## Edgar Filing: MANUFACTURED HOME COMMUNITIES INC - Form 8-K

### ITEM 8.01 OTHER EVENTS

Manufactured Home Communities, Inc. (NYSE: MHC) announced it has undertaken a preliminary assessment of the impact of Hurricane Frances on its operations. The slow movement of the storm across Florida resulted in significant rainfall throughout the state. Preliminary reports indicate two properties near Vero Beach may be significantly impacted by flooding caused by the rains and winds associated with Hurricane Frances, while the impact on our other properties is not expected to be material. We will continue to assess this over the coming days.

According to Thomas Heneghan, CEO and President of MHC, "The unprecedented nature of these two storms occurring within weeks of each other has certainly stressed everyone in Florida. We appreciate the fatigue of our residents, our employees and others dealing with these storms.

We were well on our way to recovering from Hurricane Charley. Although it is unfortunate to have received this setback caused by Hurricane Frances, we are confident we will recover from this storm in a similar manner. We have sent teams out to assess the properties and have begun the clean up process."
