HEROES, INC.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. They do not include all information and notes required by accounting principles generally accepted in the United States for complete financial statements. However, except as disclosed herein, there has been no material change in the information disclosed in the notes to financial statement included in the financial statements on Form 10-K of Heroes, Inc. for the year ended December 31, 2000. In the opinion of management, all adjustments necessary to fairly present the financial position as of June 30, 2001, and the results of operations, the statements of cash flows, and changes in stockholders' equity for the six months ended June 30, 2001 and 2000 have been made. Results of operations for interim periods are not necessarily indicative of results for the entire year.

The Company prepares its financial statements in accordance with accounting principles generally accepted in the United States. These principles are established primarily by the Financial Accounting Standards Board (FASB) and the American Institute of Certified Public Accountants. The preparation of financial statements in conformity with GAAP requires management to make estimates when recording transactions resulting from business operations, based on information currently available. As additional information becomes available (or actual amounts are determinable), the recorded estimates may be revised and reflected in operating results. Although some variability is inherent in these estimates, management believes the amounts provided are adequate.

Edgar Filing: HEROES INC - Form 10-Q

2. GOING CONCERN

As displayed in the accompanying financial statements, the Company has suffered recurring losses from operations, its current liabilities exceed its current assets, and significant assets and liabilities are subject to significant change in the near term. These matters raise substantial doubts about the ability of the Company to continue in existence as a going concern. Management plans with respect to continuing as a going concern include primarily one area. To devote appropriate resources to obtain a quick and favorable resolution of the matters related to its MRESAnet 2000 Project. Management recognizes that additional working capital will be required for the Company to be successful in achieving these goals. Accordingly, continuation of the Company as a going concern is dependent upon obtaining additional working capital, either through additional equity funding or loans with appropriate repayment terms.

14

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

RESULTS OF OPERATIONS

Our revenues decreased to \$0 for the three-month period ending June 30, 2001 from \$6,196,383 for the three-month period ending June 30, 2000. This decrease is due to the fact that no invoices for additional work to be performed in Year 2 of our three-year contract with our current customer, the Metropolitan Regional Educational Service Agency ("MRESA"), have been submitted, pending the outcome of an audit of MRESA by Arthur Andersen, LLP, and the determination by both the Federal Communications Commission ("FCC") and the SLD as to whether or not the MRESA project shall continue, and under what terms and conditions.

Our current customer is MRESA, an administrative services agency of the Georgia Department of Education. The MRESA jurisdiction covers over 11 school districts, and nearly 750 schools. Our contract with MRESA was executed in March 1999, and we began performance thereunder in August 1999. This contract continues for a three-year period. As of December 31, 1999, we had completed Year 1 of the three Years under this contract and installed our services at 192 schools. All invoices and installations for Year 1 were approved by MRESA. We began performance on Year 2 of our contract with MRESA in

Edgar Filing: HEROES INC - Form 10-Q

early May 2000. Lynxus, Inc. ("Lynxus"), our main contractor at that time, was responsible for all performance under the contract, including the procurement and installation of all equipment.

We are currently seeking additional customers for our schools deliverable and products, and believe that we will expand into a number of states and school districts within the next 12-24 months.

In August 2000, Arthur Andersen, LLP, began an audit of the Metropolitan Regional Educational Service Agency ("MRESA"). The MRESA contract is funded by the Schools and Libraries Division ("SLD") of the Universal Service Administrative Company. This is a non-profit entity under the jurisdiction of the Federal Communications Commission ("FCC"). The latter administers all " E rate " funds, which was enacted pursuant to the Federal Telecommunications Act of 1996. The program under which the SLD provides funding to MRESA requires a 10% to 50% matching commitment for each school from private, corporate or charitable contributions. The audit is part of an ongoing program integrity process initiated by the SLD to ensure that applicants and vendors (beneficiaries) of the E-rate program comply fully with all FCC and SLD program guidelines, rules and regulations. A number of beneficiaries of the SLD program are audited annually. The determination of which beneficiaries are audited is done both randomly and based on the size of the beneficiary's award. We, as the service provider of the contract, are also being audited as part of this process. As of the date of this report, we have invoiced a total of \$3,595,647.60 for services performed under our contract for Year 2 of this program to the SLD, with all invoices being approved by MRESA. As of the date of this report, \$3,595,647.60 remains outstanding and unpaid by the SLD. We have also invoiced MRESA \$2,600,735.40 for Year 2 matching funds which also remains outstanding as of the date of this report. We anticipate that payment from the SLD for past services performed by us will be forthcoming, subject to the approval by both the FCC and the SLD to continue the MRESA project. This is our first invoice to the SLD for Year 2, and there will be additional invoices for work performed. The total amount of these invoices to the SLD and MRESA for Year 2, as per our agreement, could eventually exceed \$12,000,000.

15

Our total cost of sales decreased to \$24,083 for the three-month period ending June 30, 2001 from \$5,970,155 for the same period in 2000. The \$24,083 in costs incurred were for year 1 maintenance and corrective rework carried out on our behalf by Domain Networks.

Our salary expense increased to \$310,000 from \$117,083, primarily due to the addition of staff in preparation of launching the Children's Heroes electronic fundraising program, pursuant to the acquisition of Children's Heroes in October of 2000. Our consulting expense increased to \$174,705 from \$0 as a result of the engagement of several consultants to assist the company on working towards resolution on the MRESAnet 2000 project. The \$118,995 in Interest and Other Bank Fees was primarily accrued interest on the Prinvest line of credit.

LIQUIDITY AND CAPITAL RESOURCES

Our total current assets decreased from \$9,384,434 to \$9,002,138 primarily due to the write off of \$224,000.00 in prepaid maintenance and training costs that was paid to Lynxus, Inc. As a result of their filing for bankruptcy protection, management feels this commitment to provide these services will not be upheld. Our total current liabilities increased to

Edgar Filing: HEROES INC - Form 10-Q

\$12,250,168 from \$10,623,256 primarily due to a \$510,000 increase in our Accounts Payable and a \$802,292 increase in Notes Payable.

Our total stockholder's equity decreased to (\$2,650,006) at June 30, 2001 from (\$969,053) at December 31, 2000. This increase was due mainly to a decrease to (\$8,730,523) from (\$5,651,146) in retained earnings as a result of our operating loss.

We had \$17,208 in cash as of June 30, 2001. Our continuation as a going concern is dependent upon our ability to obtain additional working capital. If adequate financing is not available or is not available on acceptable terms, our ability to meet our capital requirements may be significantly limited and could have a material adverse effect on us and ultimately could impair our ability to continue as a going concern.

ITEM 1. LEGAL PROCEEDINGS

On May 31, 2001, Mastermind Marketing filed a civil action suit in the State Court of Fulton County, Georgia. Mastermind Marketing claims they are owed \$150,220.18 plus interest for the preparation of presentations, marketing strategies, and other promotional programs and delivered intellectual property and other products, services and expenses. The Company filed a motion for a 60 day extension to respond and is awaiting a ruling from the Judge. The Company maintains that it does not owe the sum of \$150,220.18 to Mastermind Marketing and is currently in settlement negotiations.

ITEM 5. OTHER INFORMATION
