## Item 5. Other Events

On July 2, 2003, PG&E Corporation announced the closing of its private placement of \$600 million in aggregate principal amount of its 6 7/8 percent Senior Secured Notes due 2008. The notes are secured by a pledge of approximately 94 percent of the outstanding common stock of PG&E Corporation's principal subsidiary, Pacific Gas and Electric Company.

The net proceeds of the offering, together with cash on hand, were used to pay approximately \$811 million under PG&E Corporation's existing credit agreement, including outstanding principal, all accrued interest and prepayment premiums. The payment also resulted in the termination of PG&E Corporation's existing credit agreement and the release of liens on PG&E Corporation's equity ownership of PG&E National Energy Group, LLC and on PG&E National Energy Group, LLC's shares of PG&E National Energy Group, Inc.

The notes were offered within the United States only to qualified institutional investors pursuant to Rule 144A under the Securities Act of 1933 and, outside the United States, only to non-U.S. investors. The offer and sale of the 6 7/8 percent Senior Secured Notes due 2008 have not been registered under the United States Securities Act of 1933 or under any state securities laws and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements under the Securities Act and applicable state securities laws.

PG&E Corporation has agreed to file a registration statement with the Securities and Exchange Commission relating to an offer to exchange the notes for publicly tradable notes having substantially identical terms to the notes offered in this private placement. In addition, PG&E Corporation may be required to file a shelf registration statement covering resales of the notes.
