Item 8.01. Other Events

On November 16 the Minnesota Public Utilities Commission (MPUC) approved the request of OtterTail Corporation (the Company) to increase rates on an interim basis for all electric consumption by Minnesota customers on and after November 30, 2007. The interim rate increase of \$7,125,147, or about 5.4 percent, will remain in effect for all the Company's Minnesota customers until the MPUC makes a final rate determination on the Company's rate case, which is expected to occur by August 1, 2008. If final rates are lower than interim rates, the Company will refund to customers the difference from interim rates with interest. If final rates are higher than interim rates, the final higher rates will become effective as of the date in the MPUC Rate Order, however, the difference from interim rates will not be recovered from customers.

The Company has proposed rates that would result in a final overall revenue increase of \$14,509,521, or about 11 percent, over 2006. The Company has proposed to share asset-based wholesale margins as a credit to customers through the fuel adjustment clause, so the net revenue impact of the proposed increased rates and sharing of wholesale margins would be an increase of \$8,763,767, or about 6.7 percent, over 2006.

Signature

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
