ITEM 2. ACQUISITION OF ASSETS

On May 20, 2003, United States Steel Corporation (the "Corporation") completed the acquisition of substantially all of the integrated steelmaking assets of National Steel Corporation (the "Acquisition"). The Corporation intends to continue to use the acquired assets in the business of producing steel. The press release announcing the completion of the acquisition, which is filed as Exhibit 99.1 to this Form 8-K and is hereby incorporated by reference, contains a more complete description of the event.

The aggregate purchase price of the Acquisition was \$1.05 billion, consisting of \$850 million in cash and \$200 million in assumed obligations. The purchase price was determined by arm's-length negotiations between the Corporation and National Steel Corporation. The cash portion of the purchase price was financed in part from the net proceeds of a \$450 million offering of the Corporation's 9 3/4%
