NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2005

Note 1 **ORGANIZATION AND NATURE OF BUSINESS**

Diamond Hill Investment Group, Inc. (the Company) is an Ohio corporation incorporated in May 2002, previously a Florida corporation since April 1990. The Company has one operating subsidiary.

Diamond Hill Capital Management, Inc. (DHCM), an Ohio corporation, is a wholly owned subsidiary of the Company and a registered investment advisor. DHCM is the investment adviser to the Diamond Hill Funds, a series of open-end mutual funds. DHCM is also the investment adviser to the Diamond Hill Investment Partners, L.P. (DHIP) and to institutional and individual investors.

Note 2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses for the periods. Actual results could differ from those estimates. The following is a summary of the Company's significant accounting policies:

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year financial presentation.

Principles of Consolidation

The accompanying consolidated financial statements include the operations of the Company and DHCM. All material inter-company transactions and balances have been eliminated in consolidation.

Cash

The Company has defined cash as demand deposits, certificate of deposits and money market funds.

Accounts Receivable

Accounts receivable are recorded when they are due and are presented in the statement of financial condition net of any allowance for doubtful accounts. Accounts receivable are written off when they are determined to be uncollectible. Any allowance for doubtful accounts is estimated on the Company's historical losses, existing conditions in the industry, and the financial stability of those individuals that owe the receivable. No allowance for doubtful accounts was deemed necessary at June 30, 2005.

Valuation of Investment Portfolio

Investments in mutual funds are valued at their current net asset value. Investments in DHIP are valued based on readily available market quotations. Realized and unrealized gains and losses are included in investment profits and losses.

Note 2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)**Limited Partnership Interests**

DHCM is the managing member of Diamond Hill General Partner, LLC, the General Partner of DHIP, a limited partnership whose underlying assets consist of marketable securities. DHCM's investment in DHIP is accounted for using the equity method, under which DHCM's share of the net earnings or losses from the partnership is reflected in income as earned and distributions received are reflected as reductions from the investment. Several board members, officers and employees of the Company are members in Diamond Hill General Partner, LLC and collectively represent 11% of the partnership's total net assets as of June 30, 2005. The capital of Diamond Hill General Partner, LLC is not subject to a management fee or an incentive fee.

Property and Equipment

Property and equipment, consisting of computer equipment, furniture, and fixtures, is carried at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over estimated lives of three to seven years.

Revenues

Securities transactions and commissions are accounted for on the trade date basis. Dividend income is recorded on the ex-dividend date and interest income is accrued as earned. Realized gains and losses from sale of securities are determined utilizing the specific identification method.

Earnings Per Share

Basic and diluted earnings per common share are computed in accordance with Statement of Financial Accounting Standards No. 128, Earnings per Share. A reconciliation of the numerators and denominators used in these calculations is shown below:

For the six months ended June 30, 2005:

	Numerator	Denominator	Amount
Basic Earnings	\$911,836	1,632,216	\$0.56
Diluted Earnings	\$911,836	1,950,530	\$0.47

For the six months ended June 30, 2004:

	Numerator	Denominator	Amount

Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)Earnings Per Share (Continued)

	Numerator	Denominator	Amount
Basic Earnings	\$515,202	1,642,042	\$0.31
Diluted Earnings	\$515,202	1,951,967	\$0.26

For the three months ended June 30, 2004:

	Numerator	Denominator	Amount

Diluted Earnings	\$(233,806)	1,533,715	\$(0.15)

Stock options and warrants have not been included in the denominator of the diluted per-share computations for those periods with a net loss because the effect of their inclusion would be anti-dilutive.

Equity Compensation Grants

On May 13, 2004 the Company's shareholders approved terms and conditions of certain equity compensation grants to three key employees. Under the approved terms a total of 75,000 shares of restricted stock and restricted stock units were issued to the key employees on May 31, 2004. Equity Incentive Plan

On May 12, 2005 at the Company's annual shareholder meeting, shareholders approved and the Company adopted the 2005 Employee and Director Equity Incentive Plan (the Plan). The Plan authorizes the issuance of up to 500,000 shares of the Company's common stock in various forms of stock or option grants. The Plan provides that the Board of Directors, or a committee appointed by the Board, may grant awards and otherwise administer the Plan. As of June 30, 2005 no shares have been issued under the Plan.

Stock Option Plan

The Company adopted a Non-Qualified and Incentive Stock Option Plan in 1993 that authorized the grant of options to purchase an aggregate of 500,000 shares of the Company's Common Stock. The Plan provides that the Board of Directors, or a committee appointed by the Board, may grant options and otherwise administer the Option Plan. The exercise price of each incentive stock option or non-qualified stock option must be at least 100% of the fair market value of the Common Stock at the date of grant, and no such option may be exercisable for more than ten years after the date of grant. However, the exercise price of each incentive stock option granted to any shareholder possessing more than 10% of the combined voting power of all classes of capital stock of the Company on the date of grant must not be less than 110% of the fair market value on that date, and no such option may be exercisable more than five years after the date of grant. This Plan expired by its terms in November 2003. Options issued under this Plan are not affected by the Plan's expiration. All outstanding options, reflected in the tables following, were issued under this plan. Of the warrants shown in the tables following, 70,400 were issued pursuant to this plan.

