**Item 2.02. Results of Operations and Financial Condition.**

The following information is being furnished pursuant to Item 2.02 of Form 8-K. This information shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such filing.

On February 22, 2005, Matria Healthcare, Inc. issued a press release announcing its financial results for the fourth quarter and year ended December 31, 2004 and reaffirming its first quarter 2005 guidance. The full text of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

The attached press release includes a presentation of net earnings (and net earnings per share), earnings from continuing operations and loss from discontinued operations, excluding certain unusual items, for the fourth quarter and year ended December 31, 2004. Such measures are not measures of financial performance under GAAP and should not be considered as alternatives to net earnings (and net earnings per share), earnings from continuing operations and loss from discontinued operations, as computed under GAAP for the applicable period. The Company considers net earnings (and net earnings per share), earnings from continuing operations and loss from discontinued operations, to be the most comparable GAAP measures and the Company has presented reconciling information in the press release.

The non-GAAP measures described above exclude the costs associated with repurchasing \$120 million in aggregate principal amount of the Company's 11% Series B Senior Notes due 2008 and the gain from the sale of substantially all of the assets of the Company's Pharmacy and Supplies Business and a restructuring charge. Management uses earnings measures adjusted to exclude such items as part of its evaluation of the performance of the Company. The Company believes that these measures provide useful information to investors because the items that are excluded relate to unusual events that resulted in a significant impact and are not likely to recur regularly or in predictable amounts and, consequently, presenting net earnings and earnings per share, excluding such unusual items, is meaningful supplemental information for investors.
