- ITEM 2.05. COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES
ITEM 2.06. MATERIAL IMPAIRMENTS

Since the acquisition of Agis, Perrigo Company has pursued opportunities to integrate both businesses and to make them as efficient as possible while at the same time evaluating ways to improve underperforming assets. This has resulted in the June 23, 2006 approval by the Board of Directors of the Perrigo Company of plans to exit two unprofitable lines of products, effervescent tablets and psyllium-based laxatives. This action will result in the closure of two Michigan plants that primarily manufacture these products. The manufacture of certain other products will move to plants in Allegan, Michigan or the Bronx, New York. The closing plants employ 140 workers who will be offered other employment opportunities in the Allegan, Michigan facilities. Employees who do not relocate will be offered a retention and severance package. The closing plants are expected to be phased out of production by December 2006 at which time the plants will become available for sale.

The Company expects to incur a non-cash impairment charge in the fourth quarter of fiscal 2006 to reflect the difference between the carrying value and the fair value of the affected assets, which include primarily land, buildings and machinery. This pre-tax charge is expected to be approximately \$8 million. The Company is currently evaluating the assets to more closely determine the expected sale price.

As a result of exiting the product lines, the Company expects to incur a charge in the first half of fiscal 2007 for employee related and plant shutdown costs. This pre-tax charge is expected to be approximately \$3 million and will result in cash outlays of the same amount throughout fiscal 2007.
