Table of Contents**Option Grants in Last Fiscal Year**

The following table sets forth certain information concerning grants of options to each of the named executive officers during the year ended June 30, 2003. In addition, in accordance with the rules and regulations of the Securities and Exchange Commission, the following table sets forth the hypothetical gains or option spreads that would exist for the options. Such gains are based on assumed rates of annual compound stock appreciation of 5% and 10% from the date on which the options were granted over the full term of the options. The rates do not represent Qualstar's estimate or projection of future common stock prices, and no assurance can be given that any appreciation will occur or that the rates of annual compound stock appreciation assumed for the purposes of the following table will be achieved.

Name	Options Granted (# of Shares) ⁽¹⁾	Percent of Total Options Granted to Employees in Fiscal Year	Exercise Price (\$/Share)	Expiration Date	Potential Realizable Value At Assumed Annual Rates of Stock Price Appreciation for	
					Option Term ⁽²⁾	
					5%(\$)	10%(\$)

Robert K. Covey						
David L. Griffith						
Mark R. Gilmore						

- (1) The per share exercise price of all options granted is the fair market value of Qualstar's common stock on the date of grant. Options have a term of 10 years and become exercisable in four equal annual installments commencing one year after the grant date.
- (2) The potential realizable value is calculated from the exercise price per share, assuming the market price of Qualstar's common stock appreciates in value at the stated percentage rate from the date of grant to the expiration date. Actual gains, if any, are dependent on the future market price of the common stock.
