Item 1 Financial Statements

OM GROUP, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

June 30, 2003

(Thousands of dollars, except as noted and per share amounts)

Note A

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair financial presentation have been included. Past operating results are not

necessarily indicative of the results which may occur in future periods, and the interim period results are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended

December 31, 2002. **Note B Divestitures of Precious Metals (Subsequent Event) and SCM Metals, Inc.** On June 3, 2003, the Company announced that it had entered into a definitive agreement with Umicore to sell its Precious Metals business (PMG business). This business is comprised of the Precious Metal Chemistry and Metal Management reportable segments, which were acquired by the Company from

Degussa in August 2001. The sale to Umicore was completed on July 31, 2003, on which date the Company received gross proceeds of 697 million, or \$814 million, before transaction costs, taxes and expenses. The PMG business has been classified as a discontinued operation, and the consolidated financial statements of prior periods have been restated, where applicable, to reflect this business as a discontinued operation. The transaction and related gain on sale will be recorded in the third quarter of 2003. The gross proceeds were used to repay the Company's outstanding indebtedness under its Senior credit facilities. The net proceeds from the sale are expected to be approximately \$730 million, after transaction costs and expenses and taxes. During June 2003, the Company

received a commitment for a new \$150 million revolving credit facility. The new facility, which closed on August 7, 2003, bears interest at an interest rate of LIBOR plus 2.00% to 3.00% or PRIME plus 0.25% to 1.25%, matures in August 2006 and includes covenants that are less stringent than those in the previous Senior facility. On April 1, 2003, the Company completed its previously announced sale of its copper powders business SCM Metal Products, Inc. for proceeds of \$65 million before transaction costs and expenses. The net proceeds, which are included in Cash provided by discontinued operations in the Condensed Statements of Consolidated Cash Flows, were used to repay a portion of the Company's outstanding indebtedness.

under its credit facilities.

There was no gain or loss recorded on that date, as the business was written-down to fair value in the fourth quarter of 2002. This business has been presented as a discontinued operation for all periods presented. Operating results of discontinued operations are summarized as follows (in millions):

Table of Contents

	Three Months Ended June 30,		Six Months Ended June 30,

Interest expense allocated	14.0	12.5	29.1	23.4
Income taxes	2.9	2.0	6.8	2.0

The operating results summarized above include an allocation of consolidated interest expense, based upon the estimated net proceeds from the sales of the respective discontinued businesses that are required to be used to re-pay amounts under the Company's credit facilities.

The assets and liabilities of these businesses, which have been classified as Assets of Discontinued Operations and Liabilities of Discontinued Operations in the Consolidated Balance Sheet, consist of the following (in millions):

Current assets include primarily accounts receivable and inventories.

Note C**Restructuring Charges**

During the first quarter of 2003, the Company recorded restructuring charges related to continuing operations of \$3.8 million. These charges, which represent the continuation of the Company's restructuring plan that commenced in the fourth quarter of 2002, are recorded in a separate line in the Condensed Statement of Consolidated Operations. Restructuring liabilities for continuing operations at December 31, 2002, charges taken in the first quarter of 2003, and amounts utilized in 2003 to date are summarized as follows (in millions):

Note E Contingent Matters

The Company is a party to various legal proceedings incidental to its business and is subject to a variety of environmental and pollution control laws

and regulations in the jurisdictions in which it operates. As is the case with other companies in similar industries, the Company faces exposure from actual or potential claims and legal proceedings involving environmental matters.

Although it is very difficult to quantify the potential impact of compliance with or liability under environmental protection laws, management believes that the ultimate aggregate cost to the Company of environmental remediation, as well as other legal proceedings arising out of operations in the normal course of business, will not result in a material adverse effect upon its financial condition or results of operations. **Note**

Note H Stock Compensation Adoption of SFAS No. 148

In December 2002, SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure, was issued. SFAS No. 148 amends SFAS No. 123, Accounting for Stock-Based

