrealized gains and losses per share by \$.02 and decrease the ratio of net investment income to average net assets applicable to common shares by .40%. Per share, ratios and supplemental data for periods prior to December 31, 2001 have not been restated to reflect this change in presentation.

(d) Ratios reflect the effect of dividend payments to preferred shareholders.

(e) Calculated by subtracting the Trust's total liabilities (not including the preferred shares) from the Trust's total assets and dividing this by the number of preferred shares outstanding.

VAN KAMPEN HIGH INCOME TRUST II

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2004 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen High Income Trust II (the "Trust") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended. The Trust's investment objective is to provide high current income, while seeking to preserve shareholders' capital through investment in a professionally managed diversified portfolio of high yield, fixed income securities. The Trust commenced investment operations on April 28, 1989.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Investments are stated at value using market quotations or indications of value obtained from an independent pricing service. For those securities where quotations or prices are not available, valuations are obtained from yield data relating to instruments or securities with similar characteristics in accordance with procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis.

The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until after payment is made. At June 30, 2004, the Trust had \$320,000 of when-issued and delayed delivery purchase commitments.

The Trust may invest in repurchase agreements, which are short-term investments in which the Trust acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Trust may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements.

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

Repurchase agreements are fully collateralized by the underlying debt security. The Trust will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Trust.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond discount is accreted and premium is amortized over the expected life of each applicable security. Other income is comprised primarily of consent fees. Consent fees are earned as compensation for agreeing to changes in terms of debt instruments.

VAN KAMPEN HIGH INCOME TRUST II

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2004 (UNAUDITED) continued

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Trust intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset such losses against any future realized capital gains. At December 31, 2003, the Trust had an accumulated capital loss carryforward for tax purposes of \$25,739,010 which expires between December 31, 2007 and December 31, 2011.

At June 30, 2004, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$64,710,380
	=====
Gross tax unrealized appreciation.....	\$ 2,779,092
Gross tax unrealized depreciation.....	(4,279,787)

Net tax unrealized depreciation on investments.....	\$(1,500,695)
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Trust declares and pays monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed annually to common shareholders. Distributions from net realized gains for book purposes may include short-term capital gains which are included in ordinary income for tax purposes.

For tax purposes, the determination of a return of capital distribution is made at the end of the Trust's fiscal year. Therefore, while it is likely that a portion of the Trust's distribution will ultimately be characterized as a return of capital for tax purposes, no such designation has been made for the six months ended June 30, 2004.

The tax character of distributions paid during the year ended December 31, 2003 was as follows:

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

Distributions paid from:

Ordinary income.....	\$3,889,082
Return of capital.....	101,822

	\$3,990,904
	=====

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Trust for an annual fee payable monthly of .70% of the average daily net assets of the Trust.

For the six months ended June 30, 2004, the Trust recognized expenses of approximately \$1,800 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, counsel to the Trust, of which a trustee of the Trust is an affiliated person.

Under separate Accounting Services and Legal Services agreements, the Adviser provides accounting and legal services to the Trust. The Adviser allocates the cost of such services to each trust. For the six months ended June 30, 2004, the Trust recognized expenses of approximately \$12,100 representing Van Kampen Investments Inc.'s or its affiliates (collectively "Van Kampen") cost of providing accounting and legal services to the Trust, which are

19

VAN KAMPEN HIGH INCOME TRUST II

NOTES TO FINANCIAL STATEMENTS -- JUNE 30, 2004 (UNAUDITED) continued

reported as part of "Other" and "Legal" expenses, respectively, in the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

3. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments were \$23,737,820 and \$22,161,747, respectively.

4. AUCTION PREFERRED SHARES

As of June 30, 2004, the Trust has outstanding 1,112 Auction Preferred Shares ("APS"). Dividends are cumulative and the dividend rate is currently reset every 28 days through an auction process. The rate in effect on June 30, 2004 was 1.328%. During the six months ended June 30, 2004, the rates ranged from 1.068% to 1.328%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

auctions. These fees are included as a component of Preferred Share Maintenance expense.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

5. INDEMNIFICATIONS

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

20

VAN KAMPEN HIGH INCOME TRUST II

DIVIDEND REINVESTMENT PLAN

The Trust offers a Dividend Reinvestment Plan (the "Plan") pursuant to which Common Shareholders who are participants in the Plan may have all distributions of dividends and capital gains automatically reinvested in Common Shares of the Trust. All Common Shareholders are deemed to be participants in the Plan unless they specifically elect not to participate. Common Shareholders who elect not to participate in the Plan will receive all distributions of dividends and capital gains in cash paid by check mailed directly to the Common Shareholder by the Trust's dividend disbursing agent.

HOW THE PLAN WORKS

State Street Bank and Trust Company, as your Plan Agent, serves as agent for the Common Shareholders in administering the Plan. After the Trust declares a dividend or determines to make a capital gains distribution, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. The Trust will not issue any new Common Shares in connection with the Plan. All reinvestments are in full and fractional Common Shares, carried to three decimal places.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Trust reserves the right to amend or terminate the Plan as applied to any dividend or capital gains distribution paid subsequent to written notice of the change sent to all Common Shareholders of the Trust at least 90 days before the record date for the dividend or distribution. The Plan also may be amended or terminated by the Plan Agent, with the written consent of the Trust, by providing at least 90 days written notice to all Participants in the Plan.

COSTS OF THE PLAN

The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Trust. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. No other charges will be made to participants for reinvesting dividends or capital gains distributions, except for certain brokerage commissions, as described above.

TAX IMPLICATIONS

Edgar Filing: VAN KAMPEN HIGH INCOME TRUST II - Form N-CSRS

You will receive tax information annually for your personal records and to help you prepare your federal income tax return. The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax which may be payable on dividends or distributions.

DIVIDEND REINVESTMENT PLAN continued

RIGHT TO WITHDRAW

All Common Shareholders of the Trust are deemed to be participants in the Plan unless they specifically elect not to participate. You may withdraw from the Plan at any time by calling 1-800-341-2929 or by writing State Street Bank and Trust Company. If you withdraw, you will receive, without charge, a share certificate issued in your name for all full Common Shares credited to your account under the Plan, and a cash payment will be made for any fractional Common Share credited to your account under the Plan. You may again elect to participate in the Plan at any time by calling 1-800-341-2929 or writing to the Trust at:
