Exelon and PSEG Make Filings For Regulatory Approvals of the Merger

On December 20, 2004, Exelon Corporation (Exelon) and Public Service Enterprise Group Incorporated (PSEG) entered into an Agreement and Plan of Merger (the Merger Agreement), pursuant to which PSEG will merge with and into Exelon with Exelon continuing as the surviving corporation (the Merger). Completion of the Merger is subject to a number of conditions, including the approval of a number of governmental authorities.

On February 4, 2005, Exelon and PSEG issued a press release announcing that they had filed petitions or applications for approval with the Federal Energy Regulatory Commission (FERC) under the Federal Power Act, the Pennsylvania Public Utility Commission (the PPUC) and the New Jersey Board of Public Utilities (the NJBPU). Commonwealth Edison Company, a subsidiary of Exelon, also filed a notice of the Merger with the Illinois Commerce Commission (ICC), whose formal approval of the Merger is not required. A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated into this Current Report on Form 8-K by reference.

Copies of the FERC, PPUC, NJBPU and ICC applications and notices (without exhibits and submitted testimony) are attached to this Current Report on Form 8-K as Exhibits 99.2, 99.3, 99.4 and 99.5, respectively, and are incorporated into this Current Report on Form 8-K by reference. PSEG expects that copies of the full filings will be available through each applicable governmental authority s offices or its website.

Other state and federal agencies will have a role in reviewing various aspects of the transaction. Exelon and PSEG expect to make these remaining filings later to allow any required review to be completed in a timely manner.

This Current Report on Form 8-K is being filed separately by PSEG, Public Service Electric and Gas Company (PSE&G), PSEG Power LLC (Power) and PSEG Energy Holdings LLC (Energy Holdings) (collectively, the PSEG Registrants). Information contained herein relating to any individual company is provided by such company on its own behalf and in connection with its respective Form 8-K. PSE&G, Power and Energy Holdings each makes representations only as to itself and makes no other representations whatsoever as to any other company.

This filing contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about the benefits of the business combination transaction involving PSEG and Exelon, including future financial and operating results, the combined company s plans, objectives, expectations and intentions and other statements that are not historical or current facts. Such statements are based upon the current beliefs and expectations of PSEG s and Exelon s management, are subject to significant risks and uncertainties and may differ materially from actual future experience involving any one or more of such matters. Actual results may differ from those set forth in the forward-looking statements. The following factors, among others, could cause actual results to differ from those set forth in the forward-looking statements: the timing of the contemplated merger and the impact of any conditions imposed by regulators in connection with their approval thereof; the failure of PSEG and Exelon stockholders to make the requisite approvals for the transaction; the risk that the businesses will not be integrated successfully; failure to quickly realize cost-savings from the transaction as a result of technical, logistical, competitive and other factors; the effects of weather; the performance of generating units and transmission systems; the availability and prices for oil, gas, coal, nuclear fuel, capacity and electricity; changes in the markets for electricity and other energy-related commodities; changes in the number of participants and the risk profile of such participants in the energy marketing and trading business; the effectiveness of our risk

management and internal controls systems; the effects of regulatory decisions and changes in law; changes in competition in the markets we serve; the ability to recover regulatory assets and other potential stranded costs; the outcomes of litigation and regulatory proceedings or inquiries; the timing and success of efforts to develop domestic and international power projects; conditions of the capital markets and equity markets; advances in technology; changes in accounting standards; changes in interest rates and in financial and foreign currency markets generally; the economic and political climate and growth in the areas in which we conduct our activities; and changes in corporate strategies. While we believe that our forecasts and assumptions are reasonable, we caution that actual results may differ materially. We intend the forward-looking statements to speak only as of the time first made and we do not undertake to update or revise them as more information becomes available. Additional factors that could cause PSEG's and Exelon's results to differ materially from those described in the forward-looking statements can be found in the 2003 Annual Reports on Form 10-K, and Quarterly Reports on Form 10-Q for the quarterly period ended September 30, 2004, and Current Reports on Form 8-K on December 21 and December 20, 2004, of PSEG and Exelon, as such reports may have been amended, each filed with the Securities and Exchange Commission and available at the Securities and Exchange Commission's website, www.sec.gov