The Company applies Accounting Principles Board Opinion 25 and related Interpretations (APB 25) in accounting for stock options and warrants issued to employees and Directors. Accordingly, compensation cost is recognized based on the intrinsic value of the stock options or warrants.

Had compensation cost for all of the Company's stock-based awards been determined in accordance with FAS 123, the Company's net income and earnings per share would have been reduced to the pro forma amounts indicated below:

	Three Months Ended		Six Months Ended	
	June 30		June 30	
	2005	2004	2005	2004
Net income, as reported	515,202	(233,806)	911,836	(314,028)
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(12,885)	(32,339)	(27,594)	(72,360)
Pro forma net income	502,317	(266,145)	884,242	(386,388)
Earnings per share:				
Basic as reported	0.31	(0.15)	0.56	(0.21)
Basic pro forma	0.31	(0.17)	0.54	(0.25)
Diluted as reported	0.26	(0.15)	0.47	(0.21)
Diluted pro forma	0.26	(0.17)	0.45	(0.25)

To make the computations of pro forma results under FAS 123, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: no dividend yield for all years and expected lives of ten years. The options and warrants granted under these plans are not registered and, accordingly, there is no quoted market price.

Note 8 **MUTUAL FUND ADMINISTRATION**

DHCM has an administrative, fund accounting and transfer agency services agreement with Diamond Hill Funds, an Ohio business trust, under which DHCM performs certain services for each series of the trust. These services include mutual fund administration, accounting, transfer agency and other related functions. For performing these services, each series of the trust compensates DHCM a fee at an annual rate of 0.40% for Class A and Class C shares and 0.20% for Class I shares times each series average daily net assets. In addition, DHCM finances the up-front commissions paid to brokers who sell C shares of the Diamond Hill Funds. As financier, DHCM pays the commission to the selling broker at the time of sale. This commission payment is capitalized and expensed over 12 months to correspond with the matching revenues DHCM receives from the principal underwriter to recoup this commission payment. DHCM collected \$858,334 and \$382,940 for mutual fund administration revenue for the six months ended June 30, 2005 and 2004, respectively; and for the three months ended June 30, 2005 and 2004, DHCM collected \$458,888 and \$178,474 for administration revenue, respectively. In fulfilling its role under this agreement, DHCM has engaged several third-party providers, and the cost for their services is paid by DHCM. Mutual fund administration expense for the six months ended June 30, 2005 and 2004 was \$976,036 and \$527,863, respectively, and for the three months ended June 30, 2005 and 2004 was \$502,458 and \$268,039, respectively. Effective April 30, 2005, DHCM reduced the fee it charges for administrative services for Class A and Class C shares from 0.45% to 0.40%.

Asset growth for the six months and year ended June 30, 2004 is not necessarily indicative of the results that may be expected for the entire fiscal year ended December 31, 2005. The table below provides a summary of assets under management:

	6/30/2005	12/31/2004	6/30/2004
Individually Managed Accounts	\$334,830,632	\$265,428,049	\$183,245,008
Mutual Funds	395,850,029	237,625,466	125,405,799

Total Assets Under Management	\$810,716,819	\$523,793,479	\$321,963,670

Three months ended June 30, 2005 compared to Three Months ended June 30, 2004

Investment management revenues for the three months ended June 30, 2005 increased to \$1,382,712 compared to \$519,386 for the three months ended June 30, 2004, a 166% increase. This revenue increase was driven by the increase in assets under management.

The Company increased its investment management revenue from all three of its investment products - mutual funds, managed accounts and a private investment partnership. Revenue from mutual funds posted the largest dollar increase over the three months ended June 30, 2005 and 2004, increasing to \$674,744 from \$214,747, a 214% increase. Revenue from managed accounts increased 87% for the three months ended June 30, 2005 compared to the three months ended June 30, 2004. Investment management revenue from

DHIP improved by 477%, over the three months ended June 30, 2004. These fees grew from \$35,322 to \$203,842. The primary driver of this significant increase was an increase in assets under management and incentive fee revenue earned due to the strong investment performance achieved during the quarter. While the increase in assets under management results in recurring revenue, the incentive fee revenue is based on investment performance and therefore there can be no assurance that this will be recurring revenue.

Operating expenses for the three months ended June 30, 2005 increased to \$885,074 compared to \$670,747 for the three months ended June 30, 2004, an increase of 32%. The majority of this increase was due to an increase in salaries, benefits and payroll taxes which grew by 32% to \$661,029 from \$502,449. The board has initiated a review of the compensation of all Company staff including base salary, cash incentives and equity incentives. The review will include an assessment of the current compensation structure as compared to other organizations in the investment management industry and the performance of the company's staff, particularly its investment team. The board expects to finalize a new compensation program by November 2005. Performance bonuses, which are expected to be significant, will be finalized by the fourth quarter. The Company anticipates that it will earn a profit for the full year including the impact of the new compensation program.