Compensation, to provide alternative methods of transition when a company voluntarily changes to the fair value-based method of recognizing expense in results of operations for stock-based employee compensation, including stock options granted to employees. Prior to 2003, the Company accounted for stock-based employee compensation under APB No. 25, Accounting for Stock Issued to Employees, and related Interpretations. Under APB 25, compensation expense has been recorded for restricted stock granted to certain executive officers, but no expense was recorded for stock options granted to employees, as all options had an intrinsic value of zero on the date of grant. During the second quarter of 2003, the Company voluntarily adopted, effective January 1, 2003, the fair value recognition

provisions of SFAS No. 123, Accounting for Stock-Based Compensation. Under the prospective method of adoption selected by the Company under the provisions of SFAS No. 148, the recognition provisions will be applied to all employee awards granted, modified or settled after January 1, 2003. As such, net income for 2003 will include expense for stock options granted to employees in 2003; there have been no such grants during the six months ended June 30, 2003. If the Company had previously elected to adopt the fair value provisions of SFAS No. 123 and thereby recorded compensation expense related to employee stock options, pro forma results of operations would have been as follows:

Note I

Income taxes as a percentage of income from continuing operations before income taxes and minority interests for the six months ended June 30, 2003 were 21.7% compared to 29.2% in the same period in 2002. These effective rates are lower than the statutory rate in the United States due primarily to significant income earned each period in Malaysia, where the Company has a tax holiday, and the allocation of a portion of interest expense in the United States to discontinued operations, which effectively shifted a portion of the U.S. net operating loss without a corresponding tax benefit to discontinued operations. The lower rate in 2003 compared to 2002 is due primarily to higher earnings in the tax holiday country of Malaysia.

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

On June 3, 2003, the Company announced that it had entered into a definitive agreement to sell its Precious Metals business (PMG) to Umicore. This business is comprised of the Company's Precious Metal Chemistry and Metal Management reportable segments, which were acquired by the Company from Degussa in August 2001. The sale to Umicore was completed on July 31, 2003. The PMG business has been classified as a discontinued operation, and prior periods have been restated to reflect this business as a discontinued operation. The continuing operations of the Company represent the historical base metals business for all periods presented.

Three Months Ended June 30, 2003 Compared to Three Months Ended June 30, 2002 Net sales for the three months ended June 30, 2003 were \$196.7 million, an

increase of 7.8% compared to the same period in 2002. The increase was the result of higher metal market prices for cobalt and nickel, resulting in higher selling prices for the Company's products. This increase was partially offset by lower metal-contained sales volumes, due primarily to lower nickel volumes for the quarter. The following information summarizes market prices of the primary raw materials used by the Company:

	Market Price Ranges per Pound Three Months Ended June 30,	
	2003	2002
Cobalt - 99.3% Grade	\$8.68 to \$9.45	\$6.55 to \$8.45
Nickel	\$3.56 to \$4.25	\$2.97 to \$3.33

The following information summarizes the physical volumes of metals sold:

Gross profit decreased to \$34.9 million, or 17.8% of net sales, for the three month period

Table of Contents

ended June 30, 2003, a 32.3% decrease compared to \$51.7 million, or 28.3% of net sales, for the same period in 2002. The decrease in gross profit was primarily due to the negative impact of the strengthened euro against the dollar on the Company's manufacturing expenses in Finland; increased raw material costs; LIFO charges in 2003 compared to benefits in 2002; and lower nickel production volumes at the Company's facility in Harjavalta, Finland due to a planned maintenance shut-down. The effects were partially offset by the positive impact of higher cobalt and nickel prices.

Selling, general and administrative expenses in 2003 increased as a percentage of sales, to 10.5% in 2003 compared to 10.0% in the 2002 period. This increase is primarily the result of the impact of the strengthened euro against the dollar in 2003 compared to 2002, partially offset by cost reductions from restructuring activities initiated in the fourth quarter of 2002. When the euro strengthens against the dollar, selling, general and administrative expenses at the Company's facilities in Europe are translated into dollars at a higher rate, resulting in higher dollar expenses. Other expense net was \$7.0 million for the three-month period ended June 30, 2003, compared to income of \$3.9 million for the same period in 2002, due primarily to higher interest

expense in 2003 compared to 2002 as a result of higher interest rates under the Company's December 2002 credit agreement and higher average outstanding borrowings, and smaller foreign exchange gains in 2003 (\$3.2 million) compared to 2002 (\$6.9 million). Income taxes as a percentage of income from continuing operations before income taxes and minority interests were 21.0% compared to 22.4% in the same period in 2002. These effective rates are lower than the statutory rate in the United States due primarily to significant income earned each period in Malaysia, where the Company has a tax holiday, and the allocation of a portion of interest expense in the United States to discontinued operations, which effectively shifted a portion of the U.S. net operating loss without a corresponding tax benefit to discontinued

operations. Loss from discontinued operations was \$2.9 million in 2003 compared to \$3.4 million in 2002. The improvement is due primarily to the sale of certain unprofitable operations on or before April 1, 2003, which therefore impacted 2002 but not 2003, partially offset by higher interest expense as a result of higher interest rates in the current year period. Net income for the three-month period ended June 30, 2003 was \$4.4 million, compared to net income of \$25.5 million for the corresponding period in 2002, due primarily to the aforementioned factors. *Six Months Ended June 30, 2003 Compared to Six Months Ended June 30, 2002* Net sales for the six months ended June 30, 2003 were \$406.1 million, an increase of 16.3% compared to the same period in 2002. The increase was the result of higher metal market prices

for cobalt and nickel, resulting in higher selling prices for the Company's products. This increase was partially offset by lower metal-contained sales volumes, due primarily to lower nickel volumes for the period. The following information summarizes market prices of the primary raw materials used by the Company:

	Market Price Ranges per Pound Six Months Ended June 30,	
	2003	2002
Cobalt - 99.3% Grade	\$6.45 to \$9.45	\$6.40 to \$8.45

The following information summarizes the physical volumes of metals sold:

(in millions of pounds)	Six Months Ended June 30,		Percentage Change

Nickel	57.0	59.5	-4.2%

Table of Contents

Gross profit decreased to \$70.4 million, or 17.3% of net sales, for the six-month period ended June 30, 2003, a 28.8% decrease compared to \$98.9 million, or 28.3% of net sales, for the same period in 2002. The decrease in gross profit was primarily due to the negative impact of the strengthened euro against the dollar on the Company's manufacturing expenses in Finland; LIFO charges in 2003 compared to benefits in 2002; and lower nickel production volumes at the Company's facility in Harjavalta, Finland due to a planned maintenance shut-down. The effects were partially offset by the positive impact of higher cobalt and nickel prices and healthy demand in certain key end-markets.

Selling, general and administrative expenses in 2003 remained flat at 10.9% of sales compared to the 2002 period. These amounts were impacted positively in 2003 by cost reductions from restructuring activities initiated in the fourth quarter of 2002, which were offset by the impact of the strengthened euro against the dollar in 2003 compared to 2002, and additional restructuring charges of \$3.8 million recorded in the first quarter of 2003. Other expense net was \$19.2 million for the six-month period ended June 30, 2003, compared to \$3.1 million for the same period in 2002, due primarily to higher interest expense in 2003 compared to 2002 as a result of higher interest rates under the

higher earnings in the tax holiday country of Malaysia. Loss from discontinued operations, net of income taxes was \$10.3 million in 2003 compared to income of \$8.0 million in 2002, due primarily to restructuring changes taken in 2003, higher interest expense as a result of higher interest rates, and higher tax expense.

Net loss for the six-month period ended June 30, 2003 was \$3.4 million, compared to net income of \$48.9 million for the corresponding period in 2002, due primarily to the aforementioned factors.

Liquidity and Capital

Resources

During the six-month period ended June 30, 2003, the Company's net working capital increased by approximately \$40.7 million. This increase was primarily the result of a decrease in accounts payable of \$30.9 million due to prepayments made by the Company for

certain raw materials during the quarter, and an increase in accounts receivable of \$14.3 million due to higher sales in the second quarter of 2003 compared to the fourth quarter of 2002. Capital expenditures in 2003 were \$2.2 million and primarily related to ongoing projects to maintain current operating levels. During the six months ended June 30, 2003, the Company's total debt balances decreased to \$1.153 billion from \$1.194 billion. This decrease represents primarily cash repayments using the net proceeds from the sale of SCM Metal Products, Inc. on April 1, 2003 (See Note B). Subsequent to June 30, the Company completed the sale of its Precious Metals business to Umicore for cash proceeds of \$814 million, before transaction costs, taxes and expenses (See Note B). The gross proceeds were used to repay the Company's

outstanding indebtedness under its Senior Credit facilities. The Company's \$400 million Senior Subordinated Notes remain outstanding. The net proceeds from the sale are expected to be approximately \$730 million, after transaction costs and expenses and taxes. During June 2003, the Company received a commitment for a new \$150 million revolving credit facility. The new facility, which closed on August 7, 2003, bears interest at an interest rate of LIBOR plus 2.00% to 3.00% or PRIME plus 0.25% to 1.25%, matures in August 2006 and includes covenants that are less restrictive than those in the previous Senior facility.