Mutual fund administration, which represents administrative and financing fees collected in connection with the Company's mutual fund products net of all mutual fund administration and financing expenses paid by the Company, decreased from a net expense of \$89,565 for the three months ended June 30, 2004 to a net expense of \$43,570 for the three months ended June 30, 2005, a 51% improvement. A portion of the current quarter's net expense was due to one time expenses related to the offering of new Class I shares, which are offered to institutions and advisors. Due to the significant increase in assets under management in the Diamond Hill Funds (the Funds), the Company voluntarily decreased the fees it charges to the Funds. This fee reduction will help improve investment performance of the Funds and as a result better position the Funds among competitors. The Company anticipates that mutual fund administration activity will be close to breakeven sometime during the next two quarters. DHCM has an administrative, fund accounting and transfer agency services agreement with the Funds, where DHCM performs certain services for each of the Funds. DHCM collected \$458,888 and \$178,474 for mutual fund administration revenue for the three months ended June 30, 2005 and 2004, respectively. In fulfilling its role under this agreement, DHCM has engaged several third-party providers and the cost for their services is paid by DHCM. Mutual fund administration expense for the three months ended June 30, 2005 and 2004 were \$502,458 and \$268,039, respectively. As assets under management grow in the mutual fund products, the Company expects fees collected to increase, while the Company expects expenses paid to increase but not as quickly as fees are collected; therefore, causing the net mutual fund administration expense to decrease.

The Company's net operating income improved from a net loss of \$151,361 for the three months ended June 30, 2004 to a net income of \$497,638 for the three months ended June 30, 2005. This improvement is primarily due to the significant increase in assets under management.

Investment return increased to a gain of \$61,134 for the three months ended June 30, 2005 from a gain of \$7,120 for the three months ended June 30, 2004. This increase in investment gain results primarily from increases in market values of investments in the private investment partnership. Management is unable to predict how future fluctuations in market values will impact the performance of the Company's investment portfolios.

Six months ended June 30, 2005 compared to six months ended June 30, 2004

Investment management revenues for the six months ended June 30, 2005 increased to \$2,596,377 compared to \$985,445 for the six months ended June 30, 2004, a 163% increase. This revenue increase was driven by the increase in assets under management.

Revenue from managed accounts increased 82% for the six months ended June 30, 2005 compared to the six months ended June 30, 2004. Investment management revenue from DHIP improved by 589%, over the six months ended June 30, 2004. These fees grew from \$67,491 to \$465,198. The primary driver of this significant increase was an increase in assets under management and incentive fee revenue earned due to the strong investment performance achieved during the period. While the increase in assets under management results in recurring revenue, the incentive fee revenue is based on investment performance and therefore there can be no assurance that this will be recurring revenue.

Operating expenses for the six months ended June 30, 2005 increased to \$1,733,590 compared to \$1,262,849 for the six months ended June 30, 2004, an increase of 37%. The majority of this increase was due to an increase in salaries, benefits and payroll taxes which grew by 40% to \$1,300,444 from \$925,915. The board has initiated a review of the compensation of all Company staff including base salary, cash incentives and equity incentives. The review will include an assessment of the current compensation structure as compared to other organizations in the investment management industry and the performance of the company's staff, particularly its investment team. The board expects to finalize a new compensation program by November 2005. Performance bonuses, which are expected to be significant, will be finalized by the fourth quarter. The Company anticipates that it will earn a profit for the full year including the impact of the new compensation program.

Mutual fund administration, which represents administrative and financing fees collected in connection with the Company's mutual fund products net of all mutual fund administration and financing expenses paid by the Company, decreased from a net expense of \$144,923 for the six months ended June 30, 2004 to a net expense of \$117,702 for the six months ended June 30, 2005, a 19% improvement. A portion of the current period's net expense was due to one time expenses related to the offering of new Class I shares, which are offered to institutions and advisors. The Company anticipates that mutual fund administration activity will be close to breakeven sometime during the next two quarters. DHCM collected \$858,334 and \$382,940 for mutual fund administration revenue for the six months ended June 30, 2005 and 2004, respectively. Mutual fund administration expense for the six months ended June 30, 2005 and 2004 were \$976,036 and \$527,863, respectively. As assets under management grow in the mutual fund products, the Company expects fees collected to increase, while the Company expects expenses paid to increase but not as quickly as fees are collected; therefore, causing the net mutual fund administration expense to decrease.

The Company's net operating income improved from a net operating loss of \$277,404 for the six months ended June 30, 2004 to a net operating income of \$862,787 for the six months ended June 30, 2005. This improvement is primarily due to the significant increase in assets under management.

Investment return increased to a gain of \$166,751 for the six months ended June 30, 2005 from a gain of \$108,299 for the six months ended June 30, 2004. This increase in investment gain results primarily from increases in market values of investments in the private investment partnership. Management is unable to predict how future fluctuations in market values will impact the performance of the Company's investment portfolios.
